systematic media training program, teaching parents to train preschool mentally retarded children in self-help skills, 11664 tolerance & stability, backward child nurturance, parents, 9481

training parents in group situation to use behavior modification techniques, maladaptive behavior frequency, learning disabled children, 5255

withdrawal of parental attention, vomiting, retarded child, 7520 Parent Educational Background

familial environment, intellectual development, children, 8831

family size & density & maternal attitude & education level & socjoeconomic status, school readiness, kindergarten children, 12068

father's education vs. parental language & ethnicity & social class, academic achievement, Peruvian 5th graders, 9894

father's educational level & family size, intelligence & academic performance, Iranian 17 19 yr. olds, 8840

home background & relationships with parents & personality attributes & vocational behaviors & parents' educational level & father's occupation, 10th-12th graders & dropouts, 3337 malnutrition & biosocial correlates of height, cognitive develop-

ment, tall vs. short children, 6573

marital status & education of mother & father & teacher predictions & race & sex & reading readiness & intelligence & degree of handicap, school success vs. failure, culturally disadvantaged children, 10040

mother's educational attainment & maternal working, IQ & scholastic aptitude & academic achievement & parental & teacher expectations & parental aspiration of child, 3rd 12th graders, 3204 parent educational background, child psychomotor development &

adaptability, 10801

parental aspirations & family socioeconomic status, educational achievement, children, 11898

parental education & occupational status, political & social values & political protest activity, college freshmen, 8921

parental educational level & average family income, black freshmen attending predominantly black colleges, 1967-1969, 5553

self concept & academic achievement & parent educational background & socioeconomic status & psychological needs, career decision making abilities, community college students, 12122

self concept & age & socioeconomic status & grades & weekly employment & parents' educational background, transfer vs. occupational community college students, 12012

self-reported views about academic success & failure & parents' occupation & education level & father's presence at home, academic achievement, Negro college students, 12114

Parental Absence (See also Father Absence, Mother Absence)

childhood family size & intactness & working mother, external constraint rejection & subjectivism & intellectual functioning & psychological well-being sense, adult males, 640

lost parent phantom, orphan state & psychiatric pathology, children, 9354

psychopathology & training procedure & urological pathology, nocturnal enuresis, enuretic children, 4615

recognition of optimal state of tensions in patient, termination of analysis, parent-loss case, 3029

substitute group family care, emotional development, deserted children, 2148

Parental Attitudes

adjective pairs chosen from Osgood-Suci-Tannenbaum pool with Catholic School as cognitive object to be judged on 7-point scale, parental attitudes toward Catholic education, parents in East & Midwest dioceses, 3278

attitudes toward & legal vs. illegal drug use, college students & parents, 11025

attitudes toward rights & roles of women in contemporary society, Attitudes toward Women Scale, male & female college students & their parents, 6764

attitudes toward training program & personnel & facilities of development center for handicapped minors, mothers & staff,

authoritarianism & acceptance of hospital authority, mothers of 5 yr. olds who were hospitalized vs. never hospitalized, 8857

Child's Report of Parental Behavior Inventory, recall of parental acceptance vs. rejection & psychological autonomy vs. control & firm vs. lax control during adolescence, college students, 2070

Danish Binet test & group school readiness tests & informations on kindergartens & schools to be entered, guidance to parents concerning school admission, children under 6 yr. old, 9952

developmental stage of child, reactivation of parents' infantile conflicts, parents of 2-8 mo. olds vs. parents of 20-26 mo. olds,

family income supplementation & occupational prestige & work elements & personal motives & attitude towards vocational education for girls, employment for women, 1412

family size & density & maternal attitude & education level & socioeconomic status, school readiness, kindergarten children,

immediate vs. anticipated emergency placement, decision for retardate institutionalization, families of retarded applicants, 2868 integrating borderline educable mentally retarded in regular high school classes, teacher & parent & student attitudes, 11839

mothers' vs. teachers' assessment & predictive validity by Preschool Attainment Record, school readiness, 5 yr. olds, 7879

opinions toward vocational training program, parents of educable retarded adolescents, 9830

outpatient guidance, parental readjustment, parents of retardates,

parent attitudes & home learning climate, learning readiness, kindergartners, 5417

parent characterization of children, parent vs. student perception of university life, parents of college students & freshmen vs. upperclassmen, 9864

parent's perceptions of schooling problems, IQ & social maturity, school withdrawal, retarded children & parents, 11995

parental & peer & adult attitudes, 13 yr. old Swedish adolescents, 6459

parental acceptance & reinforcement & confrontation & cooperation, nonpersonal goal involvement, 10th yr. lyceum students, 648 parental anxiety & child behavior disorder, direction of causality,

parental attitudes & preschool experiences, intellectual develop-ment, disadvantaged children, 11865

parental attitudes toward psychotherapeutic evaluation & treatment, child guidance clinic in rural area, 11556

parental attitudes, occupational interests, postgraduate students, examination of A. Roe's hypothesis, 5293 parental attitudes, social abilities development & perceptual-motor

skills, deaf children, 1054

parental child rearing attitudes, parents of adolescents who attempted suicide, 2770

parental fantasies, structuring of family dynamics, adoptive family,

parental guidance in understanding characteristics of retarded & therapeutic activity for children in kinetic function & group play therapy & musical play, preschool age retardates & their parents, 9635

parents' perceptions of adolescents' self-concept vs. adolescents' self-concepts, 9th graders & parents, 11047

perceptions of large midwestern university, generation gap, college students vs. parents, 1365

sibling death in childhood, parents & surviving siblings, 10807 social class & similarity to own child's maladaptive behavior,

treatment-seeking attitude, parents of problem vs. normal children, 5169 supportive group experience, attitudes & parent child relationships,

mothers of poorly adjusted sons, 11952 tolerance & stability, backward child nurturance, parents, 9481 underachievement in reading, aspirations & parental expectations,

children, 10052

value congruence, Catholic high school seniors & parents, 11100
16 PF & Cornell Medical Index & H.I.P. Pregancy Questionnaire & Loevinger Parent Attitude Test, psychological aspects of preeclamptic toxaemia, married primiparae, 7261

Parental Authoritarianism (See Parental Permissiveness)

Parental Influence (See Parent Child Relations)

Parental Occupation

children in psychiatric clinics in Paris vs. Rome, comparison with teacher parent, 11610

educational-occupational stratification, mental retardation, mental retarded in special classes & special education groups vs. local community 1st 7th grades, 11975

educational-occupational stratification, retardates receiving special education in arithmetic vs. suburban 2nd 7th graders, 9973 educational-occupational stratification, severe reading retarded vs.

suburban 2nd 7th graders, 11976 ethnic group & family income & working status & broken home & religious activity & school failure & dropout & behavior,

recidivism, juveniles referred to Juvenile Court, 9313 family income supplementation & occupational prestige & work elements & personal motives & attitude towards

education for girls, employment for women, 1412 father's occupation, skill attainment, high school students, 3348 home background & relationships with parents & personality attributes & vocational behaviors & parents' educational level & father's occupation, 10th 12th graders & dropouts, 3337

parental education & occupational status, political & social values & political protest activity, college freshmen, 8921
parental occupation, criterion for standardization of WISC, black

vs. white elementary school children, 9933

sex & grade level & occupational group, personal & interpersonal

values, 9th 12th graders, 12087

WISC IQ & sex & parental occupation & social class & teacher behavior, classroom task attention & avoidance & administrative time, young children & student teachers in infant classrooms, 5401

1-trial vs. multitrial vs. no information situational context & parental occupation, cooperative/competitive responses in Prisoner's Dilemma game, bureaucratic vs. entrepreneurial college students, 11112

Parental Permissiveness

Child's Report of Parental Behavior Inventory, recall of parental acceptance vs. rejection & psychological autonomy vs. control & firm vs. lax control during adolescence, college students, 2070

maternal general personality & childrearing conceptualization maturity & directiveness, moral reasoning maturity, educable mentally retarded children, 2581

maternal verbal communication, resistance to temptation, 9 10 yr. olds of Canadian- vs. Italian mothers, 687

parental acceptance & family stability & consistency of care & discipline & physiological & psychological intactness & innate personality differences, development of individual coping styles, 20 yr. longitudinal study from infancy to childhood, 8806

parental authoritarianism & social power, family task-role behavior, 8-13 yr. old disturbed vs. normal children & parents, 4603

permissive-restrictive maternal control, child behavior, preschool age children, 6579

personal adjustment & academic achievement & science study & interests & permissive parental behavior in the past, need for social approval, male college freshmen, 843

Parental Role

adaptability & interpersonal acceptance, parental teaching behavior, mothers vs. unmarried female college students, 2159

developmental differences, perceived generation differences in moral-ethical value role-taking, college students, 4124

family communication patterns & task orientation & parental role clarity & psychological distance, personality integration, children,

family emotional relationships & parental role models & parental discipline, aggression, 4th 6th grade boys, 4114 family role behavior, annotated bibliography, 2275

family sociology & function & sex roles & parental role socialization, zero population growth, 10945

father deprivation, psychological & intellectual & social consequences, 6653

father's response style & ego functioning & helpfulness with adolescent tasks, son's adolescent development & adjustment,

fatherhood, mental illness, literature review & case reports, 7206 maternal role incompatibility, maternal employment & fertility, urban Latin America, 8929

parent-role substitution by society vs. independent family, functioning in hostile circumstances, clinical observations of Israeli kibbutzim & cooperative farming communities on Jordanian border, 2260

parental authoritarianism & social power, family task-role behavior, 8 13 yr. old disturbed vs. normal children & parents, 4603

parental in-home token reinforcement, social & chore behaviors, 5 10 yr. olds with behavior problems, 11570

person's position in nuclear family as source of power, role-taking ability, 8990

psychoanalytic perspective of parent child roles, family neuroses,

sexual identification & parent identification, marital satisfaction, recently married couples, 6674

stereotypes & universals & conceptual framework, study of grandparenthood, 6526 substitute parent figure roles, hypermaturation, children of mentally

ill parents, 9296

therapist & parental roles, successful treatment, learning-disabled children, 10116

voluntary choice & family life & wife-mother role & work alienation, job commitment, married women, 1450

Parents (See also Adoptive Parents, Fathers, Foster Parents, Mothers, Schizophrenogenic Mothers, Stepparents, Surrogate Parents (Humans), Unwed Mothers) adjustment & attitudes toward disease, hemophiliacs & parents of

hemophiliacs, 9447

attitude to reeducation of their dyslexic children, formerly dyslexic parents, 7709

attitudes & tastes & interests & work or studies & money & possessions & personality & social characteristics & body & sex, self-disclosure & perception of self-disclosure, parents & teenagers, 586

attitudes toward contemporary issues, high school students vs. parents in noncollege working class semirural community, 4168 attitudes toward student unrest & drugs & marriage & work &

sexual behavior, college students vs. parents, 2239

Behavior Classification Project, interrater reliability, parents & teachers & 11 13 yr. olds from schools & outpatient clinics, 7153 communication & unresolved conflict & conflict resolution methods, interaction patterns, parent spouse vs. nonparent spouse vs. parent nonspouse vs. nonparent nonspouse dyads, 9040

contemporary issue attitudes, college students vs. parents vs. grandparents, 8805

continual seeking of professional evaluation, parents of retardates, 11646

defensive processes & affective states & issues presented & adaptive behavior, parent's mourning of child's expected death, counseling guidelines for social workers, 5122

dependency need in self & mate & parents, marital satisfaction, couples married 3 17 yr. & under 40 yr. old, 4345 diagnostic & therapeutic shopping behavior as learned response to

unsatisfactory contacts with professionals, parents of retardates, 11529

educative & interpretive counseling & habilitative involvement, guidance program approach for parents of children with learning disabilities, 1258

family history, morbid risk for affective disorder & alcoholism & other psychological disabilities, parents & siblings of hospitalized unipolar depressives, 1015

group family therapy as alternative to home visits by social workers, parents of retarded children, program description, 7590

MMPI & California F Scale & Parental Attitude Research Instrument & Rokeach Dogmatism Scale scores, parents of child psychiatric patients & psychotherapists & child care workers, 4655

parental tutoring, reading disabilities, 2nd graders, 5511 parental verbal communication abnormalities & IQ, schizophrenic vs. neurotic patients, 2641

patient admission & discharge & parental MMPI scores, hospitalized adolescents, 4794 perception of recorded children's speech, parents vs. undergradu-

ates, 1662

preparation groups, parents of children accepted for psychiatric clinic evaluation, 9808 psychological characteristics & parent-child relationship, enuresis,

parents & patients, 4757 schizophrenia in both parents, psychosis frequency & risk for schizophrenia children, 2695

standardized testing, effects on examinees & teachers & organiza-tions sponsoring tests & parents, studies review, 3244

Paresis (General) (See General Paresis)

Pargyline Parietal Lobe (See also Somatosensory Cortex)

EEG alpha-rhythm recordings from symmetric hemispheric points in parieto-occipital & parieto-temporal & temporo-occipital region, significance as test of cerebral hemisphere dominance, 16 yr. olds, 3779

wakefulness & NREM & REM sleep, spontaneous discharge transformations of single neurons of parietopreoccipital associa-tion cortex, monkeys, 1797

Parkinsons Disease amantadine & L-dopa, rigidity & tremor, parkinsonian syndrome patients, 7372

cognitive impairment & depressive symptoms before & after L-dopa therapy & acute psychotic disorders, Parkinson's disease patients,

EEG recordings during nocturnal sleep, 38-68 yr. old Parkinson's disease patients, 2760

EEG recordings from cortex & deep brain structures, slow electric processes during emotional stimulation, middle-aged postencephalic parkinsonian Ss, 4864

functioning level & social environment & prognosis, L-dopa therapy effectiveness, parkinsonian patients, 11635

L-dopa, memory & visual-motor performance & attention & mood, parkinsonism patients, 5243

L-dopa, mood & thinking & behavior, depression & parkinsonian patients, review, 7468

L-dopa, neuropsychiatric & psychometric effects using Rey's test, parkinsonians, 5128

-dopa, Parkinson's disease, 4993

L-dopa, urinary excretion of L-dopa & dopamine & homovanillic acid & vanilmandelic acid & cerebrospinal fluid & basal ganglia concentrations, Parkinson's disease patients, 2903

levodopa, Parkinson's disease, discussion of 1971 Roche Symposium, 11521

parkinsonism degree & onset & age, intellectual functioning, idiopathic parkinsonism patients, 971 right vs. left sided symptoms & cerebral dominance, tracking &

trapping performance, Parkinson's disease patients, 2583 sentence production, 10 19 yr. old normals vs. Parkinsonians vs.

patients with left vs. right hemisphere brain lesions vs. patients with dementia, 7171

spatial orientation determined by route-walking test, Parkinsonian patients, 9297

Rorschach Test performance, 32 66 yr. old Parkinson's disease patients, 7688

WAIS performance, moderate to severe idiopathic parkinsonian Ss, 4768

Parks (Recreational) (See Recreation Areas)

Parochial School Education (See Private School Education)

Community Treatment Project vs. traditional programs, suspensions & recidivism & discharge favoribility & psychological tests & postdischarge arrest, delinquent adolescents, 11710

conventional vs. no parole supervision, kind & amount of help sought & received within community, good vs. bad risk & male vs. female juvenile delinquents, 11634

parole prediction model, determining relative effectiveness of

treatment approaches, 11403

personality characteristics & age & ethnic background, amount of time served prior to official referral consideration for release, confined narcotics offenders, 1141

psychiatric services integrated into Californian correction system, inmates & parolees, 2913

psychodrama & group counseling vs. films & audiovisual & group discussion vs. probation &/or parole supervision, frustration tolerance & aggression, noninstitutionalized offenders, 7483

20- vs. 50-bed living unit assignments, parole violation rates, neurotic vs. nonneurotic juvenile delinquents, 9637

Parole Officers

measuring attitude towards treatment & punishment of offenders, probation & parole officers, 2721

Parsons (See Ministers (Religion))

Partial Reinforcement (See Reinforcement Schedules)

**Partially Hearing Impaired** 

age & education & previous jobs & degree of hearing loss & school achievement & IQ, predicting job success, hearing disabled Ss,

age & hearing ability, understanding time-compressed & expanded monosyllables, normal & hearing impaired & aged, 9453

audio-visual vs. audio-visual-kinesthetic feedback training procedures, auditory discrimination of pitch, hearing impaired children, 9454

auditory hallucinations, Ss with hearing defects & schizophrenics & Ss during withdrawal from alcoholic psychosis, 1049

clinical psychology, multidisciplinary approach to speech & hearing disorders treatment, 9533

consonant presentation in auditory & visual & auditory-visual modalities, lipreading, normal-hearing & severely hearing-im-paired & profoundly deaf 9 15 yr. olds, 11371

detection of unreliable hearing responses, Doerfler-Stewart Test validity, normal-hearing adults & Veteran's Administration hospital patients, 8211

harmonic distortion in hearing aids, speech intelligibility, normals & hypacusics, 9377

hearing loss & congenital anomalies & therapy & environmental causes, intelligence measures, 4-16 yr. old cleft-lip &/or cleftpalate children, 9395

Hearing Measurement Scale, cochlea disabled males, 9705

high masked-threshold levels simulating moderate to severe hearing loss, auditory temporal integration, normal females, 103

imitation & verbal command teaching methods, verbal behavior modification, 3 yr. old hearing impaired girl, 4940

monaural vs. binaural voice presentation masked by background voices, diagnosis of hearing deficiencies & prediction of binaural hearing aid benefits, normal-hearing & monaural hypacusic males, 2634

nonverbal instructions & special auditory tests, diagnosis of hearing

loss, normally intelligent hearing impaired 5 9 yr. olds, 3230 pre- vs. postoperative Guilford-Zimmerman Temperament Survey scores, 28 66 yr. old otosclerotic adults surgically restored to normal hearing, 2861

Problem Box problem solving ability, hearing-impaired children, 7306

pure-tone & speech & Bekesy audiometry, simulated hearing loss, normal hearing adults, 1575

self-generating distinctive feature model for diagnosis & prognosis & therapy, patients with speech & hearing deficiencies, 2740

white noise in speech discrimination tests, diagnosis of hearing impairments, normal & hearing impaired, 9644

Partially Sighted

blindness vs. partial-sight & age, conservation of substances, 5 15 yr. olds, 1378

color contrast combinations discriminability, partially seeing 8 12 yr. olds, 9414

intelligence, sighted vs. blind retinoblastoma patients vs. siblings,

monocular blinding, discriminating depth accuracy between snapping & orienting distances, frogs, 6275

Participation (See also Group Participation)

activization of student participation, moral instruction process, 3304 attitudes toward patient involvement in treatment planning, patients & staff at mental health center, 5005

discrepancy & issue involvement, opinion change, L. Festinger's cognitive dissonance theory vs. C. I. Hovland & O. J. Harvey & M. Sherif's assimilation-contrast theory, 654

interest areas, willingness to participate in content areas & levels of complexity or ambiguity of problem-solving situations, teachers' college students, 1683

involvement & competence & discrepancy, opinion change, 671

involvement techniques, managerial training, 5610
nonparticipation in follow-up study of retardates previously
institutionalized, validity of conclusions drawn & community adjustment, vocational rehabilitation program graduates, 1125 participation & motivation indicators & elective process perception

& voters's sociopsychological characteristics, Yugoslavia, 2290 participation in leisure activities, intraspousal verbal communica-

tion channels, married couples, 721

questionnaire covering participation in business & economics & history & current events & music & art & literature, cultural informational components, high school students, 2296

rule-making participation, rule-changing flexibility & generalization, kindergartners vs. 1st graders, 628

sociological framework favoring participation & using programed

learning & reinforcement, new teaching methods, 9876 traditional vs. participation courses, initiation into philosophy, students, 9929

Parties (Political) (See Political Parties)

Parturition (See Birth)

Passage (Rites Of) (See Rites Of Passage)

Passive Aggressive Personality

Franck Drawing Completion Test & brief form of CPI Femininity scale, masculine vs. feminine tendencies, paranoid schizophrenics vs. passive-aggressives, 4632

passive-aggressive personality syndrome, sexual behavior characteristics & psychiatric symptoms, long-term follow-up study, 7304

Passive Avoidance (See Avoidance Conditioning)

hypertension & egocentrism & self-acceptance & passivity & emotional tension, 27 53 yr. old male patients, 999
passive-receptiveness & dependency, Roman Catholic priests vs.
Portestant clergymen, 9177

**Pastoral** Counsell

Adlerian principles & counselor goals, pastoral counseling, Honolulu housing project counseling center, 2847

bibliotherapy as adjunct to psychotherapy, improved mental health, pastoral counselors, 5230

definition & contrast with psychotherapy, pastoral counseling, 5067 individualistic vs. person-in-community mental health model, pastoral counseling, 3023

mental health consultation as aid in pastoral work, clergymen, book, 9554

need for counselors to review pastoral counseling literature, 2966 physical & psychological & ethical & spiritual dimensions, model of personality & application to pastoral counseling, 4927

presence of parish nonprofessional or parish lay counselors with priest-counselors, concreteness in pastoral counseling, pastoral counseling team, 5181

visiting dying patient, feelings & responses of ministering, 7459 Pastors (See Ministers (Religion))

Pathogenesis (See Etiology)

Pathological Lying
Pathologists
Pathology (See also Neuropathology, Psychopathology)

brain monoamine dysfunction, depression & mania, 11353 pathological electroencephalographs, endogenous schizophrenia, psychiatric inpatients, 9373

physiopathology of morpheic epilepsy, children, literature review, 2575

Pathways (Maze) (See Maze Pathways)

Patient Characteristics (See Patients, Personality Traits)
Patient Therapist Interaction (See Psychotherapeutic Processes) Patients (See also Geriatric Patients, Hospitalized Patients, Medical

Patients, Outpatients, Psychiatric Patients, Surgical Patients, Terminally Ill Patients) age & sex & therapist title, patients' preference for therapists, college

students, 11319

anticonvulsive vs. antiepileptic treatment, alleged ambivalent personality, epileptic patients, 11663

communication barriers between doctor & patients, 2842

confrontation-problem solving therapy, confusional & delirious states, physically ill patients, 9607

gamma-hydroxybutyrate anesthesia & surgery & plasma thyroid-stimulating hormone & thyroxine levels, 18 51 yr. old patients,

general & death anxiety, home vs. hospitalized dialysis patients & wives, 2679

Leary Interpersonal Check List scores, multi drug-habituated

patients vs. outpatients, 2504 long-term hemodialysis treatment, secondary gain & self vs. hospital

treatment management, 2 case studies, 7419 mental hospital attrition data & proportion of severe depression & organic psychosis & long-stay schizophrenic patients, long-stay

inpatients, Camberwell vs. other London areas, England, 2880 mistakes in treating patients with physical & psychosomatic ailments, 11568

modern treatment methods & doctor-patient relationship intricacies, symptom encouragement & iatrogeny, 1051 monocular light flashes of varying parameters, nystagmus, patients,

patient behavior classification scheme & taxonomy of social factors in illness, behavioral science & clinical medicine integration, 7238
primacy & rated importance, recall of medical statements
concerning diagnosis & advice & instructions, 7220

renal & hepatic transplantation, pre- & postoperative anxiety & depressive reactions & psychotherapeutic supportive group milieu, transplant patients, 7601

renal homotransplantation, psychotherapy for depressive reactions & emotional adjustment to pre- & postsurgical procedures, donors & recipients, 7512

repeated carbon monoxide poisoning, akinetic mutism & motor seizures & dementia & cognitive & social functioning, male patient, 2745

repertory grid test & patient status & Middlesex Hospital Questionnaire score, personal constructs, neurotics vs. normals,

Patriarchy

family structure in underdeveloped area, social change, Calabria, Italy, 719

Pattern (Stimulus) (See Stimulus Variability)

Pattern Discrimination

adaptation to nonstabilized grating patterns in various orientations & fading rates of stabilized line stimuli interactions among populations of orientation-specific mechanisms in visual system,

ambient illumination level, form & brightness discrimination, squirrel monkeys, 8766

auditory & visual sequential & visual spatial pattern matching, reading ability, good & poor readers, 3114 auditory cortical lesions, visual pattern discrimination, cats, 3871 chlorpromazine & methylphenidate, pattern discrimination learning

& relearning & extinction, rats, 8633 color adaptation during inspection of stimulus pattern, variation in

hue of contour-contingent aftereffect, 113 consistent reward & single alternation vs. irregular schedule of intermittent punishment in runway, pattern discrimination learning, albino rats, 1975

contour density & dioptic vs. dichoptic presentation of patterned light flashes, visually-evoked cortical response, normal adults, 111 dot sequences on oscilloscope under computer control & current vs.

prior visual input, stationary perception vs. trackings, 155 entorhinal area ablations & fornix section, spatial & object reversal, monkeys, 417

frontal vs. central vs. temporal vs. occipital brain lesions, perception of patterns with different statistical characteristics, cerebrovascular diseased patients, 974

interhemispheric transfer, pattern discrimination acquired during unilateral cortical spreading depression, rats, 85%

lateral striate vs. inferotemporal vs. dorsolateral frontal lesions, masked visual pattern detection & discrimination, rhesus monkeys, 5333

letters vs. difficult vs. easy random dot patterns, coding & short-term retention of visual information, high school students, 8442 light deprivation & horizontal vs. vertical & 45° vs. 135° striations,

pattern discrimination, rabbits, 2057 mask delay, discriminability of differences in line slope & line

arrangement, 71 pattern meaningfulness & organizational unity, discrimination

latency, 10340 pattern recognition & exemplar vs. logical rule category definition, classification & categorization, 3732

patterned flashes, alpha attenuation & pattern discrimination, 1805 perceptual-motor-tracking, monitoring & information processing & pattern discrimination & group problem solving, 8295

pictorial information processing, review of biological & computer visual systems & psychology of perception & its computer simulation, 6343

polygon patterns, free-form discriminatory verbal responses, 5870 reproduction of orientation of Kohs-type figures, Icelandic vs. Zambian 3rd graders vs. Zambian laborers, 2232

simulated sonic booms during sleep, morning vs. evening mental arithmetic & pattern discrimination & monitoring task performance, 21 26 vs. 40 45 vs. 60 72 yr. olds, 8268

simultaneous vs. successive presentation of 3-element visual patterns, judged complexity & interestingness & pleasingness, college & high school students, 5814

stereo pattern exposure time lapse, stereoscopic depth perception acuity, graduate students, 10338 stimulus equivalence & pattern recognition, perceptual processing,

book, 8277 stimulus size & spatial position & identity, visual hierarchical

feature processing, college students, 3562 structural symmetry vs. nonsymmetry of dot patterns, perception of familiar vs. unfamiliar stimuli, 3581

symmetry & Gestalt & information theory, matrix pattern

perception, criticism of J. B. Deregowski's analysis, 3634 viewing lines in different orientations in stabilized images, time course of whole- & partial-fade frequencies & durations, 86

visual pattern difficulty during rearing, subsequent discrimination learning, rats, 4049 visual stimuli symmetry, pattern reproduction, school age children,

Zambia, 5828 Pavlovian Conditioning (See Classical Conditioning)

Pay (See Salaries)

Peabody Picture Vocabulary Test contingent reinforcement, Peabody Picture Vocabulary test, indigent 8 yr. olds, 8882

Illinois Test of Psycholinguistic Abilities & Peabody Picture Vocabulary Test, auditory comprehension, 5 yr. 3 mo 9 yr. 6 mo. old stutterers, 11512

norm development, Hand Test & Peabody Picture Vocabulary Test, bilingual 1st 3rd graders, 10033

social class & ethnic & family background, word errors on Peabody Picture Vocabulary Test, kindergartners & 1st & 2nd graders,

standardization of Spanish version of Peabody Picture Vocabulary Test, necessity for 2 scales depending on Ss' socioeconomic background, 10269

validity of Columbia Mental Maturity Scale & Peabody Picture Vocabulary Test & Slosson Intelligence Test, mental abilities assessment, mentally retarded children, 9950

Peace Corps Cultural Readjustment Rating Questionnaire, perceived magnitudes of stressful events leading to culture shock, returned Peace Corps volunteers vs. Chinese foreign students vs. U.S. students with no intercultural experience, 731

socioeconomic & linguistic characteristics of Peace Corps host countries, volunteer's behaviors & credibility, 6698

friendship relations & social distance, juvenile delinquents vs. apprentices, 9329

heterogeneous student teams & instructional games, cross-race & cross-sex interaction & helping & friendship, 7th graders, 7771 home environments & mother relations & peer involvement &

academic achievement & physical ability, hyperactivity, children,

identification with parents & peers & aggression & adult acceptance & orality, Philippine Children's Apperception Test, 5 5.9 yr. old kindergartners from college community & barrio, 611

individual vs. peer group rewards, spelling performances, 3rd 4th grade underachievers, 11860

information sources & source usage, acquisition of views toward peace & war, high school students, 9126

locus of control & self concept in academic vs. social settings, mildly retarded 7th vs. 11th graders vs. nonretarded 7th graders, 9342

model & O competence & model nurturance, determinants of imitation of normal peers, educable retarded adolescents, 3327

model's race vs. O's age & race, imitation, 3 & 5 & 7 yr. olds & Negro & Caucasian peer models, 10872

modeling vs. shaping vs. combined procedures, social withdrawal & peer interaction, nursery school social isolates, 2970

observations of task-oriented behavior & peer & teacher interaction & waiting, average vs. learning disabled kindergartners & 1st & 2nd & 4th & 6th graders, implications for remedial education, 7744

onset & symptom formation level & prognosis & peer interaction & employment & employment motivation, chronic school phobic children, 7336

open adaptive style, paranoid behavior, late-adolescent males, discussion of A. Heilbrun's developmental model for paranoid behavior, 2125

parental & peer & adult attitudes, 13 yr. old Swedish adolescents. 6459

parental overprotection & social treatment by peers & perceptual problems & affective lability & educational adjustment, school difficulties, epileptic children, 7319

peer confrontation groups, authority conflicts & dependency & underlying hostility & narcissism, character disordered Ss, 7673

peer familiarity, novel situation behavior, preschoolers, 4223 peer group conformity & individuality, adolescent development, non-Maori New Zealand adolescents, 8781

peer group modeling vs. identification vs. desensitization, fear of making mistakes, 2nd graders, 5327

peer group status, perception of classroom learning climate, 5th & 6th graders, 3349

peer group variables & perceived drug effects & sex, alcohol & selected drug personal use patterns, Neighborhood Corps enrollees, 674

peer groups & medication, psychotherapy method, 2964 peer influence studies, description of Swedish research project, 4375

peer modeling group size, response facilitation in classroom, high school students, 9996

peer ratings of competency & knowledge of theory & techniques & likability vs. intellectual & nonintellectual characteristics, students in counseling practicum, 2534

peer reprograming vs. equating conditions between experimental & regular classrooms & teacher training in behavior management techniques, generalization & maintenance of treatment effects in token economy systems, 3rd 6th grade problem students, 5572 peer separation & isolation & reunion, behavior, 31-58 mo. old male

rhesus monkeys, 8709

peer vs. authority source & prior experience of agreement vs. disagreement, conforming behavior, adolescents, 4402

peer- vs. teacher-administered programs & feedback & standard withdrawal vs. back-up reinforcer withdrawal but maintenance of feedback, token program effectiveness in reducing disruptive behavior, psychiatric hospital resident children, 9579

peers' sex & sex composition change of dyads, social behavior, black middle-class 3 & 5 yr. olds, 11090

personality traits & IQ & GPA, self-ratings & peer group-ratings of empathy, high school seniors, 2448

play vs. discussion groups, sociometric scores by peers, 1st 3rd graders, 11997

positive peer acceptance, spontaneous improvement in social positions, emotionally disturbed children in regular classes, 10091 prior agreement vs. disagreement by peer, influence susceptibility by same vs. different peer, 3rd & 4th & 5th graders, 9095

prior commitment, evaluation & imitation of peer model's

perceptual judgments, 2nd & 3rd graders, 10417 professional counseling with talking-relationship focus vs. action focus vs. arranged social interaction with peers, fear of dating,

male college students, 7837 race & sex & socioeconomic background & peer & counselor & teacher relationships, self-disclosure patterns within school setting, black & white junior & senior high school students, 3292

Rokeach's lists of values & Bass Exercise Compensation & peer rating form, persuaders vs. persuaded in leaderless group discussions, 9084

scholastic achievement & interests & peer status & physical growth & abilities, modal-age vs. underage boys, 7756

self-acceptance, acceptance by peer intimates & nonintimates, college sorority residents, 6872

self-reporting & peer-reporting, room cleaning behavior, 12 16 yr. old boys in behavior modification program for delinquents, 11600 single-sex vs. coeducational schools, attitudes & beliefs & behaviors

in scholarship & prestige & popularity & peer influences on behavior & personal goals, secondary school students, 7854 social & academic competence, vulnerability to schizophrenia &

other psychopathologies, children with schizophrenic & internalizing mothers & externalizing & internalizing children, 9438

socialization & social power & social influence of educator, learning information about drugs & change in value orientation toward drugs, adolescents vs. adults, 7769

socioeconomic background & race & sex, self-esteem & school & peer group & family orientation attitudes, white vs. black vs. Mexican-American vs. Oriental 4th 6th graders, 11980

socioeconomic status, changes during college in family & peer independence & liberalism & social consciousness & cultural sophistication & satisfaction with administration & faculty & major & students & study habits & extracurricular activities, students at Catholic college for women, 11982

status congruency, predicting job satisfaction & life stress, Navy enlisted men, 10137

teachers & employers & friends & family influences, attending college & curriculum choice, technical undergraduates, 11880

top & bottom peer rating nominations, cadet performance factors, ROTC seniors, 8094

training in behavioral principles & issues of relevance to adolescents & supervised practical experience, peer counseling, high school & junior high school students, 2882

work- & socially-oriented peer nominations, predicting sales performance, life insurance agents before vs. after experience, 1435

workshops & group dynamics & peer group pressure, drug education, high school students, 5470

**Peer Tutoring** 

learning games vs. student teams vs. games-teams combination, classroom processes in math classes, 7th graders, 9887

peer behavior managers, programed mathematics, elementary school students, 11920

peer tutoring & token reinforcement, learning to read, disadvantaged preschoolers, 3185

pupil-tutoring, arithmetic instruction, 3rd & 4th graders, 11922 small peer group tutorial approach using The Story Plays, achievement & attitude & self-image, 4th graders, 3269

teacher personality traits, use of innovative peer learning methods, 11901

Pellagra Pelvis

Penguins Penicillins

epileptic foci in visual cortex due to penicillin applications, passive avoidance learning, rats, 3850

early castration & fluoxymesterone vs. testosterone propionate, adult mating behavior following exogenous testosterone & penile development, male rats, 3896

GSR & penile volume responses, conditionability, 6094 nocturnal penile tumescence characteristics, elderly males, 6529 single unit activity evoked by mild stimulation, cautaneous

mechanoreceptors of glans penis, cats, 3777 topical anesthetization of glans penis, sexual reflexes, male rats, 397

**Penis Envy** 

Penitentiaries (See Prisons)

Penology

criminal punishment, attitudes toward legal institutions & selfesteem & commitment to inmate subculture, prisoners, 9378

inmate rights & prison reform, Sweden & Denmark, 11801 prison conditions, book, 11534

readings in criminology & penology, book, 2611

Pension Plans (Employee) (See Employee Pension Plans)

Pentobarbital

chlordiazepoxide & pentobarbital & chlorpromazine & methotrimeprazine & imipramine & morphine & d-amphetamine & scopolamine & LSD-25 & phencyclidine, rate of hemicholinium-3 induced brain acetylcholine depletion, rats, 3877

chlorpromazine & pentobarbital & morphine & d-amphetamine,

temporal discrimination, pigeons, 6311 d-amphetamine & scopolamine & chlordiazepoxide, suppression of self-stimulation by tetrabenazine & physostigmine & chlorproma-zine & pentobarbital, rats, 3939 fluphenazine & pentobarbital, psychogenic gastric ulcer induced by intensive immobilization, rats, 427

flurazepam hydrochloride & interaction with pentobarbital, general anesthesia during fixed interval reinforcement & alternated punished & unpunished reinforcement schedules, rats, 3865

pentobarbital & diazepam & chlordiazepoxide & amphetamine & chlorpromazine, shock-punished responding, pigeons, 10655 retrial vs. posttrial administration of picrotoxin vs. sodium pentobarbital, learning & memory of shuttle-box avoidance response, goldfish, 8639

pure-tone auditory stimuli, cerebellar & auditory evoked potentials, anesthetized vs. unanesthetized cats, 1965

sodium pentobarbital, visual evoked response in optic tectum, pigeons, 1940

trichlorofos vs. pentobarbital, hypnotic effects, medical & surgical male patients, 4956

Pentothal (See Thiopental)

Pentylenetetrazol

pentylenetetrazol & bemegride & picrotoxin & strychnine sulfate, convulsive activity, garter snakes, 415
pentylenetetrazol & ethamivan, brain serotonin metabolism, 1860

pentylenetetrazol injection & pharmacologically induced behavioral &/or EEG activation, photically evoked after-discharge patterns,

posttrial injections of amphetamine & pentylenetetrazol & strychnine, performance in Lashley III maze & shuttle box, rats,

Pentylenetetrazole (See Pentylenetetrazol)

Peoples Republic Of China

cross-cultural validity, Freudian sexual symbolism, Swedish & Chinese & Negro & Caucasian Americans, 11014

Pepsin Pepsino

Peptic Ulcers (See Gastrointestinal Ulcers)

Peptides (See also Glutathione)

(8-lysine)-de -9-glycinamide -vasopressin vs. lysine vasopressin & lysine vasopressin after tryptic digestion, extinction of avoidance response & endocrine activity, rats, 372

synthetic rat scotophobin intracranial injections, light vs. dark

avoidance learning, goldfish, 6233
Perception (Self) (See Self Perception)

Perception/

abstraction vs. sensory awareness & need for their reunification, conversation with R. Arnheim, 6905

brain mechanisms, perception & purposive behavior & learning & memory & language & thought & artificial brains, book, 3818 changing character of things as property of things themselves, 3497 constructive nature & implications for cognitive change, perceptual & cognitive processes, 1596

everyday sensation & perception, book, 10288

field-dependence & impulsivity, 8 13 yr. old males with serious vs. moderate behavioral & learning disorders, 3219

fragmented subconcepts related to stimulus contexts & perceptual attributes, natural language concept development, 5 6 & 8 9 & 11 12 yr. old schoolchildren, 10906

intelligence & nature-nurture & perception & temperament & volition & instinct & depth psychology, theoretical considerations, 2444

magnification & diminishment & restriction of visual field, mood & affect & cognition & perception, undergraduates, 3468

mathematical foundations, psychophysical recognitions, 1610 matter vs. form & actuality vs. potentiality & theory of perception,

Aristotle's psychology, 3478 mechanisms & models, perception, book of selected readings, 8290

motivated cognition, perception & personality, book, 122

perceptions of situations, cognitive dimensional model, college students, replication of D. Magnusson's study, 1619 perceptual accentuation concept vs. H. Tajfel's classificatory

perception concept, 130 perceptual training of discrimination orientation, developmental lag between perception & performance, preschool children, 10922

psi phenomena & telepathy & clairvoyance & precognition & psychokinesis, relationships to perceptual & memory & motor processes, 93

registrational structure as model of memory, role in perceptual processes, 10372

responsiveness to immediate aspects of stimuli, schizophrenics, criticism of K. Sulzinger's hypothesis, 7269

sensory vs. learning vs. information gaining modes, reading research, 8348

sensory-dependent behavior, musical performance evaluation, 9132 sex differences, spontaneous flexibility & field dependency & aptitude to structure ambiguous figures, secondary school students, 10243

stimulus combinations & dimensions & perception, stimulus processing model, 1723

stimulus input, perceptual processes, epistemological dualism in perceptual theory, 1655 stimulus meaningfulness & retention interval & ordinal position & practice, absolute judgment vs. paired-associate learning para-

subjective estimate of area & number of people & average population density of countries, psychophysical stimuli, college students, 132

verification, perception & sensation, book, 10358

Perceptiveness (Personality)

perspective-taking skills vs. correct anticipation of others' thoughts & feelings, 6-12 yr. olds, criticism of H. Borkes' findings, 2093 predictive value of perceptual reactance, self-image discrepancies,

college & graduate students vs. prisoners, 11452
Perceptual Aftereffect (See also Afterimage)

aftereffect vs. illusion vs. masking, tuning characteristics of feature analyzers in central vs. peripheral vision, college students, 5880 apparent motion rate & discontinuity, strength & duration of visual

aftereffect, undergraduates, 1558

apparent properties of inspection objects, visual figural aftereffect,

axon length, dissipation of visual & kinesthetic aftereffects, college students & 14 15 yr. olds, 5897

cigarette consumption, oculogyral illusion sensitivity & serial color word test, 20-43 yr. old cigarette smokers, 864

color & intensity & stripe width of moving patterns & movement direction, contingent movement aftereffects & color transposition, 1622

color adaptation during inspection of stimulus pattern, variation in hue of contour-contingent aftereffect, 113 extroversion, perceptual aftereffect from tachistoscopic presenta-

tion, college students, 8267

figural aftereffects following shift in perceived line slant, form constancy & illusions in visual perception, literature review, 10360 fine & coarse visually-textured disks rotating in opposite directions with centers alternately fixated, texture-contingent negative motion aftereffect, 3628

image motion & direction, visual tilt aftereffect, graduate &

undergraduate students, 3609

inducing figure diameter conditions & luminance contrast combinations of inducing & test figures, figural aftereffect & figural retroactive-effect for concentric circles figure, college students & research assistants, 67

interaction of spatial & kinetic dimensions, movement aftereffect, highly sophisticated Ss, 1565

judgment time & expectation & instructional criterion, figural aftereffect magnitude, 143

kinesthetic aftereffects procedure, measuring strength of nervous

system, college students, 6185 kinesthetic figural aftereffects, disorders in perceptual experiences

of environment & overinclusive & idiosyncratic thinking, classical & latent schizophrenics & nonschizophrenic inpatients, 986 lined pattern evoked complementary afterimage, McCullough color

aftereffect, 1736 monoptic vs. dichoptic & moving vs. stationary & same vs. mixed color pairs, motion aftereffect, 3595

muscle involvement & kinesthetic spatial aftereffect, judgment of position of limb in space, college students, 83

optically displaced vision, sensorimotor performance aftereffects & EEG spectral patterns, 10359

pointing with passive movements during exposure to laterallydisplacing wedge prisms, aftereffects on arm-body adaptation, undergraduates & 17-19 yr. olds, 68

population density & food dispersion, development of prism-induced aftereffects, newly hatched chicks, 2037

retinal area specificity, contour-contingent McCullough color aftereffects, untrained undergraduates & experienced Ss, 1770

spectral edge vs. rejected band as minimum adequate stimulus & low- vs. high-pass edge effectiveness, negative afterimage in hearing, 131

spiral aftereffect duration discontinuity trends, 18 31 yr. old acute schizophrenics, 9275

state of distribution of surrounding psychological potential field, identification of modified alphabetical characters, 5917

stimulation by grid pattern & single line inspection figures, magnitude of tilt vision aftereffects, college students, 3555

test field distance & afterimage apparent size, movement aftereffect duration, college students, 1566

underlying processes differences, figural aftereffects & apparent motion & paracontrast, college students, 5851

Perceptual Closure

cerebral commissurotomy, superiority of minor hemisphere in perception of part-whole relations, humans, 10658

derealization & deja vu, reflections of disturbances in organization of perceptual wholes forming larger object-affect wholes with associated states, 10363

flexibility & speed of closure & associational fluency & verbal comprehension, cloze performance, college students, 6035

gap size of incomplete circles, perceptual closure, undergraduates, 3583

part-whole relationship perception, right- vs. left-handed Ss, 10346 Perceptual Developm

age, temporal integration, kindergartners to 9th graders, 10909 auditory perceptual training, frequency discrimination, 57 yr. olds,

auditory-auditory & visual-visual & auditory-visual tasks, audiovisual integration development, normal & deficient reading 8 13 yr. olds, 10926

canonical correlation, perceptual motor & intellectual abilities, kindergartners to 3rd graders, 8871 cognitive encounter with external data, development of memorizing

vs. perceiving, pre-schoolers & 1st & 5th graders, 10802

cognitive growth cycles, mental development, 10840

components in auditory-visual integration, reading performance, 2nd graders, 7759

concrete & abstract stimuli, perceptual development, disadvantaged 5 yr. olds in Head Start, 9978

form-color stimuli relationships, names for & matches to form-color stimuli, 45 yr. olds, 8842
judgment of fuller & emptier glasses, relational reasoning development, 5 & 6 & 7 & 9 yr. olds, 2178
Kagan's Matching Familiar Figures Test, response quickness &

visual analysis skill & time estimation accuracy & concept identification problem-solving ability, 2nd graders, 2131

Kephart perceptual-motor program, academic readiness, culturally disadvantaged kindergartners, 5390

odorant & water exposure at ages 1 & 2 & 3 days, olfactory perception & differentiation & response stability, newborns, 4224 optic afferent system development, chick embryos, 8562 parental attitudes, social abilities development & perceptual-motor

skills, deaf children, 1054

perception & intelligence & emotions in child development, review of research & theory in USSR, 1960-1970, 4181

perception recognition speed, 5 9 vs. 10 13 vs. 14 17 vs. 18 24 yr. olds, 8853

perceptual & psycholinguistic immaturities, retarded & advanced readers &/or spellers, 10109

perceptual cues, additive composition of classes, kindergarten & 1st grade students, 8880

perceptual development model & reading instruction methods, learning disability diagnosis, 11963

perceptual development program placement, academic & social & vocational adjustment & achievement, learning disabled students, 5 10 yr. follow-up, 7804

perceptual development, perception of ambiguous figures, children, review of experiments, 584
perceptual shielding vs. nonshielding, nonegocentric perspective task performance, 6 vs. 8 vs. 10 yr. olds, 4100
perceptual-motor development program, school readiness, kinder-

gartners, 3225

perceptual-motor training & music, perceptual-motor development & behavior, educable retarded 9 12 yr. olds, 7788

physical activity program in swimming vs. physical education, perceptual-motor development & primary mental abilities, 4 6 yr. olds, 7784

RT procedures, visual & tactile dominance developmental patterns, 7 30 yr. old mental subnormals, 11492

stimulus configuration & presentation order, perceptual exploration, 5-11 yr. old fraternal vs. identical twins, 2149

tonal structure acquisition, children, book, 4141

visual skill development & visual disorders of accommodation & convergence & stereopsis, academic achievement, children, 10935 2-choice discrimination task & visual angle, pictorial size-in-depth relations perception, 4 vs. 7 yr. olds vs. adults, 10849

Perceptual Discrimination (See also Figure Ground Discrimination,

Odor Discrimination, Pattern Discrimination)

aphasia type & interstimulus interval & auditory vs. visual modality, temporal stimulus ordering, brain-damaged 32 61 yr. olds & 45 60 yr. olds with laryngectomies & 17 27 yr. old students, 4874 cognitive processes, building & maintaining set to identify relevant

stimuli in perceptual field, 1719

differential perception of Gestalten in Kinget's Drawing-Completion Test, 6998

early exposure & shapes & tactual-kinesthetic feedback, perceptual learning transfer, hamsters, 3986

ease in perceiving dimensions used in stimulus set construction with color & form stimulus dimension variation, judgment of perceived similarity, 1578

error- vs. correct-response feedback, 2-choice figural discrimination acquisition, college students, 6051

errorful vs. errorless training, intradimensional discrimination learning & generalization, 7 8 yr. olds, 8379 feedback & fixation point distance, learning of looking signal

direction discrimination, receivers & senders, 197

fixed-ratio vs. fixed-interval reinforcement schedules of stimulus control, figural matching-to-sample tasks, 47 yr. olds, 10828

integration & directionality & redundancy & inhibition as facilitators of information processing, analysis of perceptual coding test scores, 1st & 8th & 9th graders, 5918

late vs. early experience with stimuli, perceptual learning, discrimination, rats, 10705

matching dot field density between half fields & crossed tactile localization & other tasks, patients with total vs. partial agenesis of corpus callosum, 4674

median RT & discrimination accuracy, perceptual sensitivity, good vs. poor premorbid schizophrenics, 4806 neural quantum theory application, sensory discrimination, 6199

orotic acids, memory of brightness discrimination task, rats, 8649 para-chlorophenylalanine lowered brain serotonin, discriminated punishment & pain sensitivity, rats, 6227

perceptual discrimination, mentally retarded children & children with specific language disabilities, implications for diagnosis & remediation techniques, 9896

perceptual pretraining, dimensional prepotency in brightness & form simultaneous discrimination, kindergartners & 1st graders,

personality factors & general intelligence & high vs. low spatial ability, psychological differentiation, male vs. female 9th graders,

population density & early experience, emotionality & perceptual learning transfer, rats, 6396

prior commitment, evaluation & imitation of peer model's perceptual judgments, 2nd & 3rd graders, 10417

proreal lesions, delayed alternation & spatial reversal & go left go right tasks, dogs, 8638

reinforcement delay, discrimination learning, rats, 6359

relative measure of different camouflage finishes & absolute measure of detection range for any particular finish, detectability range of camouflaged targets, Army men, 1595

reversal learning, incorporation of radioactive uridine into brain areas, neurological mutant mice & normal littermates, 6126 rewarding verbal vs. aversive feedback during training of perceptual

skill, efficiency & transfer of learning & performance under stress, Air Force Academy students, 10164

sequentially-presented shapes under cross-modal vs. intramodal conditions & age differences, recognition, 6 & 8 & 10 yr. olds,

simultaneous posterior neodecortication vs. successive damage with 1 wk. interoperative interval vs. successive damage with training during interoperative period, retention of discrimination learning, rats, 10687

single-response vs. 2-response training procedure, tilt discrimination, children, 8324

stimulus equivalence & pattern recognition, perceptual processing, book, 8277

Tagalog vs. English recognition thresholds, perceptual defense, bilingual 10 12 yr. old Filipino 5th graders, 11193

visual scene coherence, single cued object identification accuracy, 3541

Perceptual Distortion (See Illusions (Perception))

Perceptual Disturbances (See also Agnosia, Auditory Hallucinations, Drug Induced Hallucinations, Hallucinations, Hypnagogic Hallucinations, Visual Hallucinations)

derealization & deja vu, reflections of disturbances in organization of perceptual wholes forming larger object-affect wholes with associated states, 10363

evoked cerebral responses to visual stimuli, children with visual learning disabilities vs. normals, 9459

identifying & training & understanding perceptual deficiencies in children, validity of current procedures & concepts, 1387

Initial Teaching Alphabet reading program, reading improvement, 8 12 yr. olds with auditory perceptual disturbances, 7933 kinesthetic figural aftereffects, disorders in perceptual experiences

of environment & overinclusive & idiosyncratic thinking, classical & latent schizophrenics & nonschizophrenic inpatients, 986

mislocations in visual space, 18 80 yr. olds with hemianopsias vs. optic chiasm lesion patients, 9321

perceptual-motor & behavior problems identification checklist, children, 7293

personality approach, pathology of perception, epileptics & schizophrenics, 1046

sense of separation from people & environment, psychogenic micropsia, 42 & 43 yr. old male patients' case histories, 2735 structural characteristics of activity, RT, schizophrenics, 920

videotaping of S & immediate playback, rehabilitation, stroke patients with perceptual difficulties, case study, 4963
Perceptual Fill (See Perceptual Closure)
Perceptual Localization (See also Auditory Localization)

Perceptual Measures (See also Rod And Frame Test, Stroop Color Word Test)

assessing potential auditory learning disabilities, Test of Non-Verbal Auditory Discrimination, 6 8 yr. olds, 7743 cross-modal matches vs. free numerical assignments, factor

structure, 5764 development of motor-free test of visual perception, 5 7 yr. olds,

5350 evaluative instrument subtests, blind & partially blind preschoolers,

factor structure, magnitude productions vs. cross-modal equal ratio settings, 5765

identifying & training & understanding perceptual deficiencies in children, validity of current procedures & concepts, 1387

illusion measurement technique, parametric variations of Muller-Lyer & Ebbinghaus figures, college students, 3556

intercorrelational validity study, auditory & visual functioning tests, use as basis for reading instruction determination, 5373

L-dopa, neuropsychiatric & psychometric effects using Rey's test, parkinsonians, 5128

mapping & relation theory & magnitude estimation, ratio scaling & cross-modality matching, 1611

number of intervening items between question & inspection sequence, absolute judgments of recency for pictures & nouns,

ratio scale measurement, subjective intensities corresponding to verbal expressions, 6896

reliability, Betts QMI Vividness of Imagery Scale & Gordon Test of Visual Imagery Control, 10324
Rod & Frame Test & Slanting Disc Effect, development of group

testing procedures, 3516

rotation speed & field brightness & sweep speed & spatial separation of visual display, visual persistence for apparent movement, extension of R. N. Haber & L. G. Standing's direct measure of visual persistence, 1579

same word & color vs. word named different color vs. neutral word vs. nonword, response competition vs. encoding interference in

color-naming, 8402
stimulus distribution & judgment of glare & loudness, internal consistency of magnitude estimations, college students & faculty members & graduate students, 10286 verbal-logical & nonverbal-perceptual cognitive processes & sex &

race & socioeconomic status, mathematical achievement prediction, 5th graders, 9992 Perceptual Motor Coordination (See also Physical Dexterity)

brain bisection, eye & paw preference, cats, 10609
canonical correlation, perceptual motor & intellectual abilities,
kindergartners to 3rd graders, 8871

- distance & lateral distortion of facemask, underwater hand-eye coordination & adaptation, Navy Submarine trainees, 3619
- disturbances in figure-ground perception & visual-motor coordina-tion & attention & RT, bacterial meningitis during childhood,
- eye position during visual tracking task transfer of information from manual to oculomotor control system, 24 54 yr. olds, 5811 hand-mouth coordination & looking, full-term 2 3 day olds, 4161
- handwriting reversal errors, perceptual-motor task performance, 7 8 yr. olds, 1275
- illumination level, detection time for travel direction of table tennis ball, 5912
- L-dopa, memory & visual-motor performance & attention & mood, parkinsonism patients, 5243
- movement approach curves at different speeds, corrections to accurate movements aimed at target, evidence for intermittent control, 3538
- pointing with passive movements during exposure to laterallydisplacing wedge prisms, aftereffects on arm-body adaptation, undergraduates & 17 19 yr. olds, 68
- practice in tracking & aiming task, hand movement towards target, female college student, 10289
- psychological techniques to determine intelligence & psychological maturity & perceptual motor integration, determining ability to respond adequately in opthalmological examination, 3 6 yr. olds,
- sex & eye-hand preference, star-tracing performance, male & female 4th graders, 142
- task dependence & training similarity, inter-limb movement dependence in 2-dimensional compensatory tracking, 5847 television augmented feedback, stabilometer balancing task
- performance, men vs. women, 1581
- Perceptual Motor Development (See Motor Development, Perceptual Development)
- Perceptual Motor Learning (See also Fine Motor Skill Learning, Gross Motor Skill Learning)
- age, large muscle coordination task learning & spare learning capacity, 7 & 8 vs. 17 & 18 yr. olds, 6577
- auditory perceptual training, frequency discrimination, 57 yr. olds,
- body imagery, perceptual learning, 8302
- centralism & peripheralism, bilateral transfer, 225
- chlorpromazine & methylphenidate, pattern discrimination learning & relearning & extinction, rats, 8633
- classically differentiated supplementary feedback cues, psychomotor learning facilitation, college students, 8318
- computer-simulated visual distortion, correlations between motor learning & visual & arm adaptation, 5843
- cortical steady potential shifts & anodal polarization, delayed response performance, monkeys, 8567
- digital computer, study of cognitive motor learning, 6056
- dorsolateral frontal & inferotemporal lesions, learning set acquisition & retention, monkeys, 8651
- Frostig Developmental Program of Visual Perception, reading
- readiness & achievement, kindergartners & 1st graders, 10061 intrinsic vs. concurrent vs. individual terminal vs. group terminal feedback, fine & gross motor skill learning, college students, 5888 mechanical impedance & augmented feedback precision, simple positioning task learning, 18–35 yr. old males, 176
- mental &/or physical practice, learning & retention & bilateral transfer of motor skill, female college students, 5837
- motor skill acquisition, book, 5887
- negative vs. positive practice, correcting habitual fingering errors in clarinet performance, 9th 11th graders in school music program,
- normal cueness & visual cueness & visual deprivation, balance skill learning rate, normal vs. congenital deaf vs. acquired deaf 12 15 yr. olds, 11388
- part-task training difficulty level & whole-task similarity, acquisition & transfer of space sextant sighting skill, Air Force Academy cadets, 12174
- perceptual & conceptual skill training, geometric form discrimina-tion & reproduction, 1st graders, 11990
- perceptual motor-training procedures of N. Kephart, reading comprehension, 8 18 yr. olds with average & above average IQs & binocular fusion difficulties, 7999
- perceptual-motor-tracking, monitoring & information processing & pattern discrimination & group problem solving, 8295

- reinforcement & retention interval, short-term motor memory recognition & recall, male undergraduates, 3715
- reinforcement amount & duration of retention interval, short-term motor memory recognition & recall, 221
- reinforcement type & task & grade level & social class & sex, problem solving & motor learning tasks, 1st & 3rd & 5th graders,
- response alternation & availability, selective learning on 2- & 4-choice tasks, college students, 8316
- right vs. left cerebral cortical lesions & practice with 1 hand-performance with other, unimanual motor skill learning, 11394
- rotary pursuit acquisition & retention & Bender-Gestalt performance, normal vs. educable mentally retarded students, 7976
- S strategies & interference, discrete motor task, college students, 3635
- selective frontal cortex ablation, movement organization & delayed alternation behavior, rhesus monkeys, 8617
- sulcus principalis lesions, spatial delayed-alternation & place-
- reversal learning, rhesus monkeys, 8598 traditional vs. problem solving teaching methods & anxiety level,
- sports skill acquisition, elementary school children, 10047 verbal & motor reeducation & psychotherapy, child guidance center program, childhood neurosis & prepsychotic syndrome patients, 7556
- visual vs. visual & proprioceptive vs. proprioceptive training, motor learning & RT, college students, 10323

  Perceptual Motor Processes (See also Perceptual Motor Coordina-
- tion, Physical Dexterity, Rotary Pursuit, Tracking, Visual Tracking)
- accommodation & convergence alteration, visual & proprioceptive adaptation, college students, 181
- achievement & language abilities & perceptual motor skills, minimally brain damaged vs. normal children matched for IQ & age, 7271
- age, sensory-perceptual factors in RT, 18 21 & 54 71 yr. old females, 8788
- amygdala & lateral hypothalamic lesions, inability to orient & localize stimuli in contralateral visual & somatosensory fields, rats. 10688
- anxiety level, perceptual RT, college students, 10362
- auditory-perceptual & vocal & visual-perceptual & motor & oralmotor functions, language comprehension, 72 91 mo. old dysphasic boys & normals, 11508
- Bender Gestalt Test, perceptual & visuo-motor defects, cerebral palsied 6 12 yr. olds, 4809
- brain & sensory-motor systems relative to verbal-symbolic functions & mechanisms of feedback & feedforward, verbal communication development, 0 48 mo. olds, 2121
- caudate nucleus motor & spatial functions, egocentric spatial localizations, 8554
- compensatory education, motor impairment, book, 12018
- detecting & recording head movements, apparatus, 10293
- direction of stimulus visual counting reaction time, 10305 distance & movement speed, nonvisual aiming accuracy, college
- students, 10290
- dysfunction of basal ganglia, psychomotor slowing, aged & braindamaged Ss. 984
- empirical return vs. reversibility in sensory-motor context, quantity conservation, nonconserving 5 6 yr. olds, 4218
- everyday sensation & perception, book, 10288 Finnish sauna bathing, psychomotor performance & subjective feelings, healthy male volunteers, 126
- generalization of adaptation to visual space prismatic deviation,
- visuomotor coordinations reorganization analysis, 5845 graphic-motor task, EMG gradient increase, 7 14 yr. olds, 8579
- andwriting quality & motricity & spatial-temporal orientation & laterality & speed, graphomotor disabilities detection, 6 yr. olds,
- intellectual deprivation, perceptual-motor skills & intellectual performance, junior & senjor high school students, 5493 intelligence & visual-motor skills & psycholinguistic abilities,
- achievement, 3rd 5th graders, 7781 intertrial rest interval, alphabet inverted writing task, 16 18 yr. olds,
- knowledge of results & assigned line length, line drawing, blindfolded 18 21 yr. olds, 8332
- lateral auditory stimulation, simple RT, hemiplegic patients, 9284

  Lowenfeld Mosaic & Incomplete Man & Copy Forms & Unusual Uses Tests, constructional ability & body parts understanding &

ability to copy geometric forms & verbal ideational fluency, Chinese vs. Italian vs. Negro vs. Puerto Rican disadvantaged 4 yr. old Head Start students, 2263

manipulative dexterity & perceptual-motor abilities, 15 32 yr. old mental retardates, 10347

methodology & possibilities & practical considerations, research in underwater stress & immersion & altered sensory loading, 5612

motivation through censure vs. ego involvement vs. rivalry, letter cancellation task performance, English-speaking Chinese vs. North American male undergraduates, 3611

motor & sensory & cognitive test performance, subtentorial lesioned vs. supratentorial CNS diseased adult patients matched vs. unmatched for IQ, 2709

neuroticism concept of H. Eysenck, behavioral oscillation as personality measure, 7003

optically displaced vision, sensorimotor performance aftereffects & EEG spectral patterns, 10359

perceptual & visual-motor & intellectual tests, reading retardation prediction, preschoolers, 7724

perceptual-motor & behavior problems identification checklist,

perceptual-motor abilities, white vs. black male vs. female disadvantaged & middle class kindergartners, 10334 personality traits, short-term ergometric performance, 8266

photostimulation of 6th abdominal ganglion, information theoretical analysis of aversive walk response, crayfish, 396

physiological & sensory & perceptual-motor functions & concept formation & abstracting abilities & memory, chronic heavy marihuana use, 8595

pilot class utilizing multisensory training & educational team approach, visual-perceptual-motor skills & WISC Verbal IQ & Stanford Achievement Test, elementary students with reading problems, 3129

programed imagery & linguistic recoding, reading & listening comprehension & visual-motor skills, 1st-3rd graders, 7789

prolonged sleep deprivation, circadian variation & psychomotor performance & psychological ratings & catecholamine excretion & diuresis & fatigue, 20 64 yr. old military officers, 386 psychomotor performance data, factor analysis of actual vs.

simulated driving task, 18-59 yr. old males, 3383

psychomotor testing, unilateral cerebral lesion detection, patients with equivocal or negative motor symptons, 7120

pyrithioxin, intellectual & attentive & psychomotor functions, vascular & atrophic celebropathy & involuntional psychosis patients, 7482

right-eye vs. left-eye dominance, perceptual accuracy, college students, 10344

selective frontal cortex ablation, movement organization & delayed alternation behavior, monkeys, 6259

sensorimotor action patterns & imitation, syntax acquisition, infants, 6600

sensory & perceptual abilities, tactual sensitivity, deaf vs. hearing

adolescents, 11483 sensory evoked activity in dorsal vs. ventral regions, medial geniculate body, cat, 8540

sensory integration remedial program, academic achievement, learning disabled children with mean CA of 7.4 yr., 1264

sex differences & motivation level, inverted alphabet writing & substitution task performance & reminiscence, neurotic vs. stable vs. extroverted vs. introverted college students, 8431

social facilitation, psychomotor performance, college females, 3542 socioeconomic class & cross-modal transfer, auditory-visual integration, 7 & 9 yr. olds, 6465

special class placement, academic achievement & visual-motor functioning, 6.5-10.5 yr. olds labeled neurologically handicapped,

stimulus configuraton & presentation order, perceptual exploration, 5 11 yr. old fraternal vs. identical twins, 2149

stimulus generating & control unit, use for research in & teaching of sensorimotor skills, 145

stimulus preview & supplemental visual cues, spatial representation & perceptual motor anticipation in discrete tracking task, 1st 5th

structured perceptual-motor training vs. table games, perceptual-motor skills & intelligence test & achievement test scores, 9 yr. old educable mental retardates, 7798

tachistoscopic presentation of nonverbal & verbal stimuli, copying & oral reading performance, disabled vs. normal readers, 11502

tobacco & alcohol & marihuana & LSD & mescaline & barbiturate & amphetamine use, Bender-Gestalt Test performance, college students, 6647

unilateral cerebral damage, RT to laterally applied mild electric current, left hemiplegic patients, 11413

unilateral cortical lesions, paw preferences, cats, 8769

unlagged acceleration control system vs. rate control system with

exponential time lag, target acquisition, 174 visual & proprioceptive determinants, space perception & movement accuracy, 8334

Perceptual Orientation (See also Spatial Orientation (Perception)) identifying & classifying vs. viewing & naming concepts, mediation of perceptual sets, 4 & 5 yr. olds & college students, 10930

perceptual training of discrimination orientation, developmental lag between perception & performance, preschool children, 10922

Tagalog vs. English recognition thresholds, perceptual defense, bilingual 10 12 yr. old Filipino 5th graders, 11193 Perceptual Stimulation (See also Auditory Feedback, Auditory Stimulation, Delayed Auditory Feedback, Delayed Feedback, Filtered Noise, Illumination, Loudness, Noise Levels (Work Areas), Pitch (Frequency), Prismatic Stimulation, Sensory Feedback, Somesthetic Stimulation, Speech Pitch, Stereoscopic Presentation, Tachistoscopic Presentation, Tactual Stimulation, Taste Stimulation, Ultrasound, Visual Feedback, Stimulation, White Noise)

complex sensory stimulation & conditioned phasic motor inhibition, amygdaloid unit activity, cats, 303

familiar vs. relative size cues & surface texture, relative distance judgments, adults, 5877

monocular & binocular viewing & visual angles, size perception of standard & comparison rod located at different distances from S,

perceptual & sleep deprivation, ultradiam biologic rhythm & EEG & REM sleep cycle oscillations, 3810

peripheral & central nervous sytem, coding sensory data, mammals,

sensory stimulation & remotivation, NOSIE-30 scale ratings & personal neatness & positive factors & total assets & manifest psychosis, chronically regressed schizophrenics, 4936

stimulus material & sensory function differentiation, hallucination production by suggestion, normal & blind 14 15 yr. olds & college students, 5984

telepathic influence with sensory bombardment, dream content & recall, college students, replication of S. Krippner's findings, 10311

Perceptual Style

aesthetic preferences for complexity-asymmetry & figure drawing performance, creativity vs. perception in art education, 6th

discrimination learning vs. perceptual screening training to attend to relevant cues, use of concept of intent in judgments of social & achievement behaviors of story characters, 5 8 yr. olds, 6637

mother vs. father vs. child perceptual style, child's self esteem & perceived parental behavior, 10 12 yr. old white middle class sons, 9185

open vs. closed adaptation to aversive maternal control, tolerance for ambiguity, late adolescent males, implications for developmental model of paranoid behavior, 4137

perceptual & personality & economic variables, price level of product selections, college students, 5645

Performance

internal vs. external locus of control, enhancement of task behavior, 11227

performance evaluation & expectancy & evaluator honesty, formation of causal attribution & interpersonal attraction, 11069 tone intensity & task difficulty, motivation & performance relationship, extension & expansion of Yerkes-Dodson Law, 10430

Performs

aspiration level & verbal ability, writing task performance, medical students, 3677

changing task model & changing S model as explanations, temporal changes in ability & performance measures relationship, organizational implications, 3362

information overload & response constraints & auditory noise while executing 2 different tasks, performance & physiological correlates, operators, 8108

orientation & mobility & living skills before & after training workshop, preliminary performance test battery, 11 20 yr. old blind Ss, 7389

perceived difficulty of task & S's perception of ability & success vs. failure experience, performance intensity, relationship between attributional theory of performance & Atkinson's theory of achievement motivation, 6006

perceived effort-performance & performance-reward contingencies, task performance, college students, 3640

psychomotor performance data, factor analysis of actual vs. simulated driving task, 18 59 yr. old males, 3383

self concept & feedback & internal-external locus of control, digit symbol task performance, 7001

Performing Arts (See Dance, Drama, Music)

Pericardium

Peripheral Nerve Disorders (See also Myasthenia Gravis, Neuralgia, Neuritis, Polyneuritis, Radiculitis, Trigeminal Neuralgia)

reurius, Potyneurius, Kadiculius, Irigeminal Neuralgia)
emotional trauma & personality, inadequacies, facial paralysis, 2628
Peripheral Nerves (See also Abducens Nerve, Acoustic Nerve,
Cranial Nerves, Facial Nerve, Olfactory Nerve, Optic Nerve,
Spinal Nerves, Trigeminal Nerve, Vagus Nerve)
estrogen, pudendal & genitofemoral & pelvic neuronal activity,
ovariectomized rats, 10647

lateral popliteal nerve stimulation, somatosensory evoked potentials,

19 31 yr. olds, 3834 light & tactual stimulation of siphon & electrical stimulation of distal siphon nerve, habituation & dishabituation of siphon

withdrawal response, Aplysia, 10564 Machado disease, blood analyses & pneumoencephalograms & nerve & muscle biopsies & nerve conduction & diabetes, Portuguese emigrants to U.S.A., 2699

normal nerve rates for age, motor & sensory conduction in peripheral nerves, infants & young children, 4248

percutaneous peripheral nerve stimulation, summated cortical evoked responses, deafferented monkeys & baboons, 8603

peripheral & central nervous sytem, coding sensory data, mammals,

peripheral denervation & death, spontaneous skin potential response, cats, 6337

sodium chloride stimulation of chordatympani nerve, whole nerve recording, rats, 3786

structural organization, peripheral autonomic innervation appara-

technique for obtaining excitability curves, assessing human peripheral nerve excitability in vivo, 297

Permissiveness (Parental) (See Parental Permissiveness)

Perphenazine

chlorpromazine & perphenazine & haloperidol & lesions of mesence-phalo-diencephalic brain parts, cataleptic response, rats,

perphenazine vs. amitriptyline vs. perphenazine-amitriptyline vs. placebo, symptom & academic & psychological improvement, underachieving & psychoneurotic 4th-6th graders, 3073

Persecution

massive psychic traumatization, personal & social reintegration, Jewish holocaust survivors in kibbutzim, 992

psychoanalytic observations, social systems as defense against persecutory & depressive anxiety, 11408

Perseverance (See Persistance)

Perseveration

complex mathematics vs. traditional instruction, traditional mathematics knowledge & postclass fatigue & IQ & creativity & school attitude & anxiety level & judgment & perseveration & need for achievement, 2nd 5th grades, 5455

Persistance

impulsiveness in performing task related to engineering, prediction of persistence, engineering school freshmen, 7750

internal-external goal orientation as enrollment reason & course requirements completion perseverance vs. nonperseverance. 18-55 yr. old adult high school students, 3243

intrinsic vs. extrinsic needs determining occupational choice, persistence at work, Israeli female dentists & registered nurses & policewomen & social workers & youth counselors, 1439

maturation, motor impersistence battery task, 4-6 yr. olds, 10934 personality factors, persistence in religious training or occupations, seminary persisters vs. leavers, 2262

personality needs, adult team sport participation & perseverance & performance, baseball league participants, 4501

septal stimulation & physostigmine injections, septo-hippocampal system & habituation, rats, 10623

simulated normative feedback & motivational variables of achievement & affiliation, persistence & subjective probability of success at insolvable figure-tracing task, 12th grade students,

skill vs. chance instructions, task persistence time & attention breaks, internal vs. external male vs. female 4th & 5th graders, 10102

social reinforcement vs. no reinforcement, persistence scores, high verbal low spatial & high spatial low verbal 4th graders, 2074

ventromedial hypothalamic nucleus vs. septal nuclear complex lesions, behavioral perseveration, rats, 410

visual display onset vs. offset & reaction latency, visual persistence, adults with normal vision, 3547

Personal Adjustment (See Emotional Adjustment)

Personal Information Form **Personal Orientation Inventory** 

multiple discriminant analysis of Personal Orientation Inventory & Tennessee Self Concept Scale & Differential Value Profile & Mehrabian Achievement Scales & personal data questionnaire, identification of variables discriminating between groups differing in self-actualization level, freshman college students, 8026

Personal Orientation Inventory scale & item analysis, identification of adherents of 2 religious groups & their values & attitudes concerning self-actualization, 11204

Personal Orientation Inventory, item overlap & built-in factor structure, 5795

scale membership & scoring direction by scale & item, Personal Orientation Inventory, 9208

Personal Space age, social distance, American & Canadian 2nd & 4th & 6th graders, 11131

American Flag vs. Peace button on questioner asking for directions, personal space determined by replier, male pedestrains in conservative vs. liberal neighborhood, 9103

assaultiveness & race, personal space, assault-prone male adolescent prisoners, 2678

assertion training vs. normal hospital milieu therapy program, personal space & self-reported anxiety, psychotic male neuropsychiatric inpatients, 2804

Bale's concept of social psychological space, validation based on factor analysis of Bale's Interpersonal Ratings Questionnaire,

close physical proximity of other, avoidance of act which would violate personal space, 4378 crowding & sex, social interaction, preschoolers & 1st graders, 795

immediate physical environment & individual personal space & human territoriality, 4395

individual vs. group decision, members spatial arrangement & interpersonal distances & visual contact, high school seniors, 742

marker vs. no marker in library study space & personal vs. nonpersonal marker in pub, territorial rights, college students & pub patrons, 9043

personal space violation & interaction distance & sex of S & violator, undergraduates, 2357

physical proximity & body boundary size, intimacy of selfdisclosure interview, high school students, 11136 physical proximity & self-disclosure & immediacy & maternal vs.

paternal influences, rational vs. emotional trust, male undergraduates, 9059

race & threat value of stimulus, perceptual defense & personal space, black male repressors vs. sensitizers, 4476

seat choice in group therapy, patient behavior, 2803

seating arrangement, sensitivity training interaction, college students, 11053

self-disclosure level & sex of S & E, personal distance, 776 sensation seeking, simulated vs. behavioral personal space, male vs. female college students, 11246

sex & age differences, personal space, 1st-6th graders, 10892 sex & race norms, personal space definitions & differential seating behavior, black & white Ss, 11092

sex & subculture & family relationships, personal space, Hawaiian Orientals vs. Caucasians, 8899

sex of S & approacher & approach angle, personal space, 18 30 yr. old psychology students, 6853

sociability & emotional adjustment, personal space preference in morning vs. afternoon, college students, 6857

social organization of touching initiated by nursing staff, touch avoidances, extremely disabled elderly in geriatric setting, 11807

sociopetal vs sociofugal vs. mixed vs. spontaneous seating arrangements, social & personal interaction in hospital dayroom, male psychiatric patient groups, 4728

spatial & group sex composition & group activity, intrusion upon group-shared space, college students, 9018

Personal Values

accuracy of perception & personal values, interpersonal communication, matched members of stereotypical dyadic relationship,

aesthetic judgments vs. personal preferences & previously judged illustrations & scenic resources sampling, landscape appraisal,

biographical & career-oriented information questionnaire, values, Thai college students, 9000

development & validation, projective measure of interpersonal values, 4306

directed terminal & instrumental value change, improvement in psychotherapy, psychiatric patients, 11772

feedback of information about values & attitudes of self & others, long-term cognitive & behavioral change, college students, 6747 moral judgment level & interdependent vs. independent goal

conditions, conformity, 7th graders, 4214 perception of injustice, moral judgment, 2251

personal characteristics & organizational attitudes, members of National Council on Family Relations, 2215

personal value systems, administrative behavior simulations & organizational effectiveness of naval officers, 12143

personal value systems, union leaders vs. corporate managers behavior, 12142

philosophic values for client & counselor, 2807

preferred values & personality traits, self- vs. interaction- vs. taskorientation to job, 12177

response to authority & acceptance vs. rejection of Christian commitment, obedience, college students, 10946

sex & grade level & occupational group, personal & interpersonal values, 9th 12th graders, 12087 sex & grade level, personal value development, commuting vs.

resident freshmen vs. senior college students, 9838

social & moral factors, recent history of psychiatry, 5701

value dimensions, female college students, 5412 world population & urbanization & marriage & racism & minorities & education & authoritarian political control & war in Southeast Asia, changing value systems, 8964

Personal Values Questionnaire

Personal Values Questionnaire development, naval officers, 1512

Personality Assessment (See Personality Measures)

**Personality Change** 

concentration camp antisocial stress, personality desocialization, literature review, 4815

direct vs. vicarious training group experience, personality changes,

college students, 9064 experimental vs. traditional teaching approach, achievement level & personality factors & attitude toward teacher & course, black college teacher education majors, 3344

marihuana, personality change, book, 1905 original level of self-esteem & change message complexity, self-

esteem changes, 6917 personality & accomodation to change, aged, book, 8792

personality changes & changed motivational sphere, chronic alcoholics, 930

pre- vs. postoperative Guilford-Zimmerman Temperament Survey scores, 28 66 yr. old otosclerotic adults surgically restored to normal hearing, 2861

pregnancy, body attitude & personality change, women, 1832 preservice workshop, personality structure change, 17 61 yr. old

teacher-aides, 9884 religiously-oriented drug rehabilitation program, attitudinal & personality changes, heroin addicts, 7613

stress & frustration, personality changes, book, 4500 television viewing, personality changes, Polish 6th graders, 8791 Personality Characteristics (See Personality Traits)

**Personality Correlates** 

anticonvulsive vs. antiepileptic treatment, alleged ambivalent personality, epileptic patients, 11663

choice of beer brand, descriptions of personalities of buyer, 10186

field-independence measures & reference tests of abilities & achievements & interests & personality, distinctiveness of field independence, 8th graders, 4544

hypophysectomy, intellectual functioning & personality attributes, white female patients suffering from metastatic breast cancer,

intelligence & educational attainment & delinquency involvement & personality & social class & home environment & family relations, incidence & amount of smoking, delinquent boys committed for residential training, 11572

internal vs. external locus of control of reinforcement, ego functioning & personality & intellectual correlates, elderly, 8827 locus of control & tolerance of ambiguity, college students, 4528

MMPI code types vs. psychiatric inpatients profile descriptors, automated MMPI interpretive program, psychiatric inpatients, 11800

modified Prisoner's Dilemma game, situational vs. personality variables of interpersonal trust, 9113

personality correlates of severe stress, Maudsley Personality Inventory, mothers of children with major CNS malformations,

personality correlates, arousal, psychopathic personality Ss, 11354 personality influences, confidence test scores, 4485

semantic differential & objective test battery & self & other judgments, personality type on polarity profile, college students & male high school graduates, 11254

sensitivity to injustice & socialization level & empathy & autonomy, mature moral judgment, 4499

social & social psychological correlates, community action potential, community involved adults, 10941

soporific vs. stimulator, sexual intercourse, 8524

uninhibited & nonconforming & impulsive & dominant type of extroversion & openness to new experiences, Sensation-Seeking Scales correlates, college students, 4553 unitary alcoholism factor & correlates on short-form MMPI, state

hospital new admissions, 2710

Personality Development anxiety & aggression, value as danger warnings vs. pathological reactions & ego development, 7199

auditory language, psychic structure formation, 6631 child development & learning & personality perception of child as abstract vs. individual, 8850

cultural or societal change, personality development, adolescents, longitudinal study, 4085

developmental factors, growth pattern, children, 2116 dreams, facilitating growth & awareness, book, 11255

educational unity, personality formation, 1282 ego development & child rearing practices, conformity & social change, New Zealand, 8856

emotional expressiveness-reserve vs. placidity-control orientations, personality development, longitudinal study from 5 16 yr. old, 580 erroneous infantile theories, neurotic personality development, 11405

factorial analysis, field independence & fixity-mobility, 10 83 yr. old males, 6488

family communication patterns & task orientation & parental role clarity & psychological distance, personality integration, children,

Family Relations Test-retest reliabilities, personality development in family relations, 9 16 yr. old retarded readers, 3217

family structure & environment, personality formation, Morocco,

fantasy as expression of cognitive structures modified in development, cognitive residues theory, 6581

father absence & early vs. late separation, personality development & sex-role typing & interactions with males, 13 17 yr. old firstborn females, 4138

formal education & psychoanalytic concepts, adaptation to reality development & reality testing, 3128

home climate & family interaction, child's personality development, 8828

home rearing vs. day care, quality of infant-mother relationship manifested in fear of strangers & exploratory behavior & eating patterns & sleeping routines, 3 24 mo. olds, 4217

human figure drawings development at ages 4 & 6 & 8, 4 8 yr. olds,

immature personality development & role of family relationships, male drug addicts, 4854

Jasper's theories of abnormal personality & psychopathological processes, psychic vs. organic processes, 11326
Kibbutz experience, personality development, adolescents, 6638

Kibbutz experience, personality development, adolescents, 6638 learning theory integration with personality development & character disorders, therapeutic process, 11750

ordinal position, psychographic characteristics, first- vs. lastborn vs. neither first- nor lastborn female college students, 2497

Outward Bound seminars & group discussions of current educational philosophy & practices, personal growth & interpersonal relations, school administrators & teachers & students, 3176 parental acceptance & family stability & consistency of care &

parental acceptance & family stability & consistency of care & discipline & physiological & psychological intactness & innate personality differences, development of individual coping styles, 20 yr. longitudinal study from infancy to childhood, 8806

parental demands for independence vs. restrictiveness, perceived self-responsibility for success & failure, 9 11 yr. old boys, 629 personality & age, stuttering severity during oral reading & spontaneous speech, 8 21 yr. old stutterers, 11465

personality & innovation, philosophy of management, book, 3406 personality development & social behavior, mentally retarded,

personality dynamics, book, 11213

personality growth, infancy to old age, book, 8833

personality integration, cognitive differentiation & cognitive integration & information yield on classification task, college students, 4542

personality integration, seriousness of offense, institutionalized juvenile delinquents, 4894

personality psychology, textbook, 6924

psychological & maternal influence correlates, personality integration, black vs. white lower- vs. middle-class 5th grade boys, 4086

punishment by withdrawal of love & varied warmth vs. withdrawal of material reward & varied values, self-criticism, kindergartners & 1st graders, 10846

role for ego development & self-experience, movement therapy, 11779

school type & socioeconomic status & parental influence, personality development & academic performance, children, book, 1337 self-development, academic success & nonsuccess in college & high

school, 5556

self-esteem & self-consciousness & preoccupation with self & self concept stability, self concept development, 3rd 12th graders & adolescents, 2179

sex differences, personality structure, Canadian 14 yr. olds, 6626 sibling's sex & status & age-space between siblings, sex-role preference, 2nd born 4 6 yr. olds from middle-class 2-child homes vs. singletons, 8785

social vs. clinical psychology, realizing optimum personal development. 11670

sports competition, personality development, junior high & senior high & college students & adult female athletes, 7907

theory of personality integrity based on character as integrating force, 4552

ungradedness on reading achievement & personality development, design for ungraded primary school in rural area, primary students, 3252

Women's Liberation movement participation, personal growth & actualization, American women, 10954

Personality Disorders (See also Antisocial Personality, Asthenic Personality, Cyclothymic Personality, Explosive Personality, Hysterical Personality, Inadequate Personality, Masochistic Personality, Narcissistic Personality, Obsessive Compulsive Personality, Paranoid Personality, Passive Aggressive Personality, Sadistic Personality, Sadomasochistic Personality, Schizoid Personality)

alcoholism, sexual behavior, hospitalized women alcoholic hysterics & sociopaths & primary alcoholics, 4848

depression & personality defects, suicidal behavior variations, female psychiatric inpatients, 9399

depression confrontation, aggressive personality disorders treatment 7543

family antecedents & frequent psychosexual disorders & abnormal premorbid personalities, amphetamine abuse, patients in private psychiatric clinic, 11683

group psychotherapy, correctional institution inmates with personality & character disorders, 7501 helper-therapist vs. detective-interrogater roles of psychiatrist, conscientious objection & homosexuality & personality disorders, military personnel in noncombat areas, 11755

ketamine, narcosis & ECS & electronarcotic coma & arousal, psychotic & neurotic & pathological personality patients, 7628

learning theory integration with personality development & character disorders, therapeutic process, 11750

narcosis & ECS therapy & antidepressant drugs, chronic tension states & depression & phobic anxiety & obsessional neurosis & schizophrenia & chronic anxiety & hysterical symptoms & intractable pain & primary unreality & personality disorders, patients unresponsive to prior treatment, 3069

obnoxiousness in psychiatric patients & others, 4779

Ozeretki-Gollnitz method of determining motricity vs. clinical findings & EEG & case history, lesional organic substrate detection, 7 14 yr. old explosive personality children, 2690

peer confrontation groups, authority conflicts & dependency & underlying hostility & narcissism, character disordered Ss, 7673

personality abnormalities & prior psychiatric referral & social maladjustment, soft to hard drug use progression, adolescent females, 11331

personality changes & changed motivational sphere, chronic alcoholics, 930

personality factor differences on Objective-Analytic Personality Test Battery, paranoid & nonparanoid schizophrenics & manic depressives & psychoneurotics & personality disordered, 7122

phenomenological approach of A. Hesnard, directives for psychoanalysis & treatment of character disorders & psychosis & institutionalization of young patients, 2785

problems in analysis of personality disorders & principles of examination methods, pathopsychology, 1084

psychoanalytic technique & diagnostic problems, characterological & schizophrenic & schizoaffective disorders treatment, 7384

psychopathological factors & flights of fantasy, skyjackers, book, 2646

psychopathology & evoked potential method, physiological 2dimensionality of information as basis for individual differences, Ss with personality trait disturbances, 7181

psychotherapy, attitudes toward marital partner, personality disordered neurotic patients, 9704

school records, hospitalized personality disordered patients & schizophrenics & their sibs, 7331

sociocultural influences, type of psychological reaction, Algerian psychiatric patients, 2713

token economy operant conditioning, character or behavior disorders, active duty U. S. Army personnel, 9724

factor analysis, E. Fromm's receptive & exploitative & hoarding & marketing nonproductive character orientations, 6916

factorial personality dimensions & ability & attainment, Terman-Merrill Vocabulary Test & Raven's Progressive Matrices & Vernon's Test of Graded Word-Reading & Schonell's Mechanical Arithmetic & sex, 10 yr. old children, 5584

family background & personality traits & views of early psychiatrists, acute mental illness of Johan August Strindberg, 2565

family structure & play activities & personality characteristics of child & imaginary companions, presence or absence of imaginary companions, 4 yr. olds, 10875

field dependence & personality style, abnormal offenders, 7088 fluency & verbal ability & extroversion & neuroticism, wordassociation commonality, college students, 5992

forced-choice vs. pencil & paper administration mode, comprehensive measure of openness-to-experience, college students, 2512

genuineness in group interaction, personality characteristics, college students, 6875

goal & stressful tasks & personality traits, time perception, college students & psychiatric patients & introverted vs. extroverted normal Ss. 5819

height & weight & obesity & muscularity & linearity & biacromialbi-iliac ratio & muscle strength, homosexual vs. heterosexual men,

hereditary & environmental influences, achievement & personality traits, monozygotic vs. dizygotic twins, 4099

high vs. low intolerance of ambiguity, recall of completed & interrupted tasks, college students, 3744

high vs. low socioeconomic environment, language & personality test scores, 7 9 yr. olds, 6605

history & interviews & TAT responses, personality structures, activist vs. activist-sympathizing vs. conservative middle-class 20-25 yr. old white males, 839

home background & relationships with parents & personality attributes & vocational behaviors & parents' educational level & father's occupation, 10th 12th graders & dropouts, 3337 home environment & personality traits, encopresis, children, 9391

ideal date preferences & 16 PF & Motivational Analysis Test characteristics & S's scores, date success & interpersonal attraction, undergraduate & graduate students, 6798

inference & space comparison & information combining, personality judgment structure, 2356

integration & attribution theories to weight information about people, personality impression formation, 1706 intelligence & personality & interests & self concept & attitudes toward university, women student leaders during 1958 vs. 1970,

intelligence & personality factors, projective measure of need for achievement & academic achievement, students, 5431

intelligence & personality traits & demographic variables, orientation & mobility & personal-social & vocational skills, 16 66 yr. old legally blind Ss, 4843

intelligence & personality type, attentiveness to color on color-word interference test, 12 14 yr. old boys, 11258

intercorrelation of intellectual & motivational & personality aspects of creativity, 11206

internal vs. external orientation, information seeking & learning & use of weight control relevant information, female participants in weight reduction program, 1200

interpersonal perception qualities, selecting prospective psychology students, 11301

Interpersonal Check List & Jourard's Self-Disclosure Scale, selfdescribed personality & sex differences, college students, 9149

interrelatedness of personality trait adjectives & test trait rating order, context effect in personality impression formation, 6869 interrelationship between personality factors & job promotion & job turnover, high school seniors upon graduation & 5 yr. later, 3367

interview conditions & intelligence & personality variables, consistent aspects of speech behavior, legally blind adults at trainee screening session, 3445

intrapair differences, systolic blood pressure & personality, monozygotic twins, 6204

IQ & personality traits & demographic characteristics & parentchild relations, dogmatism, college students, 6936

language aptitude & personality factors, audio-lingual foreign language learning, male adult students, 3109

leader personality type, change in T-groups, college students, 9094 likeness vs. completeness theory, real & perceived personality similarities, spouses, discussion of R. Cattell & J. Nesselroade's hypotheses examination, 4379

lithium carbonate prophylaxis, bipolar depression & personality structure, clinical vs. research applications, 1925

low vs. medium vs. high levels of hypnotic susceptibility & personality characteristics, manifest dream content, female college students, 855

marathon group experience, self-actualization & interpersonal personality dimensions, college students, 2386

medical history & physical examination & karyotype & somatotype & anthropometric measurements & Eysenck Personality Inventory scores & neuroticism & extroversion, lesbians, 7132

minimal brain dysfunction diagnosis, hyperkinetic children, 9158 mixed vs. coed vs. single-sex dorms, personality & social life & sex attitudes & behavior, college students, 7922

MMPI Hysteria & Psychopathic Deviate & Schizophrenia & Hypomania & Social Introversion Scales, personality characteristics, middle & upper middle class drug abusing vs. nondrugabusing adolescents, 2643

MMPI scale development, evaluation of ability to resolve conflicts,

most- vs. least-preferred occupational interest areas, personality characteristic attribution to occupational group members, male college students, 4459

motivation & job performance & job rewards & personality characteristics & working environment, job turnover predictive model, scientists & engineers, 3385

motivation assessment for alcohol drinking, men, 10959

motivational & birth order factors & personality characteristics & school & state board examination & job performance & values & interests, nurses, review of research studies, 7049

motivations & personalities, decisions to study medicine, female medical students, 9238

motoric & ideational & sensory expressive styles, further validation of K. Stein & P. Lenrow's types, 4540

Neuroticism & Extroversion scales of Eysenck Personality Inventory, college students vs. stutterers, 9286

Neuroticism Scale Questionnaire of R. Cattell & I. Scheier, stability across sex of primary vs. higher order factors, college students,

noncognitive personality differences, successful vs. unsuccessful

college graduates vs. nongraduates, 9872 open-space vs. traditional school building design, personality characteristics, 6th & 7th & 8th graders, 5468

organizational & personality, leadership style, management personnel, use of E. Ghiselli's self-description inventory & L. Porter's managerial attitudes questionnaire, 10179

parental rejection & social background & religion & age & intelligence & personality & childhood experiences & child's age & sex & intelligence & personality, child guidance clinic patients, Northern Ireland, 2942

participant personality characteristics, success of case discussion vs. lecture teaching method, adults in management development program, 5683

pay vs. extra credit vs. love of science recruitment methods, characteristics of volunteers, 4513

peer ratings of competency & knowledge of theory & techniques & likability vs. intellectual & nonintellectual characteristics, students in counseling practicum, 2534

perceptions of scholastic & professional future & family & interpersonal relationships & forms of reactions to circumstances & events, urbanized Dakar adolescents, Senegal, 6593

perceptual & personality & economic variables, price level of

product selections, college students, 5645
perceptual field-independence & sophistication-of-body concept, social distance selection, psychiatric hospital staff, 769

performance styles, information-seeking task effectiveness, college students, 2515

Persian translation of Cattell's 16 Personality Factor test, personality patterns & comparison with American norms, 17 19 yr. old Iranian high school students, 8950

personal characteristics as judged by school mental health professionals, acceptance as aides in program for primary grade children evidencing school maladjustment problems, female applicants, 3135

personalities of mothers & children, mother-son interaction, Caucasian mothers & normals vs. withdrawn vs aggressive behavior disordered sons, 1070

personality & attitudinal & biographical characteristics of drinking drivers, traffic accidents & violations, 3434

personality & cognitive style, marihuana use, college students, 6667 personality & demographic factors, withdrawal from college, college

freshmen, 5565 personality & functional speech disorders, survey of research over 40 yr., 11383

personality & motivation & intelligence, academic performance, 16 yr. olds, 5524

personality & social background & sexual arousal to sight of naked body, nudists vs. nonudists, 4278

personality & socioeconomic factors, predicting cigarette consumption levels, adults, 6914

personality attributes on MMPI, young nonaddicted drug abusers, 4301

personality characteristics & age & ethnic background, amount of time served prior to official referral consideration for release, confined narcotics offenders, 1141

personality characteristics & family background & anxiety, discrepancy between academic aptitude & achievement, college students, 11968

personality characteristics & stressful psychosocial events, etiology & pathogenesis & course of gout & hyperuricemia, 7193

personality characteristics & vocational interests, legal academic achievement, 1st yr. male law students, 1351

personality characteristics & ESP scores, 1607

personality characteristics measured by psychological scales, drug use patterns, self-defined vs. non-self-defined young problem drug users, 4296

personality characteristics, college students with history of suicide vs. other student groups, 7168

personality characteristics, communicative & discriminative ability, counselor trainees, 11282

personality characteristics, conjugate lateral eye-movement phenomenon in response to reflective thought questions, 6921

personality characteristics, depression & side effects caused by oral contraceptives, women, 6709

personality characteristics, effective technical communication ratings by peers, research & development engineers & scientists,

personality characteristics, job satisfaction, post-secondary distrib-utive education personnel, 7883

personality characteristics, persons' group goals & technique preference in growth oriented human relations training, college students, 6785

personality characteristics, selection vs. nonselection of sensitivity

training & training outcomes, college students, 7817 personality characteristics, successful & dropout & probationary black & white college students, 3279

personality characteristics, temporal-spatial uncertainty & probability of physical harm & nature of competition, athletes, 3100 personality characteristics, transracial adoption, white females

adopting black child vs. white females unwilling to adopt black child. 2478

personality characteristics, users vs. nonusers of university counseling center, college students, 3155

personality characteristics, validity of academic information selfreport, high school students, 8014

personality characteristics, visually deficient & mentally deficient children, 7221

personality characteristics, women biologists & chemists, 6920 personality differences, feminists vs. female undergraduates vs. noninstitutionalized vs. institutionalized elderly women, 6941

personality differences, high accident rate in Israel, 18 21 yr. old male army drivers, 1455

personality differences, male vs. female medical students, 9156

personality factor differences on Objective-Analytic Personality Test Battery, paranoid & nonparanoid schizophrenics & manic

depressives & psychoneurotics & personality disordered, 7122
personality factors & general intelligence & high vs. low spatial
ability, psychological differentiation, male vs. female 9th graders, 1624

personality factors & psychosomatic conditions, ESP & clairvoyance, 14 yr. old boys in classroom situation, 3614

personality factors associated with manifest distress & social isolation & perception of mother & previous failure to quit, prediction of success in smoking withdrawal program, male heavy smokers, 5065

personality factors, altruism, college students & philanthropists, 11120

personality factors, persistence in religious training or occupations, seminary persisters vs. leavers, 2262

personality integration, criterion measures for assessing therapy outcome, 3055

personality interaction & response of family, diagnosis & treatment course & psychological repercussions, cancer patients, 7530 personality needs & college satisfaction, students, 5381

personality needs, adult team sport participation & perseverance &

phenothiazines & lithium & unilateral ECS vs. drug-free state,

neuropsychological test results, psychotics, 5217
3-methylsulfonyl-10- [2-(N-methyl- piperidyl-[2]) ethyl-(1)]- phenothiazine, mood & social contact & schizophrenic symptoms, patients, 2844

**Phenotypes** 

clinical genetic research, pathogenesis & classification by mode of transmission & phenotypic variations, application to typical vs. atypical schizophrenia, 4793

general model of likelihood of set, genetic analysis of pedigree data,

heritability of Jensen's Level I vs. II vs. divergent thinking, twins, 11248

learning rate & selective breeding responses for learning & heritabilities of learning phenotypes & heterosis & overdominance, animals, critical review, 340

sex, phenotypic characteristics, newborns to 3 yr. olds with Down's syndrome, 4659

visual CS & nonlight stimuli, high response levels under massed practice & avoidance levels, C3H & DBA mice, contribution to J. Wilcock & D. Thiessen's review, 6103

Phenoxybenzamine

+ amphetamine & methamphetamine & tyramine & ephedrine vs. phenoxybenzamine & phentolamine & tolazoline vs. atropine & arecoline, epileptiform afterdischarges in chronically isolated slabs of cerebral cortex, cats, 409

clonidine & apomorphine, locomotor activity, normal vs. reserpine vs. methyltyrosine vs. FLA-63 vs. spiroperidol vs. phenoxybenzamine pretreated mice, 418

dibenamine & phentolamine mesylate & phenoxybenzamine, evoked visual cortical potentials, rabbits, 1937

reserpine & phentolamine & phenoxybenzamine & haloperidol & chlorpromazine & imipramine & atropine & mepyramine & nalorphine, morphine-induced activation, mice, 6236

Phenylalanine

p-chlorophenylalanine & reserpine, estrus induction, estrogen-primed ovariectomized vs. adrenalectomized vs. hypophysectomized female mice, 6267

parachlorophenylalanine & 5-hydroxytryptophan & L-tryptophan & a-methyl-5-hydroxytryptophan & MAO inhibitors & a-methylparatyrosine & a-methyl-phenylalanine & L-dopa, REM sleep & soporific effect in insomniacs & slow wave sleep, medical & psychiatric patients & normals, 5282

parachlorophenylalanine induced phenylketonuria, cataractogenesis, immature rats, 3893

Phenylketonuria

carrier detection & assessment of dietary treatment based on latest IQ, phenylketonuria patients & their families, 7454

IQ distributions, early treated phenylketonuric children & unaffected siblings, criticism of F. Hudson & V. Mordaunt & I. Leahy's failure to replicate trimodal response, 5148

parachlorophenylalanine induced phenylketonuria, cataractogenesis, immature rats, 3893

urine analysis, detection of metabolic oligophrenias, retarded children, 935

Pheromones

exposure to odor of stressed conspecific communicator urinating or defecating, alarm pheromone phenomenon, mice, 8758

testosterone propionate of preputial glands applied to male's coat, dose-related aggression against injected females, castrate male mice, 3934

### Phi Coefficient

Philippines

age & mothers' perceptions, ethnic attitudes & stereotypes of Tagalog & Chinese people, Philippine 10 15 yr. olds, 8836

age & sex, attitude towards persents, Filipino 3rd 6th graders & lst yr. high school students, 634

economic & social-psychological & communication variables, agricultural modernization, Southern Philippines, 10939

permanent school records & achievement tests & aptitude & attitude measures, 2nd language acquisition, English-speaking Canadian

& Filipino high school students, 1286

videotaped social interaction skit with Chinese & Tagalog actor tyrads, pre- & postratings of actors' getting along" & language usage & ethnic affiliation, male Manilans of Tagalog groups, 812

Philosophies (See also Animism, Asceticism, Dualism, Epistemology, Existentialism, Fatalism, Humanism, Idealism, Intellectualism, Logic (Philosophy), Materialism, Metaphysics, Mysticism, Nihilism, Pacifism, Pragmatism, Realism (Philosophy), Reductionism, Skepticism)

active subjective role involved in process of knowing & informing image, implications for educational strategies, 8178

behavioral counseling & goal achievement, criticism of B. F. Skinners' view of dependence of freedom & dignity on "autonomous man" concept, 2923

Bergson's view of customs, crystallized creativity, 1484

biopsychological & psychoanalytic & philosophical & socio-political & aesthetic & personal reflections on basic behavioral tendencies,

changing character of things as property of things themselves, 3497

commonality between Jung's theory of religion & Chardin's conception of spiritual evolution, man's spiritual & mental evolutionary processes, 3489

contemporary social vs. phenomenological psychotherapy vs. representative contemporary religion, concepts of healthy

personality, 11264 created & fallen & restored existence in Christian anthropology, Kierkegaard's & Freud's problematic self, book, 10201

critical analysis, moral implications of practice & judgments of psychotherapy, 8182

determinism vs. humanism, freedom & responsibility, 1476

eschatology & ecological ethic, 3479 factor analysis, E. Fromm's receptive & exploitative & hoarding & marketing nonproductive character orientations, 6916 German romanticism, influence on Freudian views, 5709

Heinrich/W., commemorative sketch of life & philosophy &

psychological & pedagogical work, 1494 history & systems & drugs & existential & industrial psychology &

therapy & psychiatry & perception, psychology viewed in terms of people, 1478 Hume's perceptual-level view of causality in behavioristic psycholo-

gy, problems in contemporary psychology, critical analysis, 3483 ignorance of history of individual organism, explaining behavior by means of will, 10194

individual perspectives & theoretical frameworks, view of Goethe,

innate hypothesis of language, critique of N. Chomsky & J. Katz's claim of affinity with Descartes & Leibniz & other 17th-& 18th century rationalists, 9119

inner experiences & consciousness, free will vs. deterministic view of life, applicability for teaching, 11919

interactionist theoretical perspective, analyzing social movements,

application to LSD movement of T. Leary, 10987

interrelatedness of psychology & philosophy of personality, support for G. Allport & need to consider objective & subjective reports, 4 gy, examination of Freeman's paper, 3482 language philosophy & analysis, counseling-guidance psychology, 2955 lack of meaningful interchange, philosophical analysis & psycholo-

matter vs. form & actuality vs. potentiality & theory of perception, Aristotle's psychology, 3478

mind & body & metaphysics & reification & causality & explanation, philosophical problems for psychology, 1472 panpsychism of G. Fechner & mind-body problem, 8193 passive automatic vs. active repetition, philosophical views, 7214 phenomenological viewpoint of K. Holzkamp vs. K. Popper's logical empiricism, falsification theory vs. conventional basis of

psychology, 15 philosophic values for client & counselor, 2807

philosophical basis of rational emotive therapy, 2845 philosophical basis, child psychiatry, 7486

philosophies of psychoanalysis, discussion of T. Szasz & J. P. Sartre & proposal for voluntaristic metapsychology, 5137 philosophy & principles & methods of resolving polar tensions, 1

philosophy of mind theories, lack of substantive conditions placed on type identity of psychological states, 5
Platonic models of mind & madness & treatment of madness, 8189

REM, philosophical concept of time & man's sanity, 2696

social origins & philosophies & problems & political noninvolvement, hippie communes, 11031

temporality & emergence, John Dewey's writings, 1495 theologies of death, literature review, 5711

third-dimensional manifold of mind & body, 10212

validity of The Greening of America Consciousness typology & change acceptance & human nature philosophies, 4268

Phobias (See also Acrophobia, Agoraphobia, Claustrophobia, Dysmorphophobia, Ophidiophobia, School Phobia) animal phobias & feeding problems, psychoanalytic treatments, only children, 11531

broad-spectrum behavioral views & refutation of simple condition-

ing theory, phobias, 7211 cognitive ego function, phobic symptom, 11471

degree of monolithism in mode of perception of others & minority influences, submission to new norms, college students, 11430 implosive therapy, germ & crowd phobia, female undergraduate, 3003

implosive therapy, semiclinical insect phobias, females, 7444 instructional differences in locus & level of arousal, intensity of

blood phobia, 5050

modeling vs. participation component in participant modeling technique, fearful avoidance behavior reduction, children, 9670

muscle relaxation vs. muscle tension training vs. no treatment spontaneous remission control & high vs. low initial skeletal muscle levels, analog systematic desensitization, snake-phobic college students, 9536

need to be dependent & marriage, phobias, case reports of 3 women,

observational apparatus obtaining continuous stable measure, phobic behavior over time, college student, 5191 principal-component factor analysis, fear of physical injury & natural events & psychic stress, 6 16 yr. old phobics & nonphobics, 4792

psychopathology & psychogenesis & therapy, obsessional phobic syndrome, school-age children, 958

reciprocal inhibition vs. psychotherapy vs. waiting list control, 6 15 yr. old phobics, 2954

Sedac electrotherapy, treatment of phobias & intense psychotic involutional melancholia, depressive patients, 1131

social club group meetings & member activities, increasing sociability, anthropophobiacs, 9785

standard group systematic desensitization vs. automated version, normals vs. phobic patients, 4950

systematic desensitization of phobias, chronic severe depression, 60 yr. old male, 3070

systematic desensitization using muscle relaxation & visual imagery, school phobia & death phobia & separation anxiety, 10 yr. old, 1191

systematic desensitization vs. induced anxiety, snake phobic Ss, 9687

systematic desensitization vs. placebo treatment with vs. without false GSR feedback, snake & spider phobia modification, 9673 systematic desensitization with multiple baselines, 28 yr. old female

with multiple phobias, 9672 tablet vs. capsule chlordiazepoxide medication, consumption rate & anxiety & irritability & phobias & insomnia, anxious patients,

taped implosive therapy with no vs. 3 alternative instructional sets, extinction of learned fear of snakes, college students, 2837

**Phobic Neurosis** anticipated contact with therapist, anxiety & defense mechanism use, neurotic depressive vs. S with free floating anxiety & multiple

phobias, 11538 autonomic nervous system reactions & biofeedback, heart rate

variability, spider phobics & nonphobics, 11722 behavior therapy unit supervision session transcript illustrating conceptual difficulties, discussion of patient with fear of success,

continuous phobic stimulation, heart rate & skin conductance &

subjective anxiety, phobic patients, 7683 systematic desensitization, phobic behavior changes, 7518

Phonemes (See also Consonants, Vowels) auditory discrimination of standard & black English sounds, 1st vs. 3rd vs. 5th grade speakers of black vs. standard English, 6599 instructions & response-delay intervals & noise & visual monitoring

& error prediction & recognition & nature & loci, phonemic

knowledge of phoneme-grapheme & grapheme-phoneme correspondence, assessing knowledge of English sound-symbol relationships, 1st & 2nd & 3rd graders, 3187

phoneme as tool, diagnostic testing & therapy in speech pathology,

3030

phonological permissibility, paired-associate learning of phonemic CCVCs, college students, 6060 simultaneous consonant & vowel phoneme same-different judg-

ments, right-handed undergraduates, 1574 traditional orthography vs. initial teaching alphabet vs. orthogra-

phies providing graphic cues, differentiation of grapheme-phoneme units, kindergartners, 3277 visual vs. aural presentation, similarity-dissimilarity ratings of phonemes, 1562

onetics (See also Consonants, Morphemes, Phonemes, Syllables,

Vowels, Words (Phonetic Units)) conceptual & acoustic similarity & age, free verbal recall,

elementary school students, 8829 extraexperimental associations & interference, motor recall &

articulatory decay, 1st & 2nd graders, 10521 figure homogeneity & completeness & roundedness, repetitious syllable assignment, undergraduates, 6886

phonemic similarity & semantic relatedness, long-term & short-term storage during free recall, 1696

phonetic pretraining with sound in initial vs. final position vs. no pretraining, pronunciation of foreign sound & positive positional transference, college students, 5987

phonetic vs. imaginal word features, processing low imagery abstract vs. high imagery words, college students, 10473

phonetic vs. semantic memory organization bases & sound vs. meaning facilitative instructions & age, verbal false recognition error occurrence, lst vs. 5th graders, 585 phonology & acoustics & psychoacoustics, phonetic segments, 2432 semantic & phonetic preference test, separation of word sounds & meanings, 4 9 yr. old Afrikaans-English bilinguals vs. unilinguals, 10650

sound vs. meaning, aesthetic preferences in poetry, college students,

early intensive phonics instruction, ability to pronounce synthetic words, 2nd 4th graders, 10084

phonics vs. sight recognition method & verbal reinforcers, initial reading acquisition, kindergartners, 7910

phonology & orthography correspondence of Russian language, phonetics approach to teaching beginning reading, USSR, 3334 sight recognition vs. phonic instructional methods, word recognition errors, 1st graders, 9836

understanding of phonic generalizations, teachers, 3159

phonological dissonance, learning to read, children with dialects different from that of teacher, 9879

phonological permissibility, paired-associate learning of phonemic CCVCs, college students, 6060

phonology & acoustics & psychoacoustics, phonetic segments, 2432 repeated testing & contrasts using Wepman Auditory Discrimination Test, phonological discrimination assessment, kindergartners & 1st graders, 4151

talents for auditory processing & imitation & planning & producing finely controlled motor sequences & phonological system & grammatical rule abstraction & symbolization & discourse, language acquisition, children, 2173 tests of phonological & semantic & syntactic aptitudes, 5 6 yr. olds,

8801

Phosphatases (See also Acid Phosphatases)
Phosphatides

Phospholipids (See Phosphatides)
Phosphorus

Phosphorylases
Photic Threshold (See Illumination, Visual Thresholds)

# Photographic Art

monochrome vs. lithographic photograph positives vs. negatives, recognition of familiar faces, college students, 8320

theater & photography & architecture & journalism, visual literacy, stimulating student involvement, 9977

# Photographs

eye movements during detection of particle events in photographs, implications for computerized bubble chamber photograph reader, experienced vs. inexperienced readers, 5592

photographing perceptions & discussing them, self concept modification, kindergartners & 4th graders, 7839

# Photopic Stimulation

achromatic zone for red light in fovea & green light in periphery, threshold mechanisms for scotopic & photopic retinal system,

alternating brightness & darkness dominance, stroboscopic phe-nomena, 5885

EEG, involuntary & voluntary memorization of visual material,

geometric patterns combined with intermittent photic stimulation, occipital spikes & photoconvulsive response provocation, photosensitive epileptics, 988

nervous system strength, visual stimuli frequency, driving reaction,

photopic vs. scotopic stimuli, visual evoked response component responsiveness, 10546

septal lesions, behavioral reactivity & averaged visual evoked responses to discrete series of photic stimuli, rats, 10678

Photoreceptors (See also Cones (Eye), Rods (Eye)) differential properties of compound eye system & caudal photoreceptors, light stimulus habituation & avoidance learning, normal vs. eyeless crayfish, 270

ocular & encephalic photoreceptors, role in photoperiodic control of reproduction, blinded Japanese quail, 6271

### Phrase

Phrenic Nerve (See Spinal Nerves)

#### Phylogenesis

behavioral & morphological & phylogenetic development, angelfish, 262

grasping prey with mouth vs. pinning & grasping with forepaws vs. killing bites vs. tossing prey grasped in mouth, phylogenesis of predatory behavior, small predatory mammals, 1988

# Physical Agility (See also Physical Dexterity)

initial training level & changes in training, transfer from specific to nonspecific environment, factor analysis & probability forecasting of athletic abilities, 1757

scholastic achievement & interests & peer status & physical growth & abilities, modal-age vs. underage boys, 7756

#### Physical Attractiveness

Physical Development (See also Motor Development, Prenatal Development, Psychomotor Development, Sexual Development, Speech Development)

adverse emotional environment, reduced physical growth rate & deprivation dwarfism, 970

genetics & acclimatization, physical growth & development & attainment, adolescent & adult Peruvian Quechua, 10855

height & weight & obesity & muscularity & linearity & biacromialbi-iliac ratio & muscle strength, homosexual vs. heterosexual men, 2617

home environments & mother relations & peer involvement & academic achievement & physical ability, hyperactivity, children, 2075

medical history & physical examination & karyotype & somatotype & anthropometric measurements & Eysenck Personality Inventory scores & neuroticism & extroversion, lesbians, 7132

microenvironment of mother & child vs. macroenvironment of society vs. biological factors as predictors, physical growth & mental development, 1 3 yr. olds, 4148

motor disabilities remediation & intellectual & physical development, motor development, retardates, 7203

parent educational background, child psychomotor development &

adaptability, 10801

physical & psychological & intellectual history, XYY chromosome abnormality, case history of identical dull-normal black twin

physical development & maturation, children, book, 4083

physical growth & familial social factors, cognitive functioning, 3-6 yr. olds, 6539

physical growth & maturation & motor activity & sensory capacities in infancy & mother-infant interaction & onset of fear & social behavior & intellectual functions, sex differences, preschoolchildren. 2128

protein & sensory deprivation during suckling period, growth & exploratory activity, rats, 6255

scholastic achievement & interests & peer status & physical growth

& abilities, modal-age vs. underage boys, 7756 skeletal age, fine motor performance, 5 vs. 7 vs. 9 yr. olds, 6533

state mental hospitalization, social & physical functioning, geriatric patients, longitudinal study, 9721

# **Physical Dexterity**

imitative training, learning manipulative skills, severe retardates,

manipulative dexterity & perceptual-motor abilities, 15 32 yr. old mental retardates, 10347

# Physical Education

achievement motivation & anxiety, competition effects on physical performance, physical education majors, 11912

bowling program, bowling skill & number concepts & self esteem, educable mentally retarded 8 17 yr. olds, 12072

organized physical education program, minimum levels of muscular fitness, 10-16 yr. old trainable retarded boys, 5562

perspectives, physical education, book, 11973

physical activity program in swimming vs. physical education, perceptual-motor development & primary mental abilities, 4 6 yr. olds, 7784

physical education & sport, psychological aspects, book, 9955 physical education principles & techniques, recreation programs,

retarded school children, 9998 physical training program, 16 PF & weight & estimated maximum oxygen uptake & respiratory rate & vital capacity & RT & flexibility & heartometer measures, 60 79 yr. olds, 6471 traditional vs. problem solving teaching methods & anxiety level, sports skill acquisition, elementary school children, 10047

training program in swimming, methodological procedure & evaluation of results, children with minimal brain dysfunction & perceptual & motor disorders, 4937

verbal reinforcement, physical education attitude, junior high school boys, 5520

#### Physical Endura

ego-involvement & competition & remuneration & placebo as motivational incentives, bicycle ergometer pedalling performance,

college students, 5886
prolonged work & cardiac frequency manipulated by heat,
perceived exertion, college students, 10575

short-time muscle exertion vs. prolonged endurance, terminal thresholds for physical strength & endurance, college students, 76 sleep deprivation, dynamic strength & stamina, 17 23 yr. old male

undergraduates, 3622 static strength & endurance relationships, manual task performance, male adults, 149

# Physical Exercise (See Exercise)

### **Physical Fitness**

biographical & physical fitness & health status measures, predicting success in Underwater Demolition Team training, Navy enlisted men. 5627

motivational techniques, muscular strength development, literature review, 5358

organized physical education program, minimum levels of muscular fitness, 10 16 yr. old trainable retarded boys, 5562

physical fitness, personality factors, junior college males, 5403
3- & 6-week periods of residential

& 6-week periods of residential camping, physical fitness & adaptive behavior, noninstitutionalized 7 21 yr. olds with brain dysfunction syndromes, 1320

### Physical Growth (See Physical Development)

Physical Handicaps (Attit Toward)
equal-status social contact, changes in expressed & acceptanceposture attitudes toward disabled peers, 7th 10th graders, 9936

viewing physically handicapped vs. nonhandicapped model, imitative responses, male vs. female mental retardates, 7113

## **Physical Maturity**

age & physical maturity vs. learning factors & school environment & socioeconomic status & maternal role expectations, parent orientation, 10 14 yr. old girls, 6622

body pattern & pattern component classification & chromatic expression & body pattern behavior response maturation, octopus, 531

# Physical Strength

sleep deprivation, dynamic strength & stamina, 17 23 yr. old male undergraduates, 3622

# **Physical Therapists**

cerebral cortex function & organization, damage & associated dysfunctions, understanding for planning rehabilitation by physiotherapists & occupational therapists, 5115

# Physical Therapy

rehabilitation program, error analysis of relearning motor skills, right vs. left hemiplegics & hemiparetics, 1120

reinforcement contingencies, pursuit rotor tracking task perform-ance, 18 yr. old cerebral-palsied tension athetoid quadriplegic,

# Physical Trauma (See Injuries)

Physical Treatment Methods (See also Acupuncture, Adrenalectomy, Amputation, Artificial Respiration, Autopsy, Blood Transfusion, Castration, Catheterization, Colostomy, Decerebration, Decortication (Brain), Dental Surgery, Dental Treatment, Dialysis, Diuresis, Endocrine Gland Surgery, Heart Surgery, Hemispherectomy, Hemodialysis, Hypophysectomy, Hysterectomy, Immunization, Induced Abortion, Male Castration, Mastectomy, Medical Treatment (General), Neurosurgery, Organ Transplantation, Ovariectomy, Pancreatectomy, Pinealectomy, Plastic Surgery, Psychosurgery, Pyramidotomy, Radiation Therapy, Surgery, Sympathectomy, Thalamotomy, Thyroidectomy, Tractotomy, Vagotomy) carrier detection & assessment of dietary treatment based on latest

IQ, phenylketonuria patients & their families, 7454

electrosleep therapeutic effectiveness, psychiatric patients, 5187 hyperbanic oxygen treatments, organic mental syndrome, aged patients, 5034

modern treatment methods & doctor-patient relationship intricacies, symptom encouragement & iatrogeny, 1051

personality interaction & response of family, diagnosis & treatment course & psychological repercussions, cancer patients, 7530

Physically Handicapped (See also Amputees, Health Impaired) academic achievement prediction, physically disabled college

students, 9967

acceptance of handicap & emotional adjustment & self concept, developmental process from 5-9 yr. old, physically handicapped children in special school, 1336

behavior modification techniques use by teachers, multihandicapped students, 5469

camptocormia & associated psychological symptoms, review & case report, 7105

characteristics associated with completion of doctoral degree vs. withdrawal from graduate school, 9855

client motivation, rehabilitation counseling outcome, physical & learning disabled & emotionally & mentally disturbed clients, 7631

concepts of narcissism, regression hypothesis for emotional problems & behavioral crises during rehabilitation, severely physically damaged patients, 11619

disability determination specialists, role & function, 7055

encounter group therapy, psychological problems of physically handicapped, 5035

family's role, physical disability rehabilitation, 9761

gardening, functional & work assessment & therapy, disabled & elderly, 4972

group psychotherapy, mentally & physically handicapped in rehabilitation centers, 7496

internal-external control expectancies, institutionalized physically disabled male adults, 7324

metacentric 47th chromosome, physical abnormalities of ears & eyes & extremities, mentally retarded 9 yr. old male, 9276

need for sex education & understanding of sexual mores, mentally deficient & physically deformed & black ghetto dwellers, 5509 origins & development & problem areas, workshops for disabled &

retarded, 1134 preferences toward normal white & black physically handicapped male adolescents, retarded white & black non-physically

handicapped male adolescents, 3229 preparation & placement responsibilities toward disabled, rehabilitation center, 5020

rest periods during testing, test scores, physically handicapped vs. nonhandicapped 7th 9th graders, 11893

semantic differential ratings of work & education & dependency concepts, predicting vocational rehabilitation outcomes, physically disabled Ss, 7664

sensory & motor handicaps, presidential address to 7th International Conference of Child Psychiatry & Affiliated Professions, 9292 social & therapeutic environment & treatment, day care program,

physically & mentally handicapped elderly, 9659 structured activities & role of family & social worker & therapist, self-satisfaction & confidence through success & independence, male hemiplegics, 7495

Physically III Patients (See Patients)

Physicians (See also Family Physicians, General Practitioners, Gynecologists, Internists, Neurologists, Pathologists, Pediatricians, Psychiatrists, Surgeons) age & recidivism rate & type of crime, teacher & lawyer & physician

prison inmates, 11444

attitudes toward mental illness, college students & physicians & police & nurses in Great Britain & Czechoslovakia & West Germany, 7217

communication barriers between doctor & patients, 2842

interview analysis & follow-up interviews, doctor-patient interac-tion, mothers of children admitted to pediatric clinic, 5090 legal system involvement & nonmedical factors & physician experience, mental incompetency adjudication, 4677

marihuana & alcohol & tobacco use & attitudes, physicians, 7045 modern treatment methods & doctor-patient relationship intricacies, symptom encouragement & iatrogeny, 1051

outpatient clinic control structure variations, conflict perception, teaching vs. community hospital pediatric clinic physicians, 7587 physician behavior, mental patient psychiatric care referral, 7594 primacy & rated importance, recall of medical statements concerning diagnosis & advice & instructions, 7220

psychiatric care & medical programs & postgraduate education of physicians, USSR, 5244

psychiatric education, primary physician, book, 11278

psychiatric principles training program for general practitioners, 4569

regional comparison, attitudes toward abortion, physicians in New York vs. Virginia, 7050 stability of childhood & adolescent adjustments, alcohol & drug use

& marital instability & psychotherapy need, physicians, 4591 therapeutic methods & outcomes in treatment of alcoholics, survey

of general practitioners & internists & neuropsychiatrists, 5009 training & attitudes, sexual counseling & treatment of patients, doctors, 9716

### **Physicists**

**Physics** 

geometry, unifying study of basic problems in engineering & physical science, book, 1530

synaptic nervous function quantum description, conceptual dualism resolution among biology & physics & chemistry & conditioned reflex phenomenological status, 6151

theory testing in psychology & physics, discussion of P. Meehl's paradox, 1483

Physiological Aging

attitudes toward aged & aging, psychiatrists, 9242 voice sound pressure level & rate in words/min & sentence rate, oral reading & impromptu speaking, 40 50 vs. 61 70 vs. 70 80 yr. olds,

Physiological Arou

anxiety level & REM vs. NREM sleep, post-arousal visualization performance, calm vs. tense young adult males, 1772 anxiety reduction & arousal reconditioning procedures, homosexu-

ality related sexual impotence, case report, 11674

arousal level & number of learning trials, paired-associate recall, undergraduates, 3728

arousal value in auditory vigilance task, EEG, college students, 8521 arousal, cognitive dissonance reduction, 10488

arousing properties of viewed stimulus, transoccipital EEG during gaze conditions, college students, 8522

attribution of arousal to electric shock vs. sexually exciting story vs. nonawareness, self-ratings of anger & aggressive behavior, male college students, 6810

autonomic physiologic arousal during jump sequence, parachute jumping performance, sport parachutists, 3787

avoidance acquisition, electrocorticogram & EKG & EMG arousal threshold with tone as stimulus, rats, 337

bogus heart rate feedback vs. noise increase vs. no change feedback in responding to noxious stimuli, GSR & verbal reports of

discomfort & unpleasantness, college students, 3803 breathing amplitude & cycle time & eyeblink rate & latency & finger pulse volume & heart rate & GSR & voice latency, detection of deception, college students, 6120

caffeine perceived as analgesic vs. perceived as stimulant vs. placebo perceived as analgesic, tendency to affiliate with other in similar situation, college students, 3931

chemical manipulation & drive system excitation & site of stimulation, physiological bases of drive & punishment systems during self-stimulation, rats, 8667

coefficient of variation of mean absolute EEG voltage & delta band spectral intensity & age & prior medication, arousal, chronic schizophrenics, 9396

concentration & excitability, reaction time & visual discrimination of lit bulbs, 8269

contingent negative variation amplitudes, sexual object preferences, 6115

drowsiness & sleep, physiological & pathophysiological periodic phenomena, patients with sleep disturbances, 10563 EEG arousal, projections from periaqueductal central gray to forebrain, females rabbits, 465

exercise, physiological responses to psychic stressor, college women,

experience & perceptual narrowing, performance in dangerous environments, 8261

fatigue & arousal in simulated car driving, steering errors & brake RT & subjective fatigue & pulse rate & respiratory rate & skin resistance & neck muscle tension, 20 25 yr. old psychology & driving school students, 8057

food deprivation & suspension over visual cliff, tonic immobility, chickens, 10736

GSR & penile volume responses, conditionability, 6094 high physiological arousal during learning, short-term vs. long-term retention, 10455 imprinting, arousal, precocial birds, 10769

induced arousal, word-recognition learning, mongoloids & normals,

interpersonal verbal attack from white peer, anger & aggression & vascular arousal, black undergraduates, 4405

limbic ICS & lesions, physiological & clinical changes, severely incapacitated psychiatric patients, 7510 olfactory perception, sexual arousal, 5895

pentylenetetrazol injection & pharmacologically induced behavioral &/or EEG activation, photically evoked after-discharge patterns,

rats, 1870 peripheral cue relevance of location-specific stimuli under aroused

states, perceptual field narrowing, college students, 10354 personality & social background & sexual arousal to sight of naked body, nudists vs. nonudists, 4278

personality correlates, arousal, psychopathic personality Ss, 11354 physiological feedback in videotaped-feedback simulation film, education & treatment & research in human interaction, 1095

progressive relaxation vs. transcendental meditation training, psychological test scores & physiological measures, college students, 6195

repeated exposure to small chamber, activity & defectation decreases & heart rate increases during habituation sessions, rats, application of P. Groves & R. Thompson's dual-process theory of habituation, 302

repression-sensitization & arousal & sex, physical aggression, 11109 rivalry & coaction & audience components as overall motivational effects of competition, RT movement-time task & arousal & alertness, 7th & 8th graders, 5911

self-reports of arousal, activation measurement, college students, 3780

serotonin levels & hippocampal ablation, modulation of behavioral arousal, rats, 1960

sexually relevant vs. neutral stimuli, erectile & electrodermal & cardiovascular responses, 6091

Physiological Correlates

attention & false heart rate feedback, behavior & physiological responses, college students, replication & extension of S. Valin's study, 10587

biological basis, aggression, Qolla Indians, 10526

emotional tension in stress situations, psychophysiological manifes-tations, hospitalized mentally ill vs. normal Ss, 10534

information overload & response constraints & auditory noise while executing 2 different tasks, performance & physiological correlates, operators, 8108

moist air, physiological & affective responses, sedentary humans, psychrometric tables, 12192

nightmare behavior & physiological correlates, review of objective reports & surveys & observations & studies, 299

physiological & sensory & perceptual-motor functions & concept formation & abstracting abilities & memory, chronic heavy marihuana use, 8595

physiological correlates & psychosomatic aspects & measurement techniques, anxiety, 10540

psychological & physiological aspects & resultant phenomena, Yoga, research in India, 8911

quiet vs. noise conditions during auditory vigilance, autonomic reactivity, extroverts vs. introverts, 8287

sodium & potassium electrolyte saliva concentrations, adrenocortical activity, hospitalized vs. nonhospitalized acute & chronic schizophrenics & neurotics & depressives & surgical cases & normals, 11360

soporific vs. stimulator, sexual intercourse, 8524

within- & between-S data analysis designs, Stage II sleep physiological correlates, alcoholics, 6105

Physiological Psychology (See also Neuropsychology)

brain monoamine dysfunction, depression & mania, 11353 comprehensive psychiatric models & physiology of behavior, 4681 physiological bases & model of aggressive behavior & hostility,

book, 1812 physiological psychology, readings from Scientific American, book,

physiological psychology, selected readings, book, 10562

physiological psychology, textbook, 10559

physiological psychology, textbook, 6163

recent trends & emphasis on electrical cortical stimulation, psychophysiological research, 1928

visual perception & sensation & conceptual learning & physiological & comparative & mathematical psychology, Japan, review, 16

Physiological Stress

altitude & high temperature, tracking & monitoring & mental arithmetic, aviation employees, 1401

anhedonia, electrical stimulation threshold & pulse & blood pressure & tremor at rest vs. during stress, male psychiatric hospital patients, 4893

autonomic physiologic arousal during jump sequence, parachute jumping performance, sport parachutists, 3787

breathing air vs. nitrous oxide, visual function & fine & gross motor performance & long-term memory, underwater divers, 1392

chlordiazepoxide, blood corticosterone during repeated electric shock stress, rats, 8637

differential stress of parents & basal body temperature, sex ratio of offspring, rats & humans, 8561

electrical brain stimulation frequency, stress ulcers, rats, 6257 endogenous vs. physical stress precipitants of depression &

incidence in families of depressives, depressed patients, 9427 heat stress, RT to centrally & peripherally presented stimuli, college students, 128

interacting biological & psychological & cultural forces, Arctic hysterias, North Alaskan Eskimo, 11378

isolate vs. seminaturalistic rearing, investigatory behavior of odors from stressed & unstressed conspecifics, rats, 4060

psychophysiological personality structure, reaction & adaptation to motoric & mental & emotional stress, adults, 1791

shock contingent on responses varied in temporal proximity to consummatory response, induced gastric ulcers, rat, 3821

stressful training, serum lactic acid variability, Navy enlisted underwater demolition team trainees, 5670

Physiology/

aggression & defeat, physiology, book, 281

physiological models & biology, unification & dedifferentiation descriptions in mystics' writings, book, 11019

Physiotherapy (See Physical Therapy)
Physique (See also Body Height, Body Weight, Obesity, Underweight)

anthropometric parameters & masculinity-femininity, male & female college students, 320

anthropometry in Normative Aging Study, human body form vs. function, veterans, 4107

body build & personality, schizophrenic vs. affective vs. neurotic vs. normal Southern Chinese males, 9463

body size, army men, 1966, 8153

connotation rating & attribution of negative & positive statements to endomorphic or ectomorphic or mesomorphic stimulus figures, body build stereotype relative strength & quality, chubby vs. average build 5 vs. 15 vs. 20 yr. old males, 2143

cyclothymia & schizothymia & androgeny, anthropometric measurements & masculinity-femininity data, males & females, 3816 personality & social background & sexual arousal to sight of naked

body, nudists vs. nonudists, 4278

rank & aerorating & education & region of birth, body size, army aviators, 1970, 8052

carbachol & eserine injection into amygdaloid complex, EEG seizures & behavior convulsions, rats, 354

carbachol vs. eserine vs. norepinephrine applied to diencephalic or limbic regions, deprivation-induced drinking, rats, 1950

d-amphetamine & scopolamine & chlordiazepoxide, suppression of self-stimulation by tetrabenazine & physostigmine & chlorpromazine & pentobarbital, rats, 3939

physostigmine & scopolamine, operant brightness discrimination, rats. 6288

physostigmine vs. oxotremorine vs. morphine & naloxone & nalorphine & 5-hydroxytryptamine & dopamine & noradrenaline, antinociceptive activities, mice, 440

physostigmine, resistance to extinction of instrumental responding,

septal stimulation & physostigmine injections, septo-hippocampal system & habituation, rats, 10623

Piaget (Jean)

application of propositional calculus to analysis of adolescent thinking, characterization of Piaget's transformation operations,

cognitive processes as extension of organic regulations, book, 3731 conception of images vs. verbal descriptions of objects, 10-12 yr. olds, review of L. Vygodsky's & J. Piaget's theories, 8796

conceptual teaching based on Piaget's developmental theory, classfield learning coordination, graduate social work students, India, 7868

conversion of Piagetian experiments into test items for assessing cognitive development, 2200

error of standard, systematic perceptual overestimation of stimuli,

criticism of Piaget's perceptual theory, 72 learning theories of Gagne & Piaget, implications for curriculum development, 10078

long-term cultural change, moral reasoning & animistic thinking, 2nd & 5th & 6th graders, comparison with J. Piaget's 1929 results, 4246

nonverbal testing methods, ontogenesis of certain logical operations, Piaget's formulation, 2087

object permanence concept of Piaget & psychoanalytic libidinal object concept, cognitive & emotional development, 2133 perceptual tableaux & Piaget's constructionist theory of objects in

infancy, critical examination, 2186

Piaget-derived riddle definitions, riddle structure & content & function, 5-14 yr. olds, 2163

Piaget-oriented vs. traditional activity-oriented curriculum, intellectual functioning, lower-class vs. middle-class kindergartners, 10034

Piaget's cognitive development principles, IQ test development,

Piaget's conception of structure in cognitive psychology, implica-tions for curriculum theory & development, 3288

Piaget's conservation construct & psychometric intelligence, 6498 Piaget's equilibration model of change & imitation model, cognitive structure development, 3 8 yr. olds, 2138

Piaget's number concept, general intelligence development, kindergartners, 6511

Piaget's theory of stages, ordinal stages of cognitive development, conference papers & discussion, book, 2118

Piaget's theory, application to adult intellectual development, 8873

Piaget's views of cognitive development, early cognitive intervention programs effectiveness, disadvantaged urban children, 7547 Piaget's vs. P. Gal'perin's interpretation, teaching concept of weight

& mass consistency, 46 yr. olds, 8874

Piaget's 3-stage model of conservation acquisition, ordinal investigation of number & liquid quantity conservation, kindergartners & 1st & 2nd graders, 10812

Piagetian "formal thought" characteristics & growth & experimental

confirmation & assessment with British Intelligence Scale, 2145 Piagetian developmental theory & diagnostic statistical procedures

& learning & language & sociocultural research, 2129
Piagetian operational level, metalinguistic performance, kindergartners vs. 1st graders, 8815

Piagetian principles, popularity of A. A. Milne's Winnie-the-Pooh.

Piagetian research in intellectual growth, learning & understanding mathematics, 1325

Piagetian tests & WISC & Early School Personality Questionnaire & Rorschach Test performance, kindergarten through 3rd grade longitudinal study, 6486

Piagetian tests of operational & causal thinking, cognitive development, 5-9 yr. olds, 2103

Piagetian theory, development of new reading comprehension test, 3rd & 6th graders, 5465

Piagetian vs. psychometric theories of intelligence & practical implications, 2104

Implications, 2104 procedures of L. Vigotsky vs. B. Inhelder & J. Piaget, free classification, 2 & 4 & 6 & 8 & 12 & 16 yr. olds, 10831

relationships between traditional psychometric & Piagetian assess-ment of mental development, school children, 5421

Role of Invisible Magnetism protocol & Inhelder-Piaget method of analysis of truth functional logic in solving problems, formal operational thinking, 581

single-array conservation task, acquisition of number concepts preceding Piagetian conservation, 3 4 yr. olds, 6487

theory of stages in cognitive development, 2168 Ptano (See Musical Instruments)

Pica

Picketing (See Social Demonstrations)
Picks Disease

Picrotovia

d-tubocurarine & interactions with g-aminobutyric acid & bicuculline & picrotoxin, cerebral cortex & shock-produced inhibition, cats, 8629

pentylenetetrazol & bemegride & picrotoxin & strychnine sulfate, convulsive activity, garter snakes, 415

pretrial vs. posttrial administration of picrotoxin vs. sodium pentobarbital, learning & memory of shuttle-box avoidance response, goldfish, 8639

**Pigeons** 

all vs. some reinforced training trials, stimulus generalization & discrimination along click frequency continuum, naive female

amount of discrimination training, conditioned inhibition & degree of stimulus control, pigeons, 569 amphetamine, choice behavior in operant keys-pecking behavior, pigeons, 8683

auditory pre-reward stimulus & free reward, facilitation & extinction of operant conditioning, pigeons, 8755 behavioral & transient contrast, maintained generalization gradient,

pigeons, 10757
behavioral contrast during successive discrimination training, inhibitory stimulus control development, pigeons, 8718

blackout method, acquisition & generalization, pigeons, 10790 characteristics of foster parents & length of training, imprinting & orientation of begging & early & mature sexual behavior & aggressive drives, 4 species of pigeons, 486

chlorpromazine & pentobarbital & morphine & d-amphetamine,

temporal discrimination, pigeons, 6311 concurrent fixed interval schedules, matching performance between response or time ratios & ratios of reinforcement, pigeons, 10789 concurrent fixed-interval & ratio schedules, response & time

matching to reinforcement, pigeons, 10753 concurrent vs. multiple reinforcement schedules, local response

patterns, pigeons, 2017

continuous stimulus dimension, continuous response dimension control, pigeons, 10791 contrast effects, maintained generalization gradient training,

pigeons, 2013

dextroamphetamine, progressive-ratio performance breaking point, pigeons, 10686 directional training & homing experience, initial orientation,

pigeons, 3983 discrimination training & response-dependent vs. independent schedules, post-discrimination stimulus control, pigeons, 10788

discrimination training, responses to new stimulus introduced after 0 & 1 & 3 & 9 days, pigeons, 10697 duration of differential reinforcement of low rates correlated

stimuli, timing & collateral responding, pigeons, 8741 early protein deficiency, visual discrimination learning, pigeons,

EEG & electroculogram & neck EMG & head movements, undisturbed sleep & wakefulness, pigeons, 341 environment, nature of conditioned reinforcement, pigeons, 10699

equal & concurrent variable-interval schedules vs. tandem schedules ending in primary reinforcement, choice, pigeons, 545
Experimental Analysis of Behavior, high-resolution analysis,

pigeons, 10758

extracellular recording of optic tectum units, visual receptive fields of single cells, pigeons, 10550 fixed-interval schedule, response force distributions, pigeons, 8732

free feeding, differential maintenance of concurrent operants with conditioned reinforcement, pigeons, 8731 free operant vs. discrete-trial fixed interval reinforcement, response

probabilities, pigeons, 4059

gradual introduction to increasing parameter values of omission training schedule, pecking response elimination, pigeons, 4074

hard vs. easy & color vs. shape cues, discrimination learning, pigeons, 6446 identical vs. different light pairs discrimination, signal detection,

pigeons, 6427 immediate vs. differential food vs. delayed reinforcement vs. stimulus changes with vs. without secondary reinforcement vs. no food presentation vs. extinction, maintenance & acquisition of

key pecking, pigeons, 10743 informative stimuli with multiple reinforcement delays, discriminated key pecking, pigeons, 6391 intertrial interval changes, matching-to-sample performance,

pigeons, 10748

light adaptation, d-wave of electroretinogram, pigeons, 3789 luminance level, wavelength generalization & discrimination, pigeons, 6350

matching-to-sample procedure under fixed-interval & fixed-interval schedules with exteroceptive stimulus changes correlated with time since last reinforcer, performance accuracy, pigeons, 483

mixed schedule stimulus removal & discriminative stimuli production, Wyckoff pedal response & standing time & keyresponse rates, male pigeons, 4026

mixed vs. multiple schedules of primary reinforcement, conditioned reinforcement, pigeons, 2004

movement vs. nonmovement sensitive cells of thalamic visual nuclei,

directionality & receptive field, pigeons, 274
multiple component duration, reinforcement schedule interactions & extinction rate, pigeons, 8739

negative automaintenance vs. fixed interval vs. fixed ratio reinforcement schedules, pecking duration & frequency, pigeons,

negative discriminative stimulus as primary reinforcer, observing behavior, pigeons, 493

negative vs. positive auto-maintenance, selective insensitivity to s-delta signalling nonreinforcement in terminal link, pigeons, 4066 numerosity as cue, successive reversal, rats vs. pigeons, 10735

observing behavior, uncertainty reduction, pigeons, 2016

operant treadle-press training vs. no prior experience, key-pecking acquisition via autoshaping, pigeons, 8723

overshadowing, discrimination of successive compound stimuli, pigeons, 1992

pentobarbital & diazepam & chlordiazepoxide & amphetamine & chlorpromazine, shock-punished responding, pigeons, 10655 positive conditioned reinforcement, maintenance of keypecking

which prevents delivery of primary reinforcement, pigeons, 4062 prior discrimination training on 1 dimension, generalization gradient steepness on extramodal dimension, pigeons, 553

proactive inhibition, postdiscrimination generalization gradient, pigeons, 8712

proportion of food obtained by pecks at dusk, pecking choices at 2 disks for food, pigeon, 3989
ratio requirement for reinforcement, adjunctive attack & displace-

ment preening, pigeon, 8742 redundancy of stimuli established as conditioned reinforcers, observing-response during positive vs. negative trials, pigeons, 10751

reinforcement for people over object pictures, people concept

acquisition, pigeons, 4045 reinforcement frequency & prefood stimulus duration, keypecking

response rate, pigeons, 4067 reinforcement of spaced responding in simultaneous discrimination,

pigeons, 10796

reinforcement omission on pause-respond vs. respond-pause conditioned patterns, response rate, pigeons, 4068 reinforcement schedules & D-tetrahydrocannabinol, induced

aggression, pigeons, 6238 relative response rates to relative reinforcement rates in concurrent

variable-interval schedules, choice behavior, pigeons, 495

response key illumination, airflow velocity discrimination acquisition & stimulus control, pigeons, 4075

response-independent rewards during ON & ON duration & reward patterns during ON & presence vs. absence of exteroceptive cues during ON & OFF, key pecking response rate, pigeons, 10762 response-shock interval & shock intensity, free operant avoidance

responding, pigeons, 4035

segmenting interreinforcement interval & chain length, choice, pigeons, 494

signaling of extra reinforcements & duration & rate & response pause contingency, response rates, male pigeons, 4053 signalled extinction, suppression of responding during warning

stimulus, pigeons, 509 singly presented stimuli, discrete-trial red-green discrimination

reversals, pigeons & goldfish, 4080

size of fixed-interval terminal link pairs & variable-interval concurrent chained schedules, choice responses, male pigeons,

sodium pentobarbital, visual evoked response in optic tectum, pigeons, 1940

stimulus discrimination training, extradimensional stimulus control, pigeons, 8710

stimulus generalization gradients of excitation & inhibition, predicted vs. actual postdiscrimination gradients, pigeons, 6401 stimulus similarity & response criterion, successive discrimination reversal learning, pigeons, 8748

stimulus-contingent & response-independent food presentation, key

pecking behavior, pigeons, 10738 subproblem analysis, discrimination shift learning, pigeons, 8765 successful vs. equal valued vs. fixed-ratio vs. variable-ratio reinforcement schedules, response variability, pigeons, 10711

transivity of reinforcement schedule preferences, pigeons, 10761 UCR to shock vs. conditioned key-peck response, response topography, pigeons, 552

variation in complex shape vertices positions, discrimination learning & generalization, pigeons, 10733 variation of interval in food presentation on response-initiated fixed

interval schedule, attack on target & response rate on target key, pigeons, 10717

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

visual wavelength continuum & time after reinforcement & tone frequency & line tilt, stimulus recognition, pigeons, 10708 within-day serial reversal & role of inhibitory processes, position

discrimination, pigeons, 522

work requirements & punishment of unmerited self-feeding, selfreinforcement for contingent response without external contingencies, pigeons, 4043

yeast ribonucleic acid, fixed-ratio performance, pigeons, 10740 yoked-chamber comparison of concurrent & multiple schedules & changeover delay, response rate & discrimination reversals, pigeons, 515

2nd-order scheduling of paired & nonpaired brief stimuli, response rates, pigeons, 10784

24 hr. separation of positive & negative stimulus components of discrimination schedule, failure to demonstrate behavioral contrast, pigeons, 4079
Pigments (See also Hemoglobin, Melanin)

macular & retinal pigmentation & stimulus color, Muller-Lyer illusion susceptibility & space perception, Scottish vs. African Malawi university geography students, 119 mercurochrome, height distribution & aggressive reaction & time to locate food, depigmented & normal Barbus conchonius, 1881

biotransformation of oxazepam, open-ring metabolites & aromatic hydroxylation in urine, man & miniature swine & rats, 461

prefrontal system size, delayed alternation, hedgehog & tree shrew & bush baby, 8543

stocking rates, aggressive behavior, pigs, 6369

Pilocarpine

amphetamine & pilocarpine, eating habits, rats with & without chronically low acetylcholinesterase levels, 434

Pilots (Aircraft) (See Aircraft Pilots)

pimozide vs. trifluoperazine vs. placebo, psychiatric symptoms & behavior & scales & extrapyramidal symptoms rating scale, chronic schizophrenics, 1207

pimozide, chronic schizophrenics, 2864

pimozide, psychotic symptoms & affective behavior & energy level & attention & social adjustment, chronic schizophrenic patients

previously on penfluridol & haloperidol, 4932
thioridazine & haloperidol & pimozide, antagonism of apomorphine-induced stereotypy & emesis, dogs, 6308

Pineal Body

REM state & pineal structure, species & specimen protection, hypothesis for dream evolution theory, 278

Pinealectomy

Pipradrol
Pitch (Frequency) (See also Speech Pitch, Ultrasound)

acoustic spectrum vs. modulation rate of stimulus, cortical evoked response to amplitude modulated complex sound, normallyhearing adults, 10532

analysis of vocal pitch variations, assessing occupational stress, 12147

auditory frequency thresholds & response latency, cortical evoked potentials, guinea pigs, 8626

carrier frequency & modulation depth & modulation frequency of amplitude-modulated & pure-tone signals, stimulus generalization of conditioned respiration response, goldfish, 1993

digital approximations, generating complex waveforms, 3501 frequency & intensity variance, magnitude estimates for dissimilari-

ty of pure tones, graduate students, 79 frequency & rate & duration of repetitive auditory stimuli, following, chicks, 6371

noise spectrum level & frequency & signal duration, masking-level differences, 8333

pure tone vs. noise stimuli, stapedius reflex threshold, young adults, 8275

ranking sound stimuli according to pitch, human thinking processes, 8428

signal frequency, behavioral & human vertex auditory evoked response thresholds, normal hearing adults, 10548 signal intensity & frequency, tone detection, high school male &

adult female trained listeners, 1661

simultaneously & successively presented tones, frequency specificity of auditory evoked response, 1790 stimuli differing in tonal frequency &/or melody, habituation, rats,

10734 visual wavelength continuum & time after reinforcement & tone

frequency & line tilt, stimulus recognition, pigeons, 10708 Pitch Discrimination

anchor effects, pitch discrimination, undergraduates, 1552 ascending vs. descending intervals, pitch acuity in unaccompanied solo vocal performance, music school undergraduates, 5833

audio-visual vs. audio-visual-kinesthetic feedback training procedures, auditory discrimination of pitch, hearing impaired children, 9454

auditory perceptual training, frequency discrimination, 5 7 yr. olds, 8866

frequency & intensity variance, magnitude estimates for dissimilarity of pure tones, graduate students, 79

high- vs. low-frequency tones & sequentially presented information with stable vs. unstable entity, primacy & assimilation effects in recall, college students, 1711

linguistic structure, RT to tone discrimination during speech vs. listening, adults, 3627

stimulus information vs. processing time, absolute pitch identification task, 135

training & pitch discrimination & musical intelligence, melodic interval discrimination, junior high school students, 5892

Pitch Perception (See also Pitch Discrimination) ascending vs. descending intervals, pitch acuity in unaccompanied solo vocal performance, music school undergraduates, 5833

body tilt, perception of auditory midline & differential limen, 8259 octave generalization, tune recognition, college students, 90

response strategy dependence, bias-free measurement of binary categorical time interval & pitch judgment, mental patients, 11496 superior temporal lobe lesions & stimulus duration, single acoustic signal frequency & intensity detection & RT & thresholds, braindamaged patients, 4745

Pituitary Disorders (See also Hypopituitarism) Pituitary Dwarfism (See Hypopituitarism)

Pituitary Gland (See also Hypothalamo Hypophyseal System)

Pituitary Gland Surgery (See Hypophysectomy)

Pituitary Hormones (See also Corticotropin, Oxytocin, Posterior Pituitary Hormones, Somatotropin, Thyrotropin, Vasopressin)

(8-lysine)-de -9-glycinamide -vasopressin vs. lysine vasopressin & lysine vasopressin after tryptic digestion, extinction of avoidance response & endocrine activity, rats, 372

ACTH & lysine vasopressin & vasopressin & oxytocin, passive avoidance, rats, 1903

lysine vasopressin subcutaneous injections after training vs. before retention trial & shock vs. no shock, passive avoidance learning & resistance to extinction, rats, 6214

presence vs. absence of human growth hormone release in early sleep, nightly plasma tyrosine rhythm & amplitude, normal 18-21 yr. old males & 13 & 15 & 59 yr. old panhypopituitarism patients, 1085

psychologic & neural regulation of growth hormone secretion, review of research findings, 3770

PK (Parapsychology) (See Psychokinesis)

PKU (Hereditary Disorder) (See Phenylketonuria)

Place Disorientation

Placebo

amylobarbitone sodium & placebo combinations, learning transfer,

caffeine perceived as analgesic vs. perceived as stimulant vs. placebo perceived as analgesic, tendency to affiliate with other in similar situation, college students, 3931

ego-involvement & competition & remuneration & placebo as motivational incentives, bicycle ergometer pedalling performance, college students, 5886

group vs. individual therapy & no pills vs. placebo vs. lobeline vs. dextroamphetamine vs. imipramine & good vs. poor risk, smoking control, heavy smokers, 2899

misleading vs. no information with placebo pill, attribution of smoking cessation symptoms, heavy smoking nurses, 6223 Nobrium vs. placebo, evaluation of clinical improvement & problems of double-blind experimentation, psychiatric outpa-

pimozide vs. trifluoperazine vs. placebo, psychiatric symptoms & behavior & scales & extrapyramidal symptoms rating scale, chronic schizophrenics, 1207

recording of high fear S told to expect pain vs. other symptoms from placebo, O's prediction of S's number of shocks to pain & tolerance threshold, 4454

Placement (Personnel) (See Personnel Placement)

Placenta

Placental Hormo

Planarians

differentially superimposed magnetic fields & alley shape & number of trials, speed & deviation from straightforward exit path & exit angle, goldfish & planaria, 1984

light intensity, locomotory response, planarians, 10782
Planning (Management) (See Management Planning)
Plasma (Blood) (See Blood Plasma)

Plastic Surgery Platelets (Blood) (See Blood Platelets)

Play (See Recreation)
Play (Animal) (See Animal Play)

Play Development (Childhood) (See Childhood Play Development)
Play Session Behavior Scale

Play Therapy

cathartic & diagnostic values, play therapy, review of positions of Freud & Melanie Klein & Anna Freud, 2840

creative dramatics & play therapy & speech improvement & specific language instruction, language development, culturally deprived children, 3207

history & significance psychoanalytic play technique, 11652

intensive play, affective behavior, profoundly mentally retarded young children, 7386

nondirective play therapy vs. insight methods vs. behavioral modification vs. developmental vs. traditional group counseling,

school achievement & adjustment, kindergartners to 6th graders, 11944 parental guidance in understanding characteristics of retarded & therapeutic activity for children in kinetic function & group play

therapy & musical play, preschool age retardates & their parents, 9635 play analysis, steps in ego integration, 3 yr. old severely emotionally

disturbed boy, 11700

play therapy, dissociation, 10 yr. old boy, 5038 play vs. discussion groups, sociometric scores by peers, 1st-3rd

graders, 11997

pretherapy measures of experiencing & adjustment levels, shortterm play therapy outcome prediction, 8 12 yr. old boys referred to child guidance center, 2846

psychotherapy & reliance on play techniques, learning adaptive behavior, children & adults, 5161

Playgrounds

school playground games & activities, social participation level & activity content, 4 & 6 yr. olds, 10857

high vs. low self-esteem, success & liking relationship in anagram problem, college students, 4549

physiological measurement & presence of others, pornographic & stimulating & pleasantness ratings of erotic stimuli, male undergraduates, 1555

pleasant events & activity schedules & mood, depressed & psychiatric & normal control undergraduates, 2672

pleasantness or unpleasantness of material connotations, memory, psychiatric inpatients suffering from depression, 11435 prize vs. no prize condition, retrospective misattribution & team

competition enjoyment, 5th graders, 11085

psychic motivations, sexual pleasure, 6732 self-appraised vs. stereotyped attitudes about fun & happiness, young vs. middle-aged vs. old adults, 8798

Plethysmography (See also Electroplethysmography) acoustical stimulation, EEG & EKG & EMG & plethysmogram & pneumogram measures during orienting responses, subacute sclerosing leucoencephalitis, 9312 auditory stimulation, digital vasomotor activity, 19 21 yr. old soldiers, 8539

Pneumoencephalography

acoustical stimulation, EEG & EKG & EMG & plethysmogram & pneumogram measures during orienting responses, subacute sclerosing leucoencephalitis, 9312

Machado disease, blood analyses & pneumoencephalograms & nerve & muscle biopsies & nerve conduction & diabetes,

Portuguese emigrants to U.S.A., 2699

planometer vs. linear measurements of lateral ventricle size, psychometric intelligence & abstraction ability & motor & sensory performance, neurological patients, 11442

Pneum

Poetry

death & dying conceptions in personal poetry, 11200

semantic differential technique, mood evoked by iambic vs. trochaic vs. anapestic vs. dactylic poetic feet, implications for poetry therapy & interpretations of poems written by patients, 2433 sound vs. meaning, aesthetic preferences in poetry, college students,

11176

Point Biserial Correlation

nonparametric analogs of biserial & point-biserial correlation, item analysis of normative & criterion-referenced tests, 8201 point-biserial vs. biserial correlation, item selection, 5746

Poisoning (See Toxic Disorders)

chlorpromazine repeated administration after CCl poison vs. partial hepatectomy, methionine S incorporation, rats, 1938 Poisson Distribution (See Skewed Distribution)

Poland

modified Polish version of MMPI, blind, 7198

psychotherapy training, Poland, 9265

sex & urban vs. rural social level, reliability of Polish adaptation of Vineland Social Maturity Scale, 2-30 mo. olds, 8824

Police Personnel

attitudes toward mental illness, college students & physicians & police & nurses in Great Britain & Czechoslovakia & West Germany, 7217

behavior of petty offender, law enforcement & disposition, police officers, 2283

college educational background, dogmatic attitudes, police college students, 11070

death awareness, suicide prevention training, college students & police officers, 9228

dimensionality, sociopolitical attitudes, students & clergymen & policemen, 6692

ethnic boundary maintenance behaviors & role behaviors & ideologic differences, police & politically active Mexican-American interaction, case study in San Jose, California, 6681

high vs. low situational demand & justification, role playing & attitude change toward police after campus riot, 2247

intensive working seminar on nature of authority & policecommunity relations, police officers & civilians, 6858

Likert-type & semantic differential scales, measuring attitudes toward police, middle & upper class college graduates, 8959

personal-social police report form for threatened & attempted suicide cases, police role in suicide prevention, 1198

political activity scope & intensity & press for political behavior & trust importance level & direction, police agencies, 8061

psychodrama techniques, training in family crisis intervention, policemen, 4933

sensitivity training program, conflict resolution & preventive human management in changing urban environment, police bureau personnel, 5678

situational set & social approval need, perceptions of stimulus scenes photographed in low-income urban areas, police trainees, 2346

supervisory training program, program evaluation & attitudinal changes, police sergeants, 12160

taped therapy sessions on sexual behavior, policemen, book, 5189 Policy Making (Foreign) (See Foreign Policy Making)

Policy Making (Government) (See Government Policy Making) **Poliomyelitis** 

body image in figure drawings, recovered vs. permanently paralyzed poliomyelitic patients, 4739

Political Anarchy

Political Assassination

Kennedy assassination & Speck & Whitman mass murders, violent vs. nonviolent crime incidence according to FBI data for cities,

Political Attitudes (See also Nationalism, Political Conservatism, Political Liberalism, Political Radicalism)

analysis of 3rd grade civic textbooks, portrayal of American sociopolitical system virtues, 3294

anti-Vietnam war film & expectations, attitudes & boomerang effect, 20 25 yr. old college students, 6740

attitudes toward Belgian Freemasonry, Flemish college students & Belgians, 6671

attractiveness of middle of road political candidate, 6748

authoritarianism & dogmatism, orientations toward Vietnam War, college students, 6686

classroom simulation games & role identification & game structure, political attitudes, 8th graders, 9985

development of political concepts, young children, 10860

dimensionality, sociopolitical attitudes, students & clergymen & policemen, 6692

double standard toward American vs. Russian actions, international affairs attitudes, American vs. British college students, 11007 E bias & S's suspicion of deception & attitudes toward psychology

experiments & current issues, dot-estimation conformity task, undergraduates, 2311

education & childrearing practices, political socialization, children in Taiwan, book, 4366

educational background & personality characteristics & value attitudes towards education & other ethnic groups, 1st-generation Greeks in Detroit, Michigan, 6766

ethnic boundary maintenance behaviors & role behaviors & ideologic differences, police & politically active Mexican-American interaction, case study in San Jose, California, 6681

exposure to President Nixon's Vietnam speech, pre- & postspeech war attitudes, undergraduates, 6703

family & kindergarten & mass media, information acquisition & sociopolitical awareness, kindergartners, 5508

freedom vs. equality values, 1968 presidential preferences, 8892 immediacy of military experience & cognitive style, attitude toward use of military force as national policy instrument, male undergraduates, 2211

intercultural contact & international stance, attitude change toward national hosts, American servicemen in Far East countries & civilians in Hawaii, 670

internal vs. external control expectancies & counter vs. traditional cultural stance, political position, 11021 internal-external control, orientations toward Vietnam War,

undergraduates, 4297

left vs. right vs. neutral political vs. political but not clearly left or right classification of Rokeach Dogmatism Scale items, political bias, college students, 2280

multidimensional scaling, preferences for political candidates, U.S. Navy officers, 10960

parental education & occupational status, political & social values & political protest activity, college freshmen, 8921

participatory decision-making, political knowledge & acquisition of democratic values, 9042

personal & system control dimensions of internal-external locus of control, level & confidence of academic aspirations & social protest behaviors & attitudes toward political protest, college students, 6775

political & racial & Vietman War attitudes, racist & hawk stereotypes, U.S. white ethnics, 2246

political activity scope & intensity & press for political behavior &

trust importance level & direction, police agencies, 8061
political ideology & interpersonal values & participation in
demonstrations, attitudes toward social change & use of force & militarism & racial identification & drug use, male college students from U.S.A. & Canada & Netherlands & Denmark & Sweden & Finland, 684

political socialization in American family, 8904

postconventional vs. transitional vs. conventional moral types, political attitudes & personality traits, college students, 2510

premarital sexual experiences & sexual standards & religiosity & political attitudes & reactions to erotic movie, high vs. low sexguilt & male vs. female college students, 8952

recent religious & moral & political attitude change, social-political attitude interrelationship, college students, 11011

role identification & democracy simulation game structure, political attitudes, 14 17 yr. olds, 1322

selective exposure hypothesis, Ss classified as Vietnam hawks vs.

social background & personality, political careers, female party leaders, 8905

social mobility, perception of political & social efficacy, nonfarm adult Ss. 702

social origins & philosophies & problems & political noninvolvement, hippie communes, 11031

standardized polling questions, stability of self-reported protest activity & political attitude measurement, college students, 8895

type of influence technique & prior probability of success & success vs. failure of getting preferred outcomes, political trust orientation, 6837

**Political Campaigns** 

college environment questionnaire & presidential candidate preferences, liberalism-conservatism, college students vs. middleaged Rizzo vs. Longstreth supporters in 1971 Philadelphia mayoralty campaign, 4351

traditional emphasis on rhetoric vs. extensive use of mass media to promote images, new directions in campaign communication research, 8988

**Political Candidates** 

attractiveness of middle of road political candidate, 6748

multidimensional scaling, preferences for political candidates, U.S. Navy officers, 10960

preference for conservative vs. liberal candidate, dogmatism, 2289

psychohistory, understanding political leaders, 6723 Survey of Interpersonal Values completed as political figure would,

images of political figures & political preferences, 4295

Tucker's 3 mode vs. Carroll & Chang's INDSCAL model, multidimensional scaling of attitude statements & political candidates, 729

Political Conservatism

personal space determined by replier, male pedestrains in conservative vs. liberal neighborhood, 9103 attitudes toward ingroups & outgroups, liberal vs. conservative college students, 6779 American Flag vs. Peace button on questioner asking for directions,

college environment questionnaire & presidential candidate preferences, liberalism-conservatism, college students vs. middleaged Rizzo vs. Longstreth supporters in 1971 Philadelphia

mayoralty campaign, 4351 development & validation of Authoritarianism-Rebellion Scale, undergraduate student political groups, 42

messages based on operationalizations of knowledge & social adjustment & values, attitude change toward socialized medicine, self-rated liberal vs. conservative undergraduates, 8985

political conservatism ideology & optimism-pessimism & success causality attribution, factorial structure of Rotter Internal-External Locus of Control Scale, expansion of internal-external control construct, 4502

social maturity & multivariate discriminant analysis, personality descriptions of conservatives & activists & radicals, male college students, 10999

Political Economic Systems (See also Capitalism, Communism, Democracy, Facism, Socialism, Totalitarianism)

economic & political ideologies, development of developmental psychology, 636

political science research, understanding war & conflict, book, 8972 power & wealth & political orientation similarities & differences, internation behavior, 4330

Political Elections

participation & motivation indicators & elective process perception & voters's sociopsychological characteristics, Yugoslavia, 2290

awareness of immediate university situation & larger political events, alienation, college students, 11073

Political Liberalism

American Flag vs. Peace button on questioner asking for directions, personal space determined by replier, male pedestrains in conservative vs. liberal neighborhood, 9103

attitudes toward ingroups & outgroups, liberal vs. conservative college students, 6779 college environment questionnaire & presidential candidate preferences, liberalism-conservatism, college students vs. middleaged Rizzo vs. Longstreth supporters in 1971 Philadelphia mayoralty campaign, 4351 development & validation of Authoritarianism-Rebellion Scale,

undergraduate student political groups, 42

messages based on operationalizations of knowledge & social adjustment & values, attitude change toward socialized medicine,

self-rated liberal vs. conservative undergraduates, 8985 preference for conservative vs. liberal candidate, dogmatism, 2289 socioeconomic status, changes during college in family & peer independence & liberalism & social consciousness & cultural sophistication & satisfaction with administration & faculty & major & students & study habits & extracurricular activities, students at Catholic college for women, 11982

Political Parties

Political Processes (See also Political Campaigns, Political Elections, Voting Behavior)

economic & political ideologies, development of developmental psychology, 636

parental education & occupational status, political & social values & political protest activity, college freshmen, 8921

regime coerciveness, development level & socioeconomic change, cross-national trends, 1935 1962, 10962

societal influences, perception of social vs. political intervention for organizational success, college students from United States & Britain & Netherlands & France & West Germany & Sweden, 1390

voluntary association membership, development of political selfinterest, aged, 11029

world population & urbanization & marriage & racism & minorities & education & authoritarian political control & war in Southeast Asia, changing value systems, 8964 Political Radicalism

comparative competence-adjustment, social- vs. nonsocial-political activist vs. nonactivist college students, 4264

social maturity & multivariate discriminant analysis, personality descriptions of conservatives & activists & radicals, male college students, 10999

status inconsistency, leftist radicalism, lower-class slum dwellers, Chile, 11010

Political Revolution

authoritarian character & social environments & political movements, book, 8998

individual potential realization & revolution as strategy for changing social systems, 2261

Politics (See also Political Attitudes, Political Campaigns, Political Candidates, Political Elections, Political Issues, Political Parties, Political Processes, Voting Behavior)

alienation & powerlessness & unrewarding work, information seeking about improved work opportunities & political knowledge, 5674

conflict & decision-making theory, political science, book, 2225

health & politics & human survival, book, 2221 political deception, "dropping out" & drug culture evolution, 4291 Pollution

free response vs. multiple choice measures, attitude surveys on gasoline pollution, 8937

internal & powerful others & chance orientations as cognitive correlates of locus of control, involvement in antipollution social action, adults, 6716

Polygamy

patient & therapist polygraph readings, psychophysiology of psychotherapeutic interview, 5044

**Polyneuritis** 

Polyradiculoneuritis (See Radiculitis)

pontocerebellar pathways, visual control of movement, cats, 8619 Popularity (See Social Approval)

ulation (See also Overpopulation, Population (Statistics)) field observations in different forest habitats, general abundance & population densities, Malaysian primates, 554

hierarchy & group density, social structure & territoriality, cockroach, 4008

population density & aggressive interaction outcome & fighting frequency changes & loss of opportunity to dig, aggression & territoriality, captive vs. wild male Cichlids, 1998

social control, population growth, 6694 world population & urbanization & marriage & racism & minorities & education & authoritarian political control & war in Southeast Asia, changing value systems, 8964

ulation (Statistics) (See also Statistical Sample Parameters, Statistical Samples)

information value of official & nonofficial sources, statistical survey of heroin & methadone misuse in Oxford, 15 29 yr. olds, 2571 mental subnormality, prevalence survey, Northern Ireland, 2680 random vs. non-random sampling, 8249

statistical & sampling problems, research in social casework, 2999 statistical inferences about populations & S treatment effects & randomization tests to show validity, 1 S experiments, 6

Population Characteristics (See Demographic Characteristics) Population Control (See Birth Control)

**Population Genetics** 

Pornography

individual vs. group exposure & structured vs. unstructured questionnaire & personal characteristics, labelling of pictures & reading as obscene & pornographic, conservative college students,

physiological measurement & presence of others, pornographic & stimulating & pleasantness ratings of erotic stimuli, male undergraduates, 1555

semantic differential ratings of pornographic stimuli & looking time, male college students, 1659

social values & gender role behavior, pornography & erotica use, 15 22 yr. old high school & college students, 4346

schizophrenic symptoms & plasma protoporphyrin level, Erythro-poietic Protoporphyria syndrome, 16 yr. old white male, 9348

Porteus Maze Test

Porteus Maze Test, recidivism rates, female adult & juvenile correctional institution inmates, 9422

Positive Reinforcement (See also Praise)

attitude toward teacher & sex & social class, perceived reward value of positive & negative teacher reinforcement, 8th graders, 3141

auditory pre-reward stimulus & free reward, facilitation & extinction of operant conditioning, pigeons, 8755

aversive properties of withdrawing positive reinforcement, recent

literature review, 1981 combinations of concurrent probabilities of reinforcement for lever-

pressing & not-lever-pressing, temporally defined schedules of positive reinforcement, 2050

conditioned positive reinforcement, preference for form vs. color dimension of compound sample stimulus, 10-12 yr. olds, 199

consistent positive reinforcement & environmental determinants & compensatory education programs, IQ changes, young children, 11928

electrical brain stimulation, map of positive & negative & neutral reinforcing sites, rhesus monkeys, 442

errorful vs. errorless training, intradimensional discrimination learning & generalization, 7-8 yr. olds, 8379

interactive dynamics, social desirability motivation & positive & negative reinforcement contingencies & public vs. private vs. no acknowledgement of performance in test-taking situation, college students, 9069

modeling & reinforcement & instructions, originality, 10468

mother reinforcement for observing & modeling her child's therapist, maladaptive parent-child interaction changes, hyperactive retarded 4 yr. old boy & his mother, 1226

negative vs. positive covert reinforcement, weight reduction, 7557 positive & negative reinforcement by shaping, self-injurious behavior, rats, 10774

positive or negative reinforcement & need for social approval, attitude change, 735

positive reinforcement of incompatible behaviors, intraspecies aggression reduction, rats, 10702

positive reinforcement techniques & imitative learning & microcounseling skills, student-counselor development, 11276

positive verbal reinforcement in normal conversation, opinion & information statement frequency, psychiatric patients, 7596 positive vs. aversive vs. no verbal reinforcement, operant

conditioning of reported auditory & visual hallucinations, female college students, 245

positive vs. negative feedback with varied sequence & self-esteem gain & loss, interpersonal attraction, college students, replication & extension of E. Aronson & D. Linder's study, 809

response cost & positive reinforcement, discrimination learning, 6-9 yr. olds, 10851

rewarding verbal vs. aversive feedback during training of perceptual skill, efficiency & transfer of learning & performance under stress, Air Force Academy students, 10164

self-recording vs. self-recording with backup reinforcers, hours spent practicing, 14 21 yr. olds, 11823

uential reinforcement contingencies, number of total words & different & new words in composition writing, male 5th graders,

therapeutic instruction & praise, systematic desensitization of snake avoidance behavior, college students, 11661 timeout from positive reinforcement & social isolation, classroom

disruptive behavior, mentally retarded children, 7989

verbal vs. verbal & physical positive reinforcement, mathematics achievement & attitude toward mathematics, 3rd grade inner-city students, 12060

verbalization & reinforcement, concept-solution efficiency, introverted vs. extroverted 11 & 12 yr. olds, 8424

vicarious positive vs. negative reinforcement, task choosing, 1st vs. 3rd graders, replication of Barnwell & Sechrest's study, 6460

weekly newsletter as reinforcement technique, nursing personnel conducting behavior modification programs, 5159

Positive Transfer

anticipation interval length in AB vs. CD paradigm, paired associate learning & positive transfer, college-age Ss, 1728 interlist similarity of stimuli &/or responses, paired associate

learning transfer, college students, 8478

Positivism

Post Graduate Students

Miller Analogies Test & undergraduate GPA & age, successful completion of doctoral program in education, male vs. female doctoral program students, 3193

open-closed mindedness & social desirability, depression in relation to critical authority situation of final oral examination, doctoral

parental attitudes, occupational interests, postgraduate students, examination of A. Roe's hypothesis, 5293

Post Graduate Training (See also Clinical Psychology Internship, Medical Internship, Medical Residency)

past university education usefulness & necessity for continued education, current professional task performance, professional psychologists, 9224

postgraduate psychotherapy training facilities directory, United States & Europe, 7059

Posterior Pituitary Hormones (See also Oxytocin, Vasopressin)
Postganglionic Autonomic Fibers (See Autonomic Ganglia)
Postnatal Period

age & postnatal test experience, prenatal stress effects on behavior, rats, reply to J. Archer & D. Blackman, 8736 ergocornine prolactin release interference, maternal behavior,

postpartum female rats, 3935

fluorescence histochemical technique & biochemical measurements, postnatal development of monoamine-containing neurones, albino rat, 10561

genetic structure vs. environment, postnatal neural development, mice & rats & cats & humans, 8499

lactation, aggressive behavior toward intruder mice, postpartum mice, 3793

methylmercury poisoning of mother during pregnancy, offspring open field & swimming behavior & brain weight & protein & choline acetyltransferase & cholinesterase, mice, 6323

testosterone, postnatal development of aggression, female & castrated mice, 10664

Postpartum Depression chlorimipramine, EEGs taken at intervals paralleling clinical intervals, depressed inpatients, 1215

establishing desirable mental attitudes in patients & their families prior to childbirth postpartum depressions, 30 yr. old pregnant

history of depression during or after pregnancy, depressive reaction with oral contraceptives, 7204

joint admission of mother-infant pairs, outcome evaluation, postpartum psychiatric patients, 5104

personality traits, early vs. late postpartum illnesses, mothers admitted to psychiatric hospitals when children were less than 5 wk. old vs. mothers with 2-15 mo. old children, 7283

sexual identity & idiosyncratic meaning of childbirth & premorbid character structure & puerperal endocrine change gradient, postpartum psychotic disorders, case reports of women, 11347

Postsurgical Complications (Physical) early medical complications of legal abortions, report of Joint Program for Study of Abortion, 4882

radical surgery for rectum & sigmoid colon cancer, sexual performance, males, 9528

**Posttesting** 

Posttreatment Followup
age & length of addiction & employment & race & education,
relapse rate, followup study of addicts committed under Narcotic Addict Rehabilitation Act, 11776

catamnestic study, manic-depressive psychiatric patients, 7226

development patterns, catamnestic study, manic syndrome psychiat-

ric patients, 7225

examination of & guidelines for psychiatric decisions & posthospital outcome prediction & posthospital success characteristics, Navy & Marine Corps enlisted men admitted to Navy psychiatric facilities during 1967 68, 1101 intramedullary tumors of spinal cord, diagnosis & therapy &

catamnesis, 9713

opiate addiction, 5 yr. follow-up in relation to stage of addiction, 11355

psychiatric rehabilitation procedures & aftercare clinics, hospital recidivism & posthospital employment, psychiatric patients, 9511 release from neuropsychiatric hospital, adjustment outside hospital, former neuropsychiatric patients, 3035

self-attribution, maintenance of behavior change following treat-

ment, obese Ss, 7578

Posture

A B therapist types, postural & gestural behavior & emotional content of dyadic interview, male undergraduate & graduate students with extreme A&B scores, 2377

actographic bed with electronic logic network & infrared photographic system, recording body posture during sleep, 6174

body pattern & pattern component classification & chromatic expression & body pattern behavior response maturation, octopus, 531

body postures & eye contacts increasing intimacy of confederate, reciprocal intimate reactions, college students, 6794

chronic methamphetamine intoxication, analysis & indexing of ataxia & dystonic posture & transient & patterned movements, cats, 378

galvanic & cathodic & anodic labyrinth-wrist stimulation, motor dominance & master eye & posture changes, 21 25 yr. old students, 81

head balance & neck muscle tension, voice production spectrograms

& breath control in singing, 5853 head inversion & stimulus ambiguity, uprightness constancy, adults vs. 3-5 yr. old children, 2112

postural training, self concept, female college students, 11253

unilateral labyrinthectomy, postural equilibrium test performance, adult Ss, 429

upright posture, shock-elicited aggression, rats, 6394

vigilance & emotionality, posture variations, 5 & 7 & 9 & 11 yr. old normal & amblyoptic girls, 969

visual vs. vestibular vs. proprioceptive impulses, upright position measured by posturometry, human adults, 89

Potassium (See also Potassium Ions)

erythrocyte potassium & sodium levels, manic-depressive patients, 9407

lithium vs. sodium vs. potassium vs. rubidium vs. caesium chloride, vertical rearing & horiztonal locomotion, male rats, 3911

sodium vs. sodium potassium diet deficiency vs. repleteness, potassium chloride preference, rats, 6119

Potassium Bromide

lithium carbonate, sodium & potassium & calcium & magnesium ion concentrations in urine & serum, male rats, 351

Potential (Achievement) (See Achievement Potential)

Potential Dropouts

community psychology approach including basic skills remediation & appropriate psychotherapy, attrition rate, high risk freshmen nursing students, 2549 counseling oriented dropout education program, self concept

dimensions, high school students, 7965 escape & rejection of learning norms, potentis' school dropouts,

family situation, school-leaving, 5548

insecurity & tension & anxiety & social inferiority feelings & tendency to fantasize & desire for affective relationships, students showing tendency to leave school, 5487

observational learning procedure, modification of aspiration level & locus of control & grade point average & educational plans, potential high school dropouts, 7836

Project Catch-Up, self concept & drop-out rate & academic achievement, Indian- & Mexican- & Anglo-American junior high school students, follow-up evaluation, 7893

\*\*Ellimositions or calless participation & deliv grades & frequency.\*\*

self-monitoring, oral class participation & daily grades & frequency of extraclassroom visits to teacher's office, potential high school dropouts, 5411

Potentials (Evoked) (See Evoked Potentials) Potentiation (Drugs) (See Drug Potentiation)

adherence to Protestant Ethic, attitudes toward poverty & social services, rural community adults, 2310

age & labor force participation & income & occupation, opinions of government program of medical aid for needy, 6755

cognitive stimulation, intellectual & achievement effects, poor Mexican-American preschoolers, 1349

contingent reinforcement, Peabody Picture Vocabulary test, hope, achievement motivation & time perception, poverty children, 6519

implications of cultural theories of poverty & increased counseling effectiveness through consumer-supplier model, rehabilitation, disadvantaged, 11725

legal system unresponsiveness to blacks & poor & deprived, reevaluation of lawyer's role in society & law school admission policy regarding blacks, 10980

poverty & ghetto backgrounds, social work & mental health services, college students, 9508

poverty background, childhood characteristics of black college graduates, IQ scores in 2nd & 6th & 8th grade, black college graduates, 10866

psychotherapy for poor as liberating or oppressive, 11742 urban & rural poverty lifestyles, Black & Chicano & Indian & Puerto Rican & Caucasian youth, book, 2245

vocational rehabilitation vs. psychotherapy, adjustment problems, black poverty clients, 3032

youthful life style behavior & self image & age, perception of poverty & old age, aged welfare recipients, 2196

Poverty Areas

American College Test, predictive validity, community college students, Appalachia, 11994

emphasis on personality strength & adaptability & utilization of neighborhood paraprofessionals, partial hospitalization, urban slum psychiatric day patients, 3005 expectation of failure, instruction & failure of lower-class children,

teachers, 7810

high vs. low expectation development & influence, students' academic performance, black ghetto elementary school teachers, 7943

mobile health unit, neighborhood psychiatry, adolescents & young adults in deprived urban area, 5119

new approach strategies, school psychology in depressed areas, 5375 poverty lifestyle, migrant agricultural workers, book, 2241

rented council houses & unemployment & poverty & persons on social security, crime, 11346

social structural features of public housing projects, residents satisfaction-dissatisfaction in public housing, 2302

sociopsychiatric rehabilitation, economically deprived communities, 7409

teacher ratings of job ability & employer ratings of job performance, self concept, adolescents with school learning problems, Appalachia, 12125

achieved power, probabilistic mixed-motive coalition formation, 6788

decision theory, analysis of social power, 9077 fear of weakness & thematic apperceptive measure, power motivation, 2514

leader-member relations & task structure & position power, leadership effectiveness, military academy cadets, 4393

need for power, career preferences, college juniors & seniors, 8079 needs for achievement & affiliation & power, color choice, psychiatrists & executives, 11211

organizational structure & power in secondary schools, book, 8030 perception of power situation, risk taking, validity of game board to measure risk-taking behavior, college students, 6841

person's position in nuclear family as source of power, role-taking ability, 8990

positive vs. negative orientation & job training program vs. entry level job, power & effectance & achievement motivation, black disadvantaged male workers, 8102

power & social conflict, R. Dahrendorf's & C. W. Mills' theories, 2363

power control in simulated organizational setting, self-esteem & esteem for others, college students, 4507

power vs. status, deviation from prescribed organization norms of equity vs. self-interest theory, college students, 12154

rewards & costs equity & interchange, social interaction & power imbalance & justice, dyads, 4404

Rotter's construct of personal power & manifest anxiety & occupational aspiration & high school average & class rank & standardized test scores & socioeconomic variables, academic success prediction & persistence in community college, freshmen college students, 9975

social & personal power, acquiescence to socially desirable peace proposals, cross-national study of European Ss, 6713 strategy & war psychology & war control, book, 10993

Practice (See also Distributed Practice, Massed Practice)

advance organizers & search sets, learning written discourse, college students, 9949

articulation & delayed language & prosody & voice disorders, sequential interaction patterns, experienced vs. inexperienced clinicians, 11312

concept type & pretraining extent & presentation method, concept attainment, college students, 5391

elimination of rehearsal, primacy & recency in free recall, 6022 free-operant training amount, extinction resistance, rats, 6438

geometrical disparity & number of trials, stereopsis & depth perception response latency, undergraduates & staff members, 5838

individual item rehearsal, short-term memory, college students, 8430 instructions regarding rehearsal & presentation rates & critical item exposure duration, anterograde vs. retrograde amnesia in shortterm memory, college students, 8375

intervening task imagery level & 1 vs. 2 presentations, noun-pairs recall, undergraduates, 3733

irrelevant information & presentation irregularity, pacing of rehearsal in sequential short-term memory, college students, 5998 leadership effectiveness contingency model of leadership training &

experience, organizational performance, 12146 mental &/or physical practice, learning & retention & bilateral

transfer of motor skill, female college students, 5837 negative practice treatment & induced behavioral emission, high frequency behavior, rats, applications to clinical treatment, 7693

negative vs. positive practice, correcting habitual fingering errors in clarinet performance, 9th 11th graders in school music program,

patterned sequence vs. random run-lengths training, sequence prediction, female undergraduates, 1712

practice & interstimulus interval, psychological refractoriness persistence on successive choice-response task, 5839

practice & knowledge of instructional objectives, learning from prose, 6th graders, 7873

practice in tracking & aiming task, hand movement towards target, female college student, 10289

practice with controlled stimulus pairs, same-different judgment RTs, college students, implications for human information processing theory, 5914

practice, magnitude estimation of visual velocity, 1608
presentation order & message about artist & preexperimental
experience with scale & anchors, aesthetic judgment of paintings, college students, 11155

pretraining & task instructions, reversal vs. nonreversal shifts performance, college students, 10476

prolonged practice, set size effect in item recognition with complete response consistency & nested positive sets, college students, 6005 realistic decision-making situations vs. training vs. experience, validity of probability assessments about unknown quantities, college students in quantitative analysis course, 63

recall expectancy & presentation interval length, recall & rehearsal strategies in short term memory, college students, 10407

rehearsal, transfer to long-term memory, 10440 right-hand practice & rest &/or left-hand practice, movement-speed task, college students, activity-set hypothesis for warm-up decrement, 5894

short- vs. long-latency associative RT units & high vs. low meaningfulness & single vs. multiple associations vs. silent vs. aloud rehearsal, free recall, college students, 8423

speed/accuracy tradeoff & practice, stage durations in memory-search task, 17 34 yr. olds, 6015

visual form familiarity & presentation rates, serial order recall & verbal coding, undergraduates, 3666

visual presentation of word vs. picture stimuli, recall & recognition without delay & after rehersal & verbal interference intervals, college students, 6070

Practice Effects

changing task model & changing S model as explanations, temporal changes in ability & performance measures relationship, organizational implications, 3362

differentially superimposed magnetic fields & alley shape & number of trials, speed & deviation from straightforward exit path & exit angle, goldfish & planaria, 1984

deedback vs. practice, judgment of others' social attitudes, undergraduates, 9005

intelligence & practice, time estimation, college students, 8323 note-taking training, listening ability, 11th graders, 7920

oral vs. silent repetition of given items vs. counting aloud during interitem interval vs. standard instructions, paired-associate learning, mean CA 21 yr. old mental retardates vs. normal 2nd-6th graders, 2631

perceptual pretraining, dimensional prepotency in brightness & form simultaneous discrimination, kindergartners & 1st graders,

practice & age differences, short-term visual memory, young adults vs. aged, 6615

practice & exposure time & difficulty, serial learning, normal vs. acute schizophrenic vs. brain-damaged male adults, 7091

practice vs. chance, nail puzzle test performance, male college students, reexamination of W. Blumenfeld's hypothesis, 196 practice, factor structure of cognitive abilities tests, 7th & 8th

graders, 6534 pretask exercise, gross motor task performance, educable mentally

retarded 12 18 yr. olds, 12089 rehearsal strategies & encoding passages & confusions, short-term memory, deaf children, 11506

right vs. left cerebral cortical lesions & practice with I handperformance with other, unimanual motor skill learning, 11394

spelling vs. pronunciation practice & pronounceability, anagram problem solving, undergraduates, 5966

stimulus meaningfulness & retention interval & ordinal position & practice, absolute judgment vs. paired-associate learning paradigms, 159

Adler vs. Nietzsche, communication therapy & pragmatism & existentialism, 2393

adult model offering contingent praise, acquisition & generalization of question-asking behavior, disadvantaged Mexican-American 2nd graders, 5587

locus of control & praise, academic failure, elementary school students, 5485

praise as positive social reinforcement, time to get ready to work, 4th graders, 10079

praise vs. silence vs. criticism following correct response, discrimination learning & retention, 1st vs. 2nd vs. 5th vs. 6th graders, 2188

teacher ignoring & praise, teacher-directed vs. child-directed talk & child-directed social behavior & use of girls' toys & appropriate vs. disruptive class behavior, 7 yr. old retarded boy, 1356

videotape feedback, setting criterion rates of teacher praise, elementary school teachers in behavior analysis follow through classrooms, 12067

Prayer

Praying Mantis (See Mantis) Precocious Development

mathematic & scientific precocious development, cognitive & affective aspects, 6th–9th graders, 12086 precocity, African infants, 6632 Precognition

attitudes toward ESP & sex, clairvoyance & precognition performance, university students, 147

dream recall frequency & precognition & ESP attitudes, adults, 1599 precognition performance, EEG alpha frequency & directional shift, male undergraduates, 1648

precognitive dream study, "sensitive" with spontaneous precognition history, 1612

precognitive dreams, case report, 8175

psi phenomena & telepathy & clairvoyance & precognition & psychokinesis, relationships to perceptual & memory & motor processes, 93

psi tests with internally different machines, 8188

test situation, precognition, mice & jirds, confirmation of W. Levy & A. McRae's study, 2009

Predictability (Measurement)

administrative & research concerns in high crash risk identification, 3455

aptitude & knowledge & skills & motivation & situational variables, test performance prediction model, 1504 collision drivers vs. driving population-at-risk, accident research & collision prediction, 3461

heuristic & Bayesian mathematical models differing in algebraic forms & subjective probability judgement types, job choice prediction, experienced teachers & inexperienced college graduates seeking public school employment, 34

multiple linear regression, developing prediction equations, rejoinder to J. T. Kunce's article, 8233

mutually exclusive events union vs. nonexclusive events union vs. independent events intersection vs. nonindependent events intersection, conformance of personal probabilities to probability theory, male undergraduates, 22

Navy Adjective List, identifying superior reenlistment likelihood,

navy personnel, 12129

prediction of successive letters & spaces in passages of English texts vs. statistical frequency of letters in English, 22 30 yr. old graduate students, 6894

raw scoring vs. formula scoring, predicting coached performance ratings, different occupational groups in chemical corporation, 10284

static & dynamic & individual dimensionality in criterion variance performance prediction validities, 1428

strategy of scale construction & number & type of prediction functions utilized for multivariate predictions, personality inventory construction & utilization, 5759

suppressor variable definitions & prediction constraints & construct validity, 5749

Theological School Inventory, predictive vs. counseling tool, Catholic novices vs. Protestant seminarians, 2308

Prediction (See also Occupational Success Prediction)

age at teething & walking & talking, predicting maturity level MA, home reared Downs syndrome children, 11377

attitudes toward action, action prediction, college students, 8997 critical review of M. Fishbein's model for prediction of behavioral intention, 11051

discrepant vs. multiplicative scores, longitudinal & concurrent prediction of job satisfaction, engineers, 10177

driver's licensing examination scores, predicting driving record, 12189

heuristic device of representativeness vs. sample size, study of subjective probabilities & uncertainty, 3699

Hospitalization Proneness Scale, psychiatric hospitalization prediction, schizophrenic outpatients, 9742

letter prediction in contextual prose, aphasic adults vs. normal graduate students, 7087

methodology & practical problems, predicting delinquency, literature review, 11503

moral judgment & education level, prediction of maladaptive aggression in experimental social conflict, 18 30 yr. old male ychiatric patients vs. undergraduates, 9274

need for achievement scores vs. job reaction survey & Hertzberg's job satisfaction technique, turnover prediction, Air Force junior officers, 12132

parole prediction model, determining relative effectiveness of treatment approaches, 11403

patterned sequence vs. random run-lengths training, sequence prediction, female undergraduates, 1712

pictorial value & empathy & interest & clarity, television commercial recall prediction, 10144

prediction methods, criminology, probationers, book, 11494 prediction of successive letters & spaces in passages of English texts vs. statistical frequency of letters in English, 22–30 yr. old graduate students, 6894

prediction time & correctly predicted steps & extent of deviation & number of controlled instruments & difficulty of principle, dynamics of prediction in simulated situation, operators & apprentices in chemical plant, 8144

prediction-stimulus interval, memory & choice reaction time, college students, 8390

predictor of law school success & possible cultural bias, Law School Admission Test, minority students, 11868

recording of high fear S told to expect pain vs. other symptoms from placebo, O's prediction of S's number of shocks to pain & tolerance threshold, 4454

selecting reading & mathematics tests, predicting need for remediation in open admissions university, high school seniors,

social-psychological variables, automobile accident prediction, high school graduates in year following graduation, 12130 suggestibility, verbal-calling & die-throwing sequence prediction,

suppressor variable definitions & prediction constraints & construct validity, 5749

Prediction Errors (See also Type I Errors, Type II Errors)
Type IV errors & interactions, extension of L. A. Marascuilo & J. R. Levin's notion, 5774

**Predictive Validity** 

brief version of Michigan Alcoholism Screening Test, predictive validity, alcoholic vs. nonalcoholic psychiatric patients, 9426

class mean IQ & subject areas & achievement, Learning Environment Inventory scales predictive validity, 10th & 11th graders, 8012

comparison of 5 variable weighting procedures, prediction accuracy,

concurrent & predictive validity, selected scales of Comparative Guidance & Placement Program as measures of college success prediction, college students, 8207 ethnic group, test performance & predictive validity & job performance, Negro & white & Spanish surnamed clerks, 8127 instructions for use & predictive validity data & interrate reliability, rating work performance, psychiatric patients, contributions to A.

rating work performance, psychiatric patients, contributions to A. Cheadle & D. Cushing & C. Drew & R. Morgan's previous version, 1109

intelligence & personality & achievement & interest & aptitude test scores & demographic variables, prediction of vocational rehabilitation success, potential rehabilitants, 5018

moderator variable, heterogeneous regression as framework, 62 moderator variables, implications for measurement theory & personnel selection, 1415

modified quadrant analysis & combining Ghiselli's d" technique & directional strategy, moderator search strategy problems & pratfalls, reply to M. Dunnette's criticism of N. Abrahams & E.

modified quadrant analysis & combining Ghiselli's "d" technique & directional strategy, moderator search strategy problems & pratfalls, criticism of N. Abrahams & E. Alf, 32

mothers' vs. teachers' assessment & predictive validity by Preschool Attainment Record, school readiness, 5 yr. olds, 7879

necessity for correlation between different scores to be near zero & use of alternative models, 2-predictive moderated regression system, 61

predictive & construct validity, Frostig Developmental Test of Visual Perception, 3532

predictive validity compared to GPAs, Career Planning Profile vs. Comparative Guidance & Placement Program vs. Differential Aptitude Test vs. American College Test, community college students, 8002

predictive validity of Psychoeducational Inventory of Basic Learning Abilities, identification of learning disabled child, kindergartners, 10001

Primary Mental Abilities vs. English vs. Spanish WISC vs. Picture Motivation Scale vs. Kohs Block Designs vs. Raven Coloured Progressive Matrices, predictive validity, Mexican American educable mentally retarded children, 11932

psychometric prediction of delinquency, Personality Inventory for Children & Delinquency Prediction Scale, 7330

regression equation & residual score & validity coefficient misuse & incomplete evaluation of contribution to prediction, prediction using moderator variables, 19

reliability & validity & predictive validity, French version of WISC adapted to Congolese, 7 15 yr. olds, 5745

speech development level, home background prediction, 26 yr. old Israelis, 10910

static & dynamic & individual dimensionality in criterion variance

performance prediction validities, 1428 subjective predictors, regression analysis for policy capturing, 30 subjective secondary school personality factor evaluations as predictor of college success, college students, 9850

subtest estimates by socioeconomic & sex & ethnic factors, WISC Full Scale IQs, 6 11 yr. olds, 3255

test qualities & differential validity & motivation, psychometric & predictive test bias, 10274

16 PF, predicting counselor effectiveness, student counselors, 900 Predisposition

guilt vs. shame proneness, defensive style, counseling outpatients,

9770 sociopsychological factors, endogenic depression, two families, 9450

prednisone, REM & stage II sleep & eye movement & waking time, 18-22 yr. old college students, 6261

Preference Measures (See also Kuder Preference Record, Least Preferred Coworker Scale)

familiarity vs. short-term novelty, affective assertions, 5.8 6.9 yr. olds, 8808

Holland's Self-Directed Search for Educational & Vocational Planning, test-retest reliability, 7915

interdependent preferences on finite sets, 1515

modified Morris' Ways to Live Scale, value preferences, adult vs. youthful male felons vs. female offenders vs. youthful male misdemeanants vs. public drunkenness offenders vs. correctional officers vs. technical institute students, 4822

modified Panzarella cognitive preference test, predicting major fields of study, college students, 3237

preference scales, crime prevention, 10989

self-actualization construct & Styles of Living Preference Scale, validity & problem-solving & social situations evidence, college students & faculty & civil service workers, 9196

subordinates' perception of leader behavior, leader score on F.

Fiedler's Least Preferred Coworker Scale, general foremen, 3452 teacher personality preferences, job satisfaction & competency, open space elementary school, 12074

Preferences (See also Aesthetic Preferences, Food Preferences, Occupational Preference)

differential early visual experience, visual preferences, neonates,

morphine dependence & preference & withdrawal, rats, 10670 needs for achievement & affiliation & power, color choice,

psychiatrists & executives, 11211 preference scales, crime prevention, 10989

Preferences (Aesthetic) (See Aesthetic Preferences)

Preferences (Food) (See Food Preferences)

Preferences (Occupational) (See Occupational Preference)

**Preferred Rewards** 

Fear Survey Schedule & Reinforcement Survey Schedule, delineation of reinforcing & aversive stimuli & therapeutic implications, 14 16 yr. old male juvenile offenders, 9316

immediate vs. I day to I wk. delayed monetary reward, choice of reward size & choice RT, 10-12 yr. olds, 191

preferred activities vs. advanced work as reward & buddy system, classroom behavior, 8th graders, 10065

qualitative upshift in reward, pre- vs. postshift alley run times in double runway, rats, 6453

Preganglionic Autonomic Fibers (See Autonomic Ganglia)

clinical syndromes & personality & marriage & attitude towards pregnancy & childhood & behavioral psychodynamics, attempted infanticide, women, 9400

conception after adoption, 2272

counseling techniques & style, problem pregnancies, 5205

expectations & fear of childbirth & coping mechanisms & reactions to sensory stimulation & interpersonal communications about childbirth, choice of childbirth procedure, pregnant women, 6738 government policies & laws & customs, status of women & attitudes toward marriage & motherhood, 6770

haloperidol, cardiovascular effects & interaction with other drugs & use during pregnancy, literature review on 15 yr. of clinical & laboratory experience, 1836

locus of control & Lamaze training, expectancy for & recalled

experience of personal control, pregnant women, 4526 male vs. female co-counselors, self concept, pregnant Negro teenagers in group counseling, 11784

malnutrition & biosocial correlates of height, cognitive development, tall vs. short children, 6573

maternal protein restriction, maze learning & curiosity & activity, rat offspring, 8770

maternal starvation during pregnancy, adult mental activity of offspring, 19 yr. old males, 8869

methylmercury poisoning of mother during pregnancy, offspring open field & swimming behavior & brain weight & protein & choline acetyltransferase & cholinesterase, mice, 6323

pre- vs. postabortion MMPI scores, husbands vs. wives, 11002 pregnancy & gestation & delivery & neonatal disorders & multiple complications, early development, infants at birth & 1 yr. & 2 yr., 2132

pregnancy & menstrual cycle, blood monoamine oxidase levels, nursing students & pregnant women & men, 6134

pregnancy, body attitude & personality change, women, 1832 pregnant vs. nonpregnant condition & color of communicator & recipient, attitude & behavior on rooming-in & breast feeding, black & white pregnant women, 713

prenatal Cannabis sativa, offspring's maze learning ability, pregnant rats, 10621

prepregnancy & prenatal stress in 5 consecutive pregnancies, rats & their offspring, 2045

sychotherapists' pregnancies, patient reactions, 5155

self-licking of nipple lines & genital pelvic region & female hormone treatment, mammary gland development & grooming patterns, pregnant & ovariectomized virgin female rats, 6333

social change & cultural influences, psychopathology of childrearing, African women, 10955

subconscious factors & physician attitude, contraceptive failure,

subjective view of conception & pregnancy & delivery, middle-class 17 yr. old unwed mother, 9023

succession of vaginal & behavioral changes in continuous cycling, sexual behavior, rats, 2002

traditional vs. urbanized social & economic & domestic life patterns, psychiatric disorder & depression, rural African pregnant women,

Pregnancy (False) (See Pseudocyesis)
Prejudice (See also Religious Prejudices)

affective component of racial stereotypes, attitudes of social distance toward Americans & Chinese & Japanese & Spanish mestizos, Filipino college students, 11037

Afrikaans version of Eysenck Personality Inventory & Eysenck Tender-Mindedness scale, prejudice & introversion-extroversion & neuroticism, Afrikaans-speaking high school students, South

author sex & achievement, work evaluation, male vs. female undergraduates, 8924

characteristics of foreign workers, prejudice & attitudes toward foreign workers, book, 8977

dogmatism & prejudice, Roman Catholic religious vs. Roman Catholic lay persons vs. members of other Christian sects, 8909 exposure to consistent cultural norms, differential learning

hypothesis of correlation between prejudice & authoritarianism, lower class white South Africans, 716

group psychotherapy & psychodrama, social & racial attitudes, racially mixed patient groups in community mental health clinic,

interethnic-group comparisons & attitudes, task performance in homo vs. heterocultural setting, Flemish college students, 8943

personality variables, ethnic prejudice toward West Germans, Czechoslovakian Ss. 6753

racial & social subgroup, racist & prejudiced attitudes, adolescents, 4332

rating person descriptions with corresponding behavioral statements, racial prejudice, Australian vs. New Zealand college students, 8971

role of government & women & employees, elimination of sex discrimination in employment & personnel practices, 3435

selection procedure bias & fairness, employment & college admissions, equal opportunity model, 3378 self-perceived & ascribed characteristics, Mexican-American &

Anglo & bicultural college students, 8970 simulation games, modification of prejudicial attitudes toward blacks, white teacher trainees, 5303

social attitudes of conservatism & prejudice, personal adjustment, English-speaking white schoolchildren, South Africa, 865

staff & patient attitudes toward psychiatric treatment, differential inpatient psychiatric care, Indians & Metis with personality disorders, 11631

varied levels of beliefs & race with primacy, evaluative semantic differential scales & behavior differentials, college students, 11026

Preliminary Scholastic Aptitude Test (See Coll Ent Exam Bd Scholastic Apt Test)

**Premarital Counseling** 

experimental group sessions, premarital counseling, West Point cadets & their fiancees, 9606

Premarital Intercour

attitudes toward oral sex & premarital sex & masturbation & homosexuality & group sex & child molestation, 6680

commitment in sexual behavior, attitudes towards premarital sexual behavior, college students, 8906

early & premarital coitus behavior, anxiety & fantasy, 14 18 yr. olds & college students, 11022

Premature Birth

kinesthetic & auditory stimulation, duration & amount of sleep & wakefulness, premature infants, 6461

mother-infant separation & full sensory vs. visual contact, attachment behaviors prior to vs. 1 vs. 4 weeks after infant hospital discharge, 10867 neonatal EEG patterns, prognostic value, preterm & full-term

infants, 10569

quiet sleep phases as measured by EEG, 2 & 12 & 24 wk. old normal vs. 12 & 10 wk. old premature infants, 6485

Premature Ejaculation

impotence & premature ejaculation & lack of female response, symptoms & etiology & diagnosis & treatment, 5049

premature ejaculation, psychogenesis & normal vs. pathological manifestations & therapy, 4744

Premenstrual Tension

oral contraceptives, depression & premenstrual symptoms, adult females, 6287

Prenatal Development (See also Embryo, Fetus, Prenatal Developmental Stages, Zygote)

age & postnatal test experience, prenatal stress effects on behavior, rats, reply to J. Archer & D. Blackman, 8736

androgenic stimulation at birth & pre- & postnatally, sexual development & masculine mating responses, female beagles, 6224 chronic maternal absorption of nicotine vs. hypoxic episodes, life

span of offspring, rats, 8648 classification into categories of deficiency due to infection & toxic agents & injury & metabolic disorder & tumor & unkonwn

prenatal influence & unknown cause with & without neurological signs, severely mentally retarded children, 7262 clinico-pathological correlates & clinical syndromes & diagnoses, nonprogressive motor disorders including in utero & postnatal

nervous system lesions, 4705

early detection of birth or before birth trauma, institutionalized brain-damaged children, 7622

H-DOPA peripheral administration during pre- & postnatal development, brain production of [H] catecholamines, 405 innate auditory preferences vs. prenatal auditory stimulation, imprinting, chick, 10732

maternal protein restriction, maze learning & curiosity & activity, rat offspring, 8770

maternal starvation during pregnancy, adult mental activity of offspring, 19 yr. old males, 8869

movement & pressure & pain & light & sound responsiveness & mother communication of emotions & fetal hunger & conditioning, prenatal development, 8832

prenatal Cannabis sativa, offspring's maze learning ability, pregnant rats, 10621

prenatal exposure to cigarette smoke, offspring behavior, rats, 10597 prenatal hormones, gender identity & gender role, 3814 prenatal injection of methylmercury dicyandiamide, hatchability &

open field activity & detour learning, chicks, 3950

prepregnancy & prenatal stress in 5 consecutive pregnancies, rats & their offspring, 2045

thalidomide administration during gestation, fetus tissue & skeletal development, rabbits, 10640 thalidomide administration during gestation, fetus tissue & skeletal

development, rats, 10642 thiouracil via transplacental & transmammary passage & pre- vs.

postnatal exposure, closed-field maze performance, rats, 6243

Prenatal Developmental Stages (See also Embryo, Fetus, Zygote)

Preschool Age Children

academic achievement motivation & response set scores on Gumpgookies, Mormon vs. Catholic vs. Jewish vs. Puerto-Rican vs. urban Negro vs. rural Caucasian vs. Hawaiian vs. West Coast Oriental vs. Mexican-American vs. American Indian preschool children, 8777

acquisition order of transitivity vs. conservation vs. class inclusion of length & weight, Canadian kindergartners & 1st & 2nd graders

& American 2nd graders, 10813

age & grammatical development, lexical & function word disfluencies, 3-6 yr. olds, 6497

age & sex & expressive ability, recognition & imitation & spontaneous facial expression, nursery school & 2nd & 5th graders, 10850 age & sex & task, interpersonal visual behavior in dyads, 4 yr. olds

to college students, 6827

age & sex developmental level, sex-related fantasy patterns, nursery school & kindergarten students & 1st graders vs. 3rd 5th graders,

age & sex differences, dynamic & static balancing ability, 3 & 4 & 5 yr. olds, 5827 age & sex differences, hierarchy of conceptual development, 3 & 4 &

5 yr. olds & kindergartners, 6618

age linked developmental differences, choice of pencil size & ability to use varying diameter pencils, nursery school vs. kindergarten vs. 1st grade children, 12034

age, transitive organization in positive affect sociograms, nursery school to 6th grade classrooms, 618

aggressive cartoons & sex & group size, group play, kindergartners,

articulation functions & test-retest performance on speech discrimination tests, 3 & 5 & 7 & 9 & 11 yr. olds , 6588

attention & short-term memory, prediction in alternating or repeating sequences, nursery school & kindergarten children, test of R. Bogartz's theory, 10444

attitude education, developing group responsibility & concern for others & cooperation, 3 & 4 yr. olds, 9920

authoritarianism & acceptance of hospital authority, mothers of 5 yr. olds who were hospitalized vs. never hospitalized, 8857 behavior modification techniques vs. traditional educational

methods, evoking attending behavior & transference to readiness skill, preschool retardates, 3321

behavioral imitative procedures, therapeutic language training, preschool ghetto children, 7942

birth order & sex, social behavior ratings & aggression & independence, 3 4 yr. olds, 4178

body vs. object exchange media, child-mother & child-family communication, 3 yr. old Wolof children, Senegal, 6639

canonical correlation, perceptual motor & intellectual abilities, kindergartners to 3rd graders, 8871

causality cognition stage & humor rating & age & personality differences, humor development, 3 12 yr. olds, 4136

childrearing practices, perception of emotional responses to social interaction, Taiwan vs. American 2nd graders vs. kindergartners,

Children's English Proficiency Test as reliable screening instrument, Anglo vs. Negro vs. Mexican-American preschoolers, 1382 classification & seriation operations with problems concerning

inanimate objects vs. social events, 60-120 mo. olds, 8835

cognitive encounter with external data, development of memorizing vs. perceiving, pre-schoolers & 1st & 5th graders, 10802 cognitive tempo, discrimination skill in color-form sorting,

impulsive vs. reflective 3-5 yr. olds, 6531 cognitive training, implications for educational TV programing for

disadvantaged children, 5501 color naming ability, color recognition ability, 3 5 yr. olds, 4157

comprehension of task to be accomplished & confrontation with simple unambiguous verbal model of subject & unhampered progress, passive sentence acquisition, French-speaking 4-5 yr. olds, 10886

consistent positive reinforcement & environmental determinants & compensatory education programs, IQ changes, young children,

context of stimulus item presentation variation & quiet vs. noise listening condition, speech sound discrimination performance, nursery schoolers vs. kindergartners vs. 1st graders, 4222

contingent mother availability, aversive & prosocial behavior in mildly aversive situation, 2 3 yr. olds, 9574

contingent social reinforcement training program, increased child obedience, mothers of preschoolers, 4245

contingent vs. noncontingent reinforcement periods, verbalizations, nontalking 5 yr. old Negro girl in Head Start program, 2790

control of grammar, imitation & comprehension & production, 2.3
3.9 yr. olds, replication of C. Fraser & U. Bellugi & R. Brown's study, 6492

crowding & sex, social interaction, preschoolers & 1st graders, 795 Danish Binet test & group school readiness tests & informations on

kindergartens & schools to be entered, guidance to parents concerning school admission, children under 6 yr. old, 9952

delay between exposure to modeled task & actual performance & retest expectations, recall & imitation performance, kindergartners & 1st graders, 8397

development of linguistic connectives & attention to order of causally related events & ability to explain temporal order of events, white middle-class 4 & 6 & 8 & 10 yr. olds, 10923

development of Play Session Behavior Scale & Psychosexual

Content of Play Scale, ghetto 4 5 yr. olds, 4096
developmental age differences, race & sex attitudes & role
awareness & identity & preferences, 3 6 yr. old blacks, 10799

developmental groupings, mental health, 4 6 yr. olds, 965 developmental level & intelligence, optional intra- & extradimensional discrimination shifts, preschoolers kindergartners & 2nd & 6th graders & college students, 4154 developmental role of vocalizing, short-term memory, 4 6 yr. olds,

2098

dialect differences, comprehension of standard English, 5 yr. old black speakers of nonstandard English, 8962

disfluency rates & patterns, high- vs. low-disfluent kindergarten to 6th grade stutterers vs. nonstutterers, 7335

dominance & assertive behavior, aggression, kindergartners, 10809 Draw-A-Person & name printing tests & K. de Hirsh & J. Jansky & W. Langford Predictive Index, minimal brain dysfunction prediction, preschool age children, 7436

drive & incentive change, curiosity motivation & stimulus change, preschool age children, 10835

E & S race & sex, verbal nonreinforcement & reinforcement responsiveness, 60 72 mo. olds, 5939

Edinburgh Articulation Test, 3 6 yr. olds, 6524

egocentric communication, peer popularity, kindergartners vs. 2nd vs. 4th vs. 6th graders, 4209

egocentrism, spontaneous verbal interaction, 3.5 5.5 yr. olds, 4187

empirical return vs. reversibility in sensory-motor context, quantity conservation, nonconserving 5 6 yr. olds, 4218

enactive vs. iconic vs. symbolic cognitive modes & grade level, reproduction & identification & extension of linear patterns, economically disadvantaged 47 yr. olds, 9883

encounters with teachers, self concepts, prekindergarten children, 9947

Eric Erikson's theory, basic trust development, 3 yr. olds, 10921 etiological considerations, infant homicides by 2 8 yr. olds, 9272 evaluative instrument subtests, blind & partially blind preschoolers,

experience in play situation before exposure to film model, imitation of model, working-class vs. middle-class nursery-school boys,

explicit vs. implicit verbal request vs. nonverbal facial expressions of noncomprehension, reformulation of initial messages, 4 yr. old

preschoolers & 7 yr. old 1st graders, 10893 expressed attitudes toward disability & family, observed motherchild interaction, mothers of hearing-impaired preschoolers, 9406

extinction & counterconditioning vs. timeout & extinction &

counterconditioning vs. timeout & counterconditioning, behavior modification in marble dropping task, preschoolers, 10820 factorial dimensions of problem & nonproblem behaviors, diagnostic categories for children's disorders, 4 & 5 & 6 yr. olds, 707

family disturbance patterns & environmental circumstances, differential diagnosis of psychiatric disturbance, preschool children, 9345

family size & density & maternal attitude & education level & socioeconomic status, school readiness, kindergarten children, 12068

family structure & play activities & personality characteristics of child & imaginary companions, presence or absence of imaginary companions, 4 yr. olds, 10875

fixed-ratio vs. fixed-interval reinforcement schedules of stimulus control, figural matching-to-sample tasks, 47 yr. olds, 10828

form-color stimuli relationships, names for & matches to form-color stimuli, 4 5 yr. olds, 8842

frame assembly task solution time & performance, 7 yr. old female chimpanzee vs. 2 yr. old girl, 1986

genetics & mother-child verbal interaction, morphological & syntactic & semantic development, 2 4 yr. old identical vs. fraternal twins, 4250

haptic perception, 29 73 mo. old Africans, 6510

hear point acuity test card design, near point acuity level measurement, preschool children, 98

height-width compensation concept mastery, susceptibility to conservation concept training, kindergartners, 4106

heightened reinforcement density vs. discriminative stimulus control vs. extended training vs. punishment, generalized imitation, 4 & 5 yr. old males, 799

heterogeneous vs. homogeneous grouping, social interaction, disadvantaged vs. privileged Israeli 3 yr. olds, 11062

highly cognitively-structured small group activities vs. traditional preschool program, language & cognitive development, disadvan-taged preschoolers & kindergartners, 3322

human figure drawings development at ages 4 & 6 & 8, 4 8 yr. olds,

identification with parents & peers & aggression & adult acceptance & orality, Philippine Children's Apperception Test, 5 5.9 yr. old kindergartners from college community & barrio, 611

identifying & classifying vs. viewing & naming concepts, mediation of perceptual sets, 4 & 5 yr. olds & college students, 10930

imitation & verbal command teaching methods, verbal behavior modification, 3 yr. old hearing impaired girl, 4940

imitation reinforcement, response maintenance & frequency, preschoolers, 6494

inability for grouping according to similarity & ability for grouping partially according to similarity & grouping entire stimulus array according to similarity, free classification, preschool children, 10830

independence- & dependence-producing situation participation by children, mothers' & fathers' behavior, 4 6 yr. old girls & their parents, 632

individualized teaching with therapeutic aims in day care centers, implications for children with apathy-withdrawal vs. angerdefiance related to maternal overprotection vs. neglect, 9656

instructions to visualize stimuli during unfilled delay, visual recognition of nonsense shapes, preschoolers, 4182

intelligence & speech development correlation, 3 5 yr. olds, 4153 intelligence, curiosity behavior, normal vs. mentally retarded preschoolers, 11472

interpolated tasks, intramodal & cross-modal shape recognition latency & accuracy, 3 4 & 5 6 & 7 9 yr. olds, 6563

irreversible vs. reversible vs. intermediary sentences & situations, assive sentence comprehension & production, English-speaking 3 6 yr. olds, 10915

language & thought development, preschool children, 6559 language competence & behavior adjustment & sex, achievement, disadvantaged Mexican-American 5 yr. olds, 2300

language development phases, 2 yr. olds, 2147

language development, methods for study of early cognitive functioning, infants & preschool age children, 6476

linguistic & psychological complexity, language, 3 5 yr. old nursery school children, 600

London Play Technique with dolls, role distribution, 4 6 yr. old Czechs, comparison with L. Ucko & T. Moore's results with English children, 4162

Lowenfeld Mosaic & Incomplete Man & Copy Forms & Unusual Uses Tests, constructional ability & body parts understanding & ability to copy geometric forms & verbal ideational fluency, Chinese vs. Italian vs. Negro vs. Puerto Rican disadvantaged 4 yr. old Head Start students, 2263

Lowenfeld Mosaic Test, psychological development, equally disadvantaged black vs. white preschoolers, 2141

MA & personal responsibility & task interruption, private speech, 4 5 yr. olds, 10833

male volunteer aides in day care centers, classroom behavior, preschool age children, 8862

maternal & nonsocial security objects, exploratory & play behavior in unfamiliar environment, 2 3 yr. olds, 8851

maternal stimulation, early language development, disadvantaged preschool age Mexican Americans, 10843 maternal verbal reinforcement play behavior modification, 3 yr. old,

mediator priming & inhibition, discrimination transfer & free recall, kindergartners & 3rd graders, 8813

- mental development level, classification learning, 4 & 5 & 7 yr. olds, 8816
- model's race vs. O's age & race, imitation, 3 & 5 & 7 yr. olds & Negro & Caucasian peer models, 10872
- mother-attachment & stranger-reactions, American 2 & 2 & 3 yr. olds vs. Israeli Kibbutz-reared children, 4172
- mothers' speech & disfluency rate & vocabulary diversity, language development, language-learning vs. older children, 879
- mothers' vs. teachers' assessment & predictive validity by Preschool Attainment Record, school readiness, 5 yr. olds, 7879 movement response treatment vs. traditional concept teaching
- method, concept learning & attentiveness & verbal memory for new material, lower-class black 4 yr. olds & heterogeneous kindergartners to 4th graders, 3182 movie presentation of Piagetian conservation tasks of length & area
- & continuous quantity in solid & liquid, conservation attainment, 67 yr. olds, 8848
- naturalistic observation & contingency analysis techniques, teacherstudent interaction patterns, 3 4 yr. olds, 8021
- neuromuscular mechanism delayed maturation vs. anxiety & stress, primary nocturnal enuresis, young children, 4772
- neutral vs. conflictive vs. screened stimulus conditions, transitivity of 3 matching relations, 65 75 mo. old conservers & nonconservers, 633
- new vs. old-identical vs. old-similar picture stimuli, recognition memory with long vs. short retention intervals, preschoolers, 3653 non vs. moderate vs. intense maternal involvement in compensatory preschool program, impact on mothers & children, 4 yr. olds, 1 yr.
- follow-up, 12051 noncategory child development program, early intervention in language concepts & academic & social & motor skills, 4.5 6.5 yr. olds with high school failure risks, 7763
- nonlinguistic contextual comprehension of concepts of more & less, development of ability to make quantitative comparisons, 2 & 3 yr. old children, 2203
- normal nerve rates for age, motor & sensory conduction in peripheral nerves, infants & young children, 4248
- nurturant vs. nonnurturant adult models in play groups, content & form & circumstances of imitation, preschoolers, 653
- observed verbal reward & model's response patterns, observational
- learning, preschoolers & kindergartners & 1st graders, 6499 older siblings, language development, 18 34 mo. old lower- & middle-class children, 2140
- oneness & linear vs. numerical magnitude concepts development, 3 4.11 yr. olds, 4227
- operant analysis & observation, family interaction, 4 6 yr. olds, 6628 operant conditioning, behavior modification, preschoolers & 3rd & 7th & 9th graders, 11908
- optimum learning model, developing component skills of substance conservation, nursery school children & kindergartners, 630
- orientation, perception of realistic & abstract forms, nursery school children, 4179
- overt aggression & friendly behavior, middle- vs. working-class 4 vs. 5 yr. old children, 4220
- overt nonsocial speech & task complexity & strategy, problem-solving ability, 4 yr. olds, 4263
- overtraining & test condition, transposition, kindergartners, 4238 paired-associate learning of pictures, kindergartners, 6069
- parental attitudes & preschool experiences, intellectual development, disadvantaged children, 11865
- parental guidance in understanding characteristics of retarded & therapeutic activity for children in kinetic function & group play therapy & musical play, preschool age retardates & their parents,
- 9635 parental social class & sex & innate ability of child & mother-child communication, linguistic flexibility, 5 yr. olds, book, 4098
- partialing out of response set scores, achievement motivation test factors, 4 yr. olds & 1st & 2nd graders, 7705
- peak-to-peak vs. multiple-component amplitude measures of auditory evoked responses during all-night sleep, correlation with EEG intensity, 2 3 yr. olds, 6202
- peer familiarity, novel situation behavior, preschoolers, 4223 peer tutoring & token reinforcement, learning to read, disadvan-
- taged preschoolers, 3185
- perceptual & visual-motor & intellectual tests, reading retardation prediction, preschoolers, 7724
- perceptual cues, additive composition of classes, kindergarten & 1st grade students, 8880

- perceptual pretraining, dimensional prepotency in brightness & form simultaneous discrimination, kindergartners & 1st graders,
- perceptual training of discrimination orientation, developmental lag
- between perception & performance, preschool children, 10922 permissive-restrictive maternal control, child behavior, preschool age children, 6579
- physical activity program in swimming vs. physical education, perceptual-motor development & primary mental abilities, 4 6 yr. olds, 7784
- physical growth & familial social factors, cognitive functioning, 3 6 yr. olds, 6539
- physical growth & maturation & motor activity & sensory capacities in infancy & mother-infant interaction & onset of fear & social behavior & intellectual functions, sex differences, preschoolchildren, 2128
- physical objects appearance vs. reality vs. identity judgments, 4 5 yr. olds, 6545
- Piaget's number concept, general intelligence development, kindergartners, 6511
- Piaget's views of cognitive development, early cognitive intervention programs effectiveness, disadvantaged urban children, 7547
- Piaget's vs. P. Gal'perin's interpretation, teaching concept of weight & mass consistency, 4-6 yr. olds, 8874
- pictorial vs. verbal response requirements, recognition memory, kindergartners vs. 2nd vs. 4th graders vs. high school students,
- picture & spoken message with white noise vs. spoken message only with white noise vs. telephone connected to tape recorder with white noise, sentence completion in informal talk, 3 6 yr. olds,
- picture-redundancy paradigm, stimulus encoding in paired-associate learning, preschool black children, 10805
- pilot screening device, minimal cerebral dysfunction detection. kindergarten children, 11595
- Planned Bilingual Early Childhood Educational Program vs.
  Parental Involvement Program & traditional day-care center,
  Spanish-speaking preschool children, criticism of S. Nedler & P.
  Sebara's study, 5405
- preventive mental health program, cognitive interpersonal problem-solving skills & adjustment, disadvantaged 4 yr. olds, 3315
- primary evaluation factor & secondary potency & activity factor, affective meaning system, preschool children, 10845 procedures of L. Vigotsky vs. B. Inhelder & J. Piaget, free classification, 2 & 4 & 6 & 8 & 12 & 16 yr. olds, 10831
- psycholinguistic antecedent events, spontaneous verbal imitation, 22 24 vs. 28 30 vs. 34 36 mo. olds, 6532
- psychological techniques to determine intelligence & psychological maturity & perceptual motor integration, determining ability to respond adequately in opthalmological examination, 3 6 yr. olds, 7129
- psychomotor development, 6 mo. to yr. old Wolof children, Senegal, 6565
- psychotic mothers & degree of psychosis, selective & sustained attention, 5 6 yr. olds, 4688
- racial/ethnic group membership & sex & preschool racial/ethnic group contact, racial & ethnic group identification & preference, white & black & Mexican-American 4 yr. olds, 11016
- rage-reduction diagnostic technique, psychiatric evaluation, 3 6 yr. olds presenting confusing clinical pictures, 4684
- recordings of grammatically correct vs. incorrect complex sentences, syntactical error discrimination, children under 2 yr. old, 4236 relevant & stimulus dimensional responses & nondimensional &
- conceptual discrimination, consecutive intradimensional & extradimensional & control shifts, 50 61 mo. olds, 6614
- repeated testing & contrasts using Wepman Auditory Discrimina-tion Test, phonological discrimination assessment, kindergartners & 1st graders, 4151
- reproof & negative feedback & task complexity, motor performance, 5 yr. olds, 5871
- required vs. optional activities, day care play participation, 4-5 yr. response contingent reinforcement criterion variation, shaping high
- correct response rates in matching to sample task, kindergartners,
- response force & ITI, extinction & acquisition of lever-pressing task,
- 4 yr. old boys, 195
  response reinforcement to critical vs. noncritical features, letter
  discrimination, 4 yr. olds, 10512

reward value & social approval expectancy & presence vs. nonpresence of E, peer model imitation, kindergartners, 8363 rotations on Wechsler Preschool & Primary Scale of Intelligence Geometric & Block Design subtest items, 4 vs. 5 vs. 6 yr. olds,

salience of odd cue during original training, color oddity problem training & transfer to form problems, 3 5 yr. olds, 4127 same sex dyadic interaction vs. working along & age, construction task performance time & use of blocks, 2 vs. 3 vs. 4 vs. 5 vs. 6 yr.

same vs. reversal conditions, discrimination acquisition & extinction rates, kindergartners & 2nd graders, 4108

school playground games & activities, social participation level & activity content, 4 & 6 yr. olds, 10857

school readiness & school success prediction, screening questionnaire development, prekindergartners, 7752

self-check of performance as mnemonic device, memory for word lists, 5 6 yr. olds, 8812

self-programing of sequential shape input & age differences, shape recognition through aperture in free viewing situation, children with mean ages of 4.6 & 6.6 & 8.5 yr., 6500

semantic vs. syntactic factors, sentence acceptability judgments, 2-3 yr. old children, 2101

separations from mother into new environment, 12 60 mo. olds, 6574

sex & age, association learning & conceptualization & creative selfdirection, 3 4 vs. 4 4 yr. olds, 6478

sex & urban vs. rural social level, reliability of Polish adaptation of Vineland Social Maturity Scale, 2 30 mo. olds, 8824

sex-role orientation & preference, play interests, 4 yr. olds., 594 sex, phenotypic characteristics, newborns to 3 yr. olds with Down's syndrome, 4659

Shape-O Ball Test, validity & academic achievement prediction, kindergartners, 5799

sibling's sex & status & age-space between siblings, sex-role preference, 2nd born 4 6 yr. olds from middle-class 2-child homes vs. singletons, 8785

single-array conservation task, acquisition of number concepts preceding Piagetian conservation, 3-4 yr. olds, 6487

skin color & physiognomy of dolls, racial misidentification, male vs. female & black vs. white & 4 vs. 5 vs. 6 yr. olds, 6685

social & ethnic background & style & competence levels, cognitive functioning & performance, implications for school instruction, middle-class white vs. working-class Puerto Rican preschool children, 1304

social class & school attendance, imitated aggression, working-class vs. middle-class nursery-school vs. non-nursery school 38 56 mo. old boys, 6543

spatial-positional & verbal & nonverbal stimulus cues & development of ability to form internal representations of stimulus events, memory task, kindergarten students, 6479

speech sample analysis, repetition of single-syllable words, 4 yr. olds, 10914

spontaneous movement responses, black lower-class vs. white lower-middle-class 4 yr. olds, 5842

stimuli color variability, habituation of attention on cue-related task, 4 & 5 yr. old children, 4234

stimulus orientation, form recognition, 3 8 yr. olds vs. college students, 2086

stylistic consistency vs. situational specificity, size of Santa Claus drawings before & after Christmas, kindergartners, 6630

syntactic structure, oral language, low income preschool black children, 6659

systematic conceptual learning program, IQ & intellectual development, preschoolers from poverty backgrounds, follow-up investigation, 5434

tangible vs. intangible vs. no rewards & time of reward presentation, concept-switching performance, middle- vs. lower-class Israeli 5

test demands & ethnic differences, response style in cognitive tasks, preschool age children, 10421

token economy & nonpunitive discouragement of bad behavior,

social & learning behavior, hyperaggressive boys & normal 2 4 yr. olds & nontalking ghetto & autistic children, 7833 tone intensity & sleep phase & chlorpromazine sedation, auditory evoked response detection reliability, adults vs. chlorpromazine-sedated 3 4 yr. olds vs. children referred for audiometric diagnosis, 10666

toy talk training, mother-child relations, low income black mothers & preschool children, 11917

trace vs. delay auditory stimuli, eyelid conditioning, 4 6 yr. old children, 2205

traditional instruction vs. narrative-play, teaching prepositions,

language handicapped preschool children, 11827 trained variation in teachers' supportive behaviors, learning of

cognitive concepts & motor skills, 3 & 4 & 5 yr. olds, 3236
training involving imitation & differential reinforcement & constancy of 1 word of 2-word responses over all response combinations, production of novel & grammatical utterances, 22 & 24 mo. olds, 2206

transposition behavior along size continuum & verbalization, 4 & 5 yr. olds, 4125

trinket paired vs. unpaired token reinforcers, rate of button pressing in extinction, kindergartners, 2187

unstimulating preschool environment, development & implementa-tion & evaluation of affective approach for combating intellectual losses, mothers of disadvantaged preschoolers, 3231

varying components of lightness & saturation within hues & difficulty level, color perception, kindergartners, 4122

verb vs. conjunction verbalization & side by side vs. interactive line drawings vs. interactive photographs, paired-associate recall & recognition, kindergartners & 3rd graders, 2126

verbal output quantity & sophistication, production of gross bodily activity & fine manipulative movements, 4 & 5 yr. old children,

verbal pretraining, multidimensional generalization behavior, kindergartners, 2189

verbal vs. visual dimension highlighting, discrimination & transfer learning, preschoolers vs. 2nd graders, 4260 verbal-labeling vs. perceptual-cue vs. control pretraining, reversal

learning, 4 yr. old preschoolers, 3703

visual & tactual contact, motoric mediation in paired-associate learning, kindergartners, 4258

visual evoked response at birth & articulation of initial & final consonants & verbal comprehension at 3 yr. & Stanford-Binet IQs at 4 yr., children, 4112

visual feedback & auditory training, auditory localization, nursery school children, 4249

Young Children's Social Desirability Scale, social desirability, economically disadvantaged 4 & 5 yr. olds, 10798

2-choice discrimination task & visual angle, pictorial size-in-depth relations perception, 4 vs. 7 yr. olds vs. adults, 10849

Preschool Education cognitive stimulation, intellectual & achievement effects, poor Mexican-American preschoolers, 1349

emotional factors & development of intellectual skills vs. nature of educational environment, preschool education, 10056

family size & kindergarten attendance & sex & age, school readiness, 12031

highly cognitively-structured small group activities vs. traditional preschool program, language & cognitive development, disadvantaged preschoolers & kindergartners, 3322

non vs. moderate vs. intense maternal involvement in compensatory oreschool program, impact on mothers & children, 4 yr. olds, 1 yr. follow-up, 12051

parental attitudes & preschool experiences, intellectual develop-ment, disadvantaged children, 11865

physiological & cognitive & social & emotional variables related to culture & maternal behavior, early childhood education, 8001 Piaget's views of cognitive development, early cognitive intervention

programs effectiveness, disadvantaged urban children, 7547 planned Bilingual Early Childhood Educational Program vs.
Parental Involvement Program & traditional day-care center,
Spanish-speaking preschool children, criticism of S. Nedler & P. Sebara's study, 5405

preschool remedial educational programs, social disadvantagement, New Zealand Maori & Pakeha children, 7843

unstimulating preschool environment, development & implementa-tion & evaluation of affective approach for combating intellectual

losses, mothers of disadvantaged preschoolers, 3231

Presentle Dementia (See also Alzheimers Disease, Picks Disease) coding of acoustically & semantically similar words, short-term

memory, presenile dementia patients, 1023 dementia & deterioration, theoretical considerations for clinical psychiatrists & psychopathologists, 2608

sentence production, 10 19 yr. old normals vs. Parkinsonians vs. patients with left vs. right hemisphere brain lesions vs. patients with dementia, 7171

Presentation Methods (See Stimulus Presentation Methods) Presentation Modes (See Stimulus Presentation Methods)

Pressoreceptors (See Baroreceptors)

Pressors (Drugs) (See Vasoconstrictor Drugs)

Pressure (Barometric) (See Atmospheric Conditions)

Pressure (Blood) (See Blood Pressure)

Pressure (Diastolic) (See Diastolic Pressure) Pressure (Systolic) (See Systolic Pressure)

Pressure Sensation

contralateral masking stimulation, pressure adaptation, college students, 10309

movement & pressure & pain & light & sound responsiveness & mother communication of emotions & fetal hunger & conditioning, prenatal development, 8832

toe vs. finger touch-pressure sensation threshold, younger vs. older females vs. males, 5832

Pretesting

Prevention/

primary & secondary prevention & rehabilitation, Department of Social Psychiatry, Lanus, Argentina, 11677

school psychologist & medical officer cooperation, early detection & treatment of handicapping defects, 9626

storefront drug information center & cooperative intervention & client outreach, 5239

survey of methods & techniques, operation of national suicide & crisis prevention services, 5016

Preventive Medicine

community model, group practice of psychology, 11651 event- & health-control beliefs & disease perceptions & healthrelated practices, nonacademic university staff, 2661

mental health services, need for integration into total family health care, 5234

new developments & role of music therapists, comprehensive health planning, 7569 **Pride** 

members exertion & competence, amount of pride & shame given to a group & self, 2391 sex of S & of audience & audience expertise, face-saving, high

school students, 760

amount & importance of activities & position, perception of work climate dimensions, Roman Catholic diocesan priests, 10175

career mobility & organizational type, tenure & identification, Roman Catholic priests vs. professionals in research & development laboratories, 5629

passive-receptiveness & dependency, Roman Catholic priests vs. Portestant clergymen, 9177

presence of parish nonprofessional or parish lay counselors with priest-counselors, concreteness in pastoral counseling, pastoral counseling team, 5181

**Primary Mental Health Prevention** 

efficient information-gathering & self-report techniques & mental health technicians & objective data combinations, decision-

making in mental health services, 2929 family life education program, maintenance & strengthening of mental health, 3036

mental health delivery systems, professional roles & funding & paraprofessionals & community control & decentralization & primary prevention, 5185

mental health maintenance, elderly, 7385

Personality Research Form & Strong Vocational Interest Blank & a semantic differential of role related attitudes & Situational Response Test & Empathy Scale & Marlowe-Crowne Social Desirability Scale scores, adult women child aides in preventive mental health program vs. matched controls, 2550

planning preventive services, recidivism & postdelivery school withdrawal, followup study, 7427 preventive mental health program, cognitive interpersonal problem-

solving skills & adjustment, disadvantaged 4 yr. olds, 3315

primary & secondary & tertiary prevention, organization & management of community mental health services, 9523 primary & secondary prevention & rehabilitation, Department of Social Psychiatry, Lanus, Argentina, 11677

primary mental health prevention, schoolchildren, 7353

promotion of social competence as aspect of prevention program, demand & delivery of mental health services, 7607

School Interest Inventory, identification of potential delinquents & use for preventive purposes, female & male delinquents vs. nondelinquents, 4975

social conditions, primary prevention of mental illness, 3068 storefront drug information center & cooperative intervention & client outreach, 5239

therapeutic models correlating genetic & intrauterine & environmental & interactive factors, prevention in psychiatry, 5198 Primary Reinforcemen

equal & concurrent variable-interval schedules vs. tandem schedules ending in primary reinforcement, choice, pigeons, 545

external control social vs. primary reinforcement vs. autonomous instructions, exploratory task performance, 5 6 yr. olds, 4104 mixed vs. multiple schedules of primary reinforcement, conditioned

reinforcement, pigeons, 2004

negative discriminative stimulus as primary reinforcer, observing behavior, pigeons, 493

primary reinforcement, response to experimenter, socially withdrawn chronic schizophrenics, 4781

rewarding electrical brain stimulation as primary reinforcer, conditioned secondary reinforcement, rats, 3859

Primary School Students

adult model offering contingent praise, acquisition & generalization of question-asking behavior, disadvantaged Mexican-American 2nd graders, 5587

class placement & age level, attitudes toward school related concepts & achievement test performance, primary & elementary & intermediate school age educationally handicapped children, 11959

coeducational vs. homogeneous sex-groups, classroom behavior & achievement & interaction, 1st graders, 3289

developmental problem identification & curriculum development & effectiveness evaluation, deficit centered classroom training, developmental deficit, 1st graders, 1359

nonstandard language, reading test scores, black 2nd graders, 3202 play vs. discussion groups, sociometric scores by peers, 1st 3rd graders, 11997

teacher attention, digit reversal behavior, 8 yr. old child, 1302 teacher ratings of classroom behavior & Devereux Elementary School Behavior Rating Scale scores, French & American primary school students, 3330 timing with portable, wireless clock-switch, increased classroom

attending behavior, 1st grade students, 1386 trigram letter position reversals, matching discriminations, 1st grade

beginning readers, 4244

Primary Schools (See Elementary Schools)

Primates (Nonhuman) (See also Baboons, Chimpanzees, Gorillas, Monkeys)

field & laboratory research developments, primate behavior, book, 6422

field observations in different forest habitats, general abundance & population densities, Malaysian primates, 554

labor duration & licking of neonate, great apes & man vs. nonprimate mammals, 311 parturition & related behavior, primates, 6355

prefrontal system size, delayed alternation, hedgehog & tree shrew & bush baby, 8543

social attachment behaviors, impact on mother's socialization, primate & human mother-infant interactions, 11118

transition from trial & error to insight method of problem solving as measure of intelligence, apes vs. half-apes, 4009

diphenylhydantoin & phenobarbital & primidone, seizure frequency & control, 14 73 yr. old epileptics, 9791

Printed Communications Media (See also Books, Magazines,

Newspapers)

multidimensional scaling analysis of printed media's explanation of race riots, structure of laymen's perception of social causality, college students, 4339

verbal communication with student canvassers vs. written communication, attitude change & petition signing, 8955

Printing (Handwriting) Prismatic Stimulation

alternation training techniques with tone as CS, conditioned adaptation to prismatic displacement, undergraduates, 3591 generalization of adaptation to visual space prismatic deviation, visuomotor coordinations reorganization analysis, 5845 population density & food dispersion, development of prism-

induced aftereffects, newly hatched chicks, 2037

# Prison Personnel

graduate students as therapists in group & individual therapy, clients' attendance at voluntary meetings & correctional officers' attitude change, state prison inmates, 2960

modified Morris' Ways to Live Scale, value preferences, adult vs. youthful male felons vs. female offenders vs. youthful male misdemeanants vs. public drunkenness offenders vs. correctional officers vs. technical institute students, 4822

observation of TV screens showing little movement, visual monitoring & alarm pressing RT, office workers & prison officers, 5686

& comfort, correctional officers in women's prison, 7015

treatment-oriented institution, immate & staff perceptions of treatment impact, aggressive juvenile delinquents, 11594

Prisoners (See also Prisoners Of War)

aftercare project for occupational rehabilitation, ex-prisoners, 11618 assaultiveness & race, personal space, assault-prone male adolescent prisoners, 2678

background & mental status, suicidal attempts in jail, 11332

behavior & personal characteristics & personality test scores, tattooed vs. nontattooed prison inmates, 11400

cautious & risky problems in choice-dilemma paradigm & predictions of others' choices, undergraduates vs. addict prisoners, 9081

choice of target behaviors, success of token economy rehabilitation program, correctional institution inmates, 7426

Community Adaptation Schedule vs. MMPI, Community Adaptation Schedule validity, Federal prison for youthful offenders prisoners & vocational-technical school male nonprisoners, 2573

conception of group norms & nature of behavior tested & nature of group conformity to norms, high school & college students & male & female prisoners, 753

construction & validity & reliability, semantic differential for inmate concerns, inmates & college students, 8197

criminal punishment, attitudes toward legal institutions & selfesteem & commitment to inmate subculture, prisoners, 9378

cross-validation, heroin addiction scale from MMPI self-report, prisoner addicts vs. male alcoholics, 1056

drug- vs. nondrug-anticipation, multiple drug use, college student vs.

prisoner vs. ghetto black marihuana smokers, 8927 extroversion & neuroticism scores, noninstitutionalized & highly neurotic prisoners vs. normal Ss, disconfirmatory evidence of Eysenck's theory of criminality, 7095

facilitation training, interpersonal communication, Negro & Caucasian prisoners, 11719

graduate students as therapists in group & individual therapy, clients' attendance at voluntary meetings & correctional officers' attitude change, state prison inmates, 2960

group psychotherapy, correctional institution inmates with personality & character disorders, 7501

inmate rights & prison reform, Sweden & Denmark, 11801

institutional career phase & inmate affiliation & therapist & treatment exposure & outside social & economic system perception, rehabilitation, hospitalized narcotic addicts, 7665

institutionalization, self-esteem, federal narcotic hospital inmates, 5237

knowledge of after-care services, prisoners 3 12 days before discharge, 2688

lengthy death row confinement, adjustment & projection & health complaints & adoption of antisocial life style & ego strength, inmates, 4689

local customs & geographic areas & guardianship & child custody & social & legalistic problems & delinquency, children of prisoners,

locus of control, stress reactions to predictable & unpredictable aversive events, inmate volunteers, 11385

material vs. verbal rewards, aptitude test scores, white vs. black

prison inmates, 11510
MMPI & 16PF diagnostic utility, homosexuality, homosexual & heterosexual prison inmates, 4979

MMPI profiles, male prison inmates & psychiatric patients with XXY & XYY sex chromosome complements, 11477

modified Morris' Ways to Live Scale, value preferences, adult vs. youthful male felons vs. female offenders vs. youthful male misdemeanants vs. public drunkenness offenders vs. correctional officers vs. technical institute students, 4822

need for new research paradigm & inmate-related decisions guidelines, correctional psychology, 2827

predictive value of perceptual reactance, self-image discrepancies, college & graduate students vs. prisoners, 11452

prerelease program to prepare families for reunion, incarcerated men, 9562

prisoner role assumption, understanding criminal behavior, counseling & clinical psychology graduate students, 2725

psychiatric services integrated into Californian correction system, inmates & parolees, 2913

psychological construct verbalization conditions & frequency, psychological construct verbalization conditions & frequency, precurrent & final reaction system connection, prison group therapy participants, 2849 racial differences, perceived interviewer trustworthiness, black vs.

white penitentiary inmates, 7279

reliability & applicability, Self-Esteem Inventory, prison inmates,

religious affiliation & attendance & family size & employment & birth & childhood in large cities, heroin addiction & use, city jail prisoners, 9386

self concept as criminals vs. noncriminals, female offenders in penal community, 4666

self-defense against police corporal punishment, self-mutilation, Peruvian prisoners, 2597

symbolic meaning of drawings & symptoms of protest psychosis," black prisoner in reactive psychotic state, 2585 test-retest reliability, MMPI & Thorndike Dimensions of Tempera-

ment & Occupational Interest Inventory & Allport-Vernon-Lindzey Study of Values & Eysenck Personality Inventory & 16 PF & Otis Quick-Scoring Mental Ability Tests, male inmates,

token economy system, therapeutic milieu & communication & tolerance level & social skills, psychiatric patients in security wards, 3079

47 XYY karyotype, aggressiveness & exaggerated tendencies, prisoners & psychologically abnormal offenders, 980

Prisoners Dilemma Game

act attitude vs. normative belief persuasive messages, cooperative vs. competitive behavioral intentions & Prisoner's Dilemma game behavior, undergraduates, 740

communication presence vs. absence, cooperation & competition in Prisoner's Dilemma game, high vs. medium vs. low trust Ss in dyads, 2337

construction details for laboratory equipment for Prisoner's

Dilemma game using conventional relays, 786 modified Prisoner's Dilemma game, situational vs. personality variables of interpersonal trust, 9113

norms & cohesion as adaptive responses, coping with potential conflict in Prisoners' Dilemma-like situations, college students,

perception of simulated other's strategy, cooperation & reciprocation in Prisoner's Delemma game, college students, 6866

Prisoner's Dilemma game variations, marital interaction, married couples, 8986

response timing & reward source & behavioral processes, choices in Prisoner's Dilemma Game, college students, 9111

sex & initial levels, cooperation in non-zero-sum games vs. Prisoner's Dilemma, undergraduates, 6832

1-trial vs. multitrial vs. no information situational context & parental occupation, cooperative/competitive responses in Prisoner's Dilemma game, bureaucratic vs. entrepreneurial college students, 11112

100% cooperative vs. 100% competitive vs. 50% random cooperative conditions & attributed power, Prisoner's Dilemma game behavior, male vs. female college students, 2350

Prisoners Of War

psychiatric evaluations 48-72 hr. after release vs. psychiatric evaluations of World War II & Korean conflict prisoners of war, psychosocial readjustment, surviving members of U.S.S. Pueblo, 2746

custodially-oriented prisons vs. rehabilitation & treatment, social interaction in prisons, 11604

inmate rights & prison reform, Sweden & Denmark, 11801

prison conditions, book, 11534

prison environment, psychoneurotic disturbances, 7139

psychiatric services integrated into Californian correction system, inmates & parolees, 2913 psychiatric techniques, use in humanizing prison systems & rehabilitating criminals, 7612

punitive-custodial vs. treatment-educational prison organizational structure, communication system within prison organizations, 3374

social class & imprisonment & psychological background & sex, prison psychoses, state hospital patients in India, 2692

staff training group focusing on work problems, empathy & insight & comfort, correctional officers in women's prison, 7015 supervised work outside of prison, resocialization, 18 23 yr. old inmates, 9617

# **Private School Education**

adjective pairs chosen from Osgood-Suci-Tannenbaum pool with Catholic School as cognitive object to be judged on 7-point scale, parental attitudes toward Catholic education, parents in East & Midwest dioceses, 3278

extrinsic vs. intrinsic factors, job satisfaction & dissatisfaction, private liberal arts college faculty, 12017

### **Privileged Communication**

confidentiality principle, school drug education discussion group, teachers & students, 5451

Illinois confidentiality statute 1971 amendment, patient-psychiatrist privileged communication, 7365

legal & privacy invasion concerns, public school personality & ability testing, 5546

self-directed independent learning kit, ethical practices of confiden-tiality in counselor education, 9246

#### Proactive Inhibition

behavioral contrast during successive discrimination training, inhibitory stimulus control development, pigeons, 8718

changes in subdimensions of broad dimension of sense impression, release from proactive inhibition, college students, 8488 cognitive similarity, proactive & retroactive interference in short-

term memory, college students, 3655

decay of acoustic proactive facilitation in short-term memory, college students, 5941

EEG & nervous system strength, performance of monotonous work,

EEG measures of typological nervous system properties, retro- & proactive interference in short-term memory, college students, 265 mediator priming & inhibition, discrimination transfer & free recall, kindergartners & 3rd graders, 8813

proactive inhibition, postdiscrimination generalization gradient, pigeons, 8712

proactive interference, short-term recognition & recall memory, 8445

rare vs. common words & interference during storage vs.

interference during testing, recognition memory, 3717
retroactive & proactive multiple list interference, list relearning, preschool children in Head Start program, 1381
same word & color vs. word named different color vs. neutral word

vs. nonword, response competition vs. encoding interference in

color-naming, 8402 Probability (See also Binomial Distribution, Response Probability, Statistical Probability)

bookbag-and-pokerchips" situation, conservatism & sequential effects & coherence, 220

all-or-none RT theories, stimulus factor & response bias & biscalability of error matrices, 1514

blue & 7 as choices between any color & number from 0 9, elementary & junior high school students, investigation of W. Simon's blue seven phenomenon", 4229

conditional probability of stimulus occurrence, components of RT

in variable foreperiod experiment, female students, 167 heuristic & Bayesian mathematical models differing in algebraic forms & subjective probability judgement types, job choice prediction, experienced teachers & inexperienced college graduates seeking public school employment, 34

heuristic device of representativeness vs. sample size, study of subjective probabilities & uncertainty, 3699

initial training level & changes in training, transfer from specific to nonspecific environment, factor analysis & probability forecasting of athletic abilities, 1757

internal skill-based vs. external environment-based events, directvs. choice-based subjective probability, college students, 3695

logarithmic vs. quadratic vs. spherical payoff function, admissable probability measurement & confidence responses, military Ss, 8459

minimal preferences on lotteries, criticism of J. von Neumann & O. Morgenstern's preference axioms using convex linear combina-tions of probability distributions, 202 mutually exclusive events union vs. nonexclusive events union vs. independent events intersection vs. nonindependent events intersection, conformance of personal probabilities to probability theory, male undergraduates, 22

nonaging foreperiod & momentary objective probability of stimulus delivery, RTs, 24 36 yr, old students, 140

normal curve method, combining probability values from independent experiments, 1511

number of friendship relations between hypothetical persons, subjective probabilities of perceived friendship, 11059 observing behavior, uncertainty reduction, pigeons, 2016 probabilistic models, experimental psychological testing situations,

probabilistic shock schedules, acquisition & asymptotic responding & extinction of avoidance response, rats, 6406

probability in research, psychologists, 10267 probability preferences, 22-40 yr. old gamblers vs. nongamblers,

random walk models, psychological & sociological data, 3508 subjective probability estimates for elementary & complex events, conformity to probability theory, male college students, 1671

subjective probability model of cognitive organization, Socratic effect," college students, 8452

transition probability & word frequency, anagram solving, college students, 10428

# **Probability Learning**

age, probability learning & prediction tasks, old vs. young Ss, 4216 asymptotic distributions of response probabilities to 2-choice learning situation of R. J. Audley & A. R. Jonckheere's model, 65 Brunswik's lens model with indication of direction of resultant

vectors as feedback, multiple cue probability learning in vector composition task, college students, 251

constraint redundancy, attribute- & rule-learning in sequential pattern recognition, college students, 10414

correct responses & response reinforcement frequency feedback,

probability learning, 5975
different sets of feedback value & instructions for cue probability learning tasks, accuracy generality in interpersonal learning, judges & cohorts, 2387

event schedules & values & state vs. trial instructions, ability to discriminate acquisition from extinction in probability learning task & partial reinforcement effect college students, 1744

noncontingent feedback vs. monetary incentive for accuracy & event schedules, discrimination of acquisition vs. extinction phases of probability learning under state instructions & PRE, 6th graders vs. female college students, 2135

reinforcement schedules, probability learning acquisition & extinction, retardates, 7169

response alternatives & contingent vs. noncontingent informative feedback, choice of high probability alternative, undergraduates,

task predictability & cue consistency, cue utilization on multiple-cue probability learning task, college students, 5938

3-choice probability learning task, problem-solving strategies, reflective vs. impulsive 6 vs. 8 yr. olds, 4082

# Probation

prediction methods, criminology, probationers, book, 11494 psychodrama & group counseling vs. films & audiovisual & group discussion vs. probation &/or parole supervision, frustration tolerance & aggression, noninstitutionalized offenders, 7483

psychotherapy in court clinic setting, probationed exhibitionists,

volunteer probation counselor program, behavioral & personality & psychosocial adjustment, 16-22 yr. old male misdemeanant offenders, 5140

# **Probation Officers**

measuring attitude towards treatment & punishment of offenders, probation & parole officers, 2721

mental health clinic consultative services, probation officers, 4973 probation officer training program, volunteer probation supervisors, 4586

# **Problem Drinking**

11656

abstinence tradition & rural environment, problem vs. nonproblem vs. no drinking, high school students, 8923 alcoholism or drinking problems & hostile attitudes, discipline problems, institutionalized older veterans, 9277 behavior modification techniques, rehabilitating drinking drivers,

childhood characteristics & personality traits & current drinking patterns, ex-problem drinkers, 7200

intercorrelations among dropout & alcohol problems & jail & heroin use & divorce, actuarial evaluation of causes & consequences of deviant behavior, young black men, 7274

personality & attitudinal & biographical characteristics of drinking drivers, traffic accidents & violations, 3434

Problem Solving (See also Anagram Problem Solving, Group Problem Solving)

vs. "operational" models, 3-term series "linguistic" vs. "image" problem solving, 5996

affirmative vs. negative & conjunctive vs. disjunctive problems & presentation mode, matrix representation in deductive problem solving, college students, 8462

age & availability of instances & relationship with memory & attentional factors, inferential capacity on 2-trial identification problems, 49 yr. olds, 10416

algorithmic vs. heuristic methods, intellectual problem solving, 3763 anxiety, problem solving performance, 4th graders, 12099

associative & mediational & hypothesis testing & information processing theories, human cognitive processes, 1965 1970 review, 193

associative & perseverative tendencies, verbal thinking in problem solving, 19 63 yr. old frontal lobe brain-lesioned patients, 4664

cognitive abilities & number & quality of questions, questioning strategies in puzzle solving, 8 10 yr. olds, 6595

creativity & original thinking, decision-making & problem solving, power-dispatching engineers, 194

cue properties & ambiguous-cue experience, 2-choice discrimination problem with plaque stimuli composed of rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 3993

developmental history & social parameters of ladder invention & use, feral-born chimpanzees in captivity, 527

digit span test performance, information processing & problem solving on mental addition task, high school students, 10393

divergent-solutions arithmetic teaching method, creative thinking & logical problem solving, 1st 4th graders, 5436 EEG alpha & beta activity, automatization & vigilance & arithmetic

performance, university students, 6096 frame assembly task solution time & performance, 7 yr. old female

chimpanzee vs. 2 yr. old girl, 1986 human relations laboratory training, creative problem-solving competence, 9th graders, 11106

hypotheses & strategies & stereotypes discrimination learning problems, kindergartners & 2nd & 4th & 6th graders & undergraduates, 2114

hypothesis formation & elaboration & testing against available information displays, problem solving, power plant operators,

identification in variously oriented broken circles, number & character of errors, 10361

individual differences & problem-solving ability, thought & imagery vividness & controllability, 6065

individual vs. group brainstorming, problem solving creativity, 4th graders, 11050

individuals' initial ability level, individual vs. tetradic complementary task performance, college students, 6826

information processing & analyses & theory, human problem solving, book, 10478 information theory, application to problem-solving, review of C.

Shannon's contributions, 8357

integrative complexity & nonspecific set, letter-isolation problem solving, female undergraduates, 3734

intellectual ability, nonverbal problem solving, college students,

intellectual processes, grasping principles through generalization of elements-stimuli relationships, 5th graders & adults, 6480

interest areas, willingness to participate in content areas & levels of complexity or ambiguity of problem-solving situations, teachers' college students, 1683

language characteristics while engaged in problem tasks, disadvan-taged vs. nondisadvantaged children, 8811

learning by problem solving vs. insight vs. memorization, learning time & retention & transfer, 6025

magnitude & temporal order congruency, 3-term series problem solving, blind vs. sighted 7 9 yr. olds, 7248

means-ends story completion technique, problem-solving thinking, psychiatric patients, 2714

mechanical problem solving task, hypothesis formation & heuristic techniques, college students & 9th graders, 213

mental models, diagnostic process in problem solving, power plant operators, 10136

multiple cue use & cue validity, Brunswik lens model judgments, 3rd vs. 5th vs. 7th vs. 9th graders, 4186

non-problem-solving vs. problem-solving conditions, eye move-ments, 6th graders & undergraduates, 228

number of pictures & mode of problem representation & numerical differences of disjoint subsets in problem, solution of verbal problems requiring quantitative class inclusion, educable mentally retarded in special education classes, 10095

overt nonsocial speech & task complexity & strategy, problem-solving ability, 4 yr. olds, 4263

personality traits & cognitive processes, solving personal problems,

presentation mode & material type of 4-card problem, formal reasoning, male high school 6th formers, 3713

pretraining, conceptual & problem solving ability, middle vs. lower class 4th graders, 2182

preventive mental health program, cognitive interpersonal problemsolving skills & adjustment, disadvantaged 4 yr. olds, 3315 Problem Box problem solving ability, hearing-impaired children,

7306 Problem Box, nonlanguage multiple-choice problem solving ability, very bright vs. average vs. high grade mentally defective children, 3139

problem formats vs. process characteristics, transfer effects in verbal & nonverbal problem solving tasks, vocational high school

juniors, 5480 problem representation & superior vs. peer receiver & work &

production norm & situation implications, solutions offered to loosely defined problem, 3rd yr. teachers college students, 8453 problem-solving strategies, impulsive vs. reflective 2nd graders,

10463 productive thinking vs. modified wanted-given program, mathemati-cal problem solving & computational skill, 5th graders, 11955

proneness to behavioral stereotypy, problem-solving & decisionmaking behavior, college students, 8394

realistic vs. symbolic materials, deceptive reasoning problem

solving, college students, 5995 reflection-impulsivity evaluation dimension, quality of initial decoding & recall & hypothesis generation, school age children,

reinforcement type & task & grade level & social class & sex, problem solving & motor learning tasks, 1st & 3rd & 5th graders, 7939

resolving problems requiring practical intelligence, strategies & conceptual awareness & strategy, 5 7 & 7 10 & over 10 yr. olds, 6564

response competition, 2-choice object discrimination task with rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 4011

Role of Invisible Magnetism protocol & Inhelder-Piaget method of analysis of truth functional logic in solving problems, formal operational thinking, 581

self-actualization construct & Styles of Living Preference Scale, validity & problem-solving & social situations evidence, college students & faculty & civil service workers, 9196

semantic familiarity & information load, arithmetical verbal problem solving performance, educable mentally retarded children in special classes, 9848

sex & race & socioeconomic status, conversation participation & verbal interaction & encoding style in problem solving communication, adult vs. children dyads, 6809

simulation of human creative problem solving using analogies, description of computer program, 5614

single-vs. multiple-problem vs. no training, novel problem-solving learning, 2nd & 3rd graders, 6491

soliloquy & task difficulty & age, problem solving, 5-10 yr. olds, 6462

specified-operation equation vs. equivalent symmetric form, open addition & subtraction sentence problem solving ability, 1st 3rd graders, 12113

training in divergent & convergent thinking & intelligence & creativity, problem solving, 14 15 yr. olds, 9842

training in production &/or judgment of solutions, creative thinking improvement, college students, 7996

training in taking responsibility for failure & expectations & attribution of failure, alleviation of learned helplessness in problem solving, 8 12 yr. olds, 7783 transition from trial & error to insight method of problem solving as

measure of intelligence, apes vs. half-apes, 4009

Twenty Questions game, problem-solving strategies, reflective & impulsive & fast-accurate & slow-inaccurate 1st & 3rd & 5th graders, 10803

use of whether & which & why questions, classification of problemsolving situations, 6071

verbal ability & tentative statements use, Piagetian & language-free problem solving task performance, 6th grade boys, 4146 vertical sinusoidal vibration, arithmetic problem solving perform-

ance with immediate memory tasks, jet pilots, 8085 videotape training vs. practice & individual vs. group brainstorming,

generation of ideas, 9028 videotapes of same- vs. different-race stimulus persons involved in problem-solving task, attribution of motivation, Caucasian vs. Negro male college students, 2316

working in presence of others vs. working in separate rooms vs. working alone, mental & mechanical task performance, 15 18 yr.

2-dimensional model, analysis of dimensions of social interaction in standard problem-solving task, married couples, 11078

2-dimensional probabilistic images, eye movements as indicators of

perception & cognitive analysis in problem solving, 5937
3-choice probability learning task, problem-solving strategies, reflective vs. impulsive 6 vs. 8 yr. olds, 4082

Procaine (See Novocaine)

**Process Psychosis** 

Process Schizophrenia (See Process Psychosis, Schizophrenia) Processes (Associative) (See Associative Processes)

Processes (Cognitive) (See Cognitive Processes)

Processes (Motor) (See Motor Processes) Processes (Political) (See Political Processes)

Processes (Social) (See Social Processes)

Prochlorperazine

Productivity (Employee) (See Employee Productivity)
Professional Certification

mental health counselor program & therapist training value & acceptance, mature women, 10 yr. follow-up study, 9263

systematic approach, oral board examinations, psychiatric residents,

Professional Communication (See Scientific Communication)
Professional Consultation (See also Mental Health Consultation)

continual seeking of professional evaluation, parents of retardates,

diagnostic & therapeutic shopping behavior as learned response to unsatisfactory contacts with professionals, parents of retardates,

group meetings of staff members, hospital liaison psychiatric service, 4563

resistance & over- or under-involvement & professional narcissism, school mental health consultation, child guidance clinicians, 3107 school psychologist & medical officer cooperation, early detection & treatment of handicapping defects, 9626

therapeutic consultation, target complaints & overall improvement & further therapy need, clients of social worker therapists, 2968

**Professional Contribution** 

achievement & affiliation motivation, ego identity, white male college students, support for Erikson's theory, 2442

acoustic similarity & interference, short-term recognition memory, 10439

acquiescent response style in personality assessment, revision of P. M. Bentler & D. N. Jackson & S. Messick's hypothesis, 871

age differences, visual RT procedure with regular & irregular preparatory interval conditions, 6 13 yr. old normal & braindamaged children, support for C. Czudner & P. Rourke's theory,

alphabetic & word letter strings, verbal control over visual image sequencing, college students, examination of R. J. Weber & J. Castleman's conjecture, 8487

amplitude & phase of cancellation tone adjustment, nonlinear distortion products, support for J. Goldstein's model for distortion product generation, 109

asymptotic distributions of response probabilities to 2-choice learning situation of R. J. Audley & A. R. Jonckheere's model, 65

attention & short-term memory, prediction in alternating or repeating sequences, nursery school & kindergarten children, test of R. Bogartz's theory, 10444

attitude change, undergraduates, use of J. Bem's interpersonal replication method to study J. Cooper & S. Worchel's findings,

attractiveness, judging criminal behavior in terms of favorability of impression & similarity & identification & trust, college students, examination of D. Landy & E. Aronson study, 2373

block designs & repeated measures, analysis of component variance, extension of P. Ender & S. Pinneau's method, 3511

blue & 7 as choices between any color & number from 0 9, elementary & junior high school students, investigation of W.

Simon's blue seven phenomenon", 4229

CA & MA & IQ, Mueller-Lyer illusion judgments, 6 9 yr. olds, replication & extension of R. Pollack's developmental study, 4134 catch trial type, auditory RT, variable criterion model reanalysis of

data from D. LaBerge's experiment, 1594
changing illumination, brightness changes in complex field,
reexamination of D. Jameson & L. M. Hurvich's study of brightness constancy, 3608

cluster analyses of SVIB & Minnesota Vocational Interest Inventory & Kuder DD Occupational Interest Survey, verification of J. L. Holland's occupational taxonomy, 8117

clustering indexes, similarity between Frankel-Cole & Hudson-Dunn versions, 8221

comments on R. Boshier's rotation of factor matrices of Conservatism Scale, New Zealand, 8236

conscientization & critical consciousness development, adult education, comments on P. Freire's educational theories, 9986

contradictory evidence, Rorschach M vs. creativity & sex, statement by M. Raychaudhuri on his findings, 2440 covert sensitization, homosexuality, 22 yr. old male, contribution to

J. Cautela's technique, 5206

determination of test length, simple formula for optimal disperson of item p-values, J. Loevinger's phi/phimax & H of test as basis,

differentiation among liked & disliked persons, person perception, reexamination of H. Miller & J. Bieri's vigilance hypothesis, 4448 discrepancy & issue involvement, opinion change, L. Festinger's cognitive dissonance theory vs. C. I. Hovland & O. J. Harvey & M. Sherif's assimilation-contrast theory, 654

extinction, aggression intensity for avoidance or escape from aversive tone, college students, extension of J. Kelly & D. Hake's research, 10435

factor analysis, Hamilton Rating Scale for depression, depressed patients, analysis of M. Hamilton's work, 11449

factor-analytic synthesis of personality theories in C. Hall & G. Lindzey's revised comparison table, partial replication of A.

Schuh's findings, 2458 group vs. individual gambling, strategy differences, college students, use of P. Slovic & S. Lichtenstein's duplex bet paradigm, 11101

healthy vs. sick presenter effects, negative vs. positive vs. neutral feedback & subsequent performance level, schizophrenics, discussion of A. Fontana & E. Klein & E. Lewis & L. Levine's

Herbert Spencer lectures, biology & human sciences, book, 10578 heredity & environmental factors, nosology of bipolar manic depressive vs. unipolar recurrent depressive psychoses, comparison of J. A. Angst & C. Perris's results, 7069

heritability & genetical & environmental & interactive variations, minimal qualitative & quantitative requirements for IQ differences between race & social class, analysis of S. Scarr-Salapatek's extension of J. L. Jinks & D. W. Fuller & L. J. Eaves's studies,

hierarchical clustering algorithms for partitioning object set into optimally homogenous groups, extension of S.C. Johnson, 1523

high vs. low conflict & unknown vs. known decision consequences, free choice behavior, college students, application of D. Bem's self-perception hypothesis & interpersonal simulation technique to J. Jecker's conflict experiment, 6878

to J. Jecker's conflict experiment, 68/8
high-speed memory scanning, recognition memory performance,
college students, use of S. Sternberg's task, 8469
hospitalization length & withdrawal & affective flattening & grid
scores & age, psychological construing, schizophrenics, use of D.
Bannister & F. Fransella's grid scores, 11513
illusory correlates, subjective homosexuality judgments, college
students, extension of L. Chapman & J. Chapman's findings, 8925

improvisation & role-taking skill, role playing induced attitude change, college students, use of A. Elms's & E. Lee-Teng's & T. Sarbin & D. Jones's & V. Cline's measure of predictive accuracy,

including any number vs. as many vs. as few as possible objects, object sorting, use of R. Gardner's form, 3710

information processing, 4th graders, extension of Jensen's dual-process intelligence theory applicability, 8389

information theory, application to problem-solving, review of C. Shannon's contributions, 8357

instructions for use & predictive validity data & interrater reliability, rating work performance, psychiatric patients, contributions to A. Cheadle & D. Cushing & C. Drew & R. Morgan's previous version, 1109

interpersonal risk, disrupting ongoing cooperation, cross-cultural & procedural generalization, replication of G. Marwell & D. Schmitt & R. Shotola's study, 11099

interval-scale classification system for 2 2 games, extension of R. Harris' system, 765

job satisfaction measurement, 20 35 yr. old lower management or staff specialists, empirical evidence for M. G. Evans's conceptual framework, 8062

lack of meaningful interchange, philosophical analysis & psychology, examination of Freeman's paper, 3482

latitude of rejection as indicator of involvement, comment of O. Markley's procedures for attitude research, 8982

leader position power manipulation, leadership situational engineering, male college students, test of E. Fiedler's suggestion of leadership situation, 1456

leadership training, organizational performance, support of F. Fiedler's contingency model, officers & enlisted personnel, 12138 learning equations of S. Grossberg, comment on M. Arbib's

theorem, 1529

learning paradigms in anticipatory avoidance technique, secondary homosexuality, comment on controversy between MacDonough & Feldman, 9787

likeness vs. completeness theory, real & perceived personality similarities, spouses, discussion of R. Cattell & J. Nesselroade's hypotheses examination, 4379

logarithm of ratio of amplitude & accuracy, relation between amplitude & accuracy & duration of hand movements, support for P. M. Fitts's original equation, 5812

low negative correlations between positive & negative halves of conservatism scales, G. Wilson & J. Patterson Conservatism Scale & California F Scale & discussion of F. Kerlinger's theory, 8240

marihuana, clinically induced psychological & neurological effects, 13-24 yr. olds, support of H. Kolansky & W. Moore's study, 10648

mental operator as task-independent mental capacity construct, validation on number ordering task, 5 10 yr. olds, contribution to J. Pascual-Leone's study, 4103

methodological criticism of semantic differential studies, establishing structure for concepts class, examination of T. Reed's study,

Mf indices vs. pretherapy MMPI profile, disturbed marital interaction, couples, replication of D. Osborne's hypothesis, 9702 motoric & ideational & sensory expressive styles, further validation

of K. Stein & P. Lenrow's types, 4540

multidimensional scaling method for judgment of similarities, distance model conceptualization, rationale for interpretation of L. Stone & G. Coles's paradigm, 3529

multiple-cue learning with redundant relevant cues, extended version of D. Zeaman & B. J. House's 1-look model of selective attention, 242

multivariate analysis of sums & absolute differences, generality of genotype environment interaction for behavioral traits, separated identical twins, analysis of motor skill data from S. G. Vandenburg's Michigan Twin Study, 279

nature of transconsonantal vowel, terminal formant frequency transition values, college students, exploration of S. Ohman's findings on perceptual correlates, 11167

need for & difficulties with sex education in special education, mentally handicapped children, agreement with & extension of S. Gordon's viewpoint, 5315

negative estimations for emotional word pairs, replication & reanalysis of G. Ekman's multidimensional scaling model for positive similarities, 3712

open adaptive style, paranoid behavior, late-adolescent males, discussion of A. Heilbrun's developmental model for paranoid behavior, 2125

origins of Postural Sway test, discussion by A. M. Weitzenhoffer,

overinclusive thinking & clinical assessment, concept identification, schizophrenic & nonschizophrenic psychiatric patients, use of R. Payne's & D. Friedlander's test battery, 11393

parental attitudes, occupational interests, postgraduate students, examination of A. Roe's hypothesis, 5293

part-whole list transfer, free recall, college students, replication of E. Tulving's work, 8400

partial correlations misuse in hypothesis-testing research, contrib-ution to M. Brewer & D. Campbell & W. Crano's article, 28

partial recognition & signal detectability & 2 "loss of items" models, peripheral visual information storage, modification of G. Sperling's paradigm applied to audition, 248

pattern masking of unfamiliar & nameless shapes, short-term visual memory, college students, alternative to G. Sperling's model,

persistent disturbance vs. spontaneous improvement, behavior disordered children, longitudinal study using E. M. Bower's screening device, 9909

personal letters concerning psychoanalysis, J. J. Putnam, book, 10209

pluralistic approach, teaching psychiatry, agreement with L. Haven's statements, 11309

privileged vs. deprived status & introversion-extroversion, cheating, 10 yr. old boys, extension of G. M. Stephenson & J. H. White's study, 8870

projected brain illusion, discussion of F. du Mas & M. du Mas's article, 5831

projected brain illusion, similarity to H. Helmholtz's account of entoptical viewing of retinal vessels & comparison of H. Helmholtz's & F. M. Du Mas & M. E. Du Mas's methods &

psychometric vs. subjective evaluation, diagnosis of mental retardation, contribution to J. Clausen's article, 4800

Psychopathic & Neurotic factors of Case History & Behavior Rating Scale, guilt & maladjustment, delinquent adolescents, evaluation of H. Quay's personality tests, 4847
Reinforcement Survey Schedule of J. Cautela & R. Kastenbaum,

discussion of evaluations & extensions, 1471

relational organization & physical distance, recall of picture paired associates, college students, support for W. Epstein & I. Rock & C. Zuckerman's findings, 10396

reliability for British use of image-evoking value ratings of words, British & Canadian students, contributions to A. Paivio & J. Yuille & S. Madigan's word lists, 1734

repeated exposure to small chamber, activity & defectation decreases & heart rate increases during habituation sessions, rats, application of P. Groves & R. Thompson's dual-process theory of habituation, 302

residence background & value orientation, socioeconomic status & fertility preferences, verification of Goldberg's contention, 668 response frequency equalization vs. adaptation level theory of

constant stimuli method bias, recalculation of A. Erlebacher & R. Sekuler's data, 3526

response set variability, judgments in self-descriptive statements, 13 16 yr. olds, reference to S. Messick & T. Herrman's ideas, 11233 reversals of cue reward assignments on alternate errors, concept

identification, kindergartners & 1st & 5th graders, application of G. Bower & T. Trabasso's test for noncontinuity processes, 2195 rhythmic vs. serial structure, speech perception & production, support for K. Lashley's theory, 5868

rigidity, retarded, reexamination of K. Lewin & J. Kounin's hypothesis, 11517

risk-as-value, risky shift, interpretations of R. Brown's hypothesis,

rotation speed & field brightness & sweep speed & spatial separation of visual display, visual persistence for apparent movement, extension of R. N. Haber & L. G. Standing's direct measure of visual persistence, 1579

semantic shifts & intertrial interval, short-term memory recognition vs. recall, undergraduates, test of Brown-Peterson paradigm, 3685 serial position curve, distinction between short- & long-term memory, elaboration of M. M. Gruneberg's argument, 3690 sex education in special education, mentally handicapped children,

response to & agreement with S. Gordon's discussion, 5365

signal-reinforcement effect for modifiable shocks, interpretation of preference-for-signalled shock phenomenon, rats, contribution to G. Biederman & J. Furedy, 4016

similar vs. dissimilar nonreactive fellow bystander, intervention to help, study of L. A. Festinger's social comparison theory, 1764

size vs. brightness vs. size-brightness redundant vs. size-brightness nonredundant stimuli, information gain rate & RT, undergraduate & highly trained graduate students, W. E. Hick's paradigm extended to M. E. Doherty's absolute judgment task, 1718

social desirability & purpose in life, personal fear of death, female residents from retirement & nursing homes, 10958

social evaluation of personality traits & analysis of similarity relationships, correlation with N. Anderson's concepts study, 9014

social vs. medical aspects, definitions of mental retardation, agreement with J. Clausen's view, 4812

socioeconomic status, socialization, white middle-class 4 5 yr. olds in nursery school, replication & extension of H. Richards & B. McCandless's study, 11013

statistical association measures, discussion of G. Glass & R. Hakstian's argument against indiscriminate use & suggestions for appropriate applications, 1532

storage & hearing concrete & abstract sentences, comprehension,

alternate explanation of I. Begg & A. Paivio's data, 2006 strategy consistencies learning of mathematical structures, 12 18 yr. old girls, extension of Z. P. Dienes & M. A. Jeeves's results, 1270

subjective importance of aspects being rated, body image & self concept, 16-21 yr. old male technical students, extension of G. M. Rosen & A. O. Ross's work, 7008

subjective magnitude estimation vs. objective count method, word frequency, lexicographers & other adults, use of S. Steven's method, 11150

test situation, precognition, mice & jirds, confirmation of W. Levy & A. McRae's study, 2009

theory testing in psychology & physics, discussion of P. Meehl's paradox, 1483

tone intensity & task difficulty, motivation & performance relationship, extension & expansion of Yerkes-Dodson Law,

10430 traditional vs. behavioral college teaching procedures, undergraduates, application of J. M. Johnston & H. S. Pennypacker's procedures for improving teaching technologies, 1260

trait anxiety, intellectual ability for GPA consistent with drive interpretation, college students, discussion of C. Spielberger's findings, 9170

Type IV errors & interactions, extension of L. A. Marascuilo & J. R. Levin's notion, 5774

uncertainty conditions, coalition formation, undergraduates, comparison of T. Caplow's minimum resource theory & coalition expected utility model, 4452

unique information on intellectual or social desirability, trait inference patterns, support for S. Rosenberg & C. Nelson & P. Vivekananthan's hypothesis concerning S. Ach's "warm-cold" effect, 2392

uric acid, behavioral level, reinterpretation of E. Orowan's hypothesis, 1954

variable stimulus encoding, paired associate transfer, college students, support for E. Martin's theory, 10469

variance of Frostig Developmental Test of Visual Perception, reanalysis of B. Chissom & J. Thomas data, 5796

video- vs. audio-recording of counseling interviews vs. nonrecording, counselor vs. client ratings on excitation & inhibition & client evaluation of counseling vs. counselor ratings of self-exploration, college students, extension of C. J. Gelso's previous findings, 1240

viewing bloody vs. nonbloody victim, reaction to a victim in need of help, study of I. Piliavin & J. Rodin & J. A. Piliavin theory of bystander intervention, 2367

visual CS & nonlight stimuli, high response levels under massed practice & avoidance levels, C3H & DBA mice, contribution to J. Wilcock & D. Thiessen's review, 6103

3-cue selection models, multidimensional stimulus classification, alternatives to C. Spiker & W. Croll & A. Miller's analysis, 3646 Professional Criticism

abstraction deficit resulting in concrete concepts, schizophrenics, criticism & reinterpretation of K. Goldstein's hypothesis, 4860

achievement motivation training, executive advancement, methodo-logical defects in J. Aronoff & G. Litevin's article, 8088

acquiescence in personality assessment, shifting definitions, criticisms of P. M. Bentler & D. N. Jackson & S. Messick's rebuttal, 841

adjustment method for retention scores, monkeys, reply to B. Balogh & R. Zimmerman, 6408

anchor weights, response biases in lifted weight judgments, discussion of I. John's study & John's response to criticism, 137
assimilation theory, Poggendorff illusion, college students, criticism
of D. Weintraub & D. Krantz's results, 8321

attention, heart rate, evaluation of J. Lacey & B. Lacey's hypothesis,

behavioral aspects of nitrogen narcosis, review of studies omitted by R. D. Jennings & inaccuracies in his paper, 383
behavioristic psychology principles, criticism by Soviet psycholo-

gists, 8194

causal influences on psychotherapy outcome vs. spontaneous remission, need for control groups in analysis & criticism of conclusions of L. Luborsky, et al, 7442

classroom behavior modification & informal classrooms, rejoinder to R. Winett & R. Winkler's straw-man model, 12027

competitional vs. noncompetitional paired-associates, emotionality & performance, criticism of R. Willoughby's study of F. Spence & I. Farber & H. McFann's procedures, 3647

conditioning treatment, enuresis, critique of Turner & Young & Rochman method, 7545

confidence ratings in paired-associate recall, reanalysis of H. Bernbach's & H. Bernbach & G. Bower's data, 5986

crisis in education, discussion of I. Illich's issues & relationship to his critique of society, 1330

critical review of M. Fishbein's model for prediction of behavioral intention, 11051

undergraduates & nursing students, 7275 Projective Picture Inventory as measure of acceptance of blackness,

black male 4th graders, 4341 sex & ethnic & group differences, drawings, 11 12 yr. old Maori vs. Pakehas, 8984

test of animal affinities, projective personality analysis, 842

Projective Techniques (See also Bender Gestalt Test, Bender Gestalt Test Vis Motor Abil, Blacky Pictures Test, Childrens Apperception Test, Color Pyramid Test, Franck Drawing Completion Test, Holtzman Inkblot Technique, Human Figures Drawing, Incomplete Man Test, Onomatopoeia And Images Test, Projective Personality Measures, Rorschach Test, Rosenzweig Picture Frustration Study, Rotter Incomplete Sentences Blank, Szondi Test, Tell A Story Kit (Taskit), Thematic Apperception

Test, Zulliger Z Test)
anxious vs. playful tension sets, projective set development, high school students, 11236

cultural & sex differences, affiliation & achievement drives expressed in reported dream content & projective technique, unmarried college students, New York City vs. Lima, Peru, 2305 development & validation, projective measure of interpersonal

values, 4306

Goodenough Draw-a-Man Test, efficacy as index of developmental disorders, 4 16 yr. old pediatric outpatients, 4143

inkblots & thematic & completion methods & projective drawings, projective methodologies used in psychodiagnosis, review, 1026 Luscher Color Test & IPAT Anxiety Scale Questionnaire, instinctive

psychological responses to color & anxiety score validity, undergraduates, 1517

norms categorized by age & sex, Ziler's Draw-a-Man-Test & Raven's Coloured Progressive Matrices, 5 7 yr. olds, 3533

Occupational Photo Association Technique eliciting work readiness & general occupational development & vocational interest patterns indicators, cross-cultural vocational counseling facilitation, Eskimos & Aleuts & Indians, 1396

patient literary productions & novels, diagnosis, offenders, 4725

projective use, Bender Gestalt Test, book, 11235

tape-recorded descriptions of normal vs. depressed boy, ratings of projected resistance to strong vs. mild appeals, depressive sychiatric inpatients, 4758 validity of hierarchical measure of cognitive complexity, 8246

**Projective Testing Technique** 

projective personality analysis using animal affinities, sampling affective disposition & aptitudes, 4478

projective questions for children, van Krevelen's test vs. Pigem's

system vs. Kritzberg's test, 878 stimulus availability & test pictures & risk of self-disclosure in analysis-by-synthesis model, cognitive behavior in projective testing, college students, 5763 Projective Tests (See Projective Personality Measures)

diurnal sleep-wake cycle, episodic release of prolactin, males vs. nulliparous females, 6188

ergocornine prolactin release interference, maternal behavior, postpartum female rats, 3935

estradiol & progesterone & prolactin, induction of maternal behavior, nulliparous rats, 6269

prolactin, behavior, male sticklebacks, 1914

Prolixin (See Fluphenazine)

Promazine

tricyclic antidepressants & enactyzine & levomepromazine & chlorprothixene, blocking aggressive-defensive reactions, cats, 10689

Promethazine

Promiscuity (See also Prostitution)

Pronouns

Pronunciation

alcohol ingestion, empathy & 2nd language pronunciation, college students, 6265

early intensive phonics instruction, ability to pronounce synthetic words, 2nd 4th graders, 10084

mean subvocalizing effort scale values of J. Greenberg & J. Jenkins's CCVCs, S effort ratings, Dutch & American deaf 13 18 yr. olds vs. hearing undergraduates, 11427 phonetic pretraining with sound in initial vs. final position vs. no

pretraining, pronunciation of foreign sound & positive positional transference, college students, 5987

pronounceability of letter arrays, verbal report & visual matching latency, graduate & undergraduate students, 5846

pronounced vs. unpronounced words, recognition memory, 1707

problem solving, undergraduates, 5966
verbal & grammatical ability & intelligence & pronunciation acquisition of German, Swedish pupils, 11168

Propaganda

population control & government birth control propaganda, India,

Sykewar propaganda campaign against Nazi Germany & developments since World War II, psychological warfare, book, 2415 World War I propaganda techniques, book, 10986

Propranolel

atropine & propranolol & epinephrine, marihuana induced cardiovascular effects, doctors, 8589

propranolol vs. sotalol vs. placebo, subjective mood self-ratings & EEG & finger tremor & pulse rate & skin conductance & RT & key tapping & card sorting & WAIS Digital Symbol Substitution Test, 19 29 yr. olds, 1895

propranolol, rapid activation of striatal tyrosine hydroxylase & behavioral depression, rats, 1956

**Proprioceptors** 

differential termination of extero- & proprioceptive components of cuneocerebellar tract, mossy fiber inputs & processing skin & muscle information, cats, 280

septal dysfunction, response alteration on basis of proprioceptive cues & negative response magnitude to unpalatable solutions & water intake & overresponse to positively-motivating stimuli, 2623 visual vs. vestibular vs. proprioceptive impulses, upright position

measured by posturometry, human adults, 89
visual x, visual & proprioceptive vs. proprioceptive training, motor learning & RT, college students, 10323

Prose (See also Autobiography, Biography)

prechoice exploration of prose material alternatives, eliciting curiosity & inducing further reading, college students, 3111

Proserine (See Neostigmine)

Prostate

isolation vs. grouping, adrenal & ovarian & hemiuterus & ventral prostate gland weight gain & fighting behavior, hamsters, 358

Prosthee

prosthetic check-out assessment & training, below-elbow amputees, 5207

ethnographic semantics, identification of cognitive discriminations important in perceptions of environment, prostitutes, 6695 male prostitutes serving male clientele, homosexuality vs. heterosex-

uality, 12 17 yr. olds, 9371

perinatal complications, impulsive criminality, 9398
Proteases (See also Proteinases)

Protein Deficiency Disorders (See also Kwashiorkor) early protein deficiency, visual discrimination learning, pigeons, 3771

prenatal protein deprivation, neonatal cerebellar development in vitro, mice, 3849

protein deficiency, social development, rhesus monkeys, 3846 protein deficient diets, manipulatory behavior, rhesus monkeys, 8679

Protein Metabolism

Protein Sensitization (See Anaphylactic Shock)

**Proteinases** 

Proteins (See also Albumins, Antibodies, Blood Proteins, Gamma Globulin, Globulins, Hemoglobin, Immunoglobulins, Serum Albumin, Taraxein)

flashing vs. constant light vs. dark imprinting procedures, regional incorporation of radioactive lysine & uracil into acid-insoluble brain substances, 1 day old chicks, 3767

maternal protein restriction, maze learning & curiosity & activity, rat offspring, 8770

methylmercury poisoning of mother during pregnancy, offspring open field & swimming behavior & brain weight & protein & choline acetyltransferase & cholinesterase, mice, 6323

protein & sensory deprivation during suckling period, growth & exploratory activity, rats, 6255

rotein malnourishment, protein preference, monkeys, 6303

RNA & protein & both brain extracts injections from trained donors, active-passive dark avoidance, rats, 3979

Proteins (Blood) (See Blood Proteins) Protest (Student) (See Student Activism)

Protestantism (See also Fundamentalism)

adherence to Protestant Ethic, attitudes toward poverty & social services, rural community adults, 2310

cultural & social factors & attitudes toward's woman's role & career & educational plans & college choice, achievement motivation & occupational choice, middle class Protestant & Jewish adolescent girls, 576

field-dependence & intellectual-perception & figure drawing, Jewish traditional vs. nontraditional vs. Anglo-Saxon Protestant boys,

negative attitudes towards poor & opposition to guaranteed minimum annual income & authoritarianism & internal locus of

control, endorsement of Protestant Ethic, college students, 2271 religious organization preferences & attitudes & practices as evidence of culture shock, rural migrants vs. residents at places of origin & destination, white Protestants, 11005

Theological School Inventory, predictive vs. counseling tool, Catholic novices vs. Protestant seminarians, 2308

doxepin vs. chlordiazepoxide, ambulatory vs. hospitalized psychoneurotics, 11777

### Pseudocyesis

succession of vaginal & behavioral changes in continuous cycling, sexual behavior, rats, 2002

### Pseudoneurotic Schizophrenia Pseudopregnancy (See Pseudocyesis)

# Pseudopsychopathic Schizophrenia

# Psilocybin

LSD & psilocybin & mescaline, T maze discrimination learning, female rats, 3952

marihuana & mescaline & LSD & psilocybin, hypnotic susceptiblity, college students, 10690

psilocybin & chlorpromazine, spatial- & optical distortion, college students, 1869

Psychedelic Drugs (See also Lysergic Acid Diethylamide)

historical & modern therapeutic uses, Ayahuasca, South America, 4988

MMPI profiles, heroin addicts vs. psychedelic drug users in Haight-Ashbury, 4813

psychedelic career stages, psychedelic drug use & subculture, 8936 psychedelics & brain-wave-programming vs. life conditioning to absolutes, pseudo vs. true mind-expansion, 291

#### Psychedelic Experiences

psychedelic career stages, psychedelic drug use & subculture, 8936 psychedelics & brain-wave-programming vs. life conditioning to absolutes, pseudo vs. true mind-expansion, 291 Psychiatric Aides

instructions & verbal prompts & monetary reinforcement for reinforcing patients in token economy program, reinforcement dispensing rates, psychiatric aides, 9252

perception of schizophrenic patients measured by MACC Behavior-al Adjustment Scale, psychiatric ward attendants, 7291

personal adjustment, authoritarian attitudes toward mentally ill, psychiatric aides, 7034

social-structural factors in mental hospital ward, situation related role performance & satisfaction, psychiatric aides, 7060 Psychiatric Classification (Process) (See Psychodiagnosis)

Psychiatric Classifications (Taxon) (See Psychodiagnostic Typologies)

### **Psychiatric Clinics**

children in psychiatric clinics in Paris vs. Rome, comparison with teacher parent, 11610

community psychiatry, implications for comprehensive multidisciplinary treatment in children's center, 9509

demographic & social & clinical factors, disorders treated & treatment methods & duration & clinic visits & treatment

termination & attitudes, psychiatric outpatients, 7562 development of mental health programs & clinics & counseling bureaus & personnel training & government agencies, Brazil, 9557 family dynamics, psychiatric treatment, 11672

group intake procedures & brief therapy & use of expertise, improved patient treatment & effective staff training & use of time, 4968

informal group contact with supportive measures & medication,

out-patient care clinic, chronic psychiatric patients, 5271 management & keeping track of dispensed lithium carbonate, lithium clinic, patients with affective disorders, 7373

Menninger Clinic patient types & diagnostic practices, 2851 multiple therapists & psychoanalytically oriented therapy, inpatients at psychosomatic clinic, 9775

patient status & ages served & sources of referral & necessity for public financing & improved recordkeeping, community mental health centers, 1203

Personal Information Form & Emotions Profile Index, male vs. female ward vs. day psychiatric patients, 2979

psychiatric services integrated into Californian correction system, inmates & parolees, 2913

psychotherapeutic activity in day hospital, children & parents & educators, 9665

staff & patient attitudes toward psychiatric treatment, differential inpatient psychiatric care, Indians & Metis with personality disorders, 11631

statistical data, mental hospital & psychiatric facilities use patterns & suicide rate in United States, book, 11428

therapeutic & research & community resources, role of psychiatrists in psychiatric clinic & use of drug therapy, 5099

treatment application-scheduled interview time lapse, success of crisis intervention & fulfillment of dependency needs, psychiatric clinic & family service agency applicants, 5280

Psychiatric Disorders (See Mental Disorders/)

Psychiatric Hospital Admission (See also Psychiatric Hospital Readmission)

admission to hospital mental ward, children & family unit left at home, 9567

clinical-statistical study, hospital admissions, alcoholic psychotics,

community mental health/mental retardation center, state hospitalization rates, 5279

direct examination & factor analysis, MMPI & 16 PF validity, admissions to state mental hospital, 9221

drug used & reason for institutionalization & age & family background & IQ & arithmetic & reading ages & sex life & personality traits & Home Office record & subsequent criminal record & psychiatric hospital admission, illicit drug use outcomes, adolescent delinquent girls, 2707

group intake procedures & brief therapy & use of expertise, improved patient treatment & effective staff training & use of

time, 4968

joint admission of mother-infant pairs, outcome evaluation, postpartum psychiatric patients, 5104 lithium metabolism, mental hospital admission & homicide &

suicide rates, 7114 medical & psychodiagnosis & clinical improvement, general paresis, psychiatric hospital 1st admissions, 7320

memory & comprehension of voluntary admission forms, mental hospital patients, 5154

outpatient clinic for social welfare patients, admission & readmission statistics, 2824

parental attitudes & home life, adolescent development, exploded" teenage males admitted to mental hospitals, 9324

psychiatric case registers, longitudinal study of psychopathology, 7075

release criteria & management philosophies & aftercare programs & pressures & interunit competition & admission & transfer policies, turnover rates in mental hospitals, 4944

unwanted relatives pushed toward mental hospital admission, 29 & 72 yr. old women, 3031

weather conditions, sleep disorders & psychiatric clinic admission, schizophrenics vs. depressives vs. alcoholics vs. psychopaths vs. drug addicts vs. neurotics, 7138

Psychiatric Hospital Programs (See also Therapeutic Community) behavior modification use & criticisms, mental hospitals, 5117 characteristics of productive & unproductive unit systems, Veterans

Administration psychiatric hospitals, 5000

citizen advocacy program in psychiatric hospital, exposure to nonprofessional community member as friend & social worker & legal counselor, educable retardates being considered for discharge, 5219

college students as live-in counselors, 6 12 yr. old emotionally distubed children in state hospital, 5127

development of custodial-type inpatient unit into intensive treatment service, comprehensive mental health programs at neighboring hospitals, 9547

group treatment & work program using psychiatric inpatients as "buddies", geriatric unit of state hospital, 1189

hospital services program, psychiatric patients, 5052
hospital services to mental patients, review of 1st 5 yr. of National
Institute of Mental Health Hospital Improvement Program, 2776
industrial workshop vs. occupational therapy unit, interpersonal
relationship development, psychiatric patients hospitalized for 4

15 yr., 7571

institutional innovation problem & search for effective techniques in treating chronic mental patients & finding meaningful roles for college students, book, 11726 joint admission of mother-infant pairs, outcome evaluation, postpartum psychiatric patients, 5104

mental hospital, reorganization to therapeutic community, 9806

nurse's role, emergency room psychiatric team, 4982

organizational slack & modes of work coordination, frequency & promptness of innovation trial in psychiatric hospitals, 2900 outcome goals of 6 parties involved in mental hospital programs of therapy, 2848

psychiatric hospital for adults & adolescents program & course of treatment & family sessions, treatment of child drug abusers in mixed-age group, 10 yr. old Jewish male drug abuser, 2838

psychiatric nurse role & responsibilities, psychiatric token economy

programs, 37 yr. old male schizophrenic, 11639 release criteria & management philosophies & aftercare programs & pressures & interunit competition & admission & transfer policies, turnover rates in mental hospitals, 4944

resocialization in preparation for hospital release, chronic hospitalized schizophrenics, 9813

room & board in exchange for work, psychiatric hospital live-in program, undergraduates, 4579

short-term treatment program in psychiatric hospital, drug addicts, 2822

social hour as sociotherapeutic approach, aftercare in psychiatric department of hospital, 5220

token reinforcement on rapid-turnover ward, male veteran psychiatric patients, 5054

training nurses as primary therapists, psychiatric inpatient service, 4588

unique communication & maturation & adjustment problems, psychiatric unit, deaf patients, 1118

ward environments with intensive treatment vs. treatment aimed at slow improvement, positive therapeutic effects, severely regressed psychiatric patients, 11687 Psychiatric Hospital Readmiss

hospital & community psychopathology ratings, employment & readmission, schizophrenics, 4708

outpatient clinic for social welfare patients, admission & readmission statistics, 2824

relatives' perceived patient's symptomatology & home vs. hospital gratification of social needs, rehospitalization, mental patients,

ward climate factors, release & elopement & readmission & discharge against medical advice & community stay time rates, male patients & ward staff of neuropsychiatric hospital, 3034

Psychiatric Hospital Staff (See also Psychiatric Aides) appropriate length of hospitalization for I psychotic episode & staff bias on illness expectancy & physician orientation to suspected illness, hospitalization vs. release, psychiatric patients with criminal records, 2928

attitudes toward drug & alcohol addiction, heroin addict patients vs. staff members, 9464

attitudes toward patient involvement in treatment planning, patients & staff at mental health center, 5005

college students as live-in counselors, 6 12 yr. old emotionally distubed children in state hospital, 5127

conflicting goals & characteristics, therapeutic communities, staff & patients, 9708

current & future issues & need for preplanning, federal mental hospitals, 5091

democratization as therapeutic vehicle, decision making in mental hospitals, 9535

double blind study of haloperidol in acute schizophrenics, anxiety & attitude changes, staff members within structured milieu, 9767

group meetings of staff members, hospital liaison psychiatric service, 4563

hospital space use, psychotic patients & staff caring for them, 7401 knowledge of patient legal rights, psychiatrists & residents & psychiatric nurses & social workers, 7063

MMPI & California F Scale & Parental Attitude Research

Instrument & Rokeach Dogmatism Scale scores, parents of child psychiatric patients & psychotherapists & child care workers, 4655

organization & costs & staffing & national accreditation, mental health institutions, Canada, 9738

release criteria & management philosophies & aftercare programs & pressures & interunit competition & admission & transfer policies, turnover rates in mental hospitals, 4944

room & board in exchange for work, psychiatric hospital live-in program, undergraduates, 4579

ward climate factors, release & elopement & readmission & discharge against medical advice & community stay time rates,

male patients & ward staff of neuropsychiatric hospital, 3034

Psychlatric Hospitalization (See also Committment (Psychiatric), Psychiatric Hospital Admission, Psychiatric Hospital Readmission)

analysis of suicidal & aggressive & psychotic & psychotic-drug reasons for hospitalization, crisis evaluation questionnaire, adolescents, 7337

appropriate length of hospitalization for 1 psychotic episode & staff bias on illness expectancy & physician orientation to suspected illness, hospitalization vs. release, psychiatric patients with criminal records, 2928

Brockton Social Adjustment scale, index of outcome in hospital

psychiatry, psychiatric patients, 7678 closed psychotherapeutic ward, antisocial females, 9640

depression & anxiety & delinquency & learning difficulties & bodily symptoms & phobias & drug abuse & suicide & hypochondria, adolescents in inpatient units, United Kingdom, 962

environmental changes during 2 yr. prior to admittance to home for psychically disturbed, institutionalized elderly patients, 1250 examination of & guidelines for psychiatric decisions & posthospital

outcome prediction & posthospital success characteristics, Navy & Marine Corps enlisted men admitted to Navy psychiatric facilities during 1967-68, 1101

expression & object & frequency & provocation of aggression, male

& female hospitalized psychiatric patients, 4711 hospitalization benefit attitudes, psychiatric inpatients & their residents, 7465

Hospitalization Proneness Scale, psychiatric hospitalization prediction, schizophrenic outpatients, 9742

incidence & admission rates & pay grade, Navy vs. Marine Corps personnel hospitalized for drug abuse, 4801

inpatient vs. outpatient facilities, need to develop inpatient services & facilities, 5144

IQ & hospitalization length, understanding of common English expressions, 23 61 yr. old chronic psychiatric patients vs. 8 11 yr. olds, 2825

mental hospital attrition data & proportion of severe depression & organic psychosis & long-stay schizophrenic patients, long-stay inpatients, Camberwell vs. other London areas, England, 2880

mental status & diagnosis & demographic data & admission variables & physical examination data, predicting length of hospitalization, psychiatric patients, 4922

music therapy program in private hospital, emotionally disturbed patients, 7681 Personal Information Form & Emotions Profile Index, male vs.

female ward vs. day psychiatric patients, 2979
prehospitalization coping styles & frequency & pattern of events,
psychiatric patients, 9339

previous hospitalizations & ECS therapy & symptoms, women with Briquet's syndrome with depression as secondary symptom vs.

primary depressives, 4621 protective confinement therapy effectiveness, alcoholic offenders,

psychiatric hospitalization vs. outpatient treatment, 5055

psychiatric milieu therapy, Fear Survey Schedule factor changes, male psychiatric inpatients vs. prison inmate controls, 2780

release from neuropsychiatric hospital, adjustment outside hospital, former neuropsychiatric patients, 3035 self & familial expectancies of hospitalization, treatment participa-

tion & success, male hospitalized alcoholics, 7390 sex & institutionalization, coordinate & functional & subordination

word associations, schizophrenics vs. normals, 4662 short-term psychiatric hospitalization for medical-psychiatric assessment, postdischarge outcome, senile dementia patients,

sick incompetent vs. healthy competent self-presentation & treatment vs. custodial ward residence, auditory task RT, male schizophrenics, 4891

social factors, hospitalization & continued hospitalization, geriatric mental patients, 9700

social stigma associated with psychiatric hospitalization of fathers, social identity & personal identity & ego identity, patients' wives & children, 9555

state mental hospitalization, social & physical functioning, geriatric patients, longitudinal study, 9721

transfers from medical-surgical to psychiatric wards, 1968-69 vs. 1955-60 referral pattern within general hospital, inpatients, 2568

voluntary mental hospital admission under contractual conditions vs. court-mediated involuntary commitment, 2948

voluntary vs. involuntary admission, mental hospitalization & right to leave, 3052

**Psychiatric Hospitals** 

changes & "social breakdown" syndrome & treatment controversy & treatment modalities, public mental hospitals, 5149

characteristics of productive & unproductive unit systems, Veterans Administration psychiatric hospitals, 5000

criminal history seriousness, troublesome behavior, follow-up study of women patients transferred to civil mental hospital from hospital for criminally insane, 2881

current & future issues & need for preplanning, federal mental hospitals, 5091

democratization as therapeutic vehicle, decision making in mental hospitals, 9535

early & recent studies done at Psychiatric Clinic of Helsinki University Central Hospital, 1970 yearbook, 2779

financial resources & administrative structure & support & consultants, behavior modification program implementation, 2874

historical survey of mental illness & hospitals & public health statistics, social psychiatry, Victoria, Australia, 11778

hospital space use, psychotic patients & staff caring for them, 7401 hospitalized psychiatric patients as chairmen of task groups, therapeutic value, 3019

mental health facilities & programs, Honduras, 9739

mental health institutions & professional organizations & needs & resource utilization, Mexico, 9548

mental health plan & psychiatric hospitals & mental health centers, Nova Scotia, Canada, 9790

mental illness & life in mental hospital, discussion of depiction in fiction, 2414

milieu therapy, general hospital psychiatric ward structure & attitudes, patients & nursing staff & paraprofessionals & psychiatrists, 7437

observation ward turned treatment unit, changes in acute psychiatric practice, 11577

occupational therapy, observations of therapeutic community team in hospital for mentally ill, 7662

organization & costs & staffing & national accreditation, mental health institutions, Canada, 9738

organizational structure, administration of mental hospital services, 5142

physical hospital environment reshaping, implications for social

education program, mentally handicapped, 4914

physical structure & personnel & organization, private Catholic

hospital for retarded & neurotic & geriatric & psychotic patients, Netherlands, 5266

psychotherapy & changes in psychiatric institutions, 9730 public & private mental hospital development in 18th & 19th centuries, Newcastle district, England, 1177

record-keeping systems, psychiatric hospital, 9603

relatives' perceived patient's symptomatology & home vs. hospital gratification of social needs, rehospitalization, mental patients, 9409

release criteria & management philosophies & aftercare programs & pressures & interunit competition & admission & transfer policies, turnover rates in mental hospitals, 4944

rewarding & punishing responses to behavior of labeled deviants, maintenance of mental illness, patients & nursing personnel in long-term hospital for mentally ill, 11699

right to treatment decisions, court responsibility for maintaining state hospital standards, 7615

role of general hospitals from monarchy to present, society's attitude toward mental institution & mental illness, France, 1179

services for mentally handicapped, role of hospital, 4999 somato-psychic interaction, treatment failures in mental hospitals, 2812

state mental hospital group psychotherapy program, benefits to staff & patients, 2816

& patients, 2010
statistical data, mental hospital & psychiatric facilities use patterns
& suicide rate in United States, book, 11428
token economies, advantages for nurses & psychologists, 11706
transfer from special security hospitals for criminally insane to civil mental hospitals, Baxstrom patients in New York State, follow-up

transfer from state to civil mental hospitals, community adjustment & criminal activity, patients, 4 yr. follow-up, 7655

transference aspects, relation to hospital, hospitalized psychiatric patients, 9796

Treatment Milieu scores as predictor of mental hospital effectiveness & therapeutic treatment environment orientation, partial reanalysis of J. Jackson's Characteristics of the Treatment Environment Scales, 2914

Ward Atmosphere Scale, internal consistencies & subscale intercorrelations & means & standard deviations & profiles,

British psychiatric wards, 2961

ward climate factors, release & elopement & readmission & discharge against medical advice & community stay time rates, male patients & ward staff of neuropsychiatric hospital, 3034 **Psychiatric Nurses** 

grading system using student self-selection of goals & achievement level, expressed advantages & disadvantages, senior psychiatric nurses & faculty, 895

group cohesion & individual inclusion, multiple family therapy, psychiatric nurse as cotherapist, 11684

knowledge of patient legal rights, psychiatrists & residents & psychiatric nurses & social workers, 7063
milieu therapy, general hospital psychiatric ward structure & attitudes, patients & nursing staff & paraprofessionals & psychiatrists, 7437

new organization of specific nonhomogeneous patient groups, patients' image of attending nurses, psychiatric patients, 9723 psychiatric education, attitudes toward illness, Ugandan psychiatric

nurses & novice nurses & secondary school trained persons, 7052 psychiatric nurse role & responsibilities, psychiatric token economy programs, 37 yr. old male schizophrenic, 11639

psychiatric nurse's emotional support, suicide prevention, adult

female, 5004 **Psychiatric Patients** 

abbreviation of MMPI Masculinity-Femininity & Social Introversion scales, psychiatric patients, 9355

actuarial & odds scores, return-to-duty recommendations & predictive success, Navy & Marine Corps personnel on psychiatric sick list, 1100
adolescent 4-8 MMPl profiles, predicting from taxonomic class, adolescent psychiatric patients, 11397
aggressive wehavior in clinical examinations, neuropsychiatric

study, 2755

aging, attitudes & perceptions of experiences, psychiatric outpa-tients & nonpatients 16-60 yr. old & older, 6505

Anger Self-Report, aggression awareness & expression, psychiatric

patients & college students, 4911 anhedonia, electrical stimulation threshold & pulse & blood pressure & tremor at rest vs. during stress, male psychiatric hospital patients, 4893

anxiety vs. depressive syndromes, affective disorders classification, patients with affective disorders, 7627

appropriate length of hospitalization for 1 psychotic episode & staff bias on illness expectancy & physician orientation to suspected illness, hospitalization vs. release, psychiatric patients with criminal records, 2928

art therapy, improvement in mental functioning, psychotic patients,

attempted suicide & suicidal ideas, depressed inpatients, clinical observations over 10 yr., 975

attitudes toward drug & alcohol addiction, heroin addict patients vs. staff members, 9464

attitudes toward participation in psychiatric board examinations, patients & their trainee therapists, 7031 attitudes toward patient involvement in treatment planning, patients

& staff at mental health center, 5005

behavior modification in improved grooming, self-esteem & ward behavior, hospitalized psychotics, 9576

brief version of Michigan Alcoholism Screening Test, predictive validity, alcoholic vs. nonalcoholic psychiatric patients, 9426 Brockton Social Adjustment scale, index of outcome in hospital

psychiatry, psychiatric patients, 7678

changing projection surface, immature vs. mature visual afterimages, psychiatric patients vs. normal adults, 10364 chlorpromazine, Nurses Observation Scale for In-Patient Evaluation

& Brief Psychiatric Rating Scale & global assessment, psychogeriatric patients, 2800

classroom group development stages, validation of Tuckman's model, students, 7955

clinical & occupational & social measures, assessment & preparation for resettlement in optimum employment & accommodation, disabled mental patients in Netherne Resettlement Unit, 9583

clinical characteristics, female homosexuals seeking treatment vs. nonhomosexual female psychiatric patients, 4873

clinical severity within category vs. diagnostic category, psychiatric in- vs. outpatients, 1194

cloze procedures, psycholinguistics of schizophrenic language, schizophrenics & nonschizophrenics psychiatric patients & nonpatients, 11493

communication of suicidal intent, psychiatric patients, 5 11 yr. follow-up, 7178

community-based mental health center aftercare, recidivism,

conflicting goals & characteristics, therapeutic communities, staff & patients, 9708

conformity pressure & modeling, attraction toward interviewer,

hospitalized female psychiatric patients, 1247
counselor verbal specificity & client expectations, 1st interview
anxiety, 20 56 yr. old female psychiatric inpatients, 5084

dance therapy, socially acceptable behavior & verbal communication, state mental hospital patients, 7357

day vs. inpatient status evaluation, conversion of long-term treatment service into community service, mental patients, 2890 demographic characteristics, psychiatric diagnosis, psychiatric

outpatients, 7185 demographic variables & type of mental disorder & length of hospitalization, suicide, mental hospital patients, 2744

dependency & impairments in family & heterosexual relations & sociability & leisure interests, unemployed psychiatric outpatients, 2751

depression & suspiciousness content measures, Holtzman Inkblot Technique, psychiatric patients, 7134

design & inference problems, community tenure studies, former mental patients, 4639

diagnosis & psychotherapy, emergency psychiatric patients, 9655 directed terminal & instrumental value change, improvement in

psychotherapy, psychiatric patients, 11772 dopamine-b-hydroxylase blood values & affective states, psychiatric inpatients & outpatients & normals, 9460

drug dependency, psychiatric patients, 9280 drug usage patterns, adolescent psychiatric inpatients, 4644 ECS & ECT, seizure-induced changes in substrates of CNS

metabolism & function, animals & psychiatric patients, 3880 EEG recordings vs. telemetric mobility counts, sleep measurement,

psychiatric patients, 2666

electrosleep therapeutic effectiveness, psychiatric patients, 5187 emotional tension in stress situations, psychophysiological manifestations, hospitalized mentally ill vs. normal Ss, 10534

endogenous vs. physical stress precipitants of depression & incidence in families of depressives, depressed patients, 9427

ethanol & chlorpromazine administration, chlorpromazine vs. alcohol metabolism, chronic mental patients, 2853 examination of & guidelines for psychiatric decisions & posthospital

outcome prediction & posthospital success characteristics, Navy & Marine Corps enlisted men admitted to Navy psychiatric facilities during 1967 68, 1101

expression & object & frequency & provocation of aggression, male & female hospitalized psychiatric patients, 4711

eye contact & social approach behaviors during interviews, inkblot test human movement response, male psychiatric patients vs. undergraduates, 9393

face-to-face vs. automated testing, validity of WAIS, adult psychiatric outpatients & normals, 2615

factor analysis of endogenous vs. neurotic depression syndromes, depressive patients, replication of L. G. Kiloh & R. F. Garside's study, 7517

factor analysis of Boston City Hospital-Behavior Checklist & comparision with psychopathological dimensions derived from other factor analyses, psychotic & nonpsychotic patients, 2683

Psychodynamics

clinical syndromes & personality & marriage & attitude towards pregnancy & childhood & behavioral psychodynamics, attempted infanticide, women, 9400

Psychological Data Sheet, self-report of psychodynamic & genetic

material, 11212

Psychogenesis (See also Childhood Play Development, Cognitive Development, Emotional Development, Intellectual Develop-ment, Language Development, Perceptual Development, Personality Development, Psychomotor Development, Psychosocial Development, Speech Development)

clinical syndromes & personality & marriage & attitude towards pregnancy & childhood & behavioral psychodynamics, attempted

infanticide, women, 9400 cognitive growth cycles, mental development, 10840

comparative psychology & contribution of psychogenetics, 346 development & characteristics from early childhood into adult life, homosexuality, male & female homosexuals vs. heterosexuals,

genetic structure vs. environment, postnatal neural development, mice & rats & cats & humans, 8499

genetic systems, individual & racial & species diversity of behavior, 277

infantile development & therapeutic alliance & transference interphasic flow, parallel between primary object relations evolution & therapeutic alliance & transference neurosis, 1213

Luquet/G. H., analysis of studies of children's thought & actions, 10819

physiological correlates & psychosomatic aspects & measurement techniques, anxiety, 10540 psychogenic & anatomical & physiological factors, infertility,

women, 9327

psychogenic, review of clinical purposes & concept, 10869 psychopathology & psychogenesis & therapy, obsessional phobic syndrome, school-age children, 958 psychosocial aspects, dyspareunia, literature review, 11479

real & imagined causes, psychogenic vaginismus, 4667

research & theories of genesis of gastrointestinal disorders, psychosomatic medicine interdisciplinary models & methods,

social & academic competence, vulnerability to schizophrenia & other psychopathologies, children with schizophrenic & internal-izing mothers & externalizing & internalizing children, 9438 sociopsychological factors, endogenic depression, two families, 9450

unfavorable early childhood environmental situations, psychogenic disorders with neurotic symptoms, monozygotic & dizygotic pairs of twins, 9449

Psychogenic Pain

occupational vs. love vs. sex vs. death conflict situations, asthmatic & pulmonary tuberculosis symptom initiation, male vs. female patients, 1066

patient cognitive difficulty & limitations inherent in examining procedure & unconscious processes in diagnostician, psychogenic disturbances diagnoses, 11532

Rorschach responses, psychogenic headache patients, 4883

Psychokinesi

efforts toward voluntary control, gifted S, 8173

psi phenomena & telepathy & clairvoyance & precognition & psychokinesis, relationships to perceptual & memory & motor processes, 93

psi tests with internally different machines, 8188 psychokinesis on lepidopterous larvae, 8180

psychokinesis, resuscitation of anesthetized mice, attempted replication of G. K. & A. M. Watkins' findings, 3631 spinning silver coin as test object, psychokinesis, 5736

Psycholinguistics

apparatus measuring response latency & observational categories for linguistic & psycholinguistic phenomena testing, 2413

behavior consultation & teacher aide observers, classroom discipline, 4th graders, 9137

between-S agreement, strength of oppositional relationship between word pairs, 4462 classification of purpose for use of interrogative forms in verbal interaction, child's acquisition of interrogative form usage,

mothers & children, 2407

cloze procedures, psycholinguistics of schizophrenic language, schizophrenics & nonschizophrenics psychiatric patients & nonpatients, 11493

immediate vs. nonimmediate alternatives presented independently & together & in direct contrast in linguistic communication, affect attributed to communicator, college students & graduate students & trainee psychiatric social workers, 2421 individual communication model evaluations, psycholinguistic

origins & developments & literature, 9139

information in textbook examples, language analysis, 2436 linguistic marking vs. subjective evaluation to distinguish noun & verb & adjective pairs, 11160 paradigmatic & syntagmatic attitudes, linguistic association styles,

children & adolescents & young adults, 2078

production of personality concept words with negative prefix, semantic differential scale construction, adults vs. 15 yr. olds vs. 10 yr. olds, 2428

Project Head Start, psycholinguistic ability, Negro vs. Caucasian 1st graders, 11820

pronounceableness & imagery & concreteness & associative meaningfulness & familiarity & Thorndike-Lorge frequencies of

nouns, index of defineability, college students, 2419 psycholinguistic analysis, reading & learning to read, book, 10505 psycholinguistic correlates, reading backwardness, implications for teaching English to Africans, 10088

psycholinguistic model development, teaching Persian as foreign language, adults, 5560

psycholinguistic principles, aphasia treatment, 7638
psycholinguistic theory & behavior modification techniques,
language training, mental retardates, 7388

psycholinguistic viewpoint, language acquisition, application to mentally retarded, 7287

psycholinguistics & mathematics, notation & formalization of relations between linguistic elements & examples of transforma-

semantic vs. syntactic & absolute vs. probabilistic & proximate vs. distant dimensions, linguistic constraints vs. inattention to constraints, schizophrenics, 9289

techniques & social impact & social factors interaction & psychological & psycholinguistic research, mass communication development, 9138

Psychological Endurance

prolonged sleep deprivation, circadian variation & psychomotor performance & psychological ratings & catecholamine excretion & diuresis & fatigue, 20 64 yr. old military officers, 386

**Psychological Screening Inventory** 

Psychological Screening Inventory & Adjective Check List human relations participants vs. personal-adjustment clients vs. non-clients, college students, 11105

**Psychological Stress** 

active vs. passive imaginary exposure to fearful stimuli & varied muscular activities, fear response to stressful film, male 9th & 10th graders, 1168

age & intellectual level & psychological stress, social perception organization rigidity, 13 16 yr. old Flemish students, 10419

Cultural Readjustment Rating Questionnaire, perceived magnitudes of stressful events leading to culture shock, returned Peace Corps volunteers vs. Chinese foreign students vs. U.S. students with no intercultural experience, 731

emotional & psychological factors, dyslexic syndrome, 7110 emotional stress, driving performance, Ss involved in divorce

proceedings, 3421

emotional tension in stress situations, psychophysiological manifestations, hospitalized mentally ill vs. normal Ss, 10534 exercise, physiological responses to psychic stressor, college women,

3764

family & marital & physical & personal stresses, prediction of prognosis, schizophrenic men, 1074

goal & stressful tasks & personality traits, time perception, college students & psychiatric patients & introverted vs. extroverted normal Ss, 5819

heart rate, measuring stress induced by road junction designs, drivers, 12180

high rate of information transmission & emotional tension in binary choice task, suppression of sinus arrhythmia, 10466

hypertension & egocentrism & self-acceptance & passivity & emotional tension, 27 53 yr. old male patients, 999

identity-stress during training period, overall & job satisfaction & nonnegative opinion changes of employing companies, graduate job recruits, 3418

imminent surgery-induced stress, self-report measures of state & trait anxiety & Harmavoidance & postoperative adjustment, Veterans Administration Hospital male patients under 65 yr. old,

instructions to use formula vs. graphic strategies, learning speed on binary task & subjective stress, fast vs. slow learning college students, replication & extension of A. Neufeldt's study, 10474 intensive care units, psychological stress, nurses, 7035

interacting biological & psychological & cultural forces, Arctic hysterias, North Alaskan Eskimo, 11378

marital adjustment & stress, cooperation & competition in bargaining game, couples, 6860

over- & understimulation & uncertainty & novelty, adrenaline output & behavior efficiency, healthy humans, 384 performance relevance & feedback, resistance to anticipatory stress,

U.S. Navy & Marine aviation training candidates, 3380 personality characteristics & stressful psychosocial events, etiology

& pathogenesis & course of gout & hyperuricemia, 7193 personality correlates of severe stress, Maudsley Personality Inventory, mothers of children with major CNS malformations,

personality interaction & response of family, diagnosis & treatment

course & psychological repercussions, cancer patients, 7530 psychiatric evaluations 48 72 hr. after release vs. psychiatric

evaluations of World War II & Korean conflict prisoners of war, psychosocial readjustment, surviving members of U.S.S. Pueblo, 2746

psychological stress & group support, 17-hydroxycorticosteroid concentration in urine, helicopter medics vs. Special Forces members in Vietnam combat situation & officers vs. enlisted men,

psychophysiological personality structure, reaction & adaptation to motoric & mental & emotional stress, adults, 1791

psychosocial stress & social structures, disease & physical reactions, 4597

psychosocial stress, neuroendocrine alarm responses & cardiovascular disease, discussion of research with mice & tree shrews & monkeys & humans, 3801

situation vs. internal state, conceptual approach to stress psychology, 3729

status congruency, predicting job satisfaction & life stress, Navy enlisted men, 10137

stress & concept attributes & attribute values & successive problems,

concept attainment, college students, 6008
stress & degree of obesity, oral drive cycle duration as evidence of variant form of instinctual regression, obesity-bulima patients, 4685

stressful films, intrusive & repetitive thought, nonpsychotic male military hospital inpatients, 4731

stressful movie-viewing & REM & non-REM sleep deprivation, anxiety & adaptation, college students, 3688

stressful training, serum lactic acid variability, Navy enlisted underwater demolition team trainees, 5670

time stress vs. no time stress, information processing & peripheral vasoconstriction & heart rate, 8370

uncertainty, heart & respiration rate, 25 yr. old experienced parachutist, 6130

work pressure, group cohesion, industrial blue-collar workers, book, 5642

working under pressure, job satisfaction & mental health & production, managers & workers in manufacturing organization, book, 10128

Psychological Terminology

Psychological Terminology
comparative psychology & contribution of psychogenetics, 346
psychopathological terms, ratings of connotative & denotative
meaning, psychiatrists vs. psychologists, 10197
Psychologists (See also Clinical Psychologists, Educational Psychologists,
Experimental Psychologists, Industrial Psychologists,
School Psychologists, Social Psychologists)
seedamic employment prospects, for psychologists for pert 20 vs.

academic employment prospects for psychologists for next 20 yr., 896

academic salary changes in psychology over 3 yr. period, 881 age & place of training & American Psychological Association division affiliation, psychology department chairmen selection, experimental vs. clinical vs. applied psychologists, 11296

American Psychological Association guidelines, employment of psychologists in institutional settings, 9223

autobiographies & history, psychologists, book, 10217 autobiography of F. C. Thorne, 10232

autobiography of H. Helson, 10210 autobiography of Irwin A. Berg, 10196 autobiography of R. I. Watson, 10235 autobiography of W. B. Webb, 10236

automated manpower data system for psychology, utilization of psychologists in social & mental health programs & equalization of opportunity & adjusting supply & demand, 917

basic features of dual manpower-job placement system to replace American Psychological Association's Employment Bulletin, 883

career histories, psychologists, book, 11313
cognitive psychology, autobiography of W. A. Hunt, 10211
differential psychology, autobiography of A. Anastasi, 10190
discussion groups homogeneous vs. heterogeneous with respect to

status, formulation of opinions, psychologists & social workers,

distribution of academic positions occupied by psychologists, entries from 1970 American Psychological Association Biographic Directory, 915

economic model of market for psychologists based on supply & demand & salaries, 889

employment characteristics & manuscript processing time, use & perceived utility of experimental publication system, subscribers vs. American Psychological Association members, 5719

epistemology & rationality & utility in psychology, autobiography of W. R. Garner, 10206

experimental psychology, autobiography of J. Kagan, 10215 experimental psychology, autobiography of P. T. Young, 10237 factor analytic study of special field & competency to consult on

public policy & social problems, psychologists, 2538 factors in demand for psychology & behavioral sciences Ph.D.'s & recommendations for orientation of Ph.D. training, 886

growth of 2 yr. colleges & job setting & working conditions &

opportunities for psychology instructors, 2544

Hall/G. Stanley, biography, book, 5734
income patterns & trends, American Psychological Association industrial & organizational psychologists, 1960 1970, 914

status of psychology as science, 3498 survey of psychology in medical schools & organizational set-up & psychologists' activities & satisfaction, 2557

survey of trends, contemporary psychology in United States, 5707 theory testing in psychology & physics, discussion of P. Meehl's paradox, 1483

unit mastery system, psychology & life, college textbook, 12011 unobtrusive & nonreactive measures, supplementing psychological assessment techniques, 54

viewpoints in psychology, book, 5726

Psychometrics

EEG vs. psychometric testing, brain lesion diagnosis, adult patients, 4855

error & reliability & new probability model theory, stochastic processes & psychological measurement, 3534

implicit metric scaling technique for dichotomous data recovering a "higher" level than simple ordinal scale, cognitive growth assessment, 2080

Piagetian vs. psychometric theories of intelligence & practical implications, 2104

psychological assessment, book, 8234

psychometric analysis & comparison with Eysenck Personality Inventory, Czech KUD personality questionnaire, 8239 psychometric research & models of E. L. Thorndike & J. A. Holmes

& F. B. Davis, reading comprehension theories, 5955

psychometric technique for determining reliability & internal structure of variables invariant under any linear or monotonic transformation, 1501

psychotechnical tests, review, 10241

relationships between traditional psychometric & Piagetian assess-ment of mental development, school children, 5421

reliability & predictive validity & similarity to Western tests, Israeli & foreign psychometric tests, book, 5778 reliability & predictive validity, psychometric tests in use in Israel, book, 5777

response frequency equalization vs. adaptation level theory of constant stimuli method bias, recalculation of A. Erlebacher & R. Sekuler's data, 3526

stochastic individual test scores assumption, invalid applications of mental test theory, 5802

superpsychometrics, ultrareliability & hypervalidity in multistage testing & successive stages of intensified measurement, 31

suppressor variable definitions & prediction constraints & construct validity, 5749

test qualities & differential validity & motivation, psychometric & predictive test bias, 10274

uselessness & antidemocratic nature of psychometric testing & Galton paradigm, 5751

Psychomotor Development (See also Speech Development)
centrophenoxine, social maturity & psychomotor efficiency &
mental age, 6 14 yr. old moderate & profound retardates &
imbeciles & idiots, 9565

comprehensive symptomatic analysis, psychomotor inhibition, 2nd & 3rd graders with social contact difficulties & anxiety & poor

school performance, 4636

movement response treatment vs. traditional concept teaching method, concept learning & attentiveness & verbal memory for new material, lower-class black 4 yr. olds & heterogeneous kindergartners to 4th graders, 3182

parent educational background, child psychomotor development & adaptability, 10801

psychomotor development, 6 mo. to yr. old Wolof children, Senegal, 6565

psychomotor developmental disturbances, clinico-ontogenetic analysis method, school age children, 4869

pyrithioxin, improved psychomotor operations & openness & stability, institutionalized 16 24 yr. old retardates, longitudinal study, 11741

Psychomotor Processes (See Perceptual Motor Processes)

Psychoneurosis (See Neurosis)

Psychopath (See Antisocial Personality)

Psychopathology

abnormal psychology, book, 9315

affect-trauma reference frame in instigation of pathology, psychoanalytic psychology phases & development, 7290

anxiety & aggression, value as danger warnings vs. pathological reactions & ego development, 7199

camptocormia & associated psychological symptoms, review & case report, 7105

case report, phenomenological psychopathology, book, 9484 childhood sibling loss, Bertha Pappenheim's psychopathology, 7263 clinical characteristics, female homosexuals seeking treatment vs.

nonhomosexual female psychiatric patients, 4873 clinical history vs. Rorschach & TAT test results, psychopathological personality structure, infantile & adolescent murderers, 7131 epidemiological data, psychosociology & psychopathology, teachers,

fictional living psychopathology, 28 & 46 yr. old males, 7117

Jasper's theories of abnormal personality & psychopathological processes, psychic vs. organic processes, 11326

life history research, psychopathology, book, 7278

pathological signs in drawings, schizophrenic & normal women, 9322

psychiatric case registers, longitudinal study of psychopathology, 7075

psychiatric symptoms in systemic lupus erythematosus, critical review of studies, 7163

psychological characteristics, frustrated suicides, 11431 psychopathologic aspects of hysteria, 10 16 yr. olds, 1017

psychopathology & evoked potential method, physiological 2dimensionality of information as basis for individual differences, Ss with personality trait disturbances, 7181

psychopathology on MMPI & parental drug use & prior psychiatric treatment & perceived drug effects, casual vs. moderate vs. heavy amphetamine users, 4643

psychopathology, fundamental dynamics, book, 4810

psychopathology, murderers, 7312

research methods, psychopathology, book, 11448

social & academic competence, vulnerability to schizophrenia & other psychopathologies, children with schizophrenic & internal-

izing mothers & externalizing & internalizing children, 9438 social change & cultural influences, psychopathology of childrearing, African women, 10955

social class, relation of remote to recent stressors & psychiatric symptom rates, 7128

Symptom-Sign Inventory based on G. Fould's theory, criticism of A. Gordon & R. Gregson's deductions, 7176

systemic lupus erythematosus vs. rheumatoid arthritis, psychiatric syndromes & organic symptoms, clinic patients, 4690

trends in biologic psychiatry, dangers of sectarianism & need for human brain & behavior research, 5242

Williams Scale for the Specification of Position, situational social perception assessment & pathological response patterns, university students & delinquents & psychotic youths, 7329

**Psychopathy** assessment characteristics, subnormal & psychopathic offenders, 2686

heredity & environment, etiology of psychopathy, biological & adoptive relatives of psychopathic adoptees, 4849

heredity & environment, psychopathy, 7296

personality correlates, arousal, psychopathic personality Ss, 11354 verbal & material reward & punishment, verbal conditioning, primary & secondary psychopaths, 11418

Psychopharmacology behavioral & mood & cognitive functioning rating scales, geriatric psychopharmacology, literature review, 1050

historical antecedents & other drugs & chemical aspects & effects & needed research, cannabis use, 10592

psychopharmacological research, Brazil, bibliography, 416

psychotropic drug research & psychopharmacology, American College of Neuropsychopharmacology conference proceedings, 2820

serotonin & behavior, summary of 1972 conference, Palo Alto, Calif., 466

trends in biologic psychiatry, dangers of sectarianism & need for human brain & behavior research, 5242

Psychophysical Measurement

application to persons in groups as stimuli, multidimensional scaling, 3530

auditory psychophysical procedures, software system to collect & analyze data, 1602

different vector models for subjective similarity, multidimensional scaling, 33

increase in range of context stimuli, reduction variability of stimulus judgments, implications for convergence of social judgments,

magnitudes estimation vs. rating scales, internal & external consistency of weight measurements, college students, 8260 mapping & relation theory & magnitude estimation, ratio scaling &

cross-modality matching, 1611

model linearly linking subjective scale to physical magnitude of stimuli, analysis of data from constant stimuli-certainty ratings method threshold studies, 141

modification of standard category judgment technique, analysis of predecision behavior, blind & normal & hemiplegic males, 9413

multidimensional scaling method for judgment of similarities distance model conceptualization, rationale for interpretation of L. Stone & G. Coles's paradigm, 3529

negative estimations for emotional word pairs, replication & reanalysis of G. Ekman's multidimensional scaling model for positive similarities, 3712

new algebraic motor power law, description of world record motor performances, 3514

power law, perception of rotation, airline pilots, 1573

psychophysical methods vs. subjective scales, fatigue, 3551

psychophysiological measurement, behavioral change, 9686

push-button switch using thumb skin conduction, differences in readiness potential, 6132 signal detectability, criticism of M. Hammerson & P. Atlham's new

measure, 3604 sodium chloride & quinine hydrochloride & sucrose vs. hydrochloric acid, magnitude productions vs. magnitude estimation, psycho-

physical functions of taste intensity, 1626 subjective estimate of area & number of people & average population density of countries, psychophysical stimuli, college

theoretical & empirical analysis, subjective value formation, 3517 time stick, measuring manual action & RTs, 5916

**Psychophysics** 

internal state models, prediction of response distribution to individual stimuli in magnitude estimation, 134
Psychophysiologic Disorders (See Psychosomatic Disorders)

Psychophysiology

computer software applicable to psychophysiology, sources & availability, 6156

general biological processes, reaction to aggression, 309 neuro- & psychophysiological bases, individual behavior, book, 10573

problems of differential psychophysiology, 8547 psychophysiologic medicine, history & theoretical concepts, 5074 psychophysiology, USSR, selected readings, book, 3811

pulse rate, experimental psychophysiology without polygraphs, practices of great physicians of antiquity, 6170

successive competition DNA-RNA hybridization, detecting presence or absence of qualitative changes in RNA species during

shock avoidance conditioning, 10541

Psychosexual Behavior (See also Bisexuality, Dyspareunia, Erection (Penis), Eroticism, Exhibitionism, Extramarital Intercourse, Female Orgasm, Fetishism, Frigidity, Heterosexuality, Homosexuality, Human Courtship, Hypersexuality, Impotence, Incest, Lesbianism, Male Homosexuality, Male Orgasm, Masturbation, Nocturnal Emission, Orgasm, Pedophilia, Petting, Premarital Intercourse, Premature Ejaculation, Promiscuity, Prostitution, Rape, Sex Roles, Sexual Abstinence, Sexual Deviations, Sexual Function Disturbances, Sexual Intercourse (Human), Sexual Masochism, Sexual Sadism, Sexual Sadomasochism, Transsexualism, Transvestism, Vaginismus, Virginity, Voyeurism)

absence of sex education, case reports of psychological results,

adolescents, Afghanistan, 6337
advantages & disadvantages, group sexual activity, 11049
attitudes toward oral sex & premarital sex & masturbation & homosexuality & group sex & child molestation, 6680
attribution of arousal to electric shock vs. sexually exciting story vs.

nonawareness, self-ratings of anger & aggressive behavior, male college students, 6810

biographical data & analysis of writings, sexual inhibition of E. A. Poe, 4465

biological & psychological & sociological & cultural & methodologi-cal aspects of human sexual behavior, selected readings, book,

coital frequency & initiative & foreplay participation & evaluation of partners, urban young couples married less than 2 yr., 2277 contingent negative variation amplitudes, sexual object preferences,

6115 contraception method & use, sexual behavior, never-married undergraduates, 4271

counselor perceptions of sexual attitudes, female college students,

cross cultural differences, initial heterosexual experience, Swedish vs. American college students, 10968

cross-cultural differences, sexual behavior, French vs. Americans,

dating frequency & preoccupation with sex & sexual experimentation, middle-class suburban adolescents from beginning of high school through 3 yr. after graduation, 4192

development of Play Session Behavior Scale & Psychosexual Content of Play Scale, ghetto 4 5 yr. olds, 4096 disrobing in physician's office, overcoming fear of nudity, 11559 division of labor in sexual activity, analysis of treatment in marriage manuals, 4274

dominance drive & sadism, human sexual behavior, 4342

drug use & sexual behavior data, refutation of youth-in-revolt & conformity contentions & counterculture & Consciousness III concepts, 2202

drug used & reason for institutionalization & age & family background & IQ & arithmetic & reading ages & sex life & personality traits & Home Office record & subsequent criminal record & psychiatric hospital admission, illicit drug use outcomes, adolescent delinquent girls, 2707

dyspareunia caused by endometriosis, changes in sexual behavior, women, 4733

early & premarital coitus behavior, anxiety & fantasy, 14 18 yr. olds & college students, 11022

family antecedents & frequent psychosexual disorders & abnormal premorbid personalities, amphetamine abuse, patients in private psychiatric clinic, 11683

family reactions, psychosocial sex identity, children of ambiguous sex, 9388

fathering & father-daughter relationships, female sex-role develop-ment & behavior, 4094

fatigue ploys & causes, avoidance of sexual intercourse, 4273 films of female courtship scene vs. nonerotic behavior, heterosexual male sexual deviates, 4754

roup sex attitudes & behavior, participants, book, 4337

serotonin, predictive value of probenecid test in assessing depression, endogenously depressed psychiatric inpatients, 1245 stimulus uncertainty & modality shift & wrong pretrial guess, average visual & auditory evoked potentials & RT, schizophrenics vs. psychotic depressives vs. normals, 1009

subcutaneous rabbit serum injections followed by antidote antigen, local anaphylaxis, depressive psychosis patients, 7461

succinylcholine administration & electroconvulsive therapy, systolic blood pressure & patient improvement potential, psychotic & manic depressives & depressed schizophrenics & neurotics, 2919 Hamic depressives & depressed schizophrenics & neurous, 2719
16 PF & Runwell Symptom-Sign Inventory, neurotic vs. psychotic depressive patients, 9340

Psychotic Episode (Acute) (See Acute Psychotic Episode)

Psychotomimetic Drugs (See also Lysergic Acid Diethylamide,

Mescaline, Peyote, Taraxein)

D tetrahydrocannabinol & LSD & phencyclidine & pyrrolidyl & piperidyl isomers of ditran, EEG & acetylcholine release from cerebral cortex, brainstem transected cats, 8611

I-tryptophan & MAO inhibitor & psychotropic drug with antiserotonin & adrenalytic effects, aphrodisiac effect, female schizophrenics, 9578

phencyclidine & stress, plasma creatine phosphokinase & aldolase activities, man, 1911

psychotomimetic drugs, behavior & brain neurochemistry, neonate chickens, 8687

Puberty

Pubescence (See Sexual Development)

Public Attitudes (See Public Opinion)

Public Health Service Nurses

consultant attitudes & techniques & knowledge of agency's program & priority establishment & recognition of meeting time & value & need for flexibility, reaction to former mental health consultants, public health nurses, 2528

mental health consultation, knowledge & skill & confidence & objectivity in mental health, public health nurses, 7588

**Public Health Services** 

historical survey of mental illness & hospitals & public health statistics, social psychiatry, Victoria, Australia, 11778

public health measure to reduce production & withdraw methodrine from retail stores, 10957

survey questionnaire, high rate of loss of psychologists from National Health Service, 893

**Public Opinion** 

issue ambiquity, conformity in petition-signing, 717

public opinion on gun control, 8915

public opinion research & present & future directions, social communication network, 9120

public policy & attitudes, community mental health, 7668 public policy for monitoring communications research, 9129

public unawareness of job market for psychologists & distrust & negative feelings toward & war & marketplace vs. social needs determination of educational & job priorities priorities in psychology, 897

regulating & stabilizing of social standards & stereotypes, consciousness & attitudes & behavior, 8938

role of general hospitals from monarchy to present, society's attitude toward mental institution & mental illness, France, 1179

trial of Lt. W. Calley, public opinion, approving vs. disapproving American males, 6702

**Public Relations** 

effective public relations, textbook, 1404

Public School Education

educational problems & harmful effects & social psychological strategy solution, inadequate school training, disadvantaged children, 11849

home environment, academic achievement, parochial vs. public elementary school kindergartners, 7882

mobility & productivity & inbreeding, church-related vs. small state college faculty members, 7755

personality needs & role expectations & cultural values & school bureaucracy, juvenile delinquency, public school children in large city, 3343

**Public Speaking** 

In Vivo Accelerated Massed Desensitization, speech making anxiety, male undergraduates, 9750

positive vs. negative internal vs. nonverbal external feedback, speech disfluency, tense vs. nontense male college student public speakers, 826

systematic desensitization vs. implosive therapy, public speaking anxiety reduction & prediction, theology students, 7586

traditional emphasis on rhetoric vs. extensive use of mass media to promote images, new directions in campaign communication research, 8988

training in pantomime & extemporaneous speaking & improvisa-tion, dramatic & public speaking skills, kindergartners & 1st graders, 12025
Public Transportation

transportation for aged, 10953

Public Welfare Services (See Community Welfare Services)

Puerto Rico

cross-cultural household level-of-living scale construction, rural Georgia & Puerto Rico & Dominican Republic data, 658

environmental map interpretation & utilization ability, implications for science education, North American & Puerto Rican 5 7 yr. olds, 11838

perception of racial characteristics by physical appearance, Puerto Rican secondary school students, 10966

pretreatment arrests & heroin addiction & beginning drug use age, cure of opiate addiction, Puerto Rican expatients, 5284

sex & socioeconomic status, factors affecting academic achieve-ment, high school students, Puerto Rico, 7914

socioeconomic status & parent-child relations & number of children in family of origin & personality traits, family size expectations, Puerto Rican adolescents, 6733

Pulmonary Alveoli Pulmonary Emphysema Pulmonary Tuberculosis

occupational vs. love vs. sex vs. death conflict situations, asthmatic & pulmonary tuberculosis symptom initiation, male vs. female patients, 1066

Pulse (Arterial) (See Arterial Pulse)

accelerating & decelerating consequences, social behavior, trainable retarded children, 2664

activity vs. immobility conditioning & curarization & punishment, heart rate conditioning, rats, 6135

atropine administration to ventromedial hypothalamus, punished & unpunished operant responding, squirrel monkeys, 6291

aversive stimulus vs. rationale vs. mother vs. father as punitive agents, resistance to deviation behavior & self control, middle class Caucasian 14-16 yr. old males, 11091

child's physical attractiveness & sex & severity & type of transgression, evaluation of transgression & advocated punishment, female college students, 4397
classical vs. nondifferential punishment extinction procedures &

discriminative cues, discriminated barpress avoidance, rats, 6387

consistent reward & single alternation vs. irregular schedule of intermittent punishment in runway, pattern discrimination learning, albino rats, 1975

contrast effect in which presence of strong but prohibited degree of punishment causes lower degrees of permissible punishment, 1701 discriminative punishment training, generalization of activity, rats, 1977

heightened reinforcement density vs. discriminative stimulus control vs. extended training vs. punishment, generalized imitation, 4 & 5 yr. old males, 799

introversion-extroversion, aversion to social isolation & corporal punishment, 3rd 5th graders, 6982

legal & religious & penological & sociological & philosophic & educational viewpoints on criminal punishment, book, 692

measuring attitude towards treatment & punishment of offenders, probation & parole officers, 2721 oxazepam, facilitation of learned behavior suppressed by CER or

punishment, rats, 421 para-chlorophenylalanine lowered brain serotonin, discriminated punishment & pain sensitivity, rats, 6227

pentobarbital & diazepam & chlordiazepoxide & amphetamine &

chlorpromazine, shock-punished responding, pigeons, 10655 promise of reward & threat of punishment, leadership selection & group performance, 756

punishing different bands of noncriterion interresponse times, DRL responding, rats, 4073

punishment & response prevention of avoidance responding, immediate generalized & enduring effectiveness, college students,

punishment by withdrawal of love & varied warmth vs. withdrawal of material reward & varied values, self-criticism, kindergartners & 1st graders, 10846

punishment consistency, inhibition of hitting, 8-10 yr. old boys,

punishment contrast, unpunished responding rate during free-operant avoidance, rhesus monkeys, 10754

punishment of preseizure behavioral chain components, seizure control, children, 9819

punishment, expectancy responses & stuttering, stutterers, 11625 response contingent punishment, response hierarchy reorganization, gerbils, 8724

reward vs. punishment & race of model & race of E, imitation of

commodity preferences, young black children, 6602 self & experimenter regulation & reward & punishment & internal & external locus of control, performance, male juvenile delinquents,

self-defense against police corporal punishment, self-mutilation, Peruvian prisoners, 2597

self-evaluation punitive point system, classroom behavior, 7th & 8th graders, 10060

septal lesions, punishment of free-operant avoidance responding, rats, 3961

septal lesions, suppressive effects of punishment of operant responding, rats, 3960

shock punishment, preference for food vs. aggressive display, Siamese fighting fish, 8726

single stimuli response rates & consequences, combining punishment signalling stimuli, rats, 6450 threat of severe vs. moderate vs. mild negative sanction, cheating,

deviants vs. nondeviants, 2638

verbal & material reward & punishment, verbal conditioning, primary & secondary psychopaths, 11418 within-Ss vicious circle effect & punished extinction phases, self-punitive avoidance behavior, gerbils, 1973

Punishment (Capital) (See Capital Punishment)

Pupil (Eye)

artificial & natural pupil, form & slope of power functions for brightness, 166

cold pressor test, pupillary dilation & constriction as indices of autonomic dysfunction, remitted schizophrenic, 9444

pupilometry using advanced-design oculometer, 8289 Pupil Dilating Drugs (See Mydriatic Drugs)

**Pupil Dilation** 

cold pressor test, pupillary dilation & constriction as indices of autonomic dysfunction, remitted schizophrenic, 9444

muscle relaxant injection & habituation & sensitization & conditioning trials, pupillary dilation conditioning, paralyzed cats, 10659

neuroticism vs. stability & extraversion vs. introversion, pupillary response, undergraduates, 8501

physical attractiveness & attitude similarity measured by pupilometry technique, changes in interpersonal attraction, 442

pretask instructional set in recognition & recall task, pupil size distinguishing cognitive processing phase, college students, 6068 simple vs. stereotype temporal conditioning of pupillary dilation & constriction, infants, 6467

Puppies (See Dogs) Purdue Perceptual Motor Survey

concurrent validity, Purdue Perceptual-Motor Survey & Perceptual-Motor Behavior Screening Checklist, students, 10252

factor analysis, Purdue Perceptual-Motor Survey; normal school children, 10348

Roach & Kephart Purdue Perceptual-Motor Survey, validity for young adult retardates, 4804

Puromycin

puromycin, retention of conditioned cardiac deceleration, goldfish,

Pursuit (Rotary) (See Rotary Pursuit) Pyramidal Tracts

brain stimulation, pyramidal & extrapyramidal control of tonic mechanisms, barbiturate anesthetized cats, 10593

single & repetitive thalamic stimulation, excitatory & inhibitory influences on pyramidal tract neurons, cats, 1943

Pyramidotomy

Pyromania

**Q** Sort Testing Technique

Q-sort technique, method to study impact of counseling, 4990

O Test (See Cochran Q Test)

Quadrigemina (Corpora) (See Corpora Quadrigemina)

Quadruplets

Quails functional castration by short photoperiod exposure & estradiole benzoate vs. testosterone propionate injections, sexual receptivity & courtship behavior & copulatory patterns, male vs. female Japanese quails, 3848

incentive distance & aggressive interaction, dominance hierarchy, Japanese quail, 2024

ocular & encephalic photoreceptors, role in photoperiodic control of reproduction, blinded Japanese quail, 6271

Quartimax Rotation

Questionnaires

audiotape vs. checklist vs. personal data questionnaire interview involvement procedures, getting action on guidance goals, overachieving 9th graders, 10067

Bale's concept of social psychological space, validation based on factor analysis of Bale's Interpersonal Ratings Questionnaire,

college organizational climate & feasibility of student leader input, description & discussion of Organizational Climate Descriptive Questionnaire, Form VII, 5344

conflicting values resolution, inconsistency among questionnaire

item responses, 8978 critical incident technique in questionnaire form, analysis of factors in motor vehicle accidents & near-accidents, college students & taxi-drivers, 12193

event-based vs. theory-based questionnaires, organizational research, private school students & faculty, 8884

factorial structure, R. Tausch's questionnaire for lecture evaluation, students, 9828

How Supervise? questionnaire evaluation, identification of training needs & measurement of change resulting from supervisory training program, 1st & 2nd & 3rd-level supervisors, 10156

observation & questionnaire, time spent talking & reading & writing on job, professional & technical & administrative & clerical

personnel in communications laboratory, 3411 Organizational Climate Description Questionnaire vs. Profile of a School Questionnaire teacher form, A. W. Halpin & D. B. Croft's organizational climates vs. R. Likert's organizational systems, elementary school faculty, 12148

perceptions & values & philosophies of sponsor, questionnaire design, industrial managers, 1388

Psychological Data Sheet, self-report of psychodynamic & genetic material, 11212

questionnaire & rating scales & quantification of behavior & crosscultural backgrounds & experimental-psychological tests & physiological & pharmacological & biochemical methods, quantification of depressive illnesses, 2577

questionnaire evaluation, information needs, individual & institutional subscribers to American Psychological Association's experimental publication system, 5740

questionnaire results, evaluation of Professional Psychology journal, practicing psychologists, 5721

questionnaire study, attitudes towards school democracy & mutual influence, elementary school teachers & school administrators & student teachers, 12117

questionnaire to assess body image, 6926

questionnaire use, practician manual, book, 8223

school readiness & school success prediction, screening questionnaire development, prekindergartners, 7752

social desirability & item ambiguity of questionnaire items & item format, response biases, college students, 8995

Social Readjustment Rating Questionnaire reliability, Navy enlisted men. 8232

voice-radio method vs. questionnaire, collecting human factors data, 8039

Questionnaires (Attitude) (See Attitude Measures) Questionnaires (Opinion) (See Attitude Measures)
Questionnaires (Personality) (See Personality Measures)

Quinidine
Quinidine Sulfate (See Quinidine)

Quinine

electrical stimulation of lateral hypothalamus vs. quinine adulteration of milk, responses to taste & caloric aspects of liquid food, rats. 1947

gonadectomy, body weight & quinine aversion & shock threshold, rats, 8646

large septal lesions vs. medial forebrain bundle ablations at septum level, reactivity to handling & responsivity to quinine & saccharin solutions & footshock, rats, 365

septal & amygdaloid lesions & solution concentrations, saccharin &

quinine preferences, rats, 1890 uinine Sulfate (See Quinine)

Rabbis

Rabbits

acoustic middle ear reflexes, auditory function, non-anesthetized rabbits, 6102

amphetamine & myristicin & macromerine, EEG depression & excitation & hallucinations & spikes & grand mal seizure & neurovegetative disturbances & ejaculation, rats & cats & rabbits, 382

chlorpromazine vs. stelazine vs. diazepam vs. chlordiazepoxide, EEG & dendritic & transcallosal responses, tracheotomized & scalped & craniotomized & artificial breathing rabbits & cats,

classically conditioned nictitating membrane response, investigating inhibitory control of auditory frequency dimension, rabbits, 8750 conditioned inhibition training, nictitating membrane response, rabbits, 8743

cortical spreading depression & slow potential change, cortical representation of conditioned eye blink, rabbits, 10626

CS vs. no stimulus vs. UCS vs. paired CS-UCS, acquisition & maintenance & extinction of jaw-movement pseudo-CRs & CRs, rabbits, 4065

dibenamine & phentolamine mesylate & phenoxybenzamine, evoked visual cortical potentials, rabbits, 1937

dopamine, ileum & heart & vas deferens adrenergic receptors, rabbits & rats, 3894

EEG arousal, projections from periaqueductal central gray to forebrain, females rabbits, 465

electrical stimulation of medial &/or lateral hypothalamus, barpress self-stimulation & shuttle-box preference & cardiovascular classical conditioning, rabbits, 8673

exogenous & endogenous serotonin, mesencephalic reticular formation vs. hippocampus, rabbits, 3923

fractionated X-irradiation, averaged evoked potentials to photic stimulation, rabbits, 8654

increase over time in stimulus generalization to apparatus, frequency & probability & amplitude of avoidance CRs, rabbits, 501

light deprivation & horizontal vs. vertical & 45° vs. 135° striations, pattern discrimination, rabbits, 2057

morphine injected intravenously vs. intraventricularly vs. into restricted parts of ventricular system, behavioral inhibition & EEG activation, rabbits, 8584

neocortical lesions, conditioned nictitating membrane responses, rabbits, 3937

nicotine, tranquilizing & electrophysiological effects, rabbits & mice, 451

nonreinforced preconditioned exposures to CS, Pavlovian eyelid conditioning & latent inhibition effect, rabbits, 4057

omission training, jaw-movement CR to water UCS, rabbits, 10739 photic stimulus vs. electrical stimulation of optic chiasma, evoked potentials from lateral geniculate nucleus & visual cortex & their modification during orienting behavior, rabbits, 6330

response-contingent changes in UCS intensity, nictitating membrane response, rabbit, 3998

septal & hypothalamic electrical stimulation, adrenergic & cholinergic blockade of cardiovascular responses, rabbits, 3945

sleep, changes in interhemispheric amplitude relationships in EEG, male humans & female cats & male rabbits, 3794

stimulus intensity change, olfactory bulb field potential responses to antidromic stimulation of lateral olfactory tract, rabbits, 10586 striatectomy, behavior & electrophysiology, adult vs. neonatal rabbits, 8677

systematic nalorphine administration vs. cerebraventricular system injection, morphine withdrawal symptoms, rabbits, 3900

thalidomide administration during gestation, fetus tissue & skeletal development, rabbits, 10640

thermic measurement method, rapid variations of local cerebral blood flow, rabbits & cats, 1792

theta activity, behavioral correlates, rats vs. guinea pigs vs. rabbits vs. cats, 1833

US magnitude, classical reward conditioning & extinction of jawmovement response & URs & CRs & pseudo-CRs, rabbits, 8763 Race (Anthropological) (See also Caucasians, Negroes)

dogmatism & intelligence & race, cognitive behaviors, 12th graders,

heritability & genetical & environmental & interactive variations, minimal qualitative & quantitative requirements for IQ differences between race & social class, analysis of S. Scarr-Salapatek's extension of J. L. Jinks & D. W. Fuller & L. J. Eaves's studies, 9162

historical & political context, race-IQ controversy, 6693

perception of racial characteristics by physical appearance, Puerto Rican secondary school students, 10966

race & expressed experience of hypnotist, hypnotic susceptibility, college students, 10387

race of E, intelligence test performance, Negro & white elementary school children, 5302

race-IQ controversy fallacies, book, 6746

residential patterns & family status & race & clinic visits number & sex & age & military service & heroin & other drug use patterns & withdrawal method & therapeutic status, heroin abusers seen in clinic, 4692

sibling position, number & type & intensity of fears, white vs nonwhite male vs. female upper- vs. lower-class 3rd vs. 6th graders, 9157

varied levels of beliefs & race with primacy, evaluative semantic differential scales & behavior differentials, college students, 11026 WISC scores & number of offenses & race & age & urban vs.

nonurban residence, male juvenile delinquents, 2685 Race Attitudes (See also Antisemitism, Ethnocentrism, Racism)

age & mothers' perceptions, ethnic attitudes & stereotypes of Tagalog & Chinese people, Philippine 10 15 yr. olds, 8836

age & sex & family size & racial origin & socioeconomic status, racial stereotypes & social distance patterns, Japanese & Chinese & racially mixed elementary school students in Hawaii, 2257

attitude scale responses, prediction of social interaction with Africans, South African college students, 6728

attitude survey on race related questions, cognitive differentials, black vs. white college teachers in Afro-American study program,

attractiveness judgments of photographs depicting white vs. black males vs. females, attitudes toward blacks, white undergraduates,

audiovisual vs. visual vs. audio vs. still picture presentation of black vs. white expressors, emotion perception, male vs. female white

undergraduates, 9038 Bock's model & racial attitudes, trait attribution & relational judgments, 4320

Caucasian vs. Negro models & rule vs. no-rule structure, self-control standards adoption, 6-11 yr. old Negro males, 10956

classroom racial balance, interracial attitudes, 3rd graders, 9970

conflict paradigm, race awareness, 2nd graders, 10951 cross-cultural differences, racial attitudes towards blacks &

Mediterraneans, Danish vs. American students, 10949 demographic characteristics, attitudes toward blacks & social action, 16 69 yr. old white urban residents, 6661

developmental age differences, race & sex attitudes & role awareness & identity & preferences, 3 6 yr. old blacks, 10799

directive vs. nondirective counseling & race, counselor style preference, black vs. white open- vs. closed-minded high school students, 10064

E's race & anonymity & need for approval, responses to attitude scale measuring prejudice towards blacks, white college students, 726

effective transference development in psychotherapy, black psychiatric resident & 11 yr. old white Southern girl, 7395

ethnicity of occupational status incumbent & nature of occupation, perception of gilding in occupational statuses, female college students, 7818

facilitation training, interpersonal communication, Negro & Caucasian prisoners, 11719

group psychotherapy & psychodrama, social & racial attitudes, racially mixed patient groups in community mental health clinic,

heterogeneous student teams & instructional games, cross-race & cross-sex interaction & helping & friendship, 7th graders, 7771 hypothetical vs. actual social situations, racial preferences, 2nd vs.

4th vs. 6th grade Negro vs. Caucasian girls, 10862 interethnic-group comparisons & attitudes, task performance in

homo vs. heterocultural setting, Flemish college students, 8943 Katz & Braly assessment & Stereotype Differential techniques, ethnic stereotypes, Filipino education students, 683

learning theory, segregationist thinking, 1686 modeling & social reinforcement, racial preferences, 6 10 yr. old white children, 10894

modifying black-white concept attitudes, racial attitudes on Preschool Racial Attitude Measure II & Pick-A-Class Test, black & white 1st graders, 7971

multidimensional scaling of similarities data with race & ethnic group names as stimuli, racial & ethnic stereotyping, 8948 occupation of black, racial attitudes toward black, undergraduates,

personality characteristics, transracial adoption, white females adopting black child vs. white females unwilling to adopt black child 2478

physiological feedback with bogus pipeline paradigm, racial attitude & stereotype change, college students, 11008 political & racial & Vietman War attitudes, racist & hawk

stereotypes, U.S. white ethnics, 2246 political ideology & interpersonal values & participation in demonstrations, attitudes toward social change & use of force & militarism & racial identification & drug use, male college students from U.S.A. & Canada & Netherlands & Denmark & Sweden & Finland, 684

preferences to symbolic representation of outgroups, ethnic attitudes, 6 & 8 & 10 yr. old upper-class whites, South Africa,

race discussion, openness & understanding & respect in therapy, black clients, 3043

race relations attitudes, racial harmony, racial subgroups, 2265 race vs. value similarity desired social distance & similarity appraisals, middle-class Afrikaan school children, 11006

race, therapeutic relationship, 2858 racial & social subgroup, racist & prejudiced attitudes, adolescents,

racial attitudes & stereotypes, "correctable potential" & personality trait evaluations & sentencing of Negro & Caucasian offenders, Caucasian undergraduates playing part of juvenile court judge, 2216

racial/ethnic group membership & sex & preschool racial/ethnic group contact, racial & ethnic group identification & preference, white & black & Mexican-American 4 yr. olds, 11016

rating person descriptions with corresponding behavioral state-ments, racial prejudice, Australian vs. New Zealand college students, 8971

reference-other support & ethnic attitudes, intergroup behavior, white college students, 11061 required tutoring, attitude toward black children, white education

students, 5498 responses to white vs. black TV commercial actors, white & black

females, 3444 self-perceived & ascribed characteristics, Mexican-American &

Anglo & bicultural college students, 8970 sex & race norms, personal space definitions & differential seating

behavior, black & white Ss, 11092 simulation games, modification of prejudicial attitudes toward

blacks, white teacher trainees, 5303 socioeconomic background & race & sex, self-esteem & school &

peer group & family orientation attitudes, white vs. black vs. Mexican-American vs. Oriental 4th 6th graders, 11980

stereotyped attitudes during war toward Indians & Indonesians & Iranians & Pakistanis & Saudi Arabians & Turks, Pakistani university students, 4300 supervision of whites by blacks, interracial difficulties in working

together in simulated organization, undergraduates, 1448 verbal attitude & voice tone, behavior toward blacks, white northern

liberal male college students, 4456 videotaped stimuli of racial & sex pairings in hostile vs. neutral vs. affectionate situations, galvanic skin responses, counselors, 10551 white vs. black Es, Situational Attitude Scale scores, white college students, 2294

age & length of addiction & employment & race & education, relapse rate, followup study of addicts committed under Narcotic Addict Rehabilitation Act, 11776

age & rank & race & military service branch, drug abuse & acquisition & availability & recognition of problems by admitted users, military personnel, 963

age & sex & family size & racial origin & socioeconomic status, racial stereotypes & social distance patterns, Japanese & Chinese & racially mixed elementary school students in Hawaii, 2257

atypical patterns in locus of control, nonadaptive behavior, black & white 8 10 yr. old males & high & low IQ 8 14 yr. old males & females, 2456

belief similarity & race & amount of information, response to stimulus person, 9th 10th grade Caucasian girls, 11124

biracial adoption dangers, black children, 6663

black vs. white examiner, aggressive & autonomic stress reactions, black vs. white youthful offenders, 7259

black-white bias in item content, psychosocial maturity scale, 6950 counselor-client racial differences, anticipation & perception of counselor behavior, black college students, 3087

culture vs. genetics, intelligence differences, Negroes vs. Caucasians, rejection of A. Jensen's position, 10518

direct vs. vicarious vs. perceived racial conflict, awareness of different black liberation groups, black vs. white 7th 12th graders,

E & S race & sex, verbal nonreinforcement & reinforcement responsiveness, 60-72 mo. olds, 5939

education & race & aptitude test performance & draft vulnerability, enlistment before becoming draft-eligible, 18 yr. old Air Force enlistees, 1465

facial & vocal cues, nonverbal communication in school setting, black vs. white 9th & 10th graders, 11909

facilitation vs. frustration & attitude similarity & race, interpersonal attraction, college students, 6822

factor analysis of Illinois Test of Psycholinguistic Abilities & Metropolitan Readiness Test or Stanford Achievement Tests, black vs. white disadvantaged 1st & 2nd & 3rd graders, 9877

genetics, intelligence differences, Negroes vs. Caucasians, 10441 genetics, racial differences & IO, 6101

group counseling & race & age & basic skills achievement, self concept, 16 20 yr. old economically disadvantaged females in

federal job training program, 10140 hypothetical vs. actual social situations, racial preferences, 2nd vs. 4th vs. 6th grade Negro vs. Caucasian girls, 10862

interest patterns & media preference, male vs. female & black vs. nonblack & high vs. middle vs. low socioeconomic status 4th & 5th graders, 2108

interracial conflicts as resistance, group psychotherapy, 7516 low vs. high availability of social stimulus in verbal conditioning paradigm with black reinforcing agent, efficacy of stimulus as social reinforcer, black vs. white college students, 4270

marital status & education of mother & father & teacher predictions & race & sex & reading readiness & intelligence & degree of handicap, school success vs. failure, culturally disadvantaged children, 10040

material vs. verbal rewards, aptitude test scores, white vs. black prison inmates, 11510

model's race vs. O's age & race, imitation, 3 & 5 & 7 yr. olds &

Negro & Caucasian peer models, 10872 multidimensional scaling of similarities data with race & ethnic

group names as stimuli, racial & ethnic stereotyping, 8948

skin color & physiognomy of dolls, racial misidentification, male vs. female & black vs. white & 4 vs. 5 vs. 6 yr. olds, 6685

skin color & sex, self concept, low socioeconomic level Mexican-American high school students, 8946

social worker-client racial difference, casework relationship, 5068 student self-concept & teacher perception of student academic ability, academic achievement prediction, black vs. white vs. Spanish 6th graders & black vs. white teachers, 11974

verbal IQ & perception of self in school & race & fate control & socioeconomic status & sex, academic performance, 5th & 6th graders, 9969

verbal-logical & nonverbal-perceptual cognitive processes & sex & race & socioeconomic status, mathematical achievement prediction, 5th graders, 9992

videotape focused feedback, facilitative genuineness in cross-racial counseling, black & white male & female school counselors, 10106 Racial Discrimination

affective component of racial stereotypes, attitudes of social distance toward Americans & Chinese & Japanese & Spanish mestizos, Filipino college students, 11037

cultural identification & feelings of discrimination & college major, Asian vs. U.S. born Chinese college students, 4362

intra- & interpersonal conflicts in predominantly white large American universities, black administrators, 1308

psychological test misuse & invalidity, racial discrimination in employment & promotion, implications for psychologists' legal & ethical standards, 10270

racial & regional inequalities in school resources, academic achievement, students, 9692

racial discrimination, IQ scores, 6776

Racial Integration (See also School Integration (Racial))

subcultural group integration in cultural enrichment program, 5 8 yr. old disadvantaged black elementary school students, 3276

voice quality of black vs. white speaker, perceptual characteristics attributed to speaker, 13 yr. old students at all-black vs. all-white vs. integrated junior high schools, 3196
Racial Segregation (Schools) (See School Integration (Racial))

Racism

administration & initiation of services & community advisory council, initial planning & operation of urban mental health center, black neighborhood 1966 1970, 9596

family agency development process, racism transmission, casework-

psychotherapeutic method, racism & psychopathology, 3053

racism, mental health service treatment inadequacies, elderly black psychiatric patients, 2593

racism, minority client white social worker relationship, 5135

religious belief in free will & orthodoxy & denominationalism & extrinsic religious orientation, predicting anti-Negro prejudice, white adults, 10998

world population & urbanization & marriage & racism & minorities & education & authoritarian political control & war in Southeast Asia, changing value systems, 8964

Radial Nerve (See Spinal Nerves)
Radiation (See also Laser Irradiation)

fractionated X-irradiation, averaged evoked potentials to photic

stimulation, rabbits, 8654 isolation in quiet environment vs. aggregation in noisy environment, brain incorporation of carbon atoms of D-mannose & D-glucose injected subcutaneously, mice, 374

radiation- & lithium-chloride, conditioned taste aversions, rats, 10594

**Radiation Therapy** 

Radical Movements (See also Political Anarchy, Political Revolu-

radical analysis, therapy, book, 11524

radical innovations in institutions of higher learning, reply to Rogers's criticism, 9863

Radicalism (Political) (See Political Radicalism)

Radiculitis

Radio

demographic factors & radio station selection, listed vs. unlisted telephone subscriber households, implications for telephone interviewing in survey research, 10168

voice-radio method vs. questionnaire, collecting human factors data, 8030

Radiology

Rage (See Anger) **Railroad Trains** 

Rams (See Sheep) Random Sampling

random vs. non-random sampling, 8249

statistical inferences about populations & S treatment effects & randomization tests to show validity, 1 S experiments, 6

Rank Difference Correlation

congruent validity by computation of Spearman rank-order correlation coefficients for like-named scales, SVIB & Kuder Occupational Interest Survey Comparison, reply to F. Kuder, 3524

Rank Order Correlation

nondegenerate solutions, geometrical analysis of unfolding model,

sensitive rank tests, comparison of effects of 2 treatments on single group, 59

Rape

aggressive vs. sexual vs. sex-aggression diffusion aim of rape, clinical classifications of rapists, 9320

group sexual assaults, application of collective behavioral principals & characteristics of single vs. multiple offenders, 4693

race & IQ, Rorschach performance, convicted rapists vs. nonsexual aggressors, 7258

sexual assault & subsequent Heller's dementia, 4 yr. old female, 7202

Rapid Eye Movement

age, amount of sleep & REM sleep & length of sleep bouts & sleep EEG, 104 1005 day old male rats, 349

EEG & eye movements & tonus & respiration & EKG & electrodermogram, afternoon sleep in no deprivation environments, 20 26 yr. olds, 8560 normal vs.

EEG, sleep & REM, chimpanzees from birth to 2 mo. old, 8497 REM & NREM sleep reports, hallucinatory fantasy, schizophrenics & college students, 9314

sleep & dreaming vs. dream deprivation, recall of ego-threatening or nonthreatening material, college students, 8396

Rapid Eye Movement Dreams (See REM Dreams)

Rapid Eye Movement Sleep (See REM Sleep)
Rapport (See Interpersonal Attraction)

Rat Learning

afferent stimulation of hippocampus, hippocampal facilitation & RNA buildup, rats with low inborn learning ability, 6278

alpha-methyltyrosine, learning behavior & hippocampus activity, rats, 8590

automated discrimination apparatus, learning, monkeys & rats, 6398 bar-pressing time discrimination, spectral analysis of response force variations as evidence of neuromuscular sensory feedback, rats,

brightness vs. spatial discrimination reversal problem training in Ross maze, overtraining reversal effect, rats, 2035

continuous vs. partial reward delay, motivational effects of nonreward in double alleyway, rats, 8762

correction vs. noncorrection training procedure & task difficulty, brightness vs. position discrimination, rats, 3984 delayed reward, anticipatory errors in linear maze with 2-choice

spatial discrimination units, rats, 10737

depletion of peripheral sympathetic noradrenaline induced by hydroxydopamine, escape & avoidance responding, rats, 8610 differential reinforcers as discriminative stimuli over intertrial

intervals, discrimination learning, rats, 8754 distributed vs. massed exposure to conditioned cues & exposure to

distinctive apparatus stimuli previously paired with vs. never associated with shock, retention, immature rats, 4022 drive, correct responses in position reversal learning & t-maze &

discrimination learning & running time, rats, 6341 early environmental restriction, reversibility of learning deficits,

rats, 6347

electric shock, exploratory behavior, rats, 10693 fixed- and variable-interval schedule control, response transfer, rats,

intercorrelation of experimental observation methods, exploratory & motor behavior & learning & conditioning, albino rats, 477 late vs. early experience with stimuli, perceptual learning,

discrimination, rats, 10705 learning vs. maturation, change in inability to mate with passive

females after successful copulation with sexually active females, sexually mature inexperienced male rats, 4042

learning, development of specific food appetites, rats, 4038 observational learning of aversive Pavlovian stimulus contingency, vicarious conditioned acceleration, rats, 2032

olfactory stimuli, learning abstract relation of oddity, rats, 8738 oxazepam, facilitation of learned behavior suppressed by CER or

punishment, rats, 421 perceptual & locomotor memory components, escape & avoidance

learning, male rats, 4036 postweaning & maze training & exploration & handling, learning &

performance, water-deprived rats, 10696 previous body weight level, straight-alley performance, rats, 10713 reinforcement delay, discrimination learning, rats, 6359

reward magnitude & single vs. multiple pellets, runway time & extinction, rats, 6357

scopolamine, spatial double alternation, rats, 8688

selective attention vs. stimulus generalization interpretation, reversal learning on brightness discrimination & easy-to-hard effect, rats,

583

- tetrahydrocannabinol, learning dissociation in marihuana-tolerance,
- 6-hydroxydopamine-induced neonatal sympathectomy, open field activity & avoidance learning & retention & sexual behavior & endogenous norepinephrine in lower brainstem & cerebral cortex & hypothalamus, rats, 6299

### Rate (Heart) (See Heart Rate)

# Rating

- chi-square analysis & probabilities, agreement & reliability of judges & raters in psychological research, 44
- counselor trainees counseling effectiveness ratings, counselor educators vs. clients trained vs. nontrained in objective rating techniques, 11304
- familiarization, ratings of pictures of blacks & whites, 9 11 yr. old whites, 11052
- prior experience & access to informational feedback & rated gymnasts' performance levels, individual & group performance ratings, 4411
- response requirements & directional fractionation, heart rate & skin conductance & digital & cephalic vasoconstriction, male college students, 8528
- top & bottom peer rating nominations, cadet performance factors, ROTC seniors, 8094
- variations in rating scale characteristics, means & reliabilities of ratings, college & graduate students, 8213

#### Rating Scales

- behavior assessment rating scales for psychotropic drug research, geriatric patients, 11749
- Behavior Classification Project, interrater reliability, parents & teachers & 11-13 yr. olds from schools & outpatient clinics, 7153
- behavioral & mood & cognitive functioning rating scales, geriatric psychopharmacology, literature review, 1050 development of Play Session Behavior Scale & Psychosexual
- Content of Play Scale, ghetto 4 5 yr. olds, 4096
- factor-analytic reanalysis, job satisfaction & morale rating scales, Air Force personnel, 8055
- Guided Self-Rating Anxiety-Depression Scale for use in clinical psychopharmacology, intensity & recurrence ratings for anxiety & depression & somatopsychic asthenia & somatization & hypochondriasis & sleep disturbance, 7460
- individual prominence & ascendence & social approval scales, norms & reliability & validity, Dutch students, 10250
- magnitude estimation vs. rating scales, internal & external consistency validity, 8253
- magnitudes estimation vs. rating scales, internal & external consistency of weight measurements, college students, 8260
- Mathematics Anxiety Rating Scale, normative & reliability & validity data, college students, 5788
- Maturity Scale of Missouri Children's Picture Series & Teachers' Rating Scale of Maturity, school related correlates, elementary school students, 9942
- mean subvocalizing effort scale values of J. Greenberg & J. Jenkins's CCVCs, S effort ratings, Dutch & American deaf 13 18 yr. olds vs. hearing undergraduates, 11427
- meaningfulness vs. meaninglessness of semantic differential scale, extremity of ratings of game behavior of opponents, 14 16 yr. olds, replication of D. O'Donovan's study, 6835
- monotone analysis of variance, application to reduction of numerical data from magnitude estimations or graphic ratings to
- mood adjective checklist, monopolar vs. bipolar factors, 6973
- multidimensional scaling of 9-point dissimilarity ratings, model for classification of collective behavior, undergraduates, 798
- multitrait-multirater analysis, evaluation of P. Smith & L. Kendall's behavioral expectation scales in measuring nursing performance, supervisory nurse evaluators, 918
- Navy Adjective List, identifying superior reenlistment likelihood, navy personnel, 12129
- negative estimations for emotional word pairs, replication & reanalysis of G. Ekman's multidimensional scaling model for positive similarities, 3712
- oral scale development based on Behavioral Rating Inventory for Autistic Children, preoral & oral sucking & biting behavior & oral traits, psychotic & retarded & brain damaged & character disordered & neurotic latency-aged male children, 4702
- performance evaluation rating scale size, information required & accuracy, college students, 12133

- proportion of scale used & testing time & usage of uncertain category, optimal number of alternatives for Likert-scale items, college students, 8231
- questionnaire & rating scales & quantification of behavior & crosscultural backgrounds & experimental-psychological tests & physiological & pharmacological & biochemical methods, quantification of depressive illnesses, 2577
- rating scale criteria development, anxiety & morale & depression & multiple symptom measurement, geriatric patients, 11748
- rating scale development, physical & mental impairment-of-function, chronically ill aged, 7162
- rating scales, performance evaluation, bibliography, 10160 ratio vs. successive categories interval scale, ratings of subjective utility of money, college students, 5780
- scale construction & evaluation, rating college instructors, 7776 Scale for Rating Behavioral Characteristics of Superior Students,
- rating learning & motivation & creativity & leadership, 7940 self-rating polarizing scales, differential diagnosis of reversible vs.
- irreversible syndromes of endogenous psychoses, 9651 self-rating vs. multi-item scale testing, personality trait measurement, hospitalized patients, 7314
- semantic differential method vs. 6-point scale rating method, 3-color
- harmony & impression formation studies, 3521 teacher administered Scale for Rating Behavioral Characteristics of
- Superior Students, validity & reliability, 7941 variations in rating scale characteristics, means & reliabilities of ratings, college & graduate students, 8213
- vocational adjustment rating scale for retardates, experimental
- edition, 4652 vocational rehabilitation, gains in earnings & work status & perception of physical & emotional health & social & personal activities, development of Rehabilitation Gain Scale, 5171
- weighted averaging model, integration of information in personality
- impression formation, college students, 6868 Ratio Reinforcement (See Fixed Ratio Reinforcement, Variable
- Ratio Reinforcement) Ratiocination (See Logical Thinking)

# Rationalization

rationalization, relationship between mental and socioeconomic structures, 9150

## Rats (See also Norway Rats)

- (+)-amphetamine applied iontophoretically to brainstem neurons following reserpine vs. a-methyl-paratyrosine vs. bis-(1-methyl-4homopiperazinyl-thiocarbonyl)- disulphide, excitatory & inhibitory actions on single brainstem neurons, rats, 1840
- (+)-amphetamine sulphate dosage, conditioned anxiety & suppression of bar pressing, rats, 1849
- (8-lysine)-de -9-glycinamide -vasopressin vs. lysine vasopressin & lysine vasopressin after tryptic digestion, extinction of avoidance response & endocrine activity, rats, 372
- "truly random" vs. traditional control procedures, on-base-line CER for licking behavior, rats, 6411
- a-methyl-p-tyrosine, ethanol-induced motor stimulation, female
- mice & male rats, 3867 a-methyltyrosine & reserpine, operant shuttle-box & t-maze task performance, 6-hydroxydopamine treated & centrally-sympathec-
- tomized rats, 10607 abnormal responsiveness to electric shock, altered rates of acquisition & extinction of avoidance behavior, adrenalectomized
- & hypophysectomized rats, 10622 ACTH & lysine vasopressin & vasopressin & oxytocin, passive avoidance, rats, 1903
- actinomycin D injection into hippocampal area, maze performance of learned position discrimination task, rats, 1917
- activity & age & ration size, body weight loss rate, male rats, 3999 activity restriction without restriction on eating, induced psychogen-
- ic obesity, rats, 2052 activity vs. immobility conditioning & curarization & punishment,
- heart rate conditioning, rats, 6135 acute & chronic amphetamine administration, brain acetylcholinesterase & choline acetylase activities & eating behavior, rats, 3902
- ad lib vs. satiation vs. restricted feeding, t-maze preference for food vs. sensory-activity, handled vs. nonhandled rats, 10793
- adrenalectomy & gonadectomy & TACE, conditioned suppression to noxious stimuli, rats, 8663
- adrenalectomy, open-field behavior, rats, 6279 afferent stimulation of hippocampus, hippocampal facilitation & RNA buildup, rats with low inborn learning ability, 6278

age & postnatal test experience, prenatal stress effects on behavior, rats, reply to J. Archer & D. Blackman, 8736

age & sex, alterations in DNA-bound amino acids, rats, 6186

age differences, avoidance conditioning & retention, rats, 530 age, acquisition & retention of active & passive avoidance learning, rats, 8722

age, amount of sleep & REM sleep & length of sleep bouts & sleep EEG, 104–1005 day old male rats, 349 air vs. odor stimulus before unavoidable shock, food licking

response suppression, rats, 10724

alpha-methyltyrosine, learning behavior & hippocampus activity, rats, 8590

alternating vs. irregular partial reward schedules, response patterning & speed on runways, rats, 6358

amphetamine & cocaine, turnover rate of brain catecholamines & motor activity, rats, 1853

amphetamine & hydroxyamphetamine & dihydroxyphenylalanine & 5-hydroxytryptophan & reserpine & syrosingopine & methyl-ptyrosine & p-chlorophenylalanine & chlorpromazine & cyproheptadine, amphetamine state conditioned avoidance & recall, albino

amphetamine & myristicin & macromerine, EEG depression & excitation & hallucinations & spikes & grand mal seizure & neurovegetative disturbances & ejaculation, rats & cats & rabbits, 382

amphetamine & pilocarpine, eating habits, rats with & without chronically low acetylcholinesterase levels, 434

amphetamine analogues, a-methyl-p-tyrosine induced catalepsy, rats, 455

amphetamine vs. L-ephedrine p-hydroxylated derivations & unilateral lesion of nigrostriatal pathways, rotational behavior & striatum endogenous dopamine content on brain's intact side, rat, 1843

amygdala & lateral hypothalamic lesions, inability to orient & localize stimuli in contralateral visual & somatosensory fields, rats, 10688

amygdalectomy, mixed reinforcement schedule contrast effects, rats,

amygdaloid lesions & photic stimuli, visual evoked potentials & locomotor & appetitive behavior, rats, 6312

amygdaloid vs. brainstem neuron refractory periods, stimulus-

bound eating & drinking, rats, 10671 anosmia & blindness vs. sham operations, hoarding of food & nonfood items, rats, 3970

anosmia produced by olfactory bulbectomy vs. deafferentation, mouse killing, rats, 1949

apomorphine induced motility, role of dopaminergic systems, rats, 8643

apomorphine vs. amphetamine, dose-related lever-pressing behavior, rats, 3875

apomorphine, raised reactivity vs. motor disturbance in stereotyped motor patterns, rats, 6235

apparatus exposure & age, open-field behavior, rats, 485

appetitive barpressing, hippocampal EEG & visual evoked responses, rats, 6182

ascending & descending excitatory influences, brain stem reticulum, rats, 306

atropine sulfate pretreatment, arecoline-vs. saline-cued lever-pressing discrimination, female albino rats, 456

auditory intensity differentiation, persistence of dynamism effects & development of generalization gradients during extinction, rats,

auditory stimulus paired with reduction in incentive quantity, active avoidance, rats, 564

automated discrimination apparatus, learning, monkeys & rats, 6398 average reward, negative stimulus performance in differential conditioning, rats, 8745

aversive stimulation, preference for familiarity, rats, 3982

avoidance acquisition, electrocorticogram & EKG & EMG arousal threshold with tone as stimulus, rats, 337

avoidance contingency with vs. without supporting escape contingency, operant responses, rats, 1980

avoidance probability & sex differences, 1-way vs. shuttle-avoidance performance, rats & gerbils, 478

azaphen & imipramine & subsequent amphetamine, shock avoidance reflex, rats, 1933

bait shyness occurring when flavor CS is followed by illness UCS, prolonged CS-UCS interval, role of gustatory system, rats, 4018

barbital prolonged administration & subsequent withdrawal, behavior & EEG & brain cortical g-aminobutyric acid content, rats, 6226

basal forebrain electrical stimulation, mating behavior, rats, 6253 benzodiazepines, anxiety-reducing activity by reduction of brain serotonin turnover, rats, 1964

benztropine & erhybenztropine & diphenylpyraline & brompheniramine & chlorpheniramine & methixene, catecholamines accumulation in central dopamine nerve terminals, rats, 1871

berberine hydrochloride, amphetamine induced activity & pentobarbitol sleeping time & amphetamine toxicity & pentylenetetra-zol seizures & ECS convulsions & pain threshold & barbiturate hyperalgesia, cats & mice & rats, 3956

beta adrenergic antagonist dl-isoproterenol hydrochloride vs. beta adrenergic antagonist dl-4-[2 hydroxy-3-isopropylaminpropoxy]-indole, learned taste aversion mediation, rats, 1893

between- vs. within-Ss design, free vs. forced vs. alternating free & forced exploration, rats, 6440

bidirectional manipulation of length of successive nonrewarded trials, pre- & postshift performance, rats, 500

bilateral anterior & posterior hippocampal lesions, spatial & visual discrimination & stimulus acquisition & reversal shifts & transfer, rats, 1941

bilateral hippocampal or cortical lesions made by aspiration, go & no-go task with bar pressing reinforced on alternate trials, rats,

bilateral lesions of lateral hypothalamus, weight regulation with high-fat diet & water & sucrose & saccharin solutions, rats, 428

bilateral lesions of 1 or both somatosensory cortex areas, tactile discrimination, rats, 1868

bilateral septal vs. cortical control lesions & shock escape & avoidance & food reinforcement, discriminative responding, rats, 6285

bilateral spaced hemisections of spinal cord & isolation of shortfiber multisynaptic system, instrumental escape response as index of pain, rats, 3855

biotransformation of oxazepam, open-ring metabolites & aromatic hydroxylation in urine, man & miniature swine & rats, 461

bipolar tungsten electrode mapping of mesencephalon, electrical self-stimulation & behavioral & motor responses, rats, 275

blocked trials duration & number & total time, avoidance extinction, rats, 6426 brain lesions, eating & drinking & irritability & aggression &

copulation, rats, 10663 cage size, open-field behavior during social isolation, rats group-

housed since weaning, 6436

caloric-equivalent glucose solution & distilled water & food deprivation, self-selection of alcohol solution, rats, 453

carbachol & eserine injection into amygdaloid complex, EEG seizures & behavior convulsions, rats, 354 carbachol vs. eserine vs. norepinephrine applied to diencephalic or limbic regions, deprivation-induced drinking, rats, 1950

carbamylcholine & acetylcholine & epinephrine & norepinephrine, application to brain tissue, behavior of CNS single units, rats, 1891

caudate nuclear stimulation vs. novel visual stimulation vs. both, disruption of habituation, rats, 373

caudate stimulation, retrograde amnesia threshold & gradient, rats,

Centrum-Medianum-Parafascicularis lesion, food-reinforced operant response frequency increase & CER intensity & persistence decrease measured by conditioned suppression, rats, 1856

CER & heart rate & defecation, partially immunosympathectomized & normal pregnant rats, 380

chemical manipulation & drive system excitation & site of stimulation, physiological bases of drive & punishment systems during self-stimulation, rats, 8667

chlordiazepoxide & amphetamine effects interaction, food intake & spontaneous motor activity, rats, 6277

chlordiazepoxide & drug-state changes, 2-way shuttle avoidance, rats, 6276

chlordiazepoxide & pentobarbital & chlorpromazine & methotrimeprazine & imipramine & morphine & d-amphetamine & scopolamine & LSD-25 & phencyclidine, rate of hemicholinium-3 induced brain acetylcholine depletion, rats, 3877

chlordiazepoxide vs. saline, starting & running responses in straight runway with shock motivation, rats, 401

chlordiazepoxide, blood corticosterone during repeated electric shock stress, rats, 8637

chlorpheniramine & structural analogs, inhibition of dopamine uptake into synaptosomes of corpus striatum, rats, 1957

chlorpromazine & amphetamine, basal metabolism & conditioned reflex activity under stress conditions, rats, 1918

chlorpromazine & methylphenidate, pattern discrimination learning & relearning & extinction, rats, 8633

chlorpromazine & perphenazine & haloperidol & lesions of mesence-phalo-diencephalic brain parts, cataleptic response, rats, 1857

chlorpromazine acute & chronic administration, brain amino acids, rats, 3901

chlorpromazine repeated administration after CCl poison vs. partial hepatectomy, methionine S incorporation, rats, 1938

nepatectomy, methionine's incorporation, rats, 1998 chlorpromazine vs. tizercine & aseptic inflammation, permeability of blood-brain barrier for uranine vs. 1-albumine, rats, 3919

chlorpromazine, inhibition of L-tryptophan or 5-methoxy-N,N-dimethyltryptamine induced hyperactivity & hyperpyrexia, rats treated with monoamine oxidase inhibitor, 1876

chlorpromazine, resistance of leverpressing to extinction under varying habit strength & drive levels, rats, 3942

cholinergic stimulation of midline thalamic nuclei, alterations of defensive reactions, rats, 3862

chronic diisopropylfluorophosphate & subsequent scopolamine & methyl scopolamine & a-methyl-p-tyrosine, drinking behavior, rats, 6239

chronic ketamine administration, development of EEG seizure activity, rats, 10651

chronic maternal absorption of nicotine vs. hypoxic episodes, life span of offspring, rats, 8648

chronic vs. acute ip marihuana extract injections, acquisition & retention of conditioned fear, rats, 392

circadian rhythm & food access delay & bilateral subdiaphragmatic vagotomy & bilateral adrenal medullectomy, deoxy-D-glucose & methyl-D-glucose induced feeding response, rats, 1841

classical conditioning, eating & drinking elicited by hypothalamic stimulation, rats, 3908

classical vs. nondifferential punishment extinction procedures & discriminative cues, discriminated barpress avoidance, rats, 6387 classical vs. pseudo-conditioning, unit behavior in hippocampal

circuits, rats, 8563 clonidine & noradrenaline & methysergide & LSD & phentolamine

& p-chlorophenylalanine, sleep, chicks & rats & cats, 398 complete transection of fornix, reversal of position habit, rats, 1882 compound summation as index of excitatory properties, CSs acquired in brief acquisition period & after prolonged extinction, rats, 4055

concurrent appetitive-aversive schedules, nondiscrimination avoidance extinction, rats, 6407

concurrent random interval reinforcement & stimulus changeover delay & reinforcer duration & noncontingent & signaled shock, lever pressing response rate, rats, 4003

concurrent variation of response bias & sensitivity, operant discrimination between standard auditory intensity & attenuated comparison values, rats, 2053

conditioned reinforcement, maintenance of discrete operant discrimination, rats, 2061

conditioned reinforcement, 1-trial exploration learning, waterdeprived rats, 6339

conditioned responses in reticular formation, rats, 8737

conditioned stimulus associated with formalin administration, water & sodium intake, rats, 473

conditioned suppression technique, criterion discrimination of amyl acetate at 10 of vapor saturation, rats, 2027

conditioned suppression, consecutive responding in counting behavior, rats, 10707

conditioned-suppression, effects of UCS habituation, rats, 10772 conditioning vs. pseudoconditioning, unit responses & movement behavior in thalamus & cortex, rat, 8514

connector attachment to skull without screws, rats, 6124

consistent reward & single alternation vs. irregular schedule of intermittent punishment in runway, pattern discrimination learning, albino rats, 1975

constant reward magnitude & constant reward delay, acquisition & extinction in runway, rats, 8730

contingent & noncontingent schedules of continuous & partial reward & nonreward, runway running response extinction performance, rats, 1974

continuous light vs. darkness, REM sleep inhibition, rats, 1799 continuous recording technique, gastric vascular tonicity, rats, 8601

continuous vs. intermittent access to food, caloric compensation, rats, 3992

continuous vs. intermittent vs. selective vs. variable interval reinforcement, intraindividual topographical variability & rate measures of responding, rats, 4028

continuous vs. partial reward delay, motivational effects of nonreward in double alleyway, rats, 8762

control of shock, subsequent shock-elicited aggression, rats, 4044 corpus striatum chronic lesions, reserpine- & apomorphine- & amphetamine- & haloperidol-induced syndromes, rats, 10614

cortical & hippocampal lesions, hoarding behavior, rats, 3976 cortical lesions, hypothalamic stimulated eating, rats, 10667

cortical spreading depression & food deprivation, glucose licking duration, rats, 6256

cortical spreading depression, food & water intake & body weight, ventromedial hypothalamic vs. sham lesioned static obese rats, 10692

cortical spreading depression, instrumental avoidance learning, rats, 6327

6327
counterconditioning vs. forced exposure, extinction of avoidance responding & conditioned fear, rats, 10792

cross-species vs. inter-species vs. isolation housing, inter-& intraspecies social attraction, rats & gerbils & hamsters, 4077 cross-transfusing blood, humoral factors in maternal behavior at

cross-transfusing blood, humoral factors in maternal behavior at parturition, mother & virgin rats, 333

CS exposure length & blocking of response, rapid elimination of

CS exposure length & blocking of response, rapid elimination of avoidance behavior, rats, 6346

cyclazocine & LSD, Sidman discriminated-avoidance performance, rats, 1967

d-amphetamine & mescaline & d-LSD ip injections, neurochemical action & fixed ratio behavior & tolerance, rats, 1959

d-amphetamine & scopolamine & chlordiazepoxide, suppression of self-stimulation by tetrabenazine & physostigmine & chlorpromazine & pentobarbital, rats, 3939

D-tetrahydrocannabinol, macro- & microdistribution & polymorphic EEG effects, rats, 10680

D-tetrahydrocannabinol, variable interval schedule response rate, rats, 10625

days after birth, brain waves & spontaneous motor activity, 20-30 day old rats, 3819

DC vs. radio-frequency current ventromedial hypothalamus lesions vs. ventromedial hypothalamus destruction & percentage body weight loss, motivated behavior, rats, 420

decrease in sound intensity, secondary reinforcing properties to another stimulus, rats, 6376

delayed footshock ECS pairings, amnesia, rats, replication of A.M. Schneider & W. Sherman's study, 3891

delayed reward, anticipatory errors in linear maze with 2-choice spatial discrimination units, rats, 10737

delivery mode & early handling & sex, weaning weight adrenocortical reactivity & open field behavior, rats, 10768

delta-9-tetrahydrocannabinol & chlordiazepoxide, shock-elicited fighting & fixed interval food-reinforced lever-pressing, male albino rats, 419

demythylation of 3-0-methyldopa, rats, 1850

depletion of peripheral sympathetic noradrenaline induced by hydroxydopamine, escape & avoidance responding, rats, 8610 desalivation, sucrose & glucose & fructose solution selection &

ingestion, rats, 359

desipramine & imipramine & protriptyline & benztropine & d- & lamphetamine & p-chloroamphetamine & cocaine & pretreatment
with nialamide, O-methylated noradrenaline & normetanephrine
& nor-O-methylated dopamine & 3-methoxytyramine levels in
brain & locomotor & rearing & stereotyped between, rats, 8670
device, for administering volatile anesthetics, stereotypic, support

device for administering volatile anesthetics, stereotaxic surgery, rats, 1892

device for presenting mouse or frog remotely vs. manually in controlled manner, neurophysiological study of mouse- & frogkilling, rats, 2012

dexamethasone & early experience with electric shock, adult avoidance behavior, rats, 1879

dexamethasone, affective behavior & adrenal reactivity following septal lesions, rats, 10679

diazepam & chlordiazepoxide & nitrazepam & oxazepam, motor coordination & orienting reaction disturbances peculiar to tolerance development, mice & rats, 10616

diazepam & methylphenidate prior to shock traumatization in infancy, avoidance conditioning in adulthood, rats, 10620

diazepam injections following electrical stimulation of lateral hypothalamus, thresholds for stimulation-induced eating in eaters vs. noneaters, rats, 463

diet protein level & spatial & tactual & visual environmental enrichment & impoverishment, starting latencies & maze time & errors in Hebb-Williams maze, male rat pups, 3978

dietary amino acid pattern, food preference behavior, rats, 3844 dietary sodium deprivation, sodium appetite, adrenalectomized rats,

differential preweaning social isolation, emotional reactivity & open field behavior & starvation stress tolerance, rats, 2011

differential reinforcers as discriminative stimuli over intertrial intervals, discrimination learning, rats, 8754

differential stress of parents & basal body temperature, sex ratio of offspring, rats & humans, 8561

difficult auditory discrimination, discrimination reversal in conditioned emotional response experiment, rats, 4047

discrimination learning on variable interval reinforcement schedule with different light & tone combinations, response summation, rats, 8747

discriminative punishment training, generalization of activity, rats, 1977

discriminative stimulus duration & variability in chained reinforcement schedules, stimulus control acquisition & maintenance, rats, 6399

discriminative stimulus, elicitation of water-reinforced responding & drinking, water-satiated rats, 4078

domestication, reproduction & social dominance & unsignaled operant & active & passive avoidance & bar-pressing for water, wild vs. domestic rats, 6352

dopamine, ileum & heart & vas deferens adrenergic receptors, rabbits & rats, 3894

dorsomedial hypothalamic lesions, hypophagia & hypodipsia & hypoactivity, rats, 8591

double-pulse stimulation, self-stimulation brain anatomy, rats, 6260 duration & speed & course length, food finding approach orientation, rats, 6349

early castration & fluoxymesterone vs. testosterone propionate, adult mating behavior following exogenous testosterone & penile development, male rats, 3896

early protein deprivation & malnutrition, novel vs. familiar object responses, rats, 3981

ECS & footshock, proactive changes in activity level, rats, 3915
ECS & low-intensity electrical brain stimulation of reticular formation electrocorticographic natterns, rats 1898

formation, electrocorticographic patterns, rats, 1898
ECS & scopolamine & physostigmine, acquisition of 1-way avoidance task, rats, 10610

ECS after reactivation of consolidated memory trace, retrograde amnesia for fear conditioning, rats, replication of J. R. Misanin & R. R. Miller & D. J. Lewis's study, 8608

ECS induced amnesia, avoidance behavior recovery using ice water immersion as aversive training stimulus & footshock as recovery stimulus, rats, 6322

ECS, memory of novel stimulus, rats, 8725

ECS, passive-avoidance behavior & amnesia during acquisition & consolidation & testing, rats, 8653

ECS, 1-trial appetitive learning vs. 1-trial heart rate conditioning, rats, test of consolidation hypothesis of memory storage, 8691

ECS, 1-trial discriminated avoidance, rats, 1951 electric shock, exploratory behavior, rats, 10693

electric stimulation of brain stem reticular formation, hippocampal theta rhythm & muscle activity, unanesthetized & cervical & midbrain transected rats. 10645

electrical brain stimulation as UCS & lights as rewarded & unrewarded stimuli in discriminative classical conditioning & counterconditioning of sniffing response, hippocampal EEG correlates, rats, 3907

electrical brain stimulation frequency, stress ulcers, rats, 6257 electrical brain stimulation, rewarding & drive-inducing function,

rats, 6363
electrical stimulation & lesions of zona incerta & lateral

electrical stimulation & lesions of zona incerta & lateral hypothalamus, drinking & feeding, rats, 10631

electrical stimulation of hypothalamus preoptic area, copulatory behavior, male rats, 8645

electrical stimulation of lateral hypothalamus vs. midbrain tegmentum, brain catecholamine concentrations & adrenocortical activation of self-stimulatory vs. aversive behavior, rats, 433 electrical stimulation of lateral hypothalamus vs. quinine adulteration of milk, responses to taste & caloric aspects of liquid food, rats, 1947

electrical stimulation of rewarding lateral hypothalamic & aversive midbrain sites, unit & EEG responses of dorsal hippocampus, rats, 6319

electrolytic destruction of 1 amygdaloid complex & electrical stimulation of intact amygdala to develop kindled epileptic focus, long-term prograde effect on CER acquisition, rats, 1910

electrolytic lesions dorsolateral & lateral to lateral hypothalamic feeding center, weight loss & chronic gnawing, rats, 8665 electrolytic lesions of centrum-medianum & parafascicularis

electrolytic lesions of centrum-medianum & parafascicularis complex of thalamus, acquisition & retention of active-avoidance responses, rats & cats & monkeys, 375

electrophysiological study, thalamocortical taste projections, rats & marmosets, 289

energy expenditure on running wheel, food intake & sensory & metabolic regulation, rats, 6209

enriched or standard laboratory environment, long-term retention of avoidance learning, rats, 532

enriched vs. isolated vs. social rearing environment, dendritic branching in visual cortex, rat, 8571

enriched vs. wire-mesh cage environment, discriminated avoidance learning, aged rats, 4004

environmental temperature stress, electrical vs. radiant heat selfstimulation of preoptic & lateral hypothalamus, rats, 3975

epileptic foci in visual cortex due to penicillin applications, passive avoidance learning, rats, 3850

ergocornine prolactin release interference, maternal behavior, postpartum female rats, 3935

escape pretraining & bilateral spreading depression, active avoidance acquisition, rats, 1924

estradiol & progesterone & prolactin, induction of maternal behavior, nulliparous rats, 6269

estrogen & progesterone injections & bilateral monopolar electrode stimulation in medial preoptic areas vs. medial basal hypothalamus, sexual receptivity, ovariectomized rats, 6298

estrogen, pudendal & genitofemoral & pelvic neuronal activity, ovariectomized rats, 10647

estrogenic vs. estrogen & progesterone stimulation on day of expected estrus, sexual receptivity activity, ovariectomized rats, 1952

estrus vs. diestrus condition, operant mating choice, rats, 6374 ethamoxytriphetol antagonism, behavioral & morphological effects of estradiol benzoate, rats, 3920

ethyl alcohol ip injections, visual evoked potentials from visual cortex & reticular formation, male rats, 353

ethyl alcohol, adrenal cortex functional changes, rats, 10682

exposure time to discriminative vs. nondiscriminative cues & start box confinement time & abrupt shift in start box confinement &/or cue presentation, differential conditioning in straight runway, rats, 10725

extinction of food-reinforced responding, schedule-induced polydipsia, rats, 2028

fixed delay of reinforcement procedure, variable-interval responding, rats, 534

fixed vs. variable interval schedule reinforcement, stimulus control after training, rats, 2022

fluorescence histochemical technique & biochemical measurements, postnatal development of monoamine-containing neurones, albino rat, 10561

fluphenazine & pentobarbital, psychogenic gastric ulcer induced by intensive immobilization, rats, 427

flurazepam hydrochloride & interaction with pentobarbital, general anesthesia during fixed interval reinforcement & alternated punished & unpunished reinforcement schedules, rats, 3865

food & electrical brain stimulation as reinforcing stimuli, positive behavioral contrast, rats, 10596

food & water deprivation, blood serum osmolality & behavior, rats, 423

food deprivation for 6 days, preference for food vs. receptive female, male rats, 2039

food deprivation level, food getting dominance, rats, 10785

food deprivation, free-operant avoidance behavior & body weight, rats, 10755

food deprivation, lateral hypothalamic self-stimulation, rats, 10672 food finding with vs. without alley discrimination, frequency of food transport to goal-box, rats, 10720

- food vs. brain-stimulation reinforcement, conditioned approach & contact behavior, rats, 6305
- footshock, brain seizures & behavioral convulsions induced by electrical brain stimulation, rats, 391
- forced motility in treadwheel, noradrenaline & 5-hydroxytryptamine metabolism in different parts of brain, rats, 3783
- forced stimulation vs. self-stimulation, excitability of medial forebrain bundle neurons, rats, 8631
- forced vs. voluntary vs. restricted activity, water maze learning, rats, 6410
- free vs. forced trial paradigm in 2 alternative maze, spontaneous alternation level, rats, 523
- free-operant avoidance conditioning, lever attacking behavior, rats, 10766
- free-operant training amount, extinction resistance, rats, 6438
- frequency of measurement readings, food & water consumption & urinary electrolytes deviations, rats, 6210
- frontopolar lesions, utilization of response-produced visual cues, rats, 8640
- frustrative nonreward & shock vs. shock only vs. frustrative nonreward only, aggressive behavior, rats, 2056
- genetic regulation, selection for increased or decreased water intake, rats, 8759
- genetic structure vs. environment, postnatal neural development, mice & rats & cats & humans, 8499
- genotype-environment interaction & infantile stimulation, bodybuild & open-field ambulation & defecation & escape-avoidance behavior, rats, 287
- gonadal hormones in infancy, maternal behavior, testosterone injected female & castrated male rats, 3947
- gonadectomy, body weight & quinine aversion & shock threshold, rats 8646
- habituation to food, conditioned aversion to food paired with atropine methylnitrate injections, rats, 3974
- haloperidol & amphetamine, lever-pressing & jumping in noiseescape situations, rats, 430
- handling & sex & repeated testing, open-field defecation & ambulation as indices of emotionality, rats, 8771
- handling habituation & individual vs. group housing, exploration & activity in Greek cross maze, gerbil vs. rat, 562
- handling in infancy, brain morphology & brain & adrenal glands tyrosine hydroxylase activity, 2 & 7 & 12 & 17 & 30 & 60 day old male rats, 6181
- harness & electrode connector, electrical & physical contact with rats when standard grid is useless, apparatus, 10775
- head-poke response vs. leverpress as avoidance operant, rats, replication of A. G. Forgione's discriminated avoidance procedure, 8716
- heat & shock procedures, learning speed & age effects in brightness discrimination, rats, 10601
- high-intensity ultrasonic sound, rat control, wild rats, 6413
- hippocampal afterdischarges, conditioned suppression & extinction & cue-controlled behavior, rats, 6139
- hippocampal lesions, passive avoidance consolidation time, rats, 10669
- hippocampal lesions, shuttlebox avoidance behavior & discussion of fear hypothesis & associated adrenocorticotropic hormone levels, rats, 6218
- hippocampectomy, auditory startle responses, rats, 6241
- hippocampectomy, discriminated over-press avoidance acquisition, rats, 3953
- housing density, alcohol intake, rats, 6245
- hunger vs. satiation & single vs. paired social conditions in adjacent & communicating Skinner boxes, operant behavior, rats, 558
- hyperphagia & obesity due to bilateral lesions in ventromedial hypothalamus, food deprivation & palatability effects on latency to eat, rats, 3954
- hypertonic NaCl injections & osmotic food inhibition & water deprivation, inhibition of ad libitum feeding, rats, 464
- hypophysectomy, modification of stress & saline induced changes in nicotinamide adenine dinucleotide levels in brain, rats, 6234
- hypothalamic lesions, postingestion EEG synchronization, rats,
- hypothalamic self-stimulation, strength-duration, rats, 399
- hypothalamic stimulation, copulation & ejaculation, sexually experienced rats, 1848
- hypothalamic stimulation, stimulus bound locomotor activity, rats,

- imipramine vs. chlorimipramine pre- & posttreatment, L-dopa induced behavior & brain catecholamine & serotonin levels, rats,
- immobilization time following food deprivation, gastric pathology, wild rats, 6206
- improved stereotaxic headclamp, rats, 6272
- inconsistency with interstimulus associations hypothesis, 2nd-order
- conditioning & sensory preconditioning, rats, 4058 individual housing duration, avoidance acquisition & extinction &
- plasma corticosterone basal level, rats, 6165 infant experience with alcohol & age & sex & strain, voluntary alcohol consumption, rats, 10644
- infant handling & aversive stimuli, adult & drinking behavior, rats,
- infantile handling, heart rate & response suppression, rats, 10710 infantile tactual stimulation & maternal influences, emotionality,
- rats, 10763 ingestion of food samples at nest site, feeding preferences during
- weaning wild rat pups, 3997 insulin dosage & classical conditioning, blood glucose level, rats,
- 6335 insulin subcutaneously injected, lateral hypothalamic induced
- feeding, rats, 8593 intensity of fear in running & jumping, fear-motivated behavior,
- rats, 6388 intercorrelation of experimental observation methods, exploratory
- & motor behavior & learning & conditioning, albino rats, 477 interhemispheric transfer, pattern discrimination acquired during
- unilateral cortical spreading depression, rats, 8596 intermittent electric shock, alcohol consumption, rats, 3996
- interresponse time analysis, free-operant compounding of high- & low-rate discriminative stimuli, rats, 6444
- interstimulus intervals, acquisition of conditioned suppression of ongoing consummatory lick response, rats, replication of Libby's investigation, 518
- interstimulus intervals, conditioned suppression, rats, replication of A. Libby's study, 6393
- intertrial interval variations & transfer vs. nontransfer reward shift & 4 sources of generalization decrement, successive negative contrast effect, rats, 8714
- intertrial reinforcement amount, successive contrast effects, rats, frustration theory application, 10712
- intracerebral implantation of carbachol, water intake & body temperature, rats, 3905
- intracisternal injection of 6-hydroxydopamine, behavioral task performance & whole brain norepinephrine levels & behavioral stimulation produced by d-amphetamine & foot-shock-induced aggression & active avoidance acquisition, rats, 1953
- intracranial electrode implantation in locus coeruleus in floor of 4th ventricle, electrical self-stimulation, rats, 369
- intrahypothalamic norepinephrine & carbachol, eating & drinking behavior, rats, 3958
- intrauterine insertion of copper-64 or copper-67 wire vs. intraperito-neal injection of copper sulfate solutions, systematic absorption of intrauterine devices, 1920
- intraventricular 6-hydroxydopamine injections, feeding behavior, rats. 6338
- ip injection of 6 hydroxydopamine vs. vehicle solution vs. removal of adrenal medullae vs. sham operation, adrenaline or peripheral noradrenaline depletion & passive avoidance, rats, 1859
- ip vs. oral glucose administration & cold environment & acidosis & corn vs. protein-free diets, marihuana induced aggressive behavior, food-deprived rats, 366
- isolate vs. seminaturalistic rearing, investigatory behavior of odors
- from stressed & unstressed conspecifics, rats, 4060 isolation vs. foster mothers & play-enriched vs. minimally stimulating environment, early development & sexual behavior, male rats, 4023
- L-dopa & dopamine & hydroxytryptamine, seminal fluid emission & central mediation through serotonergic mechanisms, rats, 385
- L-dopa, prevention of haloperidol-induced blockade of conditioned avoidance response, rats, 6310
- large septal lesions vs. medial forebrain bundle ablations at septum level, reactivity to handling & responsivity to quinine & saccharin solutions & footshock, rats, 365
- large vs. small & intermediate vs. small rewards on alternate trials & exteroceptive cues & transfer, pattern running, rats, 6451
- late vs. early experience with stimuli, perceptual learning, discrimination, rats, 10705

lateral hypothalamic leisons & pretreatment with a-methyl-ptyrosine, facilitation of recovery, rats, 3889

lateral hypothalamic lesions, facilitation of survival by presurgical food & water deprivation, rats, 3888

lateral preoptic lesions, disruption of preference for glucose, rats,

lesions in lateral septum & ventral hippocampus & medial septal & amygdala, suppression of drinking behavior when noise paired with electric shock & internal & external environment control, rats, 10654

lesions of amygdaloid & corticomedial amygdaloid nuclei, freezing & avoidance of unconditioned & conditioned threat stimuli, male

lesions of fornix, familiarity discrimination, rats, 8615

lickometer, device for recording unreinforced tube licking, rats, 8767 light unilateral visual deprivation due to lid-suturing, retina, rats, 1867

liquid &/or solid diets differing in carbohydrate &/or triglyceride, conditioned satiety, rats, 8708

lithium carbonate, self-stimulating behavior & hypothalamic levels of norepinephrine, rats, 1929

lithium carbonate, sodium & potassium & calcium & magnesium ion concentrations in urine & serum, male rats, 351

lithium chloride illness vs. pulsed vs. continuous electric shock,

drinking, rats, 1878
lithium chloride multiple vs. single exposure, sodium chloride aversion, adrenalectomized & nonadrenalectomized rats, 8588 lithium vs. sodium vs. potassium vs. rubidium vs. caesium chloride, vertical rearing & horiztonal locomotion, male rats, 3911

lithium, thyroid disorders, rats, 1908

localized ECS, impedance of taste aversion learning, rats, 6286 long- & short-term social deprivation, sociability, rats, 4037

long-term immobilization stress, serum dopamine-b-hydroxylase & hypothalamic tyrosine hydroxylase activity & shock-induced fighting behavior, rats, 6161

low response rate differential reinforcement, collateral responses development, rats, 6414

low vs. high drive & large vs. small reward & number of training trials, resistance to extinction, rats, 6439

low-frequency whole-body vibration, body weight & open-field activity & body damage, rats, 6445

LSD & psilocybin & mescaline, t maze discrimination learning, female rats, 3952

LSD, acetylcholine level in brain & olfactory bulbs & hypophysis, rats, 8634

LSD, auditory stimuli sensitivity using stimulus generalization procedure, rats, 6247

lysine vasopressin subcutaneous injections after training vs. before retention trial & shock vs. no shock, passive avoidance learning & resistance to extinction, rats, 6214

magnesium pemoline, bar press response extinction, rats, 10627

magnesium pemoline, performance on 1-way avoidance task in absence of discrete CS vs. excitatory properties of strong CS, rats, 1858

magnitude & duration of stimulus change, light-contingent bar pressing, rats, 543

maintenance schedule & body weight loss, hunger drive, rats, 2058 mapping of frontal cortex for self-stimulation, rats, 1936

massed extinction sessions, spontaneous recovery of conditioned suppression, rats, 10752

massed vs. spaced retest, anticholinesterase-induced amnesia, rats, 3876

maternal malnutrition vs. normal diet & enriched environment vs. individual caging, maze performance, nonlittermate male rats,

maternal protein restriction, maze learning & curiosity & activity, rat offspring, 8770

maternal separation vs. maternal removal & immediate replacement, offspring growth & open-field behavior, rats, 10776 maturation of brain serotonin circadian rhythm, rat, 1815

maze learning & exploratory behavior in 4-alley Lashley maze, wild vs. domestic rats, 8703

mecamylamine, discrimination between nicotine- & arecoline-

produced cues, rats, 10676 medazepam, conditioned avoidance response & maze behavior. rats. 364

median midbrain raphe lesions, 5-hydroxyindoleacetic acid in forebrain & cerebrospinal fluid, rats, 3870

methadone syrup solution consumption, food & liquid intake & activity, rats, 3884

methamphetamine & enriched environments, cerebral changes, rats, 450

methamphetamine & exercise & atmospheric pressure, plasma hexosamine, male rats, 3868

methamphetamine hydrochloride, failure to produce dissociation of escape response, rats, 1855

methamphetamine vs. saline, water consumption, 6 vs. 23 hr. water deprived rats, 10639

methylamphetamine, stereotyped behavior & locomotory activity & startle reactivity & orienting responsiveness, rats, 406 methylphenidate, inhibition of exploratory behavior, rats, 1885

middle ear volume reduction, auditory thresholds, Kangaroo rat, 6443

mixed & multiple fixed ratio reinforcement schedules, behavioral contrast, rats, 517

mixed-sex-colony social stress, gastrointestinal erosions, rats, 259 mobility during conditioning & intertrial interval variability, conditioning vocalization, rats, 10723

morphine dependence & preference & withdrawal, rats, 10670 morphine dependence, taste of morphine as secondary reinforcer, rats, 3873

morphine dependency, regulation of drug & water intake, rats, 1955 morphine dose size, conditioned reinforcing potency of stimuli paired with morphine, rats, 8719

morphine sulfate multiple injections, shuttle-box behavior, rats,

multiple schedule with component consisting of two-link chain, aversiveness of signaled vs. unsignaled shock, rats, 10756

N-N-dimethyltryptamine, retention of startle response habituation,

naloxone hydrochloride administration in thalamus vs. neocortical & hippocampal & hypothalamic & tegmental brain areas, morphine abstinence precipitation, morphine-dependent male rats. 6332

natural behaviors & wheel running & conditioned immobility, hippocampal EEG activity, gerbils & rats, 3837 negative electrical brain stimulation cessation, activation of positive

emotional brain areas, rats, 1912

negative practice treatment & induced behavioral emission, high frequency behavior, rats, applications to clinical treatment, 7693

neonatal thyroid deficiency, brain myelination, rats, 1935 nicotine & saline, attention task performance, rats, 8659 nicotine vs. amphetamine, activity, rats, 6295

nonreinforcement & extinction, heart rate, rats, 6133 norepinephrine & cyclic 35-adenosine monophophate, cerebellar

synapses, rats, 356 nose-poke apparatus & videotaping & free-operant testing methods, determination of competition & dominance hierachies, rats, 542

numerosity as cue, successive reversal, rats vs. pigeons, 10735 objective automated technique, aversive threshold determination, application with shock & morphine vs. saline, rats, 10630

odors from stressed vs. nonstressed conspecifics vs. clean runways, open-field responses, rats, 2049

olfaction & gustation loss, food aversion acquisition, rats, 6143 operant conditioning & shock, intestinal relaxation & contraction discriminative shock-avoidance learning, curarized rats, 6092

operant conditioning, brain single unit activity, rats, 8734 orotic acids, memory of brightness discrimination task, rats, 8649 ovariectomy & postoperative estrogen & adrenalectomy, body weight & food intake, rats, 6294

overlearning & frustration, extinction of operant responding, rats,

oxazepam, conflict behavior & avoidance learning deterioration, male rats, 3962

oxazepam, facilitation of learned behavior suppressed by CER or punishment, rats, 421

p-chlorophenylalanine & dopa & starvation, marihuana induced aggressive behavior, rats, 8662 p-chlorophenylalanine, male vs. female sexual behavior, testoster-

one-injected female rats, 1946

p-chlorophenylalanine, Sidman avoidance response, rats, 3963
p-nitromethylamphetamine, brain noradrenaline & dopamine & 4.adimethyl-m-tyramine & 5-hydroxytryptamine & tyrosine & gamino-n-butyric acid & tryptophan, rats, 412

papaverine & sleep deprivation, sleep cycles & EEG & noradrenaline & 5-hydroxytryptamine, male rats, 3856 papaverine, wakefulness & sleep, male rats, 3857

para-chlorophenylalanine lowered brain serotonin, discriminated punishment & pain sensitivity, rats, 6227 para-chlorophenylalanine, brain serotonin & food intake & u-maze

behavior, rats, 8650

parachlorophenylalanine & scopolamine & naloxene & a-methyl tyrosine & methscopolamine & atropoine & morphine, body temperature & activity level, morphine tolerant & nontolerant rats

parachlorophenylalanine induced phenylketonuria, cataractogenesis, immature rats, 3893

parachlorophenylalanine, mounting behavior, rats, 8655

paradoxical sleep deprivation & age differences, propensity for paradoxical sleep, rats, 6150

parasagittal cuts at 3 anterior-posterior positions, eating & drinking & irritability & aggression & copulation, rats, 10662

partial reinforcement effects, instrumental escape conditioning, rats, 6452

partial reinforcement in 1 vs. both goal boxes of double alleyway, speeds & frustration effects & resistance to extinction, rats, 6431

partial vs. continuous reinforcement, response persistence during satiated testing, albino rats, 2025 pentylenetetrazol injection & pharmacologically induced behavioral &/or EEG activation, photically evoked after-discharge patterns,

rats, 1870 percentage of partial reward, resistance to extinction, rats, 8707

peripheral electric shock, mating behavior initiation, rats, 4019 pharmacological properties, panax ginseng root, mice & rats & guinea pig, 10684 phenobarbital vs. diazepam vs. chlordiazepoxide vs. chlorproma-

zine, audiogenic seizures, rats sensitive to sound, 3916

physostigmine & scopolamine, operant brightness discrimination, rats. 6288

physostigmine, resistance to extinction of instrumental responding, rats. 8618

piracetam vs. saline & hypoxia, passive avoidance training, rats, 452 pituitary-adrenal axis functioning, emotionality & fear motivated responses & generalized activity & agonistic & sexual behaviors, mammals & rats, literature review, 1789

plasma-corticosterone levels, pituitary-adrenal function during shuttle-box avoidance learning, rats, 10536

population density & early experience, emotionality & perceptual

learning transfer, rats, 6396 positive & negative reinforcement by shaping, self-injurious

behavior, rats, 10774

positive reinforcement of incompatible behaviors, intraspecies aggression reduction, rats, 10702 posterior hypothalamic stimulation, conditioned suppression of

food-reinforced barpressing behavior, rats, 6290 posterior ventromedial hypothalamus lesions, adrenergic feeding

following intracranial noradrenaline injections, rats, 1880 postnatal changes, somesthetic evoked potentials, rats, 6328

postreinforcement delay & intertrial interval & 2-way vs. 1-way running, extinction resistance in runway performance, rats, 8774 posttrial hippocampal stimulation, blocked CER acquisition, rats,

458 posttrial injections of amphetamine & pentylenetetrazol & strychnine, performance in Lashley III maze & shuttle box, rats, 371

postweaning & maze training & exploration & handling, learning & performance, water-deprived rats, 10696

pre- & postshift reinforcement variation & long u-shaped maze vs. short straight runway, positive contrast & ceiling effect, rats, 4064 prenatal Cannabis sativa, offspring's maze learning ability, pregnant rats, 10621

prenatal exposure to cigarette smoke, offspring behavior, rats, 10597 prenatal exposure to extreme low frequency rotating magnetic field, conditioned suppression, rats, 2026

prenatal exposure to extremely low frequency-low intensity rotating magnetic field, thyroid & testicle weight, rats, 1817

prenatal maternal handling & rearing with aunts, behavior & brain weight & whole-brain serotonin, rats, 1820

prepregnancy & prenatal stress in 5 consecutive pregnancies, rats & their offspring, 2045

presence of co-reared rats & running together vs. alone, risk taking in choice behavior, rats, 6434

presence of other rat, heart rate, rats, 8538

pretraining compatible & incompatible responses, subsequent oneway & shuttle-avoidance performance, rats, 10698

previous body weight level, straight-alley performance, rats, 10713

preweaning handling vs. no handling & rearing in standard cage vs. small mouse cage, post weaning behavior & resistance to food & water deprivation, rats, 2041

probabilistic shock schedules, acquisition & asymptotic responding & extinction of avoidance response, rats, 6406

prolonged rewarding brain stimulation, adaptive vs. aversive behavior, rats, 376

prompt signal offset, shuttle box avoidance response maintenance, rats, 4034

propranolol, rapid activation of striatal tyrosine hydroxylase & behavioral depression, rats, 1956

protein & sensory deprivation during suckling period, growth & exploratory activity, rats, 6255

punishing different bands of noncriterion interresponse times, DRL responding, rats, 4073

qualitative upshift in reward, pre- vs. postshift alley run times in double runway, rats, 6453

radiation- & lithium-chloride, conditioned taste aversions, rats, 10594

rapid hypobaric hypoxia transition, water & food consumption & body weight & feeding activity, rats, 10783 reanalysis of meals & intermeal intervals & raw data, free-feeding

patterns, rats, 10764 rearing in enriched vs. impoverished environments, postsynaptic

opaque regions in asymmetric round vesicle synapses of occipital cortex, rats, 345

reestablishment of continuity with training situation, prevention of ECS-induced amnesia for passive avoidance task, rats, 3851

regular vs. random intermittent reinforcement, successive brightness discrimination, rats, 6372

reinforcement by cessation of flickering light & duration of time-out from flicker, bar pressing & application of generalized discrepancy model, rats, 503

reinforcement frequency in multiple random-interval avoidance schedules, response rate, rats, 10726

reinforcement schedule & amount intertrial interval, fractional antedating goal reaction, rats, 10787

reinforcement schedule & percent body weight & reinforcer magnitude, schedule-induced polydipsia acquisition, rats, 4012 reinforcing hypothalamic stimulation, eating elicited through same

electrodes, rats, 8630

repeated exposure to small chamber, activity & defectation decreases & heart rate increases during habituation sessions, rats, application of P. Groves & R. Thompson's dual-process theory of habituation, 302

reserpine & morphine & propiram fumerate, 4 or 5-diazoimidazole-5 or 4-carboxamide & diazobenzenesulfonamide benzenesulfonate & N-ethylmaleimide induced writhing syndrome & hypothermia, rats. 3910

response prevention, repeated acquisition & extinction of avoidance, rats, 3988

response rate controlled by single stimulus absence, combined-stimulus control, rats, 8772

response-food & food-food intervals, lever pressing under food postponement schedules, rats, 550 response-independent shocks, conditioned avoidance responding,

rats, 6415 response-independent shocks, extinction & maintenance of avoid-

ance behavior, rats, 2005 responsive-contingent sensory change in bar pressing, preference for

ambient light intensity & sound, rats, 6377

reward delay & massing trials, positive & negative operant & incentive contrast effects, rats, 526

reward magnitude & shift, escape of fear-eliciting stimuli, rats, 525 reward sequence, extinction & spontaneous recovery, rats, 6353

rewarding activity vs. response to increased drive following food &/or water deprivation, wheel running, rats, 521

rewarding brain stimulation induction of ethanol dependency, rats, 8647

rewarding electrical brain stimulation as primary reinforcer, conditioned secondary reinforcement, rats, 3859

rewarding electrical self-stimulation of brain, focally induced electrical analgesia & mediation by common set of fibers in medial forebrain bundle, rats, 3949

rewarding vs. nonrewarding electrical median forebrain bundle stimulation, norepinephrine & serotonin release from amygdala, rats. 6270

RNA & protein & both brain extracts injections from trained donors, active-passive dark avoidance, rats, 3979

- rostral medial forebrain bundle & olfactory tubercle lesions, sexual behavior, male rats, 10629
- safety signals, extinction of discriminated avoidance response, female rats, 8721
- saline vs. blank injections during development, maze learning at maturity, rats, 8676
- schedule-induced polydipsia & subsequent substitution of increasing ethanol concentrations for water, behavioral maintenance of high concentrations of blood ethanol & physical dependence, rats,
- schedule-induced polydipsia, inconstancy of drinking bursts, rats, 4030
- scopolamine & d-amphetamine, avoidance facilitation, rats, 3854
- scopolamine & scopolamine methyl nitrate & amphetamine & lorazepam & chlorpromazine, conditioning of food aversions, rats, 3858
- scopolamine vs. treatment withdrawal, acquisition & performance, rats, 8594
- scopolamine, acquisition & extinction performance, rats, 1909
- scopolamine, spatial double alternation, rats, 8688 scopolamine, spontaneous motor activity & avoidance response acquisition, male albino rats, 444
- scopolamine, u-shaped retention curve of partially learned shuttle avoidance response, rats, 3969
- secondary reinforcement from environmental stimuli, morphine dependent rats, 3924
- Securigera Securidaca seed & extract & day & time of treatment, conditioned avoidance & serotonin depletion effects, mice, 6215 selective cue & cue location attention, visual discrimination, rats,
- 6435 selective hippocampal complex deafferentation, avoidance behavior, rats. 3973
- self-licking of nipple lines & genital pelvic region & female hormone treatment, mammary gland development & grooming patterns, pregnant & ovariectomized virgin female rats, 6333
- self-stimulation of ventromedial hypothalamus, positive correlation of stimulation threshold with thresholds to stop feeding & escape, rats, 3853
- sensory alterations, shock-induced fighting & mouse killing, blinded vs. devibrissaed vs. bulbectomized rats, 1846
- sensory deprivation, simple vs. complex stimulus discrimination following operant conditioning, rats, 1978
- septal & amygdaloid lesions & solution concentrations, saccharin & quinine preferences, rats, 1890
- septal & amygdaloid lesions, visual discrimination under nonrein-forcement & reinforcement conditions & eating & drinking & body weight, rats, 6326
- septal area lesions & base-line activity levels, conditioned & unconditioned heart-rate response, rats, 3878
- septal area lesions, running-wheel avoidance behavior, rats, 3967 septal area vs. cortical lesions & body fluid manipulation, food &
- water intake, rats, 1948 septal damage, successive free-operant discrimination with fixed component durations & minimization of negative stimulus
- responding, rats, 10613 septal lesions & extended training in mediated environment,
- differential reinforcement of low rates efficiency, rats, 6273 septal lesions, acquisition of nonappetitive passive avoidance tasks, rats, 1958
- septal lesions, behavioral reactivity & averaged visual evoked
- responses to discrete series of photic stimuli, rats, 10678 septal lesions, free-operant avoidance task performance, rats, 6292 septal lesions, home cage lighting effects on drinking behavior, rats,
- septal lesions, punishment of free-operant avoidance responding,
- rats, 3961 septal lesions, response to frustrative nonreward in Amsel double runway, rats, 3929
- septal lesions, suppressive effects of punishment of operant responding, rats, 3960 septal stimulation & physostigmine injections, septo-hippocampal
- system & habituation, rats, 10623
- septal vs. dorsal hippocampal vs. ventral hippocampal lesions & pre-vs. postoperative approach training, conflict resolution, rats, 8613 septal vs. ventromedial hypothalamic lesions, preference for
- obtaining food by bar pressing, rats, 460
  serial CS component similarity, consummatory licking suppression, rats, 10728

- serotonin & amphetamine & scopolamine, habituation of exploratory activity & spontaneous alternation in maze, rats, 8680
- serotonin levels & hippocampal ablation, modulation of behavioral arousal, rats, 1960
- sex differences, emotionality & open-field behavior, rats, 6403
- shifts in body weights & method of weight maintenance, straight alley performance, rats, 1976
- shock & cage size & sex of stimulus animal, copulatory & aggressive responses, rats, 488
- shock & safe area similarity vs. dissimilarity, escape training & extinction, rats, 4033
- shock contingent on responses varied in temporal proximity to consummatory response, induced gastric ulcers, rat, 3821
- shock intensity & duration, Sidman avoidance acquisition & prediction from 1st session response, rats, 6420
- shock predictability & escapability, conditioned emotional response & basal emotional level, male rats, 6386
- shock-elicited defensive behavior, passive avoidance performance, rats, 1971
- shock-induced aggression & free operant avoidance training & unavoidable shock, fighting in response to shock, female rats, 4052
- short- & long-term morphine & short-term cocaine administration, brain serotonin biosynthetic systems, rats, 6283
- signal-reinforcement effect for modifiable shocks, interpretation of preference-for-signalled shock phenomenon, rats, contribution to G. Biederman & J. Furedy, 4016
- simple vs. complex maze learning, mature-young vs. aged rats, 4020 simultaneous posterior neodecortication vs. successive damage with 1 wk. interoperative interval vs. successive damage with training during interoperative period, retention of discrimination learning. rats. 10687
- single ECS following retention interval & pre-ECS reinstatement of
- memory cues, amnesia for maze learning, rats, 6289 single ip methylchloroethamine injection, long-term activity response, rats, 10653
- single stimuli response rates & consequences, combining punishment signalling stimuli, rats, 6450
  social behavior & organization & development, Polynesian vs. roof
- rats. 6404
- sodium barbital, deprivation-induced water consumption, rats, 8641 sodium chloride stimulation of chordatympani nerve, whole nerve recording, rats, 3786
- sodium vs. sodium potassium diet deficiency vs. repleteness, potassium chloride preference, rats, 6119
- species-specific defensive behavior similarity & shock & appetitive motivation, thigmotaxis & avoidance behavior acquisition rates,
- spontaneous behavioral activity, levels of regional brain tyrosine hydroxylase, ACI & BN & BUF & F344 & LEW & Sprague-
- Dawley male rats, 328 starvation vs. recent feeding vs. ready-to-eat situation, taste reactivity, rats, 3991
- starvation, cortical synapses development, rats, 10608
- stimuli differing in tonal frequency &/or melody, habituation, rats, 10734
- stimuli paired with aversive stimulation schedules, reinforcing properties & discriminative cue preference, rats, 6362 stimulus control of counting-like behavior, discrimination of
- amounts of own behavior by producing response sequences dependent on discriminative stimulus presence, rats, 8700
- stimulus generalization gradients for auditory intensity, rats & guinea pigs, 2055
- stimulus novelty, digging behavior, rats, 10778 stimulus preceding noncontingent food reward & stimulus following response with noncontingent rewards, secondary reinforcement
- effects, rats, 6385 stomach distention & fluid concentration changes, thirst, waterdeprived rats, 1865
- stomach loading, voluntary alcohol consumption & deprivation effect, rats, 6317
- stomach loads of hypertonic NaCl, food & water intake & weight loss, ovariectomized & sham-operated rats, 3922 strain differences, mating behavior, Sprague-Dawley vs. Long-Evans vs. Wistar male rats, 8746
- strain differences, microsomal drug-metabolizing enzyme activity, rats & mice, 3914
- streptozotocin-induced diabetes, basal feeding rate & meal size, rats,

stress & food deprivation & intermittent food schedule & electric shock, highest probable response energization, rats, 6392

stria terminalis lesions, agonistic behavior, rats, 1919

subproblem analysis, discrimination shift learning, rats, 4072 substantia nigra & caudate nucleus lesions, avoidance learning, rats, 3932

succession of vaginal & behavioral changes in continuous cycling, sexual behavior, rats, 2002

successive nonrewards prior to sucrose reward & successive alfalfa rewards prior to sucrose, resistance to extinction, rats, 6354

sucrose vs. saccharin solution & restricted vs. available food, food consumption, rats, 8728

sulpyrid, muricide reactions & aggressiveness & exploratory behavior & brain 5-hydroxytryptamine turnover, rats & mice, 3972

surgical restriction to single cerebral hemisphere, acquisition of opposite-eye mediated visual pattern discriminations, hooded rats. 3864

synthetic rat scotophobin intracranial injections, light vs. dark avoidance learning, goldfish, 6233

taste vs. pharmacological rewarding properties, self-administration of hashish, rats, 8717

tasting without ingesting by curarizing or infusing flavored solution into oral cavity, taste-aversion learning, rats, 377

testosterone injection & dosage, behavioral responsiveness to estrogen, castrated male rats, 3897

testosterone propionate & progesterone, sexual receptivity, ovariectomized rats, 474 testosterone propionate-induced sexual arousal, anogenital explora-

tion, rats, 6318 tetrabenazine, copulatory behavior, male rats, 8609

tetrahydrocannabinol & chlorpromazine & amylobarbitone, social patterns & labor division achieved, rats, 422

tetrahydrocannabinol & dosage, food & water intake, rats, 6262 tetrahydrocannabinol & propylene glycol & handling &/or piercing,

unlearned motor tasks, rats, 8664 tetrahydrocannabinol vs. morphine, hot plate & tail flick tests of analgesia, rats & mice, 363

tetrahydrocannabinol, behavior, rats, 1923

tetrahydrocannabinol, learning & retention of avoidance performance, rats, 8628

tetrahydrocannabinol, monitored behavioral changes & RT metabolism of cerebral serotonin, rats, 8616

thalidomide administration during gestation, fetus tissue & skeletal development, rats, 10642

theta activity, behavioral correlates, rats vs. guinea pigs vs. rabbits vs. cats, 1833

theta rhythm, memory, rat, criticism of P. Landfield & J. McGaugh & R. Tusa, 8535

thyroxine & estradiol benzoate, wheel running activity, female rats,

6324 topical anesthetization of glans penis, sexual reflexes, male rats, 397 training between 2 successive unilateral posterior neocortical ablations, retention of black-white discrimination habits, rats,

training in 2-way shuttle avoidance, generalization in extinction along frequency & intensity dimensions of CS, rats, 8711

transcorneal electroconvulsive shock, recovery from amnesia for avoidance behavior, rats, 1913

trifluoperazine administration at 5 10 vs. 11 16 vs. 17 22 vs. 23 28 days old, avoidance conditioning at 75 days old, infant rats, 1872 trihexyphenidyl, schedule-induced alcohol drinking, reactive vs. nonreactive rat strains, 6282

triiodothyronine subacute administration, acute toxicity of lithium, rats, 1942

triple test vs. diallel cross breeding design, applications from literature to behavior, Drosophila melanogaster & mice & rats,

tryptophan metabolites, head twitches & body temperature & salivation & diarrhea, mice & rats, 3925

tryptophan, reserpine induced depressed motor activity & hypothermia & ptosis, mice & rats, 8669

tungsten electrodes, chronic implantation in cochleae, bats, 8627 UCS shock durations & unreinforced CS presentations, resistence to extinction, rats, 10773

ultrasonic postejaculatory vocalizations, male rats, 8704

ultrasound & aggressive behavior, rats & 14 species of small mammals, 6424

unavoidable & inescapable shock, choice of longer vs. stronger signaled shock over shorter vs. weaker signaled shock, rats, 10700 unilateral posterior cortical lesions, nonvisual deficits as reflection of spatial progression impairment, rats, 3943

unilateral spreading depression, retrograde amnesic effects & interference with stimulus control, rats, 6313

unilateral visual decortications & anterior cortex vs. striate cortex lesions, performance of diametrically opposed discriminations, rats, 10643

unilateral vs. bilateral aspiration lesions & contralateral irritative lesions of hippocampus vs. overlying neocortex, brightness discrimination & avoidance learning, rats, 1966

unsignalled avoidance behavior in shuttlebox during acquisition & terminal performance, rats, 540

upright posture, shock-elicited aggression, rats, 6394 variable-interval vs. fixed-interval schedules of response-dependent shock & visual cues, response suppression, rats, 10749

varied septal lesions, septal rage syndrome localization, rats, 6314 ventromedial hypothalamic lesions & subsequent growth hormone administration, weight gain reduction & reactivity & quinine suppression, rats, 1906

ventromedial hypothalamic lesions, food intake & serum glucose & lipolysis due to epinephrine & carcass composition, rats, 8625 ventromedial hypothalamic nucleus vs. septal nuclear complex

lesions, behavioral perseveration, rats, 410

ventromedial hypothalamus vs. septum vs. medial forebrain vs. dorsal longitudinal fasciculus lesions, reactivity to footshock, male vs. female rats, 10612

visual pattern difficulty during rearing, subsequent discrimination learning, rats, 4049

water deprivation & CS preexposure duration, taste-aversion learning, rats, 6365

water deprivation, acquisition & performance of conditioned taste aversion, rats, 4015

water metabolism study, inexpensive cages & drinking tubes, gerbils & rats, 3842

weight loss following bilateral ventromedial lesions of hypothalamus, response rates for food reinforcement on variable interval 1 min. schedule, rats, 3944

whole brain homogenates from trained Ss injected intraperitoneally, light-dark discrimination, rat, 6325

withdrawal state from morphine, operant behavior changes as index, rats, 8587

1-methyl-1, 2, 5, 6-tetrahydropyridine-3, mescaline induced pharmacological & neurochemical changes, rats, 413

1-vs. 2-stage fornix lesions, alternation performance, rats, 6264 10-chloro-11b- (2-chlorophenyl) -2,3,5,6,7, 11b- hexahydrobenzo [6,7,]-1,4- diazepino[5,4-b] -oxazol-6-one, behavioral effects, mice

& hamsters & rats & monkeys & dogs, 3913
6-hydroxydopamine-induced neonatal sympathectomy, open field activity & avoidance learning & retention & sexual behavior & endogenous norepinephrine in lower brainstem & cerebral cortex & hypothalamus, rats, 6299

6-hydroxydopamine, depletion of brain norepinephrine & facilitation of aggressive behavior, rats, 3966

Rauwolfia

Raven Coloured Progressive Matrices
factorial personality dimensions & ability & attainment, TermanMerrill Vocabulary Test & Raven's Progressive Matrices &
Vernon's Test of Graded Word-Reading & Schonell's Mechanical

Raven's Progressive Matrices validity & reliability & norms, male hospital patients, 5748

thalamotomy, Wechsler-Bellevue & Raven's Progressive Matrices & Rorschach Test performance, 32 66 yr. old Parkinson's disease patients, 7688

**Ravens Progressive Matrices** 

IQ equivalence, 5 general intelligence tests, Swiss 2nd graders, 1289 nonverbal Raven's Progressive Matrices vs. Stanford-Binet Intelligence Scale IQ's & MAs, discrepancy between attainments & mental capacity, retarded children, 1029

Reaction (Drugs) (See Drug Adverse Reactions) Reaction (Fugue) (See Fugue Reaction)
Reaction Formation

Reaction Time

age differences, visual RT procedure with regular & irregular preparatory interval conditions, 6-13 yr. old normal & brain-damaged children, support for C. Czudner & P. Rourke's theory,

age-linked developmental differences, latency of EEG attenuation & RT change correlations, 7 17 yr. old males, 2192 age, EEG during RT task, 4–16 yr. olds, 8568 age, motor time in RT task, 8.5 17 yr. old boys, 4239

age, sensory-perceptual factors in RT, 18 21 & 54 71 yr. old females, 8788

aimed movements, constant psychomotor movement time, application of information theory model of performance, 172 alcohol & stimulus-response uncertainty, spatial localization time,

21 30 yr. old males, 10632 all-or-none RT theories, stimulus factor & response bias &

biscalability of error matrices, 1514 anxiety level, perceptual RT, college students, 10362

apparatus to measure disjunctive RT, determination of active attentiveness to light stimuli, children, 4101

auditory stimulus intensity judgments, cortical evoked responses & heart rate & RT, male college students, 8506

averaged sensory evoked potential, psychological refractory period, 18-30 yr. olds, 266

binary-classification response time, human information processing capabilities, 6033

biofeedback control of EEG alpha rhythm, RT, young adults vs. aged Ss, 3841

biosensory stimulation, semantic processing, college students, 8419 catch trial type, auditory RT, variable criterion model reanalysis of data from D. LaBerge's experiment, 1594

category dominance & instance dominance, categorization time for words, college students, 10456

choice RT & discrimination under time pressure, speed-accuracy

tradeoffs in visual discrimination using payoff, 169
cigarette smoking, stress response & RT to traffic light signals &
heart rate & blood pressure & calf blood flow & respiration rate & 16 PF scores, 1835

comparisons of successively presented visual patterns in perception & short-term memory, classification RTs, college students, 6064

concentration & excitability, reaction time & visual discrimination of lit bulbs, 8269 conditional probability of stimulus occurrence, components of RT

in variable foreperiod experiment, female students, 167 cortical association response area development, kittens vs. adult

cats, 8744

cued vs. uncued vs. disparity UCS's, galvanic skin response amplitude & latency & rise time & Edelberg recovery measure, college students, 8541

diazepam, EEG in eye-open state during visual RT task, 18 37 yr. olds, 8656

differential visual feedback & transfer to RT task, acceleration & deceleration of heart rate, 292

direction of stimulus visual counting reaction time, 10305 distractibility, performance on self-paced serial RT task requiring attention, 8340

distraction tone, visual RT performance, normal & brain-damaged & chronic alcoholic males, 9311

disturbances in figure-ground perception & visual-motor coordination & attention & RT, bacterial meningitis during childhood, 4824

exposure to sea level & 13,000 & 15,000 & 17,000 ft. hypoxic conditions, RT to peripheral flashes of stimulus lights during central target monitoring, soldiers, 10554 extreme combinations of energizing & disruptive drive on Serial Reaction Time Test & Eysenck Personality Inventory, noncompetitive & competitive paired-associate learning performance stages, college students, 6082

fatigue & arousal in simulated car driving, steering errors & brake RT & subjective fatigue & pulse rate & respiratory rate & skin resistance & neck muscle tension, 20 25 yr. old psychology & driving school students, 8057

fatigue, vigilance & RT with vs. without circadian rhythm alterations, railway workers, 1398

fixed vs. variable interstimulus interval, RT & heart rate, male undergraduates, 8297

frequency variation, RT to 2nd of 2 shortly spaced auditory stimuli by irregular interstimulus interval, 121

gazing straight ahead vs. scanning visual field & signal light color & position & onset vs. offset, reaction to colored light, undergraduates & enlisted men, 8270

generality between forward & backward & left & right directions, RT & movement time of dominant hand & total body under choice stimulus conditions, college students, 8309

heat stress, RT to centrally & peripherally presented stimuli, college students, 128

high- & low-intensity nonsignal pure tones & simple RT task, cardiac responses, male 8 10 yr. olds, 3809

Hoe 264 & heptobarbital, sleep & polygraphic measures of vigilance & attention & EEG & arm muscle contraction & RT & pneumogram & EKG & galvanic skin resistance & blood pressure, young adults, 3881

imagery codes, human information retrieval from short-term

recognition memory, college students, 8464 immediate vs. 1 day to 1 wk. delayed monetary reward, choice of reward size & choice RT, 10 12 yr. olds, 191

incentive & incentive-shifts, simple RT, 5 11 yr. old boys, 2105 incentive level & difficulty & novelty in choice serial RT task, pulse

& respiration rate & pulse volume & skin conductance level & muscle tension, 22 59 yr. old females, 6208

increasing task complexity, RT & motor & decision-making time, hyperactive vs. normal 7 11 yr. olds, 3209

information redundancy, reaction time, schizophrenics, 9283 interpolation of anchor triangle between 2 objectively equal-sized triangles, contrast effects in comparative judgment & RT analysis,

interstimulus intervals & event sequences, negative recency effect in serial RT tasks, 20 40 yr. olds, 5857

lateral auditory stimulation, simple RT, hemiplegic patients, 9284 laterally presented pictures, visual & verbal coding, college students,

length of foreperiod & interstimulus interval, simple RT to auditory signals, 5861

letter & word set size & visual & auditory modality & presentation rate, naming latency facilitation & recognition RT, adults, 3704

lever pressing RT & ball kicking action time, champion level soccer players, 3605

luminance & duration & stimulus size & response to signal onset vs. termination & monocular vs. binocular viewing, visual RT, 171 luminance & duration of interstimulus interval, human reaction

time, 10352 median RT & discrimination accuracy, perceptual sensitivity, good vs. poor premorbid schizophrenics, 4806

melanocyte-stimulating hormone, somatic-evoked responses & RT & EEG & EKG, patients with panhypopituitarism, 1071 memory load, choice & classification RTs, right-handed undergrad-

uates, 1780

memory load, RT, college students, 5954

mental blocking during RT task, EEG changes, 8498 methylphenidate, Choice Reaction Time Task & Serial Reaction Task & Visual & Auditory Continuous Performance Test measures of attention, hyperactive 5.10 13.4 yr. olds, 1238

model of human as information processor by mathematically simulating choice RT & memory storage retrieval & perceptual information processing research, 3-dimensional visual identification task, model vs. human males, 158

motivational instructions, reaction time, hypnotized vs. nonhypnotized Ss. 10491

nervous system strength, visual stimuli frequency, driving reaction,

nonaging foreperiod & momentary objective probability of stimulus

delivery, RTs, 24 36 yr. old students, 140
observation of TV screens showing little movement, visual monitoring & alarm pressing RT, office workers & prison officers,

physical training program, 16 PF & weight & estimated maximum oxygen uptake & respiratory rate & vital capacity & RT & flexibility & heartometer measures, 60 79 yr. olds, 6471

positive set size & set for speed vs. accuracy & backward mask presence vs. absence, choice RT to visually presented digits in information-reduction task, 84

practice & interstimulus interval, psychological refractoriness persistence on successive choice-response task, 5839

practice with controlled stimulus pairs, same-different judgment RTs, college students, implications for human information processing theory, 5914

prediction-stimulus interval, memory & choice reaction time, college students, 8390

presence vs. absence of common finger & difference in finger separation between actual & required response, serial choice RT using error patterns in 2-finger chord keyboard responses, college students, 106

prior verbal instructions, RT, 8322

probe & target spatial orientation combinations, form identity & category matching RT, undergraduates & medical technicians, 3675

propranolol vs. sotalol vs. placebo, subjective mood self-ratings & EEG & finger tremor & pulse rate & skin conductance & RT & key tapping & card sorting & WAIS Digital Symbol Substitution Test, 19 29 yr. olds, 1895

reaction time & digit-span & time estimation task variability, retardates vs. 1st vs. 3rd vs. 5th vs. college students, 10870

reaction time, information-processing in verbal learning, college students, 8408

reaction time, EEG spectra, normal & acute psychotics & psychiatric patients, 9472

reading spatially transformed digits, RT, college students, 8474 reinforcement of key releases whose latencies from light fell within payoff band, temporal contingency effects on key release RTs,

monkeys, 544 relative stimulus frequency, choice RT, 3578

retrieval cues & set organization, short-term recognition memory, college students, 8410

right & random visual field exposure & knowledge of exposure locus, vocal RTs of Hebrew letter identification, right-handed Israeli-born undergraduates, 3552

right vs. left visual field stimulation, letter matching & auditory memory scanning & phoneme comparison RTs, right-handed adults, 6030

right-hand practice & rest &/or left-hand practice, movement-speed task, college students, activity-set hypothesis for warm-up decrement, 5894

rivalry & coaction & audience components as overall motivational effects of competition, RT movement-time task & arousal & alertness, 7th & 8th graders, 5911

RT & mental processes, facsimile & translation of J. J. de Jaager's 1865 text, book, 8374

RT of sentence-verification-of-picture judgments, 3660

RT task with warning signal, cortical & subcortical slow potentials during preparatory interval, monkeys, 3825

RTs & error rates, judging nominal identity of successively presented letter strings, college students, 5926

RTs in choice reaction task, localization of divided-attention effects, 3652

serial position, probe recall, college students, 8465

short- vs. long-latency associative RT units & high vs. low meaningfulness & single vs. multiple associations vs. silent vs. aloud rehearsal, free recall, college students, 8423

aloud rehearsal, free recall, college students, 8423
sick incompetent vs. healthy competent self-presentation &
treatment vs. custodial ward residence, auditory task RT, male
schizophrenics, 4891

signal intensity & duration & payoff matrix & critical time, reaction criterion vs. sensitivity measurement, 3586

signal intensity, RT to 2nd of 2 shortly spaced auditory signals, college students, 3587

similarity of word & color name sounds, RT on Stroop Color-Word Test, undergraduates, 3560 simple RT & vigilance tasks, association cortex potentials &

auditory stimuli, 8555 simple visual stimuli, simple RT, literature review, 5908

single-finger response to alphabetic stimuli vs. more compatible stimulus-response relationships, error types in choice responses, 105 size estimation & reaction time & vigilance tasks & Goldstein-Scheerer Object Sorting Test & proverb-interpretation task, attention dysfunction, schizophrenics & nonschizophrenic psychiatric patients, 9384

size vs. brightness vs. size-brightness redundant vs. size-brightness nonredundant stimuli, information gain rate & RT, undergraduate & highly trained graduate students, W. E. Hick's paradigm extended to M. E. Doherty's absolute judgment task, 1718

sleep deprivation, auditory & visual simple RT & complex RT, college students, 3559

stimuli directed to left vs. right hemisphere vs. both hemispheres, color naming response latency, right- vs. left- vs. mixed-handed college students, 5830

stimulus & response patterns, reaction latency to identify outcome of stimulus prediction, college students, 8347

stimulus alternatives, visual choice RT, 16 49 yr. olds, 5820 stimulus frequency & type & similarity, choice RT, undergraduates,

stimulus intensity & duration, simple RT, housewives, 8330

stimulus interval & foreperiod duration & signal position, clickfingertap synchronization, undergraduates, 3540

stimulus presentation time, memory for words & images, college students with high vs. low reactivity levels, 8482

stimulus probability variation & instructions promoting misunderstanding probabilities, RT & probability estimation, schizophrenics vs. normals, 7157

stimulus uncertainty & modality shift & wrong pretrial guess, average visual & auditory evoked potentials & RT, schizophrenics vs. psychotic depressives vs. normals, 1009

stimulus-onset-asynchrony between 80 & 100 msec., RT as curvilinear function, replication of H. Helson & J. A. Steger's finding, 5858

stress levels & driving situation difficulty level, steering & braking & traffic indicators operation RTs & heart rate & blood pressure & respiration & calf blood flow & 16 PF scores, 19 26 yr. olds, 3365

structural characteristics of activity, RT, schizophrenics, 920 surround vs. no-surround condition of test stimuli, onset & offset RT, college students, 5882

taboo & neutral words, state anxiety & RTs, male bilingual students, 10432

target set size & familiarity, reaction time, implications for models of human information processing, 8377 tetrahydrocannabinol, monitored behavioral changes & RT

tetrahydrocannabinol, monitored behavioral changes & R7 metabolism of cerebral serotonin, rats, 8616 time stick, measuring manual action & RTs, 5916

trade-off bias & efficiency, serial choice reactions, 8473

true vs. false-positive vs. negative sentences & circle location, sentence-picture comparison RT, college students, 8413

unilateral cerebral damage, RT to laterally applied mild electric current, left hemiplegic patients, 11413

variable preparatory intervals & rate of development of cerebral disease, RT, brain-damaged Ss, 9417 visual backward masking, latency in voicing target stimulus, 95

visual display onset vs. offset & reaction latency, visual persistence, adults with normal vision, 3547 visual noise level & RT accuracy level, speed/accuracy tradeoff

locus, 3548

visual vs. visual & proprioceptive vs. proprioceptive training, motor learning & RT, college students, 10323

24-hour sleep deprivation, decrement rate in auditory reaction time, college students, 8306

Reactions To Crisis (See Stress Reactions)

Reactive Depression

chlorimipramine, EEGs taken at intervals paralleling clinical intervals, depressed inpatients, 1215

graders, 5388

positive teacher expectancy, reading achievement & IQ, 2nd graders, 5387

psycholinguistic correlates, reading backwardness, implications for teaching English to Africans, 10088

racial differences & socioeconomic status, reading achievement after 2 yr. remedial program, kindergartners designated as high risk, 11876

reading & arithmetic subtests of Wide Range Achievement Test, school achievement, 6 11 yr. olds, 3309

reading & language ability & personality traits, chronically unemployed vs. regularly employed, 8366

reading achievement & age, auditory vs. visual processing of single words, 1st vs. 3rd vs. 5th graders vs. college freshmen vs. sophomores, 644

reflection-impulsivity, reading achievement, 2nd graders, 3222

remedial classes designed to meet minimum state reading standards, reading achievement growth & opinions, 10th 12th graders, 10090 self-directed activity & sex & family mobility & race & IQ, reading achievement, 4th graders, 9827

self-esteem, intelligence & reading achievement & attitudes, 4th grade Pima Indians, 5400

sex role standards of reading, reading achievement, 1st grade boys,

short-term & intermediate visual memory for designs, reading readiness & early reading achievement, 1st graders, 3099

simultaneous & sequential presentation of sensory information effects on intrasensory & audiovisual cross-sensory integration skills, prediction of initial reading skills, 1st grade boys, 8022

summer compensatory education programs, elementary mathemat-ics & reading & language communication achievement gains,

teacher & student expectations, student achievement in reading improvement course, college students, 11110

test anxiety level & test administration mode & sex, reading achievement scores, 5th graders, 7853

underachievement in reading, aspirations & parental expectations, children, 10052

ungradedness on reading achievement & personality development, design for ungraded primary school in rural area, primary students, 3252

visual memory training, reading achievement, kindergartners & 1st graders, 9924

visual stimulus-response relationships, word recognition in initial reading performance, kindergartners, 7881

Wide Range Achievement Test Reading scores & teacher ratings & WISC scores, reading deficit & emotional overlay & reading success prediction, disabled readers, 11949

word form configuration training program, visual perceptual behavior and reading achievement, strong vs. weak visile vs. audile learning disabled 1st & 2nd graders, 7959

**Reading Comprehension** 

chunked" vertical typography format, reading speed & comprehension, 2nd & 3rd graders, 7764

analytic vs. synthetic teaching methods, reading skill & comprehension & spelling & composition, elementary school students, 7795 analytical vs. global field approach & attention-concentration &

verbal-comprehension, aged Ss, 5970 auditory verbal deficits, word recognition & reading comprehension disorders, reading disabled vs. normal reading children, 11981 degree of embedding & semantic linkage between words & verb tense, oral & written sentence comprehension, 18 21 yr. olds, 10487

examination of matching & coding & comprehension stages & 7

cognitive skills, reading, experimental program, 6019 function word deletion, text reduction & information loss & reading comprehension, 7th graders, 6072

hierarchical learning model with structural & content components, facilitation of language comprehension skills learning, 3rd 6th graders, 10048

hyperkinetic syndrome behavioral abnormalities & body image & spatial orientation disturbances & neurological abnormalities, exceptional reading ability, brain damaged children, 11446

immediate vs. delayed feedback, motivation & learning in reading, adults, 5983

learning-in-pairs & Glosser-type discussions, reading comprehen-sion skills & academic achievement, black & white male institutionalized delinquent 14 & 15 yr. old disabled readers, 1360

linguistic system of syntax & morphology & semantic & rhetorical system, implications for teaching & reading comprehension, 3208 nominalizations vs. transformation & stated vs. unstated subjects,

reading comprehension, college students, 9844 perceptual motor-training procedures of N. Kephart, reading

comprehension, 8-18 yr. olds with average & above average IQs & binocular fusion difficulties, 7999

physical practice vs. mental practice vs. both vs. using hand as pacer, reading performance, 8th graders, 9972

Piagetian theory, development of new reading comprehension test, 3rd & 6th graders, 5465

potential of monocularly blind, faster reading, speed-readers, 10051 programed imagery & linguistic recoding, reading & listening comprehension & visual-motor skills, 1st 3rd graders, 7789

psychometric research & models of E. L. Thorndike & J. A. Holmes & F. B. Davis, reading comprehension theories, 5955

reading comprehension skill, personality adjustment, 5th graders,

self-hypnosis, reading rate & comprehension, 3756

standardized English reading passages vs. equivalent forms rewritten in Negro dialect vs. nonstandardized reading passages in Negro dialect, recall of printed language patterns, Negro vs. Caucasian low-socioeconomic-status 2nd vs. 4th graders, 4189

syntactic abilities in oral language, dyslexic 2nd grade boys with reading comprehension difficulties vs. normals, 10098

underlining vs. repetitive reading & frequency of underlining target information, completion test performance, college students, 7849 verbal IQ & arithmetic problem solving & reading comprehension &

self-perception of creativity & teacher ratings of creativity & teacher dogmatism, verbal creativity scores, 2nd & 4th & 6th graders, 3338

visual perceptual training, reading comprehension, 9919 Reading Disabilities (See also Dyslexia)

adequate skill development, reading disability, necessity for redefining reading concepts, 10012

articulation & auditory discrimination ability, predicting word recognition deficits, 1st graders, 8017

auditory & visual sequential & visual spatial pattern matching, reading ability, good & poor readers, 3114

auditory verbal deficits, word recognition & reading comprehension disorders, reading disabled vs. normal reading children, 11981 auditory-auditory & visual-visual & auditory-visual tasks, audiovisual integration development, normal & deficient reading 8-13 yr. olds, 10926

Categories Test, abstract-spatial concept development & use, 9 yr. 10 yr. 11 mo. old poor vs. normal readers vs. brain damaged children, 928

difficulties in research design & interpretation of data on "Reading disability & difficulties in finger localization & right-left discrimination," reexamination of M. Croxen & H. Lytton's study, 10281

educational-occupational stratification, severe reading retarded vs. suburban 2nd-7th graders, 11976

EEG & birth abnormalities, high & low visual-perceiving retarded readers & normal readers, 9287

emotional maladjustment characteristics, reading disability, normal vs. retarded readers, 3350

Family Relations Test-retest reliabilities, personality development in family relations, 9 16 yr. old retarded readers, 3217

gross body movement task incorporation into academic task, immediate spelling recall & long-term memory, 7 8 yr. old potential reading failures, 7962

instrumental escape extinction procedure, remedial reading progress, reading disabled children, 11977 learning-in-pairs & Glosser-type discussions, reading comprehension skills & academic achievement, black & white male institutionalized delinquent 14 & 15 yr. old disabled readers, 1360

left vs. right hemisphere cerebral lesions damage, naming process & reading, normals & right- & left-hemisphere-damaged patients,

parental tutoring, reading disabilities, 2nd graders, 5511

perceptual & psycholinguistic immaturities, retarded & advanced readers &/or spellers, 10109

perceptual & visual-motor & intellectual tests, reading retardation

prediction, preschoolers, 7724

perceptual motor-training procedures of N. Kephart, reading comprehension, 8 18 yr. olds with average & above average IQs & binocular fusion difficulties, 7999

pilot class utilizing multisensory training & educational team approach, visual-perceptual-motor skills & WISC Verbal IQ & Stanford Achievement Test, elementary students with reading

problems, 3129

program of ideographs & message drawing & pictographs & syllabic writing & alphabetic coding, children with inability to sound out individual phonemes of words & reading problems, 5394

psychoanalytic & operant approaches & programed techniques, reading problems amelioration, 7746

psychoneurological & psychological & educational tests, reading deficits, 11 yr. olds, 9983

reading disability as language disorder, 2669 reading problems, legally blind 15 yr. old boy & 26 yr. old man, implications for school assignments & expectations, 9461

relationship between selected reading behaviors & psycholinguistic abilities, 4th grade disabled readers, 9892

sex & race, eye movements during independent vs. instructional vs. frustration reading levels, Caucasian vs. Negro vs. Mexican

American 4th grade disabled vs. nondisabled readers, 11879 sex of E & S, paired-associate learning, 1st & 5th graders, implications for teacher sex effects on reading disability, 5526

tachistoscopic presentation of nonverbal & verbal stimuli, copying & oral reading performance, disabled vs. normal readers, 11502

teacher guidance charts, reading disabilities & remediation, 9905 teaching strategies, dominant learning modalities, 3rd grade disabled readers, 12111

Wide Range Achievement Test & WISC, Peabody Individual Achievement Test validity, normal & reading disabled & retarded 7 16 yr. olds, 7985

Wide Range Achievement Test Reading scores & teacher ratings & WISC scores, reading deficit & emotional overlay & reading success prediction, disabled readers, 11949

WISC profile, diagnosing reading problems, poor readers, 5448

Reading Education

adequate skill development, reading disability, necessity for redefining reading concepts, 10012

cameras, teaching reading, elementary school students, 7951 correlated pictorial & printed stimuli superimposition & fading &

overt observing, oral reading acquisition & retention, 48 70 mo. old nursery school students, 5353

critical distinctive letter form features & problems in attending to dimensions of difference, alphabet letter discrimination, literature review & application to teaching reading, 5415

early intensive phonics instruction, ability to pronounce synthetic words, 2nd 4th graders, 10084 individual vs. group testing strategies, objectives-based instructional

program in reading, 1st graders, 5517 intercorrelational validity study, auditory & visual functioning tests, use as basis for reading instruction determination, 5373

interview on dylexia, educator, 5542

Learning Reinforcer instrument using operant conditioning principles, flexible reading behavior development, college students, 5341

learning to read & dyslexia, psychological processes, book, 3339 linguistic system of syntax & morphology & semantic & rhetorical system, implications for teaching & reading comprehension, 3208

literacy as extension of natural language learning, reading instruction, children, 3178

massive oral decoding technique, decoding fluency, retarded readers, 3210

mediated visual-to-print approach, teaching reading & language, deaf children, 7707

motivational approach to developmental reading program, academic achievement, college fraternity & sorority pledges, 9993 perceptual development model & reading instruction methods,

learning disability diagnosis, 11963

phonological dissonance, learning to read, children with dialects different from that of teacher, 9879

different from that of teacher, 9879
phonology & orthography correspondence of Russian language,
phonetics approach to teaching beginning reading, USSR, 3334
program of ideographs & message drawing & pictographs & syllabic
writing & alphabetic coding, children with inability to sound out
individual phonemes of words & reading problems, 5394
psycholinguistic correlates, reading backwardness, implications for
teaching English to Africans, 10088
psycholinguistic description, miscuse generated during oral reading

psycholinguistic description, miscues generated during oral reading of text material in black dialect vs. standard English, 2nd graders, implications for beginning reading instruction, 7977

reading approach used at Mentecito School in California, reading skills & classroom behavior, students, 3352

reading learning theories & oral language competence & reading skill acquisition & programs evaluation & teacher training & computer-assisted instruction, implications for research on individual differences & learning by reading, 9851 reading teaching humanization, student self concept & removal of

barriers, reading teachers, 3175

visual stimulus-response relationships, word recognition in initial reading performance, kindergartners, 7881

vocabulary & sentence length & syntactic structure, spontaneous oral vs. reading materials language, low socioeconomic status urban Negro 1st graders, 5478

Reading Materials

aural message length, immediate vs. delayed recall, Braille vs. largetype reading, blind high school students, 11850

cloze procedure, measuring readibility & intelligibility of training materials & translations, 10259

elementary school textbooks, critical analysis & for reading achievement, book, 10118

geographical concept attainment, improving ability to interpret embossed maps, visually handicapped, 11905

hair length & reading material choice & obedience to instructions, authoritarianism on California F Scale, males, 4521

methods & materials adapted to low-reading groups, reading abilities, 1st grade underachievers, longitudinal study, 10005

Negro vs. white history textbook, effectiveness of elementary level ethnic instruction material, 5th graders, 5306

question position & pacing & presentation mode, learning from written prose, elementary school students, 10049 reading strategy & sentence interpretation & structure awareness in spoken & written forms, usefulness of instruction & reading material based on reading strategy & sentence interpretation & structure awareness, 1290

small peer group tutorial approach using The Story Plays, achievement & attitude & self-image, 4th graders, 3269 teacher guidance charts, reading disabilities & remediation, 9905 Reading Measures (See also Gates MacGinitie Reading Test, Metropolitan Reading Readiness Test, Unesco Silent Reading Test)

inventory & reviews & bibliography of reading tests in print, book,

measurement selection & validity & reliability & appropriateness & tests & testing conditions, reading research, 9899

Frostig Developmental Program of Visual Perception, reading readiness & achievement, kindergartners & 1st graders, 10061 marital status & education of mother & father & teacher predictions & race & sex & reading readiness & intelligence & degree of

handicap, school success vs. failure, culturally disadvantaged children, 10040

reading development, trainable retarded children, 3140

Sesame Street, reading readiness, male vs. female & advantaged vs. disadvantaged kindergarten children, 12013

sex & age & intelligence, logical sequence memory span test performance & relationship to reading readiness test performance, kindergarten 2nd kindergarten to 2nd students, 11884

short-term & intermediate visual memory for designs, reading readiness & early reading achievement, 1st graders, 3099

Reading Skills

adequate skill development, reading disability, necessity for redefining reading concepts, 10012

analytic vs. synthetic teaching methods, reading skill & comprehension & spelling & composition, elementary school students, 7795 behavioral contracts, reading & study improvement, college students, 3105

errors & repetitions & self-corrections & regressions in reading, 8 14 yr. old educable retardates vs. 1st grade nonretardates matched for reading achievement, 1321

frustration tolerance, word recognition achievement, entering 1st

graders, 7731

knowledge of phoneme-grapheme & grapheme-phoneme correspondence, assessing knowledge of English sound-symbol relationships, 1st & 2nd & 3rd graders, 3187

Learning Reinforcer instrument using operant conditioning principles, flexible reading behavior development, college students, 5341

massive oral decoding technique, decoding fluency, retarded readers, 3210

question position & pacing & presentation mode, learning from written prose, elementary school students, 10049

reading approach used at Mentecito School in California, reading skills & classroom behavior, students, 3352

reading learning theories & oral language competence & reading skill acquisition & programs evaluation & teacher training & computer-assisted instruction, implications for research on individual differences & learning by reading, 9851

reading vs. listening presentation mode, learning programed material, college students, 5295

rewards vs. costs & teacher ratings vs. self-ratings in token economy program, disruptive behavior & reading skills, adolescents in psychiatric hospital school, 5077

test validation, criterion-referenced test of beginning reading skills, 10247

Reading Speed

chunked" vertical typography format, reading speed & comprehension, 2nd & 3rd graders, 7764

adjunct question placement, visual fixations & required reading time, college students, 3267

adjunct questions & reading & listening rate, learning from prose, junior college freshman, 5416 age level & word frequency, reading speed, 1st graders to graduate

students, 10823 capital & lowercase computer printout, legibility of Chapman-Cook

Speed of Reading Test, college students, 829

differential common-words question placement, learning time to process information from written materials, college students, 3266 lateral eye movements, reading speed & cardiac responsivity & ability to process speeded information & preference for visual or

auditory modes, college students, 1742 physical practice vs. mental practice vs. both vs. using hand as pacer, reading performance, 8th graders, 9972

self-hypnosis, reading rate & comprehension, 3756

training task of timed correct sound production of words while reading at increased rates of speech, conversational speech in home & school & simulated home environments, 8 11 yr. olds, 11536

word characteristics, reading time of words in context, 3602

Readjustment (Psychosocial) (See Psychosocial Readjustment) Readmission (Hospital) (See Hospital Admission)

Readmission (Psychiatric Hospital) (See Psychiatric Hospital Readmission)

Realism (Philosophy)

attitude toward reality & secondary process activity & school's role, mastery of reality & capacity for reality testing, children, 2097

doll play, expression of anxiety & aggression & fear & hostility & reality adjustment & self-desensitization, English & Czech & Norwegian children, 4163

intellectual realism, drawings of familiar object with distinctive features, 5 9 yr. olds, 6495

laboratory experiment vs. real life situations, psychology research inconsistencies, 10229

nature & symbol & imaginal reality, 8192

psychiatry's responsibility, social dissonance between values & their reality function, 5247

realistic vs. symbolic materials, deceptive reasoning problem solving, college students, 5995

reality games, communication, book, 9085

Reality Testing

attitude toward reality & secondary process activity & school's role, mastery of reality & capacity for reality testing, children, 2097

auditory imagery vividness defective reality testing, schizophrenics with & without auditory hallucinations & nonpsychotic controls,

formal education & psychoanalytic concepts, adaptation to reality development & reality testing, 3128

reality testing, attitudes & self-evaluation, 9th graders, 9935

Reality Therapy

reality therapy, self-actualization, book, 9777

reality-oriented group therapy led by black psychiatrist, 21-35 yr. old black male paranoid schizophrenics, 4966
Reasoning (See also Inductive Deductive Reasoning, Inference)

ability to utilize empirical figural metrics, dolphins, 519

affirmative vs. negative & conjunctive vs. disjunctive problems & presentation mode, matrix representation in deductive problem solving, college students, 8462

assessment of validity & reliability of Baddeley's Three-Minute Reasoning Test, use with schoolchildren, 10254

cognitive growth cycles, mental development, 10840

constructing verifying & falsifying cases of conditional rules with variations in presence & absence of negative components, indicating consistency in rule interpretation, college students, 198 construction & standardization, fallacy discrimination test, high school students, 8241

decreased vs. increased auditory & visual stimuli, thought processes of cognitive focusing & reasoning & concept formation, chronic nonparanoid female schizophrenics, test of interference theory of schizophrenic psychological deficit, 4766 environmental effects & heredity, quantitative reasoning, 8868

frustration, cognitive regression of concrete reasoning ability, 7 8 yr. old boys, 3708

grammatical transform, syllogistic reasoning, 1720

nagery vs. linguistic theory of reasoning, criticism of H. Clark's criticism of J. Huttenlocher & E. Higgins & H. Clark's reply, 1709 insight determining truth vs. falsity of conditional sentences, reasoning, college students, 1698

IQ & abstract reasoning & sex, learning biological concept using audio vs. visual vs. written advance organizers, 7th graders, 11988 judgment of fuller & emptier glasses, relational reasoning development, 5 & 6 & 7 & 9 yr. olds, 2178

modes of information coding, reasoning & memory tasks, 13 15 yr. old educable retardates & 5 6 yr. old nonretardates matched for MA, 954

negation, reasoning with conditional rules, college students, 1692 nonverbal reasoning, secondary educational performance prediction, children, Fiji, 7726

persuasive vs. formal logical deducting process, conception of reasoning, 1st vs. 3rd vs. 5th vs. 7th vs. 11th graders, 615

presentation mode & material type of 4-card problem, formal reasoning, male high school 6th formers, 3713

problem formats vs. process characteristics, transfer effects in verbal & nonverbal problem solving tasks, vocational high school juniors, 5480

realistic vs. symbolic materials, deceptive reasoning problem

solving, college students, 5995
reasoning, behavioral choices at different moral development stages,
7th & 8th grade boys, 2201

spatial reasoning test construction, spatial ability measurement, secondary school pupils, Belgium, 10268 structure & content, psychology of reasoning, book, 8484 Rebuttal (See Professional Criticism Reply)

undergraduates, 3728

associate category cues vs. no cues, recognition in facilitation of recall, college students, 10402

associatively related vs. unrelated words & free vs. cued recall, independent vs. dependent storage, college students, 6079

attentional strategies in dichotic listening, recall of word-digit pairs & serial position effects, college students, 3701

auditory vs. visual word presentation & serial position, immediate & delayed recall, 10461

aural message length, immediate vs. delayed recall, Braille vs. largetype reading, blind high school students, 11850

aural vs. visual vs. simultaneous aural-visual presentation of poems, recall, 3rd grade students, 1333

bizarreness & interaction of pictures of word pairs, recall, 3760

chaining-over vs. nonchaining paradigm groups & anticipation interval, recall & resistance to unlearning of verbal mediating associates, college students, 8376

chosen vs. assigned number of categories, categorization & recall ability, undergraduates, 1762

chronological disturbances of sequential visual message, message recall, adults, 1685

code letter information & position, noun pair recall, undergraduates,

color value & selection locus & exposure time & payoff, recall for

visually presented letters, undergraduates, 1725 concrete & abstract pairs, partial & whole & cued recall of adjective-

noun phrases, 1672 concrete vs. abstract paragraphs presented in thematic vs.

nonthematic order, long-term recall of connected discourse, undergraduates, 1748 confidence ratings for individual items in recall, reply to D. L. Hintzman, 5932

confidence ratings in paired-associate recall, reanalysis of H. Bernbach's & H. Bernbach & G. Bower's data, 5986

constrained & cued recall training, verbal memory performance,

2nd & 4th & 6th graders, 2181 decreased eye contact, anxiety & recall of complex material

presented by lecturer on videotape, education majors, 1355 degree of material organization during memorization, recall, 1st vs.

3rd vs. 5th vs. 7th graders, 3758

delay between exposure to modeled task & actual performance & retest expectations, recall & imitation performance, kindergartners & 1st graders, 8397

dichotic listening recall, patients with congenital vs. infantile hemispherectomy, 4805

difficulty level & semantic vs. nonsemantic orienting task, recall & organization of highly associated words, college students, 10438 eye movements, recall of information with iconic vs. spatial

organization vs. motion imagery, 210 foward vs. backward masking in tachistoscopic presentations, recall,

college students, 6024 frequent quizzes, recall of facts & inferential thinking, 8th grade

students, 3253 good-bad word effects, tachistoscopic recognition thresholds & recall of words, 4th vs. 7th graders, 4115

high vs. low intolerance of ambiguity, recall of completed &

interrupted tasks, college students, 3744 high- vs. low-frequency tones & sequentially presented information with stable vs. unstable entity, primacy & assimilation effects in

recall, college students, 1711 hypnotic induction & regression suggestions & hypnotic susceptibili-ty, recall of meaningful material, 5945

imagery & verbal elaboration, recall of paired associates, 10 15 yr.

old educable retardates, 4876 incidental vs. intentional learning instructions, high-imagery-arousing nouns recall, undergraduates, 3745

instructions & stimulus type & organization & presentation spacing, letter sequence immediate recall, 10486

instructions regarding future testing date, verbal & motor memory, college students, 10381

instructions to use formula vs. graphic strategies, learning speed in binary task, fast vs. slow learning college students, 10475

intensity level of aurally presented items & recall interval, digit recall, 9 yr. old normals vs. retardates, test of N. Ellis's stimulus trace deficit theory, 2635

interaction of verb transitivity & trigram position & trials, recall, 1667

interfering associations context & source number, recall & forgetting in paired associate learning, 60 83 yr. olds, 4097

interstimulus interval & reward, recall of incidentally intentionally learned nonsense syllables, 15 17 yr. olds, 8364

intervening task imagery level & 1 vs. 2 presentations, noun-pairs recall, undergraduates, 3733

intralist similarity, word recognition learning & recall, educable retarded children, 3117 letters vs. digits & interstimulus interval & storage instructions,

bisensory recall & recognition memory, college students, 8386 lexical characteristics of transitive & intransitive verbs, sentence recall, 6053

linguistic structure in nonsense strings, facilitation of recall, 229 mediational processes as function of task orientation toward recall, intentional vs. incidental learning, 10418

memory trace inaccessibility, recall or recognition of nonsense vs. meaningful syllables, schizophrenics vs. depressives vs. normals,

mnemonic instruction intended to generate intraverbal vs. imaginal processes & trial number & duration & intent to learn, pairedassociate recall, Navy recruits, 3636

mnemonic vs. repetitive method, recall & recognition of vocabulary word learning, college students, 12002

modality of memory set & test item & visual & acoustic similarity, context recall, 5943

noise-induced arousal, immediate recall of visually presented paired-associate adjectives, housewives & college students, 1699 paired-associates learning task, postrest improvement of new responses, institutionalized retardates, 2727

phonemic similarity & semantic relatedness, long-term & short-term

storage during free recall, 1696 positive stimulus & negative stimulus feedback information in discrimination learning, positive vs. negative vs. neutral stimulus recall, 2nd & 3rd graders, 10493

preinstruction retention index, recall of mathematical concepts, 8th graders, 3170

presentation modes & recall & interitem interval, connected discourse learning rate, college students, 6000

pretask instructional set in recognition & recall task, pupil size distinguishing cognitive processing phase, college students, 6068 pretask instructional set in recognition & recall task, pupil size

distinguishing cognitive processing phase, college students, 6049 primacy & rated importance, recall of medical statements concerning diagnosis & advice & instructions, 7220

proactive interference, short-term recognition & recall memory, 8445

recall expectancy & presentation interval length, recall & rehearsal strategies in short term memory, college students, 10407 recall of dichotic auditory stimuli, incidence & distribution of ear-

order responding, 8-30 yr. olds, 3624

recall of transfer paradigm in verbal discrimination, retroactive inhibition, college students, 8483

recognition vs. recall task expectation & visual &/or semantic categorization, visual memory retrieval, 8387 rehearsal & modality, delayed recall of continuously presented paired associates, college students, 3649

reinforcement & retention interval, short-term motor memory recognition & recall, male undergraduates, 3715

reinforcement amount & duration of retention interval, short-term motor memory recognition & recall, 221

related & unrelated words in varied arrangements, recall & clustering mechanisms, 3743

related vs. irrelevant questions, recall, college students, replication & extension of D. E. Berlyne's demonstration of epistemic curiosity,

relational organization & physical distance, recall of picture paired associates, college students, support for W. Epstein & I. Rock & C. Zuckerman's findings, 10396

reliability of spatial retention, information recall from text material, college students, 3358

repetition in modified right-wrong paradigm, recall, 5989

repetitions & organization in rehearsal, free recall, evidence for recoding as basis for retrieval, 1783

response primacy, recall of simultaneous nonredundant bisensory stimuli in auditory & visual modalities, college students, 6044

right- vs. left-ear presentation & normal vs. permuted sentences & semantic neutrality vs. constraint, speed & accuracy of sentence recall, college students, 10321

search & recall & forgetting to-be-forgotten item in paired associate probe, 8378

semantic category size & number, organized semantic information retrieval processes, 8463

semantic shifts & intertrial interval, short-term memory recognition vs. recall, undergraduates, test of Brown-Peterson paradigm, 3685

vs. simultaneous visual presentation vs. serial aural presentation of nonsense syllables, recall, college students, 3656

sex differences & motivation level, inverted alphabet writing & substitution task performance & reminiscence, neurotic vs. stable vs. extroverted vs. introverted college students, 8431

sex vs. repetition vs. belonging together, recall of nouns from adjective-noun pairs, college students, 6083

shadowing vs. monitoring techniques of attention control vs. 1-trial serial recall technique & serial position effect, response organization & detection probability, college students, 3753

signal detection analysis of confidence judgments in short-term memory, amount of information needed in memory for recognition & recall, 1673

simultaneous visual message presentation, preferred recall order & order of recall accuracy, replication of H. B. Savin's auditory task,

spatial orientation & proximity & bar size & dichoptic viewing, afterimage visibility in presence of 2nd afterimage, 17 35 yr. olds, 3597

speed & accuracy & recall ease in semantic or positional probes & serial-position, expended-processing capacity, 1710

standardized English reading passages vs. equivalent forms rewritten in Negro dialect vs. nonstandardized reading passages in Negro dialect, recall of printed language patterns, Negro vs. Caucasian low-socioeconomic-status 2nd vs. 4th graders, 4189

stimulus reversal in paired-associate task, backward & forward recall, 3749

string length & symbol-digit composition, recall, male graduate students, 3722

symbol string complexity & spatial orientation, memory span & recall errors, undergraduates, 3721

syntactic & semantic variables, sentence recall, 5990 tachistoscopically presented displays of consonant trigrams, interaction of short-term & very short-term memory, college students, 10379

varying time of presenting verbal directions, immediate recall & retention of new subject matter material, students, 3201

verb vs. conjunction verbalization & side by side vs. interactive line drawings vs. interactive photographs, paired-associate recall & recognition, kindergartners & 3rd graders, 2126

verbal labels, picture meaning & meaning recall, 8470 verbal vs. pictorial stimuli, encoding & recall, college students, 1784 visual form familiarity & presentation rates, serial order recall &

verbal coding, undergraduates, 3666 word categorization, cued & free recall, 5959

word list organization & use of retrieval rule, immediate & delayed recall of graphemic bases, kindergartners, 7816

word meaning recall, lexical structure, 5 6 vs. 11 12 vs. 18 20 yr. old males, 8834

word meaning, role in verbal learning & recall, 3700

word relatedness, recall & recognition, undergraduates, 3702

Receptors (Neural) (See Neural Receptors) Recessiveness (Genetic) (See Genetic Recessiveness)

Recidivism

age & recidivism rate & type of crime, teacher & lawyer & physician prison inmates, 11444

Community Treatment Project vs. traditional programs, suspensions & recidivism & discharge favoribility & psychological tests & postdischarge arrest, delinquent adolescents, 11710

community-based mental health center aftercare, recidivism,

discharged psychiatric patients, 2991

drug used & reason for institutionalization & age & family background & IQ & arithmetic & reading ages & sex life & personality traits & Home Office record & subsequent criminal record & psychiatric hospital admission, illicit drug use outcomes, adolescent delinquent girls, 2707

ethnic group & family income & working status & broken home & religious activity & school failure & dropout & behavior, recidivism, juveniles referred to Juvenile Court, 9313

juvenile delinquency attitudes & behaviors, 1st offender vs. recidivist vs. normal 16 18 yr. olds, 11363

planning preventive services, recidivism & postdelivery school withdrawal, followup study, 7427

Porteus Maze Test, recidivism rates, female adult & juvenile correctional institution inmates, 9422

prerelease program to prepare families for reunion, incarcerated men, 9562

short- vs. longer-term vs. no psychotherapy & length of record & age, recidivism rates, criminals in maximum security prison, 7392 short-term intensive group therapy, behavior improvement & recidivism rate, 14 19 yr. old delinquents, 5118

Reciprocal Inhibition Therapy

counterconditioning by sips of ginger ale, vomiting habit, 60 yr. old female, 2959

reciprocal inhibition therapy, anger & aggression, female student nurses, 2885

reciprocal inhibition vs. psychotherapy vs. waiting list control, 6-15 yr. old phobics, 2954

semantic counter conditioning, classroom behavior & attitudes, elementary school children, 12106

transcendental meditation & yoga as reciprocal inhibitors, claustrophobic male college student & 40 yr. old female with profuse perspiration, 2806

Reciprocity

acceptance & reciprocation of self-disclosure, development of trust, college student & trained confederate dyads, 2340

anticipation of reciprocity, willingness to request & receive help, undergraduates, 763

attractiveness & dependency, occurrence of social exchange rules & altruism & reciprocity, 9052

causal agent & agent's motivation & S's outcomes, equityreciprocity, 6795

high vs. low vs. reciprocal vs. moderately high levels of disclosure by confederate, self-disclosing responses by Ss, male college students,

intimacy of other, reciprocity & self-disclosure & liking, female undergraduates, 750

perception of simulated other's strategy, cooperation & reciproca-tion in Prisoner's Delemma game, college students, 6866

salvation through reciprocation & reversal & neutralization & moralization, guilt & indignation generated by social debt & credit accumulation in reciprocal transaction, Hawaiian messianic sect of Japanese origin, 707

Recognition (Learning)

acoustic similarity & interference, short-term recognition memory, 10439

age & sex & expressive ability, recognition & imitation & spontaneous facial expression, nursery school & 2nd & 5th graders, 10850

agreement & disagreement, memory performance & confidencelevel & response bias, group, 9105

associate category cues vs. no cues, recognition in facilitation of recall, college students, 10402

categorical organization in acquisition, recognition latency, college students, 6023

color naming ability, color recognition ability, 3 5 yr. olds, 4157 comparison of item-recognition data across stimulus classes, immediate memory span & memory search rate, 5940

constraint redundancy, attribute- & rule-learning in sequential pattern recognition, college students, 10414 content & visualizability & truth value & instructions & reference

point, recognition memory for comparative sentences, 1776

contents & duration of interstimulus interval, short-term memory for complex novel sounds in delayed comparison recognition task,

context & recency cues, picture recognition memory, 11 18 yr. old retardates with mean MA of 9 yr., 932

correct & faulty response analysis considering grammar & frequency & subjective variables, word recognition under load,

encoding variability & repetitions spacing, continuous recognition memory, 6080

good-bad word effects, tachistoscopic recognition thresholds & recall of words, 4th vs. 7th graders, 4115

heart rate & defensive style & stimulus type, recognition memory,

male repressors vs. nonrepressors, 301

heredity, recognition & short-term memory for pair-associates of nonrepresentational signals in auditory & visual & tactual sense modalities, 12 15 yr. old monozygotic & dizygotic twin pairs, 6171 high-priority events inserted in lists of common words, recognition

of adjacent items, college students, 8461

high-speed memory scanning, recognition memory performance, college students, use of S. Sternberg's task, 8469

imagery codes, human information retrieval from short-term recognition memory, college students, 8464

induced arousal, word-recognition learning, mongoloids & normals,

instructions & list length & reversal transfer task, verbal discrimination vs. 2-category classification task, 8466 instructions to visualize stimuli during unfilled delay, visual

recognition of nonsense shapes, preschoolers, 4182 intra- vs. cross-modal testing & clause position & intonation contours & lexical material, word recognition latencies, male undergraduates, 1679

letter & word set size & visual & auditory modality & presentation rate, naming latency facilitation & recognition RT, adults, 3704 letter recognition learning, hemispheric dominance & free recall, college students, 6055

letters vs. digits & interstimulus interval & storage instructions, bisensory recall & recognition memory, college students, 8386 long-term memory organization, recognition latency, 10436

meaningful words presented in blocks vs. list vs. 3-digit numbers list & intervening items, short-term memory recognition time & forgetting, 5976 mediational processes as function of task orientation toward recall,

intentional vs. incidental learning, 10418
memory trace inaccessibility, recall or recognition of nonsense vs. meaningful syllables, schizophrenics vs. depressives vs. normals,

mnemonic vs. repetitive method, recall & recognition of vocabulary word learning, college students, 12002

monochrome vs. lithographic photograph positives vs. negatives,

recognition of familiar faces, college students, 8320 name vs. physical similarity, tachistoscopic letter recognition, undergraduates, 8404

new vs. old-identical vs. old-similar picture stimuli, recognition memory with long vs. short retention intervals, preschoolers, 3653 organization & recognition, memory, 6020

orthographic & acoustic & associative memory attributes & age, recognition, 1st & 3rd graders & college students, 6496

paced vs. unpaced decision-time & rare vs. common verbal material, recognition memory, college students, 5974

paired-associate training during sleep Stages 2 or 1-REM & 4, recognition, high school students, 6012

partial recognition & signal detectability & 2 loss of items" models, peripheral visual information storage, modification of G. Sperling's paradigm applied to audition, 248

pattern recognition & exemplar vs. logical rule category definition,

classification & categorization, 3732 perception recognition speed, 5 9 vs. 10 13 vs. 14 17 vs. 18 24 yr.

personality traits & simulation game playing, social studies concept recognition, 11th grade history class students, 5541

pictorial meaningfulness & picture detail & presentation mode, pictorial recognition learning, college students, 8385 pictorial vs. verbal material vs. combined cues, recognition memory,

1765

pretask instructional set in recognition & recall task, pupil size distinguishing cognitive processing phase, college students, 6049 pretask instructional set in recognition & recall task, pupil size

distinguishing cognitive processing phase, college students, 6068 pretesting training program, braille recognition test accuracy & speed, high school students, 10087

proactive interference, short-term recognition & recall memory, 8445

programed instruction in auditory vowel discrimination, learning rate & transfer to word recognition, severely hearing impaired 5 11 yr. olds, 11886

prolonged practice, set size effect in item recognition with complete response consistency & nested positive sets, college students, 6005

pronounceability of letter arrays, verbal report & visual matching latency, graduate & undergraduate students, 5846

pronounced vs. unpronounced words, recognition memory, 1707 proper name vs. white noise inserted in list, recall & recognition, extraverted vs. introverted college students, 10464

rare vs. common words & interference during storage vs. interference during testing, recognition memory, 3717

reading level & oddity vs. matching directionality training, identification of reversible letters, educable mentally retarded adolescents, 7791

recognition memory of emotion stimuli & subjective correlates of stimulation-seeking & emotional responsivity, psychopaths vs. normals vs. acting-out neurotics, 4670 recognition memory task for high & low familiarity & meaningful-

ness lists, internal consistency of signal detection theory, 205

recognition of melodic inversion vs. retrograde vs. retrograde inversion transformations, college students, 8278

recognition vs. recall task expectation & visual &/or semantic categorization, visual memory retrieval, 8387

reinforcement & retention interval, short-term motor memory recognition & recall, male undergraduates, 3715

reinforcement amount & duration of retention interval, short-term motor memory recognition & recall, 221

retrieval & recognition processes, free recall model for computer program, 16 32 yr. olds, 10383

retrieval cues & set organization, short-term recognition memory, college students, 8410

semantic shifts & intertrial interval, short-term memory recognition vs. recall, undergraduates, test of Brown-Peterson paradigm, 3685 sequential presentation of near span-length strings of digits or

letters, short-term recognition memory, college students, 8407 sequentially-presented shapes under cross-modal vs. intramodal conditions & age differences, recognition, 6 & 8 & 10 yr. olds,

sight recognition vs. phonic instructional methods, word recognition errors, 1st graders, 9836

signal detection analysis of confidence judgments in short-term memory, amount of information needed in memory for recognition & recall, 1673

similarity vs. identity matching, response latency & visual recognition, replication & extension of R. Sekular & M. Abrams,

stimulus characteristics, recognition memory, 5 & 8 & 12 yr. olds & college students, 610

synonyms vs. antonyms generation, synonym vs. antonym vs. original word recognition, college students, 10403

teacher vs. psychologist as examiner, oral reading word recognition performance, 3rd & 5th graders, 11889 unlearning vs. loss of means of retrieval of list items & recognition,

retroactive inhibition in free recall learning, 243

verb vs. conjunction verbalization & side by side vs. interactive line drawings vs. interactive photographs, paired-associate recall & recognition, kindergartners & 3rd graders, 2126 verbal labels, recognition memory for form, college students, 5952

visual similarity & verbal describability & presentation, forcedchoice picture recognition, undergraduates, 1663

visual stimuli meaningfulness & familiarity & age differences, perceptual recognition, 18 83 yr. old Ss, 4139

visual wavelength continuum & time after reinforcement & tone frequency & line tilt, stimulus recognition, pigeons, 10708 word recognition in memory scanning task, incidental learning, 1724

word relatedness, recall & recognition, undergraduates, 3702 word relationships, false recognition, mentally retarded vs. MA vs. CA matched normals, 7218

3-dimensional convex objects, visual learning & recognition by computer, 10233

Reconstruction (Learning)

instructional sequencing, learning from logical structure, high school students, 8439

setting & incrementing operations in counting process, simple addition model, children vs. adults, 209

Reconstructive Psychotherapy (See Psychotherapy) Recorders (Tape) (See Tape Recorders)

Recovery (Disorders)

early definite vs. late indefinite scheduling of surgery, physiological & psychological recovery, surgical patients, 5133 imminent surgery-induced stress, self-report measures of state &

trait anxiety & Harmavoidance & postoperative adjustment,

Veterans Administration Hospital male patients under 65 yr. old,

psychological & socioeconomic problems during rehabilitation following renal transplantation, kidney recipients & donors, 7415 recovery, stuttering, junior & senior high school students, 11357

succinylcholine administration & electroconvulsive therapy, systolic blood pressure & patient improvement potential, psychotic & manic depressives & depressed schizophrenics & neurotics, 2919 systematic self-relaxation & self-suggestions, cardiac surgery

postoperative reactions, 11617

Recreation (See also Athletic Participation, Badminton, Basketball, Camping, Childrens Recreational Games, Clubs (Social Organizations), Dance, Doll Play, Football, Gambling, Judo, Sports, Summer Camps (Recreation), Swimming, Television Viewing, Tennis, Traveling, Vacationing)

activity-interview group counseling vs. unstructured recreational activities, reading task performance, educable mentally retarded

8th 9th graders, 12066

affective reactions & routine task performance & leisure activities & interpersonal conflicts & physical condition & psychosomatic complaints, 15 35 yr. old drug consumers vs. nonconsumers,

contingent recreation activity room access, daily quiz achievement & on-task" classroom behaviors, culturally-deprived students,

engaging in art experience & continuance in creative endeavors, health conditions & longevity, persons over 65 yr. old, 2100

family life & marital relationship & institutions & work & leisure & life, need satisfaction, low- & high-status married men & women living in rural communes, 690

Finnish sauna bathing, psychomotor performance & subjective feelings, healthy male volunteers, 126

participation in leisure activities, intraspousal verbal communication channels, married couples, 721

personality traits, participation in outdoor recreational activities, college students, 11224

play in education, children, book, 6547

recreational behavior & personality traits, drug & alcohol & residence hall security & visitation procedure violation, female college students, 7801

sociocultural control factors & intrinsic game characteristic & game consequence controls, play & game behavior systems, 6867 varied reinforcements in behavior modification, replacing used

equipment, weight-lifters, 8371

Recreation Areas (See also Playgrounds)

Parklands Payback Pilot Project, proposed use of private funds to develop occupational & social training facilities in state parks, mental retardates, 11962

Recreation Therapy (See also Art Therapy, Dance Therapy, Music Therapy)

behavior modification, therapeutic recreation, institutionalized retardates, 2989

physical education principles & techniques, recreation programs, retarded school children, 9998

professional orientation & relationships, occupational vs. recreational therapists, 11300 recreation therapy, social interaction & detection of hostility &

conflict, nursing home patients, 11640 recreation, rehabilitation, mentally retarded, book, 5145

Recreational Day Camps (See Summer Camps (Recreation)) Recruitment (Military) (See Military Recruitment)

Recruitment (Personnel) (See Personnel Recruitment) Recruitment (Teachers) (See Teacher Recruitment)

Red Nucleus (See Mesencephalon)

Reenlistment (Military) (See Military Enlistment) Referral (Professional) (See Professional Referral)

Reflex (Conditioned) (See Conditioned Responses) Reflex (Unconditioned) (See Unconditioned Responses)

Reflexes (See also Achilles Tendon Reflex, Acoustic Reflex, Babinski Reflex, Eyeblink Reflex, Flexion Reflex, Hoffmans Reflex, Orienting Reflex, Startle Reflex)

application of reflexology in sports activities, conditioning of study & behavior, children & adolescents, 3242

conditioned inhibition training, nictitating membrane response,

conditioned reflex, history of early research, 10538

emotions, electrically-induced monosynaptic reflex during rest & Valsalva phenomenon & initial tonus & fluent speech, stutterers, 7210

head-tilting during positional reflexes from labyrinth, limb responses, intact & decerebrate cats, 445

increasing muscle stretch, stretch reflex dynamic & static components, decerebrate vs. spinal cats, 10604

moral & political & social & medical considerations, generating & analyzing criteria for determination of death, 1176

percutaneous electric shock during sleep stages 1 4 & REM, orbicularis oculi reflex, 22 33 yr. olds, 3808

physical & reflexological conditioning, water polo, 1670 psychological significance of early infant reflexive reactions, use of term trauma for pre-object reaction regression & application to

disturbances of psychic equilibrium, 2574
reflexological conditioning, swimming, 1721
sound-evoked startle response & head-drop reflex, neonates, 4091
tactile stimulation, avoidance reflex, naupliar vs. postnaupliar embryo vs. juvenile crustacean embryos, 481

topical anesthetization of glans penis, sexual reflexes, male rats, 397 Reformatories

reformatory environment, anger, female offenders, 7332

Refraction Errors (See also Hyperopia, Myopia)

comparison of memory-drum vs. single channel theories, refractoriness of extended movement to directional change, right-handed male college students, 5915

correction vs. no correction for peripheral refractive error, fovea & peripheral retina motion thresholds, graduate students, 5865 laser optometer incorporating Badal principle, determination of eye refractive state during visual task, 3580

practice & interstimulus interval, psychological refractoriness persistence on successive choice-response task, 5839

Regression (Defense Mechanism)

altered consciousness states & free association & sensory deprivation & regressive style, visual imagery imaginative elaboration & vividness & unreality, schizophrenics & artists & engineers, 7300

analytic situation, dread of surrender to resourceless dependence,

concepts of narcissism, regression hypothesis for emotional problems & behavioral crises during rehabilitation, severely physically damaged patients, 11619

identity status, regression in service of ego, college students, 4493 magical beliefs & regressed self-images, self-esteem regulation, narcissistic patients, 7118

Piagetian tests of operational & causal thinking, cognitive development, 5 9 yr. olds, 2103

rigidity & regression & psychosocial disengagement, egocentrism & social interaction across life span, 621

Rorschach test, ego regression diagnosis, 2700

stress & degree of obesity, oral drive cycle duration as evidence of variant form of instinctual regression, obesity-bulima patients,

ward environments with intensive treatment vs. treatment aimed at slow improvement, positive therapeutic effects, severely regressed psychiatric patients, 11687

Rehab Counselor Judgement Scale

Rehabilitation (See also Drug Rehabilitation, Psychosocial Rehabili-

tation, Vocational Rehabilitation)

custodially-oriented prisons vs. rehabilitation & treatment, social interaction in prisons, 11604

family's role, physical disability rehabilitation, 9761 governmental & private rehabilitation programs & services, mental retardates, 9543

implications of cultural theories of poverty & increased counseling effectiveness through consumer-supplier model, rehabilitation, disadvantaged, 11725

Management by Objectives Coaching on the job vs. management seminar off the job, rehabilitation managers, 10153 middle-class lifestyle & credit & prestige & status & wealth accumulations, cultural addiction, rehabilitation counselors in U.S.A., 11308

primary & secondary prevention & rehabilitation, Department of Social Psychiatry, Lanus, Argentina, 11677 psychological research problems & approaches, rehabilitation,

rehabilitation & preventive care vs. biomedical research as government spending priorities, treatment of mentally retarded, 7351 rehabilitation program including group counseling, internal-external control & self actualization & performance, heroin addicts undergoing methadone treatment, 11692

Rehabilitation (Drug) (See Drug Rehabilitation)
Rehabilitation (Psychosocial) (See Psychosocial Rehabilitation)
Rehabilitation (Vocational) (See Vocational Rehabilitation)

Rehabilitation Centers (See also Sheltered Workshops

attitudes toward training program & personnel & facilities of development center for handicapped minors, mothers & staff,

clinical & occupational & social measures, assessment & preparation for resettlement in optimum employment & accommodation, disabled mental patients in Netherne Resettlement Unit, 9583

group psychotherapy, mentally & physically handicapped in rehabilitation centers, 7496

labor center rehabilitaton program, drug abuse, Mexican youth, 11701

leadership behavior & job satisfaction, counselors in state rehabilitation agencies, 11271

preparation & placement responsibilities toward disabled, rehabilitation center, 5020

rehabilitation program for chronically hospitalized patients, 20 60 yr. old patients, 11607

rehabilitation services comprehensive community mental health center, 5269

selection & training & supervision of professional rehabilitation personnel in clinical field experience, manual, 7054 Reinforcement (See also Differential Reinforcement, External

Rewards, Fixed Interval Reinforcement, Fixed Ratio Reinforcement, Internal Rewards, Monetary Rewards, Negative Reinforcement, Nonverbal Reinforcement, Positive Reinforcement, Praise, Preferred Rewards, Primary Reinforcement, Punishment, Reinforcement Amounts, Reinforcement Schedules, Rewards, Secondary Reinforcement, Self Reinforcement, Social Reinforcement, Variable Interval Reinforcement, Variable Ratio Reinforcement, Verbal Reinforcement)

actual vs. imagined fear stimulus, covert reinforcement, fear reduction, female student nurses, 11601

age & reinforcement value, sex-role labels in girls, black & white 1st & 4th grade lower-class females, 10853

anhedonia & learning under various contingencies, male schizophrenics, 5250

autoshaping techniques, operant conditioning, institutionalized mental retardates, 4939

availability of noncooperative response, cooperative responding when cooperation did not result in equal distribution of work or reinforcers, institutionalized retardates, 11391

behavior reinforcement & learning theory, counselor training, student teachers, case report, 11287

bilateral septal vs. cortical control lesions & shock escape & avoidance & food reinforcement, discriminative responding, rats, 6285

color value & selection locus & exposure time & payoff, recall for visually presented letters, undergraduates, 1725

contingent recreation activity room access, daily quiz achievement & on-task" classroom behaviors, culturally-deprived students,

contingent reinforcement, Peabody Picture Vocabulary test, indigent 8 yr. olds, 8882

counterattitudinal advocacy & reinforcement, attitude change & dissonance, college students, 693

cue properties & ambiguous-cue experience, 2-choice discrimination problem with plaque stimuli composed of rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 3993

differential written teacher comments, student performance, control of reinforcement orientation, college students, 3186 discriminative stimulus, elicitation of water-reinforced responding &

drinking, water-satiated rats, 4078 electrical brain stimulation, reinforcement value, neonatal dogs,

food & electrical brain stimulation as reinforcing stimuli, positive

behavioral contrast, rats, 10596 food vs. brain-stimulation reinforcement, conditioned approach &

contact behavior, rats, 6305 hollowed 3-dimensional objects concealing food vs. 1-dimensional

representations, visual discrimination, monkeys, 4002 home environment reinforcers & parent & teacher trainers, classroom behavior modification, educable retardates, 11591 incongruent instructions & reinforcement, imitation, severely retarded 7-12 yr. olds, 11441

IQ & socioeconomic level, reinforcing value of knowledge of correct results, 4th graders, 5366

limbic lesions, stimulus-reinforcement associations in vision, monkeys, 1886

manipulating temporal contingency between neutral stimulus & food reinforcer & varying percentage parameter of pairings, establishing neutral stimulus as conditioned reinforcers, pigeons,

money vs. fluid reinforcement, lever pulling activity, 55 86 yr. old memory-disordered patients, 7070

motivation & reinforcement, selected readings, book, 8358 nonreinforcement & extinction, heart rate, rats, 6133 occupational reinforcer patterns for 67 occupations, 8132

pairing & instructional procedures, reinforcement function acquisition in neutral stimuli, 8392

perceived internal-external control of rewards & punishments, relative efficacy of self-reinforcement & direct reinforcement,

placement of food rewards, progressive elimination maze learning, golden hamsters, 6356

preference for barpressing with food reinforcement vs. free food & free water, hungry & thirsty rats, 8764

prior reward & evaluation by E, self-reinforcement & selfevaluation, 792

reinforcement & discriminative stimuli, control of clarity & informativeness of lectures, 12076

reinforcement & exposure to token reinforcement, standardized test performance, trainable mentally retarded & normal 4th graders,

reinforcement & task & cues & number of therapists, stimulus & response generalization of classes of imitative & nonimitative behaviors, children, 11616

reinforcement for people over object pictures, people concept acquisition, pigeons, 4045

reinforcement frequency & expectancy, interpersonal attraction & group productivity, college students, 747

reinforcement of each correct answer, Stanford Binet Scale IQ score, 5 7 yr. olds, 5378

reinforcement of key releases whose latencies from light fell within payoff band, temporal contingency effects on key release RTs,

monkeys, 544 reinforcement of spaced responding in simultaneous discrimination,

pigeons, 10796
reinforcement omission on pause-respond vs. respond-pause

conditioned patterns, response rate, pigeons, 4068 reinforcement principle & operant conditioning vs. information feedback, techniques for human education & training, 10423

reinforcement principles in experimental teaching procedure, achievement in & attitudes toward introductory educational psychology course, college students, 5540 reinforcement type & task & grade level & social class & sex,

problem solving & motor learning tasks, 1st & 3rd & 5th graders, 7939

reinforcer combinations, promoting reading, Spanish & non-Spanish surname 4th & 5th & 6th graders, 5323 reinforcer strength, instrumental modifiability of heart rate &

respiration & GSR, male undergraduates, 8527

reinforcing properties & differential responsiveness to conspecific

vs. alien species song, white-crowned sparrows, 10767 response alternatives & contingent vs. noncontingent informative feedback, choice of high probability alternative, undergraduates, 1781

response competition, 2-choice object discrimination task with rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 4011

responsive-contingent sensory change in bar pressing, preference for ambient light intensity & sound, rats, 6377

rewarding & punishing responses to behavior of labeled deviants, maintenance of mental illness, patients & nursing personnel in long-term hospital for mentally ill, 11699

rewarding activity vs. response to increased drive following food &/or water deprivation, wheel running, rats, 521 rewarding brain stimulation induction of ethanol dependency, rats,

rewarding brain stimulation vs. conventional rewards, associative analysis of maintained behavior, 411

self-control vs. therapist-controlled reinforcement, weight loss, obese women, 11621

self-reinforcement determinants, discrimination learning, children, 2134

septal vs. ventromedial hypothalamic lesions, preference for obtaining food by bar pressing, rats, 460

signal-reinforcement effect for modifiable shocks, interpretation of preference-for-signalled shock phenomenon, rats, contribution to G. Biederman & J. Furedy, 4016

social & tangible reinforcers, spelling accuracy, male 9 10 yr. old special education students, 7715

socioeconomic status & success vs. failure vs. neutral feedback contingent vs. noncontingent self-reinforcement, black vs. white 7 9 yr. olds, 624

stimuli paired with aversive stimulation schedules, reinforcing properties & discriminative cue preference, rats, 6362

stimulus & reinforcement control, sex role development, boys, 10897 stimulus preceding noncontingent food reward & stimulus following response with noncontingent rewards, secondary reinforcement effects, rats, 6385

success & failure & reward magnitude, contingent vs. noncontingent self-reinforcement, 7 8 yr. olds, 625

successive nonrewards prior to sucrose reward & successive alfalfa rewards prior to sucrose, resistance to extinction, rats, 6354

tangible & token rewards, pole-vaulting performance, 15 yr. old track team members, 7739

verbal & material reward & punishment, verbal conditioning, primary & secondary psychopaths, 11418

vibration vs. touch vs. noise emitted by vibrator vs. food as reinforcement & operant button-pressing, 8 12 yr. old trainable institutionalized retardates, 4826

vicarious reinforcement & model's behavior, imitation & verbal learning, college students, 8411

work requirements & punishment of unmerited self-feeding, selfreinforcement for contingent response without external contingencies, pigeons, 4043
Reinforcement Amounts

attitudinal reinforcement magnitude shifts, instrumental response speed, male undergraduates, 3711

average reward, negative stimulus performance in differential conditioning, rats, 8745

concurrent random interval reinforcement & stimulus changeover delay & reinforcer duration & noncontingent & signaled shock, lever pressing response rate, rats, 4003

constant reward magnitude & constant reward delay, acquisition & extinction in runway, rats, 8730

differential magnitudes of social reinforcers, lever pressing RTs, undergraduates, 3707

ethnic-social class & intelligence & achievement motivation, ability to delay gratification, white vs. black children, 8879

intertrial reinforcement amount, successive contrast effects, rats, frustration theory application, 10712

large vs. small & intermediate vs. small rewards on alternate trials & exteroceptive cues & transfer, pattern running, rats, 6451

lever touch vs. press & reinforcement pellets caloric value, operant conditioning, female mice, 6375

low vs. high drive & large vs. small reward & number of training trials, resistance to extinction, rats, 6439

pre- & postshift reinforcement variation & long u-shaped maze vs. short straight runway, positive contrast & ceiling effect, rats, 4064 proportion of food obtained by pecks at dusk, pecking choices at 2 disks for food, pigeon, 3989

reinforcement & retention interval, short-term motor memory recognition & recall, male undergraduates, 3715

reinforcement amount & duration of retention interval, short-term motor memory recognition & recall, 221

reinforcement amount & frequency in token economy program, work rates, retarded adults, 11485

reinforcement magnitude, patterning, goldfish, 1999 reinforcement schedule & amount intertrial interval, fractional antedating goal reaction, rats, 10787

reinforcement schedule & percent body weight & reinforcer magnitude, schedule-induced polydipsia acquisition, rats, 4012 reward magnitude & shift, escape of fear-eliciting stimuli, rats, 525

reward magnitude & single vs. multiple pellets, runway time & extinction, rats, 6357

signaling of extra reinforcements & duration & rate & response pause contingency, response rates, male pigeons, 4053

Reinforcement Schedules (See also Fixed Interval Reinforcement, Fixed Ratio Reinforcement, Variable Interval Reinforcement, Variable Ratio Reinforcement)

access to solid & sweet liquid food simultaneously vs. sweet liquid food reinforcement in operant conditioning situation, feeding behavior, obese vs. diabetic vs. viable yellow vs. littermate control mice, 1827

acquisition length & structure & instructional set, hypothesis testing behavior & resistence to extinction under partial reinforcement conditions, 8449

all vs. some reinforced training trials, stimulus generalization & discrimination along click-frequency continuum, naive female pigeons, 1991

alternating vs. irregular partial reward schedules, response patterning & speed on runways, rats, 6358

amygdalectomy, mixed reinforcement schedule contrast effects, rats,

behavior contrast, children, 10927

behavioral & transient contrast, maintained generalization gradient,

pigeons, 10757 bidirectional manipulation of length of successive nonrewarded trials, pre- & postshift performance, rats, 500

bilateral hippocampal or cortical lesions made by aspiration, go & no-go task with bar pressing reinforced on alternate trials, rats, 470

bilateral septal lesions, saccharin preference & water deprivation effects on DRL 20-sec schedule of barpressing, hamsters, 3903

candy vs. token reinforcers & reinforcement schedule & sex & overvs. underconformity, response rate, 11-16 yr. old retardates, 2743 combinations of concurrent probabilities of reinforcement for leverpressing & not-lever-pressing, temporally defined schedules of positive reinforcement, 2050

concurrent appetitive-aversive schedules, nondiscrimination avoidance extinction, rats, 6407

concurrent fixed-interval & ratio schedules, response & time

matching to reinforcement, pigeons, 10753
concurrent fixed-interval schedules with DRL procedures & concurrent fixed-interval fixed ratio schedules, fixed-interval performance, 18-24 yr. olds, 232

concurrent vs. multiple reinforcement schedules, local response patterns, pigeons, 2017 conditioned reinforcement, 1-trial exploration learning, water-

deprived rats, 6339

conditioned reinforcer withdrawal to suppress response, behavior therapy, review, 9643

conditioned suppression, consecutive responding in counting behavior, rats, 10707

consistent reward & single alternation vs. irregular schedule of intermittent punishment in runway, pattern discrimination learning, albino rats, 1975

constant reward magnitude & constant reward delay, acquisition & extinction in runway, rats, 8730

contingency probability schedule, acquisition & maintenance & elimination of avoidance & GSR & heart rate response, 3681

contingent & noncontingent schedules of continuous & partial reward & nonreward, runway running response extinction performance, rats, 1974

contingent vs. random CS & UCS presentations during time-related base-line positive reinforcement, response facilitation, college students, 1756

continuous vs. intermittent & verbal vs. tangible reinforcement, acquisition of motor performance, young trainable mental retardates, 11769

continuous vs. intermittent vs. selective vs. variable interval reinforcement, intraindividual topographical variability & rate measures of responding, rats, 4028

contrast effects, maintained generalization gradient training, pigeons, 2013

correct responses & response reinforcement frequency feedback. probability learning, 5975

correlated reinforcement delay, instrumental conditioning of conversation, undergraduates, 3754

delayed reward, anticipatory errors in linear maze with 2-choice spatial discrimination units, rats, 10737

delayed vs. immediate reinforcement, color learning, honey bees, 8729

differential-reinforcement-of-low-rate schedule of reinforcement, collateral behavior, college students, 10366

discrimination training & response-dependent vs. independent schedules, post-discrimination stimulus control, pigeons, 10788

discriminative stimulus duration & variability in chained reinforcement schedules, stimulus control acquisition & maintenance, rats,

egocentricity & gratification delay inability & risk taking, primary vs. neurotic sociopaths, 9350

environment, nature of conditioned reinforcement, pigeons, 10699 environmental stimulus- & response-outcome contingency expectancies vs. contingent reinforcement, operant learning, 1674

ethnic-social class & intelligence & achievement motivation, ability to delay gratification, white vs. black children, 8879

event schedules & values & state vs. trial instructions, ability to discriminate acquisition from extinction in probability learning task & partial reinforcement effect college students, 1744

Experimental Analysis of Behavior, high-resolution analysis, pigeons, 10758

extinction of food-reinforced responding, schedule-induced polydipsia, rats, 2028

flurazepam hydrochloride & interaction with pentobarbital, general anesthesia during fixed interval reinforcement & alternated punished & unpunished reinforcement schedules, rats, 3865

food reinforcement schedules, key-pecking, common crows, 6416 frustration & partial reinforcement, dominant & other response performance & neutral stimulus activation in paired associate learning, undergraduates, 3658

gradual introduction to increasing parameter values of omission training schedule, pecking response elimination, pigeons, 4074

gradual vs. sudden reinforcement delay imposition, vocal response persistence, retarded children, 9304

hierarchy reinforcement system, behavior modification, trainable mentally retarded children, 12056

high vs. low probability of reward occurrence, time estimation, internal vs. external gratification delay vs. nondelay undergraduates, 8476

immediate vs. delayed reinforcement & forced preresponse stimulus exposure vs. stimulus exposure during delay interval & intertrial interval & interstimulus interval, discrimination learning facilitation, 9 vr. olds, 4126

immediate vs. differential food vs. delayed reinforcement vs. stimulus changes with vs. without secondary reinforcement vs. no food presentation vs. extinction, maintenance & acquisition of

key pecking, pigeons, 10743 immediate vs. 1 day to 1 wk. delayed monetary reward, choice of reward size & choice RT, 10 12 yr. olds, 191

informative stimuli with multiple reinforcement delays, discriminat-

ed key pecking, pigeons, 6391 instructions & verbal prompts & monetary reinforcement for reinforcing patients in token economy program, reinforcement dispensing rates, psychiatric aides, 9252

intermittent reinforcement schedule, enuresis conditioning treatment, 6 14 yr. olds, 9506

intertrial interval changes, matching-to-sample performance,

pigeons, 10748 lickometer, device for recording unreinforced tube licking, rats, 8767 locus of control & trust in experimenter, gratification delay, high school students, 4504

locus of nonreward-reward transitions occurring within & between adjacent runways, generalized PRE, 2051

maintenance schedule & body weight loss, hunger drive, rats, 2058 manipulating temporal contingency between neutral stimulus & food reinforcer & varying percentage parameter of pairings, establishing neutral stimulus as conditioned reinforcers, pigeons,

matching-to-sample procedure under fixed-interval & fixed-interval schedules with exteroceptive stimulus changes correlated with time since last reinforcer, performance accuracy, pigeons, 483 medial vs. lateral prefrontal lesions, asymmetrical & symmetrical

reinforced differentiation, dogs, 8607

mixed & multiple fixed ratio reinforcement schedules, behavioral contrast, rats, 517

mixed schedule stimulus removal & discriminative stimuli production, Wyckoff pedal response & standing time & keyresponse rates, male pigeons, 4026 mixed vs. multiple schedules of primary reinforcement, conditioned

reinforcement, pigeons, 2004

multiple component duration, reinforcement schedule interactions & extinction rate, pigeons, 8739

multiple schedule with equal variable-interval schedules in 2 components vs. variable-interval schedule in 1 component & extinction schedule in other, sustained behavioral contrast, 5-8 yr.

negative vs. positive auto-maintenance, selective insensitivity to sdelta signalling nonreinforcement in terminal link, pigeons, 4066

noncontingent feedback vs. monetary incentive for accuracy & event schedules, discrimination of acquisition vs. extinction phases of probability learning under state instructions & PRE, 6th graders vs. female college students, 2135

nonreinforcement & different reinforcement schedules, classical eyelid conditioning, 10453

observing model's reinforcement schedule & response rate, Ss' extinction resistance & response rate, 2nd graders, 10810

partial reinforcement & instructional set, discrimination conditioning of eyelid response, college students, 10509

partial reinforcement effects, instrumental escape conditioning, rats,

partial reinforcement in 1 vs. both goal boxes of double alleyway, speeds & frustration effects & resistance to extinction, rats, 6431 partial reinforcement schedule & interstimulus interval & UCS

intensity, eyelid conditioning, 10449 partial vs. continuous reinforcement with similar attitudes,

acquisition & extinction, college students, 10451 partial vs. continuous reinforcement, response persistence during satiated testing, albino rats, 2025

partially & constant delayed reward, extinction, literature review, 10404

percentage of partial reward, resistance to extinction, rats, 8707 positive conditioned reinforcement, maintenance of keypecking

which prevents delivery of primary reinforcement, pigeons, 4062 postreinforcement delay & intertrial interval & 2-way vs. 1-way running, extinction resistance in runway performance, rats, 8774

quantity vs. quality response reinforcement & verbal vs. monetary reinforcers & reinforcement before vs. after contingency shift, changes in job performance, college students, 10119

regular vs. random intermittent reinforcement, successive brightness discrimination, rats, 6372

reinforcement amount & frequency in token economy program, work rates, retarded adults, 11485

reinforcement availability information, observing responses & partial reinforcement acquisition phenomena, 6449

reinforcement by cessation of flickering light & duration of time-out from flicker, bar pressing & application of generalized discrepancy model, rats, 503

reinforcement contingencies, attention span & generalization of task-related stimulus control, 11 & 13 yr. old retardates, 2723

reinforcement contingencies, pursuit rotor tracking task perform-ance, 18 yr. old cerebral-palsied tension athetoid quadriplegic, 5192

reinforcement delay, discrimination learning, rats, 6359 reinforcement frequency & prefood stimulus duration, keypecking response rate, pigeons, 4067

reinforcement schedule & amount intertrial interval, fractional antedating goal reaction, rats, 10787

reinforcement schedule & days of training & beginning vs. midsession & 1 vs. 2 stimuli per session, asymptotic free-operant red-green discrimination reversal, goldfish, 10786

reinforcement schedule & percent body weight & reinforcer magnitude, schedule-induced polydipsia acquisition, rats, 4012 reinforcement schedules & D-tetrahydrocannabinol, induced

aggression, pigeons, 6238 entincorcement schedules, probability learning acquisition & extinction, retardates, 7169 reinforcement schedules,

Reinforcement Survey Schedule of J. Cautela & R. Kastenbaum, discussion of evaluations & extensions, 1471

reinforcement-test interval distribution in paired-associate & verbal discrimination learning, short- vs. long-term retention, college students, 5993

relative response rates to relative reinforcement rates in concurrent variable-interval schedules, choice behavior, pigeons, 495

response contingent reinforcement criterion variation, shaping high correct response rates in matching to sample task, kindergartners,

response-feedback contingency integration, operant conditioning, 4 7 mo. olds, 6562

response-food & food-food intervals, lever pressing under food postponement schedules, rats, 550

- reverse & conventional partial reinforcement effects following brief & extended acquisition training, resistance to extinction, goldfish,
- reward delay & massing trials, positive & negative operant & incentive contrast effects, rats, 526
- reward magnitude & shift, escape of fear-eliciting stimuli, rats, 525 reward sequence, extinction & spontaneous recovery, rats, 6353
- schedule-induced polydipsia, inconstancy of drinking bursts, rats, 4030
- shock contingent on responses varied in temporal proximity to consummatory response, induced gastric ulcers, rat, 3821
- signaling of extra reinforcements & duration & rate & response pause contingency, response rates, male pigeons, 4053
- stimulus light preceding timeout & point-loss periods & response cost, operant responding, college students, 8448
- stimulus-contingent & response-independent food presentation, key pecking behavior, pigeons, 10738
- successive nonrewards prior to sucrose reward & successive alfalfa rewards prior to sucrose, resistance to extinction, rats, 6354
- synchronous reinforcement, vocal responses, failure-to-thrive vs. non-failure-to thrive infants, 10896
- tangible vs. intangible vs. no rewards & time of reward presentation, concept-switching performance, middle- vs. lower-class Israeli 5 yr. olds, 2119
- time-correlated stimuli, response patterning on avoidance schedule, rhesus monkeys, 10741
- token reward vs. response contingent reinforcement & reward consumability, size discrimination, 3rd graders, 5934
- transivity of reinforcement schedule preferences, pigeons, 10761 trihexyphenidyl, schedule-induced alcohol drinking, reactive vs. nonreactive rat strains, 6282
- variable-interval schedule vs. free-reward situation, postreinforcement EEG synchronization phenomenon, cats, 1057
- weight loss following bilateral ventromedial lesions of hypothalamus, response rates for food reinforcement on variable interval 1 min. schedule, rats, 3944
- yoked-chamber comparison of concurrent & multiple schedules & changeover delay, response rate & discrimination reversals, pigeons, 515
- 2nd order schedules of shock delivery, lever-pressing responses, squirrel monkeys, 487
- 2nd-order scheduling of paired & nonpaired brief stimuli, response rates, pigeons, 10784
- 24 hr. separation of positive & negative stimulus components of discrimination schedule, failure to demonstrate behavioral
- contrast, pigeons, 4079 Relapse (Disorders)
- age & length of addiction & employment & race & education, relapse rate, followup study of addicts committed under Narcotic Addict Rehabilitation Act, 11776

prednisone, REM & stage II sleep & eye movement & waking time, 18 22 yr. old college students, 6261

sleep & waking, spontaneous discharge rates of cerebellar Purkinje cells, cats, 8530 sleep stages, signaled vs. unsignaled arousals from sleep, undergraduates, 3592

stimulus interval, auditory evoked response during Stage 2 and REM sleep, 2.5 yr. olds, 1816

stressful movie-viewing & REM & non-REM sleep deprivation, anxiety & adaptation, college students, 3688
vestibular stimulation, REM sleep, 15-28 yr. olds, 8569

visual images of dreams, rapid eye movements, 14 50 yr. olds, 8532 visual stimulation, concurrent wakefulness & subsequent REM

sleep, newborn infants, 10808 wakefulness & NREM & REM sleep, spontaneous discharge transformations of single neurons of parietopreoccipital association cortex, monkeys, 1797

Remedial Reading

automated teaching machine in remedial reading, reading ability &

achievement, 6th graders, 7995
Initial Teaching Alphabet reading program, reading improvement, 8
12 yr. olds with auditory perceptual disturbances, 7933

instrumental escape extinction procedure, remedial reading progress, reading disabled children, 11977

massive oral decoding technique, decoding fluency, retarded readers, 3210

racial differences & socioeconomic status, reading achievement after 2 yr. remedial program, kindergartners designated as high risk, 11876

remedial classes designed to meet minimum state reading standards, reading achievement growth & opinions, 10th-12th graders, 10090 selecting reading & mathematics tests, predicting need for remediation in open admissions university, high school seniors, 11964

Slosson Intelligence Test vs. WISC validity, 8-14 yr. old students referred to reading clinic, 7852

teacher & student expectations, student achievement in reading improvement course, college students, 11110

teacher guidance charts, reading disabilities & remediation, 9905 visual tracking program, reading deficit remediation, adult aphasics,

Remembering (See Retention)
Remission (Disorders) (See also Spontaneous Remission, Symptom Remission)

long-term use of tranquilizing medication & discontinuation effects, hospitalized chronic schizophrenics, literature review, 11721 Remote Associates Test

anxiety & intelligence & access to primitive thought modes, Remote Associates Test validity, 5776

intentional vs. incidental cue utilization in verbal problem solving, individual differences measured by Remote Associates Test & R scale of MMPI, 1729

Repairmen (See Technical Service Personnel)

Repetition (Compulsive) (See Compulsive Repetition)
Reply (To Professional Criticism) (See Professional Criticism Reply) Repression (Defense Mechanism)

anxiety & repression & personality dimension of other, selfdisclosure, student nurses, 808

defective ego functioning & repression of & denial of interest in sexual lives & absence of conscious pregnancy fears, unwed motherhood, 2464

dreaming vs. dream deprivation, recall of threatening stimuli, 3796 heart rate & defensive style & stimulus type, recognition memory, male repressors vs. nonrepressors, 301

humor, expression of repressed sexual aggression, 6951

partial nullification of effects & emergence of repressed portion of ego, shame as affective motive for defense, 42 yr. old male, 1248

psychosynthesis vs. classical psychoanalysis, repression of sublime & therapy for higher & lower personality aspects, 7479 race & threat value of stimulus, perceptual defense & personal

space, black male repressors vs. sensitizers, 4476 repression defense mechanism, literature review, 7000

repression-sensitization, perceptual sensitivity & cognitive style,

neurotics, 2774 repressor vs. sensitizer vs. neutral ego-defensive style & selective

exposure, attitude change, college students, 2297 stressful vs. standard instructions, Neuroticism & Extroversion scores on MPI, repressor vs. sensitizer college students, 2451

Repression Sensitization Scale repression-sensitization & sexual stimulation, associative responses

to double entendre words, college students, 4491
Repressor Sensitization Scale & A-B variable, undergraduate & graduate students, 2506

threat magnitude & repression-sensitization & avoidability of threat, attention & responsivity to remote danger, college students, 3735
Reptiles (See also Crocodilians, Lizards, Snakes, Turtles)

Reserpine

(+)-amphetamine applied iontophoretically to brainstem neurons following reserpine vs. a-methyl-paratyrosine vs. bis-(1-methyl-4homopiperazinyl-thiocarbonyl)- disulphide, excitatory & inhibitory actions on single brainstem neurons, rats, 1840

a-methyltyrosine & reserpine, operant shuttle-box & t-maze task performance, 6-hydroxydopamine treated & centrally-sympathectomized rats, 10607

amphetamine & hydroxyamphetamine & dihydroxyphenylalanine & hindunine de methyl-p-tyrosine & p-chlorophenylalanine & chlorpromazine & cyprohep-tadine, amphetamine state conditioned avoidance & recall, albino rats . 446

clonidine & apomorphine, locomotor activity, normal vs. reserpine vs. methyltyrosine vs. FLA-63 vs. spiroperidol vs. phenoxybenzamine pretreated mice, 418

corpus striatum chronic lesions, reserpine- & apomorphine- & amphetamine- & haloperidol-induced syndromes, rats, 10614

p-chlorophenylalanine & reserpine, estrus induction, estrogen-primed ovariectomized vs. adrenalectomized vs. hypophysectomized female mice, 6267

reserpine & morphine & propiram fumerate, 4 or 5-diazoimidazole-5 or 4-carboxamide & diazobenzenesulfonamide benzenesulfonate & N-ethylmaleimide induced writhing syndrome & hypothermia, rats, 3910

reserpine & phentolamine & phenoxybenzamine & haloperidol & chlorpromazine & imipramine & atropine & mepyramine & nalorphine, morphine-induced activation, mice, 6236

reserpine & tetrabenazine pretreatment, tremorine dosage for analgesia, mice, 3955

reserpine, history & pharmacology & depressive reaction in hypertensive patients & mental effects, review, 7467

reserpine, territory maintenance, male red-winged blackbirds, 6302 tryptophan, reserpine induced depressed motor activity & hypother-

mia & ptosis, mice & rats, 8669 tryptophan, reserpine induced depressed motor activity & hypother-

mia & ptosis, mice & rats, 8669 Residence Halls (See Dormitories)

Residency (Medical) (See Medical Residency)

Residential Care Attendants (Institutions))
Residential Care Institutions (See Attendants (Institutions))
Residential Care Institutions (See also Halfway Houses, Hospitals, Nursing Homes, Orphanages, Psychiatric Hospitals, Sanatoriums)

alcoholism or drinking problems & hostile attitudes, discipline problems, institutionalized older veterans, 9277

attitudes toward home vs. hospital care of mental retardates, Mexican- vs. Anglo-Americans & middle- vs. low socioeconomic status Ss. 8913

attitudes toward working residents, attendants in state residential institution for retarded, 2523

background & family relationships & diagnoses & treatment & case histories, social adjustment after residential treatment, boys discharged from Children's Village, 2877

behavior modification principles & observational techniques training, residential treatment effectiveness, child care workers,

causes, running away from residential center, adolescent girls, 7536 child & family & sibling characteristics & socioeconomic status & request context, request for residential treatment, multiple handicapped & low IQ children, 9570

child care residential institutions, therapist vs. child care worker roles, 9608

construction of forced-choice measurement technique, measuring performance behavior effectiveness, attendants in hospitals for retarded, 907

defensive vs. participative management practices in residential child care institutions, attitudes, staff & adolescent residents, 7552

educational provisions, state residential facilities for mentally retarded, 9797

educational vs. therapeutic & custodial functions, institutions for retarded, 3002

employment in institutions for retarded & hierarchical position, selfactualization, residential personnel, 4587

group care for children, guidelines for planning, 5257

group leader's experiences, therapeutic-educational youth home for adolescent boys, 5086

milieu therapy, self-injurious behavior, institutionalized elderly, 7575

model treatment programs for routine use, residential programs in adaptive behavior, emotionally disturbed retardates, 1098

number of foster home placements & experiential hardships & time of year, male vs. female & runaways vs. nonrunaways in residential treatment center, 7481 open ended interview given on 1-shot basis, residential treatment community's self-reflections, staff & oldest children in treatment, 11542

persistent factors in application & admission, state residential institutions for retarded, 2782

physical structure & personnel & organization, private Catholic hospital for retarded & neurotic & geriatric & psychotic patients, Netherlands, 5266

polymatric rearing in intensive care institution, attachment behavior & stranger & separation anxiety, infants, 6607

psychological aids, adjustment to resident care, retarded children & parents, 7675

rearing in long-stay residential nurseries, social development, 2 yr. olds. 6620

reorganization from vertical to horizontal model within institution, resident services & staff communication, survey of cottage parents & supervisors, 1091

research unit's role & collaborative approach, residential treatment center for epileptic children with educational & social & emotional problems, 5200

resident trainee advisory council, policy making at institution providing social & job training, mildly retarded adults, 5264

residential child care treatment, role of child care worker as agent of change, 9244

residential group project description, mothers of children referred to guidance clinic, 7507

rigidity vs. flexibility, custodial vs. rehabilitation role, hospitals for aged, 5030

self-description of childhood & adult personalities, perceptions of personalities of boys in residential treatment, male child care workers, 2540

sex & race & age differences, verbal fluency & flexibility & creativity, sighted vs. blind residential vs. day school 6 12 yr. olds, 11926

size-of-setting & staff-to-resident ratio & level of patient functioning, attitudes toward & expectations for mentally retarded, female aides, 4928

social status & integration, children from children's homes vs. state orphanages vs. normal homes, 4995

urban to suburban relocation, mortality rates, institutionalized aged,

Resistance (Psychotherapeutic) (See Psychotherapeutic Resistance) Resistance (Skin) (See Skin Resistance)

Respiration

age & pulmonary function & biochemistry variables, retinal field shrinkage, Normative Aging Study veterans, 4087

breathing air vs. nitrous oxide, visual function & fine & gross motor performance & long-term memory, underwater divers, 1392

brief high-intensity airplane anticollision light backscatter, occipital EEG & heart rate & respiration & skin potentials & eyeblinks, instrument rated pilots & nonpilots, 3460

carrier frequency & modulation depth & modulation frequency of amplitude-modulated & pure-tone signals, stimulus generalization of conditioned respiration response, goldfish, 1993 cigarette smoking, stress response & RT to traffic light signals &

cigarette smoking, stress response & RT to traffic light signals & heart rate & blood pressure & calf blood flow & respiration rate & 16 PF scores, 1835

EEG & eye movements & tonus & respiration & EKG & electrodermogram, afternoon sleep in normal vs. sensory deprivation environments, 20 26 yr. olds, 8560

electrical stimulation of brain, autonomic & motor responses & respiration & blood pressure, toads, 1884

electrical stimulation of septum, arterial blood pressure & motor activity & pulmonary respiration & vocalization, toads, 1883 fatigue & arousal in simulated car driving, steering errors & brake RT & subjective fatigue & pulse rate & respiratory rate & skin

resistance & neck muscle tension, 20 25 yr. old psychology & driving school students, 8057 field dependence & anxiety level & stress, heart rate & respiration & electrodermal responses, males, 6187

focused attention vs. relaxation training vs. natural means, voluntary control of heart rate & respiration, 3782

high & low demand instructions, behavioral avoidance & confinement time & anxiety & heart rate & respiration, claustrophobics, 3813

Hoe 264 & heptobarbital, sleep & polygraphic measures of vigilance & attention & EEG & arm muscle contraction & RT & pneumogram & EKG & galvanic skin resistance & blood pressure, young adults, 3881

incentive level & difficulty & novelty in choice serial RT task, pulse & respiration rate & pulse volume & skin conductance level &

muscle tension, 22 59 yr. old females, 6208 moral & political & social & medical considerations, generating & analyzing criteria for determination of death, 1176

nonsignal auditory stimuli, cardiac & respiratory & EEG habituation, neonates, 6590

physical training program, 16 PF & weight & estimated maximum oxygen uptake & respiratory rate & vital capacity & RT & flexibility & heartometer measures, 60 79 yr. olds, 6471

reinforcer strength, instrumental modifiability of heart rate & respiration & GSR, male undergraduates, 8527

repeated negative downhill work, respiratory & circulatory & temperature measurement, 26-41 yr. old males, 276 single & repeated alcohol doses & blood elimination rate, sleep

single & repeated alcohol doses & blood elimination rate, sleep stages & EEG frequencies & heart & respiration rates & GSR, 21 30 yr. old students, 3951

stress levels & driving situation difficulty level, steering & braking & traffic indicators operation RTs & heart rate & blood pressure & respiration & calf blood flow & 16 PF scores, 19 26 yr. olds, 3365 uncertainty, heart & respiration rate, 25 yr. old experienced

parachutist, 6130 visual search varying in target stimulus discriminability, cardiac & respiratory activity, college students, 8271

Zen vs. cotention concentration methods, maintenance of concentration & feelings of well-being & time perception & respiration rate, college students, 3686

Respiration (Artificial) (See Artificial Respiration)
Respiration Stimulating Drugs (See also Caffeine)

lobeline vs. placebo, reduction of cigarette smoking, 7423
Respiratory Distress (See also Apnea, Dyspnea, Hyperventilation)
narcotic analgesics, acute toxicity & respiratory depression &

convulsions in relation to brain catecholamine levels, mice, 10615
Respiratory System (See also Bronchi, Diaphragm (Anatomy),
Larynx, Lung, Nasal Mucosa, Nose, Olfactory Mucosa,
Paranasal Sinuses, Pharynx, Pulmonary Alveoli, Thorax,
Trachea, Vocal Cords)

Respiratory Tract Disorders (See also Apnea, Asthma, Bronchial Disorders, Common Colds, Dyspnea, Hay Fever, Hyperventilation, Laryngeal Disorders, Lung Disorders, Pharyngeal Disorders, Pneumonia, Pulmonary Emphysema, Pulmonary Tuberculosis, Tracheal Disorders)

factors in localization of chest symptoms, depressed patients, 9308 Respondent Conditioning (See Classical Conditioning)

Response Amplitude

amplitude & position & timing & velocity as cues, reproductions of horizontal arm movements, 19 35 yr. olds, 3598

bar-pressing time discrimination, spectral analysis of response force variations as evidence of neuromuscular sensory feedback, rats, 498

biofeedback, acquisition & retention of differentiated EMG response, 3773

cued vs. uncued vs. disparity UCS's, galvanic skin response amplitude & latency & rise time & Edelberg recovery measure, college students, 8541

increase over time in stimulus generalization to apparatus, frequency & probability & amplitude of avoidance CRs, rabbits, 501

logarithm of ratio of amplitude & accuracy, relation between amplitude & accuracy & duration of hand movements, support for P. M. Fitts's original equation, 5812

reinforcement amount & frequency in token economy program, work rates, retarded adults, 11485 stimulus similarity, size difference judgment response amplitude &

latency, 7th graders, 10299

Response Bias

acquiescence in personality assessment, shifting definitions, criticisms of P. M. Bentler & D. N. Jackson & S. Messick's rebuttal, 841

acquiescent response style in personality assessment, revision of P. M. Bentler & D. N. Jackson & S. Messick's hypothesis, 871 agreement & disagreement, memory performance & confidence-level & response bias, group, 9105

level & response bias, group, 9105
all-or-none RT theories, stimulus factor & response bias &
biscalability of error matrices, 1514

anchor weights, response biases in lifted weight judgments, discussion of I. John's study & John's response to criticism, 137

auditory sensitivity & response bias estimated by signal detection analyses, EKG arousal cycle, 21 28 yr. olds, 6122 concurrent variation of response bias & sensitivity, operant discrimination between standard auditory intensity & attenuated comparison values, rats, 2053

constructing verifying & falsifying cases of conditional rules with variations in presence & absence of negative components, indicating consistency in rule interpretation, college students, 198 nonparametric indexes, sensitivity & response bias in detection &

recognition experiments, 8328

response frequency equalization vs. adaptation level theory of constant stimuli method bias, recalculation of A. Erlebacher & R. Sekuler's data, 3526

response strategy dependence, bias-free measurement of binary categorical time interval & pitch judgment, mental patients, 11496 response strategy dependence, bias-free measurement of binary categorical time interval & pitch judgment, mental patients, 11496 Rorschach testing, cross-sex bias, psychiatric patients, 1522

social desirability & item ambiguity of questionnaire items & item format, response biases, college students, 8995

stimulus uncertainty & response importance, amount of information given favorable vs. unfavorable & insufficient & inconsistent,

trade-off bias & efficiency, serial choice reactions, 8473

Response Duration

fixed-interval schedule, response force distributions, pigeons, 8732 logarithm of ratio of amplitude & accuracy, relation between amplitude & accuracy & duration of hand movements, support for P. M. Fitts's original equation, 5812

manifest anxiety level, visual exploration time, undergraduates, 6983 negative automaintenance vs. fixed interval vs. fixed ratio reinforcement schedules, pecking duration & frequency, pigeons, 4061

Response Frequency

behavior contrast, children, 10927

D-tetrahydrocannabinol, variable interval schedule response rate, rats, 10625 Experimental Analysis of Behavior, high-resolution analysis,

pigeons, 10758

fixed-interval schedule, response force distributions, pigeons, 8732 imitation reinforcement, response maintenance & frequency, preschoolers, 6494

increase over time in stimulus generalization to apparatus, frequency & probability & amplitude of avoidance CRs, rabbits,

mixed schedule stimulus removal & discriminative stimuli production, Wyckoff pedal response & standing time & key-response rates, male pigeons, 4026

negative automaintenance vs. fixed interval vs. fixed ratio reinforcement schedules, pecking duration & frequency, pigeons,

observational learning of aversive Pavlovian stimulus contingency, vicarious conditioned acceleration, rats, 2032

observing model's reinforcement schedule & response rate, Ss' extinction resistance & response rate, 2nd graders, 10810 punishment contrast, unpunished responding rate during free-

operant avoidance, rhesus monkeys, 10754

reinforcement frequency in multiple random-interval avoidance schedules, response rate, rats, 10726

reinforcement of spaced responding in simultaneous discrimination, pigeons, 10796

remote associational ability & type of verbal stimulus & serial position of response, response frequency on paired association task, high school students, 10442 success effects, response rate in complex decision making, dyads,

6865

2nd-order scheduling of paired & nonpaired brief stimuli, response rates, pigeons, 10784

Response Generalization

attitude set, generalization of verbally conditioned self-acceptance responses, 2453

behavioral & transient contrast, maintained generalization gradient, pigeons, 10757 continuous stimulus dimension, continuous response dimension

control, pigeons, 10791 contrast effects, maintained generalization gradient training,

pigeons, 2013

discriminative punishment training, generalization of activity, rats,

errorful vs. errorless training, intradimensional discrimination learning & generalization, 7 8 yr. olds, 8379

food finding with vs. without alley discrimination, frequency of food transport to goal-box, rats, 10720

frustration, generalization of aggressive responses, 6807

luminance level, wavelength generalization & discrimination, pigeons, 6350

proactive inhibition, postdiscrimination generalization gradient, pigeons, 8712

reinforcement & task & cues & number of therapists, stimulus & response generalization of classes of imitative & nonimitative behaviors, children, 11616

response rate controlled by single stimulus absence, combinedstimulus control, rats, 8772

stimulus similarity & response criterion, successive discrimination reversal learning, pigeons, 8748
Response Lag (See Reaction Time)

Response Latency additive-multiplication-vs. comparison-stages, simple multiplication response latencies, college students, 8444

amnesic agents, step-through latency in passive avoidance tasks & role of stress, 438

anodal polarization to dorsolateral prefrontal cortex, delayed response tasks acquisition, monkeys, 1934

apparatus measuring response latency & observational categories for linguistic & psycholinguistic phenomena testing, 2413

auditory frequency thresholds & response latency, cortical evoked potentials, guinea pigs, 8626

auditory occlusion, latency time & word count & speech rate & response quality on TAT, institutionalized delinquent adolescent boys, 4892

auditory stimulation, digital vasomotor activity, 19 21 yr. old soldiers, 8539

closed vs. open environment & videotaped feedback, form & accuracy & latency of classical fencing lunge, right-handed female college students, 5825

confidence ratings, index of response latency in concept identifica-tion, college students, 10412

cued vs. uncued vs. disparity UCS's, galvanic skin response amplitude & latency & rise time & Edelberg recovery measure, college students, 8541

cumulative expectancy, alertness & skin resistance, college students, 8520

discrimination thresholds, sound intensity discrimination latencies, 8265

EEG & nervous system strength, performance of monotonous work, 8557

free choice vs. fixed postfeedback interval, response latency in concept identification, college students, 10458

frequency of occurrence in English language, object-naming latency, 7 10 yr. old stutterers, 11342

geometrical disparity & number of trials, stereopsis & depth perception response latency, undergraduates & staff members, 5838

high- vs. low-implied movement, response latencies in autokinetic movement task, college students, 10296

hypothesis-testing strategies, concept identification response latency, college students, 8383

imagery codes, human information retrieval from short-term recognition memory, college students, 8464

intra- vs. cross-modal testing & clause position & intonation contours & lexical material, word recognition latencies, male undergraduates, 1679

latency data, implications for threshold & nonthreshold models of signal detection, 173

latency of verbal response, group discussion participation, male high school students, 816

monaural acoustic clicks judged for loudness magnitude of sensation levels, average electroencephalic responses, normalhearing young adults, 10567

nonmetric multidimensional scaling techniques, visual pattern discrimination latencies, 5 & 6 yr. olds, 10317

pattern meaningfulness & organizational unity, discrimination

precise time duration of allowable responses, response latencies in go & no-go discrimination performance, monkeys, 8749

reaction time, EEG spectra, normal & acute psychotics & psychiatric patients, 9472

reinforcement of key releases whose latencies from light fell within payoff band, temporal contingency effects on key release RTs, monkeys, 544

self-paced vs. shaping training procedure, variability of response latency in paired-associate learning, 10445 short- vs. long-latency associative RT units & high vs. low

meaningfulness & single vs. multiple associations vs. silent vs. aloud rehearsal, free recall, college students, 8423

stimulus & response patterns, reaction latency to identify outcome of stimulus prediction, college students, 8347

stimulus class & serial position & single- vs. multiple-match procedure, correct response & response latency in short-term memory, white middle class vs. black disadvantaged lower class 6 7 yr. olds, 8426

stimulus similarity, size difference judgment response amplitude & latency, 7th graders, 10299

Response Parameters (See also Interresponse Time, Reaction Time, Response Amplitude, Response Duration, Response Frequency, Response Generalization, Response Latency, Response Probability, Response Set, Response Variability)

awareness of response alternatives, cloze task performance, college students, implications for search & retrieval paradigm, 10514

category range, magnitude estimates of electrotactile stimuli, undergraduates, 1591

chosen vs. assigned number of categories, categorization & recall ability, undergraduates, 1762

environmental stimulus- & response-outcome contingency expectancies vs. contingent reinforcement, operant learning, 1674

exposure vs. familiarity, stimulus preference, college students, 10415 process of responding to personality items, issues & threshold measurement model & research, 2501

response criterion in auditory signal detection, average evoked potential, 1818

stimulus & response variants, interference test, 5951
Response Probability

auditory stimulation using tone pairs differing in acoustic energy, loudness discrimination & decision function model, male Ss, 148 chance, role in imitation-comprehension-production test results,

decision times & consistency measures, psychological distance & single stimulus & paired comparison judgments & task preference

& judged complexity, 6063 formula for possible outcomes exact probabilities of preferentially matched free-response material, 1534

free operant vs. discrete-trial fixed interval reinforcement, response probabilities, pigeons, 4059

increase over time in stimulus generalization to apparatus, frequency & probability & amplitude of avoidance CRs, rabbits,

internal state models, prediction of response distribution to individual stimuli in magnitude estimation, 134

logistic fractional-factorial representation, probability estimation of dichotomous response patterns, 5782

minimal preferences on lotteries, criticism of J. von Neumann & O. Morgenstern's preference axioms using convex linear combinations of probability distributions, 202

negative practice treatment & induced behavioral emission, high frequency behavior, rats, applications to clinical treatment, 7693 response alternation & availability, selective learning on 2- & 4-

choice tasks, college students, 8316 stress & food deprivation & intermittent food schedule & electric shock, highest probable response energization, rats, 6392

Response Set academic achievement motivation & response set scores on Gumpgookies, Mormon vs. Catholic vs. Jewish vs. Puerto-Rican vs. urban Negro vs. rural Caucasian vs. Hawaiian vs. West Coast Oriental vs. Mexican-American vs. American Indian preschool children, 8777

anxious vs. playful tension sets, projective set development, high school students, 11236

behavioral & transient contrast, maintained generalization gradient, pigeons, 10757

cognitive processes, building & maintaining set to identify relevant stimuli in perceptual field, 1719

concurrent fixed interval schedules, matching performance between response or time ratios & ratios of reinforcement, pigeons, 10789

integrative complexity & nonspecific set, letter-isolation problem solving, female undergraduates, 3734

manic excitation & depression & schizophrenia & epilepsy & psychosis, fixed sets, method of D. Uznadze, 934

noise & response complexity, visual vigilance performance, college students, 10300

partialing out of response set scores, achievement motivation test factors, 4 yr. olds & 1st & 2nd graders, 7705

partialing out of response set scores, factor score independence of item traits, 5762

positive set size & set for speed vs. accuracy & backward mask presence vs. absence, choice RT to visually presented digits in information-reduction task, 84

preparatory set measured by visual perceptual tests & manifest anxiety, high school students, 10345

prolonged practice, set size effect in item recognition with complete response consistency & nested positive sets, college students, 6005 response set forms, decision making behavior, high & low dogmatic teachers, 11862

response set variability, judgments in self-descriptive statements, 13 16 yr. olds, reference to S. Messick & T. Herrman's ideas, 11233

response-term predictability & stimulus-response conceptual similarity, paired-associate learning, college students, 10492

selective attention & set & interference, schizophrenic graphic representations, nonparanoid schizophrenics vs. paranoid schizophrenics & sleep-deprived college students, 11456 set, anagram solution time, undergraduates, 247

set, speech perception, 10333

study method for structure of fixed set, application to size judgments, 3585

taped implosive therapy with no vs. 3 alternative instructional sets, extinction of learned fear of snakes, college students, 2837

target set size & familiarity, reaction time, implications for models of human information processing, 8377

test demands & ethnic differences, response style in cognitive tasks, preschool age children, 10421

true responding & item endorsement, acquiescence response style, college students, 8434

Response Speed (See Reaction Time)
Response Time (See Reaction Time)

Response Variability

continuous stimulus dimension, continuous response dimension control, pigeons, 10791

decision times & consistency measures, psychological distance & single stimulus & paired comparison judgments & task preference & judged complexity, 6063

differential vs. nondifferential reinforcement, response control by auditory stimuli location, squirrel monkeys, 10727

increase in range of context stimuli, reduction variability of stimulus judgments, implications for convergence of social judgments, 6805

intellectual & emotional & motivational evaluation of questions, answer variability prediction, 3725

reinforcement of spaced responding in simultaneous discrimination, pigeons, 10796 response contingent punishment, response hierarchy reorganization,

gerbils, 8724 self-paced vs. shaping training procedure, variability of response

latency in paired-associate learning, 10445 stimulus & response patterns, reaction latency to identify outcome of stimulus prediction, college students, 8347

stylistic consistency vs. situational specificity, size of Santa Claus drawings before & after Christmas, kindergartners, 6630

successful vs. equal valued vs. fixed-ratio vs. variable-ratio reinforcement schedules, response variability, pigeons, 10711 time-correlated stimuli, response patterning on avoidance schedule,

rhesus monkeys, 10741

variable stimulus-response mapping & stimulus meaningfulness, single letter cue selection, 8359 verbal reinforcement combinations & feedback, responses to blank

trials in 2-choice verbal discrimination & choice-repetition, children, 2207

Responses (See also Conditioned Emotional Responses, Conditioned Responses, Conditioned Suppression, Emotional Responses, Mediated Responses, Orienting Responses, Unconditioned Responses)

change in personal preference vs. response shift, extremization of judgments under stress, 9088

Responsibility

assumption of responsibility as teacher-aide in work program, selfperception changes, high school students, 11874

carbamazepine, dysphoric symptoms, chronic alcoholics, 11564 rest periods during testing, test scores, physically handicapped vs. nonhandicapped 7th 9th graders, 11893

Retail Stores (See Shopping Centers)
Retardation (Mental) (See Mental Retardation) Retarded (Mentally) (See Mentally Retarded)

**Retarded Speech Development** 

parental conversation level & imitative prompts manipulation, speech development, 40 mo. old boy with severely retarded speech development, 1253

Retention (See also Recall (Learning), Recognition (Learning), Reconstruction (Learning))

age & prior training, 24 hr. retention of escape learning, neonatal mice, 2021

age differences, avoidance conditioning & retention, rats, 530 age, acquisition & retention of active & passive avoidance learning,

rats. 8722 aggression anxiety, retention & learning ability, college males, 5392

all-or-none vs. decremental learning theory, retention of learned paired-associates, college students, 6054

auditory vs. visual vs. tactile vs. auditory-visual-tactile stimulation with training materials, learning & retention, college students,

bilateral frontal pole vs. anterior-medial vs. posterior medial vs. occipital cortical brain lesions, retention of passive avoidance learning, mice, 1874

bilateral resection of dorsolateral or orbitofrontal cortex, spatial alternation retention, monkeys, 8652

biofeedback, acquisition & retention of differentiated EMG response, 3773

brief sample durations, delayed matching-to-sample task, capuchin monkeys, 4000

Brown-Peterson short-term retention paradigm & free recall, modality encoding in memory, 3738

chronic vs. acute ip marihuana extract injections, acquisition & retention of conditioned fear, rats, 392

culturally enriched vs. culturally deprived environment, pairedassociate learning & retention, 4th graders, 6474

distributed vs. massed exposure to conditioned cues & exposure to distinctive apparatus stimuli previously paired with vs. never associated with shock, retention, immature rats, 4022

dorsolateral frontal & inferotemporal lesions, learning set acquisition & retention, monkeys, 8651

electrolytic lesions of centrum-medianum & parafascicularis complex of thalamus, acquisition & retention of active-avoidance responses, rats & cats & monkeys, 375

format modification in confirmation procedures, program learning & retention of programmed materials, undergraduates, 3215

habituation & retention of habituation, leeches, 4054

high initial learning performance, probability & statistics concepts retention, 6th graders, 12062

high physiological arousal during learning, short-term vs. long-term retention, 10455 immediate & delayed feedback, delay-retention effect with multiple-

choice tests, high school students, 3232

immediate vs. delayed feedback & testing, retention of reading

material, 6th graders, 10050 increased RNA level through ingestion of salt of s-RNA & diethylaminoethanol, learning & retention, hospitalized patients with organic memory deficits, 9299

inserted learning of meaningful list, paired associate learning & subsequent facilitation of retention, college students, 214

instructions to reproduce earlier associates vs. instructions to give 1st occurring associates, probability of repeating associates, college students, 10443

interference, short-term retention of discrete lever movements, 8381 intrapair similarity & incorrect alternatives number & feedback, single & double functioning verbal discrimination acquisition & retention, 5925

learning by problem solving vs. insight vs. memorization, learning time & retention & transfer, 6025

letters vs. difficult vs. easy random dot patterns, coding & short-term retention of visual information, high school students, 8442

light produced interference, delayed matching-to-sample task, capuchin monkeys, 4006

meaningful & pronounceable & random chunking units, acquisition & retention, college students, 8429

mental & for physical practice, learning & retention & bilateral transfer of motor skill, female college students, 5837

midline section of interhemispheric commissure, left- vs. right-hand performance in delayed tactile pattern matching, 17 46 yr. old patients, 1024

midprincipalis lesions, delayed response performance, monkeys, 3977

model observation & rule provision & stimulus sequence, learning & transfer & retention of dial reading numerical concept, 3rd grade students, 2210

multiple-choice measurement method, retroactive inhibition in A-B,A-D paradigm, reply to C. T. Merryman, 1751

N-N-dimethyltryptamine, retention of startle response habituation, rats, 8606

new vs. old-identical vs. old-similar picture stimuli, recognition memory with long vs. short retention intervals, preschoolers, 3653 optimum recall period, reporting persons injured in motor vehicle accidents, 1399

orbital & lateral frontal vs. inferotemporal ablations, visual

discrimination learning & retention, monkeys, 437 perceptual speed & billboard layout, advertisement recognition & recall, college students, 10142

positive vs. negative vs. neutral emotional content mnemonic aids, paired-associate learning retention, college students, 8455

praise vs. silence vs. criticism following correct response, discrimination learning & retention, 1st vs. 2nd vs. 5th vs. 6th graders, 2188

presentation mode & ordering of organized hierarchical information, acquisition & retention of hierarchy of connections between letters, college students, 8440

proactive interference from trigrams presented visually or auditorily & retention interval with shadowing numbers or letters, shortterm memory, college students, 10450

programed textbooks vs. videotape instruction, learning & information retention, adults, 12047

prose vs. oral connected discourse, retention, literature review, 8369 recitation & facilitation vs. debilitation personality types, retention,

reinforcement & retention interval, short-term motor memory recognition & recall, male undergraduates, 3715

retention interval & word association long-term retention of conditioned attitudes, 10470

rotary pursuit acquisition & retention & Bender-Gestalt perform-

ance, normal vs. educable mentally retarded students, 7976 schooling amount, paired-associate & verbal-discrimination learning & retention & associative & acoustic memory encoding & word associations, average 10.4 yr. old Colombian children, 2120

scopolamine, u-shaped retention curve of partially learned shuttle avoidance response, rats, 3969

separate sentences vs. paragraph presentation, grammatical & lexical retention in incidental learning, 5977

simultaneous posterior neodecortication vs. successive damage with 1 wk. interoperative interval vs. successive damage with training during interoperative period, retention of discrimination learning, rats, 10687

spontaneous vs. externally-cued learning, permanent storage of schema, mentally retarded adolescents, 7990

spreading cortical depression, learning & retention, frogs, 1888 stimulus meaningfulness & retention interval & ordinal position & practice, absolute judgment vs. paired-associate learning paradigms, 159

stimulus novelty & systematicity in stimulus-response materials, paired associate acquisition & retention, evidence for specific &

generative memory components, 5994 subsidiary arithmetic task vs. rest during varying delay periods, short-term retention of tactile stimulation, right-handed female college students, 1771

task instructions, task performance & comprehension & retention of mathematics-related tasks, 6th 7th graders, 7992

training between 2 successive unilateral posterior neocortical ablations, retention of black-white discrimination habits, rats, 1873

varying sentence order, search for concept information & retention, 1693

verbal vs. nonverbal processing, visual stimuli, 10356

verbal vs. visual labelling & encoding, retention of picture vs. name stimuli, implications for educational practice, 3664

verbalization of model's behavior, vicarious learning of abstract vs. conceptual rule & generalization & retention, 5th graders, 4262 visual vs. auditory presentation & retention interval, trigram

retention, college students, 8460

vocalization activity, acoustic similarity & semantic effects at short

& long retention interval, 1773

6-hydroxydopamine-induced neonatal sympathectomy, open field activity & avoidance learning & retention & sexual behavior & endogenous norepinephrine in lower brainstem & cerebral cortex & hypothalamus, rats, 6299

Retention Measures (See also Free Recall, Recall (Learning), Recognition (Learning), Reconstruction (Learning)) adjustment method for retention scores, monkeys, reply to B.

Balogh & R. Zimmerman, 6408

immediate vs. delayed feedback & testing, retention of reading material, 6th graders, 10050

instructions & test anxiety, digit symbol performance, college

students, 12010 instructions & test anxiety, digit symbol performance, college students, 12165

retention score adjustment, monkeys, reply to D. Medin's criticism,

6454 stimulus-object realism & recall vs. recognition testing methods, object-word paired-associate learning, 1st grade beginning readers, 10074

Reticular Formation

ascending & descending excitatory influences, brain stem reticulum, rats, 306

conditioned responses in reticular formation, rats, 8737

ECS & low-intensity electrical brain stimulation of reticular formation, electrocorticographic patterns, rats, 1898 ethyl alcohol ip injections, visual evoked potentials from visual cortex & reticular formation, male rats, 353

exogenous & endogenous serotonin, mesencephalic reticular formation vs. hippocampus, rabbits, 3923

hippocampal stimulation, postsynaptic responses of brain stem reticular neurons, cerebellectomized & curarized & artificially ventilated cats, 394

midbrain electrical stimulation, reticular formation activation & visual discrimination, monkeys, 10618

reticular formation, selection mechanisms & attention, review of D. Broadbent's theory, 8365

Retina (See also Cones (Eye), Rods (Eye))

achromatic zone for red light in fovea & green light in periphery, threshold mechanisms for scotopic & photopic retinal system, 3546

age & pulmonary function & biochemistry variables, retinal field shrinkage, Normative Aging Study veterans, 4087

attention & peripheral retina movements, reading process, 5893 correction vs. no correction for peripheral refractive error, fovea & peripheral retina motion thresholds, graduate students, 5865 extraretinal signals, visual perception of direction, 160

light unilateral visual deprivation due to lid-suturing, retina, rats,

1867

macular & retinal pigmentation & stimulus color, Muller-Lyer illusion susceptibility & space perception, Scottish vs. African Malawi university geography students, 119 progressive retinal destruction, illumination level & age difference effects on open-field activity & brightness discrimination ability,

young mice, 1916 retinal area specificity, contour-contingent McCullough color aftereffects, untrained undergraduates & experienced Ss, 1770 spatial-contrast-transfer function, light-adapted retina, 1643

**Retinal Detachment** 

accommodation vs. visual image size correction, size constancy,

constant stimulus & changing phenomenon, shape perception, 8341 experimental systems analysis, adaptation to reversal of retinal feedback of eye movements, 10303

extraretinal feedback effects & testing before & during & after saccades, visual localization, college & graduate students, 5875 perceptual constancy vs. perceptual compromise, visual perception, 5906

retinal location & delay before scanning, recognition of tachistoscopically presented alphabetical arrays in right & left visual field, 10315

size & retinal locus & orientation, unitary & fragmentary visibility of single afterimage, 17 30 yr. olds, 1553

Retinal Vessels (See Arteries (Anatomy))

age & education & occupational & financial & marital status & individual health perception & self-care & household task performance & social activity, morale, retired men 65 yr. old & older, 2193

age & sex roles & job satisfaction & job analysis, employment & unemployment & retirement, 12184

age integrated vs. segregated living arrangements & activity level, successful aging & morale, retirement community residents, 2170 age, preference for later retirement, older workers, 4204

heavy vs. light job strain & perception of age, willingness to retire, 55 64 yr. old British male factory operatives, 1430

retirement income, aged, 10816

SVIB, prediction of retention in National Oceanic & Atmospheric Administration, retired vs. resigned vs. active duty Navy officers,

Retroactive Inhibition

cognitive similarity, proactive & retroactive interference in shortterm memory, college students, 3655

EEG measures of typological nervous system properties, retro- & proactive interference in short-term memory, college students, 265 inserted learning of meaningful list, paired associate learning & subsequent facilitation of retention, college students, 214

interpolated learning & test & item type & S's verbal ability, retroactive inhibition of textbook-style prose, high school students, 7908

multiple-choice measurement method, retroactive inhibition in A-B,A-D paradigm, reply to C. T. Merryman, 1751 pair-specific effects, retroactive inhibition, college students, 5958

recall of transfer paradigm in verbal discrimination, retroactive inhibition, college students, 8483

retroactive & proactive multiple list interference, list relearning, preschool children in Head Start program, 1381

retroactive inhibition, forgetting of meaningfully-learned sentences,

same word & color vs. word named different color vs. neutral word vs. nonword, response competition vs. encoding interference in

color-naming, 8402 unlearning vs. loss of means of retrieval of list items & recognition,

retroactive inhibition in free recall learning, 243

Reversal Shift Learning

acculturation & task complexity & mental age, reversal learning, lower & middle class 6 11 yr. olds, 8790

age & stimulus compound, optional reversal shifts, 3 18 yr. olds, replication & extension of T. Kendler & H. Kendler's experiment,

developmental level & intelligence, optional intra- & extradimensional discrimination shifts, preschoolers kindergartners & 2nd & 6th graders & college students, 4154

dimensional preference & relative cue similarity, optional shift behavior, 1st & 3rd graders, 4232

dorsolateral frontal lesions, conditioned discrimination & responsiveness to novel cues & reversal vs. nonreversal shift learning, monkeys, 6266 entorhinal area ablations & fornix section, spatial & object reversal,

monkeys, 417

intelligence differences, reversal vs. nonreversal vs. nonselective shift stability, kindergartners & 2nd graders, 10398

measurement using successive reversal learning set, short-term memory, mice, 6340

mediational models, reversal & nonreversal shift learning, 8409

perceptual pretraining, dimensional prepotency in brightness & form simultaneous discrimination, kindergartners & 1st graders,

Piagetian development stages, reversal vs. extra-dimensional vs. nondimensional shift learning, 2nd & 3rd graders, 6608

pretraining & task instructions, reversal vs. nonreversal shifts performance, college students, 10476

proactive inhibition, postdiscrimination generalization gradient, pigeons, 8712

reinforcement schedule & days of training & beginning vs. midsession & 1 vs. 2 stimuli per session, asymptotic free-operant red-green discrimination reversal, goldfish, 10786

relevant & stimulus dimensional responses & nondimensional & conceptual discrimination, consecutive intradimensional & extradimensional & control shifts, 50 61 mo. olds, 6614 reversals of cue reward assignments on alternate errors, concept identification, kindergartners & 1st & 5th graders, application of G. Bower & T. Trabasso's test for noncontinuity processes, 2195

same vs. reversal conditions, discrimination acquisition & extinction rates, kindergartners & 2nd graders, 4108

singly presented stimuli, discrete-trial red-green discrimination reversals, pigeons & goldfish, 4080

stimulus similarity & response criterion, successive discrimination reversal learning, pigeons, 8748

striate cortex & temporal cortex lesions, discrimination learning on basis of orientation of stripes with random hue differences shift to task with hue as relevant dimension, tree shrews, 3917

subproblem analysis, discrimination shift learning, pigeons, 8765 subproblem analysis, discrimination shift learning, rats, 4072

verbal-labeling vs. perceptual-cue vs. control pretraining, reversal learning, 4 yr. old preschoolers, 3703

visual vs. tactual input & age, reversal vs. nonreversal learning, 47 yr. olds, 638 within-day serial reversal & role of inhibitory processes, position

discrimination, pigeons, 522

Review (Of Literature) (See Literature Review)

Revolutions (Political) (See Political Revolution) Rewards (See also External Rewards, Internal Rewards, Monetary

Rewards, Preferred Rewards)

ability & perceived effort-performance & performance-reward contingencies, performance on arithmetic task, college students, 10385

age differences, reward allocation behavior, 5 7 vs. 9 11 yr. olds, 6561

balance theory of distributive justice, allocation of outcomes in under-reward & fair reward & over-reward states, 4383 candy reward, imitation & modeling, 1st & 2nd graders, 3673

candy vs. token reinforcers & reinforcement schedule & sex & overvs. underconformity, response rate, 11 16 yr. old retardates, 2743

causal agent & agent's motivation & S's outcomes, equity-reciprocity, 6795 contingency of consequences & shock vs. reward, incoordination in

interdependent escape, college student groups, 764 continuous vs. partial reward delay, motivational effects of

nonreward in double alleyway, rats, 8762 electrical brain stimulation, rewarding & drive-inducing function,

equity norms, reward-allocation, nursery school children, 11089

frustrative nonreward & task complexity, performance errors & learning, college students, 6013

full vs. partial reward information, memory probes during 2-choice problems, 3637

group vs. individual reward, cooperative vs. competitive behavior, Blackfoot Indian vs. urban Canadian 7-11 yr. olds, 4183

heightened incentives, game playing behavior, 804 heightened reinforcement density vs. discriminative stimulus control vs. extended training vs. punishment, generalized imitation, 4 & 5

yr. old males, 799 importance & application methods & matching to needs & matching rewards with performances, incentive, organization employees, 3377

individual vs. peer group rewards, spelling performances, 3rd 4th grade underachievers, 11860

intertrial interval variations & transfer vs. nontransfer reward shift & 4 sources of generalization decrement, successive negative contrast effect, rats, 8714

introspective observations over time, self reward decision making, graduate students, 5920

logarithmic vs. quadratic vs. spherical payoff function, admissable probability measurement & confidence responses, military Ss, 8459

material rewards, increases in test scores on Nelson Reading Test,

material vs. verbal rewards, aptitude test scores, white vs. black prison inmates, 11510

model competence & stringency of modeled self-standards, willingness to adopt high achievement standards for self-reward when model-imposed, children, 2364

nonrewarded vs. rewarded pretraining & positive vs. negative cues color-form discrimination learning, retarded & nonretarded children with MA of 2-4.5 yr., 1013

perceived effort-performance & performance-reward contingencies, task performance, college students, 3640

preference for signaled vs. unsignaled unmodifiable rewarding outcomes, college students, 8388

prize vs. no prize condition, retrospective misattribution & team

competition enjoyment, 5th graders, 11085 promise of reward & threat of punishment, leadership selection & group performance, 756

punishment by withdrawal of love & varied warmth vs. withdrawal of material reward & varied values, self-criticism, kindergartners & 1st graders, 10846

ratio of individual performances, reward allocation, dyads, 6840 response depression & facilitation components, frustration effect in instrumental performance, 6 yr. olds, 2161

response timing & reward source & behavioral processes, choices in Prisoner's Dilemma Game, college students, 9111

response-independent rewards during ON & ON duration & reward patterns during ON & presence vs. absence of exteroceptive cues during ON & OFF, key pecking response rate, pigeons, 10762

reward frequency & magnitude & accumulation, compliance in dyadic power relations, male junior college students, 751

reward magnitude & sequence of magnitudes, resistance to extinction, college students, 8415 reward vs. punishment & race of model & race of E, imitation of

commodity preferences, young black children, 6602 rewards & costs equity & interchange, social interaction & power

imbalance & justice, dyads, 4404 self & experimenter regulation & reward & punishment & internal & external locus of control, performance, male juvenile delinquents,

social contact with familiar & unfamiliar Es dispensing material reward, reading task performance, 2nd grade males, 8859 social vs. edible vs. no reward, task performance, average vs. mildly

vs. severely retarded middle- vs. lower-class 4 10 yr. olds, 1069 tangible vs. intangible vs. no rewards & time of reward presentation,

concept-switching performance, middle- vs. lower-class Israeli 5 yr. olds, 2119 token reward vs. response contingent reinforcement & reward consumability, size discrimination, 3rd graders, 5934

valueless vs. money rewards & risk taking, group cooperation on indvidual tasks, 9087

verbal & material reward & punishment, verbal conditioning,

primary & secondary psychopaths, 11418
white vs. black model depicting liberal vs. stringent self-reward
behavior standards following reported task performance scores,
task performance & self-reward behavior, black vs. white 15 17 yr. old institutionalized delinquent males, 1003

Rh Incompatibility psychological & intellectual development & school achievement, 6 8 yr. old Rh-immunized children with severe vs. mild hemolytic disease at birth vs. healthy Ss, 2662

Rhoceacephalography tetrapolar technique, DC shifts in rheoencephalograms, chronicallyimplanted & acutely-prepared cats, 10649

Rheumatic Fever

Rheumatism (See Arthritis)

Rheumatold Arthritis

arthritis, personality organization & psychosomatic character of disease, rheumatoid arthritics, 1006

systemic lupus erythematosus vs. rheumatoid arthritis, psychiatric syndromes & organic symptoms, clinic patients, 4690

Rhythm Method

Ribonuclease

Ribonucieic Acid

afferent stimulation of hippocampus, hippocampal facilitation & RNA buildup, rats with low inborn learning ability, 6278

conditioned avoidance training, polyribosomes of brain, mice, 1830 escape training in electrified t-maze, uridine incorporation into polyribosomes, mice, 1831

flashing vs. constant light vs. dark imprinting procedures, regional incorporation of radioactive lysine & uracil into acid-insoluble brain substances, I day old chicks, 3767

increased RNA level through ingestion of salt of s-RNA & diethylaminoethanol, learning & retention, hospitalized patients with organic memory deficits, 9299

reversal learning, incorporation of radioactive uridine into brain areas, neurological mutant mice & normal littermates, 6126

RNA & protein & both brain extracts injections from trained donors, active-passive dark avoidance, rats, 3979

RNA-fraction extract from trained Ss intracranial injections & extract concentration, avoidance learning, goldfish, 6225

RNA-protein brain extracts from trained vs. control Ss injected intracranially & injection-testing interval, avoidance behavior, goldfish, 6231

RNA-protein brain extracts intracranially injected & donor performance level, nonreinforced avoidance behavior, goldfish, 6230

successive competition DNA-RNA hybridization, detecting presence or absence of qualitative changes in RNA species during shock avoidance conditioning, 10541

whole brain homogenates from trained Ss injected intraperitoneally, light-dark discrimination, rat, 6325

yeast ribonucleic acid, fixed-ratio performance, pigeons, 10740 Ribs

## Rigidity (Personality)

age & flexibility-rigidity, job performance adaptability, 1402

analytic vs. client-centered orientation, importance of adaptability vs. personal conformity & rigidity, psychotherapists, 901

avoidance of teacher rigidity, design of teacher education programs,

college environment & rigidity vs. flexibility, changes in Omnibus Personality Inventory scores, male vs. female college freshman, 3341

extraversion & neuroticism & rigidity & dogmatism & intolerance of ambiguity, abnormality differentiation, brain-damaged & acute schizophrenic & normal males, 11382

factorial analysis, field independence & fixity-mobility, 10 83 yr. old males, 6488

openness to experience, interpersonal attraction, 6796

ordinal birth position & psychological need structure & self-evaluation, nonverbal rigidity, 2508

personality rigidity, incidental learning, college students, 8353 Piagetian tasks & egocentrism index & Stanford-Binet Vocabulary

subtest & Raven Progressive Matrices & Test of Behavioral Rigidity, performance levels & interrelationships among tasks, 55 79 yr. olds, 6613

rigidity & regression & psychosocial disengagement, egocentrism & social interaction across life span, 621

rigidity measurement, normal & feebleminded Ss, 11426

rigidity, dream recall, male vs. female college students, 2443

rigidity, retarded, reexamination of K. Lewin & J. Kounin's hypothesis, 11517

validity of The Greening of America Consciousness typology & change acceptance & human nature philosophies, 4268

verbalization vs. nonverbalization in 2-sided self argumentation, opinion change, college students rated for rigidity & extroversion & neurotic tendencies, 215

Riley Day Syndrome (See Dysautonomia)

# Riots

multidimensional scaling analysis of printed media's explanation of race riots, structure of laymen's perception of social causality, college students, 4339

riots, mathematical simulation, 10964

Risk Taking (See also Gambling)

achievement motivation & probability information & task importance, risk taking, archers & technical college students, 235 additive transformations of payoff matrix & experimental setting, information purchase strategies, college students & gamblers, 6061

age & education & socioeconomic status & caste & family size, achievement motivation risk-taking & fear of failure, rural Ss in

highly developed vs. underdeveloped villages in India, 4279 cautious & risky problems in choice-dilemma paradigm & predictions of others' choices, undergraduates vs. addict prisoners, 9081

challenge to demonstrate competence at personal physical risk, nondelinquent & delinquent adolescent boys, 4795

choice of metric, conclusions in risky shift & other experiments, 779 class standing & academic major & family income & rural home environment, risk taking attitudes, undergraduates, 6662

conformity & information & confidence, willingness to take risk following group discussion, college students, 11119 Czechoslovak version of Kogan-Wallach Choice-Dilemma Ques-

tionnaire, validity, college students & adults, 5747

decision theory approach to values & risky decision making on lifesituation problems, 9063

egocentricity & gratification delay inability & risk taking, primary vs. neurotic sociopaths, 9350

expressive self-testing attitudes & degree of risk in chosen occupational field, naval pilots from high vs. low risk aviation specialties, 12178

extreme group members, risky shift in choice dilemma problems, college students, 6844

Gestalt vs. Transactional Analysis treatment, anxiety & self esteem & personal adjustment & risk taking & creativity & authoritarianism, 2870

group discussion & beer, modification of risk preferences in decision making, 24 40 & 58 68 yr. old men, 3860

group influences, risk taking, conceptual analysis & experimental manipulation, 11045

group vs. individual work preference & isolated vs. coacting individual situation vs. dictator vs. unanimous vs. free responding

groups, risk taking, undergraduates, 773 high vs. low risk taking scores & locus of control, risky choice shift, undergraduates from India, 9209

importance of individual decision, risky shift after group discussion, 744

individual risk-taking behavior & group size & confederate position, group decision making, undergraduates, 6838 individual vs. group decisions for self vs. others, level of risk, female

university students, 820

interpersonal risk, disrupting ongoing cooperation, cross-cultural & procedural generalization, replication of G. Marwell & D. Schmitt & R. Shotola's study, 11099

locus of control & extreme behavior, risk taking & persistence & shifts in aspiration level & success estimation, high school students, 4484

logarithmic vs. quadratic vs. spherical payoff function, admissable probability measurement & confidence responses, military Ss, 8459

military decision making, group risk taking, undergraduates, 4414 observation by high vs. low status partners in negotiation & prior issue commitment, negotiation constraints in risk taking, 777

open space vs. traditional school environments & sex & grade

differences, risk taking, 6th 8th graders, 7708
perceived importance & control of situation, risk preference in decision tasks, 211

perception of power situation, risk taking, validity of game board to measure risk-taking behavior, college students, 6841 presence of co-reared rats & running together vs. alone, risk taking

in choice behavior, rats, 6434

probability preferences, 22 40 yr. old gamblers vs. nongamblers, 8446

proneness to behavioral stereotypy, problem-solving & decision-making behavior, college students, 8394

questionnaires depicting life & death situations vs. time-moneyeffort situations, risk-taking responses, college students, 5971

real vs. synthetic family discussion, risky-shift in decision making, Rehabilitation Counselor Judgement Scale, risk-taking in rehabilita-

tion counselor decision-making, Ss in general area of counseling,

religious denomination & child-care articles & maternal control, risk-taking behavior, adolescents, 6634

risk-as-value, risky shift, interpretations of R. Brown's hypothesis, 748

risk-taking & anxiety, convergent & divergent thinking, 6th graders, 11231

risky & cautious values, narcotic addicts, 4791

S race & sex & E race, classroom-related risk-taking behavior, white & black college students, 4386

safety & availability, frequency & pattern of drug use, college students, 4344

semantic divergent thinking & need for achievement & sex & IQ, risk taking behavior, 5th graders, 7954 sex-role preference & sex-role adoption, risk-taking model imitation,

1st vs. 5th graders, 8432

single vs. multistage decision making, individual decision behavior, 1965 1970, 233

stage of commitment & participation in decision-making groups, satisfaction & perceived influence & decision-riskiness, 439 statistical decision theory, consistency in risk taking, drivers, 12151

stimulus availability & test pictures & risk of self-disclosure in analysis-by-synthesis model, cognitive behavior in projective testing, college students, 5763

uncertainty conditions, coalition formation, undergraduates, comparison of T. Caplow's minimum resource theory & coalition expected utility model, 4452

valueless vs. money rewards & risk taking, group cooperation on indvidual tasks, 9087

visual perceptual handicaps, need achievement motivation & risk taking, kindergartners & lst & 2nd graders, 5368

Ritalin (See Methylphenidate)

Rites (Nonreligious)
Rites (Religion) (See Religious Practices)
Rites Of Passage (See also Birth Rites, Death Rites, Initiation Rites, Marriage Rites)

rites of passage, college fraternity initiation, book, 10988 Rituals (Nonreligious) (See Rites (Nonreligious))

Rituals (Religion) (See Religious Practices)

Rivalry

absolute vs. relative outcome choice, rivalry, 5-6 vs. 8-10 yr. old Anglo-American vs. Mexican children, 4150

domain rivalry & resolution through training program, nurses & child care workers in children's psychiatric hospital, 5045

motivation through censure vs. ego involvement vs. rivalry, letter cancellation task performance, English-speaking Chinese vs. North American male undergraduates, 3611

rivalry & coaction & audience components as overall motivational effects of competition, RT movement-time task & arousal & alertness, 7th & 8th graders, 5911
RNA (Ribonucleic Acid) (See Ribonucleic Acid)

Robbery (See Theft)

Robins

Rocking (Body) (See Body Rocking)

Rod And Frame Test

intermovement interval & exposure time, Witkin Rod & Frame Test, female graduate & undergraduate students, 3579
Rod & Frame Test & Slanting Disc Effect, development of group

testing procedures, 3516

Rodents (See also Beavers, Chinchillas, Gerbils, Guinea Pigs, Hamsters, Mice, Minks, Norway Rats, Rats, Squirrels)

captivity, courtship & copulatory behavior, green acouchi, 516 captivity, physiology & behavior, hopping mouse, 556

habituation vs. fatigue & constant vs. intermittent brain stimulation, gnawing, chronically implanted prairie dogs, 8599 olfactory control, choice behavior, rodents, 10779

olfactory experience, aggression, Mus musculus & Peromyscus maniculatus, 557

social rank & sex & hormonal conditions, use of exercise wheel, voles & lemmings, 1985

ultrasonic distress calls, maternal behavior, rodents, 8752

Rods (Eye)

rod-cone interaction, color perception, 8314

Roentgenography (See also Angiography, Pneumoencephalography) massa intermediata presence vs. absence X-ray area, Wechsler-Bellevue Intelligence Scale scores, 31 40 yr. old neurological patients, 4761

**Rokeach Dogmatism Scale** 

California F Scale vs. Rokeach Dogmatism Scale, authoritarianism measurement, college students, 2511

left vs. right vs. neutral political vs. political but not clearly left or right classification of Rokeach Dogmatism Scale items, political bias, college students, 2280

MMPI & California F Scale & Parental Attitude Research Instrument & Rokeach Dogmatism Scale scores, parents of child psychiatric patients & psychotherapists & child care workers, 4655

Role (Counselor) (See Counselor Role)

Role Conflicts

competition vs. cooperation condition with men, role conflict & success motivation, women, 9114

cooperative vs. exploitative perception of opponent & constituent trust vs. distrust & contingent vs. noncontingent fee, bargaining behavior, negotiators, 758

group leader's technical competence, managerial role adoption & group productivity, engineers vs. managers, 3450

high vs. low dependency & congruency vs. discrepancy with role expectations & consistency vs. inconsistency of job applicant, attributions of candor & appropriateness for job, 8131 maternal role incompatibility, maternal employment & fertility,

urban Latin America, 8929

Meher Baba cult, mysticism & drug rehabilitation & postadolescent role conflict, 2288

person-role fit & actual & perceived interpersonal fit, voluntary with Irawal from adult socializing organization, Coast Guard Academy students, 3298

professional affiliation role consistency vs. inconsistency, awareness of interaction processes, college students, 4416

respondents' special qualities, intrusion upon researcher's role, stripteasers, 10228

role conflict & ambiguity & overload & public vs. private bureaucracy, complex organizational stress, 8141

role conflict & ambiguity as behavioral predictors, organizational behavior model, vice-presidents & supervisors & staff personnel of manufacturing firm, 1426

role conflict coping behavior model, resolution & satisfaction, college educated women, 10967

self-defined ideal role vs. actual role perception conflict, teacherlearner process, 5325

stress in form of role strain & inequity, social exchange, 2333

task vs. social roles, role differentiation, 4311

**Role Expectations** 

abstinence as therapist role requirement, psychoanalytically-oriented psychotherapy, 11702

age & physical maturity vs. learning factors & school environment & socioeconomic status & maternal role expectations, parent orientation, 10 14 yr. old girls, 6622

anticipated role performance & perceiver & perceived influences, overlap in interpersonal description, male undergraduates, 810

changing social trends in family functions, 11113

comparative vs. competitive vs. individualistic goal structures & egocentric behaviors, deindividuation in groups, college students, 6814

concern with psychological dysfunction vs. psychiatric illness, changing role, clinical psychologists in Britain's National Health Service, 11281

cultural conflicts & role expectations, Maori child rearing practices & general cultural system & New Zealand unicultural school system, implications for teachers & teacher training, 7991 dissent of confederates, dissent from role demands of psychological

S in experiment, college students, 4403

educational attitudes, subjective role expectations, teachers & teacher trainees, 9965

employee perception of ratio of inducement to contributions & accumulation of investments in employing system, commitment to employing organization, elementary & secondary school teachers & registered nurses, 12150

employee performance, evaluation of research on expectancy theory predictions, 1420

expectation of continued role playing, attitude change, female undergraduates, 734

expectations of corporate life, college students, implications for management recruiting, book, 10184

feminine sex-role stereotype, psychological impact on redefinition of self & dissatisfaction with traditional sex expectations, women, 2301

group leadership status & group expectations, negotiation behavior, elected vs. appointed group representatives, 6792

high vs. low dependency & congruency vs. discrepancy with role expectations & consistency vs. inconsistency of job applicant, attributions of candor & appropriateness for job, 8131 illness as justification of failure to fulfill socially prescribed role

obligations, welfare mothers & black working class women, 2223 industrial plant hierarchical level, evaluation scales based on conceptions of ideal supervisors, workers & middle management,

5602 intention & aversive consequences, arousal of cognitive dissonance,

own-behavior expectation prediction & behavioral conformity prediction to conflicting expectations concerning performance, expectational formation & behavior, 2385

patient-spouse role expectations during terminal illness, patient anxiety & alienation, male terminal cancer outpatients & spouses, 11491

perceived motivation & role variations & stimulus person's perceived trustworthiness, attribution of personal characteristics, college students, 6836

personality needs & role expectations & cultural values & school bureaucracy, juvenile delinquency, public school children in large

psychotherapy expectancy inventory, patient's role expectancies, college students & clinic patients, 11729

role conflict & ambiguity as behavioral predictors, organizational behavior model, vice-presidents & supervisors & staff personnel of manufacturing firm, 1426

self-defined ideal role vs. actual role perception conflict, teacherlearner process, 5325

sick role expectations & presurgery adjustment, post-cardiac surgery adjustment, 13-58 yr. old cardiac patients, 11660 student teacher's & supervising teacher's role expectations & personality factors, student teacher's performance evaluation, 11940

**Role Perception** 

A B type, person perception & role taking accuracy, male undergraduates, 2460

authoritarianism & closed-mindedness & lack of education innovation, older vs. younger school principals, 11863

child care residential institutions, therapist vs. child care worker roles, 9608

client-centered view of therapist role, group therapy processes, 7540 clinical specialist as role model, psychiatric training in epilepsy treatment, student nurses, 11284

congruence & disparity, preferences for instructional objectives & roles, teachers & students, 9837

education programs to foster sexual equality, pupil cooperation in classroom, 12121

employee performance, evaluation of research on expectancy theory predictions, 1420

force & role perception & ability, job performance, store managers, 1421

in-service interpersonal dynamics training program, role & attitude change, attendants in state hospital for criminally insane, 2553

intrinsic & extrinsic rewards & reward distribution, work-role attractiveness in kibbutz, managers & workers, 6782

job satisfaction & motivational complex & leadership views & organizational role perceptions, managerial success, exceptional vs. mediocre business & industrial managers, 1416

job satisfaction & performance evaluation & path-goal perceptions & turnover, role assimilation in complex organizations, new

nonacademic employees in large university, 3433 London Play Technique with dolls, role distribution, 4 6 yr. old Czechs, comparison with L. Ucko & T. Moore's results with English children, 4162

organizational hierarchical status, information giving & receiving, superordinate vs. subordinate managers, 8151

perceived status recognition within work status structure, social psychological withdrawal from work role, oil refinery & automobile manufacturer employees, 12183

perception of need & resources & one's role in helping interaction, helping behavior implementation, application to institutional referral process, 9007

perceptions of classroom role, observed behavior in creativity & interpersonal regard & group activity & individualization, male vs. female 6th vs. 11th graders of high vs. low socioeconomic status, 3250

perceptions of ideal & real managerial behavior, principals & teachers, 7826

person's position in nuclear family as source of power, role-taking

Personality Research Form & Strong Vocational Interest Blank & a semantic differential of role related attitudes & Situational Response Test & Empathy Scale & Marlowe-Crowne Social Desirability Scale scores, adult women child aides in preventive mental health program vs. matched controls, 2550

personality, conception of teacher's role, 3306 professional orientation & relationships, occupational vs. recreational therapists, 11300

psychological & sociological & educational factors, role identification & sex stereotype of occupational choice, college women, 5443 recognition of role model influence & relative influence of various role models, high quality-oriented secondary & elementary school

teachers, 10030 residential child care treatment, role of child care worker as agent of change, 9244

role conflict & ambiguity & overload & public vs. private bureaucracy, complex organizational stress, 8141

role expectation, self concept changes, student teachers, 3262 role identification & democracy simulation game structure, political

attitudes, 14 17 yr. olds, 1322 role perception, departmental chairmen characteristics, faculty members & administrators at land grant universities, 3317

safety- vs. esteem-oriented motivation, leader-follower role differentiation, college student triads, 4432

self-concept & feminine role concept, vocational maturity, female high school students, 2499

self-conceptions of ability in role & of instrumental value of role & of intrinsic value of role, educational attainment plans, elementary school students, 9152

self-defined ideal role vs. actual role perception conflict, teacherlearner process, 5325

self-descriptions of occupational roles, social work role appropriate for community mental health practice, social workers with vs. without master's degree, 2542 sensitivity training, perception of self as group member & group

role, 2360

sex & training & length of service, conception of their role in hospitals, teachers of handicapped children, 7033

social roles & social control, concepts of masculinity & femininity,

social-structural factors in mental hospital ward, situation related role performance & satisfaction, psychiatric aides, 7060

socialization & communication, role performance of lower participants in government agencies, local civil defense directors, 12167

subordinate's accuracy of role perception & compliance, job satisfaction & performance evaluation, industrial managerial dyads, 3394

systems prevention model of services, role concept, school psychologists, 5472

teacher education & experience, importance ratings of role of curriculum consultant for exceptional children, special education & elementary school teachers, 5346

theoretical orientation, perception of patient's role behaviors, experienced vs. inexperienced male therapists, 11545

trial construction, role conception inventory, hospitalized mental patients, Japan, 9501

urbanization & industrialization & increasing societal complexity, social relations & life styles, widows over 65 yr. old, review, 10992 whole person concept as created by society & relevance to

whole person concept as creaming sychology, book, 9201

Role Playing in-basket" & role playing simulation techniques, counselor in-basket students, 9258

A B type, person perception & role taking accuracy, male undergraduates, 2460

achievement- & affiliation-orientation under neutral & incentive conditions, role-playing performance, 6th grade boys, 1767 anticipated role performance & perceiver & perceived influences,

overlap in interpersonal description, male undergraduates, 810

attribution of person concepts, ascribing behavior as role performance, 811 classroom simulation games & role identification & game structure, political attitudes, 8th graders, 9985

confluence of choice & consequence in role playing, dissonance & attitude change, college students, 770

discussion & videotapes of models & role playing, supervisor training to overcome defense mechanisms & conflicting attitudes, 1458

dramatization as measurement technique, international communica-tion, children from 13 countries, 4444

expectation of continued role playing, attitude change, female undergraduates, 734

high vs. low situational demand & justification, role playing & attitude change toward police after campus riot, 2247

imagined vs. real aversive stimulation, role playing & deception in social psychology experiments, college students, 11122 improvisation & role-taking skill, role playing induced attitude change, college students, use of A. Elms's & E. Lee-Teng's & T. Sarbin & D. Jones's & V. Cline's measure of predictive accuracy, 9060

intention & aversive consequences, arousal of cognitive dissonance,

live modeling & role-playing & discussion vs. contingency system rewarding imitative social responses during role-playing on continuous schedule vs. verbal-symbolic-modeling approach in groups, antisocial behavior, institutionalized male adolescent offenders, 9754

performance styles, information-seeking task effectiveness, college students, 2515

prisoner role assumption, understanding criminal behavior, counseling & clinical psychology graduate students, 2725 psychodrama & role-playing, rehabilitation clients, 5024

role & sex differences, role playing of conflict between workers & foreman introducing change & solution reached, undergraduates,

role playing intellectual insight & emotional catharsis & reduction of interpersonal conflict, female college students open vs. not open to feeling life, 1104

role playing vs. deception methodologies in psychological experimentation, 3488

role playing vs. lecture method, teaching behavior modification, female institutional attendants, 11291

role playing with videotape, social imitation therapy, emotional neurosis, 9571

role playing, Rorschach Test scoring & interpretation, female undergraduates, 5750

role reversal to facilitate attitude change & negotiation & interpersonal attraction & conflict resolution, literature review,

role-playing group-problem-solving sessions, self concept & work attitudes, hard-core unemployed women, 10161

sensitivity training & varying group composition according to interpersonal trust, positive interpersonal behavior roleplaying ability & awareness of others' perceptions & willingness to discuss intimate material, Naval hospital corpsmen, 9075

structured vs. spontaneous role playing & psychodrama, 5275 written & lecture & lecture-modeling & modeling-role-playing, instructional techniques in child management for parents, 10890

Roles (See also Parental Role, Sex Roles)

adult misinterpretation of children's behaviors & resulting repression, child's place in society, 1567

family relations, role assignment & vocational & psychotherapist & patient roles, 5210

graduate career stage & employment & academic success, role

relations in school, graduate students, 1265 group vs. individual therapy, clearer picture of conflicts & wider spectrum of elicited transference & identification with therapist & positive & negative role models, 11620

helper-therapist vs. detective-interrogater roles of psychiatrist, conscientious objection & homosexuality & personality disorders, military personnel in noncombat areas, 11755

members' role performance, benefits from voluntary organizations, members of voluntary farm organizations, 11015

models of dynamic psychology & role dynamics, social psychology of organizations, 6842

moral development, role taking ability & interpersonal behavior formal aspects, 9 13 yr. olds, 2115

representational role obligations & sex differences, distribution of resources, 7 15 yr. olds & 7th 8th graders, 6801 role changes, school counselor, 3303

roles & context & person vs. object meaning, language development

& verbal communication, 6464 self process & role behavior theory, book, 2470

self-ascription of traits & roles, accurate self-referent behavior, college students, 2513

sick incompetent vs. healthy competent self-presentation & treatment vs. custodial ward residence, auditory task RT, male schizophrenics, 4891

similarity & role definition & setting, interpersonal attraction, college students, 11071

symbols & social roles, drives & changes in drive strength, 2516 systematic preparation, group therapy expectations & appropriate role behavior & dropout & attendance rate, psychiatric

outpatients, 9598

task vs. social roles, role differentiation, 4311

therapist as model or surrogate family, resistance in psychotherapy, 11762

Roman Catholicism

adjective pairs chosen from Osgood-Suci-Tannenbaum pool with Catholic School as cognitive object to be judged on 7-point scale, parental attitudes toward Catholic education, parents in East & Midwest dioceses, 3278

dogmatism & prejudice, Roman Catholic religious vs. Roman Catholic lay persons vs. members of other Christian sects, 8909 empathy, communication efficiency, Catholic vs. Jewish friend vs. nonfriend female undergraduate pairs, 9109

EPPS, personality needs, Catholic womens' college students vs. normative sample, 3319

Theological School Inventory, predictive vs. counseling tool,

, Catholic novices vs. Protestant seminarians, 2308 value congruence, Catholic high school seniors & parents, 11100

Rorschach Test

contradictory evidence, Rorschach M vs. creativity & sex, statement by M. Raychaudhuri on his findings, 2440

family consensus Rorschachs, characteristic differences between parents of male vs. female schizophrenics, 7313

family pathology, family consensus Rorschachs, schizophrenics & their parents, 7310

frequency tables, Rorschach response scoring, book, 2469

Jungian concepts, Rorschach theory & symbolism, book, 2485 kinesthetic responses in Rorschach test, anima & animus functions, healthy vs. neurotic adults, 1500

lifting repeated words & ideas to form constructs, Rorschach response interpretation method, 4523

LSD experience, Rorschach ego disturbance, 6219

personality structure & perceptual organization, associative responses, 14 yr. olds, 583

Piagetian tests & WISC & Early School Personality Questionnaire & Rorschach Test performance, kindergarten through 3rd grade longitudinal study, 6486

principal-components analysis of multitrait-multimethod matrix, convergent & discriminant validity of MMPI & Marlowe-Crowne Social Desirability scale & TAT & Rorschach, college students & psychiatric patients, 4850

purpose & history, Rorschach Inkblot Test, 24

race & IQ, Rorschach performance, convicted rapists vs. nonsexual aggressors, 7258

role playing, Rorschach Test scoring & interpretation, female undergraduates, 5750

Rorschach & Thematic Apperception Test, comparison of S's responses demonstrating psychic mechanism of denial, 4522

Rorschach color-shading responses, suicidal Ss vs. convicted murderers, 7215

Rorschach human movement response exhibitionism on Hand Tests, cheerleaders & drum majorettes, 4546 Rorschach indicators & Piotrowski scales, measurement of senility

& cerebral deterioration, 65 69 vs. 75 79 yr. old males, 4814

Rorschach penetration & interference phenomena scores, 9-15 yr.
old children with duodenal ulcers & bronchial asthma & healthy

siblings, 1011 Rorschach protocols on day of hospital admission & 48 wk. later & 6 10 mo. after discharge, use of grammatical terms & evolution of inhibitions, depressive patients, 11389

Rorschach protocols 18 yr. apart, similarities & differences,

paranoid schizophrenic, case study, 4612 Rorschach records & Rorschach scoring categories vs. Wechsler-Bellevue Test Form I, Klopfer scoring categories factorial unity & intellective factors, normal Ss, 2465

Rorschach responses, psychogenic headache patients, 4883 Rorschach test in terms of Spielberger's conception of anxiety as stable personality disposition & transitory emotional state, state &

trait anxiety assessment, 1498 Rorschach test performance, female hysterical neurotic patients,

7334 Rorschach test, banal & anatomical & sexual responses, Congolese college students, 11234

Rorschach test, ego regression diagnosis, 2700

Rorschach testing, cross-sex bias, psychiatric patients, 1522 Rorschach testing, social interactions in families with schizophrenic member, 11375

Rorschach vista responses & Terman Group Test, intelligence, Brazilian lawyers, 2449 thalamotomy, Wechsler-Bellevue & Raven's Progressive Matrices & Rorschach Test performance, 32 66 yr. old Parkinson's disease patients, 7688

training & system used & administration & scoring & interpretation differences, Rorschach Test, survey of clinicians, 5754

videotape self-confrontration, ego & thought processes & Rorschach Prognostic Rating Scale scores, male schizophrenics, 2793 Rosenzweig Picture Frustration Study

**Rotary Pursuit** reinforcement contingencies, pursuit rotor tracking task perform-ance, 18 yr. old cerebral-palsied tension athetoid quadriplegic,

rotary pursuit acquisition & retention & Bender-Gestalt performance, normal vs. educable mentally retarded students, 7976

vertical sinusoidal target size & psychological significance, oculomotor pursuit, 5852

Rotation Methods (Statistical) (See Statistical Rotation)

ROTC Students

assigned position & experience & training, performance in leaderless group discussion, ROTC students, 5665

career values, perception of importance & obtainability of work rewards, low vs. high tenure NROTC officers, 3429

intrinsic vs. extrinsic need orientation, reaction to simulated

participative job redesign, ROTC students, 3438
picture labeling & ROTC training & humanitarian values,
habituation to Vietnam massacre scenes, ROTC vs. nonROTC students, 10996

top & bottom peer rating nominations, cadet performance factors, ROTC seniors, 8094

Rote Learning

anxiety, rote serial learning, male 11th graders, 8412

learning by problem solving vs. insight vs. memorization, learning time & retention & transfer, 6025

rote verbal learning, variation in serial position curve as index of relative difficulty, kindergartners & 1st & 3rd & 5th graders, 2067

Rotter Incomplete Sentences Blank Rotter Intern Extern Locus Cont Scal

political conservatism ideology & optimism-pessimism & success causality attribution, factorial structure of Rotter Internal-External Locus of Control Scale, expansion of internal-external control construct, 4502

Rotter's Internal-External Scale & R. Cromwell's Adult Locus of Control scale & Henman-Nelson Tests of Mental Ability, feelings of control, 18-51 yr. olds, 2498

RT (Response) (See Reaction Time)

Rubella Rulon Test

Running

conditioning apparatus & procedure, suppression of running response, gerbils, 4014

intensity of fear in running & jumping, fear-motivated behavior, rats, 6388

large vs. small & intermediate vs. small rewards on alternate trials & exteroceptive cues & transfer, pattern running, rats, 6451

Runways (Maze) (See Maze Pathways)

Rural Environ

abstinence tradition & rural environment, problem vs. nonproblem vs. no drinking, high school students, 8923

adherence to Protestant Ethic, attitudes toward poverty & social services, rural community adults, 2310

age & education & socioeconomic status & caste & family size, achievement motivation risk-taking & fear of failure, rural Ss in highly developed vs. underdeveloped villages in India, 4279 attitudes toward mental illness, rural Ss over 18 yr. old, 677

class standing & academic major & family income & rural home environment, risk taking attitudes, undergraduates, 6662

cluster analysis, application to measuring moral value differences, urban vs. rural & grammar vs. technical school students, 5444

community oppression & occupational structure & perception of mobility opportunities, achievement motives & value orientations, black & white adolescent males in rural South, 737

cross-cultural household level-of-living scale construction, rural Georgia & Puerto Rico & Dominican Republic data, 658

drug usage & attitudes & knowledge, rural junior high & high school students, Canada, 8966

Duso Guidance Program, self-concept development, 1st 3rd graders in Appalachia, 1315

geographic mobility, occupational attainment, male high school students from rural Michigan, 10 yr. longitudinal study, 722

low vs. middle socioeconomic status & rural vs. urban areas & age & sex, self concept, black vs. white 3rd 8th graders, 2199

marital status & age & sex & extent of training & religion & residential & work environment & type of work, work & leisure orientation, 15 65 yr. old workers, 8148 occupation level & gross annual income & education level & rural

vs. urban background, vertical location on Maslow's hierarchy of needs, 25 45 yr. old males, 6954

parental attitudes toward psychotherapeutic evaluation & treatment, child guidance clinic in rural area, 11556

Ponzo illusion, Ugandan college students vs. villagers, 8304 rural environment & frustration & discontent, ability to reach students, small town elementary school teachers, book, 12003

rural mental health care, 7493

rural-urban residence & IQ & locus of control & test anxiety, 9th

graders, 590 self-perceptions of education & professional socialization & importance of specific training experiences, current satisfaction with job & career, metropolitan vs. nonmetropolitan psychotherapeutic psychologists, 2520

sex & deafness etiology & degree of deafness, mental development, urban vs. rural deaf 14 yr. olds, 9466

sex & remaining vs. not remaining in home town, perception of achieved honors, 1906 1967 high school graduates, 8947 sex & urban vs. rural social level, reliability of Polish adaptation of

Vineland Social Maturity Scale, 2 30 mo. olds, 8824

sex differences & mining valleys vs. rural areas in South Wales, incidence of psychiatric illness, 25-41 yr. old residents, 11404

social class measured by occupation, voluntary association membership, rural community residents, 9026

socioeconomic status & sex & race & urban vs. rural environment, self concept, children, 9216

successful negotiation of government contract & selection of entry in community for visibility & acceptance & direct & indirect consultation services provision & systematic program evaluation method, community mental health consultation program development, rural American Indian population, 2917

ungradedness on reading achievement & personality development, design for ungraded primary school in rural area, primary students, 3252

upper vs. lower middle-class suburban vs. lower middle-class semirural environment, drug use, high school students, 6670

urban vs. rural background, academic performance, 1st yr. college students, 1280

urban vs. rural environment, crossing test performance, 12-13 yr. olds, 10985

verbal flexibility & originality & fluency, rural vs. middle- vs. lowerincome urban vs. lower-income vs. impoverished Indians, 11268 Saccharin

septal & amygdaloid lesions & solution concentrations, saccharin & quinine preferences, rats, 1890

sucrose vs. saccharin solution & restricted vs. available food, food consumption, rats, 8728

Sacral Spinal Cord

Sadism (See also Sexual Sadism)

Sadistic Personality

recognizability of behaviors associated with sadness vs. anger vs. depression vs. hostility vs. fear vs. anxiety, college students, 9159 omasochism (See also Masochism, Sadism, Sexual Masochism, Sexual Sadism, Sexual Sadomasochism)

dominance drive & sadism, human sexual behavior, 4342

Sadomasochistic Personality (See also Masochistic Personality, Sadistic Personality)

Safety (See also Air Traffic Control, Aviation Safety, Highway Safety, Occupational Safety, Water Safety) safety signals, extinction of discriminated avoidance response,

female rats, 8721

Safety Belts

Safety Devices (See also Safety Belts)

old & new & future car headlight systems, effectiveness in night driving, 3442

thalidomide, embryonic development, axolotl larvae, 10641

time spent in breeding area & age & sex & directions of travel, migratory orientation near breeding area, marbled salamanders, 548

Salaries

academic salary changes in psychology over 3 yr. period, 881 achievement motivation training, executive advancement, methodological defects in J. Aronoff & G. Litevin's article, 8088

achievement motivation training, job level & salary advancement,

middle-level executives, 8038 economic model of market for psychologists based on supply & demand & salaries, 889

group vs. individual judgments & cross-cultural differences, wage increase recommendations, management engineers, United States & Europe, 8081

incidence & admission rates & pay grade, Navy vs. Marine Corps personnel hospitalized for drug abuse, 4801

income patterns & trends, American Psychological Association industrial & organizational psychologists, 1960-1970, 914

input-outcome checklist development & use, susceptibility to over-& underreward conditions in work setting, 5687

job placement & training & demographic & wage data & case studies & trainee attitudes, government job training program turnover, disadvantaged trainees, 1457

job-analysis questionnaire resulting in meaningful job dimension identification, prediction of aptitude requirements & pay rates, job analysts & supervisors & business & industry incumbents, 1437

preferred importance of criteria in pay-promotion matters, college & university faculty, 5311

promotion & salary policies & administrative practices, job satisfaction & turnover, college professors, 10006

quantitative model emphasizing maturity-type variables, perceived fairness of salary treatment, Federal Public Health Service employees, 1407

salary & job satisfaction & education & age & job level & personality characteristics, financially-motivated employees, 3405 self-esteem & inequity dissonance, input & outcome undercompensation, college students, 3408

staff size & salary schedules, American Psychological Association approved vs. not-approved agency clinical psychology programs, 2556

wage inequity & inequity, job performance & satisfaction, 5667 work status & occupation & wage & length of counseling, vocational rehabilitation outcomes, retarded vs. nonretarded rehabilitation clients, 9584

### Sales Personnel

age & occupation & education & job tenure, job satisfaction, engineers & salesmen & clerical workers & assemblers & janitors & maintenance men, 3414

age differences, occupational perceptions, 4th 6th graders vs. high school students vs. college freshmen vs. salesmen vs. employed women, 8804

motivation-hygiene vs. exchange utility theory, career dissatisfaction & termination, life insurance salesmen, 8121

needs identification, salesman strategies & hostility-warmth & dominance-submission, 5605

organizational climate, climate preferences & expectations, managers & assistant managers & agents from life insurance agencies vs. newly contracted agents, 1451

perceptions of favorable & unfavorable qualities of retail salesperson, college students, replication of H. Townsend's study, 5664

warmth & intelligence & emotional stability & boldness & suspicion & sophistication, deviance & subsequent conformity perception & sociometric task leadership, department store salesgirls, 782

work- & socially-oriented peer nominations, predicting sales performance, life insurance agents before vs. after experience, 1435

Salesmen (See Sales Personnel)

Salience (Stimulus) (See Stimulus Salience)

sodium & potassium electrolyte saliva concentrations, adrenocortical activity, hospitalized vs. nonhospitalized acute & chronic schizophrenics & neurotics & depressives & surgical cases & normals, 11360

# Salivary Glands

#### Salivation

desalivation, sucrose & glucose & fructose solution selection & ingestion, rats, 359

ECS vs. antidepressant drug therapy, spontaneous & metacholinestimulated salivation rates, manic-depressive patients with diagnosis of endogenous vs. symptomatic depression vs. mania, 11340

endogenous vs. reactive depression, salivation & EMG & skin conductance & blood flow, depressive patients, 2706

food deprivation, salivation to lists containing food & nonfood words, college students, 6067

imipramine & dimethacin, Clyde Mood Scale scores & appetite & salivation vs. anticholinergic activity, 355

intense oral fixation & development of oral incestuous fantasies, xerostomia during insight therapy, 57 yr. old woman, 5101 tryptophan metabolites, head twitches & body temperature & salivation & diarrhea, mice & rats, 3925

Saltiness (See Taste Stimulation)

Sampling (Experimental) (See also Biased Sampling, Random Sampling)

errors in experimental sampling control, counseling & therapy research experimental design, 2922

heuristic device of representativeness vs. sample size, study of subjective probabilities & uncertainty, 3699

statistical & sampling problems, research in social casework, 2999 test reliability & item difficulty indices of variance & skewness, standard error of estimate in item-examinee sampling, 5794

Sarcomas (See Neoplasms)

## Satiation

food deprivation-satiation, conditioning positive attitudes to new stimuli with food word stimuli, college students, 3748 hunger vs. satiation & single vs. paired social conditions in adjacent

& communicating Skinner boxes, operant behavior, rats, 558 liquid &/or solid diets differing in carbohydrate &/or triglyceride, conditioned satiety, rats, 8708

partial vs. continuous reinforcement, response persistence during satiated testing, albino rats, 2025

stimulus satiation vs. minimal treatment vs. individual effort with vs. without expectation of future treatment, smoking, replication of J. Resnick's study, 5231

Satisfaction (See also Job Satisfaction, Need Satisfaction)

activity level & sense of personal autonomy, life satisfaction, 65 87 yr. olds, 6598

advisees' self-reported satisfaction with & effectiveness of advisors, male vs. female upper vs. basic division elementary education majors, 9885

blind vs. face-to-face conditions, group performance efficiency & satisfaction, male vs. female college students, 2318

college environment, alienation & satisfaction, students, 5506

constraint defined as health & monthly income, life satisfaction, elderly Ss in housing projects, 6601

Holland's theory of vocational choice & concepts of congruence & consistency & homogeneity, satisfaction & achievement prediction in graduate school, graduate school faculty & students, 8063

intervention by authority person, students' internal external orientation & satisfaction with school, college students, 11824 magnitude of offers made by opponent & alternative to bargaining relationship, magnitude of subjective utility parameters in tacit

bargaining game, junior & high school students, 6861 neurotic troubles & life satisfaction, elementary school teachers,

part-time employment in foster grandparent program, attitude & morale & life satisfaction & self concept, elderly Ss, 4213

reported vs. expected performance, performance satisfaction following immediate feedback, relation to P. Smith & L. Kendall & C. Hulin's traditional model of job satisfaction, male undergraduates, 1427

role conflict coping behavior model, resolution & satisfaction, college educated women, 10967

self-evaluation of job importance & satisfaction, life satisfaction, male foremen, 1429

social structural features of public housing projects, residents satisfaction-dissatisfaction in public housing, 2302

stage of commitment & participation in decision-making groups, satisfaction & perceived influence & decision-riskiness, 4394

task pair status congruence performance & satisfaction, middle level managers in manufacturing, 4400

vocational-education vs. personal problem & internal external control & counselor style, client satisfaction, 11753

Scales (Attitude) (See Attitude Measures) Scales (Intelligence) (See Intelligence Measures)

Scales (Interest) (See Interest Inventories) Scales (Personality) (See Personality Measures)

Scales (Preference) (See Preference Measures)

Scales (Rating) (See Rating Scales)

## Scaling (Testing)

affective values having a quasi-simplex structure, individual differences in pair comparisons, 26

different vector models for subjective similarity, multidimensional scaling, 33

implicit metric scaling technique for dichotomous data recovering a higher" level than simple ordinal scale, cognitive growth assessment, 2080

birth order & personality adjustment, California Test of Personality
& Institute of Personality & Ability Testing Children's Personality Questionnaire, elementary school children, 6549

blindness vs. partial-sight & age, conservation of substances, 5 15 yr. olds, 1378

blue & 7 as choices between any color & number from 0 9, elementary & junior high school students, investigation of W. Simon's blue seven phenomenon", 4229

body-build stereotypes, Mexican 4th 6th graders, 6715

breadth of social experience & emotional attitude toward social experience content, 10-14 yr. olds, 651 broken vs. intact families, school performance, 10 16 yr. old black

males in low income housing development, 5577 candy reward, imitation & modeling, 1st & 2nd graders, 3673

canonical correlation, perceptual motor & intellectual abilities, kindergartners to 3rd graders, 8871

Caucasian vs. Negro models & rule vs. no-rule structure, self-control

standards adoption, 6 11 yr. old Negro males, 10956 causality cognition stage & humor rating & age & personality differences, humor development, 3 12 yr. olds, 4136

centrophenoxine, social maturity & psychomotor efficiency & mental age, 6-14 yr. old moderate & profound retardates & imbeciles & idiots, 9565

certainty of belief in God & church attendance frequency of parents, religious beliefs & church attendance, Northern Ireland 6th-form pupils, 688

child rearing techniques formulated by R. Dreikurs, self concept, 3rd graders, 10928

child-rearing practices, acquisition of moral judgments, 10 yr. old boys, 6568

childrearing practices, perception of emotional responses to social interaction, Taiwan vs. American 2nd graders vs. kindergartners,

Children's Manifest Anxiety Scale long-term test-retest reliability & suitability with younger CA-group, 7 11 yr. old male educable mental retardates vs. normal male CA controls, 1516

classical music to mask background noise, learning disabilities, 7 14 yr. olds, 8009

classification & seriation operations with problems concerning inanimate objects vs. social events, 60 120 mo. olds, 8835

cognitive & motoric & affective & moral judgment inhibition, stuttering vs. acting-out vs. normal elementary school boys, 4718 cognitive & Piagetian social-cognitive tasks, developmental differ-

ences, 6 13 yr. old emotionally disturbed vs. normal children, 7141 cognitive abilities & number & quality of questions, questioning strategies in puzzle solving, 8-10 yr. olds, 6595

cognitive encounter with external data, development of memorizing vs. perceiving, pre-schoolers & 1st & 5th graders, 10802

color contrast combinations discriminability, partially seeing 8-12 yr. olds, 9414

combined medical & educational institute, social & vocational training, moderate mentally retarded 6-14 yr. olds, 9582

comparisons of concrete objects varying in number & kind, concept formation, 5th 8th graders, 8818

comprehensive symptomatic analysis, psychomotor inhibition, 2nd & 3rd graders with social contact difficulties & anxiety & poor school performance, 4636

concept formation, schizophrenic & learning disabled & normal 10-15 yr. olds, 9432

conception of images vs. verbal descriptions of objects, 10 12 yr. olds, review of L. Vygodsky's & J. Piaget's theories, 8796 conceptual & acoustic similarity & age, free verbal recall,

elementary school students, 8829 conceptual tempo, ability to achieve conservation, 2nd graders, 2169 concrete & abstract stimuli, perceptual development, disadvantaged 5 yr. olds in Head Start, 9978 concurrent validity, Purdue Perceptual-Motor Survey & Perceptual-Motor Behavior Screening Checklist, students, 10252

conditioned positive reinforcement, preference for form vs. color dimension of compound sample stimulus, 10 12 yr. olds, 199

congenital blindness & deafness, development of tactile-kinesthetic discrimination, 6 14 yr. old congenitally blind & deaf & normal children 4626

conservation vs. nonconservation, semantic distinction of lexically marked adjectives, 3rd 6th graders, 4129

constrained & cued recall training, verbal memory performance, 2nd & 4th & 6th graders, 2181

consultation & behavior modification, behavior change & psychosocial implications, problem children, 7701

context & frequency & grade level, ability to determine denotative word meanings, average intermediate grades, 11822

context of stimulus item presentation variation & quiet vs. noise listening condition, speech sound discrimination performance, nursery schoolers vs. kindergartners vs. 1st graders, 4222

contingent & noncontingent visual feedback, digital performance, deaf cerebral palsied 11 yr. old, 11745

contingent reinforcement, Peabody Picture Vocabulary test, indigent 8 yr. olds, 8882

creativity tests vs. naturalistic creativity measures, creativity & anxiety & achievement motivation, 8-10 yr. olds, 10836 creativity vs. intelligence, 5th graders, 6629

crowding & sex, social interaction, preschoolers & 1st graders, 795 cultural differences, basic Piagetian conservation task performance, 10 11 yr. old Mexican- vs. Negro- vs. Euro-Americans, 4090

culturally enriched vs. culturally deprived environment, pairedassociate learning & retention, 4th graders, 6474

curiosity level, information seeking, 5th graders, 10804 death anxiety, 6 10 yr. old leukemic vs. chronically ill children, 4868 delay between exposure to modeled task & actual performance & retest expectations, recall & imitation performance, kindergart-

ners & 1st graders, 8397 demographic & socioeconomic factors, intellectual maturity on

Goodenough-Harris Drawing Test, 611 yr. olds, 2122
depth & perspective graphic representation instruction, visualspatial organizational ability, 8 10 yr. olds screened for deficits,

development of linguistic connectives & attention to order of causally related events & ability to explain temporal order of events, white middle-class 4 & 6 & 8 & 10 yr. olds, 10923

development of motor-free test of visual perception, 5 7 yr. olds, 5350

developmental age differences, visual & kinesthetic judgments of distance, 4 & 6 & 8 yr. olds, 2153

developmental age, conservation task performance & chronological age & sex & IQ, 5 8 yr. olds, 10882 developmental differences & word frequency, selection strategies in

verbal discrimination learning, 4th grade to college level students,

developmental differences, brain responsiveness to flicker stimulation, 1 14 yr. olds, 6627

developmental level & emotional involvement & inconsistency resolution, impression formation, 6 7 & 12 13 & 18 19 yr. olds,

developmental level & intelligence, optional intra- & extradimensional discrimination shifts, preschoolers kindergartners & 2nd & 6th graders & college students, 4154

dexedrine & ritalin, hyperactive behavior & academic performance, school age children, 4986

dextroamphetamine & chlorpromazine & hydroxyzine, behavior & performance, hyperactive 6 11 yr. olds, 7471 differential cognitive cues, pictorial depth perception, black 3rd

graders, 5878

dimensional preference & relative cue similarity, optional shift behavior, 1st & 3rd graders, 4232

direct vs. vicarious vs. perceived racial conflict, awareness of different black liberation groups, black vs. white 7th 12th graders,

discrimination learning of pictures vs. words, 4th graders & college students, 4207

discrimination learning vs. perceptual screening training to attend to relevant cues, use of concept of intent in judgments of social & achievement behaviors of story characters, 5-8 yr. olds, 6637 disfluency rates & patterns, high-vs. low-disfluent kindergarten to

6th grade stutterers vs. nonstutterers, 7335

- doll technique, racial ethnocentric measurement, black & white kindergartners to 2nd graders, 700
- duration & distance & speed of moving targets, interdependence in judgments, adults & accident-free vs. accident-prone 9 10 yr. olds, implications for identifying accident liability, 12170

  E & S race & sex, verbal nonreinforcement & reinforcement
- responsiveness, 60 72 mo. olds, 5939
- educational-occupational stratification, retardates receiving special education in arithmetic vs. suburban 2nd 7th graders. 9973
- educational-occupational stratification, severe reading retarded vs. suburban 2nd 7th graders, 11976
- ego delay capacity, conceptualization development, 7 8 yr. old disadvantaged impulsive vs. reflective disadvantaged children, longitudinal study, 8786
- egocentric communication, peer popularity, kindergartners vs. 2nd vs. 4th vs. 6th graders, 4209
- emotional & cognitive & interpersonal confrontation of birth defect, self-esteem & overall adjustment, 8 14 yr. old children, 4678
- equilibrium & congruence models including structural balance schema, multirelational social structure representation, undergraduates & grammar-school students, 11065
- errorful vs. errorless training, intradimensional discrimination learning & generalization, 7 8 yr. olds, 8379
- ethnic background & white urban culture contact & training in WISC Similarities & Block Design strategies, verbal regulation of behavior & IQ, 6 15 yr. old Indian vs. white Canadians, 4221
- ethnic group & home town composition, ethnic stereotypes, Serbian & Hungarian & Montenegrinian elementary school students, 2234
- ethnic membership of E & test methods including identikit task & Scottish vs. Asian names, ethnic identity & preferences, Asian immigrant children in Glasgow, Scotland, 703
- expectancy estimates for success, normal vs. conduct disturbed 8-12 yr. old boys, 10013
- experiences of death & age, development of concept of death, 9-14 yr. olds, 8787
- experimental program to improve educational readjustment, dyslexic & dysgraphic children, 7878
- exposure & imitation & expansion, artificial grammatical rule acquisition, lst graders, 623
- expressed curiosity of child & parental response & family expressions of achievement strivings, families with 8 11 yr. old learning problem children vs. normal children, 4634
- external control social vs. primary reinforcement vs. autonomous instructions, exploratory task performance, 5 6 yr. olds, 4104
- facial characteristic & body type, social stereotyping, 1st & 3rd & 5th graders, 2327
- factor analysis, Purdue Perceptual-Motor Survey, normal school children, 10348
- factor analytic study of intelligence test scores, 6 9 yr. old learning disabled children, 5514
- factorial dimensions of problem & nonproblem behaviors, diagnostic categories for children's disorders, 4 & 5 & 6 yr. olds,
- factorial personality dimensions & ability & attainment, Terman-Merrill Vocabulary Test & Raven's Progressive Matrices & Vernon's Test of Graded Word-Reading & Schonell's Mechanical
- Arithmetic & sex, 10 yr. old children, 5584 familiarity vs. short-term novelty, affective assertions, 5.8-6.9 yr.
- olds, 8808 familiarization, ratings of pictures of blacks & whites, 9-11 yr. old whites, 11052
- family emotional relationships & parental role models & parental discipline, aggression, 4th 6th grade boys, 4114
- family size & birth order, independence of intelligence, 2nd 12th graders, 8837
- family size & kindergarten attendance & sex & age, school readiness, 12031
- family socioeconomic status & size, intelligence, Italian 2nd 5th graders, 9193
- fears, 7 8 yr. old Thais vs. Americans, 8803
- field-dependence & impulsivity, 8 13 yr. old males with serious vs. moderate behavioral & learning disorders, 3219
- filled vs. empty distance conservation task, composition error & class inclusion error, conserver vs. nonconserver 1st graders, 6472 fixed-ratio vs. fixed-interval reinforcement schedules of stimulus
- control, figural matching-to-sample tasks, 4 7 yr. olds, 10828
  fluphenazine cenanthate, 4 8 yr. olds with early childhood psychoses
  vs. 6 12 yr. olds with latency period psychoses vs. 14 16 yr. old schizophrenics, 9695

- form-matching task in visual vs. haptic mode, cross-modal equivalence, 7 9 yr. old normals vs. educable mental retardates,
- fragmented subconcepts related to stimulus contexts & perceptual attributes, natural language concept development, 5 6 & 8 9 & 11 12 yr. old schoolchildren, 10906
- free time & required verbalization & attention during stimulus
- presentation, imitative learning, 3rd graders, 10854 frequency of occurrence in English language, object-naming latency, 7-10 yr. old stutterers, 11342
- frustration, cognitive regression of concrete reasoning ability, 78 yr. old boys, 3708
- goal-setting behavior, verbal learning, average & low intelligence pupils, 11875
- Goodenough Draw-a-Man Test, efficacy as index of developmental disorders, 4 16 yr. old pediatric outpatients, 4143
- Goodenough Draw-A-Person Test vs. Picture Interpretation Test vs. Quick Test Form, 6 13 yr. olds with behavior or learning or emotional difficulties, 2652
- grade taught & child's sex & experience & behavior importance rankings, perceptions of behavior problems for school psychologist referral, teachers, 5561
- aphic-motor task, EMG gradient increase, 7 14 yr. olds, 8579 Griffiths Extension Scale, extension of previous study to use in older
- children, 5 8 yr. old normals vs. abnormals, Colombia, 11859 group vs. individual reward, cooperative vs. competitive behavior, Blackfoot Indian vs. urban Canadian 7 11 yr. olds, 4183
- handwriting reversal errors, perceptual-motor task performance, 7 8 yr. olds, 1275
- harsh parental practices, social desirability response tendencies, 6 12 yr. olds & 18 26 yr. olds, 11040
- health motivation, perceived vulnerability & benefits & dental trauma history & intention of taking health action, 8 17 yr. olds, implications for health education, 6502
- hearing loss & congenital anomalies & therapy & environmental causes, intelligence measures, 4 16 yr. old cleft-lip &/or cleftpalate children, 9395
- high frequency impairment, language & verbal ability, 6 15 yr. olds, 10039
- high vs. low dependency & presence vs. no presence of human modeler in film, differential amounts of subsequent irrelevant imitation, 1st graders, 2184
- high vs. low socioeconomic environment, language & personality test scores, 7 9 yr. olds, 6605
- high vs. low socioeconomic status & average vs. low IQ levels, visual & auditory short-term memory & cross-modal coding task, 7 11 yr. olds, 6570
- high- & low-intensity nonsignal pure tones & simple RT task, cardiac responses, male 8 10 yr. olds, 3809
- highly vs. moderately vs. minimally ambiguous task structure, conceptual behavior on Object Sorting Task, 7 vs. 8 vs. 9 yr. olds,
- home environment & personality traits, encopresis, children, 9391 home environment, verbal ability, 5th grade boys, 4147
- hope, achievement motivation & time perception, poverty children,
- hostile attitudes, educational difficulties, students with learning difficulties, 11970
- human figure drawings development at ages 4 & 6 & 8, 4 8 yr. olds,
- humorous vs. unusual vs. usual associations among common objects & intelligence & creativity, intentional vs. incidental learning, 4th 6th graders, 3190
- hypothetical vs. actual social situations, racial preferences, 2nd vs. 4th vs. 6th grade Negro vs. Caucasian girls, 10862
- identifying & training & understanding perceptual deficiencies in children, validity of current procedures & concepts, 1387
- identity vs. reversibility by inversion vs. compensation, reasons for judgments on conservation, 1st & 2nd graders, 10844 Illinois Test of Psycholinguistic Abilities, Maori vs. European 5 6 yr.
- olds, 732
- imagery capacity & verbal/visual crosscoding, spatial visualization, 67 vs. 10 11 yr. olds, 12083
- immediate vs. delayed reinforcement & forced preresponse stimulus exposure vs. stimulus exposure during delay interval & intertrial interval & interstimulus interval, discrimination learning facilitation, 9 yr. olds, 4126
- incidence in U.S.A., handicapped elementary- & secondary-schoolage children, 12101

incongruity- & resolution-removed cartoon forms, appreciation & comprehension of cartoon humor, 2nd & 3rd & 6th & 7th graders,

individual differences & group & setting characteristics, potentially disruptive behaviors & teachers' reactions, unsocialized-psychopathic vs. inadequate-immature emotionally disturbed 8 11 yr. olds, 12096

individual differences at I developmental stage, conservation of

continuous quantity, 4 9 yr. olds, 6512 individual sequenced vs. terminal objective vs. no instruction, multiple-classification problem solution, 5 vs. 6 vs. 7 yr. olds, 635 inductive deductive reasoning, 5 14 yr. olds, 10825

information load & response delay & stimulus variation dimension number & type, identification capacity, retardates vs. normal 1st & 6th graders, 4866

inhibiting vs. disinhibiting models, resistance to temptation, 3rd & 4th graders, 10904

Initial Teaching Alphabet reading program, reading improvement, 8-12 yr. olds with auditory perceptual disturbances, 7933 initiation rites, aggression & dependence & validity of Freudian

theory of culture, 8 10 yr. old Hopi boys, 686

instrumental escape extinction procedure, remedial reading progress, reading disabled children, 11977 integration & directionality & redundancy & inhibition as facilitators of information processing, analysis of perceptual coding test scores, 1st & 8th & 9th graders, 5918

integration into regular classes, handicapped children, 9908 intellectual processes, grasping principles through generalization of elements-stimuli relationships, 5th graders & adults, 6480

intellectual realism, drawings of familiar object with distinctive features, 5-9 yr. olds, 6495

intelligence & personality type, attentiveness to color on color-word interference test, 12 14 yr. old boys, 11258 intensity level of aurally presented items & recall interval, digit recall, 9 yr. old normals vs. retardates, test of N. Ellis's stimulus trace deficit theory, 2635

intentional teaching & peer modeling & tangible & social & symbolic rewards, listening skills, 82 120 mo. old educable mentally retarded children, 10043

intentional vs. incidental imagery, incidental learning, educable retarded & normal 8 13 yr. olds, 4909

interest patterns & media preference, male vs. female & black vs. nonblack & high vs. middle vs. low socioeconomic status 4th & 5th graders, 2108

intermittent reinforcement schedule, enuresis conditioning treatment, 6-14 yr. olds, 9506

internal vs. external locus of control, creativity, black & white lowerclass male 9 11 yr. olds, 9161

international exchange & psychological study of children's art, fostering international understanding & cooperation, 4247

interpolated tasks, intramodal & cross-modal shape recognition latency & accuracy, 3 4 & 5 6 & 7 9 yr. olds, 6563 interval between stimuli required to identify accurately 1st stimulus,

visual information processing speed, inner-city vs. suburban 1st & 3rd & 6th graders, 10297

IQ & hospitalization length, understanding of common English expressions, 23 61 yr. old chronic psychiatric patients vs. 8 11 yr.

irreversible vs. reversible vs. intermediary sentences & situations, passive sentence comprehension & production, Swiss-German-speaking 5 8 yr. olds, 10818

item-order & composition of word-list, Netherlands version of Hamburg Wechsler Intelligence Test for Children, 8 13 yr. old Dutch children, 5804

judgment of fuller & emptier glasses, relational reasoning development, 5 & 6 & 7 & 9 yr. olds, 2178 Kagan's Matching Familiar Figures Test, response quickness &

visual analysis skill & time estimation accuracy & concept identification problem-solving ability, 2nd graders, 2131

knowledge of relevant information & complexity & codability of stimulus information, visual selective attention, 2nd vs. 6th graders, 4198

language acquisition from age 5 onward, literature review, 8849 language as facilitating factor, ability to achieve conservation of number, 1st graders, 8845

language maturity & usage, white vs. Negro 3rd graders from low socioeconomic groups, 8779
laterality & right-left orientation & intellectual level & mental

alteration, school-age normals & psychiatric patients, 1083

learning abilities screening test, 1st graders, 12030

learning disabilities, Lincoln-Oseretsky Motor Development Scale scores, 5.1 13.6 yr. old perceptual motor clinic clients, 4818

left vs. right hand use, reproduction of model produced by 1 hand, left vs. right handed 7th-11th graders, 8310

linear vs. nonlinear structural abstract vs. concrete stimulus sets, serial learning, 4th vs. 6th vs. 8th graders, 10817

linguistic aspects & implications for educational programing, culturally disadvantaged children, 11882

live vs. televised behavioral vs. live verbal peer model, conformity vs. deviation, 2nd & 3rd graders, 1-mo. follow-up, 10523

local norms, Raven's Coloured Progressive Matrices, 7-12 yr. olds, India, 5362

logical hypotheses & possible strategies, concept formation, 5 15 yr. olds, 6625

long-term cultural change, moral reasoning & animistic thinking, 2nd & 5th & 6th graders, comparison with J. Piaget's 1929 results,

low vs. middle socioeconomic status & rural vs. urban areas & age & sex, self concept, black vs. white 3rd 8th graders, 2199

low- vs. high-involvement in belief, resistance to persuasion, 7th & 8th graders, 11074

MA, Piagetian reasoning assessment achievement, normal vs. retarded 6 20 yr. old children, longitudinal study, 9469

magnitude & temporal order congruency, 3-term series problem solving, blind vs. sighted 7 9 yr. olds, 7248

manifest anxiety, analytic & nonanalytic cognitive styles, American & Taiwanese 4th & 5th graders, 6475

manual methods vs. spoken English in describing referents & game rules, quality & accuracy of peer-to-peer communication skills, deaf vs. hearing 8 & 11 yr. olds, 4727 maternal attitudes & behavior, self-esteem & overall adjustment, 8

14 yr. old children with birth defects, 4679

maternal verbal communication, resistance to temptation, 9 10 yr. olds of Canadian- vs. Italian mothers, 687

mean sentence length & composition length & vocabulary redundancy & diversity & spelling & grammatical correctness ratios, educable retarded junior high school students vs. nonretarded children matched for MA, 4851

mediator priming & inhibition, discrimination transfer & free recall, kindergartners & 3rd graders, 8813
mental abilities & scholastic achievement & personality inventories & socioeconomic & cultural disadvantage indices, kindergarten & 1st 8th grade Negroes & Mexican-American vs. whites, 11953 mental development level, classification learning, 4 & 5 & 7 yr. olds,

mental operator as task-independent mental capacity construct, validation on number ordering task, 5 10 yr. olds, contribution to

J. Pascual-Leone's study, 4103

methylphenidate, classroom conduct & personality problems & deviant behavior & student-teacher interaction, emotionally disturbed & disruptive & poor school adjusted children, 7474 middle vs. lower class, comprehension of passive voice & deep vs.

surface sentence structure, 5-6 yr. olds, 588 miniature linguistic system using sequence of matrices, demonstra-tion of logic of language, 6 & 8 & 10 & 12 yr. olds in residential

schools for deaf, 9960 minimal brain damage during infancy, school problems, children, 5458

Missouri Children's Picture Series validity, degree of personality disturbance discrimination, normal vs. abnormal elementary school students, 9737

model observation & rule provision & stimulus sequence, learning & transfer & retention of dial reading numerical concept, 3rd grade students, 2210

model presence vs. absence & contingent reinforcement vs. nurturance vs. nonreinforcement, imitative learning, 2nd & 3rd grade boys, 4145

model vs. practice vs. control condition & additional multiple classification task, observational learning developmental aspects, 2nd vs. 4th vs. 6th graders, 2152

model's race vs. O's age & race, imitation, 3 & 5 & 7 yr. olds & Negro & Caucasian peer models, 10872

moderate heart stress, classroom behavior, 9 yr. old children, 11941 moral development, role taking ability & interpersonal behavior formal aspects, 9 13 yr. olds, 2115
moral judgment level & interdependent vs. independent goal

conditions, conformity, 7th graders, 4214

mother vs. father vs. child perceptual style, child's self esteem & perceived parental behavior, 10-12 yr. old white middle class sons 9185

motor activity, mental activity, school children, 8437

movie presentation of Piagetian conservation tasks of length & area & continuous quantity in solid & liquid, conservation attainment, 67 vr. olds, 8848

movie viewing & threat to freedom to act in similar manner to portrayed acts, attempt to carry out movie-related behavior, 6 12 vr olds 3761

multiple cue use & cue validity, Brunswik lens model judgments, 3rd

vs. 5th vs. 7th vs. 9th graders, 4186

multiple schedule with equal variable-interval schedules in 2 components vs. variable-interval schedule in 1 component & extinction schedule in other, sustained behavioral contrast, 5 8 yr. olds, 252

multiplicative vs. distance approach of quantitative analogues of Heider's balance theory, perceptions of international relations, 6 11 yr. olds from Britain vs. Austria vs. Belgium vs. Greece, 704

muscular microvibrations as indicators of psychic processes, review of testing methods & measuring apparatus, preliminary tests with school-age identical & maternal twins, 3828

nonverbal reasoning, secondary educational performance prediction, children, Fiji, 7726

observed verbal reward & model's response patterns, observational

learning, preschoolers & kindergartners & 1st graders, 6499 observing model's reinforcement schedule & response rate, Ss' extinction resistance & response rate, 2nd graders, 10810

occupational aspirations, Negro & Caucasian 12 yr. old educable retarded boys, 5460

occupational aspirations, Negro & Caucasian 12 yr. old educable retarded boys, 5460

operant conditioning procedure, verb emission as measure of learning grammatical form class, 2nd graders, 1733

operant conditioning, behavior modification, preschoolers & 3rd & 7th & 9th graders, 11908

operant shaping, local muscular relaxation, 5 10 yr. olds, 10829 oral vs. silent repetition of given items vs. counting aloud during interitem interval vs. standard instructions, paired-associate learning, mean CA 21 yr. old mental retardates vs. normal 2nd

6th graders, 2631 organized physical education program, minimum levels of muscular fitness, 10 16 yr. old trainable retarded boys, 5562

orthographic & acoustic & associative memory attributes & age,

recognition, 1st & 3rd graders & college students, 6496 paradigmatic & syntagmatic attitudes, linguistic association styles, children & adolescents & young adults, 2078

parental authoritarianism & social power, family task-role behavior, 8 13 yr. old disturbed vs. normal children & parents, 4603

parental child-rearing practices, child's parental orientation, 10 14 yr. old girls, 6621

parental in-home token reinforcement, social & chore behaviors, 5-10 yr. olds with behavior problems, 11570

parents child-rearing practices & attitudes & social position, child's adjustment, elementary school students, 12061

perceived source of interruption, reactions to response interruption

in marble game & lever pulling task, 3rd grade males, 599
perceptions & explanations & judgments of television commercials, 5 12 yr. olds, 3457

perceptual & conceptual skill training, geometric form discrimina-tion & reproduction, 1st graders, 11990

perceptual cues, additive composition of classes, kindergarten & 1st grade students, 8880

perceptual pretraining, dimensional prepotency in brightness & form simultaneous discrimination, kindergartners & 1st graders,

perceptual-motor training & music, perceptual-motor development & behavior, educable retarded 9-12 yr. olds, 7788

perinatal factors & infant development, predicting scholastic performance, 10 yr. old low socioeconomic black children, 7928

perphenazine vs. amitriptyline vs. perphenazine-amitriptyline vs. placebo, symptom & academic & psychological improvement, underachieving & psychoneurotic 4th-6th graders, 3073

persistent disturbance vs. spontaneous improvement, behavior disordered children, longitudinal study using E. M. Bower's screening device, 9909

personality structure & volunteering behavior, affiliation need & influence on WAIS scores, volunteer vs. nonvolunteer secondary school students, 6800

personality traits & nervous system characteristics, intelligence. school children, 9187

perspective-taking skills vs. correct anticipation of others' thoughts & feelings, 6 12 yr. olds, criticism of H. Borkes' findings, 2093

Piagetian development stages, reversal vs. extra-dimensional vs. nondimensional shift learning, 2nd & 3rd graders, 6608
Piagetian simultaneity & order of events tasks, time conservation,

Afro- & Anglo-American 7 & 9 & 11 yr. olds, 2099

pictorial vs. verbal response requirements, recognition memory, kindergartners vs. 2nd vs. 4th graders vs. high school students,

Popeye cartoon vs. spinach vs. rutabaga-eating models, spinach & rutabaga consumption, 5.5-7.5 yr. olds, 6513

positive peer acceptance, spontaneous improvement in social positions, emotionally disturbed children in regular classes, 10091 positive stimulus & negative stimulus feedback information in discrimination learning, positive vs. negative vs. neutral stimulus recall, 2nd & 3rd graders, 10493

positive vs. negative superlative word combinations, understanding, school age children, 10888

practice, factor structure of cognitive abilities tests, 7th & 8th graders, 6534

preferences to symbolic representation of outgroups, ethnic attitudes, 6 & 8 & 10 yr. old upper-class whites, South Africa,

pretherapy measures of experiencing & adjustment levels, shortterm play therapy outcome prediction, 8 12 yr. old boys referred to child guidance center, 2846

pretraining, conceptual & problem solving ability, middle vs. lower class 4th graders, 2182

primary mental health prevention, schoolchildren, 7353

printer's justification & punctuation, written & oral sentence segmentation perception, 1st graders, 11156

prior agreement vs. disagreement by peer, influence susceptibility by same vs. different peer, 3rd & 4th & 5th graders, 9095

prior commitment, evaluation & imitation of peer model's perceptual judgments, 2nd & 3rd graders, 10417 prior knowledge & conceptual conflict, desire for new information,

6th & 11th graders, 5956

privileged vs. deprived status & introversion-extroversion, cheating, 10 yr. old boys, extension of G. M. Stephenson & J. H. White's study, 8870

problem-solving strategies, impulsive vs. reflective 2nd graders,

procedures of L. Vigotsky vs. B. Inhelder & J. Piaget, free classification, 2 & 4 & 6 & 8 & 12 & 16 yr. olds, 10831

process & content, verbal communication during problem solving, 6

8 yr. olds, 2077 production of personality concept words with negative prefix, semantic differential scale construction, adults vs. 15 yr. olds vs.

10 yr. olds, 2428 programed instruction in auditory vowel discrimination, learning rate & transfer to word recognition, severely hearing impaired 5

11 vr. olds, 11886 prohibitive vs. permissive command from dominant vs. nurturant

adult, deviant responding, 2nd & 3rd graders, 4237 projection of affect after task performance, 9 16 yr. old educable

mentally retarded vs. 10 15 yr. old normals, 7240 Projective Picture Inventory as measure of acceptance of blackness, black male 4th graders, 4341

psychological & intellectual development & school achievement, 6 8 yr. old Rh-immunized children with severe vs. mild hemolytic

disease at birth vs. healthy Ss, 2662
psychological & maternal influence correlates, personality integra-

tion, black vs. white lower- vs. middle-class 5th grade boys, 4086 psychomotor developmental disturbances, clinico-ontogenetic analysis method, school age children, 4869

psychopathologic aspects of hysteria, 10-16 yr. olds, 1017

psychopathology & psychogenesis & therapy, obsessional phobic syndrome, school-age children, 958

psychotherapy to complement home tutoring, disturbed children expelled from school, 9677

punishment consistency, inhibition of hitting, 8 10 yr. old boys, 4195 race & social class, postfeedback evaluation of ability & effort & difficulty & luck as causes of achievement task performance, white vs. black 5th graders, 597

race & socioeconomic background & age, postural equilibrium test performance, school age children, 631

- race vs. value similarity desired social distance & similarity appraisals, middle-class Afrikaan school children, 11006
- Rational-Emotive Therapy, providing emotional education in classroom, 11892
- reaction time & digit-span & time estimation task variability, retardates vs. 1st vs. 3rd vs. 5th vs. college students, 10870
- read vs. verbalized self-directed commands, maze performance, hyperactive boys, 5153
- recall of dichotic auditory stimuli, incidence & distribution of earorder responding, 8 30 yr. olds, 3624
- redundancy level & simultaneous presentation vs. anticipation, paired associate learning, educable retardates vs. 3rd vs. 8th grade students, 4235
- reflection-impulsivity & field dependence-independence cognitive styles & optimistic-pessimistic responses to frustration threat, 6 vs. 8 vs. 10 yr. old boys, 11210
- reflection-impulsivity evaluation dimension, quality of initial decoding & recall & hypothesis generation, school age children, 613
- reflectivity-impulsivity, information-processing proficiency, 5th vs. 9th graders, 4190
- reinforcement of each correct answer, Stanford Binet Scale IQ
- score, 5 7 yr. olds, 5378 relational vs. absolute response reinforcement & verbal mediators, intermediate size transposition task performance, 1st graders,
- relationships between traditional psychometric & Piagetian assess-ment of mental development, school children, 5421
- reliability & validity & predictive validity, French version of WISC adapted to Congolese, 7 15 yr. olds, 5745 repeated testing & contrasts using Wepman Auditory Discrimination Test, phonological discrimination assessment, kindergartners & 1st graders, 4151
- repeated words & parallel structure in compound sentences, shortterm sentence memory, 1st graders, 6527
- representational role obligations & sex differences, distribution of resources, 7 15 yr. olds & 7th 8th graders, 6801
- resolving problems requiring practical intelligence, strategies & conceptual awareness & strategy, 5 7 & 7 10 & over 10 yr. olds, 6564
- response cost & positive reinforcement, discrimination learning, 69 yr. olds, 10851
- response depression & facilitation components, frustration effect in
- instrumental performance, 6 yr. olds, 2161
  revised Pittsburgh Scales of Social Extraversion-Introversion & Emotionality reliability, rural 3rd -9th & urban 5th graders & neglected residential high school students & college students, 10276
- Rocky Mountain spotted fever, intellectual functioning, 6-15 yr. old former patients, 9500
- rotations on Wechsler Preschool & Primary Scale of Intelligence Geometric & Block Design subtest items, 4 vs. 5 vs. 6 yr. olds, 6555
- rote verbal learning, variation in serial position curve as index of relative difficulty, kindergartners & 1st & 3rd & 5th graders, 2067
- rule making participation, rule changing flexibility & generalization, kindergartners vs. 1st graders, 628
- Rutter Behaviour Scales, assessment of psychological & neurological abnormalities, 9 12 yr. olds, 7143
- same vs. reversal conditions, discrimination acquisition & extinction rates, kindergartners & 2nd graders, 4108
  Scale for Rating Behavioral Characteristics of Superior Students,
- rating learning & motivation & creativity & leadership, 7940
- scholastic achievement & interests & peer status & physical growth & abilities, modal-age vs. underage boys, 7756
- school playground games & activities, social participation level & activity content, 4 & 6 yr. olds, 10857
- school truancy & protests against school syndrome, children, 10007 scores on standard Bender Visual Motor Gestalt Test vs. Bender memory vs. 2 Benders modified with extraneous backgrounds, 6 11 yr. old readers vs. nonreaders, 4211
- self-esteem & racial preference, black 7 8 yr. olds growing up since 1963, 2307
- self-esteem, resistance to temptation, male vs. female 6th graders,
- Self-Other Orientation Tasks vs. Coopersmith Self-Esteem Inventory, self concept measurement, 4th graders, 6940

- self-programing of sequential shape input & age differences, shape recognition through aperture in free viewing situation, children with mean ages of 4.6 & 6.6 & 8.5 yr., 6500
- self-reinforcement & self-esteem, locus of control, 9 11 yr. old black males, 10983
- sensory integration remedial program, academic achievement, learning disabled children with mean CA of 7.4 yr., 1264
- sentence contexts, facilitation of noun pair learning, 5th graders,
- sentence production, 10 19 yr. old normals vs. Parkinsonians vs. patients with left vs. right hemisphere brain lesions vs. patients with dementia, 7171
- sequentially-presented shapes under cross-modal vs. intramodal conditions & age differences, recognition, 6 & 8 & 10 yr. olds,
- sets to use time & velocity cues, space estimation, 1st vs. 4th graders
- vs. undergraduates, 627 severe malnutrition during 1st 2 yr. of life, school classwork & social functioning, male school-age children, 7272
- sex & age & intelligence, logical sequence memory span test performance & relationship to reading readiness test performance, kindergarten 2nd kindergarten to 2nd students, 11884
- sex & age differences, personal space, 1st 6th graders, 10892 sex & ethnic & group differences, drawings, 11-12 yr. old Maori vs. Pakehas, 8984
- sex & eye-hand preference, star-tracing performance, male & female 4th graders, 142
- sex & race & age differences, verbal fluency & flexibility & creativity, sighted vs. blind residential vs. day school 6 12 yr. olds,
- sex-role identification, male vs. female 6th graders, 8807 sex-role preference & sex-role adoption, risk-taking model imitation, 1st vs. 5th graders, 8432
- shared contours & complexity of ground & analysis & figure & complete pattern & overlapping lines, embedded-figures difficulty, 6 12 yr. old normals & 11 16 yr. old retardates, discussion of R. Narasimhan & N. Sutherland's structural models, 4825
- short-term individual training in sentence production, improvement of temporal features in speech, deaf children, 9926
- sibling position, number & type & intensity of fears, white vs. nonwhite male vs. female upper-vs. lower-class 3rd vs. 6th graders, 9157
- signal detection theory, auditory intensity selectivity, 7 8 vs. 13 14 vs. 19 20 yr. olds, 6509
- single-vs. multiple-problem vs. no training, novel problem-solving learning, 2nd & 3rd graders, 6491
- skeletal age, fine motor performance, 5 vs. 7 vs. 9 yr. olds, 6533 skin color & physiognomy of dolls, racial misidentification, male vs. female & black vs. white & 4 vs. 5 vs. 6 yr. olds, 6685
- social & tangible reinforcers, spelling accuracy, male 9 10 yr. old special education students, 7715
- social class & cultural background, mental abilities, Israeli 1st graders, 10401
- social class, adjective & adverb usage in writing, Scottish schoolchildren, 2435
- social contact with familiar & unfamiliar Es dispensing material reward, reading task performance, 2nd grade males, 8859
- social interest & normal maturation & mental health, whole face vs. communication organ perception in human aspect figure, 1st grade to college aged Ss from mental institution vs. normal adult population, 2647
- social position & social reinforcement, motor performance, 4th 6th grade males, 3599
- social reinforcement vs. no reinforcement, persistence scores, high verbal low spatial & high spatial low verbal 4th graders, 2074
- sociocultural disadvantage in young children, implications for educational personnel, 5570
- socioeconomic class & cross-modal transfer, auditory-visual integration, 7 & 9 yr. olds, 6465
- socioeconomic status & academic performance & intelligence & self concept & comparative family conditions, American Indian children in Detroit public schools, Michigan, 7819
- socioeconomic status & success vs. failure vs. neutral feedback. contingent vs. noncontingent self-reinforcement, black vs. white 7 9 yr. olds, 624
- socioeconomic status, auditory discrimination abilities, special education vs. normal 8 13 yr. olds, 11499
- soliloquy & task difficulty & age, problem solving, 5 10 yr. olds, 6462

sophistication & culture similarity to European society, eidetic & memory imagery, 8 12 yr. old Australian Aborigines, 728

speaker sex & utterance type, speaker sex identification, 3rd graders, 6554

speech reeducation, IQ, children with marked discrepancy between verbal & performance IQs, 7710

speed concept development, associated language acquisition, 5.5 9.75 yr. olds, 8826

standardized English reading passages vs. equivalent forms rewritten in Negro dialect vs. nonstandardized reading passages in Negro dialect, recall of printed language patterns, Negro vs. Caucasian low-socioeconomic-status 2nd vs. 4th graders, 4189

statistical & mathematical analysis, clinical & subclinical petit mal paroxysms, 5-15 yr. olds, 9337

stimulus ambiguity & familiarization & age & sex, visual exploration & stimulus preference, 2nd & 6th grade & college students, 2073 stimulus characteristics, recognition memory, 5 & 8 & 12 yr. olds &

college students, 610

stimulus class & serial position & single- vs. multiple-match procedure, correct response & response latency in short-term memory, white middle class vs. black disadvantaged lower class 6 7 yr. olds, 8426

stimulus configuraton & presentation order, perceptual exploration, 5 11 yr. old fraternal vs. identical twins, 2149

stimulus figures presentation in passive receiving active instrumental & active verbal procedures, concept learning, 12-13 yr. olds, test of R. Rommetveit's theory, 645

stimulus orientation, form recognition, 3 8 yr. olds vs. college students, 2086

stimulus presentation rate & age, auditory shadowing & information processing in speech production, 12 & 18 yr. olds, 5933

stimulus preview & supplemental visual cues, spatial representation & perceptual motor anticipation in discrete tracking task, 1st-5th graders, 6482

stimulus similarity, size difference judgment response amplitude & latency, 7th graders, 10299

story naturalistic information & relatedness between misdeed & accident interaction, belief in immanent justice, 2nd graders, 2130 strategy types & cognitive factors, maze learning, 5th 11th graders,

structured perceptual-motor training vs. table games, perceptual-motor skills & intelligence test & achievement test scores, 9 yr. old educable mental retardates, 7798

subject vs. verb number rule operation, sentence comprehension, 57 yr. olds, 4140

subjective vs. objective cues, moral judgment, consequence-vs. motive-oriented 2nd & 4th & 6th graders & college students, 6514 success & failure & reward magnitude, contingent vs. noncontingent

self-reinforcement, 7 8 yr. olds, 625 supportive group experience, attitudes & parent child relationships,

mothers of poorly adjusted sons, 11952 surface & deep structure sentence changes & context, same-different

judgments, 6 yr. olds, 2197 synchronous vs. spontaneous rhythmic movement, 9-13 yr. old educable retardates vs. normals, 4675

syntax & vocabulary rules, statement repetition, 6.11 vs. 7.11 vs. 8.10 vs. 9.11 yr. olds, 10889

Talbert's Story Preference Test revised version, validity for assessing curiosity, 5th & 6th graders, 10279

task complexity, horizontal-vertical line representation, 79 yr. olds, 4173

task organization, errors in paired associate learning, 3rd & 4th graders, 6042

TAT stimuli, story length production, 5 7 vs. 8 11 vs. 12 15 yr. olds, 8809

teacher personality & expectancies, emotive & intuitive reactions to & assessment of students, parallels with Mexican-American & Maori children, 7785

teacher's self-concept, child's self-concept, low vs. middle socioeconomic status children, 5567

televised verbal &/or behavioral conforming vs. deviant vs. no peer model, resistance to deviation, 1st & 2nd graders, 11139 television viewing, personality changes, Polish 6th graders, 8791

Terman Attitude-Interest Analysis Test Form A vs. WISC verbal scale scores, written vs. oral efficiency in similar tasks, 10 16 yr. olds, 10046

Test Anxiety Scale for Children, Japanese 10 12 yr. olds, 3518 test validity & reliability, Slossen Intelligence Test, gifted 9 11 yr. olds, 10266

theory & measurement, self esteem development, school age children, 4109

thinking style preferences & age & IQ & ethnicity & socioeconomic status & paired associate learning, school learning proficiency, school age children, 1354

time & space, velocity estimations of motion, 1st vs. 4th graders vs. college students, 6556

time press, verbal originality, 8-11 yr. olds, 6535

token reward vs. response contingent reinforcement & reward

consumability, size discrimination, 3rd graders, 5934
training in taking responsibility for failure & expectations & attribution of failure, alleviation of learned helplessness in problem solving, 8 12 yr. olds, 7783

training task of timed correct sound production of words while reading at increased rates of speech, conversational speech in home & school & simulated home environments, 8 11 yr. olds, 11536

transcendence index & word count & response organization & creativity, TAT vs. Children's Apperception Test vs. human figures Children's Apperception Test, female 2nd graders, 6979

Twenty Questions game, problem-solving strategies, reflective & impulsive & fast-accurate & slow-inaccurate 1st & 3rd & 5th graders, 10803

underachievement in reading, aspirations & parental expectations, children, 10052

uniocular & alternating squints, visuoperceptual & visuomotor & scholastic skills, 8 yr. olds, 5420

verb vs. conjunction verbalization & side by side vs. interactive line drawings vs. interactive photographs, paired-associate recall & recognition, kindergartners & 3rd graders, 2126

verbal ability & tentative statements use, Piagetian & language-free problem solving task performance, 6th grade boys, 4146 verbal ability, foreign language learning, school age children, 8863

verbal coding & human vs. stimulus modeling treatment, vicarious acquisition of novel conceptually guided behavior, 2nd graders,

verbal intelligence & teacher's ratings of school achievement, internalizing & generalizing syntactic rules, 5 6 yr. olds in Dublin vs. Boston, 10481 verbal motivation, level of aspiration, disadvantaged 9 12 yr. old

Negro boys, 5549 verbal reward level, multitrial vs. delayed free recall, 2nd & 5th

graders, 8425

verbal vs. visual dimension highlighting, discrimination & transfer learning, preschoolers vs. 2nd graders, 4260 verbalization & reinforcement, concept-solution efficiency, intro-

verted vs. extroverted 11 & 12 yr. olds, 8424 verbalization of model's behavior, vicarious learning of abstract vs.

conceptual rule & generalization & retention, 5th graders, 4262 vicarious positive vs. negative reinforcement, task choosing, 1st vs.

3rd graders, replication of Barnwell & Sechrest's study, 6460 viewing comic strips, determining emotion-producing situations, 8 yr. old boys, 10834

vigilance & emotionality, posture variations, 5 & 7 & 9 & 11 yr. old

normal & amblyoptic girls, 969 violent toys, aggression, 5.5-6.4 yr. olds, 8841

visual distraction, visual attention during vigilance task, aphasic vs. nonaphasic 67 yr. olds, 10377

visual stimuli symmetry, pattern reproduction, school age children, Zambia, 5828

white & black voices, I.Q. scores, black & white 1st 4th graders, 10426

WISC subtest administration on different test occasions, intellectual differentiation, 6 11 yr. olds, longitudinal investigation, 2158 word meaning recall, lexical structure, 5 6 vs. 11 12 vs. 18 20 yr. old

males, 8834

mates, 8834
word-matching & directed word association tasks, syntagmaticparadigmatic shift, 7 yr. olds, 4119
World Test game technique, determining developmental level, 6 9
yr. olds, 6528
WTZ, creativity screening, 7 15 yr. old schoolchildren, 9205
XYY syndrome, 10 19 yr. old antisocial & asocial & aggressive
behavior disordered inpatients & juvenile delinquents, 4665
2-choice discrimination task & visual angle, pictorial size-in-depth

2-choice discrimination task & visual angle, pictorial size-in-depth relations perception, 4 vs. 7 yr. olds vs. adults, 10849

School And College Ability Test feedback of School and College Ability Test results, academic achievement & self-estimates of ability, 6th graders, 5408 School Attendance

family & school achievement characteristics, low-income elementary school students with high absenteeism rates, 9976

IQ & school grade & grades repeated & academic standing & school attendance, hyperactive vs. normal elementary school children, 5 yr. followup study, 7901 like vs. dislike for school, ability & achievement & attention & locus

of control & absenteeism & tardiness, black inner-city 2nd & 3rd vs. 7th garders, 10024

open elementary school to junior high school transition, school grades & attendance & discipline & satisfaction, 6th graders, 7900 self concept, school attendance, truant vs. nontruant students, 10011 School Club Membership

#### School Counselors

adjective check & problem lists, perceived differences between attractive & expert student personnel workers, college students,

community mental health & retardation consultation to public schools, perceptions & expectations of case problems, teachers & school counselors & consultants, 9611

counseling & consulting & coordinating role behaviors, elementary school counselor, suggestions for communication with teachers & students, 7856

counselor role & function, job satisfaction, school counselors, survey, 11285

ethnic background & vocational-educational aspirations & socioeconomic status & sex, perceptions of secondary school counselors' functions & personal attributes, high school graduates, 3246

field orientation & accurate empathy, college counselors, 9237 functions & preparation, elementary school counselors, book, 3180 general college counselor sex & topics discussed, willingness to

make & keep appointments, male vs. female undergraduates, 9858 multifactor intelligence test information use, secondary school counselors, 7973

participant observing, 1st-hand knowledge of student & teacher behavior & interaction, elementary school guidance counselors,

perceived functions of special education counselors, counselors & school administrators & special education teachers, 9891

perceptions of community college environment, directing highschool students to higher education institutions, community college counselors vs. students vs. high-school counselors, 1297 role changes, school counselor, 3303

school counselors as consultants for educational reform, book, 3167 shift of emphasis from personality & emotions to cognitive aspects, school social work services, 1115

simulated social skill training with videotapings & group discussion, group problem solving, elementary school students & counselors, 11852

specialist role in psychological education working with curricula & group process & teacher, programs emphasizing problem solving & perception of behavioral causes, school counselor, 10014

videotape focused feedback, facilitative genuineness in cross-racial counseling, black & white male & female school counselors, 10106 School Dropouts

counseling, self concept & academic achievement, disadvantaged dropouts, 9995

educational & occupational attitudes, 14 17 yr. old employed school dropouts, 7997

ethnic group & family income & working status & broken home & religious activity & school failure & dropout & behavior,

recidivism, juveniles referred to Juvenile Court, 9313 frustration in attempts to actualize abilities, school leavers, 5386 guidance & counseling center model based on needs, prevention of

school dropouts, disadvantaged inner city Negro youth, 9951 home background & relationships with parents & personality attributes & vocational behaviors & parents' educational level &

father's occupation, 10th 12th graders & dropouts, 3337 impulsiveness in performing task related to engineering, prediction of persistence, engineering school freshmen, 7750

intercorrelations among dropout & alcohol problems & jail & heroin use & divorce, actuarial evaluation of causes & consequences of deviant behavior, young black men, 7274

parent's perceptions of schooling problems, IQ & social maturity, school withdrawal, retarded children & parents, 11995

person-role fit & actual & perceived interpersonal fit, voluntary withdrawal from adult socializing organization, Coast Guard Academy students, 3298

planning preventive services, recidivism & postdelivery school withdrawal, followup study, 7427

School Interest Inventory, identification of potential delinquents & use for preventive purposes, female & male delinquents vs. nondelinquents, 4975

self-development, academic success & nonsuccess in college & high school, 5556

teacher attitudes & personality characteristics & teaching behaviors, effectiveness with dropout students, teachers & dropout students,

Tennessee Self Concept Scale & IPAT Culture Fair Intelligence Test

scores, school dropouts vs. persisters, 5330
School Enrollment (See also School Attendance, School Expulsion, School Suspension, School Truancy)

schizophrenia, tuberous sclerosis, 55 yr. old male patient hospitalized for 33 yrs., 2639

Scope

chlordiazepoxide & pentobarbital & chlorpromazine & methotrimeprazine & imipramine & morphine & d-amphetamine & scopolamine & LSD-25 & phencyclidine, rate of hemicholinium-3 induced brain acetylcholine depletion, rats, 3877

chronic diisopropylfluorophosphate & subsequent scopolamine & methyl scopolamine & a-methyl-p-tyrosine, drinking behavior,

d-amphetamine & scopolamine & chlordiazepoxide, suppression of self-stimulation by tetrabenazine & physostigmine & chlorpromazine & pentobarbital, rats, 3939

ECS & scopolamine & physostigmine, acquisition of 1-way avoidance task, rats, 10610

parachlorophenylalanine & scopolamine & naloxene & a-methyl tyrosine & methscopolamine & atropoine & morphine, body temperature & activity level, morphine tolerant & nontolerant rats, 3938

physostigmine & scopolamine, operant brightness discrimination, rats, 6288

scopolamine & benzacine & galanthamine, passive avoidance conditioning & memory, mice, 10634

scopolamine & d-amphetamine, avoidance facilitation, rats, 3854 scopolamine & scopolamine methyl nitrate & amphetamine &

lorazepam & chlorpromazine, conditioning of food aversions, rats. 3858 scopolamine hydrobromide & methylscopolomine hydrobromide,

passive avoidance response retention, mice, 390 scopolamine vs. treatment withdrawal, acquisition & performance, rats, 8594

scopolamine, acquisition & extinction performance, rats, 1909 scopolamine, passive avoidance learning & retention & locomotor

activity, male mice, 462 scopolamine, spatial double alternation, rats, 8688

scopolamine, spontaneous motor activity & avoidance response acquisition, male albino rats, 444

scopolamine, u-shaped retention curve of partially learned shuttle avoidance response, rats, 3969

serotonin & amphetamine & scopolamine, habituation of exploratory activity & spontaneous alternation in maze, rats, 8680
Scopolamine Hydrobromide (See Scopolamine)

Scores (Test) (See Test Scores)

Scoring (Testing)

application of C. Hoyos' scoring system to D. van Lennep's Four

Picture Test, handicapped patients, 8215

Birnbaum's 3-parameter logistic model, computer program for estimating item characteristic curve parameters, 10261 congeneric measurement model, estimating true scores using group

membership, 8254 counting ?"-responses, scoring Extroversion & Neurotic Tendency

& Rigidity Questionnaire, male students, 9163 differential vs. equal weighting, classification of Ss by test of knowledge, 8007

frequency tables, Rorschach response scoring, book, 2469

learning in relation to teaching effectiveness, Group Related Evaluation Weights test scoring technique, 5343

modified quadrant analysis & combining Ghiselli's d" technique & directional strategy, moderator search strategy problems & pratfalls, criticism of N. Abrahams & E. Alf, 32 modified quadrant analysis & combining Ghiselli's d" technique & directional strategy, moderator search strategy problems & pratfalls, reply to M. Dunnette's criticism of N. Abrahams & E. Alf's article, 20

necessity for correlation between different scores to be near zero & use of alternative models, 2-predictive moderated regression system, 61

Object Sorting Test, critical evaluation of scoring systems, 3509 random guessing & partial information & misinformation, itemscoring formulas, 3506

raw score standardization prior to correlation, 1518

raw scoring vs. formula scoring, predicting coached performance ratings, different occupational groups in chemical corporation,

regression equation & residual score & validity coefficient misuse & incomplete evaluation of contribution to prediction, prediction using moderator variables, 19

Rokeach categories vs. open-ended responses, dogmatism scores, college students, 11261

Rorschach records & Rorschach scoring categories vs. Wechsler-Bellevue Test Form I, Klopfer scoring categories factorial unity & intellective factors, normal Ss, 2465

scale membership & scoring direction by scale & item, Personal Orientation Inventory, 9208

scoring based on scales corresponding to Holland's occupational types, SVIBs, management students, 8045

self-scoring procedures, increasing test reliability, graduate students, 3513

true ability & guessing success relationship, test variance, 5772

Scotland

age & grade level & country & school system & sex, creative discontinuity, 8 12 yr. olds, England & Scotland & Germany, 6569

macular & retinal pigmentation & stimulus color, Muller-Lyer illusion susceptibility & space perception, Scottish vs. African Malawi university geography students, 119 sex & age differences, self-poisoning, Hobart, Australia vs. Ediphyth Scotland 4720.

Edinburgh, Scotland, 4720

suicide rates in Scotland vs. England & Wales, 9389

token economy programs in English & Scottish & Irish hospitals, psychiatric patients, 11792

Scotopic Stimulation

achromatic zone for red light in fovea & green light in periphery, threshold mechanisms for scotopic & photopic retinal system,

alternating brightness & darkness dominance, stroboscopic phenomena, 5885

interval between pretest & test stimulation, scotopic contrast hue changes, 163

photopic vs. scotopic stimuli, visual evoked response component responsiveness, 10546

prestimulation duration & additive opponent hue & wavelength, scotopic contrast hue, 164

Scratching

self-modification, suppression of inflammatory scratching, 21 yr. old female, 11804

Screen Test Auditory Percep Skills

Screening (Job Applicants) (See Job Applicant Screening) Screening Tests (See Selection Tests)

Sculpturing

sculpture workshop for teacher candidates & disadvantaged children, teacher attitude change & design judgment & children's self concept, 11939

SD (Statistics) (See Standard Deviation)

individualized instruction in learning language art & math skills, achievement & self-esteem, 5th graders, 3113

induction of threat to self-esteem, arousal & resolution of affect, college students, 6976

institutionalization, self-esteem, federal narcotic hospital inmates,

intellectual ability & self-esteem & self-concept & father identification, attitudes toward crimes without victims, college students,

internal-external control & authoritarianism, interpersonal trust & self-esteem & social desirability, concern about overpopulation &

intention to limit family size, nursing & college students, 6676 itinerant teacher observations, learning vs. teaching disabilities, academically-troubled children, 9994

justified self-interest, responsibility for suffering, dyads, 9054

magical beliefs & regressed self-images, self-esteem regulation, narcissistic patients, 7118

masturbation & sexual intercourse frequency, self-esteem, undergraduates, 6688

maternal attitudes & behavior, self-esteem & overall adjustment, 8-14 yr. old children with birth defects, 4679

midsemester integration stress, state & trait anxiety & self-esteem, white vs. black male vs. female 4th 6th graders, 9893 modification of low self-confidence, behavioral changes, 5th & 6th

graders, 3160

moral vs. competence vs. indeterminate value system, self-esteem, aged people, 2095

mother vs. father vs. child perceptual style, child's self esteem & perceived parental behavior, 10 12 yr. old white middle class sons, 9185

need for self-esteem, aged, literature review, 4210

original level of self-esteem & change message complexity, selfesteem changes, 6917

perceived success & failure at learning task, self-esteem, nursing students, 11992

personal assessment feedback counseling, discrepancy in actual-& ideal-self-concepts & self- & other-acceptance & internal-external control, college students, 5321

personal vulnerability & emotional distress, bodily complaints, medical students, 1019

positive vs. negative feedback with varied sequence & self-esteem gain & loss, interpersonal attraction, college students, replication extension of E. Aronson & D. Linder's study, 809

power control in simulated organizational setting, self-esteem & esteem for others, college students, 4507

presentation of potential disclosure target as high vs. equal in status & intrusive vs. reflective in interpersonal style, interpersonal trust & self-disclosure, high vs. low self-esteem Ss, 6803

race & status & attachment to law & to parents, self-esteem & official & personal delinquency evaluations, junior & senior high school students, 4738

receptivity & egocentrism & self-acceptance, degree & direction of aggression, 10th grade lyceum students, 875

reliability & applicability, Self-Esteem Inventory, prison inmates,

religion & marital status & sexual behavior preferences, self-esteem & alienation, homosexual males, 11386

responsibility to self & relationship to environment, 2487

safety- vs. esteem-oriented motivation, leader-follower role differentiation, college student triads, 4432

self-acceptance, acceptance by peer intimates & nonintimates, college sorority residents, 6872

self-consistency vs. inequity dissonance, undercompensation, college students, 11079

self-development class & positive value statements about self, selfesteem, college students, 12052

self-disclosure & self-acceptance of each spouse, empathy & marital need satisfaction, married couples, 814

self-disclosure before & after encounter group experience, selfesteem change, 4398

self-esteem & family communication & marital satisfaction, 14 & 15 yr. olds, 10878 self-esteem & inequity dissonance, input & outcome undercompen-

sation, college students, 3408

self-esteem & issue familiarity, attitude change occurring prior to exposure to persuasive communication, college students, 9029 self-esteem & public vs. private situation, ability level of person

chosen as comparison standard, undergraduates, 2390 self-esteem & racial preference, black 7-8 yr. olds growing up since 1963, 2307

self-esteem & self-consciousness & preoccupation with self & self concept stability, self concept development, 3rd-12th graders &

adolescents, 2179 self-esteem & specific self-confidence, persuasibility, male college

students, 4436 self-esteem vs. needs for social inclusion & control of others & for

affection, 15 18 yr. old girls, 4524 self-esteem, intelligence & reading achievement & attitudes, 4th

grade Pima Indians, 5400 self-esteem, resistance to temptation, male vs. female 6th graders, 4487

self-evaluation accuracy vs. self-esteem concern, comparison person choice, 4457

Self-Other Orientation Tasks vs. Coopersmith Self-Esteem Inventory, self concept measurement, 4th graders, 6940

self-reinforcement & self-esteem, locus of control, 9-11 yr. old black males, 10983

sensitivity laboratory experience with manipulation of self-disclosure & feedback, self-esteem, college students, 4443 smoking vs. nonsmoking, self-esteem, college students, 6995

socioeconomic background & race & sex, self-esteem & school & peer group & family orientation attitudes, white vs. black vs. Mexican-American vs. Oriental 4th 6th graders, 11980

team vs. individual student teaching, attitudes toward teaching & feelings of competence, elementary education students, 11902

theory & measurement, self esteem development, school age children, 4109

Upward Bound summer program, locus of control & self-esteem, high school students, 7850

Vita-Erg therapy, self-esteem & responsible behavior increase, deteriorated psychotic female patients, 1232 Vocational Exploration Group experience, control expectancy &

self esteem & vocational maturity, high school students, 11873 workshop in Christian maturity-growth & caring using laboratory training, self-esteem & attitudes toward religion & religious institution, participants in Presbyterian adult education program, 5545

Self Evaluation

Purpose For Your Life" instrument, self assessment & future planning, secondary & college students, 1274

actual & ideal self-descriptions, occupational preferences, junior & freshmen high school students, 9982

adjective intrajudge agreement, self-evaluation scale of endogenous depression, analyst & patient, 9744 aging & sex & personal background & characteristics, self-image & involvement & self-evaluation & freedom & values, 45 70 yr. olds,

audience vs. no audience, concept-attainment task performance & perception of performance, high vs. low self-esteem female college students, 873

closed-circuit TV & videotape self-confrontation & dyadic confrontations, self-assessment, student teachers, 5307

communication centrality, perceived effectiveness & job satisfaction, high school teachers, 5507

dominance-activity & liking in self-analytic group, self-referent

accuracy, high vs. low participators, 9076 educational attainment, self-evaluation of competence, adults, 3346 efficient information-gathering & self-report techniques & mental health technicians & objective data combinations, decisionmaking in mental health services, 2929

experimental manipulation & self-perception of relative competence, conformity in group social communication task, Canadian 8th 10th vs. 11th 13th graders, 6804

feedback of School and College Ability Test results, academic achievement & self-estimates of ability, 6th graders, 5408

feedback, congruency vs. positive effects in reaction to personal evaluation, college students, 9032

feminine sex-role stereotype, psychological impact on redefinition of self & dissatisfaction with traditional sex expectations, women, 2301

high approval motivation, differences in reported self-esteem, 11219 increased intensity of self-confrontation within growth groups, facilitating realistic self-appraisal, 11104

intensive group psychotherapy, counseling readiness & self-evalua-tion changes, patients, 9715 Interpersonal Check List & Jourard's Self-Disclosure Scale, self-

described personality & sex differences, college students, 9149

interview with vs. without brief videotape self-confrontation, affect & self-description & self-evaluation of performance, high vs. low

self-satisfaction college students, 6959
model competence & stringency of modeled self-standards,
willingness to adopt high achievement standards for self-reward when model-imposed, children, 2364

need for achievement & locus of control, performance & level of aspirations & self-ratings following success or failure, college students, 6937

open ended interview given on 1-shot basis, residential treatment community's self-reflections, staff & oldest children in treatment, 11542

ordinal birth position & psychological need structure & self-evaluation, nonverbal rigidity, 2508

past & future academic performance & aptitude, self-made academic predictions, junior college students, 5309

perceived motivation & role variations & stimulus person's perceived trustworthiness, attribution of personal characteristics, college students, 6836

personality characteristics, validity of academic information selfreport, high school students, 8014

personality traits & self-evaluation, creative performance, college students, 11249

present personal time perspective as self-assessment at present vs. 5 yr. retrotension vs. 5 yr. protension, 20 88 yr. olds, 2085

prexamination confidence judgments & posttest subjective performance ratings & causality attributions before vs. after knowledge of

results with test outcome, college students, 1285 prior reward & evaluation by E, self-reinforcement & selfevaluation, 792

psychophysical methods vs. subjective scales, fatigue, 3551

punishment by withdrawal of love & varied warmth vs. withdrawal of material reward & varied values, self-criticism, kindergartners & 1st graders, 10846

race & social class, postfeedback evaluation of ability & effort & difficulty & luck as causes of achievement task performance, white vs. black 5th graders, 597

ratification by means of forced choice self-ratings & numerical & verbal abilities, extroversion-introversion construct, 4519

reality testing, attitudes & self-evaluation, 9th graders, 9935

response set variability, judgments in self-descriptive statements, 13 16 yr. olds, reference to S. Messick & T. Herrman's ideas, 11233 self-appraisal, instruction improvement, teachers, 7944

self-ascription of traits & roles, accurate self-referent behavior, college students, 2513

self-assessment scales comparison, high school students, 4531 self-confrontation via closed-circuit TV in teacher education, analysis of student teachers' self-assessment & assessment by pedagogical experts, report of data from previous study, 11835

self-evaluation accuracy vs. self-esteem concern, comparison person choice, 4457

self-evaluation of adequacy, perceived body size, male vs. female children at different developmental stages, 4121

self-evaluation of personal attributes & work behaviors, vs. perceived reality vs. objective reality, employability, vocational rehabilitation clients, 1462

self-evaluation punitive point system, classroom behavior, 7th & 8th graders, 10060 self-monitoring, oral class participation & daily grades & frequency

of extraclassroom visits to teacher's office, potential high school dropouts, 5411

self-rated health, aged, 6619 self-rating vs. multi-item scale testing, personality trait measurement, hospitalized patients, 7314

self-reinforcement determinants, discrimination learning, children,

self-reported vs. actual GPAs, high school students, 7730

self-reporting & peer-reporting, room cleaning behavior, 12 16 yr. old boys in behavior modification program for delinquents, 11600 self-reports of arousal, activation measurement, college students,

stability of & self-evaluation on Freiburg Personlichkeitsinventar scales, students & neurotic patients, 8243

structured self-anchoring scale, teaching effectiveness perceptions,

elementary & secondary teachers, 7753 subjective importance of aspects being rated, body image & self concept, 16 21 yr. old male technical students, extension of G. M. Rosen & A. O. Ross's work, 7008

task interruption with noncompletion predefined as success or failure or neutral, self-blaming responses, 9 vs. 12 yr. old educationally handicapped males, 5449 teacher reinforcement, deviant classroom behavior reduction & self-

evaluation, elementary pupils, 5334

therapist empathy, client self-exploration & therapy outcome, counseling & clinical psychologists at university counseling center & their undergraduate clients, 2537 vocational developmental outreach program, occupational information seeking & vocational alternatives & attitudes & self ratings,

male college students, 11861

white vs. black model depicting liberal vs. stringent self-reward behavior standards following reported task performance scores, task performance & self-reward behavior, black vs. white 15 17 yr. old institutionalized delinquent males, 1003

working behind vs. ahead of vs. even with 2nd person, rate of observing personal & partner scores during parallel work situation, high school students, 6876

written composition analysis, self-evaluation, imprisoned youthful delinquents, 9295

2-factor theory, prediction of self-report performance effects, 3447
Self Image (See Self Concept)
Self Inflicted Wounds

droperidol, agitation & self-destructive & combative behavior. emergency room patients, 9701

interpretation as narcissistic infantile personalities with masochistic trends, hospitalized patients with minor self-inflicted cuts without suicidal intent, 7247

malingering & factitious illness, 30 yr. old female with self-induced phlebotomy, 2763

prevalence & types & suggested research, self-mutilating behavior & relationship to suicidal behavior, 1008

psychoanalytic treatment & developmental factors, attempted suicide & self-mutilation, adolescents, 7458
Self Mutilation (See also Head Banging)

behavioral analysis of etiology, self-injurious behavior, 9278 duration of isolation period, suppression of aggression & tantrums & self-destruction, 721 yr. old institutionalized retardates, 1252 electroshock aversion therapy, self-mutilation, severely mental defective females, 4994

- milieu therapy, self-injurious behavior, institutionalized elderly,
- multifactorial treatment approach, teaching adaptive anger respon-
- ses, 19 yr. old self-burning female, 11731 observation recording technique, analysis of self-injurious behavior-
- environmental relationships, 17 yr. old male retardate, 11376 positive & negative reinforcement by shaping, self-injurious behavior, rats, 10774
- prevalence & types & suggested research, self-mutilating behavior & relationship to suicidal behavior, 1008
- self-defense against police corporal punishment, self-mutilation, Peruvian prisoners, 2597
- stimulation-seeking motivation, escape attempts & disobedience & fighting & self-mutilation, 14 17 yr. old institutionalized delinquent girls, 2619
- Self Perception
  Adjective Check List & self-rating schedule, self-perception, graduate students, 9173
- adolescent transformation of self & development, 10932
- anxiety & neuroses self-awareness & psychotherapy, contemporary society, 7448
- assumption of responsibility as teacher-aide in work program, selfperception changes, high school students, 11874
- attitude & aesthetic preference differences & importance & trials, deprivation of need for uniqueness effects, 11265
- attitude-discrepant behavior consequences, self-perception theory & attitude change, undergraduates, use of J. Bem's interpersonal replication method to study J. Cooper & S. Worchel's findings,
- attitudes & tastes & interests & work or studies & money & possessions & personality & social characteristics & body & sex. self-disclosure & perception of self-disclosure, parents & teenagers, 586
- aversive stimuli changes, self-report overt behavioral measures of fear, 7548
- axiotherapy in groups, changes in feelings of worthiness & selfesteem & self-actualization, 11788
- CA & intelligence & actual height & perceived height, human figure-drawing size, learning disabled children, 11338 choice & initial attitude salience & counterattitudinal behavior
- salience, cognitive dissonance vs. self-perception theories, college students, 11129
- choice between 2 equally attractive organizations, postdecision dissonance reduction & self perception, adult male students, 10155
- classification & ordering, responses to question "Who am I?", 11240 closed-circuit TV & videotape self-confrontation & dyadic confrontations, self-assessment, student teachers, 5307
- concept of self & relationship to perception, 11247
- configurational analysis of core & ideal & remembered & TV self,
- schizophrenic vs. depressive vs. neurotic patients, 9347 discriminating counselor interpersonal skills in self & other, clinical vs. counseling graduate students, 7044
- draft lottery vs. laboratory analogue, attitudes toward alternatives & attribution of responsibility for outcomes to policies leading to
- lottery participation, 19 yr. olds & college students, 4265 experimental manipulation & self-perception of relative competence, conformity in group social communication task, Canadian
- 8th-10th vs. 11th-13th graders, 6804 feelings of competence & pressure to conform, compliance & manipulation awareness, 4439
- group encounter & counseling & study skills instruction, academic performance & self-attitudes, underachieving college students, 10077
- helping role training procedure using E. Beier's interpersonal communication model, self-perception & students' perceptions, dormitory advisors, 9873
- high vs. low conflict & unknown vs. known decision consequences, free choice behavior, college students, application of D. Bem's self-perception hypothesis & interpersonal simulation technique to J. Jecker's conflict experiment, 6878
- human relations workshop, self-perception & social perception & interpersonal interactions, noncommissioned officers, 9051
- interview with vs. without brief videotape self-confrontation, affect & self-description & self-evaluation of performance, high vs. low self-satisfaction college students, 6959
- Maudsley Personality Inventory vs. verbal description of perceived self, college students, 6918

- meta-attitude manipulation, attitude change in psychotherapy, psychiatric inpatients, 11622
- participation in training groups, self-perceptions, management personnel, 10178
- partner's failure or success & task involvement & aspiration level & sex differences, perception of own success or failure, 11058
- perceived difficulty of task & S's perception of ability & success vs. failure experience, performance intensity, relationship between attributional theory of performance & Atkinson's theory of achievement motivation, 6006
- perceptions of internal-external control, superior academic achievement, 6-12 yr. olds, 11871
- perceptions of scholastic & professional future & family & interpersonal relationships & forms of reactions to circumstances & events, urbanized Dakar adolescents, Senegal, 6593
- predictive value of perceptual reactance, self-image discrepancies, college & graduate students vs. prisoners, 11452
- prior attitudes, postmanipulation attitudes in forced-compliance, college students with extreme vs. neutral attitudes, 11035
- regression analysis of self-reported life changes, illness prediction improvement, U.S. Navy enlisted men, 4820
- self-appraised vs. stereotyped attitudes about fun & happiness, young vs. middle-aged vs. old adults, 8798
- self-consistency & ability expectations & gain-loss theory, decision
- self-ideal discrepancy & presentation order & favorability of content of personality interpretations, acceptance of information about
- self-perceived & ascribed characteristics, Mexican-American & Anglo & bicultural college students, 8970
- self-perception & interpersonal relationships, academic exclusion, college students, 11993
- self-ratings & roommate's ratings congruency, satisfaction with roommate, college students, 9030
- semantic differential & objective test battery & self & other judgments, personality type on polarity profile, college students & male high school graduates, 11254
- sensitivity training, self-actualization & clarity of perception of self & others, 6871
- sex differences, perceived real vs. ideal vs. social selves, institutionalized delinquent vs. non-institutionalized non-delinquent children in Catholic facilities, 11402
- ex of E & S & body percept, body part verbal concept identification, undergraduates, 4533
- status consistency, sighting unidentified flying objects, evaluation of status inconsistency theory, 6714
- tactile discrimination & work recognition & visual perception cojudgment & visual perception instructions bias & political & scientific & social & literary text evaluation & personality selfinventory, prestige suggestibility, female social workers vs. male students, 9204
- teacher perception & self-perception, 13 14 yr. old students vs. teachers, 9822
- teachers ranking of terminal & instrumental values, self & social perception, college teachers, 11878
- Self Realization (See Self Actualization)
- Self Reinforcement
- introspective observations over time, self reward decision making,
- graduate students, 5920 self & experimenter regulation & reward & punishment & internal & external locus of control, performance, male juvenile delinquents, 11811
- self- vs. externally regulated reinforcement, disruptive classroom behavior, 1st & 2nd graders, 11841
- self-development class & positive value statements about self, selfesteem, college students, 12052
- self-modification, suppression of inflammatory scratching, 21 yr. old female, 11804 self-reinforcement & self-esteem, locus of control, 9 11 yr. old black
- males, 10983
- soliloquy & task difficulty & age, problem solving, 5 10 yr. olds,
- taste vs. pharmacological rewarding properties, self-administration of hashish, rats, 8717
- Self Respect (See Self Esteem) Self Stimulation
- bipolar tungsten electrode mapping of mesencephalon, electrical self-stimulation & behavioral & motor responses, rats, 275

chemical manipulation & drive system excitation & site of stimulation, physiological bases of drive & punishment systems during self-stimulation, rats, 8667

d-amphetamine & scopolamine & chlordiazepoxide, suppression of self-stimulation by tetrabenazine & physostigmine & chlorpromazine & pentobarbital, rats, 3939

dextropropoxyphene self-administration, rhesus monkeys, 10685

double-pulse stimulation, self-stimulation brain anatomy, rats, 6260 electrical self-stimulation of brain vs. conventional reinforcer, motivation strengths, mice with electrodes in lateral hypothalamus vs. septum, 1930

electrical stimulation of lateral hypothalamus vs. midbrain tegmentum, brain catecholamine concentrations & adrenocortical activation of self-stimulatory vs. aversive behavior, rats, 433

electrical stimulation of medial &/or lateral hypothalamus, barpress self-stimulation & shuttle-box preference & cardiovascular classical conditioning, rabbits, 8673

environmental temperature stress, electrical vs. radiant heat selfstimulation of preoptic & lateral hypothalamus, rats, 3975

food deprivation, lateral hypothalamic self-stimulation, rats, 10672 forced stimulation vs. self-stimulation, excitability of medial forebrain bundle neurons, rats, 8631

hypothalamic self-stimulation, strength-duration, rats, 399

insulin subcutaneously injected, lateral hypothalamic induced feeding, rats, 8593

intracranial electrode implantation in locus coeruleus in floor of 4th ventricle, electrical self-stimulation, rats, 369

lithium carbonate, self-stimulating behavior & hypothalamic levels of norepinephrine, rats, 1929

mapping of frontal cortex for self-stimulation, rats, 1936

posterior hypothalamic stimulation, conditioned suppression of food-reinforced barpressing behavior, rats, 6290

rewarding electrical self-stimulation of brain, focally induced electrical analgesia & mediation by common set of fibers in medial forebrain bundle, rats, 3949

self-licking of nipple lines & genital pelvic region & female hormone treatment, mammary gland development & grooming patterns, pregnant & ovariectomized virgin female rats, 6333

self-stimulation & its suppression, discrimination learning, autistic

children, 11422 self-stimulation of ventromedial hypothalamus, positive correlation of stimulation threshold with thresholds to stop feeding & escape,

# Selfishness

modeling & direct reinforcement, generosity, young children, 2165 personality traits relevant to cooperation in tractor production mutual choice, coworkers, 1461

## Semantic Differential

across- vs. within-concepts factor analyses, overcoming problem of concept-scale interaction in semantic differential research, 2218 combined affective value of color & form, analytical study using

Osgood's 3 dominant factors, college students, 6903

construction & validity & reliability, semantic differential for inmate concerns, inmates & college students, 8197

evaluation & potency & density & orderliness & reality & familiarity, nonverbal semantic differential, 2396

factor structure & imagined contexts, connotative meaning of social interaction concepts, college students, 9082

Likert-type & semantic differential scales, measuring attitudes

toward police, middle & upper class college graduates, 8959 low vs. middle socioeconomic status, semantic differential ratings of

concepts, 5th graders, 837 meaningfulness vs. meaninglessness of semantic differential scale,

extremity of ratings of game behavior of opponents, 14 16 yr. olds, replication of D. O'Donovan's study, 6835 methodological criticism of semantic differential studies, establish-

ing structure for concepts class, examination of T. Reed's study,

musical stimuli, artists' semantic differential ratings of Ss' pastel drawings, nonartists, 9133

preferred qualities of vegetable oil, Pakistani housewives, application of semantic differential, 10146

problem of concept-scale interaction in semantic differential research, criticism of J. Bynner & D. Romney's solution, 2264

production of personality concept words with negative prefix, semantic differential scale construction, adults vs. 15 yr. olds vs.

questions concerning some assumptions, semantic differential, 3505

semantic differential & objective test battery & self & other judgments, personality type on polarity profile, college students & male high school graduates, 11254

semantic differential analysis of familiar concepts, normal & neurotic 17 20 yr. olds, 11490

semantic differential method vs. 6-point scale rating method, 3-color harmony & impression formation studies, 3521

semantic differential ratings of technical & general terms, intergroup communication in specialized management subculture, experienced vs. inexperienced officers vs. inexperienced airmen in management training course, 3401

semantic differential ratings of work & education & dependency concepts, predicting vocational rehabilitation outcomes, physically disabled Ss, 7664

semantic differential technique, mood evoked by iambic vs. trochaic vs. anapestic vs. dactylic poetic feet, implications for poetry therapy & interpretations of poems written by patients, 2433

semantic meaning of self & perceived work expectation, need to work & level of occupational aspiration, disadvantaged educational & social service paraprofessional trainees, 3437

similarity & semantic space judgments of random shapes, college students, 5855

social class, semantic differential social-psychological concepts ratings for others & selves, white undergraduates, 4415

test abstractness vs. concreteness, semantic differential ratings,

lower class 9th graders, 5299 varied levels of beliefs & race with primacy, evaluative semantic differential scales & behavior differentials, college students, 11026 voluntary vs. randomly presented semantic construction, personality structure differentiation, 18 50 vs. 18 30 yr. old Belgians, 9172

Semantic Generalization good bad connotation & differential vs. single cue training, semantic generalization, female high school & college students, 3727

phonetic vs. semantic memory organization bases & sound vs. meaning facilitative instructions & age, verbal false recognition error occurrence, lst vs. 5th graders, 585

biosensory stimulation, semantic processing, college students, 8419 computer model, learning semantics of language in which syntax is known, 7980

computer simulation & human information processing & inference. semantic memory, 5947

conceptual & acoustic similarity & age, free verbal recall, elementary school students, 8829

degree of embedding & semantic linkage between words & verb tense, oral & written sentence comprehension, 18 21 yr. olds, 10487

diatribe, nonconventional means of protest, 9146

difficulty level & semantic vs. nonsemantic orienting task, recall & organization of highly associated words, college students, 10438 distance between related words, semantic relationship identification,

undergraduates, 10434

644

episodic vs. semantic memory, human information processing systems, 6073

ethnographic semantics, identification of cognitive discriminations important in perceptions of environment, prostitutes, 6695 internal & external connectedness in semantic memory, simple

cognitive structure acquisition, 5982

language capacity & storage economy & inference rules, semantic memory model, 6001

linguistic system of syntax & morphology & semantic & rhetorical system, implications for teaching & reading comprehension, 3208 linguistics vs. verbal behavior, limitations of term language," general

discussion, 6897 phonemic similarity & semantic relatedness, long-term & short-term storage during free recall, 1696

processing natural language & representing semantic meanings in memory, experiments with information processing systems, book,

recognition responses to single words from short active sentences, mantic constraints on location operations in simple sentences, college students, 5999

recognition vs. recall task expectation & visual &/or semantic categorization, visual memory retrieval, 8387

regular vs. imagery instructions & semantic correspondence, sentence embedded paired associate learning, 3rd vs. 6th grade

right- vs. left-ear presentation & normal vs. permuted sentences & semantic neutrality vs. constraint, speed & accuracy of sentence recall, college students, 10321

semantic & phonetic preference test, separation of word sounds & meanings, 4 9 yr. old Afrikaans-English bilinguals vs. unilinguals, 10858

semantic category size & number, organized semantic information retrieval processes, 8463

semantic conception of syntactic relations within transformational grammar framework & lexical meaning structure, semantic

structural meaning, 2423
semantic content & phrase structure, multitrial free recall of sentential material, college students, 5923

semantic counter conditioning, classroom behavior & attitudes, elementary school children, 12106

semantic factors in color comparison task, locus of color-word interference, undergraduates, 87

semantic fields, use in organization of lexicon in transformational grammar, 9130

semantic intent of early language & early experience, relevance to treatment of language disorders associated with mental retardation, 7376

semantic organization, feelings about activity & forced nonactivity, coronary vs. bone fracture patients, 4853

semantic referents, syntax learning, 226 semantic shifts & intertrial interval, short-term memory recognition vs. recall, undergraduates, test of Brown-Peterson paradigm, 3685 semantic space, school-related attitudes toward curricular areas &

people, retarded vs. disturbed vs. blind vs. deaf students, 1377 semantic vs. syntactic factors, sentence acceptability judgments, 2 3 yr. old children, 2101

sequence-picture verification, semantic control of eye movements in picture scanning, 1571

structural & semantic factors, pure hypothetical syllogistic reasoning, college & graduate students, 6045

syntactic & semantic constraints, oral reading performance, 2nd & 4th graders, 10063

syntax & grammar & semantics, programing languages, 11175 terms from experimental analysis of behavior, examination of uses, 10216

tests of phonological & semantic & syntactic aptitudes, 5 6 yr. olds, 8801

vocalization activity, acoustic similarity & semantic effects at short & long retention interval, 1773

word-matching & directed word association tasks, syntagmaticparadigmatic shift, 7 yr. olds, 4119

### Semicircular Canals

Seminarians modified group therapy, self-awareness, Catholic seminarians, 7398 personality factors, persistence in religious training or occupations, seminary persisters vs. leavers, 2262

personality type, academic major choice, seminary students, 5453 self & occupational concepts, occupational choice, divinity students, 10134

Theological School Inventory, predictive vs. counseling tool, Catholic novices vs. Protestant seminarians, 2308

## Seminaries

Senescence (See Aged)
Senile Dementia (See also Senile Psychosis)

A. Routtenberg's 2-arousal hypothesis of cortical excitation & F. Post's somatic explanation of psychiatric abnormality & Synonym Learning Test & Digit Copying Test of Kendrick Battery of Tests, assessment of cognitive functions in senescence, elderly males & females, 9381

changing concepts of origin & treatment, senile dementia, 7067 cortical somatosensory evoked responses & peak latencies & late negative deviation & ratio of late wave to 1st Peak & latter ratio to that of latency Peak 3, senile dementia & elderly depressed patients, 2671

dementia & deterioration, theoretical considerations for clinical psychiatrists & psychopathologists, 2608

psychiatrists & psychopathologists, 2006
piracetam vs. placebo, psychoorganic symptoms of senile involution, elderly patients, 3039
Rorschach indicators & Piotrowski scales, measurement of senility
& cerebral deterioration, 65 69 vs. 75 79 yr. old males, 4814

short-term psychiatric hospitalization for medical-psychiatric assessment, postdischarge outcome, senile dementia patients, 3075

### Senile Psychosis

Senior Citizens (See Aged) Sensation (See Perception/)

Sensation Seeking Scale

anxiety, Sensation-Seeking Scale scores, college students, 2445 sensation seeking, simulated vs. behavioral personal space, male vs. female college students, 11246

Sensation Seeking Scale score, predicting need for visual stimulation during short-term sensory isolation & skin resistance, college students, 4510

uninhibited & nonconforming & impulsive & dominant type of extroversion & openness to new experiences, Sensation-Se Scales correlates, college students, 4553

Sense Organ Disorders (See also Amblyopia, Anosmia, Cataracts, Color Blindness, Ear Disorders, Eye Disorders, Glaucoma, Hemianopia, Hyperopia, Hypotonia (Eye), Labyrinth Disorders, Menieres Disease, Motion Sickness, Myopia, Nystagmus, Otosclerosis, Refraction Errors, Retinal Detachment, Scotoma, Strabismus, Tinnitus, Tunnel Vision)

Sense Organs (See also Cochlea, Cones (Eye), Cornea, Ear (Anatomy), External Ear, Eye (Anatomy), Iris (Eye), Labyrinth (Anatomy), Lens (Eye), Middle Ear, Olfactory Mucosa, Pupil (Eye), Retina, Rods (Eye), Semicircular Canals, Taste Buds, Vestibular Apparatus)
Sensitivity (Drugs) (See Drug Sensitivity)

Sensitivity (Personality) Achiever Personality scale of Opinion Attitude & Interest Survey & 16 PF, introversion & sensitivity & creativity, college freshmen

meeting test criteria, 4515 counselor supervisor affective sensitivity & personality, trainee sensitivity & personality, 11274

didactic vs. modeling vs. experiential counselor training, interview communication skill of reflection of feeling, male college students,

integrated didactic & experiential training during short-term, affective sensitivity, staff assistants, 11315

intensive encounter group experience, self-knowledge & sensitivity & job-related skills, state employement service managers, 3369 race & threat value of stimulus, perceptual defense & personal

space, black male repressors vs. sensitizers, 4476 repression-sensitization, perceptual sensitivity & cognitive style,

neurotics, 2774 repressor vs. sensitizer vs. neutral ego-defensive style & selective exposure, attitude change, college students, 2297

social vs. prosocial status, sharing behavior, female kindergartners vs. 2nd vs. 6th graders, 2167

stressful vs. standard instructions, Neuroticism & Extroversion scores on MPI, repressor vs. sensitizer college students, 2451 Sensitivity Training

basic encounter group, perception of self & spouse & leader & attitude change, married couples, 2817

client power & self-help groups, clinical & social applications & professional & educational implications, 3061

cognitive style & personality dimensions, sensitivity training effectiveness, black machine operators & their white supervisors & predominantly white low-level supervisors, 10149

emotive & control groups as expressions of utopianism, 6820 encounter group experiences, dogmatism & self concept & needs for inclusion & affection & control, graduate students in educational psychology & guidance, 9904

encounter group sensitivity training, personality traits, undergraduates, 9181

encounter groups, book, 797

encounter groups, new perspectives, book, 9097 encounter leader characteristics, group interaction, 11095

experience compression as managerial-psychological team ap-

proach, executive efficiency, 3439 group encounter & counseling & study skills instruction, academic performance & self-attitudes, underachieving college students, 10077

group encounter experience, self concepts, high school students, 9878

group training program emphasizing self-awareness & sensitivity to others & basic interviewing skill development, interpersonal cognitive complexity-simplicity, Employment Security & Manpower Administration employees, 3366 head masks to limit visual feedback, interaction & outcome in

extended T-groups, 6824 high vs. low dogmatism, differential T-group behaviors, 759 history & varieties & background of successes & failures, sensitivity training & encounter movement, book, 2315

human relations laboratory training, creative problem-solving

competence, 9th graders, 11106

imposed propinquity of sensitivity group members, pre- & postratings of attraction to individuals within & outside group, graduate students, 4438

increased intensity of self-confrontation within growth groups, facilitating realistic self-appraisal, 11104

integrated didactic & experiential training during short-term,

affective sensitivity, staff assistants, 11315 internal normative structure, sensitivity training groups, 6831

interpretive vs. counseling interview vs. sensitivity group experience with vs. without appended communications laboratories for facilitating transference of learnings to everyday life, interpersonal growth through interaction, religious group members, 3078

leader personality type, change in T-groups, college students, 9094 leadership style, reports of significant events & recognized similarity to group members, encounter group participants, 6856

legal liability as result of sensitivity training & counseling, educational institutions & faculty, 2551

marathon vs. traditional encounter participation, self concept & self-disclosure & interpersonal relationships, college students, 10054

nonverbal transactional metaphor & catalyzing sensitivity tech-

nique, group therapy, adolescents, 1201

observation of sensitivity training groups via videotape with individual disclosure vs. neutral vs. concealment attitudes &/or trust exercises, willingness to self-disclose, college students, 2354

personality characteristics, persons' group goals & technique preference in growth oriented human relations training, college students, 6785

personality characteristics, selection vs. nonselection of sensitivity training & training outcomes, college students, 7817

preferred goals & values & interventions & demographic indicators, sensitivity training & encounter variants, experienced group leaders, 6830

Psychological Screening Inventory & Adjective Check List human relations participants vs. personal-adjustment clients vs. non-clients, college students, 11105

racial confrontation group, self-reported interpersonal attitudes & intrapersonal behavior, white & black members of post-masters education program, 3153

report of problems & benefits, self-actualization group, neuropsy-chiatric clinic medical & psychological staff, 4575 seating arrangement, sensitivity training interaction, college

students, 11053

self-actualization changes measures, interaction preferences, encounter group participants, 4428

sensitivity laboratory experience with manipulation of self-disclosure & feedback, self-esteem, college students, 4443

sensitivity training & varying group composition according to interpersonal trust, positive interpersonal behavior roleplaying ability & awareness of others' perceptions & willingness to discuss intimate material, Naval hospital corpsmen, 9075

sensitivity training in conjunction with individual psychotherapy, psychiatric patients, 7595

sensitivity training program, conflict resolution & preventive human management in changing urban environment, police bureau personnel, 5678

sensitivity training research, bibliography, 11057

sensitivity training, coping with life stress, college students, 9021 sensitivity training, counselor effectiveness ratings & understanding implied meaning in client verbal communication, counselors-in-

training, 2529 sensitivity training, high vs. low dependency needs, college students, 12006

sensitivity training, interpersonal communication skills, 25-49 yr. old female elementary school teachers, 7838

sensitivity training, management education, 1445

sensitivity training, perception of self as group member & group role, 2360 sensitivity training, self-actualization & clarity of perception of self

& others, 6871

shared & explicit perspective of group goals & methods used as means vs. ends & democratic vs. autocratic context, sensitivity training groups, 4396

staff training group focusing on work problems, empathy & insight & comfort, correctional officers in women's prison, 7015

structured microlab vs. unstructured sensitivity vs. sensitivity group counseling vs. combination, self concept & self-actualization, neuroticism scale screened college students, 1158

group vs. practicum approaches vs. no training, competence, undergraduate resident assistants, 3247

T groups & laboratory training, learning & transfer & anxiety, 4401 T-group laboratory learning, ego development, high- vs. low-pathology adolescents, 9820

T-group sessions, attitude change & dogmatism & trust, college students, 5475

T-group techniques, application to ongoing group psychotherapy,

T-group training, personality differences, volunteers vs. nonvolunteers, 9022

taking back externalizations & physical encounters & dream interpretations, group hypnotic techniques & Gestalt therapy, 1217

traditional vs. sensitivity training methods, social skill training & evaluation for use in catering industry, restaurant staff, 11056 trainer & team style, self concept & group dynamics learning.

graduate students in T-groups, 5462

trainer self concept, trainer therapeutic behavior & participant self concept change, sensitivity training group, 4429 use & misuse in education & industry & consulting practice,

sensitivity training & encounter movement, 2375

values & dangers, short-term group process experiences, 2348

Sensitization (Protein) (See Anaphylactic Shock) Sensorimotor Measures (See also Purdue Perceptual Motor Survey) amygdala & lateral hypothalamic lesions, inability to orient & localize stimuli in contralateral visual & somatosensory fields, rats, 10688

concurrent validity, Purdue Perceptual-Motor Survey & Perceptual-Motor Behavior Screening Checklist, students, 10252

infant sensorimotor development, predicting childhood & adult IQ, literature review, 2150

planometer vs. linear measurements of lateral ventricle size, psychometric intelligence & abstraction ability & motor &

sensory performance, neurological patients, 11442 sensorimotor function & cognitive style, normal 14 15 yr. olds vs. male delinquents vs. learning disabled boys, 7180 ensory Adaptation (See also Dark Adaptation, Orienting Reflex,

Orienting Responses)

accommodation & convergence alteration, visual & proprioceptive adaptation, college students, 181

accommodation vs. visual image size correction, size constancy,

adaptation level theory & anchor theory & peak shift phenomenon, weight discrimination, college students, 8313

adaptation to nonstabilized grating patterns in various orientations & fading rates of stabilized line stimuli interactions among populations of orientation-specific mechanisms in visual system,

alternation training techniques with tone as CS, conditioned adaptation to prismatic displacement, undergraduates, 3591

anchor effects, relative judgment of weight, evluation of H. Helson's adaptation-level theory as predictive device vs. V. Sarris's competitive model, 180

anchor value, adaptation level in weight judgments, 4.8-5.8 vs. 6-7 & vs. 7.8-8.7 vs. 12-12.11 yr. olds, 4254

axon length, dissipation of visual & kinesthetic aftereffects, college students & 14 15 yr. olds, 5897

body part judgment & exposure time, adaptation to visually distorted stimuli, professional ballet dancers vs. nondancers, 1606 brief high-intensity airplane anticollision light backscatter, occipital

EEG & heart rate & respiration & skin potentials & eyeblinks, instrument-rated pilots & nonpilots, 3460 color adaptation during inspection of stimulus pattern, variation in

hue of contour-contingent aftereffect, 113 computer-simulated visual distortion, correlations between motor learning & visual & arm adaptation, 5843

conflict, sensory & cognitive & personality processes, perceptual adaptations, 80

Embedded Figures Test score & spontaneous electrodermal activity & resting heart rate & habituation rate of electrodermal & vasomotor responses to auditory stimulation, male undergradu-

extracellular recording of optic tectum units, visual receptive fields of single cells, pigeons, 10550

extroversion & field dependence & task complexity, vigilance & nystagmus habituation, 6962

generalization of adaptation to visual space prismatic deviation, visuomotor coordinations reorganization analysis, 5845

light adaptation, d-wave of electroretinogram, pigeons, 3789 mathematical models, concept identification & perceptual adapta-

tion & choice probabilities, book, 10273 nonsignal auditory stimuli, cardiac & respiratory & EEG habituation, neonates, 6590

peripheral stimulus eccentricity & illumination level & light adaptation, visual angle & apparent size & distance perception, male undergraduates, 3607

pointing with passive movements during exposure to laterallydisplacing wedge prisms, aftereffects on arm-body adaptation, undergraduates & 17 19 yr. olds, 68

retinal area specificity, contour-contingent McCullough color aftereffects, untrained undergraduates & experienced Ss, 1770 subjective standards vs. kinesthetic images vs. adaptation level,

category judgments of lifted weights, college students, 120 target distance & visual adaptation & accommodation & convergence, constancy of visual direction & distance perception, undergraduates, 1658

television picture impairment by random noise & delayed echo, O adaptation during television quality-grading test, 10120

underwater submersion, adaptation to speed distortions, 13 20 yr. old males, 1644

uniocular image magnification, perceived absolute distance & gaze direction & depth judgment, 3566

Sensory Deprivation

altered consciousness states & free association & sensory deprivation & regressive style, visual imagery imaginative elaboration & vividness & unreality, schizophrenics & artists & engineers, 7300

auditory deprivation, diagnosis of hearing loss & therapy, infants. 2728

early visual deprivation, sensory preconditioning, rats, 4070

EEG & eye movements & tonus & respiration & EKG & electrodermogram, afternoon sleep in normal vs. sensory deprivation environments, 20-26 yr. olds, 8560

light deprivation & horizontal vs. vertical & 45° vs. 135° striations, pattern discrimination, rabbits, 2057

light unilateral visual deprivation due to lid-suturing, retina, rats, 1867

monocular deprivation, CFF frequency & later enhancement, college students, 188

mothering & sensory deprivation, early infantile autism, case report,

normal cueness & visual cueness & visual deprivation, balance skill learning rate, normal vs. congenital deaf vs. acquired deaf 12 15 yr. olds, 11388

normal speaking conditions & sensory deprivation, labial movement & articulation, 11177

protein & sensory deprivation during suckling period, growth & exploratory activity, rats, 6255

reducing environmental stress & increasing varieties of sensory stimulation through compensatory environment program, behavior change, profoundly retarded adults with severe behavior problems, 11659

Sensation Seeking Scale score, predicting need for visual stimulation during short-term sensory isolation & skin resistance, college students, 4510

sensory deprivation, field dependence, sober hospitalized male chronic alcoholics, 2648

sensory deprivation, fighting behavior, mice, 560 sensory deprivation, simple vs. complex stimulus discrimination following operant conditioning, rats, 1978

sensory overload vs. deprivation, mental functions, college students, research problems & methods, 10447

sensory overload vs. deprivation, EEG & EKG & eye movement, college students, 10547

Sensory Feedback (See also Auditory Feedback, Delayed Auditory Feedback, Visual Feedback)

audio-visual vs. audio-visual-kinesthetic feedback training procedures, auditory discrimination of pitch, hearing impaired children, 9454

bar-pressing time discrimination, spectral analysis of response force variations as evidence of neuromuscular sensory feedback, rats, compression block technique, reduction of kinesthetic feedback in movement control studies, 5864

internal awareness & muscle sense, muscle relaxation in bioelectric information feedback training, 1621

sensorimotor EEG feedback training, suppression of epileptic seizures, 23 yr. old female, 9776

sensory integration remedial program, academic achievement, learning disabled children with mean CA of 7.4 yr., 1264

visual & proprioceptive determinants, space perception & movement accuracy, 8334

Sensory Handicaps (Attit Toward)
expressed attitudes toward disability & family, observed motherchild interaction, mothers of hearing-impaired preschoolers, 9406
parental attitudes, social abilities development & perceptual-motor skills, deaf children, 1054

Sensory Motor Processes (See Perceptual Motor Processes) Sensory Neurons (See also Auditory Neurons, Cones (Eye), Rods (Eye))

cortical association response area development, kittens vs. adult cats. 8744

electrical optic nerve stimulation & retroactive visual masking, retinal neural activity in contour discrimination, monkeys, 6334

Muller's theory of specific energies of sensory nerves & phenomenalism, influence on experimental psychological thought & Helmholtz's theory extension, 322

neural quantum theory application, sensory discrimination, 6199 normal nerve rates for age, motor & sensory conduction in peripheral nerves, infants & young children, 4248

pictorial information processing, review of biological & computer visual systems & psychology of perception & its computer simulation, 6343

spatial & temporal transient response sensitivity of lateral geniculate neurons in visual receptive fields, cats, 8542

system input-output transfer function equation for psychophysical dynamic range compression, model of human taste system, 6146 Sentence Comprehens

actor vs. receiver prior coding, active & passive sentence comprehension & question answering, 3726

age & syntactic structure, language connectives & disjunctive relationships comprehension & propositional logical thinking, 2nd graders to college students, 6572

comprehension levels, processing normal & ambiguous sentences, college students, 6028

control of grammar, imitation & comprehension & production, 2.3 3.9 yr. olds, replication of C. Fraser & U. Bellugi & R. Brown's study, 6492

degree of embedding & semantic linkage between words & verb tense, oral & written sentence comprehension, 18-21 yr. olds,

dialect differences, comprehension of standard English, 5 yr. old black speakers of nonstandard English, 8962

intonational emphasis & feedback, understanding ordered commands, 5.4 6.3 yr. olds, 2068

irreversible vs. reversible vs. intermediary sentences & situations, passive sentence comprehension & production, English-speaking 3 6 yr. olds, 10915

irreversible vs. reversible vs. intermediary sentences & situations, passive sentence comprehension & production, Swiss-German-speaking 5 8 yr. olds, 10818

linguistic & psychological complexity, language, 3 5 yr. old nursery school children, 600

linguistic form & inferred information, mental representation & sentence memory, 212

middle vs. lower class, comprehension of passive voice & deep vs. surface sentence structure, 5-6 yr. olds, 588

plastic signals as language units, teaching language & sentence comprehension, chimpanzee, 6417

RT of sentence-verification-of-picture judgments, 3660

sentence writing task error patterns, minimal dysphasic vs. minimally educated adult males, 11414

storage & hearing concrete & abstract sentences, comprehension, alternate explanation of I. Begg & A. Paivio's data, 2006

subject vs. verb number rule operation, sentence comprehension, 5 7 yr. olds, 4140

entence Structure

actor vs. receiver prior coding, active & passive sentence comprehension & question answering, 3726

- complex sentences from factual articles arranged in blocked vs. random order vs. unrelated sentences, category clustering during free recall, college freshmen, 1669
- comprehension levels, processing normal & ambiguous sentences, college students, 6028
- comprehension of task to be accomplished & confrontation with simple unambiguous verbal model of subject & unhampered progress, passive sentence acquisition, French-speaking 4 5 yr. olds, 10886
- discourse organizer concept as framework, continued discourse
- practice in language classroom, 5544
  frequency of relationship & temporal order of referent events, acceptability of linguistic connectives, 4474
- function word deletion, text reduction & information loss & reading comprehension, 7th graders, 6072
- grammatical transform, syllogistic reasoning, 1720
- index of contingency, measurement of relatedness of adjacent sentences, critique of S. Becker & A. Bavelas & M. Braden's redundancy measure, 2420
- intra- vs. cross-modal testing & clause position & intonation contours & lexical material, word recognition latencies, male undergraduates, 1679
- irreversible vs. reversible vs. intermediary sentences & situations, passive sentence comprehension & production, English-speaking 3 6 yr. olds, 10915
- irreversible vs. reversible vs. intermediary sentences & situations, passive sentence comprehension & production, Swiss-Germanspeaking 5 8 yr. olds, 10818
- language usage intricacy judgments, socialized vs. egocentric speech in classroom, 4 yr. old boys, 4228
- lexical characteristics of transitive & intransitive verbs, sentence recall, 6053
- linguistic & psychological complexity, language, 3-5 yr. old nursery school children, 600
- linguistic form & inferred information, mental representation &
- sentence memory, 212 linguistic structure, RT to tone discrimination during speech vs.
- listening, adults, 3627 listening & reading & grammatical structure, language development,
- 2417 middle vs. lower class, comprehension of passive voice & deep vs.
- surface sentence structure, 5-6 yr. olds, 588 middle- vs. lower-class messages with lexical & structural deletions, language predictability measured by verbatim cloze responses, college students, 832
- modeling & age & sex & bilingualism, length & complexity of sentences, 2nd & 4th graders, 2124
- nominalizations vs. transformation & stated vs. unstated subjects,
- reading comprehension, college students, 9844
  paraphrasing, passive voice theme & presupposition selection in
  English, 2412
- picture & spoken message with white noise vs. spoken message only with white noise vs. telephone connected to tape recorder with white noise, sentence completion in informal talk, 3-6 yr. olds, 6558
- plural atmospheres, verbs used to complete sentences, college students, 6901
- preference for statements with vs. without negators, depressed vs. nondepressed patients, 9462
- printer's justification & punctuation, written & oral sentence
- segmentation perception, 1st graders, 11156 psychological subject-predicate destinction, independence from grammatical & logical subject & predicate, 6895
- psychophysiological assessment using tonic & phasic modes of palmar skin conductance & finger blood & pulse volumes, linguistic response complexity to syntactically different sentences, 222
- rationale & requirements, center for study of mathematics &
- mathematics learning, 5367 reading in right & left embedded sentences & grammatical constraints, eye-voice span, undergraduates, 2416
- reading strategy & sentence interpretation & structure awareness in spoken & written forms, usefulness of instruction & reading material based on reading strategy & sentence interpretation & structure awareness, 1290
- recognition responses to single words from short active sentences, semantic constraints on location operations in simple sentences, college students, 5999

- reliability, syntactic complexity ratings of single utterances, undergraduates, 4470
- repeated words & parallel structure in compound sentences, shortterm sentence memory, 1st graders, 6527
- semantic content & phrase structure, multitrial free recall of sentential material, college students, 5923
- semantic vs. syntactic factors, sentence acceptability judgments, 2 3 yr. old children, 2101
- sentence contexts, facilitation of noun pair learning, 5th graders,
- sentence production, 10 19 yr. old normals vs. Parkinsonians vs. patients with left vs. right hemisphere brain lesions vs. patients with dementia, 7171
- sentence structure variations of transformational-generative grammar, comprehension of visual speech & implications for curriculum planning in hearing rehabilitation, college students, 1287
- sequential & spatial orientations of text & direction of reading & intrasentence language variation, reading & scanning directionality, 124
- social class, elaborated vs. restricted coding orientations in written communication, middle & working class Australian undergraduates, 2426
- speeded recognition of ungrammaticality in sentences, 6029
- string grammar, automatic syntax analyzer of French language,
- structural & semantic factors, pure hypothetical syllogistic reasoning, college & graduate students, 6045 subject vs. verb number rule operation, sentence comprehension, 5 7
- yr. olds, 4140 surface & deep structure sentence changes & context, same-different
- judgments, 6 yr. olds, 2197 syntactic & semantic variables, sentence recall, 5990
- syntactic characteristics of context, verbal productions, 11186
- syntax recognition approaches, 2403
  varying sentence order, search for concept information & retention, 1693
- violating phrase-structure rules & selectional restrictions, transitional error probability patterns in sentence learning tasks, undergraduates, 1782
- vocabulary & sentence length & syntactic structure, spontaneous oral vs. reading materials language, low socioeconomic status urban Negro 1st graders, 5478
- configural properties & Gestalt vs. associationism theory predictions, sentence memory, college students, 5921
- content & visualizability & truth value & instructions & reference
- point, recognition memory for comparative sentences, 1776
  right- vs. left-ear presentation & normal vs. permuted sentences &
  semantic neutrality vs. constraint, speed & accuracy of sentence recall, college students, 10321
- separate sentences vs. paragraph presentation, grammatical & lexical retention in incidental learning, 5977
- true vs. false-positive vs. negative sentences & circle location, sentence-picture comparison RT, college students, 8413
  Separation (Marital) (See Marital Separation)
- Separation Anxiety peer separation & isolation & reunion, behavior, 31 58 mo. old male
- rhesus monkeys, 8709 polymatric rearing in intensive care institution, attachment behavior
- & stranger & separation anxiety, infants, 6607 rapprochement subphase, separation-individuation process, case
- reports, 10874 systematic desensitization using muscle relaxation & visual imagery, school phobia & death phobia & separation anxiety, 10 yr. old,
- 1191 ephardim (See Judaism)
- Septum (Brain) Lesions (See Brain Lesions)
- Sequential Learning
- attention & short-term memory, prediction in alternating or repeating sequences, nursery school & kindergarten children, test of R. Bogartz's theory, 10444 auditory & visual sequential memory group training, short-term
- auditory & visual sequential memory improvement & spelling performance, 8 10.2 yr. olds in classes for learning disabled, 7957
- cumulative learning, cognitive development theory, 10842 instructional sequencing, learning from logical structure, high school students, 8439

patterned sequence vs. random run-lengths training, sequence prediction, female undergraduates, 1712

topic sequencing, Premackian reinforcement of classroom behavior. 5th graders, 3188

unilateral brain damage, perception of temporal order of audiovisual stimuli, patients with left vs. right hemispheric lesions,

Serial Anticipation (Learning)

anticipation interval length in AB vs. CD paradigm, paired associate learning & positive transfer, college-age Ss, 1728

probe technique & anticipation vs. recall learning methods, functional stimuli in serial learning, college students, 6039

reaction to aversive event in free-responding situation, reactive vs. anticipatory responses, 490

**Serial Compulsions** 

Serial Learning (See also Serial Anticipation (Learning))

anxiety, rote serial learning, male 11th graders, 8412 bilingualism, free recall & serial recall learning, Spanish-English speaking 9 12 yr. olds, 5440

categorical organization in acquisition, recognition latency, college students, 6023

common words list presentation, free recall & rehearsal, children with superior vs. average IQs, 3678 high & low subvocalization effort ratings for CVCs, serial learning

of CVCs composed of high & low meaningfulness values, college

high-vs. low-frequency tones & sequentially presented information with stable vs. unstable entity, primacy & assimilation effects in recall, college students, 1711

instructions & stimulus type & organization & presentation spacing, letter sequence immediate recall, 10486

internal vs. external locus of control, incidental vs. intentional serial

task learning, mentally retarded adult males, 9303 isolated syllables & background list meaningfulness & isolated

syllables number, serial learning, college students, 5997 linear vs. nonlinear structural abstract vs. concrete stimulus sets, serial learning, 4th vs. 6th vs. 8th graders, 10817

mnemonic alterations & elaboration, retroactive interference from learning multiple word lists, 1676

ordinal position vs. specific nature of word, serial verbal learning, college students, replication of R. Young & J. Patterson & W. Benson's study, 10397

practice & exposure time & difficulty, serial learning, normal vs. acute schizophrenic vs. brain-damaged male adults, 7091

probe technique & anticipation vs. recall learning methods, functional stimuli in serial learning, college students, 6039 probe technique, identification of serial learning processes, college

students, 10490

rote verbal learning, variation in serial position curve as index of relative difficulty, kindergartners & 1st & 3rd & 5th graders, 2067 sequence organization & subunit position, serial light pattern tracking, college students, 8327

serial & paired associate lists, probe & free recall performance, college students, 5960

serial position curve, distinction between short- & long-term memory, elaboration of M. M. Gruneberg's argument, 3690

serial position, negative recency vs. positive primacy in repeated free recall, college students, 5929

serial position, probe recall, college students, 8465

serial verbal learning, book, 8471

serial vs. simultaneous visual presentation vs. serial aural presentation of nonsense syllables, recall, college students, 3656 shadowing vs. monitoring techniques of attention control vs. 1-trial serial recall technique & serial position effect, response organization & detection probability, college students, 3753

speed & accuracy & recall ease in semantic or positional probes & serial-position, expended-processing capacity, 1710

string length & symbol-digit composition, recall, male graduate students, 3722

trade-off bias & efficiency, serial choice reactions, 8473 visual form familiarity & presentation rates, serial order recall & verbal coding, undergraduates, 3666 within-day serial reversal & role of inhibitory processes, position

discrimination, pigeons, 522

Seriousness

Serotonin

benzodiazepines, anxiety-reducing activity by reduction of brain serotonin turnover, rats, 1964

brain catecholamines & serotonin, isolation & reactivity & aggression, mice, 344

brain norepinephrine & serotonin, central oxygen toxicity, 1798 exogenous & endogenous serotonin, mesencephalic reticular formation vs. hippocampus, rabbits, 3923

fenfluramine vs. p-chlorophenylalanine, sleep patterns, cats, 6280 forced motility in treadwheel, noradrenaline & 5-hydroxytryptamine metabolism in different parts of brain, rats, 3783

imipramine vs. chlorimipramine pre- & posttreatment, L-dopa induced behavior & brain catecholamine & serotonin levels, rats.

intravenous infusion of L-tryptophan dopamine & 5 hydroxyindoles metabolism in brain & cerebrospinal fluid, male beagle dogs, 426 L-dopa & dopamine & hydroxytryptamine, seminal fluid emission

& central mediation through serotonergic mechanisms, rats, 385 L-5-hydroxytryptophan & D, L-parachlorophenylalanine, behavior-

al & electrographic effects with preexisting photosensitivity & epileptiform activity, baboons, 8685

maturation of brain serotonin circadian rhythm, rat, 1815

median midbrain raphe lesions, 5-hydroxyindoleacetic acid in forebrain & cerebrospinal fluid, rats, 3870

mescaline vs. noradrenaline vs. 5-hydroxytryptamine, single cortical neurons, cats, 1844

p-nitromethylamphetamine, brain noradrenaline & dopamine & 4,a-dimethyl-m-tyramine & 5 hydroxytryptamine & tyrosine & gamino-n-butyric acid & tryptophan, rats, 412
papaverine & sleep deprivation, sleep cycles & EEG & noradrena-

line & 5-hydroxytryptamine, male rats, 3856

para-chlorophenylalanine lowered brain serotonin, discriminated punishment & pain sensitivity, rats, 6227

para-chlorophenylalanine, brain serotonin & food intake & u-maze behavior, rats, 8650

pentylenetetrazol & ethamivan, brain serotonin metabolism, 1860 physostigmine vs. oxotremorine vs. morphine & naloxone & nalorphine & 5-hydroxytryptamine & dopamine & noradrenaline, antinociceptive activities, mice, 440

prenatal maternal handling & rearing with aunts, behavior & brain weight & whole-brain serotonin, rats, 1820

rewarding vs. nonrewarding electrical median forebrain bundle stimulation, norepinephrine & serotonin release from amygdala, rats. 6270

Securigera Securidaca seed & extract & day & time of treatment, conditioned avoidance & serotonin depletion effects, mice, 6215

serotonin & amphetamine & scopolamine, habituation of exploratory activity & spontaneous alternation in maze, rats, 8680 serotonin & behavior, summary of 1972 conference, Palo Alto, Calif., 466

serotonin levels & hippocampal ablation, modulation of behavioral arousal, rats, 1960

serotonin, predictive value of probenecid test in assessing depression, endogenously depressed psychiatric inpatients, 1245 short- & long-term morphine & short-term cocaine administration, brain serotonin biosynthetic systems, rats, 6283

sulpyrid, muricide reactions & aggressiveness & exploratory behavior & brain 5-hydroxytryptamine turnover, rats & mice,

tetrahydrocannabinol, monitored behavioral changes & RT metabolism of cerebral serotonin, rats, 8616

Serotonin Antagonists (See also Lysergic Acid Diethylamide, Tetrabenazine)

benzodiazepines, anxiety-reducing activity by reduction of brain serotonin turnover, rats, 1964

fenfluramine vs. p-chlorophenylalanine, sleep patterns, cats, 6280
1-tryptophan & MAO inhibitor & psychotropic drug with antiserotonin & adrenalytic effects, aphrodisiac effect, female

schizophrenics, 9578 L-5-hydroxytryptophan & D, L-parachlorophenylalanine, behavior-al & electrographic effects with preexisting photosensitivity & epileptiform activity, baboons, 8685

methysergide vs. thioridazine, patients with moderate to severe mania, 2950

p-chlorophenylalanine, Sidman avoidance response, rats, 3963 para-chlorophenylalanine lowered brain serotonin, discriminated punishment & pain sensitivity, rats, 6227

dl-isoproterenol injection into cerebroventricles & subsequent b antagonists vs. l-norepinephrine & a agonist, food intake & hypophagia & anorexia, sheep & cattle, 6220

exchange of blood from jugular veins of hungry & satiated Ss by pump controlled cross-circulation, modification of feeding behavior & evidence for humoral factors, 1945

hay dispenser device for operant conditioning experiments with ruminants, goats & sheep, 6342 optic nerve electrical stimulation, cortical surface responses, sheep

fetuses 6306

temporal patterns of activity automatically recorded in early summer, Merino castrated male sheep with restricted lateral movement, 555

Sheltered Workshops
automated transducers, recording work behavior in sheltered
workshops, mentally retarded, 11484
workshops, mentally retarded, 11484

gas station as means of providing on-job work experience & training, vocational habilitation, educable retarded 16 21 yr. old boys, 9849

monetary rewards & goal setting, productivity in 2 ability levels, mental retardates in sheltered workshop, 2940

need for innovative programs & out-reach efforts, sheltered

workshop participation, young adult retardates, 5094 need for social approval, IQ & self-ratings and supervisor ratings of performance in sheltered workshop, 17 37 yr. old mental retardates, 11366

origins & development & problem areas, workshops for disabled & retarded, 1134

rehabilitation workshops, psychosocial rehabilitation, psychiatric patients, literature review, 7676

sheltered paid workshops, chronic vs. short-term patients, 11803 sheltered workshop employment, work success & program attitudes & hospital savings, chronic psychiatric outpatients, 5002

verbal instructions vs. concrete modeling vs. combined methods vs. chaining, assembly task performance, moderately & mildly retarded adults employed in sheltered workshop, 5224 Shifts (Workday) (See Workday Shifts)

Shock

abnormal responsiveness to electric shock, altered rates of acquisition & extinction of avoidance behavior, adrenalectomized & hypophysectomized rats, 10622 air vs. odor stimulus before unavoidable shock, food licking

response suppression, rats, 10724

attribution of arousal to electric shock vs. sexually exciting story vs. nonawareness, self-ratings of anger & aggressive behavior, male college students, 6810

avoidance conditioning & shock, GSR & heart rate, college students, 3820

avoidance conditioning using light as CS & brief shock as UCS, general activity, goldfish, 2001 bilateral septal vs. cortical control lesions & shock escape & avoidance & food reinforcement, discriminative responding, rats,

catharsis through annoyance, displaced aggression, 2347

chlordiazepoxide vs. saline, starting & running responses in straight runway with shock motivation, rats, 401

click-shock pairing upon discharge rate & pattern, modification of unit discharges in medial geniculate nucleus, cats, 1962

cognitive expectancies & preexposure to high vs. low vs. no shock, classical conditioning measured by GSR, college students, 6034 concurrent random interval reinforcement & stimulus changeover

delay & reinforcer duration & noncontingent & signaled shock, lever pressing response rate, rats, 4003 contingency of consequences & shock vs. reward, incoordination in

interdependent escape, college student groups, 764

contrast effect in which presence of strong but prohibited degree of punishment causes lower degrees of permissible punishment, 1701 control of shock, subsequent shock-elicited aggression, rats, 4044

CS paired with avoidable vs. unavoidable shock, alteration of Sidman avoidance baselines, dogs, 4051

dexamethasone & early experience with electric shock, adult avoidance behavior, rats, 1879

diode matrix circuit, electronic drinkometer operation during footshock, 1982

dual lead slip-ring for use with tail-shock electrodes, 480 ECS & footshock, proactive changes in activity level, rats, 3915

ECS induced amnesia, avoidance behavior recovery using ice water immersion as aversive training stimulus & footshock as recovery stimulus, rats, 6322

electric shock & duration & S's position relative to electrodes, detection & reaction & escape & debilitation thresholds, goldfish, 8761

electric shock vs. no shock, water consumption, random-bred mice, 2014

electric shock, exploratory behavior, rats, 10693

electrical brain stimulation vs. skin shock & environmental conditions, primary vs. secondary aggression, rhesus monkeys,

footshock, brain seizures & behavioral convulsions induced by electrical brain stimulation, rats, 391

frustrative nonreward & shock vs. shock only vs. frustrative nonreward only, aggressive behavior, rats, 2056

harm-doing, justice vs. fairness motivation in shock distribution, females, 2371

heat & shock procedures, learning speed & age effects in brightness discrimination, rats, 10601

imagined vs. real aversive stimulation, role playing & deception in social psychology experiments, college students, 11122

interstimulus interval & time estimation, signaled & unsignaled shock aversiveness, college students, 8472

lesions in lateral septum & ventral hippocampus & medial septal & amygdala, suppression of drinking behavior when noise paired with electric shock & internal & external environment control,

rats, 10654 loss vs. lack of control over shock, subsequent ability to learn shock avoidance & emotional arousal, college students, 1754

medial geniculate nucleus pattern & paw shock, unitary discharge rate, cats, 8531

multiple schedule with component consisting of two-link chain, aversiveness of signaled vs. unsignaled shock, rats, 10756 pentobarbital & diazepam & chlordiazepoxide & amphetamine &

chlorpromazine, shock-punished responding, pigeons, 10655 peripheral cue relevance of location-specific stimuli under aroused

states, perceptual field narrowing, college students, 10354 persistence & vigor, shock-induced aggression, gerbils, 4005

preference for information about uncertain but unavoidable outcome & for control of shock administration, internals vs. externals, 9189

probabilistic shock schedules, acquisition & asymptotic responding & extinction of avoidance response, rats, 6406

recording of high fear S told to expect pain vs. other symptoms from placebo, O's prediction of S's number of shocks to pain & tolerance threshold, 4454

response dependent & independent shock, in printing & following & pole pecking & stimulus choice, ducklings, 3987

response-independent shocks, conditioned avoidance responding, rats. 6415

response-independent shocks, extinction & maintenance of avoidance behavior, rats, 2005 response-shock interval & shock intensity, free operant avoidance

responding, pigeons, 4035 sensitivity & response topography to shock, between strain variation

in rate of avoidance learning, mice from 6 strains & hybrids, 339 shock & cage size & sex of stimulus animal, copulatory & aggressive responses, rats, 488

shock administration, stuttering, 21 yr. old male, case report, 11581 shock capability of potential harmdoer & monetary vs. no incentive

to do harm & actual frequency of being harmed, subjective estimations of possible harm, male undergraduates, 9013 shock intensity & age & genotype, passive-avoidance conditioning, mice, 330

shock intensity & duration, Sidman avoidance acquisition & prediction from 1st session response, rats, 6420

shock predictability & escapability, conditioned emotional response & basal emotional level, male rats, 6386

shock punishment, preference for food vs. aggressive display, Siamese fighting fish, 8726 shock-elicited defensive behavior, passive avoidance performance,

rats, 1971

shock-induced aggression & free operant avoidance training & unavoidable shock, fighting in response to shock, female rats,

signal-reinforcement effect for modifiable shocks, interpretation of

preference-for-signalled shock phenomenon, rats, contribution to G. Biederman & J. Furedy, 4016 species-specific defensive behavior similarity & shock & appetitive motivation, thigmotaxis & avoidance behavior acquisition rates, rats, 6379

stress & food deprivation & intermittent food schedule & electric

shock, highest probable response energization, rats, 6392 successive competition DNA-RNA hybridization, detecting presence or absence of qualitative changes in RNA species during shock avoidance conditioning, 10541

transcorneal electroconvulsive shock, recovery from amnesia for avoidance behavior, rats, 1913

UCR to shock vs. conditioned key-peck response, response topography, pigeons, 552

unavoidable & inescapable shock, choice of longer vs. strong signaled shock over shorter vs. weaker signaled shock, rats, 10700 upright posture, shock-elicited aggression, rats, 6394

variable-interval vs. fixed-interval schedules of response-dependent shock & visual cues, response suppression, rats, 10749

ventromedial hypothalamus vs. septum vs. medial forebrain vs. dorsal longitudinal fasciculus lesions, reactivity to footshock, male vs. female rats, 10612

visual imagery accompanied by electric shock, phobic behavior reduction, snake phobic Ss, 5001

water temperature & shock level & test interval after shock, suppression of upstream swimming into calm-water well, goldfish,

2nd order schedules of shock delivery, lever-pressing responses, squirrel monkeys, 487

Shock Therapy (See also Electroconvulsive Shock Therapy, Insulin Shock Therapy)

electroshock treatment as therapeutic totalitarianism based on force & fraud, 3051 Shock Units

shock-grid construction, method to minimize shorts & cleaning problems, 10231

Short Term Memory

permeable store" model, short-term memory information reduction, 6010

acoustic similarity & interference, short-term recognition memory,

acquisition & visual short-term memory, educable retarded vs. normal children, 4775

age & short term memory, inductive thinking, 4.11 11.0 yr. olds, 8877

aging & education, visual trace & short-term memory deficit, 19 27 vs. 46 52 vs. 60 77 vs. 23 29 yr. old men, 2064

alcohol ingestion, short-term verbal memory during blood alcohol curve ascending vs. descending limb, male medical students, 1887 angular tranformation of pooled proportion of recall to stabilize

variance, binomial assumptions in short-term memory, 104 articulated & acoustic stimuli similarity, short-term recall of verbal

items, 6018

attention & short-term memory, prediction in alternating or repeating sequences, nursery school & kindergarten children, test of R. Bogartz's theory, 10444

auditory & visual sequential memory group training, short-term auditory & visual sequential memory improvement & spelling performance, 8 10.2 yr. olds in classes for learning disabled, 7957 background letter redundancy level, detection in very short-term

memory, high school & college students, 1625 blood-alcohol level & alcohol blackout," state-dependent learning & short-term memory, chronic alcoholics in sober vs. intoxicated states, 4767

calculating means of momentary span & its standard deviation, determination of parameters of short-term memory, college students, 8354

cerebral hemisphere specialization, short-term memory information processing, 6003

channel capacity & exposure time & apprehension span, immediate digit memory, unpracticed adults & adolescents, literature review,

coding of acoustically & semantically similar words, short-term memory, presenile dementia patients, 1023

cognitive similarity, proactive & retroactive interference in short-

term memory, college students, 3655 comparison of item-recognition data across stimulus classes, immediate memory span & memory search rate, 5940

comparisons of successively presented visual patterns in perception & short-term memory, classification RTs, college students, 6064

compound visual & auditory stimulation, predictive formula for sensory & active storage, 3705

contents & duration of interstimulus interval, short-term memory for complex novel sounds in delayed comparison recognition task, 3682

cycloheximide vs. saline & subsequent ECS, long-term & short-term memory processes, mice, 6217

decay of acoustic proactive facilitation in short-term memory, college students, 5941

developmental role of vocalizing, short-term memory, 4-6 yr. olds, 2098

dichoptic interference, iconic & short-term memory & consolidation, undergraduates, 3698

distance between related words, semantic relationship identification, undergraduates, 10434

EEG measures of typological nervous system properties, retro- & proactive interference in short-term memory, college students, 265 electrical stimulation of inferotemporal cortex, disruption of shortterm visual memory, monkeys, 3921

English vs. Arabic script, letter array memory, American & bilingual Arab undergraduates, 3693

extroversion vs. introversion, short term memory, model proposal, 1737

factor analysis of modified span memory vs. standard reference factor marker tests, short-term memory, 15-16 yr. old Junior Naval Recruits, 219

figure-ground distractibility & short-term memory, brain damaged vs. normal children, test of Werner & Strauss's theory, 998

frequency of word usage, immediate recall, undergraduates, replication of J. F. Hall's study, 192

frontal & nonfrontal right & left hemisphere brain damage, visual vs. auditory vs. kinesthetic short-term memory, patients, 7219

gross body movement task incorporation into academic task immediate spelling recall & long-term memory, 7 8 yr. old potential reading failures, 7962

heredity, recognition & short-term memory for pair-associates of nonrepresentational signals in auditory & visual & tactual sense modalities, 12 15 yr. old monozygotic & dizygotic twin pairs, 6171 high physiological arousal during learning, short-term vs. long-term

retention, 10455

high vs. low socioeconomic status & average vs. low IQ levels, visual & auditory short-term memory & cross-modal coding task, 7 11 yr. olds, 6570

imagery codes, human information retrieval from short-term recognition memory, college students, 8464

immediate & 1 wk & 6 mo. recall, retarded vs. normal 8-20 yr. olds,

implicit speech & naming, memory for brief visual symbol displays, 3739

inconsistent vs. crossed vs. unilateral preferences, spatial task performance requiring short-term memory & reversible visual imagery, 8 10 yr. old trainable retardates, 4748

individual item rehearsal, short-term memory, college students, 8430 instructions & temporal & spatial organizational cues & age, short-term memory, kindergartners & 1st & 4th graders & college students, 10881

instructions regarding rehearsal & presentation rates & critical item exposure duration, anterograde vs. retrograde amnesia in shortterm memory, college students, 8375

intensity level of aurally presented items & recall interval, digit recall, 9 yr. old normals vs. retardates, test of N. Ellis's stimulus trace deficit theory, 2635

interference & verbal encoding, short-term memory deficits, Korsakoff patients, 937

interference, short-term retention of discrete lever movements, 8381 interpolated activity, interference effects on motor short-term memory, college students, 6047

interpolated task difficulty & similarity & activity & kinesthetic & visual + kinesthetic cues, short-term motor memory, college students, 8299

intra- & intermodal processing, short-term memory for shape information, 46 & 89 yr. olds, 6456 irrelevant information & presentation irregularity, pacing of rehearsal in sequential short-term memory, college students, 5998 letters vs. difficult vs. easy random dot patterns, coding & short-term retention of visual information, high school students, 8442

low- vs. high-task-anxiety, short-term memory, college students,

meaningful & pronounceable & random chunking units, acquisition & retention, college students, 8429

meaningful words presented in blocks vs. list vs. 3 digit numbers list & intervening items, short-term memory recognition time & forgetting, 5976

measurement using successive reversal learning set, short-term memory, mice, 6340

overinclusive thinking as reflection of failure in short-term memory, paranoid & nonparanoid schizophrenics, 7182

pattern masking of unfamiliar & nameless shapes, short-term visual memory, college students, alternative to G. Sperling's model,

phonemic similarity & semantic relatedness, long-term & short-term storage during free recall, 1696

phonetic vs. ordinal recall intralist interference compensation, shortterm memory, 6014

practice & age differences, short-term visual memory, young adults vs. aged, 6615

previous high speed & exhaustive memory search, retrieval processes in short-term memory, nurses, 10382

proactive interference from trigrams presented visually or auditorily & retention interval with shadowing numbers or letters, shortterm memory, college students, 10450

proactive interference, short-term recognition & recall memory, 8445

realizable holographic storage of neural interference patterns, predicting short-term memory performance, 10406
recall & learning context similarity & differential rehearsal &

intertrial interval & activity during trial, short-term memory, college students, 3679

recall expectancy & presentation interval length, recall & rehearsal strategies in short term memory, college students, 10407

rehearsal strategies & encoding passages & confusions, short-term memory, deaf children, 11506

reinforcement & retention interval, short-term motor memory recognition & recall, male undergraduates, 3715

reinforcement amount & duration of retention interval, short-term motor memory recognition & recall, 221

reinforcement-test interval distribution in paired-associate & verbal discrimination learning, short- vs. long-term retention, college students, 5993

repeated words & parallel structure in compound sentences, shortterm sentence memory, 1st graders, 6527

retrieval cues & set organization, short-term recognition memory, college students, 8410

retrieval rules & semantic coding, short-term memory, 5924

semantic shifts & intertrial interval, short-term memory recognition vs. recall, undergraduates, test of Brown-Peterson paradigm, 3685 sequential presentation of near span-length strings of digits or letters, short-term recognition memory, college students, 8407

serial position curve, distinction between short- & long-term memory, elaboration of M. M. Gruneberg's argument, 3690

serial position, negative recency vs. positive primacy in repeated free recall, college students, 5929

signal detection analysis of confidence judgments in short-term memory, amount of information needed in memory for recognition & recall, 1673

speech coding, short-term memory for verbal material, 5 16 yr. old deaf schoolchildren, 2596

stimulus class & serial position & single- vs. multiple-match procedure, correct response & response latency in short-term memory, white middle class vs. black disadvantaged lower class 6 7 yr. olds, 8426

stimulus duration & interstimulus interval & encoding technique, short-term retention of auditory sequences, college students, 6027

strength of nervous system, short-term memory, 16-18 yr. olds, 6140 subsidiary arithmetic task vs. rest during varying delay periods, short-term retention of tactile stimulation, right-handed female college students, 1771

subvocal activity, acoustic confusion in short-term memory, collegeage females, 5978

symbol string complexity & spatial orientation, memory span & recall errors, undergraduates, 3721

tachistoscopic presentation of array of consonants & stimulus duration, spatial & verbal codes & short term memory, college students, 10319

tachistoscopically presented displays of consonant trigrams, interaction of short-term & very short-term memory, college students, 10379

task difficulty & instructional set & performance limits, serial vs. parallel retrieval in short-term memory, 8486

temporal gap & auditory stimulus pattern duration & repetitions, waveform memory, 6038

threshold estimation using method of limits, perceptual or immediate memory, 14 20 yr. old institutionalized retardates vs. normals, 2674

verbal processes, short-term memory, mentally retarded, 7097

vertical sinusoidal vibration, arithmetic problem solving performance with immediate memory tasks, jet pilots, 8085

visual & auditory & olfactory short-term memory, normal & paranoid & nonparanoid schizophrenics & Ss with acute & chronic brain syndromes, 7102

visual presentation of word vs. picture stimuli, recall & recognition without delay & after rehersal & verbal interference intervals, college students, 6070

visual vs. auditory interference, short term retention, college students, 8427

vocal labels, short-term memory for pictures, younger vs. older hearing vs. deaf children, 7107

vocalization activity, acoustic similarity & semantic effects at short & long retention interval, 1773

word list organization & use of retrieval rule, immediate & delayed recall of graphemic bases, kindergartners, 7816

psychological adaptation & mental health, college students with retarded siblings, book, 976

school records, hospitalized personality disordered patients & schizophrenics & their sibs, 7331

sibling resemblances & socioeconomic status & achievement, divergent thinking, high school students, 10891

TAT, distinguishing psychological problems, well vs. sick sibling,

trait oppositeness siblings, adult sibling pairs, 11226

Sick Leave (See Employee Leave Benefits) Sickness (Motion) (See Motion Sickness)

Side Effects (Drug) (See also Drug Addiction, Drug Adverse Reactions, Drug Allergies, Drug Dependency, Drug Sensitivity, Heroin Addiction)

autonomic effects of amytriptyline & amytriptyline with protriptyline & imipramine, correlation with antidepressant action, endogenous depressives, 11790

blood barbiturate levels, psychological or physiological nervousness prior to dose & drug metabolism, barbiturate-dependent patient, 2767

concepts of potency & maximum effect & wanted & unwanted effects relationship & problems of heterogeneity & of patient response variability to psychotropic drugs, psychological ap-proach to clinical psychopharmacology problems, 1896

drug therapy, akathisia side effect & diagnostic considerations, 7610 history of depression during or after pregnancy, depressive reaction with oral contraceptives, 7204

iv diazepam, dystonic reactions to phenothiazine therapy, psychotics, 9657

lithium treatment, EEG & evoked response & DC potential activity & side effects, normals vs. patients, 3959

long-term lithium therapy, harmful side effects, 5286

loxapine succinate vs. chlorpromazine, EEG changes as side effects, 24 58 yr. old chronic schizophrenic inpatients, 3020

molindone hydrochloride, dose range & antianxiety & side effects, nonpsychotic anxious outpatients, 9646

oral contraceptives, depression & premenstrual symptoms, adult

females, 6287 paraldehyde & barbiturates & phenothiazine & butyrophenone & antihistamines & benzodiazepine, alcohol withdrawal treatment & complications, 9613

personality characteristics, depression & side effects caused by oral contraceptives, women, 6709

Sight Vocabulary

physical practice vs. mental practice vs. both vs. using hand as pacer, reading performance, 8th graders, 9972

sight recognition vs. phonic instructional methods, word recognition errors, 1st graders, 9836

Sign Language

manual methods vs. spoken English in describing referents & game rules, quality & accuracy of peer-to-peer communication skills, deaf vs. hearing 8 & 11 yr. olds, 4727

molding & imitation & freestyle training method, sign language, chimpanzee, 497

new signs in sign language, instructional purposes, 11843

sign language therapy, language development, congenitally deaf

spoken vs. gesture language, language-use development, deaf vs. hearing children, 7083

verbal vs. sign language, story communication & verbal thinking, deaf-mute vs. normal hearing 3rd-8th graders, 4735 Sign Rank Test (See Wilcoxon Sign Rank Test)

Sign Test

Signal Detection (Perception)

age, backward dichoptic masking & signal processing time, young vs. middle-aged vs. old Ss, 6540

agreement & disagreement, memory performance & confidencelevel & response bias, group, 9105

anxiety, cue intake range & attention in signal detection task, 3536

auditory psychophysical procedures, software system to collect & analyze data, 1602 auditory sensitivity & response bias estimated by signal detection

analyses, EKG arousal cycle, 21-28 yr. olds, 6122 auditory-visual stimulus modality & cue-signal sequence & interval,

signal detection, 5859 backward masker fringe & diotic & pulsed dichotic tonal signals, signal detection, 5907

binary decisions in signal detection, auditory average evoked potential late components, 323

constancy of threshold quantity & energy of continuous signal, principles for optimal reception of information in human visual system, 10325

continuous & gated sinusoid masking, tonal signal detection, 129 continuous military operations, selected military tasks, Army enlisted men, 5597

contralateral sinusoid-to-noise ratios, masked signal detection, 187 contrast & motion in television display, target detection field, practiced staff members, 1632

counting vs. motor responses to signal vs. nonsignal tone stimuli, heart rate & skin conductance, right-handed male college students, 6111

differential microvolt signal generator, adjustible waveform parameters for signal tracing, 6193

display size & redundant & alternative signal numbers, correct visual detections frequency & correct & error latencies, young extraretinal signals, visual perception of direction, 160

flat vs. curved markers, traffic marker signaling capacity, 8118 gazing straight ahead vs. scanning visual field & signal light color & position & onset vs. offset, reaction to colored light, undergraduates & enlisted men, 8270

identical vs. different light pairs discrimination, signal detection, pigeons, 6427

in-phase vs. reversed in-phase signals & signal frequency, uncorrelated noise masking level difference, 153

information load & location & observational mode, detecting & identifying brief targets, Army enlisted night vision device operators, 10295

instructions & luminance & interstimulus interval & u-shaped metacontrast functions, detection, college students, 8274

instructions to imagine symmetrical dot pattern as vertical vs. horizontal grating, detection of vertical grating in same visual field as dot pattern, college students, 10350

interaural time & intensity, detection of difference between dichotic signals & diotic tones of same frequency, male college students & adult, 107

latency data, implications for threshold & nonthreshold models of signal detection, 173

marihuana, peripheral light detection as function of information processing demands in vision, 10657

masker & signal duration & diotic & dichotic listening conditions, tone detection, 5889

monaural & antiphasic psychometric detection functions invariance, 5876

monocular vs. binocular judgments with varying luminanceduration parameters to each eye, detection rates, 8346

multiple Os making binary risk decisions, signal detection performance, 8282

neural pulses summation vs. energy summation, prediction of auditory masking function slopes, 146

nonparametric indexes, sensitivity & response bias in detection & recognition experiments, 8328

partial recognition & signal detectability & 2 loss of items" models, peripheral visual information storage, modification of G. Sperling's paradigm applied to audition, 248 preference for signaled vs. unsignaled unmodifiable rewarding

outcomes, college students, 8388

reading ability, letter scanning rate for presence or absence of predetermined letter, 2nd & 6th graders, 7861

recognition memory task for high & low familiarity & meaningfulness lists, internal consistency of signal detection theory, 205 red flag vs. slow moving vehicle emblem, detectability of slow

moving vehicle, 12131

relative measure of different camouflage finishes & absolute measure of detection range for any particular finish, detectability range of camouflaged targets, Army men, 1595 response criterion in auditory signal detection, average evoked

potential, 1818 response simultaneity, detection & recognition of colored light

flashes, male Ss, 3618

safety signals, extinction of discriminated avoidance response, female rats, 8721

search area size, target acquisition with passive night vision devices, operators, 5598 self-checking in correct signal detection, vigilance, 19 25 yr. old male

undergraduates, 5860 sensitivity & response bias parameters of signal detection theory,

criticism of L. Hochhaus's calculation, 1653

shadowing vs. monitoring techniques of attention control vs. 1-trial serial recall technique & serial position effect, response organization & detection probability, college students, 3753

signal delay & frequency & inverted vs. in-phase listening & cardiac sounds & EKG masking, binaural analysis & signal detectability, males, 5867

signal detectability & luminance, temporal discrimination of 2-pulse visual stimuli, 138

signal detectability, criticism of M. Hammerson & P. Atlham's new measure, 3604

signal detection & threshold measurement, reply to P. Issac's criticism of M. Treisman & T. Watts's method of analysis, 10371

signal detection theory, auditory intensity selectivity, 7-8 vs. 13-14 vs. 19-20 yr. olds, 6509

signal detection theory, type I & II errors in industrial inspection, factory inspectors, 3448

signal detection vs. high vs. low threshold theory, multiple observation task performance, militiamen & undergraduates, 10316

signal presentation methods, signal detection during vigilance, literature review, 3550

simultaneous voicing of number & visual presentation & voicing of different number than one presented & no voicing, visual recognition of 2-digit numbers, undergraduates, 1557

spatiotemporal characteristics, parallel processing of multielement displays using search & same-different detection tasks, 5967

specialized search training on search method & pattern, target detection, enlisted men, 5596

stimulus interval & foreperiod duration & signal position, click-fingertap synchronization, undergraduates, 3540

stimulus-light color presentation against different background colors & dim vs. bright illumination, detection speed & recognition of signal lights, college students, 1638

tactile detection of signal nail higher than noise nails, signal detection theory application, 1589

temporal location within pulse, light pulse gap detectability, undergraduates, 1654

uncertainty zone measurement methods, threshold determinations,

visual evoked potential, signal detection task accuracy & confidence, 8325

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

visual-time-compression, discrimination of target echoes from noise & clutter on radar displays, technical aerospace personnel, 5671

2-channel auditory signal detection, correlated vs. uncorrelated vs. opposite-phased signals, female college students, 162 Signal Intensity (See Stimulus Intensity)

Significance (Statistical) (See Statistical Significance)

Silent Reading

cognitive style & instructional modes of reading printed material vs. listening to recorded audio presentations, achievement, 10th & 11th graders, 7768

stuttering & silent vs. oral vs. choral reading, eye fixations & retraces, undergraduates, 4829

sustained silent reading, childhood development, 3268

Silicone

Similarity (Stimulus) (See Stimulus Similarity)

Simple Schizophrenia

chlorimipramine treatment, hospitalized females with depressive forms of schizophrenia & manic depressive psychosis, 2981

diagnosis age of simple & hebephrenic schizophrenia & follow-up diagnoses, 7242

verbal learning & verbal conditioning, acute vs. chronic & simple vs. paranoid schizophrenics vs. psychotics vs. normals, 995 Simulation (See also Computer Simulation, Flight Simulation,

Heuristic Modeling, Markov Chains, Mathematical Modeling, Simulation Games, Stochastic Modeling)
in-basket" & role playing" simulation techniques, counselor education efficacy, graduate students, 9258

administrative behavior simulations & perceptions, organizational

effectiveness, naval officers, 12145

aggressive vs. nonaggressive male vs. female models, play & verbal behaviors, emotionally disturbed 7-12 yr. old boys, 11359

audiotape & film therapy education program showing good group therapy behavior, therapy group interaction & member anxiety & member-group attraction, undergraduates, 9778

confederates vs. simulated group vs. naive majority technique, conformity studies, 8184

congeneric measurement model, estimating true scores using group membership, 8254

deterministic Moore automata model learning machine, 3413

driving simulator training, skill transfer to real automobiles, 23 27 yr. old driving trainees, 5632

dynamic response of viscoelastic sphere bonded to elastic shell, mathematical model of head injury, 7142 economic model of market for psychologists based on supply &

demand & salaries, 889

games & simulations, learning application & behavior insight & analytical thinking, 5521

individual communication model evaluations, psycholinguistic origins & developments & literature, 9139

information processing model for cognitive processes with consciousness properties, 1763

learning equations of S. Grossberg, comment on M. Arbib's theorem, 1529

live vs. televised behavioral vs. live verbal peer model, conformity vs. deviation, 2nd & 3rd graders, 1-mo. follow-up, 10523

low frequency noise generator, simulating waking & sleeping EEG, 6192

model of cerebellum as anesotropic spatial filter, 269

model using training operations & operations for measuring intelligence, teaching intelligence, 8406

potentially fatiguing configurations & physical & visual interference factors & spatial relationships, workplace design of man-machine systems, biokinematic model, 3409

prediction time & correctly predicted steps & extent of deviation & number of controlled instruments & difficulty of principle, dynamics of prediction in simulated situation, operators & apprentices in chemical plant, 8144

psychomotor performance data, factor analysis of actual vs. simulated driving task, 18 59 yr. old males, 3383

pure-tone & speech & Bekesy audiometry, simulated hearing loss, normal hearing adults, 1575

simulated social skill training with videotapings & group discussion, group problem solving, elementary school students & counselors, 11852

supervisor style & presupervision audio modeling vs. no modeling conditions, learning of empathy in supervision analogue, college students, 904

TV vs. point light source vs. direct optical viewing vs. moving picture driving research & training simulators, 3446

validation & extension of contingency model, leadership effectiveness, review, 11063

written & lecture & lecture-modeling & modeling-role-playing, instructional techniques in child management for parents, 10890 Simulation Gam

advanced vs. no quantitative training, interactive-decision simulation game performance, 1689

classroom simulation games & role identification & game structure, political attitudes, 8th graders, 9985

interpersonal choice game, formation & disintegration of coalitions, college student triads, 806

number of plays of social simulation game called Ghetto, change in attitudes toward ghetto people, high school students, 11081

personality traits & simulation game playing, social studies concept recognition, 11th grade history class students, 5541 role identification & democracy simulation game structure, political

attitudes, 14 17 yr. olds, 1322

simulation games, modification of prejudicial attitudes toward blacks, white teacher trainees, 5303

simulation, restrictive definition & theoretical application & research & instructional examples & incorporation into educational games, 5356

supervision of whites by blacks, interracial difficulties in working together in simulated organization, undergraduates, 1448

Simulators (See Simulation)

Sin

Sincerity

insecurity in early recollections, empathy & genuineness in counseling & life-style, guidance personnel, 4582

personality traits relevant to cooperation in tractor production mutual choice, coworkers, 1461

Single Perso

heterosexual cohabitation, evolving courtship patterns & personal & marital adjustment, unmarried undergraduates, 7887 Sisters

Situational Attitude Scale

Sixteen Personality Factors Question

Achiever Personality scale of Opinion Attitude & Interest Survey & 16 PF, introversion & sensitivity & creativity, college freshmen meeting test criteria, 4515

Cattell's 16 PF questionnaire norms, Irish male college students,

cigarette smoking, stress response & RT to traffic light signals & heart rate & blood pressure & calf blood flow & respiration rate & 16 PF scores, 1835

constructional validity, translation of Cattell's 16 PF Questionnaire, army political officials, 8217

conventional-academic vs. laboratory-practicum education, 16 PF personality characteristics, counselor trainees, 4572 cross-cultural stability of 2nd-order factor structure, 16 PF, 8238

direct examination & factor analysis, MMPI & 16 PF validity, admissions to state mental hospital, 9221

ideal date preferences & 16 PF & Motivational Analysis Test characteristics & S's scores, date success & interpersonal attraction, undergraduate & graduate students, 6798

MMPI & 16PF diagnostic utility, homosexuality, homosexual & heterosexual prison inmates, 4979

Persian translation of Cattell's 16 Personality Factor test, personality patterns & comparison with American norms, 17 19 yr. old Iranian high school students, 8950

personality traits measured by 16 PF scores & House-Tree-Person drawings, college students, 860

physical training program, 16 PF & weight & estimated maximum oxygen uptake & respiratory rate & vital capacity & RT & flexibility & heartometer measures, 60-79 yr. olds, 6471 primary & 2nd-order factors, Cattell's 16 PF Battery, 8212

stress levels & driving situation difficulty level, steering & braking & traffic indicators operation RTs & heart rate & blood pressure & respiration & calf blood flow & 16 PF scores, 19 26 yr. olds, 3365

test-retest reliability, MMPI & Thorndike Dimensions of Temperament & Occupational Interest Inventory & Allport-Vernon-Lindzey Study of Values & Eysenck Personality Inventory & 16 PF & Otis Quick-Scoring Mental Ability Tests, male inmates, 2670

16 PF & Cornell Medical Index & H.1.P. Pregancy Questionnaire & Loevinger Parent Attitude Test, psychological aspects of preeclamptic toxaemia, married primiparae, 7261

16 PF & Runwell Symptom-Sign Inventory, neurotic vs. psychotic depressive patients, 9340

16 PF scores & age & sex, time-estimation accuracy, 13 69 yr. old males & females, 3539

16 PF, predicting counselor effectiveness, student counselors, 900
Sixteen PF Questionnaire (See Sixteen Personality Factors Question)

Size

aperture size & stripe size & luminance & motion direction, visually perceived velocity, psychology students & staff, 5881

display size & number of targets, visual target search time, college students, 8300

familiar vs. relative size cues & surface texture, relative distance judgments, adults, 5877

inducing circles size & distance between inducing & test circles, apparent size of test figures, 8283

size cues vs. no cues, weight perception, congenitally vs. adventitiously blind Ss, 7191

size estimation & reaction time & vigilance tasks & Goldstein-Scheerer Object Sorting Test & proverb-interpretation task, attention dysfunction, schizophrenics & nonschizophrenic psychiatric patients, 9384

solid objects vs. photographs vs. drawings of objects as visual stimuli & grade level & sex, visual observation & comparison tasks focusing on color & size & form & form-detail, elementary school students, application to teaching materials & methods selection,

Size (Apparent) (See Apparent Size) Size (Group) (See Group Size)

Size Discrimination (See also Apparent Size)

accommodation vs. visual image size correction, size constancy,

mathematical modeling, perceptual constancy of object size, 10292 modified Muller-Lyer illusion, length & width judgment, college students, 5826

monocular & binocular viewing & visual angles, size perception of standard & comparison rod located at different distances from S, 5874

mutual visual masking production by gratings & bars, visual frequency response to aperiodic stimuli, possible neural populations selective for size & orientation, 185

outline figures, familiar objects size judgments, 3606 parallel vs. converging vs. diverging walls, apparent size & distance scales, college students, 179

retinal frame size, binocular & monocular perception of line distance & size, undergraduates, 1592

shape vs. size, asymetric confusability between circular vs. noncircular coins, 22 72 yr. old British housewives, 8349

size judgments presented through visual-haptic vs. visual touch commonality, visual-manual commonality, college students, 161

smallest vs. largest vs. equally large objective contrasts presented in single vs. serial contexts, memory estimations of real size, college students, 238

stimulus similarity, size difference judgment response amplitude & latency, 7th graders, 10299

stimulus size & spatial position & identity, visual hierarchical feature processing, college students, 3562

study method for structure of fixed set, application to size judgments, 3585

target size differences, searching time, 74

test line position & age, Ponzo illusion magnitude, 2nd-8th graders vs. undergraduates, 1637

token reward vs. response contingent reinforcement & reward consumability, size discrimination, 3rd graders, 5934

Skeletal Muscle Relaxant Drugs (See Muscle Relaxing Drugs) Skeletomuscular Disorders (See Musculoskeletal Disorders)

Skepticism

Skewed Distribution

group size & diverse test score distribution characteristics, estimation of ability parameter of Rasch measurement model,

multiple-response personality items with highly skewed response distributions, unit-weighted keying system in personality scaling, 1535

sensitivity to nonnormality due to skewness, normality test based on g. 1508

test reliability & item difficulty indices of variance & skewness, standard error of estimate in item-examinee sampling, 5794

Skill Learning (See also Fine Motor Skill Learning, Gross Motor Skill Learning)

instructions regarding future testing date, verbal & motor memory, college students, 10381

sensorimotor & psychological & mental & social fundamentals, skill, book, 3630

single-vs. multiple-problem vs. no training, novel problem-solving learning, 2nd & 3rd graders, 6491

training in pantomime & extemporaneous speaking & improvisation, dramatic & public speaking skills, kindergartners & 1st graders, 12025

Skilled Industrial Workers

cognitive style & personality dimensions, sensitivity training effectiveness, black machine operators & their white supervisors & predominantly white low-level supervisors, 10149

Skills (See Ability/)

Skin (Anatomy)

dermal traits, profoundly vs. severely retarded with Down's syndrome, 7126

differential termination of extero- & proprioceptive components of cuneocerebellar tract, mossy fiber inputs & processing skin & muscle information, cats, 280

electrolyte concentration, skin potential recordings during controlled vs. uncontrolled epidermal hydration, 3805

judgment of skin color vs. perception of own skin color & social class & age & region & social mobility, black ethnic identity, U.S.A. blacks & Africans, 667

perceptual differentiation vs. carpenteredness vs. skin pigmentation, Muller-Lyer susceptibility, 10-70 yr. old Temnes vs. Eskimos vs. Aborigines vs. Indigenes vs. Scots, 660

static force & stimulation site & area of probe & presence of a surround, mechanical impedence of skin, sophisticated male undergraduates, 1627

Skin Conduction (See Skin Resistance)
Skin Disorders (See also Acne, Allergic Skin Disorders, Alopecia, Dermatitis, Eczema, Herpes Simplex, Lupus, Neurodermatitis, Pruritus)

community attitudes & reactions, differential psychic functioning,

leprosy patients, 2620 hypnosis with hives vs. Raynaud's disease suggestion, absence of suggestion effects, 6180

prolonged isolation, aggressive behavior & body weights & somatic & behavioral abnormalities, mice, 6222

sexual & emotional problems, skin disorders, 11419

shared beliefs of dermal parasitosis, parents & 2 daughters, 11373 stress-related dermatoses, suicide victims, 4841

Sturge-V/eber syndrome, oculocutaneous melanosis, patients, 1035 Skin Electrical Properties (See also Basal Skin Resistance, Skin

Potential, Skin Resistance) Skin Potential

auditory & temperature stimulus intensity, heart rate & skin potential & skin resistance change, 2.5 wk. old infants, 8508

brief high-intensity airplane anticollision light backscatter, occipital EEG & heart rate & respiration & skin potentials & eyeblinks, instrument rated pilots & nonpilots, 3460

cephalic skin potential distribution, contamination of scalp-record-ed EEG, 3823

electrolyte concentration, skin potential recordings during controlled vs. uncontrolled epidermal hydration, 3805 peripheral denervation & death, spontaneous skin potential

response, cats, 6337

pre- & post-parasleep recordings of skin potential level & response, college students, 6172

relaxation state & finger site, palmar skin potential, habituated vs. nonhabituated males, 6109

simple light stimuli vs. complex sound stimuli, habituation of palmar surface skin potential reflex, monkeys, 6212 Skin Resistance (See also Basal Skin Resistance)

auditory & temperature stimulus intensity, heart rate & skin potential & skin resistance change, 2 5 wk. old infants, 8508

auditory stimulation, skin conductance orienting activity, schizophrenics, 9360

boredom, galvanic skin potential & skin conductance & heart rate & TAT & general intelligence scale of Army General Classification Test scores, female undergraduates & Army enlisted men, 3812

continuous phobic stimulation, heart rate & skin conductance & subjective anxiety, phobic patients, 7683

counting vs. motor responses to signal vs. nonsignal tone stimuli, heart rate & skin conductance, right-handed male college students, 6111

cumulative expectancy, alertness & skin resistance, college students, 8520

endogenous vs. reactive depression, salivation & EMG & skin conductance & blood flow, depressive patients, 2706

fatigue & arousal in simulated car driving, steering errors & brake RT & subjective fatigue & pulse rate & respiratory rate & skin resistance & neck muscle tension, 20 25 yr. old psychology & driving school students, 8057

goal orientation vs. aversion, electrodermal recovery rate, medical students, 6125

incentive level & difficulty & novelty in choice serial RT task, pulse & respiration rate & pulse volume & skin conductance level & muscle tension, 22 59 yr. old females, 6208

prefrontal cortical ablation, evoked skin potential reflexes, kittens & cats. 8696

progressive relaxation training vs. instructions to tense muscles vs. relax vs. sit still, skin resistance, 6128

propranolol vs. sotalol vs. placebo, subjective mood self-ratings & EEG & finger tremor & pulse rate & skin conductance & RT & key tapping & card sorting & WAIS Digital Symbol Substitution Test, 19 29 yr. olds, 1895

psychophysiological assessment using tonic & phasic modes of palmar skin conductance & finger blood & pulse volumes, linguistic response complexity to syntactically different sentences,

push-button switch using thumb skin conduction, differences in readiness potential, 6132

repeated viewings of filmed accident vs. benign scene in vs. out of context, skin conductance & self-reported distress & heart rate, implications for desensitization therapy, male undergraduates, 3766

response requirements & directional fractionation, heart rate & skin conductance & digital & cephalic vasoconstriction, male college students, 8528

Sensation Seeking Scale score, predicting need for visual stimulation during short-term sensory isolation & skin resistance, college students, 4510

Skin Tem

high cockpit temperatures, heart rate & deep body & skin temperature & urine output & sweat loss & performance in instrument flight task simulator, instrument rated pilots, 3403

hypnosis, control of hands' skin temperature in opposite directions,

long exposure to cold water, controlling wet submersible, underwater pilots, 1464

Skinner Boxes

Skull

Sleep (See also NREM Sleep, REM Sleep)

actographic bed with electronic logic network & infrared

photographic system, recording body posture during sleep, 6174 ge & sleep vs. awake states, heart-rate component of orienting & defensive responses, infants at 6 &/or 12 wk. of age, 10898

age, amount of sleep & REM sleep & length of sleep bouts & sleep EEG, 104 1005 day old male rats, 349

amphetamine withdrawal, affective state & sleep patterns & methoxy-hydroxyphenylglycol excretion, hospital amphetamine

analog frequency analyzer & digital computer methods, quantitative EEG analysis of electrosleep, 22 41 yr. old male volunteers, 3804 awakening during different sleep stages & phases & cycles, subjective judgments of preceding night sleep duration periods,

492 behavioral activity & posture & eye movement & cortical EEG & EMG observations during wakefulness vs. light vs. deep slow wave vs. REM sleep, tree shrews, 6097

cerebral cortex & striatum removal, sleep reduction, cats, 468 clonidine & noradrenaline & methysergide & LSD & phentolamine & p-chlorophenylalanine, sleep, chicks & rats & cats, 398 constant level clicks during all-night sleep, averaged electroence-

phalic response, college students, 10568

continuous high intensity white noise vs. quiet, sleep cycle, college students, 10584

data collection during sleep & wakefulness, excessive frequency of micturition, 24 yr. old male, 4910 delta-8-tetrahydrocannabinol, EEG during sleep, depressed insom-

niac, 11552

depressive illness, sleep patterns, psychotics vs. neurotics, 4802 discrimination & cluster analysis, sleep staging systems, unrestrained chimpanzees, 10557

diurnal sleep-wake cycle, episodic release of prolactin, males vs. nulliparous females, 6188

drowsiness & sleep, physiological & pathophysiological periodic phenomena, patients with sleep disturbances, 10563

EEG & behavioral aspects & arterial ammonia level, night sleep, cirrhotics in porto-caval encephalopathy, 1004
EEG & electroculogram & neck EMG & head movements,

undisturbed sleep & wakefulness, pigeons, 341
EEG & eye movements & tonus & respiration & EKG &

electrodermogram, afternoon sleep in normal vs. sensory deprivation environments, 20 26 yr. olds, 8560 EEG asymmetry during sleep & arousal, 4yr. old female pilot whale,

1825

EEG recordings during nocturnal sleep, 38 68 yr. old Parkinson's disease patients, 2760 EEG recordings vs. telemetric mobility counts, sleep measurement,

sychiatric patients, 2666 pastenate patents. EEG vs. electro oculography, delta rhythmicity in human sleep, navy enlisted men, 6147

EEG, sleep & development, 2-41 mo. old chimpanzees, 8496 EEG, sleep & REM, chimpanzees from birth to 2 mo. old, 8497

electroclinical characteristics, pavor nocturnus of nonepileptic nature, epileptic children, 9475 EMG of neck & limb & respiratory muscles & different

environmental temperatures, sleep patterns, cats, 8552 evoked responses, postulated neural circuit associated with sleep-

waking process in lower brainstem, decerebellate intact cats &

transected & transected split preparations, 361
fenfluramine vs. p-chlorophenylalanine, sleep patterns, cats, 6280
good vs. poor sleep habits & day & night adrenocortical activity & MMPI & Cornell Medical Index & Eysenck Personality Inventory, male students, 2474

GSR & EEG & EKG & EMG, vigilance & learning & sleeping & wakefulness & introversion & extroversion, literature review, 6095 Hoe 264 & heptobarbital, sleep & polygraphic measures of vigilance & attention & EEG & arm muscle contraction & RT & pneumogram & EKG & galvanic skin resistance & blood

ressure, young adults, 3881 hybrid automatic sleep-scoring system vs. visual scoring, intra-interrater reliability, clinical use in investigation of sleep disturbances, 3791

hyperbaric nitrogen saturation, sleep & heart rate & EEG, aquanauts, 10572

instrumental diagnosis using polygraphic & cystometric recordings during nocturnal spontaneous sleep & pharmacologically induced sleep, Ss with nocturnal enuresis, 9328 kinesthetic & auditory stimulation, duration & amount of sleep &

wakefulness, premature infants, 6461

- lorazepam, sleep stages & latency & phasic integrated potentials, 17 24 yr. olds, 3890
- low & high voltage-high & slow frequency EEG & EMG sleep & wakefulness, owls, 261
- low vs. rising vs. high sex hormone levels during ovulatory menstrual cycles vs. hormone intervention by oral contraception, sleep patterns, women, 1802
- nervous system maturation, sleep, book, 10535
- nocturnal penile tumescence characteristics, elderly males, 6529
- nocturnal sleep duration, aggressive & other dream content & dream recall frequency, female undergraduates, 3751
- paired-associate training during sleep Stages 2 or 1-REM & 4, recognition, high school students, 6012
- papaverine & sleep deprivation, sleep cycles & EEG & noradrenaline & 5-hydroxytryptamine, male rats, 3856
- papaverine, wakefulness & sleep, male rats, 3857
- parachlorophenylalanine & 5-hydroxytryptophan & L-tryptophan & a-methyl-5-hydroxytryptophan & MAO inhibitors & a-methylparatyrosine & a-methyl-phenylalanine & L-dopa, REM sleep & soporific effect in insomniacs & slow wave sleep, medical & psychiatric patients & normals, 5282
- paradoxical phase of sleep, reactive capability of auditory system, cats with chronically implanted electrodes, 8657
- paradoxical sleep deprivation & age differences, propensity for paradoxical sleep, rats, 6150
- peak-to-peak vs. multiple-component amplitude measures of auditory evoked responses during all-night sleep, correlation with EEG intensity, 2 3 yr. olds, 6202
- pre- & post-parasleep recordings of skin potential level & response, college students, 6172
- prednisone, REM & stage II sleep & eye movement & waking time, 18 22 yr. old college students, 6261
- presence vs. absence of human growth hormone release in early sleep, nightly plasma tyrosine rhythm & amplitude, normal 18 21 yr. old males & 13 & 15 & 59 yr. old panhypopituitarism patients,
- quiet sleep phases as measured by EEG, 2 & 12 & 24 wk. old normal vs. 12 & 10 wk. old premature infants, 6485
- recording apparatus, sleep duration & distribution in clinical situation, patients, 2904
- recording technique & sleep, scalp-recorded somatosensory & somatomotor responses, 8509
- REM & NREM sleep reports, hallucinatory fantasy, schizophrenics & college students, 9314
- Rc 5-4200 vs. nitrazepam, falling asleep & sleep duration, psychiatric patients, 11754
- schizophrenia, biochemical & sleep studies, literature review, 1960
- sexual activity, sleep patterns, 3774
- simulated sonic booms during sleep, mood changes, 21 26 vs. 40 45 vs. 60 72 yr. olds, 5899
- simulated sonic booms during sleep, morning vs. evening mental arithmetic & pattern discrimination & monitoring task performance, 21 26 vs. 40 45 vs. 60 72 yr. olds, 8268
- single & repeated alcohol doses & blood elimination rate, sleep stages & EEG frequencies & heart & respiration rates & GSR, 21 30 yr. old students, 3951
- sleep & controlling for time of day, memory, college students, 8356
- sleep & dreaming vs. dream deprivation, recall of ego-threatening or nonthreatening material, college students, 8396 sleep & EEG & body & eye movement & temperature, circadian
- rhythms, monkeys, 6117 sleep & wakefulness, synaptic transmission in ventrolateral thalamic
- nucleus, cats, 8517 sleep & waking, simple spike firing patterns of cerebellar Purkinje
- cells, cats, 6168
- sleep & waking, spontaneous discharge rates of cerebellar Purkinje cells, cats, 8530 sleep stage scoring, classification method for EEG sleep recordings,
- sleep stage, response to hypnotic suggestion & depth of hypnotic state, highly susceptible students, 10555
- sleep stages, signaled vs. unsignaled arousals from sleep, undergraduates, 3592
- sleep, changes in interhemispheric amplitude relationships in EEG, male humans & female cats & male rabbits, 3794
- somatic & visual & auditory stimulation during wakefulness & sleep, primary cortical areas control, cats with chronically implanted electrodes, 8623

- stimulus interval, auditory evoked response during Stage 2 and REM sleep, 25 yr. olds, 1816
- thioridazine & chlorpromazine & averaged electroencephalic audiometry during sleep, mentally retarded adults, 9707 time zone changes, sleep, 20 45 yr. old males, 8516
- tone intensity & sleep phase & chlorpromazine sedation, auditory evoked response detection reliability, adults vs. chlorpromazine sedated 3 4 yr. olds vs. children referred for audiometric
- diagnosis, 10666 visual imagery of dreams, rapid eye movement, 307
- wakefulness & synchronized sleep & steady photic stimulation, tonic response of central visual path neurons, midpontine- pretrigeminal cats, 368
- within- & between-S data analysis designs, Stage II sleep physiological correlates, alcoholics, 6105 Sleep Deprivation
- papaverine & sleep deprivation, sleep cycles & EEG & noradrena-
- line & 5-hydroxytryptamine, male rats, 3856 paradoxical sleep deprivation & age differences, propensity for paradoxical sleep, rats, 6150
- perceptual & sleep deprivation, ultradiam biologic rhythm & EEG & REM sleep cycle oscillations, 3810
- prolonged sleep deprivation, circadian variation & psychomotor performance & psychological ratings & catecholamine excretion & diuresis & fatigue, 20-64 yr. old military officers, 386
- selective attention & set & interference, schizophrenic graphic representations, nonparanoid schizophrenics vs. paranoid schizophrenics & sleep-deprived college students, 11456
- sleep deprivation, auditory & visual simple RT & complex RT, college students, 3559
- sleep deprivation, dynamic strength & stamina, 17-23 yr. old male undergraduates, 3622
- sleep deprivation, urine volume & creatinine levels, young adult males, 1824
- stressful movie-viewing & REM & non-REM sleep deprivation, anxiety & adaptation, college students, 3688
- total sleep deprivation & urine volume, circadian rhythm of 17hydroxycorticosteroid & vanillymandelic acid excretion, healthy males, 1821
- 24-hour sleep deprivation, decrement rate in auditory reaction time, college students, 8306
- Sleep Disorders (See also Insomnia, Narcolepsy, Sleepwalking, Somnambulism)
- active vs. simulated electrosleep treatment, anxiety & sleep disturbance & depression, neurotic & depressed outpatients, 1220 barbiturates & tranquilizers, clinical observations & EEG, children
- with sleep disturbances, 7620 detoxification, ward behavior & medication amount & sleeping difficulty, 26 38 yr. old male vs. female heroin addicts, 4953
- drowsiness & sleep, physiological & pathophysiological periodic phenomena, patients with sleep disturbances, 10563
- Guided Self-Rating Anxiety-Depression Scale for use in clinical psychopharmacology, intensity & recurrence ratings for anxiety & depression & somatopsychic asthenia & somatization & hypochondriasis & sleep disturbance, 7460
- hybrid automatic sleep-scoring system vs. visual scoring, intra-& interrater reliability, clinical use in investigation of sleep disturbances, 3791
- NREM sleep & sleep duration, patients suffering from narcolepsy-cataplexy & sleep paralysis & hypnagogic hallucinations, 7626 imipramine & dexphenmetrazine & amphetamine sulphate, REM &
- sentic cycles method of M. F. Clynes, subjective anxiety & depression & hostility & sleep disturbance relief & coping, mental health professionals & psychiatric patients & chronic schizophrenics, 9592
- weather conditions, sleep disorders & psychiatric clinic admission, schizophrenics vs. depressives vs. alcoholics vs. psychopaths vs. drug addicts vs. neurotics, 7138
- Sleep Inducing Drugs (See Hypnotic Drugs)
- Sleep Onset antidepressants & drowsiness, therapeutic improvement, mildly depressive patients, 3076
- body movements, sleep stage change prediction, 19-23 yr. old males,
- doxepin & diazepam, anxiety & somatic complaints & drowsiness, muscular weakness & constipation, anxious neurotic outpatients,
- EEG criteria measurement, sleep onset, 18 23 yr. old males, 6085

human growth hormone release temporal pattern, sleep onset, sleep onset vs. transition from waking to sleep, healthy 23 31 yr. olds,

Ro 5-4200 vs. nitrazepam, falling asleep & sleep duration, psychiatric patients, 11754

Sleep Talking

reported sleep-talking frequency, dream recall, 3714

Sleep Treatment

active vs. simulated electrosleep treatment, anxiety & sleep disturbance & depression, neurotic & depressed outpatients, 1220 electrosleep standard course, subjective reports, nonpatient controls,

Sleepwalking (See also Somnambulism)

son Intelligence Test For Child

Slosson Intelligence Test vs. WISC validity, 8 14 yr. old students referred to reading clinic, 7852 test validity & reliability, Slossen Intelligence Test, gifted 9-11 yr.

olds, 10266

validity of Columbia Mental Maturity Scale & Peabody Picture Vocabulary Test & Slosson Intelligence Test, mental abilities assessment, mentally retarded children, 9950

group vs. individual testing & standard pencil-&-paper vs. nonpaper-&-pencil administration, Bildertest of Intelligence scores, normal students vs. slow learners, 7870

Slow Wave Sleep (See NREM Sleep)

Slums (See Poverty Areas)
Smell Perception (See Olfactory Perception)

Smiles

exposure duration, magnitude estimates of smiles, college students. 11128

smiling frequency & positive statements about other people, interpersonal warmth, college students, 4381

speech cues vs. silence & mother vs. inanimate object, peekaboo game response & smiling, 4 mo. old boy, 6507 Smoking (Cigarettes) (See Tobacco Smoking)

Smoking (Tobacco) (See Tobacco Smoking) Smooth Muscle Relaxant Drugs (See Muscle Relaxing Drugs)

Sneile Snake Phobia (See Ophidiophobia)

pentylenetetrazol & bemegride & picrotoxin & strychnine sulfate, convulsive activity, garter snakes, 415 prey size, ingestion behavior, snakes, 4040

vibratory & light-flash stimulation, habituation & dishabituation of evoked responses, garter snakes, 6088 Sniffing (Glue) (See Glue Sniffing)

Sociability

dependency & impairments in family & heterosexual relations & sociability & leisure interests, unemployed psychiatric outpatients,

mother-father-infant triad & sociability difficulties, commitment to inpatient psychiatric institution, 2 case reports, 5188

personality traits relevant to cooperation in tractor production mutual choice, coworkers, 1461

physical appearance, social responsiveness, college students, 6789 positively- & negatively-evaluated adjectives representing sociability

& responsibility dimensions, impression formation, undergraduates, 2319 sociability & emotional adjustment, personal space preference in

morning vs. afternoon, college students, 6857 social club group meetings & member activities, increasing

sociability, anthropophobiacs, 9785

Social Acceptance acceptance & impact as cognitive mediators, attitude formation & attitude change, college students, 6700

acceptance & reciprocation of self-disclosure, development of trust, college student & trained confederate dyads, 2340

behavior type & psychiatric labeling & etiology of case descriptions of mentally ill, social rejection, nursing students, 2248

capacity to live normal life & social stigma & verbal communication ability & physical visibility of defect & self- vs. friend-affliction & sex, acceptance of anomalous afflictions, 989

discriminant validity of D. Watson's & R. Friends Social Avoidance & Distress Scale, social approach-avoidance & anxiety, 2496

identification with parents & peers & aggression & adult acceptance & orality, Philippine Children's Apperception Test, 5 5.9 yr. old kindergartners from college community & barrio, 611

latitude of acceptance & rejection width, individual differences in attitude change, 2326

participation in extracurricular activities, social acceptance, educable retardates, 12001

positive peer acceptance, spontaneous improvement in social positions, emotionally disturbed children in regular classes, 10091

preferences toward normal white & black physically handicapped male adolescents, retarded white & black non-physically handicapped male adolescents, 3229

self-esteem vs. needs for social inclusion & control of others & for affection, 15 18 yr. old girls, 4524

single vs. array social stimuli presentation methods, social judgment, college students, 11114

social & academic competence, vulnerability to schizophrenia & other psychopathologies, children with schizophrenic & internalizing mothers & externalizing & internalizing children, 9438 theory incorporating labeling & anomie & social & cultural support

theories, homosexual career pattern of deviance-conformity, 8918 training of Englishmen in Arab nonverbal behavior, sociometric choices of Arabs, Arab & English university students, 749

Social Adaptation (See Social Adjustment)

Social Adjustment

academic achievement vs. social adjustment teacher orientation, academic achievement & self concept & adaptive behavior, educable retarded children, 5371

Adaptive Behavior Check List administration & factor analysis of divisions, optimal resident training center development, retardates, 1224

adaptive functioning index, assessment & training & motivation, inadequate young adults, 2681

adaptive style to experienced aversive maternal control, interpersonal distancing following failure, adolescents, 6517

Adlerian group counseling, change in psychological problem category & social interest, 9th graders, 5397 age & education & occupational & financial & marital status & individual health perception & self-care & household task performance & social activity, morale, retired men 65 yr. old & clabs. older, 2193

child- vs. class-oriented teachers, long-term psychological & social adjustment, 6th graders, 9944

cognitive processes expressed in speech, social adjustment, male high school students, 6970

combined medical & educational institute, social & vocational training, moderate mentally retarded 6 14 yr. olds, 9582

communication patterns, families with identified social or emotional adjustment problems vs. ambulatory families, 2687

Cultural Readjustment Rating Questionnaire, perceived magnitudes of stressful events leading to culture shock, returned Peace Corps volunteers vs. Chinese foreign students vs. U.S. students with no intercultural experience, 731

demographic characteristics, multiproblem families with psychiatry & psychosocial predicaments, 7235

dissociality of minors, legal basis of social programs & psychogenic factors of child neglect & therapeutic intervention & prognosis & prevention, symposium report, 5213

education, components of adaptive capacity of individuals & social systems, 3166

formal education & psychoanalytic concepts, adaptation to reality development & reality testing, 3128

group counseling, personal & social & school adjustment, black male adolescents, 5446

group techniques, individual growth & societal change, book, 7541 intellectual functioning vs. adaptive behavior, defining mental deficiency, implications for special education, 4640 intelligence & personality traits & demographic variables, orientation & mobility & personal-social & vocational skills, 16 66 yr. old legally blind 5s, 4843

Leiter Population profiles development, diagnosis of socioeconomic maladjustment, hospital patients, 8227

life changes & reporting style & geographical & socioeconomic characteristics, college students with vs. without infectious mononucleosis, 4901

messages based on operationalizations of knowledge & social adjustment & values, attitude change toward socialized medicine, self-rated liberal vs. conservative undergraduates, 8985

migration between cities of different sizes, social & socio-

psychological integration, 6757

Minimal Social Behavior Scale, differentiation of 3 levels of psychiatric patients vs. normals & groups from each other, 3042

motivation & urban origins & upper vs. middle class status, culture shock & culture fatigue during foreign study experiences, foreign students, 669

music therapy, children learning difficulties & social problems, 7657 obesity, social & emotional adjustment, obese vs. nonobese 3rd vs. 5th vs. 8th vs. 11th graders, 2734

open vs. closed adaptation to aversive maternal control, tolerance for ambiguity, late adolescent males, implications for developmental model of paranoid behavior, 4137

orientation & mobility & living skills before & after training workshop, preliminary performance test battery, 11 20 yr. old blind Ss, 7389

parent educational background, child psychomotor development & adaptability, 10801

parent's perceptions of schooling problems, IQ & social maturity, school withdrawal, retarded children & parents, 11995

perceptual development program placement, academic & social & vocational adjustment & achievement, learning disabled students, 5-10 yr. follow-up, 7804

personal & social adaptations, kidney transplant patients receiving cadaver homografts, 1088

personal & social adjustment factors, vocational rehabilitation, young epileptics, book, 2629

personal adjustment & academic achievement & science study & interests & permissive parental behavior in the past, need for social approval, male college freshmen, 843

pretherapy measures of experiencing & adjustment levels, shortterm play therapy outcome prediction, 8–12 yr. old boys referred to child guidance center, 2846

professional vs. addict peer preferences & ego strength & maladjustment, influence responsiveness, hospitalized female opiate addicts, 7371

psychological adaptation & mental health, college students with retarded siblings, book, 976

psychology of adjustment, book, 2066

Psychopathic & Neurotic factors of Case History & Behavior Rating Scale, guilt & maladjustment, delinquent adolescents, evaluation of H. Quay's personality tests, 4847

sex & urban vs. rural social level, reliability of Polish adaptation of Vineland Social Maturity Scale, 2 30 mo. olds, 8824

social adjustment & personality development, children, book, 10900

social adjustment to blindness, book, 7227

social maturity & multivariate discriminant analysis, personality descriptions of conservatives & activists & radicals, male college students, 10999

Social Readjustment Rating Questionnaire reliability, Navy enlisted men, 8232

state mental hospitalization, social & physical functioning, geriatric patients, longitudinal study, 9721

T-group laboratory learning, ego development, high- vs. low-pathology adolescents, 9820

teacher bias, intellectual & social progress, 8 16 yr. old severely retarded, 7988

teachers annual comments on childhood school records, longitudinal changes in social & emotional behavior, children hospitalized for schizophrenia as adults, 4895

transductive learning technique, social incompetence treatment, male undergraduates, 7682

unemployment for less than 1 vs. 6 12 mo. vs. over 36 mo., status & self concept, unemployed marrieds, 8083

vocational rehabilitation vs. psychotherapy, adjustment problems, black poverty clients, 3032

3- & 6-week periods of residential camping, physical fitness & adaptive behavior, noninstitutionalized 7 21 yr. olds with brain dysfunction syndromes, 1320

Social Approval

affect awareness, social maturity & attractiveness, 2nd & 4th graders, 6578

anger arousal & need for social approval, aggression, college students, 4458

capacity to live normal life & social stigma & verbal communication ability & physical visibility of defect & self- vs. friend-affliction & sex, acceptance of anomalous afflictions, 989

choice vs. no choice & public vs. anonymous essay writing conditions, dissonance vs. incentive effect, 16 17 yr. old students, 757

conformity & underrecall of disagreement & rejection & devaluation of significance, response style to interpersonal disagreement, college students, 4407

deviance & charisma & rule-defined behavior, 9045

E's race & anonymity & need for approval, responses to attitude scale measuring prejudice towards blacks, white college students,

early nonconformity & subsequent conformity of confederate influence & approval in 4-person decision groups, replication & extension of E. Hollander's study, 6877

egocentric communication, peer popularity, kindergartners vs. 2nd vs. 4th vs. 6th graders, 4209

evaluation & task type, small group communication process, 2399

expectations of self & others & disapproval, anxiety & anger, adolescent girls, 4149

high approval motivation, differences in reported self-esteem, 11219 high- & low-approval motivation, self-estimates of academic performance, college students, 5527

illness as justification of failure to fulfill socially prescribed role obligations, welfare mothers & black working class women, 2223

individual prominence & ascendence & social approval scales, norms & reliability & validity, Dutch students, 10250

ingratiating vs. noningratiating situations, evaluation of person who uses another's name, college students, 6825

interpersonal attraction & need for social approval, occurrence of psychological reactance, female college student, 9027

need approval & uncertainty anxiety & client role induction exercises, expectancies of interview behavior with psychologist, college students, 7775

need for approval, autonomy patterns, high academic achieving female college students, 3301

need for social approval, IQ & self-ratings and supervisor ratings of performance in sheltered workshop, 17 37 yr. old mental retardates, 11366

nonbinding suggestion vs. binding decision vs. selection of best of bargainer's proposals vs. no 3rd party intervention & high- vs. low-need to save face, bargaining behavior prior to vs. after intervention, male college students, 774

own-behavior expectation prediction & behavioral conformity prediction to conflicting expectations concerning activity performance, expectational formation & behavior, 2385

peer vs. authority source & prior experience of agreement vs. disagreement, conforming behavior, adolescents, 4402

personal adjustment & academic achievement & science study & interests & permissive parental behavior in the past, need for social approval, male college freshmen, 843

positive or negative reinforcement & need for social approval, attitude change, 735

prior agreement vs. disagreement by peer, influence susceptibility by same vs. different peer, 3rd & 4th & 5th graders, 9095

reward value & social approval expectancy & presence vs. nonpresence of E, peer model imitation, kindergartners, 8363

sentiment & valence & desire for goal attainment, socially mediated Zeigarnik effects, 6817

sex & affiliative tendency & rejection sensitivity, seating preferences & conversation, 4 person groups of undergraduates, 788

sex & remaining vs. not remaining in home town, perception of achieved honors, 1906 1967 high school graduates, 8947

situational set & social approval need, perceptions of stimulus scenes photographed in low-income urban areas, police trainees,

sublimation & Freudian interpretation invalidity, societal approval of proscribed behaviors & aggression & competition & envy & incest, 4336

Social Behavior (See also Aggressive Behavior, Altruism, Animal Aggressive Behavior, Animal Communication, Animal Courtship Behavior, Animal Courtship Displays, Animal Distress Calls, Animal Division Of Labor, Animal Dominance, Animal Maternal Behavior, Animal Mating Behavior, Animal Sexual Receptivity, Animal Social Behavior, Arguments, Assistance (Social Behavior), Attack Behavior, Bargaining, Charitable Behavidr, Collective Behavior, Competition, Compliance, Conflict, Conformity (Personality), Conversation, Cooperation, Criticism, Double Bind Interaction, Encouragement, Eye Contact, Friendship, Gambling, Group Discussion, Group Participation, Group Performance, Interpersonal Attraction, Interpersonal Communication, Interpersonal Compatibility, Interpersonal Influences, Interpersonal Interaction, Interviewing, Interviews, Job Applicant Interviews, Leadership, Leadership Style, Militancy, Negotiation, Nonverbal Reinforcement, Participation, Peer Relations, Persecution, Praise, Psychodiagnostic Interview, Reciprocity, Riots, Risk Taking, Rivalry, Social Acceptance, Social Adjustment, Social Approval, Social Dating, Social Demonstrations, Social Drinking, Social Facilitation, Social Interaction, Social Perception, Social Reinforcement, Threat Postures, Trust (Social Behavior), Verbal Reinforcement, Violence, War)

& upward social mobility, black high school seniors, 2249

educational & occupational & psychological & economic status, nonwhite deaf population, literature review, 11341

ethnic background & vocational-educational aspirations & socioeconomic status & sex, perceptions of secondary school counselors' functions & personal attributes, high school graduates, 3246

ethnic-social class & intelligence & achievement motivation, ability to delay gratification, white vs. black children, 8879

experience in play situation before exposure to film model, imitation of model, working-class vs. middle-class nursery-school boys, 6542

factor analysis of demographic data & socioeconomic & cultural background factors & past history & crime circumstances & victim characteristics & personality & intelligence, males & females who pled insanity to 1st & 2nd degree murder, 990

father's education vs. parental language & ethnicity & social class, academic achievement, Peruvian 5th graders, 9894

geographical mobility & internal-external control, adaptation to university environment, college students, 11899 grade & sex & socioeconomic differences, value preferences, 4th &

oth graders, 6635 intelligence & social class, neurological abnormality in infancy, 11399

intelligence & socioeconomic status, time perception, 14 16 yr. olds,

10913 interaction between supraprocesses" & infraprocesses," development & organization & programs of urban mental health center, population of varied socioeconomic characteristics, 9668

interest patterns & media preference, male vs. female & black vs. nonblack & high vs. middle vs. low socioeconomic status 4th & 5th graders, 2108

IQ & sex socioeconomic status & CA & MA & special treatment effects, language behavior, 6.9 12.8 yr. old educable retarded children in special classes, 1344

IQ & socioeconomic level, reinforcing value of knowledge of correct results, 4th graders, 5366

life changes & reporting style & geographical & socioeconomic characteristics, college students with vs. without infectious mononucleosis, 4901

mental abilities & scholastic achievement & personality inventories & socioeconomic & cultural disadvantage indices, kindergarten & 1st 8th grade Negroes & Mexican-American vs. whites, 11953

middle-class lifestyle & credit & prestige & status & wealth accumulations, cultural addiction, rehabilitation counselors in U.S.A., 11308

motives & values & attitudes & intelligence & sociological background, participation in student activist movements, college students, 6682

paired associate learning & social status & test of logical concrete behavior, reading achievement prediction, 1st graders, 3234 perceptions of classroom role, observed behavior in creativity &

perceptions of classroom role, observed behavior in creativity & interpersonal regard & group activity & individualization, male vs. female 6th vs. 11th graders of high vs. low socioeconomic status, 3250

perceptual & personality & economic variables, price level of product selections, college students, 5645

personal & social adjustment & socioeconomic & marital status & age & symptoms & remission prognosis & characteristics, schizophrenics, literature review, 4719

personality & socioeconomic factors, predicting cigarette consumption levels, adults, 6914

preferred drug type & social & familial status & professional background & motivation & personality structure, drug-depend-ent psychiatric patients, 7257

pretraining, conceptual & problem solving ability, middle vs. lower class 4th graders, 2182

race & blood alcohol levels & social class, collison involvement & arrest frequency, white vs. nonwhite drivers, 12194

race & sex & socioeconomic background & peer & counselor & teacher relationships, self-disclosure patterns within school setting, black & white junior & senior high school students, 3292

race & social class, postfeedback evaluation of ability & effort & difficulty & luck as causes of achievement task performance, white vs. black 5th graders, 597

race & socioeconomic background & age, postural equilibrium test performance, school age children, 631

race & socioeconomic status & age & imagery, learning, 1st & 6th graders, 9852

race & socioeconomic status, academic success, lower- & middleclass Negro & white 5th grade boys, 11911

race & status & attachment to law & to parents, self-esteem & official & personal delinquency evaluations, junior & senior high school students, 4738

racial differences & socioeconomic status, reading achievement after 2 yr. remedial program, kindergartners designated as high risk, 11876

reinforcement type & task & grade level & social class & sex, problem solving & motor learning tasks, 1st & 3rd & 5th graders, 7939

residence background & value orientation, socioeconomic status & fertility preferences, verification of Goldberg's contention, 668

Rotter's construct of personal power & manifest anxiety & occupational aspiration & high school average & class rank & standardized test scores & socioeconomic variables, academic success prediction & persistence in community college, freshmen college students, 9975

rural-urban residence & IQ & locus of control & test anxiety, 9th graders, 590

scholastic aptitude & achievement & school-related activities & having job & car & plans for marrying young & socioeconomic status, dating frequency, high school seniors, 6874

self concept & academic achievement & parent educational background & socioeconomic status & psychological needs, career decision making abilities, community college students, 12122

self concept & age & socioeconomic status & grades & weekly employment & parents' educational background, transfer vs. occupational community college students, 12012

self-concept & occupational aspiration, advantaged vs. disadvantaged 8th grade boys, 7758

sex & age & race & socioeconomic status, delinquent behavior vs. official delinquency, 13 16 yr. olds, 9497

sex & race & socioeconomic status, conversation participation & verbal interaction & encoding style in problem solving communication, adult vs. children dyads, 6809

sex & religion & social & ethnic background & marital status & birth & development & family history, patients with Gilles de la Tourette's syndrome, 9455

sex & socioeconomic status & age & education, drug use patterns & needle sharing & context of shooting & hepatitis knowledge & attitudes, 4732

sex & socioeconomic status, factors affecting academic achieve-ment, high school students, Puerto Rico, 7914

sibling resemblances & socioeconomic status & achievement, divergent thinking, high school students, 10891
social & demographic & age characteristics, codiene syrup abuse,
drug-addict inpatients, 4898

social & economic factors, mental illness, populations in Lima &

Calleo, 11460 social class & ethnic & family background, word errors on Peabody Picture Vocabulary Test, kindergartners & 1st & 2nd graders,

social class & religion & educational level & college major, professional psychological help-seeking attitude, high school &

college students, 2238 social class & school attendance, imitated aggression, working-class vs. middle-class nursery-school vs. non-nursery school 38 56 mo. old boys, 6543

social class measured by occupation, voluntary association membership, rural community residents, 9026

social class, maternal reports of contextual uses of language during child socialization, 6518

social class, relation of remote to recent stressors & psychiatric symptom rates, 7128

social position & social reinforcement, motor performance, 4th 6th grade males, 3599

social status, signature size, replication of R. L. Zweigenhaft's experiment, 733

socio-demographic variables, drug use, college students, 4348 socioeconomic & biographical & medical data & vocabulary test & visual retention test & personality & projective test data, 25 40 yr. old suicide attempt females vs. physically ill Ss vs. normals, 2630

socioeconomic & family cultural factors, mental abilities & academic success, elementary & secondary school students, 5464 socioeconomic background & race & sex, self-esteem & school & peer group & family orientation attitudes, white vs. black vs. Mexican-American vs. Oriental 4th 6th graders, 11980

socioeconomic background, personality traits, 21 35 yr. olds with past vs. present vs. no religious crisis experience, 9200

socioeconomic background, possibility of equality of education, 6 yr. olds, Spain, 11829

socioeconomic class & cross-modal transfer, auditory-visual integration, 7 & 9 yr. olds, 6465

socioeconomic level & individual personality differences & later histories, male juvenile delinquents, 7277

socioeconomic status & differences in Southern black & white speech, origins of black speech, 4369

socioeconomic status & mental illness rates & mental health sophistication, treatment utilization, Negro psychiatric patients & urban residents, 1169

socioeconomic status & nutritional status, motor & exploratory behaviors, 1st graders, 571

socioeconomic status & parent-child relations & number of children in family of origin & personality traits, family size expectations, Puerto Rican adolescents, 6733

socioeconomic status & sex & race & urban vs. rural environment, self concept, children, 9216

socioeconomic status, auditory discrimination abilities, special education vs. normal 8-13 yr. olds, 11499

socioeconomic status, changes during college in family & peer independence & liberalism & social consciousness & cultural sophistication & satisfaction with administration & faculty & major & students & study habits & extracurricular activities, students at Catholic college for women, 11982

socioeconomic status, concrete vs. abstract paired-associate learning task, Negro male kindergartners vs. 3rd vs. 6th graders, application to educational programming, 5557 socioeconomic status, cultural representations vs. cultural behaviors,

urban adults, 6712

socioeconomic status, individual growth, Dakar adolescents, Senegal, 8789 socioeconomic value & behavior differences, educational opportuni-

ty changes, New Zealand, 7721

sociological & personality measures & intelligence, acceptance vs. rejection of rational vs. irrational authoritarianism, Australian adults, 859

standardization of Spanish version of Peabody Picture Vocabulary Test, necessity for 2 scales depending on Ss' socioeconomic background, 10269

status inconsistency, leftist radicalism, lower-class slum dwellers, Chile, 11010

subtest estimates by socioeconomic & sex & ethnic factors, WISC Full Scale IQs, 6 11 yr. olds, 3255

thinking style preferences & age & IQ & ethnicity & socioeconomic status & paired associate learning, school learning proficiency, school age children, 1354

verbal IQ & perception of self in school & race & fate control & socioeconomic status & sex, academic performance, 5th & 6th

verbal-logical & nonverbal-perceptual cognitive processes & sex & race & socioeconomic status, mathematical achievement prediction, 5th graders, 9992

vocational maturity & aspiration, low socioeconomic male vs. female black & Puerto Rican high school underachievers with high potential, 3184

within-community income variability index, within-school system test score variance, 1305

work experience & sex & socioeconomic level, money meaning & values, hard-core trainees vs. employed persons vs. college

Young Children's Social Desirability Scale, social desirability, economically disadvantaged 4 & 5 yr. olds, 10798

Sociograms

age, transitive organization in positive affect sociograms, nursery

school to 6th grade classrooms, 618

equilibrium & congruence models including structural balance schema, multirelational social structure representation, undergraduates & grammar-school students, 11065

race, sociometric ratings & friendship choices, South African Indian & "Coloured" & African university students, 4322

Sociologists

Sociology

aggression in large groups, necessity for psychoanalytic-sociologic cooperation in formulating explanation, 2274

appraisal of A. Coser's theory on dual role of social conflict, 2230 approaches to conflict & warfare, sociological literature review from 1883 to present, 2252

data collection process, S behavior & responses in sociological research, book, 11009

epistemological status of mental health sociology, research trends & bibliography, 2612

key words of psychosociology, book, 6730

moral philosophy & sociology of E. Durkheim, book, 8994 norm internalization, sociological theory of moral commitment,

book, 11018

social role of human communication, 2429 sociologic research, problems of regression analysis, 25

sociological & psychological viewpoints, organizational structure & behavior, book, 5594

sociological theories, book, 8890

sociology of communication, book, 9116

sociopathological outline, social change & primordial role of identification & cultural models, 2358

Sociometric Tests

connection analysis, application to data from sociometric questionnaires, 3510

group counseling with guidance counselor & small group work with special education teacher, personal-social adjustment & self-concept & manifest anxiety & sociometric test results, mentally retarded inner city high school students, 3272

information theory, sociometric measure of number of groups & group boundaries & boundary sharpness & accuracy loss in boundary mislocation, 50

leadership in small groups & human relations, sociometric study, college students, 2368

length of stay in holiday camps & psychodrama & group therapy & leader ratings & sociometric test, diagnosis & treatment, boys to 15 yr. old with behavior disorders, 1222

play vs. discussion groups, sociometric scores by peers, 1st 3rd graders, 11997

sociometric test, book, 5786

Sociopath (See Antisocial Personality)

Sociotherapy

social hour as sociotherapeutic approach, aftercare in psychiatric department of hospital, 5220

Sodium (See also Sodium Ions)

conditioned stimulus associated with formalin administration, water & sodium intake, rats, 473

dietary sodium, renal lithium excretion, manic-depressive patients, 4985

erythrocyte potassium & sodium levels, manic-depressive patients, 9407

lithium chloride multiple vs. single exposure, sodium chloride aversion, adrenalectomized & nonadrenalectomized rats, 8588

lithium vs. sodium vs. potassium vs. rubidium vs. caesium chloride, vertical rearing & horiztonal locomotion, male rats, 3911 saline vs. blank injections during development, maze learning at

maturity, rats, 8676 sodium vs. sodium potassium diet deficiency vs. repleteness,

potassium chloride preference, rats, 6119 stomach loads of hypertonic NaCl, food & water intake & weight loss, ovariectomized & sham-operated rats, 3922

Sodium Bromide

lithium carbonate, sodium & potassium & calcium & magnesium ion concentrations in urine & serum, male rats, 351

Sodium Pentobarbital (See Pentobarbital)

atosensory Cortex

bilateral lesions of 1 or both somatosensory cortex areas, tactile discrimination, rats, 1868

moving tactile stimuli, individual neuron response within somatosensory area I, rhesus monkeys, 8578

neural associations between visual & auditory & somatosensory areas & frontal cortex, monkeys, 8546

Somatosensory Evoked Potentials

aging, somatosensory evoked potentials, male 9 18 yr. olds & 19 69 yr. olds, 1829

air puff to cornea & nostrils, vertex potentials, college students, 314 alcohol, sensory evoked & spontaneous cerebral potentials, 1939

auditory & tactile & electric & visual stimulation & modality pairing, evoked slow vertex potentials, 8511

conditioned movement responding, changes in somesthetic cortical evoked potentials, cats, 3778

cortical somatosensory evoked responses & peak latencies & late negative deviation & ratio of late wave to 1st Peak & latter ratio to that of latency Peak 3, senile dementia & elderly depressed patients, 2671

electrodermal palmar stimulation, evoked potentials in caudate nucleus, rhesus monkeys, 6203

lateral popliteal nerve stimulation, somatosensory evoked potentials,

19-31 yr. olds, 3834

mechanical stimulation of contralateral middle finger pad, electrical activity of bony orbits & frontal cranium during signal-averaging of somatosensory evoked responses of conventional scalp site, college students, 6200

melanocyte-stimulating hormone, somatic-evoked responses & RT & EEG & EKG, patients with panhypopituitarism, 1071

phase related differences between alpha rhythm averages obtained under nonstimulus vs. stimulus conditions, somatosensory evoked potential averaging, 432

postnatal changes, somesthetic evoked potentials, rats, 6328 prefrontal cortical ablation, evoked skin potential reflexes, kittens &

cats. 8696

recording technique & sleep, scalp-recorded somatosensory & somatomotor responses, 8509

somesthetic cortical evoked potentials by electrical stimulation of fingertip, active & passive flexion movement of hand & foot, 6113 Somatotropin

matotypes

anthropometric indexes to various body regions, differentiation degree according to Sheldon's somatotypes, 9153
anthropometric parameters & masculinity-femininity, male &

female college students, 320

body-build stereotypes, Mexican 4th-6th graders, 6715 facial characteristic & body type, social stereotyping, 1st & 3rd & 5th graders, 2327

medical history & physical examination & karyotype & somatotype & anthropometric measurements & Eysenck Personality Inventory scores & neuroticism & extroversion, lesbians, 7132

sexual symbolism, polygon preference, art & art-related students, 11217

Somesthetic Perception (See also Cutaneous Sense, Kinesthetic Perception, Pain Perception, Pain Thresholds, Tactual Perception, Temperature Perception, Vibrotactile Thresholds)

auditory & olfactory & gustatory & somesthetic & kinesthetic & proprioceptive sensation & perception, 10302

identity vs. equivalence conservation & visual vs. kinesthetic perceptual modality, level of understanding of conservation of weight concept & rate of concept development, 5 12 yr. olds, 646

internal awareness & muscle sense, muscle relaxation in bioelectric information feedback training, 1621

movement & pressure & pain & light & sound responsiveness & mother communication of emotions & fetal hunger & conditioning, prenatal development, 8832

selective frontal cortex ablation, movement organization & delayed alternation behavior, monkeys, 6259

tactual motor scanning, compound figures perception, congenitally blind vs. normally seeing with eyes closed vs. persons blinded after birth vs. normally seeing children, 7196

total vs. partial ablation of dorsolateral frontal cortex, supplementary articular-somesthetic & kinesthetic cues & delayed alternation performance, monkeys, 388

esthetic Stimulation (See also Tactual Stimulation)

availability & quantity & quality & range & timing of visual & auditory & tactile & kinesthetic stimuli in infancy, cognitive disturbances, young children, 1016

body tilt, auditory localization, 8258

body tilt, perception of auditory midline & differential limen, 8259 kinesthetic & auditory stimulation, duration & amount of sleep & wakefulness, premature infants, 6461

mechanical stimulation of contralateral middle finger pad, electrical activity of bony orbits & frontal cranium during signal-averaging of somatosensory evoked responses of conventional scalp site, college students, 6200

percutaneous peripheral nerve stimulation, summated cortical evoked responses, deafferented monkeys & baboons, 8603 vestibular stimulation, REM sleep, 15 28 yr. olds, 8569

abstract model for social distance-social mobility relationship, analysis of father-son occupational status mobility, 4310

Sorority Membership

motivational approach to developmental reading program, academic achievement, college fraternity & sorority pledges, 9993

self-acceptance, acceptance by peer intimates & nonintimates, college sorority residents, 6872

value concept rating & participation in competitive vs. cooperative game situation, college student commune residents vs. fraternity & sorority members, 1350

Sorting (Cognition) (See Classification (Cognitive Process))

Sound (See Auditory Stimulation)

Sound Localization (See Auditory Localization)

Sound Pressure Level (See Loudness)

Sourness (See Taste Stimulation)

South America

biological basis, aggression, Qolla Indians, 10526

cultural & sex differences, affiliation & achievement drives expressed in reported dream content & projective technique, unmarried college students, New York City vs. Lima, Peru, 2305 distance & contact greetings, ethology of human greeting behavior,

Waika Indians, 2235

father's education vs. parental language & ethnicity & social class, academic achievement, Peruvian 5th graders, 9894

genetics & acclimatization, physical growth & development & attainment, adolescent & adult Peruvian Quechua, 10855 Griffiths Extension Scale, extension of previous study to use in older

children, 5 8 yr. old normals vs. abnormals, Colombia, 11859 high puna energy flow system, human adaptation, Peruvian Andes, 11028

historical & modern therapeutic uses, Ayahuasca, South America, 4988

household composition & diverse economic activity & social relationships, survival of domestic groups, residents in highland Colombian village, 10975

marihuana & LSD & mescaline & amphetamine & barbiturate & alcohol use, 14 23 yr. old Peruvian psychiatric patients from upper & middle class stable homes with psychological disturbances preceding drug use, 2651

multimethod multidimensional analysis, perceived similarities among 21 nations, Ss from United States & England & France & Yugoslavia & Colombia & India & Korea & Thailand, 11032

popular tradition or folklore psychiatry contrasted with ethnopsychiatry, Peru, 9755

primary & secondary prevention & rehabilitation, Department of Social Psychiatry, Lanus, Argentina, 11677

schooling amount, paired-associate & verbal-discrimination learning & retention & associative & acoustic memory encoding & word associations, average 10.4 yr. old Colombian children, 2120

self-defense against police corporal punishment, self-mutilation, Peruvian prisoners, 2597

social & economic factors, mental illness, populations in Lima & Calleo, 11460

status inconsistency, leftist radicalism, lower-class slum dwellers, Chile, 11010

# South Vietnan

drug abuse, enlisted men in Viet Nam, 8901

exposure to President Nixon's Vietnam speech, pre- & postspeech war attitudes, undergraduates, 6703

Southeast Asia

adaptive function of REM sleep, war neuroses, Vietnam war veterans, implications for psychoanalytic theories of dreaming,

attitude conflict & belief importance, GSR & traditional-modern attitude change, Hong Kong Chinese college students, 8907 fears, 78 yr. old Thais vs. Americans, 8803

Space (Personal) (See Personal Space)

Spaceraft
Spaceflight
Spain
emphasis on psychosomatic aspects of illness & basic clinical psychiatry training, internist training program at psychiatric hospital, Spain, 913

factor analysis, Eysenck Personality Inventory, Spanish Ss, 5789 general vs. specific items & Vocational Inventory Profile vs. Kuder Preference Record translated into Spanish, vocational interests measurement, 15 yr. old Spanish boys, 5743

psychiatric education, medical students, Spain, 4567

psychiatric services in National Health Program, patient-doctor interaction, Spain, 11525

socioeconomic background, possibility of equality of education, 6 yr. olds, Spain, 11829

Spanish versions of intelligence tests, literature review, 5744 standardization of Spanish version of Peabody Picture Vocabulary

Test, necessity for 2 scales depending on Ss' socioeconomic background, 10269

Spatial Discrimination (See Spatial Perception)

## Spatial Distortion

hyperkinetic syndrome behavioral abnormalities & body image & spatial orientation disturbances & neurological abnormalities, exceptional reading ability, brain damaged children, 11446

progressive increase of packing density of texture elements, distance bisection judgments under monocular vs. binocular conditions, criticism of study of J. J. Gibson & J. Purdy & L. A. Lawrence, 1628

psilocybin & chlorpromazine, spatial- & optical distortion, college students, 1869

Spatial Organization
deflection of lines forming angle sides, line orientation judgments of
Poggendorff illusion, college students, 5848
depth & perspective graphic representation instruction, visualspatial organizational ability, 8 10 yr. olds screened for deficits,
3224

distance between parallels, apparent angle of transversal judgments in Poggendorff illusion, college & graduate students, 5849

high & low density populations, sensitivity of various nearest neighbor tests of significance for nonrandomness, singing crickets, 489

spatial & temporal organization, language development & speech disturbances, amblyopic children, 7156

unilateral posterior cortical lesions, nonvisual deficits as reflection of spatial progression impairment, rats, 3943 Spatial Orientation (Perception)

angle orientation of lines in pattern pairs, similarity judgments, 10285

change of form & orientation of visual stimuli, duration of eye fixation & perceptual discrimination, 3 & 6 & 9 & 12 mo. olds,

directional training & homing experience, initial orientation,

pigeons, 3983 ethnic group differences, ability to reproduce direction & orientation, Anglo-Saxon American & bilingual Spanish-American 8 12 yr. olds, 4156

exposure duration & luminance & frame tilt & frame-rod interval, verticality judgments, field dependent vs. independent college students, 10304

forward head inclination, visual orientation during lateral body tilt,

hyperkinetic syndrome behavioral abnormalities & body image & spatial orientation disturbances & neurological abnormalities, exceptional reading ability, brain damaged children, 11446

image motion & direction, visual tilt aftereffect, graduate & undergraduate students, 3609

interaction of spatial & kinetic dimensions, movement aftereffect, highly sophisticated Ss, 1565

line orientation, binocular vs. monocular afterimages, college students, 8344

mislocations in visual space, 18 80 yr. olds with hemianopsias vs. optic chiasm lesion patients, 9321

mutual visual masking production by gratings & bars, visual frequency response to aperiodic stimuli, populations selective for size & orientation, 185 possible neural

orientation & mobility & living skills before & after training workshop, preliminary performance test battery, 11 20 yr. old blind Ss, 7389

oscillatory eye movement & head & body reorientation, autokinetic illusion, 10307

peripheral cue relevance of location-specific stimuli under aroused

states, perceptual field narrowing, college students, 10354 peripheral stimulus eccentricity & illumination level & light adaptation, visual angle & apparent size & distance perception, male undergraduates, 3607

power law, perception of rotation, airline pilots, 1573 probe & target spatial orientation combinations, form identity & category matching RT, undergraduates & medical technicians,

reliability of spatial retention, information recall from text material, college students, 3358

reproduction of orientation of Kohs-type figures, Icelandic vs. Zambian 3rd graders vs. Zambian laborers, 2232

rotations on Wechsler Preschool & Primary Scale of Intelligence Geometric & Block Design subtest items, 4 vs. 5 vs. 6 yr. olds, 6555

spatial forms & localization, differentiation of positive & negative attitudes, 2282

spatial orientation & proximity & bar size & dichoptic viewing, afterimage visibility in presence of 2nd afterimage, 17 35 yr. olds, 3535

spatial orientation determined by route-walking test, Parkinsonian

stimuli aligned in horizontal or vertical vs. oblique orientations, perception & discrimination, man & animals, 1556

stimulus orientation, form recognition, 3-8 yr. olds vs. college

stimulus orientation, haptic perception of horizontal-vertical illusion, college students, 3561

stimulus size & spatial position & identity, visual hierarchical feature processing, college students, 3562

surface coloration & lettering & referential dimension, traffic marker targets perception, college students, 12169

symbol string complexity & spatial orientation, memory span & recall errors, undergraduates, 3721

target length & separation, vernier acuity, college students & E, 8336 variation in complex shape vertices positions, discrimination learning & generalization, pigeons, 10733

vegetative resistance to rotatory stimuli & fixed-wing vs. jet vs. helicopter flying, postrotatory electronystagmographic responses, pilots vs. pilot-candidates, 8136

vertical sinusoidal vibration, body orientation toward prescribed target, 1603

visual tilt changes, kinesthetic matching, 18 25 yr. olds, 8339

visual wavelength continuum & time after reinforcement & tone frequency & line tilt, stimulus recognition, pigeons, 10708

Spatial Perception (See also Apparent Distance, Apparent Movement, Apparent Size, Autokinetic Illusion, Depth Perception Visual Procession Size Disciplings tion, Distance Perception, Motion Perception, Size Discrimination, Spatial Distortion, Spatial Organization, Spatial Orienta-

tion (Perception), Stereoscopic Vision) accommodation vs. visual image size correction, size constancy,

age, localization of spatial targets, 6-10 yr. olds & undergraduates, 10918

alcohol & stimulus-response uncertainty, spatial localization time, 21 30 yr. old males, 10632

alcohol, spatial discrimination acquisition, goldfish, 8666

auditory & visual sequential & visual spatial pattern matching, reading ability, good & poor readers, 3114 bilateral anterior & posterior hippocampal lesions, spatial & visual discrimination & stimulus acquisition & reversal shifts & transfer, rats, 1941

brightness vs. spatial discrimination reversal problem training in Ross maze, overtraining reversal effect, rats, 2035

caudate nucleus motor & spatial functions, egocentric spatial localizations, 8554

classical delayed spatial alternation, hippocampal electrical activity, monkeys, 8510

consistency of spatial configuration & temporal resolution modification, perceptual modification of visual sensitivity, 178

drawing lessons, formation of space representation, 1st 4th form pupils, 1291

dual flashes of 1 light & single flashes of paired light at 4 spatial distances, verbal estimation of time, college students, 5810 entorhinal area ablations & fornix section, spatial & object reversal,

monkeys, 417 extraretinal feedback effects & testing before & during & after

saccades, visual localization, college & graduate students, 5875 extraretinal signals, visual perception of direction, 160 form specific mechanism, metacontrast assessment, 8273

identity & spatial position information, visual & verbal codes, college students, 10318

light stimulus configuration, figure-effects in visual space depth vs. frontal parallel plane & threshold value elevation, 118

macular & retinal pigmentation & stimulus color, Muller-Lyer illusion susceptibility & space perception, Scottish vs. African

Malawi university geography students, 119
matching dot field density between half fields & crossed tactile localization & other tasks, patients with total vs. partial agenesis of corpus callosum, 4674

monocular vs. binocular viewing, lightness & object embeddedness in background, 3569

perceptual shielding vs. nonshielding, nonegocentric perspective task performance, 6 vs. 8 vs. 10 yr. olds, 4100

personality factors & general intelligence & high vs. low spatial ability, psychological differentiation, male vs. female 9th graders,

proreal lesions, delayed alternation & spatial reversal & go left go right tasks, dogs, 8638

right-left vs. left-right order & stimulus onset asynchronies & flank width, brightness estimates of sequentially presented & partially overlapping rectangles, undergraduates, 1586

sensitivity determinants, visual discrimination thresholds for 1- & 2dimensional Markov spatial constraints, undergraduates over 2 yr. span, 1634

sinusoidal gratings of various spatial frequencies as masking stimuli, detection & vernier acuity tasks, evidence for attentional mechanism, 1570

social reinforcement vs. no reinforcement, persistence scores, high verbal low spatial & high spatial low verbal 4th graders, 2074 spatial frequency & visual acuity, spatial contrast sensitivity,

patients with cerebral lesions, 9293

spatial proximity of noise elements to targets & noise element presentation following target letter onset, voicing of target letter in visual display, 1584

spatial sense of blind, research plan, 7189

spatial-contrast-transfer function, light-adapted retina, 1643

stimulus preview & supplemental visual cues, spatial representation & perceptual motor anticipation in discrete tracking task, 1st 5th graders, 6482

subjective urban space estimation, architecture students, 5813

duration, spatial & verbal codes & short term memory, college students, 10319

temporal & spatial effects, time & space perception, 66 verbal vs. spatial task, lateral specialization EEG recordings, righthanded adults, 8523

visual & active vs. passive tactual horizontal-vertical illusions, spatial perception, 5 14 yr. olds vs. male college student, 2111

visual & proprioceptive determinants, space perception & movement accuracy, 8334

2-dimensional flat surface traffic signs, perceptual space & accurate reference, college students, 10158

Spearman Brown Test

Spearman Rho (See Rank Difference Correlation)

Special Education

academic vs. academic & practical arts vs. practical arts vs. control curricula, pre- & postinstruction academic & home repair achievement, postschool institutionalized retarded adults, 2887

accelerated college programs, 7th-9th graders exceptionally gifted in mathematics & science, 7863

acceptance of handicap & emotional adjustment & self concept, developmental process from 5 9 yr. old, physically handicapped children in special school, 1336

acquaintance with auditory-vocal components of language code, deaf education, profoundly deaf children, 12078

adaptive behavior criterion for mental retardation, educational relevance, 4903

advantages & disadvantages & role of educational psychologist, educational acceleration & enrichment & special classes, gifted children, 8008

Aptitude Treatment interaction model, special education instructional & research activities, handicapped children, 10037

tional & research activities, handicapped children, 10037 architectural & educational framework, school of special instruction, slightly & moderately mentally retarded, 10000

art & music experiences integrated with social studies & language arts, self concept & school experience enrichment & positive life attitudes, mentally retarded high school students, 3136

art education, mentally retarded, literature review, 10092 attitude change & behavior toward retarded children in special

classes, Norwegian & American nonretardates, 3179 attitude to reeducation of their dyslexic children, formerly dyslexic parents, 7709

attitudes toward educational programs for gifted children, superintendents, 10076

auditory & visual sequential memory group training, short-term auditory & visual sequential memory improvement & spelling performance, 8-10.2 yr. olds in classes for learning disabled, 7957 auditory perceptual training, language development & academic

achievement, children with perceptual dysfunction, 3120 auditory training program, auditory discrimination & reading achievement educable retarded children, 7711

achievement, educable retarded children, 7711 auditory training program, blind kindergartners to 3rd graders, 12079

behavior modification teaching methods instruction, programed instruction for severely handicapped children, teaching volunteers, 7805

behavior modification techniques use by teachers, multihandicapped students, 5469

behavior modification techniques vs. traditional educational methods, evoking attending behavior & transference to readiness skill, preschool retardates, 3321

behavior modification, special education classroom, retardates, 3168 bioptic & telescopic spectacles, self concept & achievement, low vision students in timescapt programs, 3218

vision students in itinerant programs, 3218 bowling program, bowling skill & number concepts & self esteem, educable mentally retarded 8 17 yr. olds, 12072

ceramics in educational programs, social & emotional & mental growth, handicapped & gifted children, 7835

class placement & age level, attitudes toward school related concepts & achievement test performance, primary & elementary & intermediate school age educationally handicapped children, 11959

combined medical & educational institute, social & vocational training, moderate mentally retarded 6 14 yr. olds, 9582

Committee for Study & Care of Severely Retarded, organization of services for specialized care & information & research & teaching activities, 7529

communication model within framework of channels & levels & processes, evaluative & prescriptive & instructional practices clarification, exceptional children, 9856

compensatory education, motor impairment, book, 12018

contingency management, reading achievement, junior high school educable retarded students, 9869

CPI & demographic data questionnaire, positive personality traits, teachers in state schools & state-school hospitals & mental health & diagnostic centers, 3356

creative dramatics & play therapy & speech improvement & specific language instruction, language development, culturally deprived children, 3207

dance program, mentally retarded, 9870

decision theory analysis, referral of students to school special services, teachers, 5324

deficit grouping, solving problem of problem learner segregation following diagnosis, 2nd & 3rd graders, 8004

development & education & training of blind children, book, 1326 development & practice & role of school psychologist, special education, 7749

developmental problem identification & curriculum development & effectiveness evaluation, deficit centered classroom training, developmental deficit, 1st graders, 1359

diagnosis & instruction, deaf-blind children, book, 7341

directory of educational & training & treatment facilities for exceptional children, book, 5283

early identification & subsequent implementation of summer intervention program with resource help, kindergartners with potential learning disabilities, 9833

early learning centers, learning disabilities, children, 9823

education & functional use of residual hearing & intelligent speech & social acceptance, deaf, 11867

educational & environmental enrichment program, intellectual functioning & language development, trainable retardates, 3125 educational & medical perspectives, learning disabilities as school

health problem, 3239 educational planning & programs, mentally retarded, book, 11972 educational programing, trainable mentally retarded children, 9981 educational provisions, state residential facilities for mentally retarded, 9797

retarded, 9797
educational system structure, misplacing children in special education & labeling as retarded, 7803

educational therapy practice for teachers, teaching neurologically impaired children, book, 5489

educational-occupational stratification, mental retardation, mental retarded in special classes & special education groups vs. local community 1st 7th grades, 11975

educational-occupational stratification, retardates receiving special education in arithmetic vs. suburban 2nd 7th graders, 9973

effective means of developing programs, management of hyperactive children, 1380

epidemiology, dangerous drug use, educable mentally retarded high school students, 9279

equal-status social contact, changes in expressed & acceptanceposture attitudes toward disabled peers, 7th 10th graders, 9936

experimental program to improve educational readjustment, dyslexic & dysgraphic children, 7878

Gabrielsen's Total Push-Kick Method modified form, swimming instruction, trainable & educable retarded preschool children, 1272

geographical concept attainment, improving ability to interpret embossed maps, visually handicapped, 11905

group counseling with guidance counselor & small group work with special education teacher, personal-social adjustment & selfconcept & manifest anxiety & sociometric test results, mentally retarded inner city high school students, 3272

historical survey & psychoeducational perspective, learning disabilities including perceptual-motor problems & distractibility & hyperactivity, 7832

historical survey, research & management of mental retardation, U.S.A., 11587

human & videotape observation, working efficiency on paper & pencil task, 10 12 yr. old normal vs. special education students, 3197

identifying & training & understanding perceptual deficiencies in children, validity of current procedures & concepts, 1387

incidence & causes & diagnosis & remedial techniques, elementary school students with specific learning disabilities, 12063 incidence in U.S.A., handicapped elementary- & secondary-schoolage children, 12101

increasing task complexity, RT & motor & decision-making time, hyperactive vs. normal 7 11 yr. olds, 3209

institutional residence vs. public school special education classes, IQ changes, educable retardates, 3171

instruction of & attitudes toward mentally retarded, U.S.A., 1850-1923, 9483

instruction program designed to integrate exceptional children into regular classrooms, pre-& inservice teachers, 9988 instructional system incorporating electric desk calculator, teaching

long division concept, educable retarded adolescents, 3325

integrating borderline educable mentally retarded in regular high school classes, teacher & parent & student attitudes, 11839 integration into resultar classes, handicapned children, 9908

integration into regular classes, handicapped children, 9908 intellectual functioning vs. adaptive behavior, defining mental deficiency, implications for special education, 4640 intelligence placement in special education schools vs. public school

education, 5512
intelligence testing & developmental task approach, psychoeducational programing, children with learning & behavioral problems, 8006

intentional teaching & peer modeling & tangible & social & symbolic rewards, listening skills, 82-120 mo. old educable mentally retarded children, 10043

interdisciplinary teams & intensive field experience under interdisciplinary supervision, clinically-oriented teacher training, graduate special education students, 5414

IQ & sex & socioeconomic status & CA & MA & special treatment effects, language behavior, 6.9 12.8 yr. old educable retarded children in special classes, 1344

knowledge of students' information-gathering pathways, teachers of deaf & blind, educational implications, 987

lack of operational definition of learning disability & shortage of qualified professors & teacher training programs & threat of class action suits, educational programs, learning disabled children,

learning deficiency vs. developmental conceptions, mental retardation, implications for teaching, 11950

learning disabilities diagnosis & treatment planning rationale, 7403 learning-in-pairs & Glosser-type discussions, reading comprehen-sion skills & academic achievement, black & white male institutionalized delinquent 14 & 15 yr. old disabled readers, 1360

librarian's role, dealing with exceptional children, 5376 linguistic aspects & implications for educational programing, culturally disadvantaged children, 11882

mediated visual-to-print approach, teaching reading & language, deaf children, 7707

method of encoding verbal information on films, verbal comprehension, hearing impaired high school students, 12046

miniature linguistic system using sequence of matrices, demonstra-tion of logic of language, 6 & 8 & 10 & 12 yr. olds in residential schools for deaf, 9960

model for organization & administration of educational programs, learning- & language-disabled elementary school students, 5292

motivational style, consideration in special programs, educable mentally retarded children, 7888

music enrichment program, intelligence & knowledge & communi-cative skills & social behavior, mentally retarded children, 8029 need for & difficulties with sex education in special education,

mentally handicapped children, agreement with & extension of S. Gordon's viewpoint, 5315

need for advanced graduate level programs, development of wellqualified professionals to work with visually handicapped, 9829 need for sex education in special education, mentally handicapped

need for sex education in special education, mentally handicapped children, response to S. Gordon's discussion, 5300

neooralism, special education, deaf children, Soviet Union, 10002 nonverbal instructions & special auditory tests, diagnosis of hearing loss, normally intelligent hearing impaired 5 9 yr. olds, 3230

number of pictures & mode of problem representation & numerical differences of disjoint subsets in problem, solution of verbal

problems requiring quantitative class inclusion, educable mentally retarded in special education classes, 10095 observations of task-oriented behavior & peer & teacher interaction & waiting, average vs. learning disabled kindergartners & 1st & 2nd & 4th & 6th graders, implications for remedial education, 7744

operant methods, teaching sequential motor tasks, slow learning children, 10018

opinions toward vocational training program, parents of educable retarded adolescents, 9830

Outward Bound School experience, self concept, adolescent boys,

paradoxical clinical & educational values, learning disabilities, 7860 parent's perceptions of schooling problems, IQ & social maturity, school withdrawal, retarded children & parents, 11995

perceptual development program placement, academic & social & vocational adjustment & achievement, learning disabled students, 5 10 yr. follow-up, 7804

perceptual discrimination, mentally retarded children & children with specific language disabilities, implications for diagnosis & remediation techniques, 9896

perceptual motor-training procedures of N. Kephart, reading comprehension, 8 18 yr. olds with average & above average IQs & binocular fusion difficulties, 7999

perceptual-motor training & music, perceptual-motor development & behavior, educable retarded 9 12 yr. olds, 7788

pets as link to nature in technological society & use in education & treatment of emotionally disturbed children, 2008

pilot class utilizing multisensory training & educational team approach, visual-perceptual-motor skills & WISC Verbal IQ &

Stanford Achievement Test, elementary students with reading problems, 3129

pilot program, development of independent living skills, mentally retarded deaf 12 30 yr. old students, 1299

placing label of "special" on child, iatrogenic disease production by presumed cure, implications for special education, 7895 positive & negative evaluative comments, learning, 6 12 yr. old

educable retardates, 3280

positive peer acceptance, spontaneous improvement in social positions, emotionally disturbed children in regular classes, 10091 predictive value of IQ tests & diagnostic value of aptitude test, remedial programs for individual needs, 3189

preschool remedial educational programs, social disadvantagement, New Zealand Maori & Pakeha children, 7843

prevocational training program, quality & quantity & durability in work performance, 14 18 yr. old retardates, 5329

problems & potentialities of dealing with spoken language, oral deaf adult & children, 11888

program planning & evaluation, secondary educable mentally retarded, 10021

programed instruction in auditory vowel discrimination, learning rate & transfer to word recognition, severely hearing impaired 5 11 yr. olds, 11886

progressive & traditional educational attitudes in relation to individual differences, functioning of language &/or learning disability development project, educational personnel, 12022

reaction to Darwinism & mental testing development & industrial schools reform, history of British special education, 12000

reading development, trainable retarded children, 3140 reading problems, legally blind 15 yr. old boy & 26 yr. old man, implications for school assignments & expectations, 9461

receptive & expressive functions, assessing language development, children, application to remedial programing, 6516

regular vs. remedial classroom instructional procedures, learning & teaching, implications for teacher education, 5291

reintegration into regular class programs, marginally inadequate students, 7742

remedial educational programs, failure to be integrated into whole educational system, 7712

research review & educational program survey & suggestions, intellectual development & education of low socioeconomic status children, book, 1292

school attendance areas, attitudes toward school & school related activities, educable retarded adolescents, 9888

school psychologist & special educator, activation of diagnosticprescriptive instructional relationship, 7960

school psychologist, role in student evaluation & remedial treatment recommendation & other activities, 8034

school psychologist's role, psychological evaluation of exceptional

semantic familiarity & information load, arithmetical verbal problem solving performance, educable mentally retarded children in special classes, 9848

sentence structure variations of transformational-generative grammar, comprehension of visual speech & implications for curriculum planning in hearing rehabilitation, college students,

sequential instructional procedure, addition skills, educable retardates, 1271

sex education in special education, mentally handicapped children,

response to & agreement with S. Gordon's discussion, 5365 short-term individual training in sentence production, improvement of temporal features in speech, deaf children, 9926

small group methods of special classes & social group work services, integration of mental health concepts in schools, educationally handicapped secondary school students, 3238

social & specific disabilities, learning disability problems, college students, 12123

social competence, measured academic achievement, educable retardates, 3158

social praise & production charts & money, production rates, trainable retarded & severely emotionally disturbed 12 20 yr. olds in public school workshop, 9862

social reinforcement, classroom instruction, mentally retarded children, 10015

socioeducational special education, problem children & adolescents,

special class placement, academic achievement & visual-motor functioning, 6.5 10.5 yr. olds labeled neurologically handicapped, 7728

special education program, learning disabilities, children, 5 yr. follow-up, book, 1313

special education programs, emotionally disturbed, U.S.A. regional studies, 12071

special schools incorporating early identification & intervention & family support & vocational preparation & community education, mentally retarded children, 7352

speech reeducation, IQ, children with marked discrepancy between verbal & performance IQs, 7710

structured perceptual-motor training vs. table games, perceptualmotor skills & intelligence test & achievement test scores, 9 yr. old educable mental retardates, 7798

systematic media training program, teaching parents to train preschool mentally retarded children in self-help skills, 11664 systematic presentation of academic material & differential

reinforcement, disruptive behavior & academic performance, disruptive educable mentally retarded 12 13 yr. old boys, 3091 teacher expectations, academic achievement in subject matter skills

eacher expectations, academic achievement in subject matter skins & class adjustment & written & verbal self-expression, 6 12 yr. old educable retardates, 1364

teacher practices & educational strategies, cognitive performance & emotional behavior, 7-11 yr. olds in educable special classes, 5379 teaching techniques, institutionalized blind retarded children, 5179

Torrance Tests of Creative Thinking, creative abilities, 7-19 yr. old educable retardates in public school system vs. in special residential & day facility, 1352

traditional instruction vs. narrative-play, teaching prepositions, language handicapped preschool children, 11827

training program, developmentally handicapped, 3112

validity & application to ethnic populations & use in special education, WISC, literature review, 1960-1970, 5589

verbal & motor reeducation & psychotherapy, child guidance center program, childhood neurosis & prepsychotic syndrome patients, 7556

videotape, education, deaf-blind children, 9916

WISC classification value, studying learning-disabled & culturally disadvantaged pupils, 5476

within-stimulus vs. extra-stimulus prompting procedures, teaching auditory & visual discrimination, autistic children, 12070

word form configuration training program, visual perceptual behavior and reading achievement, strong vs. weak visile vs. audile learning disabled 1st & 2nd graders, 7959

3- & 6-week periods of residential camping, physical fitness & adaptive behavior, noninstitutionalized 7 21 yr. olds with brain dysfunction syndromes, 1320

Special Education (Aurally Handicap) (See Aurally Handicapped, Special Education)

perceptual training procedures, voice onset time discrimination,

adults, 10367 personal vs. formal treatment, hearing discrimination, U.S. Nav enlisted men, implications for military personnel interaction, 8048 phonology & acoustics & psychoacoustics, phonetic segments, 2432

rhythmic vs. serial structure, speech perception & production,

support for K. Lashley's theory, 5868 sentence structure variations of transformational-generative grammar, comprehension of visual speech & implications for curriculum planning in hearing rehabilitation, college students,

set, speech perception, 10333

speech & noise source position & background noise presence vs. absence, directional threshold of intelligibility, normally-hearing 19 52 yr. olds, 10369

story presentation via speech reading with voice & Rochester method & total communication, language comprehension ability, 13 20 yr. old deaf students, 2663

successive vs. simultaneous discrimination tasks, noncategorical perception to stop consonants, college students, 69

systematic modification to speech-Bekesy procedures vs. quasistatistical methods, intelligibility of connected discourse, 11194 temporal distortion, perception of interaurally segmented syllables,

normal adults, 5816

time compressed speech, speech perception, 2404

time-frequency distortion, prosodic features of speech, male Submarine School candidates, 824

verbal messages in noise background picked up by bare microphones vs. microphones equipped with artificial pinnae, speech intelligibility, 5834

vowel item speech discrimination, patients with Meniere's disease vs. presbycusis vs. noise-induced hearing loss vs. normal hearing,

waveform temporal analysis, estimating speech synthesizer parame-

differential speech intensity, mediating interpersonal expectancies,

vocal pitch & speaking rate, perceived speaker credibility & attitude change, 9071

sing (Mechanical) (See also Clipped Speech Speech Proces (Mechanical), Compressed Speech, Filtered Speech, Synthetic

breast-feeding vs. bottle-feeding, tongue thrusting & dental occlusion & lip posture during repose & maxillary arch width, 1st

8th grade males vs. females, 2191

nasal-oral cavity uncoupling, sound levels of selected stimuli presented by miniature transducer in oral cavity, normal speech males, 1664

waveform temporal analysis, estimating speech synthesizer parame-

Speech Rate

auditory occlusion, latency time & word count & speech rate & response quality on TAT, institutionalized delinquent adolescent boys, 4892

delayed auditory feedback, speech rate, 3616 delayed channel, dichotically presented speech vs. nonspeech sound perception, 9136

disfluency rates & patterns, high- vs. low-disfluent kindergarten to 6th grade stutterers vs. nonstutterers, 7335

mothers' speech & disfluency rate & vocabulary diversity, language development, language-learning vs. older children, 8794 shortening or removing silent hesitation from speech recording using tape recorders & voice key, increasing speech rate, 1597

speech rate & selection difficulty & association strength & mental aptitude, learning by listening, 18-25 yr. old males, 1769

speech rate of televised communication, length & suitability ratings & comprehension, adolescents to 45 yr. olds, 3545

syllable numbers & voicing & articulation place & reliability & sex, syllables per sec. & duration of single exhalation speech production, 17 yr. olds, 6880

time compressed speech, speech perception, 2404 vocal pitch & speaking rate, perceived speaker credibility & attitude

change, 9071 Speech Rhythm

fundamental frequency & vowel & nasal consonant spectra features & glottal source spectrum slope estimation & word duration & voice onset time as useful acoustic parameters, speaker recognition, 186

LSD-25 & dextramphetamine, speech rhythms in monologues immediately after & 2.25 hr. after ingestion & prior to therapy

session, psychotherapy patients, 1162 position-in-utterance & word-length, duration of speech segments,

831 randomly generated vs. actual spontaneous speech rhythms, 2409 rhythmic vs. serial structure, speech perception & production,

support for K. Lashley's theory, 5868 time-frequency distortion, prosodic features of speech, male Submarine School candidates, 824

Speech Therapists

clinician personality factors, judged clinician effectiveness, speech clinicians, 7023

judgments of mentally retarded children's oral communications, mothers vs. teachers vs. speech therapists, 7084

Speech Therapy

aphasia therapy case-specificity & guidelines & speech therapy, 5186 behavior modification & linguistic procedures & interpersonal events, approach to speech development & remediation, 7642 clinical psychology, multidisciplinary approach to speech & hearing

disorders treatment, 9533 communication skills therapeutic approach, trainable mentally

retarded, 9625

diagnosis & etiology & rehabilitation, adult vs. child aphasics, 9486 electronic metronome & masking & interrupted masking system combination instrument, stammering therapy, 9577

family therapy & social casework, treatment modalities & speech goals, girl & family, 3011

hearing loss & congenital anomalies & therapy & environmental causes, intelligence measures, 4 16 yr. old cleft-lip &/or cleftpalate children, 9395

measurement & causes & syndromes treatments, speech & language disorders, 4654

parental conversation level & imitative prompts manipulation, speech development, 40 mo. old boy with severely retarded speech development, 1253 phoneme as tool, diagnostic testing & therapy in speech pathology,

3030

psycholinguistic principles, aphasia treatment, 7638

punishment, expectancy responses & stuttering, stutterers, 11625 semantic intent of early language & early experience, relevance to treatment of language disorders associated with mental retarda-

shaping group participation, behavioral changes & reduction in stuttering, 9667

Sheehan's nonreinforcement paradigm, stuttering, adolescent male

speech & language therapies, 5 10 & 11 16 & 17 40 yr. olds with Down's syndrome, 1137

speech & language therapy, bilingual educational program, Mexican-American school children, 3271

speech pathology, book, 11713

syntactic structure & language development, application to intervention in language training, mental retardates, 7480 visual speech displays, ba" & pa" production, 7 12 yr. old deaf children, 3038

Speed (See Velocity)

Speed (Response) (See Reaction Time)

Spelling

analytic vs. synthetic teaching methods, reading skill & comprehension & spelling & composition, elementary school students, 7795

auditory & visual sequential memory group training, short-term auditory & visual sequential memory improvement & spelling performance, 8 10.2 yr. olds in classes for learning disabled, 7957 auditory/visual memory span, auditory/visual methods of learning to spell, 2nd graders, 9968

gross body movement task incorporation into academic task, immediate spelling recall & long-term memory, 7 8 yr. old potential reading failures, 7962

individual vs. peer group rewards, spelling performances, 3rd-4th grade underachievers, 11860

multisensory-motor vs. sight-word teaching methods, intersensory integration & reading & spelling achievement, 1st graders, 1376 perceptual & psycholinguistic immaturities, retarded & advanced

readers &/or spellers, 10109
roman script spelling variations of Bekhterev & Kornilov & Pavlov

& Rubinstein & Sechenov & Vygotsky, 8160 social & tangible reinforcers, spelling accuracy, male 9 10 yr. old

special education students, 7715

spelling vs. pronunciation practice & pronounceability, anagram problem solving, undergraduates, 5966

Sperm

Spiders (See Arachnida) Spinal Column

Spinal Cord (See also Cranial Spinal Cord, Dorsal Roots, Extrapyramidal Tracts, Lumbar Spinal Cord, Pyramidal Tracts, Sacral Spinal Cord, Spinothalamic Tracts, Thoracic Spinal Cord, Ventral Roots)

bilateral spaced hemisections of spinal cord & isolation of shortfiber multisynaptic system, instrumental escape response as index of pain, rats, 3855

dorsal funiculi stimulation, EEG potentials & paresthesias, adult patients with subdurally implanted electrodes for control of chronic pain, 2965

dorsal root stimulation, ventral root potentials in habituation & dishabituation, isolated frog spinal cords, 379

increasing muscle stretch, stretch reflex dynamic & static components, decerebrate vs. spinal cats, 10604

intramedullary tumors of spinal cord, diagnosis & therapy & catamnesis, 9713

low-frequency tone bursts, brain stem & spinal cord responses, unanesthetized decerebrate & chloralose anesthetized cats, 475 percutaneous peripheral nerve stimulation, summated cortical

evoked responses, deafferented monkeys & baboons, 8603 **Spinal Cord Injuries** 

spinal cord injury, psychosexual functioning & sex counseling, 5060 Spinal Fluid (See Cerebrospinal Fluid)

Spinal Ganglia Spinal Nerves

Machado disease, blood analyses & pneumoencephalograms & nerve & muscle biopsies & nerve conduction & diabetes, Portuguese emigrants to U.S.A., 2699 Spinothalamic Tracts

bilateral spaced hemisections of spinal cord & isolation of shortfiber multisynaptic system, instrumental escape response as index of pain, rats, 3855 Split Personality (See Multiple Personality) Spokane Indians (See American Indians)

Spontaneous Abortion

Spontaneous Remission

causal influences on psychotherapy outcome vs. spontaneous remission, need for control groups in analysis & criticism of conclusions of L. Luborsky, et al, 7442

persistent disturbance vs. spontaneous improvement, behavior disordered children, longitudinal study using E. M. Bower's screening device, 9909

sociocultural environment, psychiatric disorders & spontaneous

symptom remission, nonclinical village populations, 7082 spontaneous therapy preempting planned therapy, case illustration,

Sports (See also Badminton, Basketball, Football, Judo, Swimming, Tennis)

application of reflexology in sports activities, conditioning of study & behavior, children & adolescents, 3242

autonomic physiologic arousal during jump sequence, parachute jumping performance, sport parachutists, 3787

illumination level, detection time for travel direction of table tennis ball, 5912

intelligence, soccer players vs. other vocationally defined groups, 3375

lever pressing RT & ball kicking action time, champion level soccer players, 3605

personality needs, adult team sport participation & perseverance & performance, baseball league participants, 4501 physical & reflexological conditioning, water polo, 1670

physical education & sport, psychological aspects, book, 9955 self concept & attitude toward academic success, wrestling

performance, high school students, 12036

sports-related vs. nonsports-related words, emotional reaction in word association test, international target-shooting competitors,

team success & formal structure, interpersonal relations & group cohesiveness, baseball teams, 2349

traditional vs. problem solving teaching methods & anxiety level, sports skill acquisition, elementary school children, 10047 uncertainty, heart & respiration rate, 25 yr. old experienced

parachutist, 6130

Spouses (See also Housewives, Husbands, Wives)

assortative mating & genetic consequences of nonrandom mating & consanguinity effects on offspring, 338

basic encounter group, perception of self & spouse & leader & attitude change, married couples, 2817

coital frequency & initiative & foreplay participation & evaluation of partners, urban young couples married less than 2 yr., 2277 communication & unresolved conflict & conflict resolution methods, interaction patterns, parent spouse vs. nonparent spouse

vs. parent nonspouse vs. nonparent nonspouse dyads, 9040 counseling readiness, changes in spouse perception during intensive group therapy, married couples, 5151

dependency need in self & mate & parents, marital satisfaction, couples married 3 17 yr. & under 40 yr. old, 4345 educational homogamy, trend prediction, 2273

family histories of psychiatric illness & mean age & sex & race ratio, alcoholics & their spouses, 7273

family life & marital relationship & institutions & work & leisure & life, need satisfaction, low- & high-status married men & women living in rural communes, 690

likeness vs. completeness theory, real & perceived personality similarities, spouses, discussion of R. Cattell & J. Nesselroade's hypotheses examination, 4379

manic-depressive family history, bipolar vs. unipolar manicdepression, patients & their 1st degree relatives & spouses, 2689 marital adjustment & stress, cooperation & competition in bargaining game, couples, 6860

marriage counseling, self concept & marital adjustment, married couples, 2925

participation in leisure activities, intraspousal verbal communica-tion channels, married couples, 721 patient-spouse role expectations during terminal illness, patient

anxiety & alienation, male terminal cancer outpatients & spouses,

self-disclosure & self-acceptance of each spouse, empathy & marital need satisfaction, married couples, 814

sexual identification & parent identification, marital satisfaction, recently married couples, 6674

- 2-dimensional model, analysis of dimensions of social interaction in standard problem-solving task, married couples, 11078
- Spreading Depression
- cortical spreading depression & food deprivation, glucose licking duration, rats, 6256
- cortical spreading depression, food & water intake & body weight, ventromedial hypothalamic vs. sham lesioned static obese rats, 10692
- cortical spreading depression, instrumental avoidance learning, rats, 6327
- escape pretraining & bilateral spreading depression, active avoidance acquisition, rats, 1924
- interhemispheric transfer, pattern discrimination acquired during unilateral cortical spreading depression, rats, 8596
- spreading cortical depression, learning & retention, frogs, 1888 unilateral spreading depression, retrograde amnesic effects & interference with stimulus control, rats, 6313

nomographs for significance of difference between percentages,

scaled scores vs. psycholinguistic ages, identification of statistically significant differences on Illinois Test of Psycholinguistic Abilities, 5585

small sample size, significance of Kendall's biserial tau coefficient & solution, 5779

statistical inferences about populations & S treatment effects & randomization tests to show validity, 1 S experiments, 6

Statistical Tests (See also Chi Square Test, Cochran Q Test, F Test, Kolmogarov Smirnov Test, Kuder Richardson Test, Latin Squares Test, Mann Whitney U Test, McNemar Test, Nonparametric Statistical Tests, Parametric Statistical Tests, Rulon Test, Sign Test, Spearman Brown Test, T Test, Walsh Test, Wilcoxon Sign Rank Test, Yates Test)

Congruency Factor Quotient test, determination of confidence levels in congruencies & similarities & differences for behavioral science research, 1505

education & behavioral sciences, basic descriptive statistics, book,

empirical comparison, Bartlett M vs. Cochran C vs. Hartley F max vs. Levene modified analysis of variance Z tests of homogeneity of variance, 10280

multidimensional contingency table analysis, analogous exact procedure, 3527

scaling vs. successive screening procedure vs. Bayes decision rule vs. linear & quadratic discriminant functions, screening for schizophrenia, 9661

statistical tests, G index of agreement, 8228 Statistical Validity (See also Factorial Validity, Predictive Validity) achievement tests, prognostic & diagnostic aspects & methods for analyzing reliability & validity & value of question items, 5404 convergent & discriminant validity data, implications for instrument validation 43

cross-validation, heroin addiction scale from MMPI self-report, prisoner addicts vs. male alcoholics, 1056

introspective data from intraindividual conflict situations, problems of reliability & convergent & discriminant validation, 5755

low negative correlations between positive & negative halves of conservatism scales, G. Wilson & J. Patterson Conservatism Scale & California F Scale & discussion of F. Kerlinger's theory, 8240 magnitude estimation vs. rating scales, internal & external

consistency validity, 8253

multiple discriminant approach to item validity, attitude survey item analysis, officers & noncommissioned officers & airmen, 10246 multitrait multimethod matrix, convergent & discriminant validity

of dominance, 2486 present & background personal & environmental characteristics, homemaker- vs. career-oriented women, 8991

research design & validity assessment, analysis of studies published

in Personnel Psychology journal, 1954 1965, 2931 self-actualization construct & Styles of Living Preference Scale,

validity & problem-solving & social situations evidence, college students & faculty & civil service workers, 9196 statistic validity determination, Opinion, Attitude & Interest Survey,

656

statistical inferences about populations & S treatment effects & randomization tests to show validity, 1 S experiments, 6

strategy of scale construction & number & type of prediction functions utilized for multivariate predictions, personality inventory construction & utilization, 5759 suppressor variable definitions & prediction constraints & construct

validity, 5749

Statistical Variables (See also Dependent Variables, Independent Variables)

salient variable similarity index, computer program & probability

selection in factor analysis, critical analysis of theories, 10257 selection in factor analysis, invariance of factorial solution, 10256 variables & probabilities selection, hit rate of multiple discriminant classification analysis, 8230

Status

Stealing (See Theft) Stein Leventhal Syndrome

Stelazine (See Trifluoperazine) Stellate Ganglion (See Autonomic Ganglia)

Stepchildren Stepparents

Stereopsis (See Stereoscopic Vision)

Stereoscopic Presentation

Stereoscopic Vision

disparity magnitude & direction, stereoscopic size & distance of enclosed lines of Ponzo illusion, 8286

geometrical disparity & number of trials, stereopsis & depth perception response latency, undergraduates & staff members, 5838

minimal space parameters, 3-dimensional space perception, monkeys vs. college students, 1620

monocular & binocular & dichoptical viewing of linear arrays, letter recognition serial position curves, left & right eye dominant Ss,

peripheral stimulation, underwater stereoacuity, 1618 retinal disparity, contribution of S. Le Clerc, 3610

schizothymic vs. cyclothymic vs. ixothymic personality types, stereoscopic vision & color discrimination, adults, 840

stereo pattern exposure time lapse, stereoscopic depth perception acuity, graduate students, 10338

Stereotaxic Atlas

electrical brain stimulation, map of positive & negative & neutral reinforcing sites, rhesus monkeys, 442

EMG analysis of MAP patterns used to reproduce muscular tension, college students, 10579

hierarchical classification & correlation of lesioned brain areas with tests standardized for specific areas of intellectual functioning, organization of intellectual abilities in specific brain regions, 315 lateral superior olivary nucleus convolutional organization, cochlear coiling, animals, 8576

mapping of frontal cortex for self-stimulation, rats, 1936

varied septal lesions, septal rage syndrome localization, rats, 6314 Stereotaxic Techniques (See also Brain Stimulation, Chemical Brain Stimulation, Electrical Brain Stimulation, Spreading Depression) connector attachment to skull without screws, rats, 6124

device for administering volatile anesthetics, stereotaxic surgery, rats, 1892

double-pulse stimulation, self-stimulation brain anatomy, rats, 6260 improved stereotaxic headclamp, rats, 6272

stereotaxic techniques & postoperative care & restraint devices, nervous system studies, chimpanzees, 1847

Stereotyped Attitudes

affective component of racial stereotypes, attitudes of social distance toward Americans & Chinese & Japanese & Spanish mestizos, Filipino college students, 11037

age & mothers' perceptions, ethnic attitudes & stereotypes of Tagalog & Chinese people, Philippine 10 15 yr. olds, 8836

age & sex & family size & racial origin & socioeconomic status, racial stereotypes & social distance patterns, Japanese & Chinese & racially mixed elementary school students in Hawaii, 2257

age & sex, attitudes toward foreign nations & ethnic groups, students from lower to middle grades, 11036

American Flag vs. Peace button on questioner asking for directions, personal space determined by replier, male pedestrains in conservative vs. liberal neighborhood, 9103

Anglo-American & Mexican-American stereotypes, implications for school counseling with cultural approach, 7761 attitudes toward sex roles, 1966 vs. 1970, Finland, 8928

body-build stereotypes, Mexican 4th 6th graders, 6715

connotation rating & attribution of negative & positive statements to endomorphic or ectomorphic or mesomorphic stimulus figures, body build stereotype relative strength & quality, chubby vs. average build 5 vs. 15 vs. 20 yr. old males, 2143

degree of monolithism in mode of perception of others & minority influences, submission to new norms, college students, 11012 distorted views & attitude set, treatment of lower-class patients,

psychiatrists, 2875

embarking on vs. returning from 1 yr. stay in Germany, attitudes toward Germans & stereotype changes, French workers, 6705 expectation of failure, instruction & failure of lower-class children, teachers, 7810

female sex-role stereotypy, trust measured by cooperation & competition, female college students, 4392

feminine sex-role stereotype, psychological impact on redefinition of self & dissatisfaction with traditional sex expectations, women,

feminist movement, contemporary problems relating to stereotypes & roles & achievement motivation, females, 8949

judging attributes as belonging to endomorph vs. ectomorph vs. mesomorph & as good vs. bad & as like vs. unlike themselves, body-build stereotype development, 5 6 vs. 14 15 vs. 19 20 yr. old chubby vs. average build males, 4167

multidimensional scaling of similarities data with race & ethnic group names as stimuli, racial & ethnic stereotyping, 8948 personality traits & motor skill dimensions of players, profile & magnitude & consistency of each position's player stereotyping,

football coaches, 8025

physiological feedback with bogus pipeline paradigm, racial attitude & stereotype change, college students, 11008
political & racial & Vietman War attitudes, racist & hawk stereotypes, U.S. white ethnics, 2246

pressures & stereotyped attitudes & expectations, career plans & job placement & choice, minority group law school graduates, 11984 Projective Picture Inventory as measure of acceptance of blackness, black male 4th graders, 4341

racial attitudes & stereotypes, correctable potential" & personality trait evaluations & sentencing of Negro & Caucasian offenders, Caucasian undergraduates playing part of juvenile court judge, 2216

regulating & stabilizing of social standards & stereotypes, consciousness & attitudes & behavior, 8938

self-appraised vs. stereotyped attitudes about fun & happiness, young vs. middle-aged vs. old adults, 8798

semantic differential & objective test battery & self & other judgments, personality type on polarity profile, college students & male high school graduates, 11254

sex & age & marital status & education, sex-role stereotypes, 8896 shift in cultural attitudes, career women, 8930

situational set & social approval need, perceptions of stimulus scenes photographed in low-income urban areas, police trainees,

socioeconomic status, cultural representations vs. cultural behaviors, urban adults, 6712

stereotyped attitudes during war toward Indians & Indonesians & Iranians & Pakistanis & Saudi Arabians & Turks, Pakistani university students, 4300

stereotypic conservative college student vs. factory worker vs. hippie dressed male Es, altruistic responses to simple requests, male Ss,

theory incorporating labeling & anomie & social & cultural support theories, homosexual career pattern of deviance-conformity, 8918

videotapes of same- vs. different-race stimulus persons involved in problem-solving task, attribution of motivation, Caucasian vs. Negro male college students, 2316

Stereotypes

attitudinal agreement vs. disagreement with old vs. young stranger, interpersonal attraction, old vs. young Ss, 6508

ethnic group & home town composition, ethnic stereotypes, Serbian & Hungarian & Montenegrinian elementary school students, 2234 facial characteristic & body type, social stereotyping, 1st & 3rd & 5th graders, 2327

hypotheses & strategies & stereotypes discrimination learning problems, kindergartners & 2nd & 4th & 6th graders & undergraduates, 2114

judging attributes as belonging to endomorph vs. ectomorph vs. mesomorph & as good vs. bad & as like vs. unlike themselves, body-build stereotype development, 5 6 vs. 14 15 vs. 19 20 yr. old chubby vs. average build males, 4167

Katz & Braly assessment & Stereotype Differential techniques, ethnic stereotypes, Filipino education students, 683

proneness to behavioral stereotypy, problem-solving & decision-making behavior, college students, 8394

psychological & sociological & educational factors, role identification & sex stereotype of occupational choice, college women, 5443 sex & stereotyped notions of personality traits, physical attractiveness. 9160

sex role stereotypes, humanistic psychology, 8935

voice quality of black vs. white speaker, perceptual characteristics attributed to speaker, 13 yr. old students at all-black vs. all-white vs. integrated junior high schools, 3196

Sterility

Sterilization (Sex) (See also Castration, Hysterectomy, Male Castration, Ovariectomy, Tubal Ligation, Vasectomy) state legislation on marriage & sterilization, retardates, 1000

Steroids (See also Aldosterone, Cholesterol, Corticosteroids, Corticosterone, Cortisone, Deoxycorticosterone, Hydrocortisone, Prednisolone)

ethamoxytriphetol antagonism, behavioral & morphological effects of estradiol benzoate, rats, 3920

steroid hormones, aggressive behavior, mammals, 360 steroids, territorial marking, castrated gerbils, 10694

testosterone vs. testosterone propionate vs. androstenedione vs. dihydrotestosterone vs. progesterone vs. estradiol benzoate, isolation induced intermale fighting, castrate male mice, 3928

courtship behavior, 3-spined vs. 10-spined stickleback, 8773

field observations of reproductive behavior along shallow water in natural situation, nesting & agonistic & courtship behavior, 3spined stickleback, 2060

prolactin, behavior, male sticklebacks, 1914

vegetation & conspecific rivals, nest site selection, male sticklebacks,

Stimulation (See also Afferent Stimulation, Auditory Stimulation, Aversive Stimulation, Brain Stimulation, Chemical Brain Stimulation, Electrical Brain Stimulation, Perceptual Stimulation, Prismatic Stimulation, Self Stimulation, Somesthetic Stimulation, Spreading Depression, Tactual Stimulation, Taste Stimulation, Visual Stimulation)

age changes & nature of eliciting stimuli, laughter development, 1st year of life, 10920

biosensory stimulation, semantic processing, college students, 8419 cutaneous electrical stimulation, pain-free touch sensations, 1568

defective & superior & deviant articulation & speech sound stimulability, oral sensory discrimination & auditory tasks,

kindergartners & 1st graders, 10919 galvanic & cathodic & anodic labyrinth-wrist stimulation, motor dominance & master eye & posture changes, 21 25 yr. old students 81

mechanical & electrical stimulation & intertrial interval adaptation of closing response & comparison to animal physiology, mimosa leaves, 352

over- & understimulation & uncertainty & novelty, adrenaline output & behavior efficiency, healthy humans, 384

physiological measurement & presence of others, pornographic & stimulating & pleasantness ratings of erotic stimuli, male undergraduates, 1555

sinusoidal stimulus currents & frequency variability, trapezoidal & sinusoidal galvanic body-sway response, 6110

stimulation-seeking motivation, escape attempts & disobedience & fighting & self-mutilation, 14-17 yr. old institutionalized delinquent girls, 2619

stimulus characteristics, recognition memory, 5 & 8 & 12 yr. olds & college students, 610

stimulus input, perceptual processes, epistemological dualism in perceptual theory, 1655

nulators (Apparatus) (See also Shock Units)

electronic holding relay, instantaneously switching AC & DC loads to high or low without introducing acoustic or electric noise, 8185 Stimulus (Conditioned) (See Conditioned Stimulus)

Stimulus (Unconditioned) (See Unconditioned Stimulus)

Stimulus Ambiguity

ambiguous feedback, communication level, high & low anomic counselor trainees, 11277

ambiguous vs. nonambiguous stimuli, training in prepositional usage, 3 & 5 & 7 yr. old autistic children, 2733

cue properties & ambiguous-cue experience, 2-choice discrimination problem with plaque stimuli composed of rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 3993

head inversion & stimulus ambiguity, uprightness constancy, adults vs. 35 yr. old children, 2112

issue ambiquity, conformity in petition-signing, 717

noise & intolerance of ambiguity, attraction for similar & dissimilar others, 4390

open vs. closed adaptation to aversive maternal control, tolerance for ambiguity, late adolescent males, implications for developmental model of paranoid behavior, 4137

perceptual development, perception of ambiguous figures, children, review of experiments, 584

response competition, 2-choice object discrimination task with rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 4011

social desirability & item ambiguity of questionnaire items & item format, response biases, college students, 8995 stimulus ambiguity & familiarization & age & sex, visual exploration

& stimulus preference, 2nd & 6th grade & college students, 2073 stimulus uncertainty & response importance, amount of information given favorable vs. unfavorable & insufficient & inconsistent, 1704

subjective uncertainty induced through blurred pictures, immediate & delayed incidental recall & intentional recall of objects portrayed in subsequent clear pictures, college students, 5930

ulus Attenuation

reference intensity & attenuation rate & starting intensity, binaural loudness balance, 8350

visual search varying in target stimulus discriminability, cardiac & respiratory activity, college students, 8271

Stimulus Change change of form & orientation of visual stimuli, duration of eye fixation & perceptual discrimination, 3 & 6 & 9 & 12 mo. olds, 2151

drive & incentive change, curiosity motivation & stimulus change, preschool age children, 10835

intra- vs. extradimensional stimulus-change cards in card sorting task, orienting reflex & attention to concept utilization, college & graduate students, 3718

magnitude & duration of stimulus change, light-contingent bar pressing, rats, 543

matching-to-sample procedure under fixed-interval & fixed-interval schedules with exteroceptive stimulus changes correlated with time since last reinforcer, performance accuracy, pigeons, 483 stimulus expectancy & stimulus change, tachistoscopic threshold &

GSR, college students, 3594

**Stimulus Complexity** 

additive & suppressive summation & response averaging to compounded stimuli & stimulus control model, generalization peak shift in free operant & classical conditioning, literature review, 253

age differences & varied visual fields & stimuli exposure time & complexity & association value & training level, random shape recognition, middle-aged & young adults, 6612

amount & recency of stimulus familiarization & complexity, rating of stimulus preferences, 5th & 6th graders, 4226

basic sequences of patterned sequence task behavior theories, measures of relative pattern complexity, 1647

decision times & consistency measures, psychological distance & single stimulus & paired comparison judgments & task preference & judged complexity, 6063

display size & number of targets, visual target search time, college students, 8300

environmental & object novelty & object complexity, exploratory behavior, 1 yr. olds, 4206

increased processing load & task difficulty, discrimination RT &

parallel processing of visual displays, undergraduates, 1576 linear vs. nonlinear structural abstract vs. concrete stimulus sets, serial learning, 4th vs. 6th vs. 8th graders, 10817

luminance & intervening stimulus pattern contours & interstimulus interval, form identification & visual integration & differentiation processes, authors & undergraduates & graduate psychology students, 1613

medium vs. low & medium vs. high & low vs. high pattern complexity as incentive, arousal increment, college students, 1629

perception & recognition of complex figures, 6046 pictorial meaningfulness & picture detail & presentation mode, pictorial recognition learning, college students, 8385

rated preference & complexity for natural vs. urban environment visual material, college students, 5854

redundancy & complexity, coding processes in visual information transmission, 6057

serial vs. parallel vs. integrality model, encoding & discrimination

processes, 1684 shared contours & complexity of ground & analysis & figure & complete pattern & overlapping lines, embedded-figures difficulty, 6-12 yr. old normals & 11-16 yr. old retardates, discussion of R. Narasimhan & N. Sutherland's structural models, 4825

simultaneous vs. successive presentation of 3-element visual patterns, judged complexity & interestingness & pleasingness, college & high school students, 5814

size vs. brightness vs. size-brightness redundant vs. size-brightness nonredundant stimuli, information gain rate & RT, undergradu-ate & highly trained graduate students, W. E. Hick's paradigm

extended to M. E. Doherty's absolute judgment task, 1718 stimulus combinations & dimensions & perception, stimulus processing model, 1723

stimulus familiarity & complexity, infant attention, 2 vs. 3 vs. 5 mo. olds, 10877

stimulus uncertainty & frequency, liking, 10506

symbol string complexity & spatial orientation, memory span & recall errors, undergraduates, 3721 visual pattern complexity, concurrent variable-interval reinforce-

ment values, psychology students, 3644

Stimulus Control

additive & suppressive summation & response averaging to compounded stimuli & stimulus control model, generalization peak shift in free operant & classical conditioning, literature review, 253

amount of discrimination training, conditioned inhibition & degree of stimulus control, pigeons, 569

behavioral contrast during successive discrimination training, inhibitory stimulus control development, pigeons, 8718

blocking paradigm, stimulus control, children, 10873

compound conditioned stimuli presentation with each stimulus controlling degree of response strength, summation of response strengths in operant discrimination situation, moderately retarded children, 4788

control of aversive stimuli, prediction of stimuli, 1695 discrimination training & response-dependent vs. independent schedules, post-discrimination stimulus control, pigeons, 10788 discriminative stimulus duration & variability in chained reinforcement schedules, stimulus control acquisition & maintenance, rats,

fading vs. nonfading, stimulus control transfer & behavioral contrast, 10722

fixed vs. variable interval schedule reinforcement, stimulus control after training, rats, 2022

fixed-ratio vs. fixed-interval reinforcement schedules of stimulus control, figural matching-to-sample tasks, 47 yr. olds, 10828

heightened reinforcement density vs. discriminative stimulus control vs. extended training vs. punishment, generalized imitation, 4 & 5 yr. old males, 799

loss vs. lack of control over shock, subsequent ability to learn shock

avoidance & emotional arousal, college students, 1754 multiple schedule with equal variable-interval schedules in 2 components vs. variable-interval schedule in 1 component & extinction schedule in other, sustained behavioral contrast, 5 8 yr. olds, 252

prior discrimination training on 1 dimension, generalization gradient steepness on extramodal dimension, pigeons, 553

reinforcement contingencies, attention span & generalization of task-related stimulus control, 11 & 13 yr. old retardates, 2723

response key illumination, airflow velocity discrimination acquisi-

tion & stimulus control, pigeons, 4075
response rate controlled by single stimulus absence, combinedstimulus control, rats, 8772

single stimuli response rates & consequences, combining punishment signalling stimuli, rats, 6450

stimulus & reinforcement control, sex role development, boys, 10897 stimulus control of counting-like behavior, discrimination of amounts of own behavior by producing response sequences dependent on discriminative stimulus presence, rats, 8700

training in 2-way shuttle avoidance, generalization in extinction along frequency & intensity dimensions of CS, rats, 8711 unilateral spreading depression, retrograde amnesic effects &

interference with stimulus control, rats, 6313

Stimulus Deprivation (See also Food Deprivation, Sensory Deprivation, Social Deprivation, Social Isolation, Water Deprivation)

Stimulus Discrimis

all vs. some reinforced training trials, stimulus generalization & discrimination along click frequency continuum, naive female pigeons, 1991

amount of discrimination training, conditioned inhibition & degree of stimulus control, pigeons, 569

atropine sulfate pretreatment, arecoline- vs. saline-cued leverpressing discrimination, female albino rats, 456

behavioral contrast during successive discrimination training, inhibitory stimulus control development, pigeons, 8718 blackout method, acquisition & generalization, pigeons, 10790

compounding discriminative stimuli controlling variable-interval limited-hold avoidance, response summation, dogs, 8740 conditioned reinforcement, maintenance of discrete operant

discrimination, rats, 2061 cue properties & ambiguous-cue experience, 2-choice discrimination

problem with plaque stimuli composed of rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 3993 cue value of operantly controlled heart rate changes as discriminative stimuli, emotional response, male Ss, 347

discrimination learning on variable interval reinforcement schedule with different light & tone combinations, response summation, rats. 8747

discrimination training, responses to new stimulus introduced after 0 & 1 & 3 & 9 days, pigeons, 10697 dorsolateral frontal lesions, conditioned discrimination & respon-

siveness to novel cues & reversal vs. nonreversal shift learning, monkeys, 6266

duration of differential reinforcement of low rates correlated stimuli, timing & collateral responding, pigeons, 8741 food finding with vs. without alley discrimination, frequency of food

transport to goal-box, rats, 10720

hard vs. easy & color vs. shape cues, discrimination learning, pigeons, 6446

immediate vs. delayed reinforcement & forced preresponse stimulus exposure vs. stimulus exposure during delay interval & intertrial interval & interstimulus interval, discrimination learning facilitation, 9 yr. olds, 4126

informative stimuli with multiple reinforcement delays, discriminated key pecking, pigeons, 6391

intrapair similarity & incorrect alternatives number & feedback, single & double functioning verbal discrimination acquisition & retention, 5925

medial vs. lateral prefrontal lesions, asymmetrical & symmetrical reinforced differentiation, dogs, 8607

negative discriminative stimulus as primary reinforcer, observing behavior, pigeons, 493

negative vs. positive auto-maintenance, selective insensitivity to sdelta signalling nonreinforcement in terminal link, pigeons, 4066 observing behavior, uncertainty reduction, pigeons, 2016

orbital vs. proreal vs. medial precruciate lesions, left leg right leg

overshadowing, discrimination of successive compound stimuli, pigeons, 1992

perceptual training of discrimination orientation, developmental lag

between perception & performance, preschool children, 10922
prior discrimination training on I dimension, generalization
gradient steepness on extramodal dimension, pigeons, 553

punishment contrast, unpunished responding rate during freeoperant avoidance, rhesus monkeys, 10754

reinforcement & discriminative stimuli, control of clarity & informativeness of lectures, 12076

reinforcement magnitude, patterning, goldfish, 1999
response competition, 2-choice object discrimination task with rewarded stimulus & nonrewarded stimulus & ambiguous stimulus, monkeys, 4011

response requirements & directional fractionation, heart rate & skin conductance & digital & cephalic vasoconstriction, male college students, 8528

safety signals, extinction of discriminated avoidance response, female rats, 8721

self-stimulation & its suppression, discrimination learning, autistic children, 11422

sensory deprivation, simple vs. complex stimulus discrimination following operant conditioning, rats, 1978

stimuli paired with aversive stimulation schedules, reinforcing

properties & discriminative cue preference, rats, 6362 stimulus control of counting-like behavior, discrimination of amounts of own behavior by producing response sequences dependent on discriminative stimulus presence, rats, 8700

stimulus discrimination training, extradimensional stimulus control, pigeons, 8710

stimulus equivalence & pattern recognition, perceptual processing, book, 8277

stimulus presentation probability, duration discrimination, rhesus monkeys, 10730

stimulus similarity & 2-stimulus differential training, stimulus generalization & learning transfer, 10462 subproblem analysis, discrimination shift learning, pigeons, 8765

taxonomy of selection mechanisms, analysis of stimulus selection at various levels of competing stimuli, college students, 6066

visual search varying in target stimulus discriminability, cardiac & respiratory activity, college students, 8271

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

3-cue selection models, multidimensional stimulus classification, alternatives to C. Spiker & W. Croll & A. Miller's analysis, 3646 Stimulus Duration

acoustic stimulus duration, increased behavioral responses, newborn infants, 10871

age differences & varied visual fields & stimuli exposure time & complexity & association value & training level, random shape recognition, middle-aged & young adults, 6612

body part judgment & exposure time, adaptation to visually distorted stimuli, professional ballet dancers vs. nondancers, 1606 channel capacity & exposure time & apprehension span, immediate digit memory, unpracticed adults & adolescents, literature review,

color value & selection locus & exposure time & payoff, recall for visually presented letters, undergraduates, 1725

CS exposure length & blocking of response, rapid elimination of avoidance behavior, rats, 6346

discriminative stimulus duration & variability in chained reinforcement schedules, stimulus control acquisition & maintenance, rats,

duration & amplitude of noise markers bounding temporal gap, silence duration judgments, 3 undergraduates, 1551

duration discrimination of acoustically defined intervals in 1-8 sec. range, 25-40 yr. old females, 5856

duration of differential reinforcement of low rates correlated

stimuli, timing & collateral responding, pigeons, 8741
electric shock & duration & S's position relative to electrodes,
detection & reaction & escape & debilitation thresholds, goldfish, 8761

exposure duration & luminance & frame tilt & frame-rod interval, verticality judgments, field dependent vs. independent college students, 10304

exposure duration, magnitude estimates of smiles, college students,

exposure time to discriminative vs. nondiscriminative cues & start box confinement time & abrupt shift in start box confinement &/or cue presentation, differential conditioning in straight runway, rats, 10725

exposure vs. familiarity, stimulus preference, college students, 10415 frequency & rate & duration of repetitive auditory stimuli, following, chicks, 6371

instructions regarding rehearsal & presentation rates & critical item exposure duration, anterograde vs. retrograde amnesia in shortterm memory, college students, 8375

intermovement interval & exposure time, Witkin Rod & Frame Test, female graduate & undergraduate students, 3579

magnitude & duration of stimulus change, light-contingent bar pressing, rats, 543

masker & signal duration & diotic & dichotic listening conditions, tone detection, 5889

masking stimulus duration & dark interval, detection thresholds for disk of light, college & high school students, 8292

monocular vs. binocular judgments with varying luminanceduration parameters to each eye, detection rates, 8346

moving spot duration & velocity, movement detection thresholds, 3554

multiple component duration, reinforcement schedule interactions & extinction rate, pigeons, 8739 noise spectrum level & frequency & signal duration, masking-level

differences, 8333

practice & exposure time & difficulty, serial learning, normal vs. acute schizophrenic vs. brain-damaged male adults, 7091

reinforcement frequency & prefood stimulus duration, keypecking response rate, pigeons, 4067 shock intensity & duration, Sidman avoidance acquisition &

prediction from 1st session response, rats, 6420 short pulses vs. continuous tones & between-pulse signal off-time,

auditory thresholds, goldfish, 2030 signal duration, detectability of interaural time & level differences,

signal intensity & duration & payoff matrix & critical time, reaction criterion vs. sensitivity measurement, 3586

stimulus duration & interstimulus interval & encoding technique, short-term retention of auditory sequences, college students, 6027 stimulus intensity & duration, simple RT, housewives, 8330

stimulus presentation probability, duration discrimination, rhesus monkeys, 10730

stimulus presentation time, memory for words & images, college students with high vs. low reactivity levels, 8482

stimulus similarity & 2-stimulus differential training, stimulus generalization & learning transfer, 10462

temporal gap & auditory stimulus pattern duration & repetitions, waveform memory, 6038

total presentation time, free-recall learning, college students, 6040 verbal vs. nonverbal processing, visual stimuli, 10356 visual display onset vs. offset & reaction latency, visual persistence,

adults with normal vision, 3547

visual similarity & verbal describability & presentation, forced-choice picture recognition, undergraduates, 1663 water deprivation & CS preexposure duration, taste-aversion

learning, rats, 6365
timulus Exposure Time (See Stimulus Duration)

ulus Frequency

exposure to high-frequency noise, temporary threshold shifts, chinchillas, 10760

frequency of stimulus, naming category members for nouns & adjectives, college students, support for noun categories organization of semantic memory store, 6016

instructions & word imagery & situational frequency, verbal discrimination learning, undergraduates, 3736

letter & word set size & visual & auditory modality & presentation rate, naming latency facilitation & recognition RT, adults, 3704 photic frequency & pulse-to-cycle fraction & blood oxygen level,

perceived duration, 3568 redundancy & complexity, coding processes in visual information transmission, 6057

relative stimulus frequency, choice RT, 3578

repeated exposure to stimuli, subsequent rating of stimuli on likedislike scale, college students, 5950

signal intensity & frequency, tone detection, high school male & adult female trained listeners, 1661

sinusoidal stimulus currents & frequency variability, trapezoidal & sinusoidal galvanic body-sway response, 6110

stimulus frequency & type & similarity, choice RT, undergraduates,

stimulus novelty & exposure frequency, persuasion, college students, replication of R. Zajonc's research, 11198

stimulus rate & number, early components of averaged electroencephalic response, 10543

stimulus uncertainty & frequency, liking, 10506

temporal gap & auditory stimulus pattern duration & repetitions, waveform memory, 6038

Stimulus Generalization

all vs. some reinforced training trials, stimulus generalization & discrimination along click frequency continuum, naive female pigeons, 1991

auditory intensity differentiation, persistence of dynamism effects & development of generalization gradients during extinction, rats,

blackout method, acquisition & generalization, pigeons, 10790

carrier frequency & modulation depth & modulation frequency of amplitude-modulated & pure-tone signals, stimulus generalization of conditioned respiration response, goldfish, 1993 continuous stimulus dimension, continuous response dimension

control, pigeons, 10791

electrical stimulation of cochlea & auditory pathways, stimulus generalization from acoustic to electric stimulus, cats, 1851

high vs. low ego-involvement instructions & high vs. low formal intralist similarity, stimulus generalization errors in paired-associate learning, college students, 3680

increase over time in stimulus generalization to apparatus, frequency & probability & amplitude of avoidance CRs, rabbits,

learning successive line-tilt discrimination task with vs. without errors, stimulus generalization, mentally retarded children, 4686 LSD, auditory stimuli sensitivity using stimulus generalization

procedure, rats, 6247 overshadowing, discrimination of successive compound stimuli, pigeons, 1992

posttraining generalization test, measuring learning when trained to respond to compound stimulus, kindergartners, 1682

reinforcement contingencies, attention span & generalization of task-related stimulus control, 11 & 13 yr. old retardates, 2723

selective attention vs. stimulus generalization interpretation, reversal learning on brightness discrimination & easy-to-hard effect, rats,

serial & simultaneous compound presentations of separately established conditioned stimuli, escape maintenance, college students, replication of D. Levis's study, 8418

stimulus discrimination training, extradimensional stimulus control, pigeons, 8710

stimulus generalization & overinclusion & vocabulary, schizophrenics vs. normals, 4601

stimulus generalization gradients for auditory intensity, rats & guinea pigs, 2055

stimulus generalization gradients of excitation & inhibition, predicted vs. actual postdiscrimination gradients, pigeons, 6401 stimulus similarity & 2-stimulus differential training, stimulus

generalization & learning transfer, 10462 training in 2-way shuttle avoidance, generalization in extinction along frequency & intensity dimensions of CS, rats, 8711 variation in complex shape vertices positions, discrimination learning & generalization, pigeons, 10733 verbal pretraining, multidimensional generalization behavior,

kindergartners, 2189

**Stimulus Intensity** 

"right & wrong" vs. neutral feedback, correct response repetition in modified Thorndikian experiment, college students, 8307

age & stimulus intensity, transition from concrete to abstract cognitive processes, educable mentally retarded vs. normal children, 11447

auditory & temperature stimulus intensity, heart rate & skin potential & skin resistance change, 2-5 wk. old infants, 8508

auditory intensity differentiation, persistence of dynamism effects & development of generalization gradients during extinction, rats,

auditory stimulus intensity judgments, cortical evoked responses &

heart rate & RT, male college students, 8506 binaural click signals with differences in interaural time & intensity & overall click level lateralization performance on lever-pressing task, squirrel monkeys, 6366

binaurally delivered stimulus intensity change in stage 1-REM vs. stage 2 vs. stage 3 vs. stage 4 sleep vs. wakefulness, auditory evoked brain response, 1834

category range, magnitude estimates of electrotactile stimuli, undergraduates, 1591

color & intensity & stripe width of moving patterns & movement direction, contingent movement aftereffects & color transposition,

continuous stimulus dimension, continuous response dimension control, pigeons, 10791

cross-modality comparisons of averaged evoked potentials to visual & auditory & electrical stimulation, vigilance changes & stimulus intensity, cats, 8644

decrease in sound intensity, secondary reinforcing properties to another stimulus, rats, 6376

duration & amplitude of noise markers bounding temporal gap, silence duration judgments, 3 undergraduates, 1551

intensity level of aurally presented items & recall interval, digit recall, 9 yr. old normals vs. retardates, test of N. Ellis's stimulus trace deficit theory, 2635

interaural intensity-differences & interaural time differences, sound localization lag, 1564

interspeaker influence, vocal intensity, interpersonal verbal communication, 11201

magnitude & duration of stimulus change, light-contingent bar pressing, rats, 543

partial reinforcement schedule & interstimulus interval & UCS intensity, eyelid conditioning, 10449

response-contingent changes in UCS intensity, nictitating membrane response, rabbit, 3998

signal duration increase, increment & decrement recognition relative to detection performance in tonal masking experiment, criticism of N. A. Macmillan's experiment & reply by N. A. Macmillan, 1617

signal intensity & duration & payoff matrix & critical time, reaction criterion vs. sensitivity measurement, 3586

signal intensity & frequency, tone detection, high school male & adult female trained listeners, 1661

signal intensity, RT to 2nd of 2 shortly spaced auditory signals, college students, 3587

stimulus intensity & duration, simple RT, housewives, 8330 stimulus intensity & locus of feedback in response concept learning,

acquisition & transfer of behavioral strategies, 10380 stimulus intensity change, olfactory bulb field potential responses to

antidromic stimulation of lateral olfactory tract, rabbits, 10586 tone intensity & task difficulty, motivation & performance relationship, extension & expansion of Yerkes-Dodson Law,

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

Stimulus Intervals (See also Interstimulus Interval, Intertrial Interval)

free choice vs. fixed postfeedback interval, response latency in concept identification, college students, 10458

immediate vs. delayed reinforcement & forced preresponse stimulus exposure vs. stimulus exposure during delay interval & intertrial interval & interstimulus interval, discrimination learning facilitation, 9 yr. olds, 4126

- intersignal interval, acoustically evoked potential recovery cycle, 10294
- pacing & age decrement interaction, paired-associate learning, aged, 6538
- periodicity instability, interaural time-of-arrival difference detection, 1651
- response-shock interval & shock intensity, free operant avoidance
- responding, pigeons, 4035 right-left vs. left-right order & stimulus onset asynchronies & flank width, brightness estimates of sequentially presented & partially overlapping rectangles, undergraduates, 1586
- stereo pattern exposure time lapse, stereoscopic depth perception acuity, graduate students, 10338
- stimulus input rates & response time limits, missing scan paradigm performance, undergraduates, 1713
- stimulus interval & foreperiod duration & signal position, click-fingertap synchronization, undergraduates, 3540 stimulus interval, auditory evoked response during Stage 2 and
- REM sleep, 2 5 yr. olds, 1816
- stimulus light preceding timeout & point-loss periods & response cost, operant responding, college students, 8448
- temporal location within pulse, light pulse gap detectability, undergraduates, 1654
- **Stimulus Novelty**
- amount & recency of stimulus familiarization & complexity, rating of stimulus preferences, 5th & 6th graders, 4226
- caudate nuclear stimulation vs. novel visual stimulation vs. both, disruption of habituation, rats, 373
- dorsolateral frontal lesions, conditioned discrimination & responsiveness to novel cues & reversal vs. nonreversal shift learning, monkeys, 6266
- early protein deprivation & malnutrition, novel vs. familiar object responses, rats, 3981
- ECS, memory of novel stimulus, rats, 8725
- environmental & object novelty & object complexity, exploratory behavior, 1 yr. olds, 4206
- exposure vs. familiarity, stimulus preference, college students, 10415 familiarity vs. short-term novelty, affective assertions, 5.8 6.9 yr.
- interview novelty & personal content & interpersonal interaction, diastolic blood pressure, 3840
- intrinsic vs. extrinsic motivation & delayed auditory feedback arousal, novelty preference & free recall, male high school students, 3709
- letter & word set size & visual & auditory modality & presentation rate, naming latency facilitation & recognition RT, adults, 3704
- list novelty & list organization & trial blocks, generalization of associative clustering tendencies, 15-19 yr. old retardates, 4622
- new vs. old-identical vs. old-similar picture stimuli, recognition memory with long vs. short retention intervals, preschoolers, 3653
- novel figures presentation, associative response norms & type-token ratios & uncertainties, undergraduates, 5953
- object novelty, learned avoidance of unpalatable prey, chicks, 6432 over- & understimulation & uncertainty & novelty, adrenaline
- output & behavior efficiency, healthy humans, 384 paced vs. unpaced decision-time & rare vs. common verbal material,
- recognition memory, college students, 5974 peer familiarity, novel situation behavior, preschoolers, 4223
- prior exposure to high- vs. low-valued personality trait adjectives, impression formation, college students, 11093
  rare vs. common words & interference during storage vs. interference during testing, recognition memory, 3717
  redundant vs. novel visual targets, fixation time, 17 96 hr. old
- infants, 4120
- stimulus familiarity & complexity, infant attention, 2 vs. 3 vs. 5 mo.
- stimulus novelty & exposure frequency, persuasion, college students, replication of R. Zajonc's research, 11198
- stimulus novelty & systematicity in stimulus-response materials, paired associate acquisition & retention, evidence for specific & generative memory components, 5994
- stimulus novelty, digging behavior, rats, 10778
- structural symmetry vs. nonsymmetry of dot patterns, perception of familiar vs. unfamiliar stimuli, 3581
- target set size & familiarity, reaction time, implications for models
- of human information processing, 8377 unexpected stimulus, sudden-attack" epilepsy, case reports, 9362 visual stimuli meaningfulness & familiarity & age differences, perceptual recognition, 18 83 yr. old Ss, 4139

- Stimulus Parameters (See also Interstimulus Interval, Intertrial Interval, Stimulus Attenuation, Stimulus Complexity, Stimulus Duration, Stimulus Frequency, Stimulus Intensity, Stimulus Intervals, Stimulus Novelty, Stimulus Salience, Stimulus Similarity, Stimulus Variability)
- age & stimulus compound, optional reversal shifts, 3 18 yr. olds, replication & extension of T. Kendler & H. Kendler's experiment,
- discrimination learning on variable interval reinforcement schedule with different light & tone combinations, response summation, rats, 8747
- duration & speed & course length, food finding approach orientation, rats, 6349
- environmental stimulus- & response-outcome contingency expectancies vs. contingent reinforcement, operant learning, 1674
- feedback & stimulus characteristics, auditory information processing, graduate students, 6062
- gazing straight ahead vs. scanning visual field & signal light color & position & onset vs. offset, reaction to colored light, undergraduates & enlisted men, 8270
- geometric vs. thematic stimulus arrays, information selection vs. assimilation of information encountered & concept attainment, female undergraduates, 3669
- hierarchical stimulus & preference structures, free vs. restricted classification of 1-dimensional stimuli, college students, 5991
- luminance & duration & stimulus size & response to signal onset termination & monocular vs. binocular viewing, visual RT, 171
- manipulating temporal contingency between neutral stimulus & food reinforcer & varying percentage parameter of pairings, establishing neutral stimulus as conditioned reinforcers, pigeons,
- monotonic vs. nonmonotonic functions & locus of processing & interaction with stimuli & task parameters, metacontrast, literature review, 1615
- parameters of original stimulus list, measuring clustering in free recall, 10431
- positive stimulus & negative stimulus feedback information in discrimination learning, positive vs. negative vs. neutral stimulus recall, 2nd & 3rd graders, 10493
- redundant vs. nonredundant & attitude congruent vs. incongruent stimuli, attitude change on social judgment scales, college
- students, 6742 single vs. redundant stimuli & stimulus width vs. length & size, horizontal-vertical visual discrimination, 4 goldfish, modification
- of D. Yager's technique, 4076 stimulus & response variants, interference test, 5951
- stimulus combinations & dimensions & perception, stimulus processing model, 1723
- stimulus frequency & type & similarity, choice RT, undergraduates,
- stimulus novelty & systematicity in stimulus-response materials, paired associate acquisition & retention, evidence for specific & generative memory components, 5994
- stimulus-onset-asynchrony between 80 & 100 msec., RT as curvilinear function, replication of H. Helson & J. A. Steger's finding, 5858
- target distance & visual adaptation & accommodation & convergence, constancy of visual direction & distance perception, undergraduates, 1658
- Stimulus Pattern (See Stimulus Variability)
- Stimulus Presentation Methods (See also Stereoscopic Presentation, Tachistoscopic Presentation)
- affirmative vs. negative & conjunctive vs. disjunctive problems & presentation mode, matrix representation in deductive problem solving, college students, 8462
- audiovisual vs. visual vs. audio vs. still picture presentation of black vs. white expressors, emotion perception, male vs. female white undergraduates, 9038
- auditory vs. visual word presentation & serial position, immediate & delayed recall, 10461
- auditory/visual memory span, auditory/visual methods of learning to spell, 2nd graders, 9968
- Brown-Peterson short-term retention paradigm & free recall, modality encoding in memory, 3738
- category dominance & instance dominance, categorization time for words, college students, 10456
- changing projection surface, immature vs. mature visual afterimages, psychiatric patients vs. normal adults, 10364

classical aversive conditioning with random vs. repeated vs. single CS-UCS pairings, CR extinction, high vs. low anxiety undergraduates, 8435

concept type & pretraining extent & presentation method, concept attainment, college students, 5391

correct vs. incorrect vs. correct & incorrect item presentation, verbal

discrimination learning, college students, 8441
CS vs. no stimulus vs. UCS vs. paired CS-UCS, acquisition & maintenance & extinction of jaw-movement pseudo-CRs & CRs, rabbits, 4065

electronic holding relay, instantaneously switching AC & DC loads to high or low without introducing acoustic or electric noise, 8185

form-matching task in visual vs. haptic mode, cross-modal equivalence, 7-9 yr. old normals vs. educable mental retardates,

generating random time intervals, method in which S or E initiates time intervals, 3474

in phase vs. out of phase binaural word presentation & light airplane noise, speech intelligibility, 10368

instructions & stimulus type & organization & presentation spacing,

letter sequence immediate recall, 10486

instructions regarding rehearsal & presentation rates & critical item exposure duration, anterograde vs. retrograde amnesia in shortterm memory, college students, 8375

interstimulus interval & simultaneous mask & target presentation, nonmonotonic backward & forward masking in recognition task, verification of N. Weisstein's Rashevsky-Landahl neural net model, graduate students & faculty members with experience in visual perception experiments, 1761

IQ & presentation mode, negative transfer in paired-associate learning, normal & retarded 11 13 yr. olds, 4749

item recency & visual vs. auditory presentation, modality effect in free recall, college students, 6078

laterally presented pictures, visual & verbal coding, college students, 8301

memory & graticule & target grouping & placeholders & symbols vs. letters, visual search, 5822

modality of memory set & test item & visual & acoustic similarity, context recall, 5943

pictorial meaningfulness & picture detail & presentation mode, pictorial recognition learning, college students, 8385

presentation mode & material type of 4-card problem, formal reasoning, male high school 6th formers, 3713

presentation mode & ordering of organized hierarchical information, acquisition & retention of hierarchy of connections between letters, college students, 8440

presentation modes & recall & interitem interval, connected discourse learning rate, college students, 6000

presentation order & message about artist & preexperimental experience with scale & anchors, aesthetic judgment of paintings, college students, 11155

presentation rate & list type & stimulus position & formal response similarity, free recall & paired-associate learning, college students,

quasi-simultaneously presented irrelevant message, dichotic listening, 10320

question position & pacing & presentation mode, learning from written prose, elementary school students, 10049

reading status & stimulus order & associative task type, acquisition of visual-auditory associations, 7 yr. olds, 10287

redundancy level & simultaneous presentation vs. anticipation, paired associate learning, educable retardates vs. 3rd vs. 8th grade students, 4235

redundancy, carrying capacity of human long-term memory, 10477 rehearsal & modality, delayed recall of continuously presented paired associates, college students, 3649

response frequency equalization vs. adaptation level theory of constant stimuli method bias, recalculation of A. Erlebacher & R. Sekuler's data, 3526

sequential presentation of near span-length strings of digits or letters, short-term recognition memory, college students, 8407

serial & simultaneous compound presentations of separately established conditioned stimuli, escape maintenance, college students, replication of D. Levis's study, 8418

serial position of personality-trait adjectives, impression formation, college students, 10384

serial position, visual processing of digits presented in rapid succession, college students, 5980

serial vs. simultaneous visual presentation vs. serial aural presentation of nonsense syllables, recall, college students, 3656

signal presentation methods, signal detection during vigilance, literature review, 3550

simultaneous vs. sequential presentation & total vs. partial vs. no specific review & easy vs. hard instance difficulty, concept learning degree, 1785

simultaneous vs. successive presentation & exposure duration of parallel lines of unequal length, complete assimilation, college students, 5850

simultaneous vs. successive presentation of 3-element visual patterns, judged complexity & interestingness & pleasingness, college & high school students, 5814

single vs. array social stimuli presentation methods, social judgment, college students, 11114

singly presented stimuli, discrete-trial red-green discrimination

reversals, pigeons & goldfish, 4080

stimulus availability & test pictures & risk of self-disclosure in analysis-by-synthesis model, cognitive behavior in projective testing, college students, 5763

stimulus class & serial position & single- vs. multiple-match procedure, correct response & response latency in short-term memory, white middle class vs. black disadvantaged lower class 6 7 yr. olds, 8426

stimulus presentation method & type of focal instance & type of strategy & sex, conjunctive concept attainment task performance, college students, 10502

stimulus presentation probability, duration discrimination, rhesus monkeys, 10730

stimulus reversal in paired-associate task, backward & forward recall, 3749

successive presentations & paired comparisons of stimuli, color preference role in pecking responses, neonatal herring gull chicks, 2023

visual vs. auditory presentation & retention interval, trigram retention, college students, 8460

visual vs. auditory stimulus presentation mode & visual vs. auditory feedback, time-interval reproduction responses, 8263

2nd-order scheduling of paired & nonpaired brief stimuli, response rates, pigeons, 10784
Stimulus Salience

constraint redundancy, attribute- & rule-learning in sequential pattern recognition, college students, 10414

heuristic device of representativeness vs. sample size, study of subjective probabilities & uncertainty, 3699

negative salience & sex differences & transitory recency effects, character judgment, 2374

stimulus similarity & preference & saliency, concept attainment,

Stimulus Similarity

analyzable vs. unanalyzable stimuli, similarity judgments & classification, undergraduates, 1700

articulated & acoustic stimuli similarity, short-term recall of verbal items, 6018

catch trial type, auditory RT, variable criterion model reanalysis of data from D. LaBerge's experiment, 1594 cognitive similarity, proactive & retroactive interference in short-

term memory, college students, 3655 different vector models for subjective similarity, multidimensional

scaling, 33 dimensional preference & relative cue similarity, optional shift

behavior, 1st & 3rd graders, 4232 dyadic groups composed of dissimilar vs. similar A-B pairs, similarity & complementarity in verbal conditioning, college

students, 1750 field dependence-independence, similarity judgments of hierarchi-cally organized pairs of pictures & words, high school seniors,

8489 high vs. low ego-involvement instructions & high vs. low formal intralist similarity, stimulus generalization errors in pairedassociate learning, college students, 3680

inability for grouping according to similarity & ability for grouping partially according to similarity & grouping entire stimulus array according to similarity, free classification, preschool children,

interlist similarity of stimuli &/or responses, paired associate learning transfer, college students, 8478

interpolated task difficulty & similarity & activity & kinesthetic & visual + kinesthetic cues, short-term motor memory, college students, 8299

intrapair similarity & incorrect alternatives number & feedback, single & double functioning verbal discrimination acquisition & retention, 5925

modality of memory set & test item & visual & acoustic similarity, context recall, 5943

multidimensional scaling of stimulus similarity judgements in scaling & sorting tasks, adults, 1639

name vs. physical similarity, tachistoscopic letter recognition. undergraduates, 8404

new vs. old-identical vs. old-similar picture stimuli, recognition memory with long vs. short retention intervals, preschoolers, 3653 pair category sameness & prior free recall stimuli, paired associate learning, 3642

response-term predictability & stimulus-response conceptual similarity, paired-associate learning, college students, 10492

serial CS component similarity, consummatory licking suppression, rats, 10728

shock & safe area similarity vs. dissimilarity, escape training & extinction, rats, 4033

similarity & semantic space judgments of random shapes, college students, 5855

similarity vs. identity matching, response latency & visual recognition, replication & extension of R. Sekular & M. Abrams,

stimulus frequency & type & similarity, choice RT, undergraduates, 1563

stimulus similarity & preference & saliency, concept attainment, 10405

stimulus similarity & response criterion, successive discrimination reversal learning, pigeons, 8748

stimulus similarity & strategies of correct example comparison vs. rejection of irrelevant examples vs. hypothesis testing vs. anchoring, conjunctive vs. inclusive vs. exclusive disjunctive concept formation, students, 201

stimulus similarity & 2-stimulus differential training, stimulus generalization & learning transfer, 10462

stimulus similarity, size difference judgment response amplitude & latency, 7th graders, 10299

taxonomy of selection mechanisms, analysis of stimulus selection at various levels of competing stimuli, college students, 6066

variations of paired comparisons, similarities in complex visually perceived forms, 8284

visual similarity & verbal describability & presentation, forcedchoice picture recognition, undergraduates, 1663

visual stimulus discrepancy, fixation time & attention, 45 month old Caucasian infants, 647

vocalization activity, acoustic similarity & semantic effects at short & long retention interval, 1773

Stimulus Variability

alcohol & stimulus-response uncertainty, spatial localization time, 21 30 yr. old males, 10632

brightness matching technique, apparent contrast of backward-forward-masked spatial sinusoids, 8272

context of stimulus item presentation variation & quiet vs. noise listening condition, speech sound discrimination performance, nursery schoolers vs. kindergartners vs. 1st graders, 4222

differential relevance of external stimuli, heart rate under food deprivation, 3806

discriminative stimulus duration & variability in chained reinforcement schedules, stimulus control acquisition & maintenance, rats, 6399

immature vs. mature visual afterimages, distortions of changing projection surface, 5898

information load & response delay & stimulus variation dimension number & type, identification capacity, retardates vs. normal 1st & 6th graders, 4866

medium vs. low & medium vs. high & low vs. high pattern complexity as incentive, arousal increment, college students, 1629 model linearly linking subjective scale to physical magnitude of stimuli, analysis of data from constant stimuli-certainty ratings

method threshold studies, 141 response rate controlled by single stimulus absence, combined-stimulus control, rats, 8772

stimuli color variability, habituation of attention on cue-related task, 4 & 5 yr. old children, 4234

stimulus & response patterns, reaction latency to identify outcome of stimulus prediction, college students, 8347 stimulus alternatives, visual choice RT, 16-49 yr. olds, 5820

stimulus class & serial position & single- vs. multiple-match procedure, correct response & response latency in short-term memory, white middle class vs. black disadvantaged lower class 6 7 yr. olds, 8426

stimulus expectancy & stimulus change, tachistoscopic threshold & GSR, college students, 3594

stimulus pairing without motor response, producing secondary reinforcement, children, 10811

stimulus probability variation & instructions promoting misunderstanding probabilities, RT & probability estimation, schizophrenics vs. normals, 7157

stimulus rate & number, early components of averaged electroencephalic response, 10543

stimulus uncertainty & modality shift & wrong pretrial guess, average visual & auditory evoked potentials & RT, schizophrenics vs. psychotic depressives vs. normals, 1009

structural symmetry vs. nonsymmetry of dot patterns, perception of familiar vs. unfamiliar stimuli, 3581

temporal gap & auditory stimulus pattern duration & repetitions, waveform memory, 6038

variable stimulus encoding, paired associate transfer, college students, support for E. Martin's theory, 10469

variable stimulus-response mapping & stimulus meaningfulness, single letter cue selection, 8359

variation in auditory stimulus, individual differences in nonspecific electrodermal responding & recovery of electrodermal component of orienting reaction, 6177

visual wavelength continuum & time after reinforcement & tone frequency & line tilt, stimulus recognition, pigeons, 10708

Stipends (See Educational Financial Assistance)
Stochastic Modeling (See also Markov Chains)

baseline models for pure delay & simultaneous processes, growth & decay of structure of social systems, 9062

error & reliability & new probability model theory, stochastic processes & psychological measurement, 3534

model representation & threat of instability, interrupted time series quasi-experiment, 8225

models based on neuronal spike train as stochastic point process,

nervous system information processing, cats, 10581 Stock Options

Stomach

stomach distention & fluid concentration changes, thirst, waterdeprived rats, 1865

stomach loads of hypertonic NaCl, food & water intake & weight loss, ovariectomized & sham-operated rats, 3922

Storytelling Technique (See Mutual Storytelling Technique) Strahlem

Strategies

achievement motivation & sex, triadic coalition, game decision making, 11102

attentional strategies in dichotic listening, recall of word-digit pairs & serial position effects, college students, 3701 cognitive abilities & number & quality of questions, questioning strategies in puzzle solving, 8 10 yr. olds, 6595

concepts defined by disjunction vs. conjunction of relevant

characteristics, acquisition strategies, 10th 12th graders, 5979 cross-coupling angle variation, response strategies in pursuit tracking, Navy enlisted men, 10341

divided- vs. shared- vs. free-choice strategy & task difficulty, group performance effectiveness & efficiency, male undergraduates individually & in dyads, 805

expected utility behavior models, conflict management strategies,

geometric vs. thematic stimulus arrays, information selection vs. assimilation of information encountered & concept attainment, female undergraduates, 3669

group vs. individual gambling, strategy differences, college students, use of P. Slovic & S. Lichtenstein's duplex bet paradigm, 11101

hypotheses & strategies & stereotypes discrimination learning problems, kindergartners & 2nd & 4th & 6th graders & undergraduates, 2114

instructions to use formula vs. graphic strategies, learning speed in binary task, fast vs. slow learning college students, 10475 instructions to use formula vs. graphic strategies, learning speed on binary task & subjective stress, fast vs. slow learning college students, replication & extension of A. Neufeldt's study, 10474

logical vs. mnemonic learning strategy, course & test & laboratory &

term-paper performance, college students, 7820

Matching Familiar Figures Test, visual scanning strategies, reflective vs. impulsive vs. fast accurate vs. slow-inaccurate children, 10386

mathematical model, wholist strategy in concept identification, 1703 observational learning through modeling & elicitation, hypothesis-& constraint-seeking conceptual strategies, 6 & 8 & 10 yr. old boys, 2102

offensive & defensive strategies, argument, 778 physical letter manipulation & solution effort distribution, effectiveness for anagram solving, 207

problem-solving strategies, impulsive vs. reflective 2nd graders,

recall expectancy & presentation interval length, recall & rehearsal strategies in short term memory, college students, 10407

rehearsal strategies & encoding passages & confusions, short-term memory, deaf children, 11506

resolving problems requiring practical intelligence, strategies & conceptual awareness & strategy, 5 7 & 7 10 & over 10 yr. olds, 6564

response strategy dependence, bias-free measurement of binary categorical time interval & pitch judgment, mental patients, 11496 stimulus input rates & response time limits, missing scan paradigm performance, undergraduates, 1713

stimulus intensity & locus of feedback in response concept learning, acquisition & transfer of behavioral strategies, 10380

stimulus presentation method & type of focal instance & type of strategy & sex, conjunctive concept attainment task performance, college students, 10502

stimulus similarity & strategies of correct example comparison vs. rejection of irrelevant examples vs. hypothesis testing vs. anchoring, conjunctive vs. inclusive vs. exclusive disjunctive concept formation, students, 201

stimulus structure of auditorily presented digit strings, scanning strategies, college students, 8345

strategy consistencies learning of mathematical structures, 12 18 yr. old girls, extension of Z. P. Dienes & M. A. Jeeves's results, 1270 strategy types & cognitive factors, maze learning, 5th 11th graders,

success & error trial position, attribute observation & selection & concept identification, undergraduates, 3659

successive strategies, learning to use lazy susan" lever, 12 24 yr. olds, 2137

task-relevant information & strategy formation & group vs. individual preparation, bargaining toughness in dyads, under-graduates, 775

taxonomy of selection mechanisms, analysis of stimulus selection at various levels of competing stimuli, college students, 6066

Twenty Questions game, problem-solving strategies, reflective & impulsive & fast-accurate & slow-inaccurate 1st & 3rd & 5th graders, 10803

viewing alternatives as set of aspects in elimination, choice theory, 249

1st letter mnemonic, memorization strategy, college students, 1739 Strength (Physical) (See Physical Strength)

Stress (See also Environmental Stress, Occupational Stress, Physiological Stress, Psychological Stress, Social Stress, Stress Reactions)

age & postnatal test experience, prenatal stress effects on behavior, rats, reply to J. Archer & D. Blackman, 8736

amnesic agents, step-through latency in passive avoidance tasks & role of stress, 438

anxious vs. playful tension sets, projective set development, high school students, 11236

change in personal preference vs. response shift, extremization of judgments under stress, 9088

chlorpromazine & amphetamine, basal metabolism & conditioned reflex activity under stress conditions, rats, 1918

cigarette smoking, stress response & RT to traffic light signals & heart rate & blood pressure & calf blood flow & respiration rate & 16 PF scores, 1835

compensatory education for long-term nutritional & emotional deprivation & nervous system stress, learning disabled, 9886

experience & perceptual narrowing, performance in dangerous environments, 8261

field dependence & anxiety level & stress, heart rate & respiration & electrodermal responses, males, 6187

immobilization time following food deprivation, gastric pathology, wild rats, 6206

intensification of dark patches on chests by dye as supranormal threat stimulus, growth rates & weight & dominance relationships & aggression, hamsters, 4050

life stress, application for help at mental health center, adults & children, 11708

life stress, mental health, college students, 11335

methodology & possibilities & practical considerations, research in underwater stress & immersion & altered sensory loading, 5612 neuromuscular mechanism delayed maturation vs. anxiety & stress,

primary nocturnal enuresis, young children, 4772

occupational vs. love vs. sex vs. death conflict situations, asthmatic & pulmonary tuberculosis symptom initiation, male vs. female patients, 1066

odors from stressed vs. nonstressed conspecifics vs. clean runways, open-field responses, rats, 2049

phencyclidine & stress, plasma creatine phosphokinase & aldolase activities, man, 1911

presleep group psychotherapy & presurgery anxiety, EEG & REM during dreaming, book, 9526

rewarding verbal vs. aversive feedback during training of perceptual skill, efficiency & transfer of learning & performance under stress, Air Force Academy students, 10164

role conflict & ambiguity & overload & public vs. private bureaucracy, complex organizational stress, 8141 sensitivity training, coping with life stress, college students, 9021

short-term change, state vs. trait anxiety, college students, 11209

stress & food deprivation & intermittent food schedule & electric shock, highest probable response energization, rats, 6392 stress & frustration, personality changes, book, 4500 stress & unanesthetized circumcision, NREM sleep, newborns, 2106

stress levels & driving situation difficulty level, steering & braking & traffic indicators operation RTs & heart rate & blood pressure & respiration & calf blood flow & 16 PF scores, 19-26 yr. olds, 3365 stress, information processing, defensive & nondefensive 15-17 yr. olds, 6966

Stress Reactions

black vs. white examiner, aggressive & autonomic stress reactions, black vs. white youthful offenders, 7259

concentration camp antisocial stress, personality desocialization, literature review, 4815

confinement during war under refugee conditions, preoccupation with raising parakeets, Cypriot Turks, 2764

depression vs. nondepression, reaction on 1st anniversary of spouse's death, widows & widowers, 2582

differential preweaning social isolation, emotional reactivity & open field behavior & starvation stress tolerance, rats, 2011

differential stress of parents & basal body temperature, sex ratio of offspring, rats & humans, 8561

emotional expression through finger tips, relief of tension & depression, 6929

emotional tension in stress situations, psychophysiological manifes-tations, hospitalized mentally ill vs. normal Ss, 10534

emotional trauma & personality, inadequacies, facial paralysis, 2628 fear vs. embarrassment stress & presence of friendly vs. neutral person, affiliative behavior & physiological stress, 1st vs. later born college students, 4388

gestural behavior, stress indices, courtroom witnesses, 9066 incongruent verbal vs. nonverbal emotional cue response, stress detection, 8480

intermittent electric shock, alcohol consumption, rats, 3996

locus of control, stress reactions to predictable & unpredictable aversive events, inmate volunteers, 11385

long-term immobilization stress, serum dopamine-b-hydroxylase & hypothalamic tyrosine hydroxylase activity & shock-induced fighting behavior, rats, 6161

parent child object relationship & mutual concern & fair play, resistance to tensions & frustrations & unfair treatment & group therapy applications, 1097

psychological stresses, renal homotransplantation, Australian hospital, 11596

psychophysiological personality structure, reaction & adaptation to motoric & mental & emotional stress, adults, 1791

psychophysiological predispositions to schizophrenia under stress, 9319

psychosocial stress & social structures, disease & physical reactions,

social vs. isolated rearing & home cage vs. strange environment, reaction to strange environment, chicks, 508

somatic symptoms under emotional stress, 30 yr. follow-up, 7318 stress sources & personality traits, adaptation to stress in ship

environment, professional sailors, 5604

stress, state anxiety & performance in computer-assisted mathematical task, college students, 1741

stressful vs. standard instructions, Neuroticism & Extroversion scores on MPI, repressor vs. sensitizer college students, 2451

temporal vs. event uncertainty, anticipatory stress & coping reactions, male college students, 3720

transcultural psychiatry & ethnic influences, children's mental disturbances & stress tolerance & harm reactions & endogenous psychoses, 1067

viewing bloody vs. nonbloody victim, reaction to a victim in need of help, study of I. Piliavin & J. Rodin & J. A. Piliavin theory of bystander intervention, 2367

interpersonal value patterns & school attitudes & study habits & self concept & sex, school achievement, 11th graders of superior academic ability, 7844

intervention by authority person, students' internal external orientation & satisfaction with school, college students, 11824 intrinsically motivated seminars, perceptions of school & self

concept, 10th 12th graders, 7876 Keller vs. traditional method involving frequent lectures & occasional examinations, course attitudes & performance, college

students, 10003 large vs. small course section & pass-fail grading & tutorials vs. written assignments vs. group discussion, weekly test performance

& effectiveness & enjoyability ratings, psychology students, 5581 lecture method & other techniques, modifying attitudes toward secondary school psychologists, 8th graders, 5427

like vs. dislike for school, ability & achievement & attention & locus of control & absenteeism & tardiness, black inner-city 2nd & 3rd vs. 7th garders, 10024

marihuana vs. LSD usage attitudes, female undergraduates, 4328 motives & values & attitudes & intelligence & sociological background, participation in student activist movements, college

students, 6682 multiple educational methodologies, student perceptions of teaching

performance, teachers & 4th 6th graders, 3116 nonverbal teacher behavior, academic task performance & student's teacher evaluations, 2nd & 6th graders, 5407

norm- vs. criterion-referenced testing, attitude toward instruction method & content, senior high school mathematics students, 1346 objective vs. subjective criteria, validity of subjective student evaluation of teachers, college students, 7945

Omnibus Personality Inventory non-authoritarian scales, satisfac-

tion with academic advising, college students, 9991 open-flexible vs. traditional school structure & mathematics achievement, school satisfaction, 7th graders, 7993 operant conditioning, social behaviors & positive school attitudes

development & language & concept learning, 3 5 yr. olds, 11907 parent characterization of children, parent vs. student perception of

university life, parents of college students & freshmen vs. upperclassmen, 9864

perceptions of classroom role, observed behavior in creativity & interpersonal regard & group activity & individualization, male vs. female 6th vs. 11th graders of high vs. low socioeconomic status, 3250

perceptions of counselor behavior, willingness to consult, high school seniors, 5515

perceptions of large midwestern university, generation gap, college students vs. parents, 1365

perceptions of role of university counseling center, clients, 7815 permanent school records & achievement tests & aptitude & attitude measures, 2nd language acquisition, English-speaking Canadian & Filipino high school students, 1286

person-environment fit, school adjustment, high school students, 7792

personal & system control dimensions of internal-external locus of control, level & confidence of academic aspirations & social protest behaviors & attitudes toward political protest, college students, 6775

personal causation training, teacher & student motivation & student academic achievement & student perception of being treated as origins, black elementary school teachers, 7767

personality needs & college satisfaction, students, 5381

political ideology & interpersonal values & participation in demonstrations, attitudes toward social change & use of force & militarism & racial identification & drug use, male college students from U.S.A. & Canada & Netherlands & Denmark & Sweden & Finland, 684

process-oriented curricula, social interaction & participation in & quality of & attitudes toward small group work, 5th & 6th graders,

process-oriented vs. content-oriented social studies program, teacher-student expectation congruence as related to program satisfaction, high school students, 12112 Project Catch-Up, self concept & drop-out rate & academic achievement, Indian- & Mexican- & Anglo-American junior high school students, follow-up evaluation, 7893

reality testing, attitudes & self-evaluation, 9th graders, 9935

reinforcement principles in experimental teaching procedure, achievement in & attitudes toward introductory educational psychology course, college students, 5540

relevant vs. irrelevant expertise influence source, student activism opinion change, internal vs. external college students, 6750

reliability & validity & usefulness, ratings of college teaching & courses, undergraduates, 9882

remedial classes designed to meet minimum state reading standards, reading achievement growth & opinions, 10th 12th graders, 10090 scaling analysis of similarity ratings of teaching activities, American

vs. German psychology students vs. teachers, 7927 school & personal & work related factors & courses available, vocational & nonvocational course selection, 9th graders, 9847

school attendance areas, attitudes toward school & school related activities, educable retarded adolescents, 9888

school environment perceptions, occupational aspiration level, adolescent boys, 5518

self concept & attitude toward academic success, wrestling

performance, high school students, 12036 self-esteem, intelligence & reading achievement & attitudes, 4th

grade Pima Indians, 5400 self-reported views about academic success & failure & parents' occupation & education level & father's presence at home, academic achievement, Negro college students, 12114

semantic counter conditioning, classroom behavior & attitudes, elementary school children, 12106

semantic differential scale ratings of common concepts taught in psychology, relevance in undergraduate psychology instruction, high-risk students & psychology majors & independent-study enrollees, 12008

semantic space, school-related attitudes toward curricular areas & people, retarded vs. disturbed vs. blind vs. deaf students, 1377

sex & ethnic status & religious affiliation & social class & type of school, attitudes toward higher education & life work & family life, high school seniors, 3150

sex & grade level & demographic mobility, dogmatism & interpersonal values & attitude toward school, high school students 7857

sex & school locality & type of class attended, pupil attitudes toward group work & collaboration, Swedish 2nd & 5th & 8th graders, 11987

single- vs. multi-concept films & film-lecture combinations, chemistry achievement & retention & attitude, community college students, 5588

single-sex vs. coeducational schools, attitudes & beliefs & behaviors in scholarship & prestige & popularity & peer influences on behavior & personal goals, secondary school students, 7854

small peer group tutorial approach using The Story Plays, achievement & attitude & self-image, 4th graders, 3269

social influence model of H. Kelman, intellectual orientation, college freshmen, 11855

socioeconomic status, changes during college in family & peer independence & liberalism & social consciousness & cultural sophistication & satisfaction with administration & faculty & major & students & study habits & extracurricular activities, students at Catholic college for women, 11982

stigma & problem seriousness & attitudes & counseling experience & information, use of university counseling services, college

students, 1233

student academic attitudes & achievement & teacher estimation of attitudes, 7th & 8th graders, 7779

student knowledge of behavioral objectives, achievement & attitudes in educational psychology, college students, 3282

students' personal & scholastic characteristics & type & preferred sources of assistance sought, perception of educational counselor's role & function & personal-professional characteristics, college students, 11869

students' self concepts vs. teachers' perceptions of individual self concept, adjustment in changed learning environment, middle & junior high school students, 3162

tape recordings of behaviorist vs. client-centered counseling, counselee preference, 9th & 10th graders, 3095

course folklore, attitudes on course evaluation questionnaire, graduate students, 9824

teacher abstractness & student interpersonal needs, perception of teacher behaviors, high school students, 12023

teacher appearance, student ratings of teacher effectiveness, college students, 12007

teacher attitudes toward learning, changes in pupil attitudes, 4th & 5th & 6th graders, 5429

teacher dogmatism & values & personality & attitudes toward education & science, student academic & critical thinking achievement & attitudes toward science, junior high school science teachers & students, 12088

teacher observed & student self-reported affective behaviors, accurate perceptions of student feelings toward science, 8th graders & science teachers, 3183

teacher perception & self-perception, 13 14 yr. old students vs.

teachers, 9822 teacher vs. student perceptions, adolescent problems, 7 12th graders,

underlining vs. repetitive reading & frequency of underlining target information, completion test performance, college students, 7849

anticipatory struggle theory, variability of stuttering, 11339

audience size, nonfluency, college male stutterers vs. pseudo-stutterers vs. nonstutterers, 2749

audiovisual behavioral analysis, stuttering moment during oral reading, 23 yr. old male, 9491

auditory masking, anxiety level & dysfluency frequency & selected vocal characteristics, stutterers, 11325

aversive noise treatment, 19 yr. old stutterer, 9679

behavioral dimensions of stuttered speech, 14-23 yr. old male stutterers, 11464

cognitive & motoric & affective & moral judgment inhibition, stuttering vs. acting-out vs. normal elementary school boys, 4718 disfluency rates & patterns, high- vs. low-disfluent kindergarten to 6th grade stutterers vs. nonstutterers, 7335

ego functioning & family subculture, learning word meanings, stuttering & nonstuttering primary school boys, 11511

emotions, electrically-induced monosynaptic reflex during rest & Valsalva phenomenon & initial tonus & fluent speech, stutterers,

frequency of occurrence in English language, object-naming latency, 7 10 yr. old stutterers, 11342

geniune stuttering vs. stuttering-like behavior, 7 48 yr. olds with

Down's syndrome, 9428

Illinois Test of Psycholinguistic Abilities & Peabody Picture Vocabulary Test, auditory comprehension, 5 yr. 3 mo 9 yr. 6 mo. old stutterers, 11512

individual differences, disfluent behavior during massed oral reading, 18 & 20 yr. old stutterers, 7289

intracarotid sodium amytal test, cerebral dominance for speech, stutterers, 923

masking noise, disfluency frequency, nonstuttering college students, 11189

Neuroticism & Extroversion scales of Eysenck Personality Inventory, college students vs. stutterers, 9286 neutral & alarm conditions, adaptation series, 18-35 yr. old

stutterers, 11514

oral-aggressive vs. anal vs. neutral themes in subliminal drive stimulation, speech impairment, 12-21 yr. old male stutterers,

Pavlovian classical & Skinnerian operant conditioning, neurosis & stuttering acquisition & treatment, 9799

personality & age, stuttering severity during oral reading & spontaneous speech, 8-21 yr. old stutterers, 11465

punishment, expectancy responses & stuttering, stutterers, 11625 random blackout cues in successive reading of passage, distribution of moments of stuttering, 13-37 yr. old stutterers, 11467 rating scale of characteristic handwriting features, stutterers, 4879

recovery, stuttering, junior & senior high school students, 11357

reduced anxiety, stuttering frequency, adult stutterers, 11614
rehearsal, stuttering frequency, 16-38 yr. old stutterers, 11343
shaping group participation, behavioral changes & reduction in
stuttering, 9667

Sheehan's nonreinforcement paradigm, stuttering, adolescent male stutterers, 9753

shock administration, stuttering, 21 yr. old male, case report, 11581

social isolation with differing levels of monitoring, stuttering frequency, adult stutterers, 4837

somatogenic & learning & psychodynamic theories of stuttering & proposal of bio-adaptive theory, 7325

speech sample analysis, repetition of single-syllable words, 4 yr. olds, 10914

stuttering & silent vs. oral vs. choral reading, eye fixations & retraces, undergraduates, 4829

stuttering therapy, critical evaluation of C. Van Riper & R. West's approach, 9629

Style (Leadership) (See Leadership Style)

Subconscious

fantasy doodles vs. forced guesses, recovery of marginal input stimuli unreported in initial free recall, college students, 3676 Subcortical Lesions (See Brain Lesions)

Subculture (Anthropological)

drug availability in subculture & participation in drug experimentation, multiple drug use, 4281

heroin addiction pattern, Haight-Ashbury addicts, 4859 interest in occult & Eastern religious philosophies, hippies, 4331 meaning of term & life style characteristics, hippy, 8951

psychedelic career stages, psychedelic drug use & subculture, 8936 regional cultures, educational performance, students, 7812

sex & subculture & family relationships, personal space, Hawaiian Orientals vs. Caucasians, 8899 social origins & philosophies & problems & political noninvolve-

ment, hippie communes, 11031 subcultural group integration in cultural enrichment program, 5 8

yr. old disadvantaged black elementary school students, 3276

ocutaneous Injections

isolation in quiet environment vs. aggregation in noisy environment, brain incorporation of carbon atoms of D-mannose & D-glucose injected subcutaneously, mice, 374

lysine vasopressin subcutaneous injections after training vs. before retention trial & shock vs. no shock, passive avoidance learning & resistance to extinction, rats, 6214

Subjectivity (See Objectivity)
Sublimation

psychoanalytic sublimation concept, potentially constructive uses of aggression, 6953

psychosynthesis vs. classical psychoanalysis, repression of sublime & therapy for higher & lower personality aspects, 7479 sublimation & Freudian interpretation invalidity, societal approval

of proscribed behaviors & aggression & competition & envy & incest, 4336

Subliminal Perception
fantasy doodles vs. forced guesses, recovery of marginal input
stimuli unreported in initial free recall, college students, 3676

oral-aggressive vs. anal vs. neutral themes in subliminal drive stimulation, speech impairment, 12 21 yr. old male stutterers, 4862 subliminal stimulation, simple & complex cognitive processes, 1715

threatening vs. nonthreatening thematic content & angular vs. curved stimulus structure under subliminal & part-cue & identification exposure conditions, eye movements as visual input indicators, 3588

British Mark VII Submarine Escape Immersion Suit vs. U.S. Navy Steinke Hood & side- vs. tube- vs. top-egress escape trunk & team size, egress capability, submarine escape training instructors, 3443 Iveness (See Obedience)

Submucous Plexus (See Autonomic Ganglia) Subnormality (Mental) (See Mental Retardation)

rofessional Personnel (See Paraprofessional Personnel) tantia Nigra (See Mesencephalon)

abbreviation of MMPI Masculinity-Femininity & Social Introversion scales, psychiatric patients, 9355

positive test scoring, subtest intercorrelations & upper & lower boundaries, 5758

Suburban Environ

drug usage, 6th 10th graders in rapidly growing suburban community, 8940

interval between stimuli required to identify accurately 1st stimulus, visual information processing speed, inner-city vs. suburban 1st & 3rd & 6th graders, 10297

permanence of residence occupancy, territorial displays on property, suburban residents, 6673

upper vs. lower middle-class suburban vs. lower middle-class semirural environment, drug use, high school students, 6670

urban to suburban relocation, mortality rates, institutionalized aged, 6553

urban vs. suburban vs. small town residence & high vs. low socioeconomic status & sex, attitudes toward environment & environmental manipulation, high school students, 11004

viewing filmed classroom sequences, dogmatism attitude change, teachers in middle class vs. lower class vs. Catholic parochial suburban areas, 12033

Success (See Achievement)

Successive Contrast (See Brightness Perception)

Succinvlcholine

succinylcholine administration & electroconvulsive therapy, systolic blood pressure & patient improvement potential, psychotic & manic depressives & depressed schizophrenics & neurotics, 2919 Suffering

autonomous maturity levels, grief vs. suffering, 2601

defendant's character & suffering, juridic judgment in simulated jury situation, undergraduates, replication & extension of D. Landy & E. Aronson's study, 4446

justified self-interest, responsibility for suffering, dyads, 9054

Sugars (See also Blood Sugar, Glucose)

bilateral lesions of lateral hypothalamus, weight regulation with high-fat diet & water & sucrose & saccharin solutions, rats, 428 desalivation, sucrose & glucose & fructose solution selection & ingestion, rats, 359

sucrose vs. saccharin solution & restricted vs. available food, food consumption, rats, 8728

Suggestibility

authoritarianism/dogmatism, suggestibility in visual & tactual & word-recognition tasks involving cojudgment by prestigious figure, male college students & female nurses & school teachers,

crucial suggestion variables, promotion of synthesis between various schools of psychology & development of meaningful relationship between psychoanalysts & social-oriented investigators, 5741

drugs &/or hallucinogens & hypnosis &/or suggestion, artificially provoking dreams, 8632

hypnosis with hives vs. Raynaud's disease suggestion, absence of suggestion effects, 6180

hypnotic induction duration & motivational suggestions & suggestibility level, cognitive performance, student nurses, 10429

mind control, waking suggestion using tape recorders, 2818 potential openness to suggestion based on early parent-child relationships, psychotherapeutic influences, agreement with K. Calestro's article, 11781

receptivity & egocentrism & self-acceptance, degree & direction of aggression, 10th grade lyceum students, 875

suggestibility & attitude change, faith-healing, nature & relationship

& similarity of psychotherapy, 11562 suggestibility, verbal-calling & die-throwing sequence prediction, 1650

tactile discrimination & work recognition & visual perception cojudgment & visual perception instructions bias & political & scientific & social & literary text evaluation & personality selfinventory, prestige suggestibility, female social workers vs. male students, 9204

Suicide

alcoholism, suicidal tendencies, incarcerated & clinic outpatient & inpatient alcoholics, 9496

anomie & student ecology, suicidal ideation, students in large university vs. small college setting, 11387

attempted suicide & suicidal ideas, depressed inpatients, clinical observations over 10 yr., 975

communication of suicidal intent, psychiatric patients, 5 11 yr. follow-up, 7178

concocted underground newspaper ad threatening suicide & seeking help, categorization of responses received, 1030

crisis intervention clinic contact, suicide, potentially suicidal persons, 5041

death by suicide & accidents & disease, postmortem cerebral cortex cortisol amount, patients, 2586

death wish vs. self-injury act vs. terminal outcome, operational definition of self-destructive motivation, 951

demographic variables & type of mental disorder & length of hospitalization, suicide, mental hospital patients, 2744 depression, marital & family relations & hostility expression &

suicide & therapy focus & casework implications, women, 7687 diagnosis & treatment & prevention program, suicide, 7400

equivocal single-vehicle fatal car accidents vs. other driver-fatality accidents, driver characteristics & relevance of suicidal factors,

firearms, role in homicide & suicide & effectiveness of gun control legislation, 953

frequency & severity of suicidal thought, college students, 2598 guilt feelings & religion, suicidal tendencies, depressed psychiatric patients, 985

life & death attitudes & dichotomous thinking & affective measures, suicidal thought, high & moderately & low lethality & nonsuicidal females, 1034

lithium metabolism, mental hospital admission & homicide & suicide rates, 7114

longitudinal case histories, conceptualization of premonitory suicidal cues in terms of perturbation & lethality, high IQ males,

mental illness & suicide, 26 yr. old male, book, 1075

MMPI items vs. profiles, identification of suicidal groups, nonsuicidal neuropsychiatric controls & threatened & attempted suicides, 2606

motives & causes & prevention & discussion of justification, suicide, book, 4638

motives & early recognition & prevention & treatment, suicide & depression, 1080

multitrait-multilanguage approach to translation equivalence, isolation of culturo-linguistic differences on suicide questionnaire, Navajo-English bilingual high school students, 825

personality structure & characteristics, suicidal adolescents, 11421 prevalence & types & suggested research, self-mutilating behavior & relationship to suicidal behavior, 1008

psychoanalytic interpretation, adolescent suicides in Romeo & Juliet. 4676

psychodynamic analysis of therapist's oversights, recognition of potential suicides, 7697

psychodynamics & therapist's need to deal with self-destructive ideation, suicidal patients, 7651

psychotherapy termination, suicide, 11567 Rorschach color-shading responses, suicidal Ss vs. convicted murderers, 7215

sex & marital status, suicide in Switzerland & Sweden & New Zealand & Canada & U.S.A., 2632

social status measured by educational attainment in transitional society, suicide rates, Taiwan, 11434

socioeconomic & biographical & medical data & vocabulary test & visual retention test & personality & projective test data, 25 40 yr. old suicide attempt females vs. physically ill Ss vs. normals, 2630

statistical analysis, suicidal tendencies & suicide attempts, French 12 20 yr. olds, 9473

statistical data, mental hospital & psychiatric facilities use patterns & suicide rate in United States, book, 11428 stress-related dermatoses, suicide victims, 4841

suicide & attempted suicide, symposia papers, book, 9490

suicide from personal & literary & existential viewpoint, book, 922 suicide incidence, Brighton, England, 9375

suicide rates in Scotland vs. England & Wales, 9389

suicide, adolescents, book, 7183

suicide, American Indians, 11324

wartime social considerations, homicide & suicide rates, 1044

Suicide (Attempted) (See Attempted Suicide)

Suicide Prevention

CPI predictors, clinical effectiveness in suicide & crisis intervention service, volunteer workers, 11275

death awareness, suicide prevention training, college students & police officers, 9228

diagnosis & treatment & prevention program, suicide, 7400 methodological similarities of Bayes's theorem & clinical diagnosis, applications to suicidal risk prediction & differential diagnosis & response to treatment, 2921

motives & causes & prevention & discussion of justification, suicide, book, 4638

organ donation for transplantation, altruistic-expiatory alternative to suicide, 1103

personal-social police report form for threatened & attempted suicide cases, police role in suicide prevention, 1198

psychiatric nurse's emotional support, suicide prevention, adult female, 5004 psychodynamic analysis of therapist's oversights, recognition of

potential suicides, 7697 recurrent affective disorder & lithium, suicide prevention, 9519 survey of methods & techniques, operation of national suicide & crisis prevention services, 5016

Suicide Prevention Centers

function & meaning within mental health community, suicide prevention center, 5146

mental health services at suicide clinic, suicide attempters, 7658 natural & contrived situations, judgmental policy equations concerning suicide lethality ratings, suicide prevention center

workers, 11557 staffing & volunteer use & financial support problems, suicide prevention & crisis intervention services, 9591

suicide prevention center evaluation, depressive & suicidal inpatients, 1197

survey of methods & techniques, operation of national suicide & crisis prevention services, 5016

Sulpiride

sulpiride, acute stupor, schizophrenics & depressives, 2778 sulpiride, 16-64 yr. old chronic hospitalized schizophrenics unresponsive to previous treatment, 3060

sulpyrid, muricide reactions & aggressiveness & exploratory behavior & brain 5-hydroxytryptamine turnover, rats & mice, 3972

Summer Camps (Recreation)

Jewish summer camp social climate, camper's identify, Jewish campers, 10961

length of stay in holiday camps & psychodrama & group therapy & leader ratings & sociometric test, diagnosis & treatment, boys to 15 yr. old with behavior disorders, 1222

**Sundland Barker Therap Orient Quest** 

Superego (See also Conscience)

"structure" vs. system" to describe id & ego & superego, structural theory, 7012

development of superego autonomy, clinical examples in psychoanalysis, 5235

moral values & superego concept, psychoanalysis, book, 11718 psychoanalysis, superego conflict, catatonic schizophrenic male, 11739

rapprochement subphase, separation-individuation process, case

Superior Colliculus

attention to point of light, receptive fields of cells in superior colliculi, rhesus monkeys, 6137

cells in superior colliculus discharging before saccades of specific distance & direction, rhesus monkeys, 6211

corticotectal pathway removal, electrophysiological study & effects on single units in superior colliculus, cats, 10661

lesion effects on eye movements, activity of superior colliculus, rhesus monkeys, 6336

light, cell responses in superficial gray & optic layers of superior colliculus, rhesus monkeys, 6138

Superiority (Emotional) (See Emotional Superiority)

educational level, belief in superstitions, Arab 8th vs. 11th graders vs. college students, Lebanon, 6783

occultism, Freud & Jung, book, 1475 superstition, book, 10974

Supervisors (See Management Personnel)

Support (For Theories) (See Professional Contribution)

Supportive Psychotherapy (See Psychotherapy)
Suppression (Conditioned) (See Conditioned Suppression)
Suppression (Defense Mechanism)

Surgeons

informed consent problem, renal donor selection, 7445

psychologic & psychiatric implications, cardiac transplantation, interviews with cardiac surgeons, 7399

Surgery (See also Adrenalectomy, Amputation, Autopsy, Castration, Colostomy, Decerebration, Decortication (Brain), Dental Surgery, Endocrine Gland Surgery, Heart Surgery, Hemispherectomy, Hypophysectomy, Hysterectomy, Induced Abortion, Male Castration, Mastectomy, Neurosurgery, Organ Transplantation, Ovariectomy, Pancreatectomy, Pinealectomy, Plastic Surgery, Psychosurgery, Pyramidotomy, Stereotaxic Techniques, Sympathectomy, Thalamotomy, Thymectomy, Thyroidectomy, Tractotomy, Vagotomy)

dorsal funiculi stimulation, EEG potentials & paresthesias, adult patients with subdurally implanted electrodes for control of chronic pain, 2965

early definite vs. late indefinite scheduling of surgery, physiological & psychological recovery, surgical patients, 5133

epileptogenic temporal & frontal brain lobes, amino acid contents in focal vs. surrounding regions, patients undergoing surgery for focal epilepsy, 11795

gamma-hydroxybutyrate anesthesia & surgery & plasma thyroid-stimulating hormone & thyroxine levels, 18-51 yr. old patients,

incongruity between somatic state & psychosocial environment, sexual deprivation, 8886

pre- vs. postoperative Guilford-Zimmerman Temperament Survey scores, 28-66 yr. old otosclerotic adults surgically restored to normal hearing, 2861

presleep group psychotherapy & presurgery anxiety, EEG & REM during dreaming, book, 9526
psychological stresses, renal homotransplantation, Australian

hospital, 11596

radical surgery for rectum & sigmoid colon cancer, sexual performance, males, 9528

stress & unanesthetized circumcision, NREM sleep, newborns, 2106 Surgical Complications (See Postsurgical Complications (Physical) **Surgical Patients** 

characteristics & motivation, kidney transplantation donors, 7630 donor choice & family stress, kidney transplant patients, 7644

gastroduodenal ulcer, psychosomatic aspects, postoperative patients, 3065

imminent surgery-induced stress, self-report measures of state & trait anxiety & Harmavoidance & postoperative adjustment, Veterans Administration Hospital male patients under 65 yr. old, 1096

informed consent problem, renal donor selection, 7445

methaqualone & etodroxizine vs. methaqualone & diphenhydramine hydrochloride, hypnotic effects, surgical inpatients, 2857

neuroleptanalgesia, neurosurgical patients undergoing cordotomy & rhizotomy, 7498

pleasing voice tone, action like posthypnotic suggestion in aiding relaxation & avoidance of focusing on pain, pre- & postoperative patients & women in labor, 3000

preoperative MMPI profiles, open-heart surgery patients with postoperative psychiatric problems, 2888

pretransplant screening & counseling & subsequent psychosocial adjustment, cardiac transplant recipients, 7410

psychiatric complications, heart transplant patients, 7523 psychodiagnostic evaluation, heart transplant patients, 7577

sick role expectations & presurgery adjustment, post-cardiac surgery adjustment, 13-58 yr. old cardiac patients, 11660

sodium & potassium electrolyte saliva concentrations, adrenocortical activity, hospitalized vs. nonhospitalized acute & chronic schizophrenics & neurotics & depressives & surgical cases & normals, 11360

Surrogate Parents (Humans)

object permanence, social responses to mother & attachment, 8 mo. old infants, 2 mo. follow-up study, 10824

Surveys (See also Consumer Surveys)

counselor role & function, job satisfaction, school counselors, survey, 11285

interviewer characteristics, interviewee responses in survey of drinking practices, 10202

retest & internal & independent & theoretical replication, validity as verification technique in survey research, 10218 survey data, social policy & value judgments, 2284

survey results, interest in audiotapes & other audiovisual media as

means of providing information, psychologists, 5731
work-related problems & job satisfaction & mental health measures,
working conditions, U.S.A. survey, 8138

Surveys (Interest) (See Interest Inventories) Surveys (Opinion) (See Attitude Measures)
Surveys (Personality) (See Personality Measures)

Surveys (Preference) (See Preference Measures) Susceptibility (Disorders)

Susceptibility (Hypnotic) (See Hypnotic Susceptibility)
Suspension (School) (See School Suspension)
Suspicion

credibility enhancing techniques of honest vs. dishonest performers in supportive vs. suspicious job interview situation, undergradu-

depression & suspiciousness content measures, Holtzman Inkblot

Technique, psychiatric patients, 7134
E bias & S's suspicion of deception & attitudes toward psychology experiments & current issues, dot-estimation conformity task, undergraduates, 2311

# SVIB (Test) (See Strong Vocational Interest Blank)

electrolyte concentration, skin potential recordings during controlled vs. uncontrolled epidermal hydration, 3805

repeated negative downhill work, respiratory & circulatory & temperature measurement, 26-41 yr. old males, 276

transcendental meditation & yoga as reciprocal inhibitors, claustrophobic male college student & 40 yr. old female with profuse perspiration, 2806

high cockpit temperatures, heart rate & deep body & skin temperature & urine output & sweat loss & performance in instrument flight task simulator, instrument rated pilots, 3403

cross cultural differences, initial heterosexual experience, Swedish vs. American college students, 10968

cross-cultural validity, Freudian sexual symbolism, Swedish & Chinese & Negro & Caucasian Americans, 11014 inmate rights & prison reform, Sweden & Denmark, 11801

parental & peer & adult attitudes, 13 yr. old Swedish adolescents,

6459 political ideology & interpersonal values & participation in

demonstrations, attitudes toward social change & use of force & militarism & racial identification & drug use, male college students from U.S.A. & Canada & Netherlands & Denmark & Sweden & Finland, 684

sex & marital status, suicide in Switzerland & Sweden & New Zealand & Canada & U.S.A., 2632

sex & school locality & type of class attended, pupil attitudes toward group work & collaboration, Swedish 2nd & 5th & 8th graders, 11987

societal & environmental factors, adolescent rebellion & drug usage. Swedish populations, 4283

societal influences, perception of social vs. political intervention for organizational success, college students from United States & Britain & Netherlands & France & West Germany & Sweden, 1390

verbal & grammatical ability & intelligence & pronunciation acquisition of German, Swedish pupils, 11168

Sweetness (See Taste Stimulation)

differentially superimposed magnetic fields & alley shape & number of trials, speed & deviation from straightforward exit path & exit angle, goldfish & planaria, 1984

Gabrielsen's Total Push-Kick Method modified form, swimming instruction, trainable & educable retarded preschool children,

methylmercury poisoning of mother during pregnancy, offspring open field & swimming behavior & brain weight & protein & choline acetyltransferase & cholinesterase, mice, 6323

observation vs. no observation of videotaped adept model & own performance, swimming skill acquisition, mildly emotionally disturbed 3-6 yr. olds, 12024

physical activity program in swimming vs. physical education, perceptual-motor development & primary mental abilities, 4-6 yr.

reflexological conditioning, swimming, 1721

training program in swimming, methodological procedure & evaluation of results, children with minimal brain dysfunction & perceptual & motor disorders, 4937

water temperature & shock level & test interval after shock, suppression of upstream swimming into calm-water well, goldfish, 539

Switzerland

cross-language factor stability of personality, Personality/Attitude Schedule, English vs. translated versions, male business managers, Belgium & Denmark & England & Finland & France & Greece & Switzerland & U.S.A., 2452

drug & narcotic abuse & federal narcotics law, Switzerland, 4343 psychiatric education, medical students, Switzerland, 4583

sex & marital status, suicide in Switzerland & Sweden & New Zealand & Canada & U.S.A., 2632

Syllables

electronic gating, perception of partial v... complete deletions of consonant-vowel syllables, 11165

identical vowel component & feature-sharing, identification of dichotically presented synthetic stop-vowel syllables, 3623

nature of transconsonantal vowel, terminal formant frequency transition values, college students, exploration of S. Ohman's findings on perceptual correlates, 11167

temporal distortion, perception of interaurally segmented syllables, normal adults, 5816

Syllogistic Reasoning (See Inductive Deductive Reasoning) Symbiosis (Biological) (See Biological Symbiosis)

Symbiotic Infantile Psychosis

differential diagnosis, symbiotic psychosis & early infantile autism,

narcissism concept & pathological splitting & symbiotic illness characteristics, differentiation of autism & schizophrenia & symbiotic aspects of schizophrenia, 11550 symbiotic syndrome, adults, 7299

Symbolism

cross-cultural validity, Freudian sexual symbolism, Swedish & Chinese & Negro & Caucasian Americans, 11014

figure homogeneity & completeness & roundedness, repetitious syllable assignment, undergraduates, 6886

illusion, role in symbol formation & implications for psychoanalysis, 11695

imagination & symbolism, Thoreau's Walden, 11144 investigations & contributions, imaginal, 8164

narrative symbolism as learning method, vocabulary skills acquisition, college students, 9940

nature & symbol & imaginal reality, 8192

psychoanalytical interpretation of S. Freud vs. C. Jung vs. A. Caruso, symbolic understanding, 9195

realistic vs. symbolic materials, deceptive reasoning problem solving, college students, 5995

ritual & symbolism, social organization, book, 715

scientific study, cyclic recurrent phenomena with precursors in mythic, 4312

sexual symbolism, polygon preference, art & art-related students, 11217

symbolic meaning of drawings & symptoms of protest psychosis," black prisoner in reactive psychotic state, 2585 symbolism of right-left human figure drawing orientation, clinical

diagnosis usefulness, 9642

symbolization of words & things & symbolic exclusion, Freud's conception of symbolization & Wolf Man's process of symbolization, 1183 symbols & social roles, drives & changes in drive strength, 2516

Thematic Apperception Test, fantasy production, male vs. female drug abusers, 9370

Symonds Picture Story Test

Sympathectomy

a-methyltyrosine & reserpine, operant shuttle-box & t-maze task performance, 6-hydroxydopamine treated & centrally-sympathectomized rats, 10607

immunosympathectomy, activity & hypothermia, mice, 3965

Sympathetic Nervous System

CER & heart rate & defecation, partially immunosympathectomized & normal pregnant rats, 380

cervical sympathetic nerve trunk stimulation & intracarotid levarterenol infusion, cerebral blood flow, baboons, 8624

tetanic antidromic stimulation of ganglion cells & atropine & nicotine, sympathetic postganglionic neuron discharge activity, bullfrog, 3918

Sympathetic Pain
Sympatholytic Drugs (See also Hydralazine, Reserpine)
induced neonatal sympathectomy 6-hydroxydopamine-induced neonatal sympathectomy, open field activity & avoidance learning & retention & sexual behavior & endogenous norepinephrine in lower brainstem & cerebral cortex & hypothalamus, rats, 6299

Sympathomimetic Amines (See also Amphetamine, Catecholamines, Dextroamphetamine, Dopamine, Ephedrine, Epinephrine, Methamphetamine, Methoxamine, Norepinephrine, Phenmetrazine, Tyramine)

Sympathonalmetic Drugs (See also Amphetamine, Catecholamines, Dextroamphetamine, Dopamine, Ephedrine, Epinephrine, Fenfluramine, Isoproterenol, Methamphetamine, Methoxamine, Norepinephrine, Phenmetrazine, Sympathomimetic Amines,

Sympathy

personality & self-concern & acquaintance, empathy & emergency helping, 6829

Symposia (See Professional Meetings And Symposia)

Symptom Remission

cold pressor test, pupillary dilation & constriction as indices of

autonomic dysfunction, remitted schizophrenic, 9444
perphenazine vs. amitriptyline vs. perphenazine-amitriptyline vs.
placebo, symptom & academic & psychological improvement,
underachieving & psychoneurotic 4th-6th graders, 3073
social outcome & remissions & exacerbations, childhood neuroses,

review of follow-up studies, 4673

Symptoms (See also Acting Out, Anorexia Nervosa, Anoxia, Aphagia, Apnea, Appetite Disorders, Apraxia, Asthenia, Ataxia, Aura, Automatism, Body Rocking, Catalepsy, Catatonia, Coma, Convulsions, Delirium, Depersonalization, Distractibility, Dyskinesia, Dyspnea, Fatigue, Headache, Hematoma, Hemorrhage, Hyperglycemia, Hyperkinesis, Hyperphagia, Hyperthermia, Hyperventilation, Hypochondriasis, Hypoglycemia, Hypothermia, Insomnia, Migraine Headache, Muscle Contraction Headache, Myasthenia, Nausea, Obesity, Pain, Pruritus, Psychogenic Pain, Respiratory Distress, Restlessness, Scratching, Shock, Spasms, Sympathetic Pain, Syncope, Tics, Tremor, Underweight, Vertigo, Vomiting, Word Salad)

anhedonia & learning under various contingencies, male schizo-

phrenics, 5250

cerebral dysfunction symptomatology, children, literature review, 7236

chronic marihuana use duration & frequency, symptoms, 20-41 yr. olds, 4753

cognitive ego function, phobic symptom, 11471

derealization & deja vu, reflections of disturbances in organization of perceptual wholes forming larger object-affect wholes with associated states, 10363

dimensional description of symptomatology of psychosis & schizophrenia vs. neurosis, 9404

early infancy threatening situation memory, physical symptoms & manifestations of psychological processes, 7327

factor analysis, somatic perception questionnaire about physical symptoms & strength of reaction, college students, 7209

Kupfer-Detre Self-rating Scale depression & neurosis & psychosis & organicity clusters, symptom discrimination, psychiatric patients vs. college students, 2665

lithium carbonate use & limitations, manic-depressive disorders,

methodological problems, psychopharmacological research, 10611 misleading vs. no information with placebo pill, attribution of

smoking cessation symptoms, heavy smoking nurses, 6223 modern treatment methods & doctor-patient relationship intricacies, symptom encouragement & iatrogeny, 1051

organic vs. psychogenic origin & clinical picture & exclusion of term from nomenclature, minimal brain damage, 9448

public image of mental illness, etiology & symptom severity ratings,

rating importance of symptoms listed in questionnaire, schizophre-nia diagnosis, British vs. American psychiatrists, 960

rating scale criteria development, anxiety & morale & depression & multiple symptom measurement, geriatric patients, 11748

relatives' perceived patient's symptomatology & home vs. hospital gratification of social needs, rehospitalization, mental patients, 9409

secondhand tobacco smoke, psychological & symptom reactions, children, 7101

symptom clusters & clinical impressions & statistical methods & taxonomies, disease classification, 2758

symptom complex & psychoanalytic interpretation, H. E. Richter's cardiac neuroses concept, 1064

symptomatology revolving around school refusal, short-term psychotherapeutic intervention, 10 yr. old girl, 11655

symptoms & early diagnosis & coordinated team approach for treatment, minimal cerebral dysfunction, children, 2570

trance-like appearance & body feeling changes & reports of having been hypnotized, hypnotic induction, 10389 Synapses

norepinephrine & cyclic 35-adenosine monophophate, cerebellar synapses, rats, 356

rearing in enriched vs. impoverished environments, postsynaptic opaque regions in asymmetric round vesicle synapses of occipital cortex, rats, 345

selective depletion of excitatory & inhibitory axon synaptic vesicles, crayfish, 8495

sleep & wakefulness, synaptic transmission in ventrolateral thalamic nucleus, cats, 8517

starvation, cortical synapses development, rats, 10608

synaptic nervous function quantum description, conceptual dualism resolution among biology & physics & chemistry & conditioned reflex phenomenological status, 6151

Syncope

EEG & EKG during attack, vasodepressor reaction in upright position & heart rate & peripheral vascular resistance, 37 yr. old

pilot with micturition syncope, 2610

Syndromes (See also Addisons Disease, Alcoholic Hallucinosis, Alcoholic Psychosis, Alzheimers Disease, Battered Child Syndrome, Crying Cat Syndrome, Cushings Syndrome, Delirium Tremens, Downs Syndrome, Klinefelters Syndrome, Korsakoffs Psychosis, Menieres Disease, Organic Brain Syndromes, Picks Disease, Presenile Dementia, Senile Dementia, Senile Psychosis, Stein Leventhal Syndrome, Testicular Feminization Syndrome, Toxic Psychoses, Turners Syndrome, Wernickes Syndrome)

"splitting" vs. "lumping", clinical syndrome description in learning disabilities, minimally brain dysfunctioned children, 4660

AHOP syndrome of adiopositas & hyperthermia & oligomenorrhea & parotid enlargement, diencephalic disturbances, 2 case reports,

clinical syndromes & personality & marriage & attitude towards pregnancy & childhood & behavioral psychodynamics, attempted infanticide, women, 9400

corpus striatum chronic lesions, reserpine- & apomorphine- & amphetamine- & haloperidol-induced syndromes, rats, 10614

Synergism (Drugs) (See Drug Synergism)

Synonyms

homonyms & synonyms, retrieval cues in free recall memory, high school & college students, 8420

stimulus-primary pairs, synonym responses in free association, college students, 1768

- incidence & type of schizophrenic syndrome, congenital syphilitics, 2741
- increasing incidence & sequelae, syphilis & gonorrhea from late 1940s to 1970 in United States, 9302
- Systematic Desensitization Therapy
- active vs. passive imaginary exposure to fearful stimuli & varied muscular activities, fear response to stressful film, male 9th & 10th graders, 1168
- behavior therapy methods & theories & systematic desensitization vs. behavior modification, 4960
- biofeedback & control of visceral & neural processes, application to treatment of essential hypertension & premature ventricular contractions & tension headaches & vomiting & migraine & Raynaud's disease & production of muscle relaxation in
- systematic desensitization therapy, 7639 biofeedback assisted relaxation training, supplemental treatment method, 6-15 yr. old bronchial asthmatic patients, 4981
- covert reinforcement & sensitization, heterosexual vs. homosexual urges, 21 yr. old male, 11648
- desensitization, EEG & auditory evoked potentials, students, 10525 discussion oriented counseling vs. systematic vs. automated desensitization, objective behavior & subjective reactions to test taking situation, internally vs. externally controlled high test
- anxious college students, 1132 economical easily recordable GSR apparatus for use during systematic desensitization, 9817
- experimental relaxation group technique, anxiety reduction, 2863 false heart rate feedback & cognitive desensitization, fear of snakes
- & actual heart rate, female undergraduates, replication & extension of S. Valins & A. Ray's study, 5182 faulty psychosexual development & hypno-desensitization treat-
- ment, vaginismus, 9632 games & desensitization & discovery experiences & instruction,
- mathematics attitude, undergraduates, 5290 group systematic desensitization & initial test anxiety level, test anxiety & academic achievement, scholastic probation college students, 3347
- group systematic desensitization vs. test wiseness training, reducing test anxiety, college students, 11675

- imaginal vs. in vivo desensitization with vs. without increased sexual communication, sexual anxiety in coital encounters, females, 1159
- implosive therapy vs. desensitization procedure using free association vs. milieu treatment, achievement of behavioral goals & MMPI & Mooney Problem Check List, psychiatric inpatients, 2805
- In Vivo Accelerated Massed Desensitization, speech making anxiety, male undergraduates, 9750
- multihierarchy desensitization, snake phobics, 9675
- muscle relaxation training, state & trait anxiety, introverted vs. extroverted female college students, 5228
- muscle relaxation vs. muscle tension training vs. no treatment spontaneous remission control & high vs. low initial skeletal muscle levels, analog systematic desensitization, snake-phobic college students, 9536
- observational apparatus obtaining continuous stable measure, phobic behavior over time, college student, 5191
- operant conditioning techniques & systematic desensitization, treating depression, literature review, 11759
- overcorrective relaxation procedure, agitative-disruptive behavior, retardates, 7685
- peer group modeling vs. identification vs. desensitization, fear of making mistakes, 2nd graders, 5327
- perceived choice in selecting scenes, process & outcome data using systematic desensitization, college students with fear of snakes,
- progressive relaxation training vs. instructions to tense muscles vs. relax vs. sit still, skin resistance, 6128
- progressive relaxation vs. transcendental meditation training, psychological test scores & physiological measures, college students, 6195
- relaxation & desensitization & assertive therapy vs. single-model behavior therapy techniques, migrainous Ss, 7576
- relaxation therapy, treatment of drug dependency states, 1114 repeated viewings of filmed accident vs. benign scene in vs. out of context, skin conductance & self-reported distress & heart rate,
- implications for desensitization therapy, male undergraduates,
- social & cognitive factors, systematic desensitization, critique of W. Wilkins's study, 1117
- social modeling vs. desensitization, dentist avoidance, 11763
- socioenvironmental treatment vs. systematic desensitization vs. relaxation training, inducing assertive behavior, chronic schizophrenics, 5251
- standard group systematic desensitization vs. automated version, normals vs. phobic patients, 4950
- systematic desensitization & behavioral training, university quiz
- participation difficulties, college students, 11814 systematic desensitization & induced expectancy of snake-fear reduction vs. no reduction, snake avoidant Ss, 7565
- systematic desensitization of phobias, chronic severe depression, 60 yr. old male, 3070
- systematic desensitization technique modification, sexual dysfunctions treatment, 7593
- systematic desensitization therapy, reducing test anxiety, college students with specific vs. generalized anxiety, 7898 systematic desensitization therapy, severe handwashing compulsion,
- 26 yr. old female, 2985
- systematic desensitization using muscle relaxation & visual imagery, school phobia & death phobia & separation anxiety, 10 yr. old, 1191
- systematic desensitization vs. implosive therapy, public speaking anxiety-reduction & prediction, theology students, 7586
- systematic desensitization vs. induced anxiety, snake phobic Ss,
- systematic desensitization vs. placebo treatment with vs. without false GSR feedback, snake & spider phobia modification, 9673 systematic desensitization with multiple baselines, 28 yr. old female
- with multiple phobias, 9672
- systematic desensitization, anxiety reduction, counselor trainees, 11307
- systematic desensitization, phobic behavior changes, 7518
- systematic desensitization, reply to criticisms of G. C. Davison & G. T. Wilson, 1254
- systematic self-relaxation & self-suggestions, cardiac surgery postoperative reactions, 11617
- therapeutic instruction & praise, systematic desensitization of snake avoidance behavior, college students, 11661

therapeutically vs. nontherapeutically-oriented instructions & anxiety imagery paired vs. unpaired with relaxation, systematic desensitization, college students, 5160

thermal baths & programatic instruction in relaxation technique & simultaneous psychotherapy, neurotic perturbations & minor depressions resulting from urban overcrowding, 7432

verbal instructions & EMG feedback training & systematic desensitization, examination phobia, 42 yr. old female, 5265 videotaped scenes, systematic desensitization therapy, test anxiety,

#### Systems Analysis

11540

cost-effectiveness factors, retrospective search systems, 5718

experimental systems analysis, adaptation to reversal of retinal feedback of eye movements, 10303

general systems theory, trends, book, 10151

job demands & human factors variables & systems psychology, military performance prediction & management, 1463

management technology, application to operation of institutions of higher education, 9953

systems analysis approach, integrated nursing education, 7032

systems analysis engineering approach, testing device for assessment of neuromuscular system functioning, 2572

systems approach, planning for utilization of school psychological services, 7947

systems prevention model of services, role concept, school psychologists, 5472

#### Systems/

conceptual compatibility with general systems theory, group therapy, 1122

system engineering, application to education & training, 1368

systems approach, alcoholism programming, 2891

#### Systolic Pressure

insulin injections, plasma free fatty acids & serum cortisol & blood sugar & pulse & systolic blood pressure & evidence for defective homeostasis, acute schizophrenics, 2622

intrapair differences, systolic blood pressure & personality, monozygotic twins, 6204

reliable vs. unreliable feedback, systolic blood pressure control, mild hypertensives, 9734

succinylcholine administration & electroconvulsive therapy, systolic blood pressure & patient improvement potential, psychotic & manic depressives & depressed schizophrenics & neurotics, 2919

Szondi Test

Szondi Test performance as indication of personality, implications for behavior modification, addicts & addiction-prone patients,

Szondi Test, personality profiles, coronary & arterial thrombosis patients, 4789

T Groups (See Sensitivity Training)

### T Mazes

multiple classical conditioning trials within each t-maze trial, t-maze learning, earthworms, 10781

# T Test

### Taboos

sociocultural process, prohibition of incest & filicide, 6745

taboo & neutral words, state anxiety & RTs, male bilingual students,

themes of taboos & hostility & sophistication in humor, self concept, 5th graders, 614

## **Tachistoscopes**

portable tachistoscope based on commercial slide-viewer, 10198 tachistoscope & partial report procedure of color & form & shape variables, visual information processing, 10330

#### **Tachistoscopic Presentation**

cerebral hemisphere asymmetries, processing of visual information, 8577

extroversion, perceptual aftereffect from tachistoscopic presentation, college students, 8267

good-bad word effects, tachistoscopic recognition thresholds & recall of words, 4th vs. 7th graders, 4115

name vs. physical similarity, tachistoscopic letter recognition, undergraduates, 8404

retinal location & delay before scanning, recognition of tachistoscopically presented alphabetical arrays in right & left visual field, 10315

tachistoscopic presentation of array of consonants & stimulus duration, spatial & verbal codes & short term memory, college students, 10319

tachistoscopic presentation of nonverbal & verbal stimuli, copying & oral reading performance, disabled vs. normal readers, 11502

tachistoscopic presentation, visual information processing, criticism of D. Rumelhart's model, 5948

tachistoscopically flashed consonants under posthypnotic cue influence, shifts in mental concentration level, 20 yr. old hypnotic college students, 10395

temporal repetition of tachistoscopically-presented visual stimuli, perceptual performance, 91

visual noise masking on parallel mechanism & post exposure cuing on serial mechanism, tachistoscopic recognition, college students,

#### Tachycardia

Tactual Discrimination (See Tactual Perception)

### **Tactual Displays**

tactile displays, provisional bibliography, book, 11840

visual vs. auditory vs. electrocutaneous continuous error information feedback, unidimensional compensatory tracking, college students, 114

Tactual Perception (See also Vibrotactile Thresholds)

asymmetry on right & left sides of lips & tongue tip & tongue dorsum, oral 2-point discrimination thresholds, college students,

bilateral lesions of 1 or both somatosensory cortex areas, tactile discrimination, rats, 1868

congenital blindness & deafness, development of tactile-kinesthetic discrimination, 6-14 yr. old congenitally blind & deaf & normal children, 4626

cutaneous electrical stimulation, pain-free touch sensations, 1568 diabetes onset & duration, light touch & 2-point discrimination & visual flicker fusion & auditory fusion & electric taste thresholds, patients with juvenile diabetes & their close relatives, 938

early exposure & shapes & tactual-kinesthetic feedback, perceptual learning transfer, hamsters, 3986

groove width & land narrowness between grooves & finger force, magnitude estimates of perceived roughness of grooved metal plates, 8303

interpolated tasks, intramodal & cross-modal shape recognition latency & accuracy, 3-4 & 5-6 & 7-9 yr. olds, 6563

matching dot field density between half fields & crossed tactile localization & other tasks, patients with total vs. partial agenesis of corpus callosum, 4674

meaningfully vs. arbitrarily shaped coded or noncoded knobs, speed & accuracy of identification & operation during visual loading, test pilots & engineers & draftsmen, 5679

midline section of interhemispheric commissure, left- vs. right-hand performance in delayed tactile pattern matching, 17 46 yr. old patients, 1024

oral form recognition & interdental thickness & interdental weight

discrimination, normally speaking Ss, 3633 orbital & lateral prefontal vs. inferotemporal ablations, tactile

discrimination learning, monkeys, 435 relevant vs. irrelevant pretraining, crossmodal transfer between vision & touch on foreign letter learning task, 9 vs. 11 yr. old Negro vs. Caucasian males vs. females, 3752

RT procedures, visual & tactile dominance developmental patterns, 7 30 yr. old mental subnormals, 11492

sensory & perceptual abilities, tactual sensitivity, deaf vs. hearing adolescents, 11483

sequentially-presented shapes under cross-modal vs. intramodal conditions & age differences, recognition, 6 & 8 & 10 yr. olds,

successive vs. delayed trials & sex & stimulus presentation order, tactile length discriminations, high school students, 3632 tactile detection of signal nail higher than noise nails, signal

detection theory application, 1589 tactile point stimulation & seasonal change, wiping-activity, toads,

touch, aesthetic ratings of neutral stimuli, 4471

vision & touch interaction, conflict & nonconflict form perception tasks, college students, 5873 vision & touch, shape perception, Ss with mean age of 4.4 & 5.7 yr.,

visual & active vs. passive tactual horizontal-vertical illusions, spatial perception, 5-14 yr. olds vs. male college student, 2111 visual/tactual-kinesthetic & auditory/tactual-kinesthetic modalities,

estimation of short time durations, college students, 10343 widely separated bodily points successive stimulation, perceptual illusion, 5836

#### **Tactual Stimulation**

auditory & tactile & electric & visual stimulation & modality pairing, evoked slow vertex potentials, 8511

auditory vs. visual vs. tactile vs. auditory-visual-tactile stimulation with training materials, learning & retention, college students,

category range, magnitude estimates of electrotactile stimuli, undergraduates, 1591

contralateral masking stimulation, pressure adaptation, college students, 10309

cutaneous nociceptive stimulation & analgesics, pain thresholds, 1854

delivery mode & early handling & sex, weaning weight adrenocortical reactivity & open field behavior, rats, 10768

form-matching task in visual vs. haptic mode, cross-modal equivalence, 7-9 yr. old normals vs. educable mental retardates,

groove width & land narrowness between grooves & finger force, magnitude estimates of perceived roughness of grooved metal plates, 8303

heredity, recognition & short-term memory for pair-associates of nonrepresentational signals in auditory & visual & tactual sense modalities, 12-15 yr. old monozygotic & dizygotic twin pairs, 6171

infantile handling, heart rate & response suppression, rats, 10710 infantile tactual stimulation & maternal influences, emotionality, rats, 10763

light & tactual stimulation of siphon & electrical stimulation of

distal siphon nerve, habituation & dishabituation of siphon withdrawal response, Aplysia, 10564 moving tactile stimuli, individual neuron response within somato-

sensory area I, rhesus monkeys, 8578 rate & pressure & direction of moving point across forearm volar surface, cutaneous perception, 16-25 yr. olds, 10331

somesthetic cortical evoked potentials by electrical stimulation of fingertip, active & passive flexion movement of hand & foot, 6113 static force & stimulation site & area of probe & presence of a

surround, mechanical impedence of skin, sophisticated male undergraduates, 1627

stimulus redundancy in visual vs. tactile modality, naming of objects, aphasic patients, 4807

subsidiary arithmetic task vs. rest during varying delay periods, short-term retention of tactile stimulation, right-handed female college students, 1771

tactile point stimulation & seasonal change, wiping-activity, toads, 1989

tactile stimulation, avoidance reflex, naupliar vs. postnaupliar embryo vs. juvenile crustacean embryos, 481

tactual stimulation, behavioral development, book, 4185

vibration vs. touch vs. noise emitted by vibrator vs. food as reinforcement & operant button-pressing, 8-12 yr. old trainable institutionalized retardates, 4826

visual & tactual contact, motoric mediation in paired-associate learning, kindergartners, 4258

visual vs. tactual input & age, reversal vs. nonreversal learning, 4-7 vr. olds, 638

visual- & tactile-tactile stimulus pairings, paired associate learning, normal vs. poor readers, 5554

widely separated bodily points successive stimulation, perceptual illusion, 5836.

childrearing practices, perception of emotional responses to social interaction, Taiwan vs. American 2nd graders vs. kindergartners,

drinking patterns & alcoholism, Chinese, literature review, 11495 education & childrearing practices, political socialization, children in Taiwan, book, 4366

female roles & family, rural Taiwan, book, 9001

group therapeutic approach & cultural implications in group processes related to sex differences & methodological considerations, group psychotherapy, mental hospital patients in Taiwan, 1110

heredity & environment, psychiatric disorders, Taiwan, literature review, 4885

manifest anxiety, analytic & nonanalytic cognitive styles, American & Taiwanese 4th & 5th graders, 6475

social status measured by educational attainment in transitional society, suicide rates, Taiwan, 11434

Talent (See Ability/ Talented (See Gifted)

duration of isolation period, suppression of aggression & tantrums & self-destruction, 7-21 yr. old institutionalized retardates, 1252 extinction procedure using reinforcement removal, treatment of tantrum behavior, female 28 mo. old, 11642

Tape Recorders (See also Videotape Recorders)

cassette tape recorder vs. written & symbolic feedback, performance scores on secondary school science laboratory exercises, 10th & 11th & 12th graders, 3331

mind control, waking suggestion using tape recorders, 2818 recording of counseling interview, clients' evaluation of counseling

& inhibition, college students, 7814 shortening or removing silent hesitation from speech recording

using tape recorders & voice key, increasing speech rate, 1597 taped implosive therapy with no vs. 3 alternative instructional sets, extinction of learned fear of snakes, college students, 2837

#### Taraxein Task Analysis

ability for relevant task analysis, effective teaching, 7974

espectations of task difficulty, intensity & organization of muscle activity, 20-40 yr. olds, 8342

evaluation & task type, small group communication process, 2399 identification of tasks within psychomotor & affective & cognitive skills domain, determination of teacher aides' roles in instructional duties, 3211

operational & behavioral definition using task analysis, adaptive behavior & adapted controller, 3389

optimal vs. reverse sequence, hypothesized hierarchy of double

classification tasks, kindergartners, 10821
task & environment & nutrition, long-term performance & recovery
in military operations, conference proceedings, 1424

task analysis & developmental guide for proceduralized job performance aids, organizational maintenance of air force manmachine systems, 1408

task motion pattern & worker motivation, work study & measurement techniques, 1414

writing behavioral objectives & analyzing task & choosing teaching strategies, implications for individualized instruction, 11937

**Task Complexity** 

abstract vs. concrete nature of stimulus & response materials, correlation of paired associate performance with school achievement, 3rd & 6th graders, 3157

acculturation & task complexity & mental age, reversal learning, lower & middle class 6-1 l yr. olds, 8790

anxiety & task difficulty levels & memory support & estimated task competency, concept identification, 1675 brightness vs. spatial discrimination reversal problem training in

Ross maze, overtraining reversal effect, rats, 2035

correction vs. noncorrection training procedure & task difficulty, brightness vs. position discrimination, rats, 3984 extroversion & field dependence & task complexity, vigilance &

nystagmus habituation, 6962 frustrative nonreward & task complexity, performance errors &

learning, college students, 6013

group pressure & task difficulty, errors in line estimations as indication of personality stability, 9th & 10th graders, replication of Asch's conformity experiment, 4481

high vs. medium vs. low interstimulus similarity, study time in selfpaced paired-associate learning, university students, 10452 incentive level & difficulty & novelty in choice serial RT task, pulse

& respiration rate & pulse volume & skin conductance level & muscle tension, 22-59 yr. old females, 6208 increasing task complexity, RT & motor & decision-making time,

hyperactive vs. normal 7-11 yr. olds, 3209

information processing in concept learning task varying in complexity, GSR, 9th & 10th graders, 257

interest areas, willingness to participate in content areas & levels of complexity or ambiguity of problem-solving situations, teachers' college students, 1683

interpolated task difficulty & similarity & activity & kinesthetic & visual + kinesthetic cues, short-term motor memory, college students, 8299

low vs. high subordinate competence & task complexity, perception of leadership consideration & initiating structure, undergraduates, 11076

meaningful verbalization & complexity, concept identification, 4th graders, implications for classroom applications, 8028 optimal vs. reverse sequence, hypothesized hierarchy of double

classification tasks, kindergartners, 10821

overt nonsocial speech & task complexity & strategy, problemsolving ability, 4 yr. olds, 4263

perceived difficulty of task & S's perception of ability & success vs. failure experience, performance intensity, relationship between attributional theory of performance & Atkinson's theory of achievement motivation, 6006

psychophysiological assessment using tonic & phasic modes of palmar skin conductance & finger blood & pulse volumes, linguistic response complexity to syntactically different sentences,

reproof & negative feedback & task complexity, motor performance, 5 yr. olds, 5871

selective attention vs. stimulus generalization interpretation, reversal learning on brightness discrimination & easy-to-hard effect, rats,

sensory deprivation, simple vs. complex stimulus discrimination following operant conditioning, rats, 1978

simple vs. complex maze learning, mature-young vs. aged rats, 4020 soliloquy & task difficulty & age, problem solving, 5-10 yr. olds, 6462

speech rate & selection difficulty & association strength & mental aptitude, learning by listening, 18-25 yr. old males, 1769

stress & concept attributes & attribute values & successive problems, concept attainment, college students, 6008

success vs. failure on easy vs. average vs. difficult tasks, subjective estimates of ability & task preference, 3248 task & social demands, locus of control differences in information

processing, female college students, 4530

task complexity, horizontal-vertical line representation, 7-9 yr. olds,

task difficulty & instructional set & performance limits, serial vs. parallel retrieval in short-term memory, 8486

task difficulty & length of experience, human performance reliability, quality control inspectors, 10124

task easiness vs. difficulty, picture naming, aphasics, 11345

task structure & transparency level, interpersonal attraction in small groups, college students, 11077

tone intensity & task difficulty, motivation & performance relationship, extension & expansion of Yerkes-Dodson Law,

Task Difficulty (See Task Complexity)

**Taste Buds** 

Taste Discrimination (See Taste Perception)

**Taste Perception** 

auditory & olfactory & gustatory & somesthetic & kinesthetic & proprioceptive sensation & perception, 10302

bait shyness occurring when flavor CS is followed by illness UCS, prolonged CS-UCS interval, role of gustatory system, rats, 4018

beta adrenergic antagonist dl-isoproterenol hydrochloride vs. beta adrenergic antagonist dl-4-[2 hydroxy-3-isopropylaminpropoxy]indole, learned taste aversion mediation, rats, 1893

diabetes onset & duration, light touch & 2-point discrimination & visual flicker fusion & auditory fusion & electric taste thresholds, patients with juvenile diabetes & their close relatives, 938

differential training & spontaneously preferred vs. disliked stimuli, taste discrimination, goldfish, 8705 electrical stimulation of lateral hypothalamus vs. quinine adulteration of milk, responses to taste & caloric aspects of liquid food, rats, 1947

estimated & actual price & flavor & aroma ratings of cheeses, middle-& upper-middle-class Ss, 8129

flow rate, magnitude estimations of sodium chloride & sucrose, male 25-30 yr. olds, 5872

lithium chloride multiple vs. single exposure, sodium chloride aversion, adrenalectomized & nonadrenalectomized rats, 8588

olfaction & gustation loss, food aversion acquisition, rats, 6143 radiation- & lithium-chloride, conditioned taste aversions, rats,

sapid chemicals tasted in mixture solutions of sweetness & salt vs. sweetness & citric acid vs. sweetness & bitter, perceptual changes, Army enlisted men, 139

starvation vs. recent feeding vs. ready-to-eat situation, taste reactivity, rats, 3991

system input-output transfer function equation for psychophysical dynamic range compression, model of human taste system, 6146 tasting without ingesting by curarizing or infusing flavored solution

into oral cavity, taste-aversion learning, rats, 37 water deprivation & CS preexposure duration, taste-aversion learning, rats, 6365

water deprivation, acquisition & performance of conditioned taste aversion, rats, 4015

Taste Stimulation

differential training & spontaneously preferred vs. disliked stimuli, taste discrimination, goldfish, 6455

differential training & spontaneously preferred vs. disliked stimuli, taste discrimination, goldfish, 8705

electrophysiological study, thalamocortical taste projections, rats & marmosets, 289

energy expenditure on running wheel, food intake & sensory & metabolic regulation, rats, 6209

flow rate, magnitude estimations of sodium chloride & sucrose, male 25 30 yr. olds, 5872

localized ECS, impedance of taste aversion learning, rats, 6286 sapid chemicals tasted in mixture solutions of sweetness & salt vs. sweetness & citric acid vs. sweetness & bitter, perceptual changes, Army enlisted men, 139

sodium chloride & quinine hydrochloride & sucrose vs. hydrochloric acid, magnitude productions vs. magnitude estimation, psychophysical functions of taste intensity, 1626

sodium chloride stimulation of chordatympani nerve, whole nerve recording, rats, 3786

taste vs. pharmacological rewarding properties, self-administration of hashish, rats, 8717

TAT (Test) (See Thematic Apperception Test)

adolescent 4-8 MMPI profiles, predicting from taxonomic class, adolescent psychiatric patients, 11397

classification & data-gathering procedures, accident causes & prevention research, 3419

classification of human associations, USSR, 9050

cluster analyses of SVIB & Minnesota Vocational Interest Inventory & Kuder DD Occupational Interest Survey, verification of J. L. Holland's occupational taxonomy, 8117

Interpersonal Maturity Level classification system, feasibility & effectiveness of application in institutional setting, juvenile delinquents, 11410

interval-scale classification system for 2 × 2 games, extension of R. Harris' system, 765

multidimensional scaling of 9-point dissimilarity ratings, model for classification of collective behavior, undergraduates, 798

patient behavior classification scheme & taxonomy of social factors in illness, behavioral science & clinical medicine integration, 7238 psychological classification of occupations based on personality types, 8082

psychological taxometry, book, 8196

Television (See also Closed Circuit Television, Educational Television, Television Advertising)

perceptions & explanations & judgments of television commercials, 5 12 yr. olds, 3457

remote-controlled underwater television system & establishing dominant-subordinate relationships & territoriality & reproductive behavior, social structure, bicolor damselfish, 2020

small television-type raster displays in airborne applications, alpha-numeric character legibility, 1417

speech rate of televised communication, length & suitability ratings & comprehension, adolescents to 45 yr. olds, 3545

television picture impairment by random noise & delayed echo, O adaptation during television quality-grading test, 10120

television violence preference during formative yrs., aggressive behavior, adolescents, 10 yr. followup study, 9034

television, viewing habits & social impact, book, 6882 video-taped TV sequences of black & white children in leadership roles, concept attainment & social preference, kindergartners in integrated black-&-white & all-white classrooms, 1277

Television Advertising
pictorial value & empathy & interest & clarity, television
commercial recall prediction, 10144

responses to white vs. black TV commercial actors, white & black females, 3444

viewer distraction & commitment, television advertising persuasiveness & attitude change, 8044

**Television Viewins** 

audience demographics & program content, television daytime serials, 2410 childhood television viewing patterns, marihuana usage, 15-19 yr.

olds, 4275

differential diffusion of television, kibbutzim, Israel, 6690

observation of violent vs. family-life television program content, aggressive behavior, boys of lower vs. middle socioeconomic status, 2431

repeated exposure to televised violence, attitudes toward violence, youthful offenders, 9408

television use & increased visibility of minorities, destructive effects in United States, 6902

television viewing, personality changes, Polish 6th graders, 8791 Tell A Story Kit (Taskit)

Temperament (See Personality/)

Temperature (Body) (See Body Temperature)

Temperature (Skin) (See Skin Temperature)
Temperature Effects (See also Cold Effects, Heat Effects)

ambient temperature & population density, aggressive behavior, aggressive vs. nonaggressive mouse strains, 4021

auditory & temperature stimulus intensity, heart rate & skin potential & skin resistance change, 2.5 wk. old infants, 8508 environmental temperature stress, electrical vs. radiant heat selfstimulation of preoptic & lateral hypothalamus, rats, 3975

genotype & age & ambient temperature, distress signal rate & peak frequency & duration, mice, 8549

separation from nest & isolation & room temperatures, ultrasonic

vocalization, mice, 10704 water temperature & shock level & test interval after shock, suppression of upstream swimming into calm-water well, goldfish, 539

weather & internal-external control, mood, college students, 11221

**Temperature Perception** 

red vs. blue dominant light frequencies, perception of thermal comfort, college students, 73

Temporal Lobe (See also Auditory Cortex)

amygdala vs. inferotemporal cortex resections, visual orienting & habituation, rhesus monkeys, 3852

brain weight & corpus callosum width & cingulate gyrus height & cortical mantle width & volumes of thalamus & lenticular nucleus & hippocampus & temporal lobe & total cortex, chronic schizophrenics, 9439

EEG alpha-rhythm recordings from symmetric hemispheric points in parieto-occipital & parieto-temporal & temporo-occipital region, significance as test of cerebral hemisphere dominance, 16 49 yr. olds, 3779

prefrontal & anterior temporal cortex lesions, social & sexual behavior & affect, rhesus monkeys, 8658

right vs. left temporal lobectomy, organizational aspects of memory, patients, 3033

selective attention for color & form of complex stimulus display, occipital & temporal cortex electrical activity, monkeys, 3827

superior temporal lobe lesions & stimulus duration, single acoustic signal frequency & intensity detection & RT & thresholds, braindamaged patients, 4745

**Temporal Spatial Concept Scale** 

age, temporal integration, kindergartners to 9th graders, 10909 Temptation

inhibiting vs. disinhibiting models, resistance to temptation, 3rd & 4th graders, 10904

maternal verbal communication, resistance to temptation, 9-10 yr. olds of Canadian- vs. Italian mothers, 687

resistance to temptation & moral development, perceptions of parental behavior, adolescent boys, 4117 self-esteem, resistance to temptation, male vs. female 6th graders,

4487 Tendency Measures (Central) (See Central Tendency Measures)

Tendons

Tennessee Self Concept Scale

encounter group experiences & Tennessee Self Concept Scale & self phenomenological analysis, dependence/independence balance, diabetics, 2801

multiple discriminant analysis of Personal Orientation Inventory & Tennessee Self Concept Scale & Differential Value Profile & Mehrabian Achievement Scales & personal data questionnaire, identification of variables discriminating between groups differing in self-actualization level, freshman college students, 8026

Tension (Premenstrual) (See Premenstrual Tension) Tenure (Occupational) (See Occupational Tenure)

Tenure (Teacher) (See Teacher Tenure)
Terminal Cancer

consideration of death, anxiety level, cancer vs. medical patients vs. healthy Ss vs. heroin addicts, 7175

dreams, preparation for death, terminal cancer patients, 11602 music, LSD psychotherapy, alcoholic & narcotic addiction & terminally ill cancer patients, 7379

thioridazine, relief of mixed anxiety-depression, terminal cancer patients, 7503

Terminally Ill Patients

existential counseling, terminally ill patients, 4934

LSD vs. dihydromorphine vs. meperidine therapy, pain reduction & mood change & approach to illness & death, terminally ill patients, 7641

patient-spouse role expectations during terminal illness, patient anxiety & alienation, male terminal cancer outpatients & spouses,

psychological death as adaptive response to life-threatening illness, male with multiple myeloma, 9282 psychosocial care, terminally ill patients, book, 9752

social to terminal stage dying transition, emotional adjustment, nursing home patients, 7164

visiting dying patient, feelings & responses of ministering, 7459
Terminology (Psychological) (See Psychological Terminology)
Territoriality

death of fawn, antagonistic behavior & dominance & territoriality, female deer, 2019

food-olfactory cue conditioning & feeding behavior relations to habitat, food preference, mice, 1987

hierachy & group density, social structure & territoriality, cockroach, 4008

marker vs. no marker in library study space & personal vs. nonpersonal marker in pub, territorial rights, college students & pub patrons, 9043

model features of color & shape & length, aggressive behavior & defense of breeding territories, nesting male longear sunfish, 2007 permanence of residence occupancy, territorial displays on property, suburban residents, 6673

population density & aggressive interaction outcome & fighting frequency changes & loss of opportunity to dig, aggression & territoriality, captive vs. wild male Cichlids, 1998

remote-controlled underwater television system & establishing dominant-subordinate relationships & territoriality & reproductive behavior, social structure, bicolor damselfish, 2020

reserpine, territory maintenance, male red-winged blackbirds, 6302 spatial & group sex composition & group activity, intrusion upon group-shared space, college students, 9018

spatial arrangement of members, group leadership with abdication of responsibility by official leader, implications for human territoriality, 4442

steroids, territorial marking, castrated gerbils, 10694 territorial exclusion, reproductive isolation, gerbils, 4071

vocalization characteristics, territorial social organization, East African monkeys, 6400

Test (Achievement) (See Achievement Measures) Test (Aptitude) (See Aptitude Measures)

Test (Intelligence) (See Intelligence Measures)

Test Administration

evaluative vs. relaxed atmosphere, response originality to creative tasks, 4th 6th graders, 9889

group vs. individual testing & standard pencil-&-paper vs. nonpaper-&-pencil administration, Bildertest of Intelligence scores, normal students vs. slow learners, 7870

life history data & test climate & race of test administrator, test anxiety, black male mainténance technician trainees, 5613 race of É, intelligence test performance, Negro & white elementary

school children, 5302

rest periods during testing, test scores, physically handicapped vs. nonhandicapped 7th-9th graders, 11893 scoring instructions & speededness, multiple choice test validity &

reliability, 8th graders, 5801

task instructions, task performance & comprehension & retention of mathematics-related tasks, 6th 7th graders, 7992

test anxiety level & test administration mode & sex, reading achievement scores, 5th graders, 7853

verbal- vs. no-approval test administration modes, WISC performance, lower- vs. middle-class 3rd graders, 7811

**Test Anxiety** 

abreactive test modification technique, reducing debilitating effects of high test anxiety, 8th graders, 3115

academic achievement & intelligence & nonacademic accomplishments & anxiety as correlates, timed & untimed creativity measures, 12th graders, 8011

anxiety & continuous vs. partial information, response errors in difficult paired associates task learning, basic airmen recruits,

convergent vs. divergent thinking, test anxiety & curiosity, undergraduates, 8481

discussion oriented counseling vs. systematic vs. automated desensitization, objective behavior & subjective reactions to test taking situation, internally vs. externally controlled high test anxious college students, 1132

examination anxiety & depersonalization & hypochondria, defenses

against inner persecution, patients in psychoanalysis, 11786 general & test anxiety & pass-fail vs. other grading, science examination performance, non-science major college students,

group counseling & behavior therapy, academic achievement, testanxious college students, 7902

group implosive therapy, test anxiety reduction, college students,

group systematic desensitization & initial test anxiety level, test anxiety & academic achievement, scholastic probation college students, 3347

group systematic desensitization vs. test wiseness training, reducing test anxiety, college students, 11675

high vs. low test anxiety level & maximal vs. minimal sequence control, termination time & question error rate & task mastery in self-directed learning, junior high school students, 9934

impersonal interviews vs. interviews about test taking & achievement-orienting vs. neutral instructions, learning task, college students high vs. low in test anxiety, 3308

instructions & test anxiety, digit symbol performance, college students, 12165

instructions & test anxiety, digit symbol performance, college students, 12010

interaction of affective & cognitive factors, examination situations, 1295

life history data & test climate & race of test administrator, test anxiety, black male maintenance technician trainees, 5613

mediation practice, field dependence-independence & test anxiety & reading achievement, 3rd graders, 5481

prearranged testing, anxiety & performance, 3rd graders, 3345 risk-taking & anxiety, convergent & divergent thinking, 6th graders, 11231

rural-urban residence & IQ & locus of control & test anxiety, 9th graders, 590

sex differences & test anxiety & knowledge of relative ability, subjective probability of failure & school performance, 7th graders, 3173

systematic desensitization & behavioral training, university quiz participation difficulties, college students, 11814

systematic desensitization therapy, reducing test anxiety, college students with specific vs. generalized anxiety, 7898

test anxiety & relevant & irrelevant interruptions, emotional arousal & reading test performance, undergraduates, 7903

test anxiety & test conditions, intratest scatter & internal consistency on WISC Comprehension subtest, 5th graders, 8033 test anxiety concept, extension to crises in interpersonal relationships & emotional maturation, 4641

test anxiety level & test administration mode & sex, reading achievement scores, 5th graders, 7853 test anxiety measurement methods, students, 11935

Test Anxiety Scale for Children, Japanese 10-12 yr. olds, 3518 videotaped scenes, systematic desensitization therapy, test anxiety,

Test Bias (Cultural) (See Cultural Test Bias)

Test Construction (See also Content Analysis (Test), Cultural Test Bias, Difficulty Level (Test), Item Analysis (Test), Item Content (Test), Test Items, Test Reliability, Test Standardization, Test

achievement test construction, assessing comprehension, 9826

classroom test construction & analysis techniques, student achievement measurement, manual for teacher-trainees, 7891

construct development & validity, expectancy measure of psychological mindedness, 8198

construction & standardization, fallacy discrimination test, high school students, 8241

construction & validation, Marburg scales of parent-child relations, 8218

construction & validity & reliability, semantic differential for inmate concerns, inmates & college students, 8197

constructional validity, translation of Cattell's 16 PF Questionnaire,

army political officials, 8217 cross-cultural household level-of-living scale construction, rural Georgia & Puerto Rico & Dominican Republic data, 658

development & validation, Henderson Environmental Learning Process Scale, lower socioeconomic status Mexican-American & middle socioeconomic status Anglo-American mothers of 1st graders, 8216

development & validation, Japanese version of MPI, college students, 5769

imprecision of definition of intelligence & norm-referred basis of intelligence-test construction, intelligence measurement, 23

instrument construction for measuring differences between counselors & counselor trainees, 8219

instrument development & construct validation of alternative means, identification of exceptional achievement potential, ethnic minority students, 9912

item-order & composition of word-list, Netherlands version of Hamburg Wechsler Intelligence Test for Children, 8 13 yr. old Dutch children, 5804

knowledge of occupations test construction & validity & reliability, implications for counseling & instruction & curriculum planning,

Mathematics Anxiety Rating Scale, normative & reliability & validity data, college students, 5788

proportion of scale used & testing time & usage of uncertain category, optimal number of alternatives for Likert-scale items, college students, 8231

reliability & validity, liberalism-conservatism scale development, white vs. black college students vs. middle-aged middle-class graduates, 6744 reliable test construction, assessing musical performance, 5790

scale construction & evaluation, rating college instructors, 7776

school readiness & school success prediction, screening questionnaire development, prekindergartners, 7752 shortened version of MMPI Judgment of Complex Behavior scale,

norms for alcoholics, 4782 smallest space analysis of L. Guttman & J. C. Lingoes, nonmetric

technique for proximity relations analysis, application to CPI & scale structure, 40

spatial reasoning test construction, spatial ability measurement, secondary school pupils, Belgium, 10268

strategy of scale construction & number & type of prediction functions utilized for multivariate predictions, personality inventory construction & utilization, 5759 SVIB, male & female forms vs. 1 form not incorporating sex

differences, 1526 test abstractness vs. concreteness, semantic differential ratings,

lower class 9th graders, 5299 test length, test reliability, 9033

test qualities & differential validity & motivation, psychometric & predictive test bias, 10274

test validation, criterion-referenced test of beginning reading skills,

trial construction, role conception inventory, hospitalized mental patients, Japan, 9501

Test Item determination of test length, simple formula for optimal disperson of item p-values, J. Loevinger's phi/phimax & H of test as basis,

Eysenck Personality Inventory Extroversion & Neuroticism scales,

item factor analysis, college students, 9175 judgments of intelligence test-item bias, cultural minority members,

measurement equivalence, multiple-choice vs. created response test item formats, 21

point-biserial vs. biserial correlation, item selection, 5746 random guessing & partial information & misinformation, item-scoring formulas, 3506 WISC Verbal Section item appropriateness, IQ testing, Mexican-American children, 3121

Test Normalization (See Test Standardization)

**Test Norms** 

Hand Test norms, junior high school students, 6931

individual prominence & ascendence & social approval scales, norms & reliability & validity, Dutch students, 10250

local norms, Raven's Coloured Progressive Matrices, 7 12 yr. olds,

norms categorized by age & sex, Ziler's Draw-a-Man-Test & Raven's Coloured Progressive Matrices, 5-7 yr. olds, 3533

SVIB interest scales, measuring J. Holland's 6 cognitive styles, test norms for college students, 11957

Test Reliability

articulation functions & test-retest performance on speech discrimination tests, 3 & 5 & 7 & 9 & 11 yr. olds, 6588

assessment of validity & reliability of Baddeley's Three-Minute Reasoning Test, use with schoolchildren, 10254

automated vs. face-to-face WAIS testing, test-retest reliability, 8210 Behavior Classification Project, interrater reliability, parents & teachers & 11 13 yr. olds from schools & outpatient clinics, 7153

Children's Manifest Anxiety Scale long-term test-retest reliability & suitability with younger CA-group, 7 11 yr. old male educable mental retardates vs. normal male CA controls, 1516

coefficient alpha & test-retest reliabilities, construction of homogeneous scales for SVIB, 5753

construction & validity & reliability, semantic differential for inmate concerns, inmates & college students, 8197

criterion-referenced measurement, statistical reliability theory & measures with underlying multidimensional traits, 55

degree of agreement among judges or raters, index of reliability for psychological & educational tests, application to Ali-Frazier boxing match, 3528

Hogge & Friedman Scriptural Literalism Scale-Form C & McLean Religious World Views Scale & King & Hunt Religious Position Scales, item & scale means & standard deviations & reliability coefficients & intercorrelations, college students, 1525 Illinois Test of Psycholinguistic Abilities, longitudinal analysis of

subtest reliability, elementary school children, 8027

individual prominence & ascendence & social approval scales, norms & reliability & validity, Dutch students, 10250

Junior Eysenck Personality Inventory scores, Irish 13 15 yr. olds, 11250

knowledge of occupations test construction & validity & reliability, implications for counseling & instruction & curriculum planning,

long-term reliability, Pictorial Test of Intelligence, 7 12 yr. old institutionalized retardates, 4629

measurement techniques & validity & reliability, empathy, undergraduates, 9168

MMPI & Personality Research Form, person test-retest reliability, undergraduates, 9192

Neurosensory Center Comprehensive Examination for Aphasia, test-retest scores for pattern of recovery, nonfluent aphasics,

Raven's Progressive Matrices validity & reliability & norms, male

hospital patients, 5748 reliability & applicability, Self-Esteem Inventory, prison inmates, 11334

reliability & fakability & acceptability to respondents, forced choice item format, 5797

reliability & predictive validity & similarity to Western tests, Israeli & foreign psychometric tests, book, 5778

reliability & predictive validity, psychometric tests in use in Israel, book, 5777

reliability & validity & predictive validity, French version of WISC adapted to Congolese, 7 15 yr. olds, 5745 reliability & validity, liberalism-conservatism scale development,

white vs. black college students vs. middle-aged middle-class graduates, 6744

reliability, Betts QMI Vividness of Imagery Scale & Gordon Test of Visual Imagery Control, 10324

reliability, Irish Leaving Certificate Examination grades, 5775 revised Pittsburgh Scales of Social Extraversion-Introversion & Emotionality reliability, rural 3rd 9th & urban 5th graders & neglected residential high school students & college students,

scale construction & evaluation, rating college instructors, 7776

scoring instructions & speededness, multiple choice test validity & reliability, 8th graders, 5801

selected poor item-writing practices in political science examination, test difficulty & reliability & validity, undergraduates, 5317

self-scoring procedures, increasing test reliability, graduate students, 3513

sex & urban vs. rural social level, reliability of Polish adaptation of Vineland Social Maturity Scale, 2 30 mo. olds, 8824

strategy for combining items which form most reliable cluster analysis, test reliability, 5752

study specialization, scores on Persian adaptation of Otis-Lennon Mental Ability Tests & achievement test correlations & retest

reliability, Iranian secondary school graduates, 7845 superpsychometrics, ultrareliability & hypervalidity in multistage testing & successive stages of intensified measurement, 31

test length, test reliability, 9033

test reliability & item difficulty indices of variance & skewness, standard error of estimate in item-examinee sampling, 5794

test repetitions, Uchida Kraepelin Psychodiagnostic Test curve change, 2736

test validity & reliability, Slossen Intelligence Test, gifted 9 11 yr. olds, 10266

test-retest differences, Goldstein-Scheerer Object Sorting Test, 9-15 yr. old identical & fraternal twins, 53

theoretical basis & item selection & reliability & validity, Italian version of Hoffer-Osmond Diagnostic Test, 10251

variations in rating scale characteristics, means & reliabilities of ratings, college & graduate students, 8213

**Test Score** 

differential vs. equal weighting, classification of Ss by test of knowledge, 8007

distributional analysis of test results, method for constructing trait profiles for occupational groupings, 5682

group size & diverse test score distribution characteristics, estimation of ability parameter of Rasch measurement model,

material vs. verbal rewards, aptitude test scores, white vs. black prison inmates, 11510

Monte Carlo study, item sampling vs. traditional sampling for norm construction, 3504

personality influences, confidence test scores, 4485

positive test scoring, subtest intercorrelations & upper & lower boundaries, 5758

recording form, computerized scoring of Illinois Test of Psycholin-guistic Abilities, 1524

scaled scores vs. psycholinguistic ages, identification of statistically significant differences on Illinois Test of Psycholinguistic Abilities, 5585

stochastic individual test scores assumption, invalid applications of mental test theory, 5802

Test Standardization

construction & standardization, fallacy discrimination test, high school students, 8241

learning abilities screening test, 1st graders, 12030 Monte Carlo study, item sampling vs. traditional sampling for norm construction, 3504

norm development, Hand Test & Peabody Picture Vocabulary Test, bilingual 1st 3rd graders, 10033

parental occupation, criterion for standardization of WISC, black vs. white elementary school children, 9933

restandardization of verbal & nonverbal tests, mental testing of Welsh-speaking children, 10282

standardization of Spanish version of Peabody Picture Vocabulary Test, necessity for 2 scales depending on Ss' socioeconomic background, 10269 Test Validity

Affective Sensitivity Scale measure of empathy, predictive validity for interpersonal therapeutic functioning, 1538

American College Test, predictive validity, community college students, Appalachia, 11994 Amthauer Test of Intelligence Structure applicability, Czech

students up to 19 yr. old, 3522

anxiety & intelligence & access to primitive thought modes, Remote Associates Test validity, 5776

Asch situation vs. Strickland-Crowne procedure vs. Marino-Parkin technique, group conformity measure equivalence, 9020 assessment of validity & reliability of Baddeley's Three-Minute

Reasoning Test, use with schoolchildren, 10254

Cattell Culture Free Intelligence Test scale 2 validity, Czech soldiers & high school students, 3515

classification accuracy in occupations common to both inventories, concurrent validity of SVIB & Kuder Occupational Interest Survey, men, 5809

Community Adaptation Schedule vs. MMPI, Community Adaptation Schedule validity, Federal prison for youthful offender prisoners & vocational-technical school male nonprisoners, 2573

concurrent & predictive validity, selected scales of Comparative Guidance & Placement Program as measures of college success prediction, college students, 8207

concurrent validity, Purdue Perceptual-Motor Survey & Perceptual-Motor Behavior Screening Checklist, students, 10252

congruent validity by computation of Spearman rank-order correlation coefficients for like-named scales, SVIB & Kuder Occupational Interest Survey Comparison, reply to F. Kuder, 3524

construct development & validity, expectancy measure of psychological mindedness, 8198

construction & validation, Marburg scales of parent-child relations,

construction & validity & reliability, semantic differential for inmate concerns, inmates & college students, 8197

constructional validity, translation of Cattell's 16 PF Questionnaire, army political officials, 8217

cross-validation, short forms of Hamburg-Wechsler-Intelligenztest fuer Erwachsene, 5793

culture-freeness & validity, Wepman Test of Auditory Discrimina-tion & Harrison-Stroud Reading Readiness Profiles & Illinois Test of Psycholinguistic Ability, discussion of literature, 5395

detection of unreliable hearing responses, Doerfler-Stewart Test validity, normal-hearing adults & Veteran's Administration hospital patients, 8211

development & validation of Authoritarianism-Rebellion Scale, undergraduate student political groups, 42

development & validation, projective measure of interpersonal

values, 4306 development & validation, Henderson Environmental Learning Process Scale, lower socioeconomic status Mexican-American middle socioeconomic status Anglo-American mothers of 1st

graders, 8216 development & validation, Japanese version of MPI, college students, 5769

development of local objective & validated tests, vocational school

counseling, 10028 direct examination & factor analysis, MMPI & 16 PF validity,

admissions to state mental hospital, 9221 face-to-face vs. automated testing, validity of WAIS, adult psychiatric outpatients & normals, 2615

face-to-face vs. automated WAIS administration, validity study, 16 63 yr. old borderline retardates, 4669

forced-choice procedure & identification of moderator variables,

reference check validity improvement, 1397
high & low density populations, sensitivity of various nearest
neighbor tests of significance for nonrandomness, singing crickets, 489

Holland's Self-Directed Search for Educational & Vocational Planning, test-retest reliability, 7915

Hospitalization Proneness Scale, psychiatric hospitalization predic-tion, schizophrenic outpatients, 9742

individual prominence & ascendence & social approval scales, norms & reliability & validity, Dutch students, 10250

instrument development & construct validation of alternative means, identification of exceptional achievement potential, ethnic minority students, 9912

intercorrelational validity study, auditory & visual functioning tests, use as basis for reading instruction determination, 5373

interpretation problem using point value limits, school readiness test results, 1st graders, 7889

Kahn Test of Symbol Arrangement, validity as predictor of college academic achievement, 11826

knowledge of occupations test construction & validity & reliability, implications for counseling & instruction & curriculum planning,

London doll-play technique validity of T. Moore, English & Norwegian & Czech populations, 8226 measurement scale validity & sensitivity, depression questionnaire

construction, female inpatients, 9425

measurement techniques & validity & reliability, empathy, undergraduates, 9168

Missouri Children's Picture Series validity, degree of personality disturbance discrimination, normal vs. abnormal elementary school students, 9737

moderator variables, implications for measurement theory & personnel selection, 1415

modified quadrant analysis & combining Ghiselli's d" technique & directional strategy, moderator search strategy problems & pratfalls, criticism of N. Abrahams & E. Alf, 32

modified quadrant analysis & combining Ghiselli's d" technique & directional strategy, moderator search strategy problems & pratfalls, reply to M. Dunnette's criticism of N. Abrahams & E. Alf's article, 20

Preconscious Activity Scale, validity for South African conditions, 1540

predictive & construct validity, Frostig Developmental Test of Visual Perception, 3532

principal-components analysis of multitrait-multimethod matrix, convergent & discriminant validity of MMPI & Marlowe-Crowne Social Desirability scale & TAT & Rorschach, college students & psychiatric patients, 4850

programing & validating Universal Consequence Test & Role

Exchange Test, value judgments acceptability, 10244
Raven's Progressive Matrices validity & reliability & norms, male hospital patients, 5748

regression equation & residual score & validity coefficient misuse & incomplete evaluation of contribution to prediction, prediction using moderator variables, 19

reliability & predictive validity & similarity to Western tests, Israeli & foreign psychometric tests, book, 5778

reliability & predictive validity, psychometric tests in use in Israel, book, 5777

reliability & validity & predictive validity, French version of WISC adapted to Congolese, 7 15 yr. olds, 5745 reliability & validity, liberalism-conservatism scale development,

white vs. black college students vs. middle-aged middle-class graduates, 6744

research & prediction, validity & meaningfulness of questionnaire measures of personality, 1513

Roach & Kephart Purdue Perceptual-Motor Survey, validity for young adult retardates, 4804

role playing, Rorschach Test scoring & interpretation, female undergraduates, 5750 scale construction & evaluation, rating college instructors, 7776

scoring instructions & speededness, multiple choice test validity & reliability, 8th graders, 5801

selected poor item-writing practices in political science examination, test difficulty & reliability & validity, undergraduates, 5317
Shape-O Ball Test, validity & academic achievement prediction,

kindergartners, 5799 Slosson Intelligence Test vs. WISC validity, 8 14 yr. old students referred to reading clinic, 7852

stability of & self-evaluation on Freiburg Personlichkeitsinventar

scales, students & neurotic patients, 8243 structure of face validity, intelligence tests, 5760

study specialization, scores on Persian adaptation of Otis-Lennon Mental Ability Tests & achievement test correlations & retest

reliability, Iranian secondary school graduates, 7845
superpsychometrics, ultrareliability & hypervalidity in multistage
testing & successive stages of intensified measurement, 31
Talbert's Story Preference Test revised version, validity for assessing

curiosity, 5th & 6th graders, 10279 test qualities & differential validity & motivation, psychometric &

predictive test bias, 10274 test validation, criterion-referenced test of beginning reading skills, 10247

test validity & reliability, Slossen Intelligence Test, gifted 9 11 yr. olds, 10266

theoretical basis & item selection & reliability & validity, Italian version of Hoffer-Osmond Diagnostic Test, 10251

validation, personnel attitudes & morale scales, Air Force personnel, 8154

validity & application to ethnic populations & use in special education, WISC, literature review, 1960-1970, 5589 validity of abbreviated form of Marianne Frostig Developmental Test of Visual Perception, 5-8 yr. old children in child guidance

clinic, 3512 validity of hierarchical measure of cognitive complexity, 8246 validity of Columbia Mental Maturity Scale & Peabody Picture Vocabulary Test & Slosson Intelligence Test, mental abilities assessment, mentally retarded children, 9950

validity of Snijders Oomen Intelligence Test P series, correlation with German editions of Wechsler & Kramer intelligence tests, 5

15 yr. olds, 46 validity, teacher completed observation questionnaire judging social & general abilities & language & mathematics & memory & task

orientation & parental training style & school readiness, kindergartners, 9895 validity, United Nations Educational, Scientific, & Cultural

Organization silent reading test, older children, 1327 Wide Range Achievement Test & WISC, Peabody Individual Achievement Test validity, normal & reading disabled & retarded 7-16 yr. olds, 7985

WISC Verbal Section item appropriateness, IQ testing, Mexican-American children, 3121

Young Children's Social Desirability Scale, social desirability, economically disadvantaged 4 & 5 yr. olds, 10798

associative & perseverative tendencies, verbal thinking in problem solving, 19 63 yr. old frontal lobe brain-lesioned patients, 4664 attitude toward reality & secondary process activity & school's role,

mastery of reality & capacity for reality testing, children, 2097 chronological & mental age & IQ & sex & etiological classification, abstract-concrete thinking, brain-injured vs. familial educable mentally retarded, 11411

conditioning, allusive vs. nonallusive thinking college students, 8355 figures of speech, cognitive style & thinking & communication of thought, 3684

genetic factors, thought processes, schizophrenia, 1020 individual differences & problem-solving ability, thought & imagery vividness & controllability, 6065

intelligence & creativity & critical thinking, selection of college major, college students, 7741

intuitive vs. analytical thinking, consistent vs. inconsistent multiplecue learning task, 5965

L-dopa, mood & thinking & behavior, depression & parkinsonian patients, review, 7468 language & thinking & imagery, human development, book, 579

language & thought development, preschool children, 6559

language in thinking, book of readings, 1666
life & death attitudes & dichotomous thinking & affective measures,
suicidal thought, high & moderately & low lethality & nonsuicidal females, 1034

overextensive concept boundaries & irrelevant theme interpenetra-tion, cognitive defects, schizophrenics, 1037

overinclusive thinking & clinical assessment, concept identification, schizophrenic & nonschizophrenic psychiatric patients, use of R. Payne's & D. Friedlander's test battery, 11393

personality characteristics, conjugate lateral eye-movement phenomenon in response to reflective thought questions, 6921

Piagetian tests of operational & causal thinking, cognitive development, 5 9 yr. olds, 2103

stressful films, intrusive & repetitive thought, nonpsychotic male military hospital inpatients, 4731

teacher verbal behavior, teacher & student thinking sophistication, 2nd grade teachers & students, 12004

thinking by animals & humans & computers, book, 10411

verbal vs. sign language, story communication & verbal thinking, deaf-mute vs. normal hearing 3rd 8th graders, 4735

Thiopental Thioridazine

imipramine & dibenzapine & thioridazine & amitriptyline, endogenous depression, 2839 methysergide vs. thioridazine, patients with moderate to severe

mania, 2950

hioridazine & chlorpromazine & averaged electroencephalic audiometry during sleep, mentally retarded adults, 9707 thioridazine & dextroamphetamine, behavior & cognition, elemen-

tary school students with behavior disorders, 9590 thioridazine & haloperidol & pimozide, antagonism of apomor-

phine-induced stereotypy & emesis, dogs, 6308 thioridazine hydrochloride, EEG changes, schizophrenics, 7350 thioridazine, relief of mixed anxiety-depression, terminal cancer

patients, 7503 Thiothixene

atropine vs. amphetamine, induced adipsia, 10628

conditioned stimulus associated with formalin administration, water & sodium intake, rats, 473

hypertonic NaCl injections & osmotic food inhibition & water deprivation, inhibition of ad libitum feeding, rats, 464

hypothalamus & amygdalin complex, thirst regulation, animals, 10588

reinforcement schedule & percent body weight & reinforcer magnitude, schedule-induced polydipsia acquisition, rats, 4012 stomach distention & fluid concentration changes, thirst, water-

deprived rats, 1865 Thoracic Duct

Thoracic Nerves (See Spinal Nerves) Thoracic Spinal Cord

Thorazine (See Chlorpromazine)

Thought Disturbances (See also Amnesia, Autistic Thinking, Confabulation, Delusions, Fantasies (Thought Disturbances), Fragmentation (Schizophrenia), Fugue Reaction, Judgment Disturbances, Magical Thinking, Megalomania, Memory Disorders, Obsessions, Perseveration, Word Salad)

abstraction deficit resulting in concrete concepts, schizophrenics, criticism & reinterpretation of K. Goldstein's hypothesis, 4860 Bannister's Grid Test for schizophrenic thought disorders,

evaluation thought disorders, schizophrenics & manics, 931 cognitive impairment & depressive symptoms before & after L-dopa therapy & acute psychotic disorders, Parkinson's disease patients, 9560

concrete & regressive thought processes, alcoholics & schizophrenics, 9489

decreased vs. increased auditory & visual stimuli, thought processes of cognitive focusing & reasoning & concept formation, chronic nonparanoid female schizophrenics, test of interference theory of schizophrenic psychological deficit, 4766

droperidol, agitation & self-destructive & combative behavior, emergency room patients, 9701

full-report span of apprehension technique, deficit in iconic memory decay & slowness in information processing, hospitalized acute male schizophrenics & nonschizophrenics, 2594

kinesthetic figural aftereffects, disorders in perceptual experiences of environment & overinclusive & idiosyncratic thinking, classical & latent schizophrenics & nonschizophrenic inpatients, 986

marihuana, clinically induced psychological & neurological effects, 13 24 yr. olds, challenge of H. Kolansky & W. Moore's study, 10695

marihuana, clinically induced psychological & neurological effects, 13 24 yr. olds, critique of H. Kolansky & W. Moore's article,

marihuana, clinically induced psychological & neurological effects, 13 24 yr. olds, longitudinal study, 10646

nature & mechanisms of disturbance in object naming, amnesic aphasics & normal adults & schoolchildren, 9482

overinclusive thinking & clinical assessment, concept identification, schizophrenic & nonschizophrenic psychiatric patients, use of R. Payne's & D. Friedlander's test battery, 11393

overinclusive thinking as reflection of failure in short-term memory, paranoid & nonparanoid schizophrenics, 7182

phenothiazine vs. nonphenothiazine type major tranquilizer drugs & nondrug factors, thinking disturbance profile pattern vs. retarded depression vs. anxious depression profile psychiatric inpatients, 1166

Repertory Grid Test measurement of loose contruing" concept derived from personal construct theory, 9281

simple proverbs test, thought disorder, chronic & acute schizophrenics & manics & neurotics & personality disordered, 11626

statistical analysis, suicidal tendencies & suicide attempts, French 12 20 yr. olds, 9473

stimulus generalization & overinclusion & vocabulary, schizophrenics vs. normals, 4601

therapeutic nursing intervention, disturbed language & thought processes, 19 yr. old hospitalized Negro male schizophrenic, 11579

dreaming vs. dream deprivation, recall of threatening stimuli, 3796 early infancy threatening situation memory, physical symptoms & manifestations of psychological processes, 7327

internal-external locus of control & sex, use of promises & threats in interpersonal conflict, 4391

lesions of amygdaloid & corticomedial amygdaloid nuclei, freezing & avoidance of unconditioned & conditioned threat stimuli, male rats, 6228

movie viewing & threat to freedom to act in similar manner to portrayed acts, attempt to carry out movie-related behavior, 6-12 yr. olds, 3761

race & threat value of stimulus, perceptual defense & personal space, black male repressors vs. sensitizers, 4476

reflection-impulsivity & field dependence-independence cognitive styles & optimistic-pessimistic responses to frustration threat, 6 vs. 8 vs. 10 yr. old boys, 11210

self-defense against police corporal punishment, self-mutilation, Peruvian prisoners, 2597

sleep & dreaming vs. dream deprivation, recall of ego-threatening or nonthreatening material, college students, 8396 threat control vs. no control, cue utilization, 1708

threat magnitude & repression-sensitization & avoidability of threat, attention & responsivity to remote danger, college students, 3735 threat of severe vs. moderate vs. mild negative sanction, cheating,

deviants vs. nondeviants, 2638

threats eliciting different perceptual & behavioral reactions, interpersonal conflict, male vs. female college students, 4419 Threat Postures

body posture & size & sex of test animals, agonistic responses, spider crabs, 6383

display behavior, lizards, literature review, 3985

lesions of amygdaloid & corticomedial amygdaloid nuclei, freezing & avoidance of unconditioned & conditioned threat stimuli, male rats, 6228

threat by hornet, group defensive behavior of clustering & rocking & oscillating & vocalizing, Eastern honeybee, 546 pright posture, shock-elicited aggression, rats, 6394

Threshold Determination

generalized model, suprathreshold effects of excitation in nerve & muscle elements, 10530

intense sinusoidal vibration & time, vibratory sensation threshold determination, 8264

model linearly linking subjective scale to physical magnitude of stimuli, analysis of data from constant stimuli-certainty ratings method threshold studies, 141

moving spot duration & velocity, movement detection thresholds. 3554

neural pulses summation vs. energy summation, prediction of auditory masking function slopes, 146

objective automated technique, aversive threshold determination, application with shock & morphine vs. saline, rats, 10630

sensitivity determinants, visual discrimination thresholds for 1- & 2dimensional Markov spatial constraints, undergraduates over 2 yr. span, 1634

short-time muscle exertion vs. prolonged endurance, terminal thresholds for physical strength & endurance, college students, 76 signal detection & threshold measurement, reply to P. Issac's criticism of M. Treisman & T. Watts's method of analysis, 10371

signal detection vs. high vs. low threshold theory, multiple observation task performance, militiamen & undergraduates, 10316

temporal location within pulse, light pulse gap detectability, undergraduates, 1654

uncertainty zone measurement methods, threshold determinations,

Thresholds (See also Auditory Thresholds, Critical Flicker Fusion Threshold, Dark Adaptation, Olfactory Thresholds, Pain Thresholds, Sensory Adaptation, Vibrotactile Thresholds, Visual Thresholds)

anhedonia, electrical stimulation threshold & pulse & blood pressure & tremor at rest vs. during stress, male psychiatric hospital patients, 4893

avoidance acquisition, electrocorticogram & EKG & EMG arousal threshold with tone as stimulus, rats, 337

electric shock & duration & S's position relative to electrodes, detection & reaction & escape & debilitation thresholds, goldfish, 8761

mathematical model, electrotonic changes in nerve & muscle excitability with subthreshold stimuli, 10529

threshold variation with moving-bar stimulus, perceptual enhance-ment for image motion, psychology students, 1641

# Thrombophiebitis

Thromboses (See also Cerebral Thromboses, Coronary Thromboses) Thumb

simultaneous kymograph recording apparatus, index finger & thumb & wrist movements during writing, 10329

# Thumbsucking Thurstone Interest Schedule

Thyroid Disorders (See also Cretinism, Goiters, Hyperthyroidism, Hypothyroidism, Thyrotoxicosis) lithium, thyroid disorders, rats, 1908

#### Thyroid Extract Thyroid Gland

high & low iodine-releasing by genetic selection based on thyroid gland release, open-field behavior & water-maze learning & seizure susceptibility & endocrine & organ measures, mice, 264 prenatal exposure to extremely low frequency-low intensity rotating magnetic field, thyroid & testicle weight, rats, 1817

Thyroid Hormones (See also Thyroxine, Triiodothyronine)

thiouracil via transplacental & transmammary passage & pre- vs. postnatal exposure, closed-field maze performance, rats, 6243
Thyroid Stimulating Hormone (See Thyrotropin)

Thyroidectomy Thyrotoxicosis

Thyrotropic Hormone (See Thyrotropin)

Thyrotropin

gamma-hydroxybutyrate anesthesia & surgery & plasma thyroid-stimulating hormone & thyroxine levels, 18 51 yr. old patients, 2975

Thyroxine

gamma-hydroxybutyrate anesthesia & surgery & plasma thyroid-stimulating hormone & thyroxine levels, 18 51 yr. old patients,

thyroxine & estradiol benzoate, wheel running activity, female rats, 6324

Tic Doloureux (See Trigeminal Neuralgia)

Tics

Time (See also Interresponse Time) concurrent fixed-interval & ratio schedules, response & time matching to reinforcement, pigeons, 10753 consciousness sampling, current thoughts about past vs. present vs.

future, elderly, 8799

display size & number of targets, visual target search time, college students, 8300

interstimulus interval & refractoriness, same-different judgment of

visual stimuli pairs, 16 28 yr. old students, 10353 panel discussion, time & psychoanalysis, American Psychoanalytic Association meeting, 1971, 7505

Piagetian simultaneity & order of events tasks, time conservation, Afro- & Anglo-American 7 & 9 & 11 yr. olds, 2099

prenegotiation experience & cohesiveness & evaluation potential, conflict resolution time, college students, 11083

qualitative & quantitative characteristics of & changes in temporal experience in Western civilization, psychotherapeutic implica-

REM, philosophical concept of time & man's sanity, 2696 sociability & emotional adjustment, personal space preference in

morning vs. afternoon, college students, 6857 time attributed to expected life events, Indian vs. American 9th graders, 6726

time of day, EEG, military trainees, 3792 time press, verbal originality, 8 11 yr. olds, 6535

time stress vs. no time stress, information processing & peripheral vasoconstriction & heart rate, 8370

time, memory, 10446

Time (Interresponse) (See Interresponse Time)

Time Disorientation

time zone changes, sleep, 20-45 yr. old males, 8516

Time Estimation

auditory distraction, time estimation by verbal estimation method, graduate students, 3613

awakening during different sleep stages & phases & cycles, subjective judgments of preceding night sleep duration periods,

bar-pressing time discrimination, spectral analysis of response force variations as evidence of neuromuscular sensory feedback, rats,

dual flashes of 1 light & single flashes of paired light at 4 spatial distances, verbal estimation of time, college students, 5810

error-correction & error information & without error-correction, duration estimation accuracy in production & reproduction,

field dependence vs. independence, time estimation of auditory stimulus in differental prevailing fields, 127

high vs. low probability of reward occurrence, time estimation, internal vs. external gratification delay vs. nondelay undergradu-

intelligence & practice, time estimation, college students, 8323 interstimulus interval & time estimation, signaled & unsignaled shock aversiveness, college students, 8472

interstimulus interval, time estimation processes in classical conditioning, college students, 8475

movement velocity & movement time, preprogramming in simple movement, college students, 8331

photic frequency & pulse-to-cycle fraction & blood oxygen level, perceived duration, 3568

reaction time & digit-span & time estimation task variability, retardates vs. 1st vs. 3rd vs. 5th vs. college students, 10870

real vs. imputed distance, time judgments, Kappa phenomenon,

reinforcement of key releases whose latencies from light fell within payoff band, temporal contingency effects on key release RTs, monkeys, 544

sets to use time & velocity cues, space estimation, 1st vs. 4th graders vs. undergraduates, 627

sex differences, time estimation, college students, 10355

sex differences, AM vs. PM time estimation, college students, 10376 subjective life expectancy estimates & age differences, time perspective evaluation of past & future events localization, 17-55 yr. olds, 6560

time interval estimation, deaf vs. hearing high school students, 2761 time-estimation tasks, methodology & procedure, literature review,

visual/tactual-kinesthetic & auditory/tactual-kinesthetic modalities, estimation of short time durations, college students, 10343

16 PF scores & age & sex, time-estimation accuracy, 13 69 yr. old males & females, 3539

Time Perception (See also Time Estimation)

age & sex, time perception, 13 20 yr. olds, India, 8802

duration discrimination of acoustically defined intervals in 18 sec. range, 25 40 yr. old females, 5856

goal & stressful tasks & personality traits, time perception, college students & psychiatric patients & introverted vs. extroverted normal Ss, 5819

hope, achievement motivation & time perception, poverty children, 6519

intelligence & socioeconomic status, time perception, 14 16 yr. olds, 10913

panel discussion, time & psychoanalysis, American Psychoanalytic Association meeting, 1971, 7505

phenomenological study & schematic classification of objective & subjective time, patterns of shifting temporal experience & spontaneity, 2250

present personal time perspective as self-assessment at present vs. 5 yr. retrotension vs. 5 yr. protension, 20-88 yr. olds, 2085 signal detectability & luminance, temporal discrimination of 2-pulse

visual stimuli, 138 simple vs. stereotype temporal conditioning of pupillary dilation &

constriction, infants, 6467 subjective life expectancy estimates & age differences, time

perspective evaluation of past & future events localization, 17 55 yr. olds, 6560

temporal & spatial effects, time & space perception, 66 time perception & patterning, book, 1580

time perception, aphasic vs. brain damaged vs. normal persons, 11473

visual vs. auditory stimulus presentation mode & visual vs. auditory feedback, time-interval reproduction responses, 8263

Zen vs. cotention concentration methods, maintenance of concentration & feelings of well-being & time perception & respiration rate, college students, 3686

Timers (Apparatus) timing with portable, wireless clock-switch, increased classroom attending behavior, 1st grade students, 1386 Timidity

shyness, psychodynamic antecedents in cases of sexual inhibition & inadequacy, 4539

timidity, intelligence & achievement & self concept, 5th & 6th graders, 3192 Tinnitus

Tiredness (See Fatigue)
Tissues (Body) (See also Bone Marrow, Bones, Cartilage,
Connective Tissues, Membranes, Meninges, Myelin Sheath,
Membranes Meninges, Myelin Sheath, Nasal Mucosa, Nerve Tissues, Nictitating Membrane, Olfactory Mucosa, Skin (Anatomy))

thalidomide administration during gestation, fetus tissue & skeletal development, rabbits, 10640

thalidomide administration during gestation, fetus tissue & skeletal development, rats, 10642

**Title V Projects** 

artificial clasping, behavioral & EEG patterns, female toads, 6112 electrical stimulation of brain, autonomic & motor responses & respiration & blood pressure, toads, 1884

electrical stimulation of septum, arterial blood pressure & motor activity & pulmonary respiration & vocalization, toads, 1883

Mossbauer measurement technique, tympanic membrane & stapes footplate response, frogs & toads & spotted gecko & dragon lizard & dove, 10582

tactile point stimulation & seasonal change, wiping-activity, toads, 1989

Tobacco (Drug) (See Nicotine) Tobacco Smoking

aging & smoking, changes in clinical laboratory tests, healthy male veterans over 3 5 yr., 4102 attitudes & beliefs, changes in smoking behavior, 7th & 9th graders,

aversive vs. nonaversive quality & contiguous presentation of UCS, covert sensitization, college students, 9639 cigarette consumption, oculogyral illusion sensitivity & serial color

word test, 20 43 yr. old cigarette smokers, 864 cigarette smoking & drug use, college students, 4294 cigarette smoking, cognitive tasks, light & heavy smokers, 8614

cigarette smoking, stress response & RT to traffic light signals & heart rate & blood pressure & calf blood flow & respiration rate & 16 PF scores, 1835

concern for personal health, endorsement of beliefs about smoking activity, smokers vs. nonsmokers, 10950

emotionality, chronic smokers vs. nonsmokers, 6980

group psychotherapy, problem cigarette smoking, 9545

group vs. individual therapy & no pills vs. placebo vs. lobeline vs. dextroamphetamine vs. imipramine & good vs. poor risk, smoking control, heavy smokers, 2899

half-cigarettes, tobacco use, 22-55 yr. old cigarette smokers, 9609 intelligence & educational attainment & delinquency involvement & personality & social class & home environment & family relations, incidence & amount of smoking, delinquent boys committed for residential training, 11572 liabilities vs. assets experimental behavior chains training, smoking

rate, smokers, 9768

lobeline vs. placebo, reduction of cigarette smoking, 7423

marihuana & alcohol & cigarette use, medical students, 4314 marihuana & alcohol & tobacco use & attitudes, physicians, 7045

misleading vs. no information with placebo pill, attribution of smoking cessation symptoms, heavy smoking nurses, 6223

motivation & face validity of treatment presentation & daily record keeping vs. double satiation treatment method, modification of smoking behavior in treatment follow-up, 5177

negative practice applied contingently, smoking behavior, 7592 personality & socioeconomic factors, predicting cigarette consump-

tion levels, adults, 6914

personality factors associated with manifest distress & social isolation & perception of mother & previous failure to quit, prediction of success in smoking withdrawal program, male heavy smokers, 5065

prenatal exposure to cigarette smoke, offspring behavior, rats, 10597 psychodynamics, quitting smoking in groups, 7663 secondhand tobacco smoke, psychological & symptom reactions,

children, 7101

self-control procedures, smoking reduction, 11698 self-control program using behavior modification techniques, reducing smoking, 5047

self-determined vs. therapist-imposed smoking reduction goals, nonsmoking maintenance, smokers, 2786

small group dynamics, corrective groups conformity & social control & application to smoking cessation groups, 7418

smoking behavior, social characteristics, Normative Aging Study healthy male smokers vs. nonsmokers, 4205

smoking vs. nonsmoking, self-esteem, college students, 6995 sociodemographic & social psychological correlates & smoking behavior, drug use, female college students, 4349

sociodemographic & social psychological correlates & smoking behavior, drug use, female college students, 4276

stimulus satiation & presence vs. absence of future help expectations, smoking rate, 9782

stimulus satiation vs. minimal treatment vs. individual effort with vs. without expectation of future treatment, smoking, replication of J. Resnick's study, 5231

timing-of-punishment & overt vs. covert response mode, cigarette

smoking aversion therapy, 7477 tobacco & alcohol & marihuana & LSD & mescaline & barbiturate & amphetamine use, Bender-Gestalt Test performance, college students, 6647

Tobago Tocopherols

Toenails (See Nails (Anatomy))

Toes (Anatomy) (See Feet (Anatomy))

Tofranil (See Imipramine) Toilet Training

psychopathology & training procedure & urological pathology, nocturnal enuresis, enuretic children, 4615

**Token Economy Programs** 

behavior modification & drug therapy, token system, retarded women, 2947

choice of target behaviors, success of token economy rehabilitation program, correctional institution inmates, 7426

classroom token economy & intrinsic reinforcers & reinforcement contingency, assignment completion & quiet behavior & academic achievement, 5th & 6th graders, 5497

contingent point loss vs. gain, inappropriate classroom verbaliza-tions & quiet behavior, 5th & 6th graders, 5496

cooperative research between economics & applied behavioral analysis, behavioral economics, 5070

evaluative review, token economy programs & behavior generaliza-tion & maintenance procedures, 5078

fixed-ratio schedule to earn alcohol & token economy system, amount & temporal pattern of alcohol consumption, male chronic alcoholics, 2797

group fines, alcohol-related misbehavior in hospital token-economy ward, skid row alcoholics, 2938

individualized instruction & token economy, classroom behavior, 12 17 yr. old male junior high school student disruptors, 7949

instructions & verbal prompts & monetary reinforcement for reinforcing patients in token economy program, reinforcement dispensing rates, psychiatric aides, 9252

Kahn Test of Symbol Arrangement & nomological network, prediction of behaviors occurring in token economy program, emotionally disturbed teenagers, 7472

no tokens vs. contingent tokens vs. noncontingent tokens, accuracy & criterion performance on programmed handwriting materials, kindergartners, 3110

operant conditioning program, behavior change, hospitalized mentally ill adolescents, 7367

parental in-home token reinforcement, social & chore behaviors, 5 10 yr. olds with behavior problems, 11570

peer reprograming vs. equating conditions between experimental & regular classrooms & teacher training in behavior management techniques, generalization & maintenance of treatment effects in token economy systems, 3rd 6th grade problem students, 5572

peer- vs. teacher-administered programs & feedback & standard withdrawal vs. back-up reinforcer withdrawal but maintenance of feedback, token program effectiveness in reducing disruptive behavior, psychiatric hospital resident children, 9579

programed environment timeout & response cost magnitudes, antisocial behavior, 15-19 yr. old mildly retarded institutionalized boys, 4958

psychiatric nurse role & responsibilities, psychiatric token economy programs, 37 yr. old male schizophrenic, 11639

rapid delivery point system with automated recording in token economy system, 11526

reinforcement amount & frequency in token economy program, work rates, retarded adults, 11485

rewards vs. costs & teacher ratings vs. self-ratings in token economy program, disruptive behavior & reading skills, adolescents in psychiatric hospital school, 5077 token & praise reinforcement, aggressive & hyperactive behavior,

mongoloid 10 yr. old, 9729

token & social & unmanaged reinforcements, work & social behavior in occupational therapy, 16 45 yr. old male psychiatric inpatients, 9818

token economies, advantages for nurses & psychologists, 11706 token economy & nonpunitive discouragement of bad behavior, social & learning behavior, hyperaggressive boys & normal 2 4 yr. olds & nontalking ghetto & autistic children, 7833

token economy operant conditioning, character or behavior disorders, active duty U.S. Army personnel, 9724

token economy program, crying & no smiling, 20 yr. old institutionalized female, 1211

token economy programs in English & Scottish & Irish hospitals, psychiatric patients, 11792 token economy programs, hospitalized adult revehicles of the programs. ken economy programs, hospitalized adult psychiatric patients, literature review, 7391

token economy rating & Children's Minimal Social Behavior Scale, social competence, male adult psychiatric inpatients on tokeneconomy treatment ward, 9795

token economy system, therapeutic milieu & communication & tolerance level & social skills, psychiatric patients in security wards, 3079

token economy, disruptive behavior, retarded children selected as behavior problems in nursery school, 3092

token economy, drinking behavior control, hospitalized male

alcoholics, 2937 token economy, social awareness & care for others & grooming & hygiene & inappropriate behaviors & physical complaints &

medication use, 17-70 yr. old female psychiatric patients, 4961 token reinforcement & feedback, delusional verbal behavior, chronic paranoid hospitalized schizophrenics, 5272

token reinforcement on rapid-turnover ward, male veteran psychiatric patients, 5054

token spending patterns, 22-48 yr. old female schizophrenic inpatients, 5190

trading stamps token reinforcement & on ward training program, time & quality of interaction, attendants of severely retarded children, 9231

training procedures & duties, utilization as behavioral technicians in token economy program for chronically mentally ill inpatients, college students, 9250

Token Reinforcement (See Secondary Reinforcement)

## Tolbutamide

#### Tolerance

diazepam & chlordiazepoxide & nitrazepam & oxazepam, motor coordination & orienting reaction disturbances peculiar to tolerance development, mice & rats, 10616

frustration tolerance, word recognition achievement, entering 1st graders, 7731

group elasticity & social closure, 9090

high vs. low intolerance of ambiguity, recall of completed & interrupted tasks, college students, 3744

noise & intolerance of ambiguity, attraction for similar & dissimilar others, 4390

open vs. closed adaptation to aversive maternal control, tolerance for ambiguity, late adolescent males, implications for developmental model of paranoid behavior, 4137

psychodrama & group counseling vs. films & audiovisual & group discussion vs. probation &/or parole supervision, frustration tolerance & aggression, noninstitutionalized offenders, 7483

Tolerance (Drug) (See Drug Tolerance)
Tolerance For Ambiguity
ambiguity & failure, self-esteem, depressed vs. nondepressed Ss,
7144

# Tomkins Horn Picture Arrange Tests Tone (Frequency) (See Pitch (Frequency))

Tongue (See also Taste Buds)

asymmetry on right & left sides of lips & tongue tip & tongue dorsum, oral 2-point discrimination thresholds, college students, 3593

breast-feeding vs. bottle-feeding, tongue thrusting & dental occlusion & lip posture during repose & maxillary arch width, 1st 8th grade males vs. females, 2191

lateral-view cinefluorographic analyses of selected lingual conso-

nants, articulatory velocity & patterns, 11162 listening to tapes of story vs. philosophical treatise, EMG recordings of tongue biopotentials, 4th form pupils & undergraduates, 267 oral vibrotactile sensitivity thresholds, 18 36 yr. olds, 5904

sodium chloride stimulation of chordatympani nerve, whole nerve recording, rats, 3786

Top Level Managers

occupational level, perceived importance of job factors for job satisfaction, first-line vs. middle managers vs. professional employees, 10182

superiors' vs. unit members' evaluations of business behavior, manin-the-middle hypothesis, executives in hierarchical organization, 8069

Topography

aesthetic judgments vs. personal preferences & previously judged illustrations & scenic resources sampling, landscape appraisal,

# Torticollis

long-term psychoanalytically-oriented psychotherapy, spasmodic torticollis, 35 yr. old man, 1155

lorazepam, sleep stages & latency & phasic integrated potentials, 17 24 yr. olds, 3890

mepiprazol, bodily functions & symptoms & anxiety & irritability & tension & brooding & insomnia & tiredness & activity reduction, chronic schizophrenic inpatients in extended neuroleptic drug therapy, 1140

oxazepam, conflict behavior & avoidance learning deterioration, male rats, 3962

paraldehyde & barbiturates & phenothiazine & butyrophenone & antihistamines & benzodiazepine, alcohol withdrawal treatment & complications, 9613

phenelzine, withdrawal symptoms associated with oxazepam dependence, 29 yr. old male, 1145

scopolamine & scopolamine methyl nitrate & amphetamine & lorazepam & chlorpromazine, conditioning of food aversions, rats, 3858

Transactional Analysis

Gestalt vs. Transactional Analysis treatment, anxiety & self esteem & personal adjustment & risk taking & creativity & authoritarianism. 2870

psychoanalysis & transactional analysis & ego psychology & crisis intervention & social casework & systems theory, females with hysterical personality, 11720

cerebrospinal-fluid activity of glutamic oxaloacetic transaminase & lactic dehydrogenase & aldolase, 22 62 yr. old hospitalized chronic schizophrenic paranoid & hebephrenic & catatonic & hebephrenic-catatonic females, 955

Transcultural Psychiatry

cultural plurality & biculturality & bilingualism, psychotherapeutic processes, Mexican Americans, 9733

thematic analysis & contribution to transcultural psychiatry, Indian film Devi, 4284

transcultural language disability characteristics, 1st 3rd grade dyslexic Chinese children simultaneously learning to read & write in English & Chinese, 5456

transcultural psychiatry & ethnic influences, children's mental disturbances & stress tolerance & harm reactions & endogenous psychoses, 1067

transcultural psychiatry, book, 991

values & ego functioning in primitive cultures, atypical culture-specific reactive psychoses, 1076

automated transducers, recording work behavior in sheltered workshops, mentally retarded, 11484

Transfer (Learning) (See also Negative Transfer, Positive Transfer) advance organizer & film instruction & inductive vs. deductive methods, original learning on concept acquisition task & learning transfer to simulated classroom situation & perceived concept utility in teaching, college students in education course, 7717

amylobarbitone sodium & placebo combinations, learning transfer,

bilateral anterior & posterior hippocampal lesions, spatial & visual discrimination & stimulus acquisition & reversal shifts & transfer,

categorization training, nonverbal grouping & category name & function & individual name & function learning & transfer, retarded adults, 7591

category size & intact vs. random subjective units, free recall to

paired-associate transfer, 10392

category size & preservation vs. disruption of free recall subjective organization & imagery & control group selection & nouns vs. adjectives, free-recall to paired-associate transfer, college students, 10390

centralism & peripheralism, bilateral transfer, 225

cue selection & mediation of color vs. verbal stimuli, pairedassociate & transfer task performance, 3rd vs. 5th vs. 7th graders, 2156

differential visual feedback & transfer to RT task, acceleration & deceleration of heart rate, 292

experimental instructions, acquisition & transfer & extinction in differential electrodermal response conditioning, 10556 fading vs. nonfading, stimulus control transfer & behavioral

contrast, 10722

fixed- and variable-interval schedule control, response transfer, rats, 8715

individual vs. pairs & constant vs. varied training & ability level, fraction multiplication transfer performance, 5th graders, 11830

initial training level & changes in training, transfer from specific to nonspecific environment, factor analysis & probability forecasting of athletic abilities, 1757

instructions & list length & reversal transfer task, verbal discrimination vs. 2-category classification task, 8466

interhemispheric transfer, pattern discrimination acquired during unilateral cortical spreading depression, rats, 8596

IQ & presentation mode, negative transfer in paired-associate learning, normal & retarded 11-13 yr. olds, 4749

large vs. small & intermediate vs. small rewards on alternate trials & exteroceptive cues & transfer, pattern running, rats, 6451

learning & transfer, multicue judgment processes, 10513

learning by problem solving vs. insight vs. memorization, learning time & retention & transfer. 6025

mediator priming & inhibition, discrimination transfer & free recall, kindergartners & 3rd graders, 8813

mental &/or physical practice, learning & retention & bilateral transfer of motor skill, female college students, 5837

model observation & rule provision & stimulus sequence, learning & transfer & retention of dial reading numerical concept, 3rd grade students, 2210

pair category sameness & prior free recall stimuli, paired associate learning, 3642

part-task training difficulty level & whole-task similarity, acquisition & transfer of space sextant sighting skill, Air Force Academy cadets, 12174

part-whole list transfer, free recall, college students, replication of E. Tulving's work, 8400

pictorial & verbal stimuli, verbal discrimination learning & transfer, 3741

population density & early experience, emotionality & perceptual learning transfer, rats, 6396

positive vision-touch transfer of form in paired associate paradigm, adults, 3661

prior discrimination training on 1 dimension, generalization gradient steepness on extramodal dimension, pigeons, 553

problem formats vs. process characteristics, transfer effects in verbal & nonverbal problem solving tasks, vocational high school juniors, 5480

programed instruction in auditory vowel discrimination, learning rate & transfer to word recognition, severely hearing impaired 5 11 yr. olds, 11886

recall of transfer paradigm in verbal discrimination, retroactive inhibition, college students, 8483

relevant & stimulus dimensional responses & nondimensional & conceptual discrimination, consecutive intradimensional & extradimensional & control shifts, 50 61 mo. olds, 6614

relevant vs. irrelevant pretraining, crossmodal transfer between vision & touch on foreign letter learning task, 9 vs. 11 yr. old Negro vs. Caucasian males vs. females, 3752

rewarding verbal vs. aversive feedback during training of perceptual skill, efficiency & transfer of learning & performance under stress, Air Force Academy students, 10164

RNA & protein & both brain extracts injections from trained donors, active-passive dark avoidance, rats, 3979

RNA-fraction extract from trained Ss intracranial injections &

extract concentration, avoidance learning, goldfish, 6225 RNA-protein brain extracts from trained vs. control Ss injected intracranially & injection-testing interval, avoidance behavior,

goldfish, 6231 salience of odd cue during original training, color oddity problem training & transfer to form problems, 3 5 yr. olds, 4127

stimulus similarity & 2-stimulus differential training, stimulus generalization & learning transfer, 10462

T groups & laboratory training, learning & transfer & anxiety, 4401 task relationships instructions, free recall to verbal discrimination

learning transfer, undergraduates, 3663 theoretical & methodological issues, age changes in transfer of

training & forgetting, aged, 6506
variable stimulus encoding, paired associate transfer, college students, support for E. Martin's theory, 10469
variable stimulus-response mapping & stimulus meaningfulness,

single letter cue selection, 8359

verbal vs. visual dimension highlighting, discrimination & transfer learning, preschoolers vs. 2nd graders, 4260

whole brain homogenates from trained Ss injected intraperitoneally, light-dark discrimination, rat, 6325

Transferases (See also Transaminases)

Transference (Psychotherapeutic) (See Psychotherapeutic Transference)

Transformational Generative Gramm

formalization & theory, linguistics, 11153

generative syntax framework, 11183

models of generative & transformational grammar & structural

linguistics, TAT protocol analysis, 10249
psycholinguistics & mathematics, notation & formalization of relations between linguistic elements & examples of transformations, 11151

semantic conception of syntactic relations within transformational grammar framework & lexical meaning structure, semantic structural meaning, 2423

semantic fields, use in organization of lexicon in transformational grammar, 9130

sentence structure variations of transformational-generative grammar, comprehension of visual speech & implications for curriculum planning in hearing rehabilitation, college students,

transformational grammars, 11142

Transformers (Apparatus)
Transfusion (Blood) (See Blood Transfusion)

Transistors (Apparatus)
instructions through transmitter broadcasting to receiver placed in ear, training in psychotherapeutic techniques, beginning psychotherapists, 2521

monopolar & differential potentials recording & elimination of movement artifacts & high to low impedance transformation without distortion, dual field-effect transistor circuit, 6184

Translocation (Chromosome)

Transplants (Organ) (See Organ Transplantation)
Transportation (See also Air Transportation, Ground Transportation, Public Transportation, Water Transportation)

transportation for aged, 10953

Transportation Accidents (See also Air Traffic Accidents, Highway Hypnosis Accidents, Motor Traffic Accidents)

Transposition (Cognition)

acquisition order of transitivity vs. conservation vs. class inclusion of length & weight, Canadian kindergartners & 1st & 2nd graders & American 2nd graders, 10813

overtraining & test condition, transposition, kindergartners, 4238 relational vs. absolute response reinforcement & verbal mediators, intermediate size transposition task performance, 1st graders,

reproduction & transposition of iconic figure matrices, severely subnormal 17 52 yr. olds, 9402

transposition & expressiveness, theatrical talent index, student actors, 11173

transposition behavior along size continuum & verbalization, 4 & 5 yr. olds, 4125

issexualism

adrogens & progestogens, frigidity & impotence & nymphomania & satyriasis & homosexuality & lesbianism & transvestism & transsexualism, 9614

group psychotherapy techniques, transsexualism, case report, 7453 imputation of intolerance toward feminized transsexuals, males vs. females vs. transsexuals, 4741

transsexualism vs. transvestism, development & clinical characteristics & etiology, 4871

transsexuality, 2 case reports & suggested guidelines for therapy,

# Transvestism

adrogens & progestogens, frigidity & impotence & nymphomania & satyriasis & homosexuality & lesbianism & transvestism & transsexualism, 9614

transsexualism vs. transvestism, development & clinical characteristics & etiology, 4871

## Tranylcypromine

tranylcypromine vs. lithium carbonate, bipolar characteristic depression, previously intractable depressed patients, 7488

Trauma (Emotional) (See Emotional Trauma)

Trauma (Physical) (See Injuries) **Traumatic Amputations** 

# Traumatic Neurosis

head injuries & premorbid history, posttraumatic psychical disorders, 4803

Traumatic Psychosis (See Reactive Psychosis)

## **Treatment Effectiveness Evaluation**

art therapy, improvement in mental functioning, psychotic patients,

blind dosage comparisons, methadone program effectiveness, 9610 client motivation, rehabilitation counseling outcome, physical & learning disabled & emotionally & mentally disturbed clients,

clinician personality factors, judged clinician effectiveness, speech clinicians, 7023

Community Treatment Project vs. traditional programs, suspensions & recidivism & discharge favoribility & psychological tests & postdischarge arrest, delinquent adolescents, 11710

CPI predictors, clinical effectiveness in suicide & crisis intervention service, volunteer workers, 11275

criteria for research data collection, results of nonsomatic treatment, schizophrenics, 1196

delinquency & dependent family studies, casework effectiveness, case reports, 9616

demographic & sociological & clinical characteristics, amitriptyline treatment program success & dropout rate, depressed females,

demographic factors, drug abuse treatment program type & success,

diagnostic & therapeutic shopping behavior as learned response to unsatisfactory contacts with professionals, parents of retardates,

discrete discriminant analysis technique, vocational rehabilitation outcome prediction & comparison, alcoholic clients, 9688

early intervention, outcome differences, children with behavior disorders, 7405

evaluative research model, counseling outcome research, application to vocational counseling program, 5624

experts' initial outcome hypothesis, differential use of retarded client characteristics to predict rehabilitation outcome, 5011

methadone maintenance vs. withdrawal, effectiveness as narcotic addiction treatment method, 5031

once-weekly individual psychotherapy with maximum 6 mo. period, follow-ups of 20 cases, 9779

open ended interview given on 1-shot basis, residential treatment community's self-reflections, staff & oldest children in treatment, 11542

parole prediction model, determining relative effectiveness of treatment approaches, 11403

patient characteristics, deterioration on open milieu treatment ward,

prolonged methadone maintenance vs. narcotic-free rehabilitation,

program evaluation of patient selection & environmental setting & treatment procedures & program activities, 9756
psychiatric rehabilitation procedures & aftercare clinics, hospital recidivism & posthospital employment, psychiatric patients, 9511
psychiatry's role, work & unemployment, 4949

psychopathologic indications, treatment effectiveness, male narcotic addicts, 1231

Q-sort technique, method to study impact of counseling, 4990

research design for evaluation, psychosocial treatment of schizophrenia, 5143

semantic differential ratings of work & education & dependency concepts, predicting vocational rehabilitation outcomes, physically disabled Ss, 7664

short-term psychiatric hospitalization for medical-psychiatric assessment, postdischarge outcome, senile dementia patients,

treatment goals & life goals, techniques & indications for psychoanalysis termination, 5236

treatment goals, psychiatry, 4951

treatment-oriented institution, immate & staff perceptions of treatment impact, aggressive juvenile delinquents, 11594

video- vs. audio-recording of counseling interviews vs. nonrecording, counselor vs. client ratings on excitation & inhibition & client evaluation of counseling vs. counselor ratings of self-exploration, college students, extension of C. J. Gelso's previous findings, 1240

Treatment Facilities (See also Child Guidance Clinics, Clinics,

Community Mental Health Centers, Halfway Houses, Hospitals, Nursing Homes, Psychiatric Clinics, Psychiatric Hospitals, Sanatoriums, Walk In Clinics)

inpatient vs. outpatient facilities, need to develop inpatient services & facilities, 5144

mental health services for children, 7340

mobile health unit, neighborhood psychiatry, adolescents & young adults in deprived urban area, 5119

psychiatric considerations, intensive care units, 5180

therapeutic orientation of mental health facility & staff occupational discipline & demographic variables, ideological differences, mental health personnel, 903

Treatment Methods (Physical) (See Physical Treatment Methods) Treatment/

acute alcohol withdrawal syndromes, social & medical & psychiatric & treatment variables, 11390

acute treatment recommendations, heroin & mixed addiction & overdose, 9601

anticonvulsive vs. antiepileptic treatment, alleged ambivalent personality, epileptic patients, 11663

causation & treatment, obsessionality, 9812

clinical psychology, multidisciplinary approach to speech & hearing disorders treatment, 9533

Committee for Study & Care of Severely Retarded, organization of services for specialized care & information & research & teaching activities, 7529

directory of educational & training & treatment facilities for exceptional children, book, 5283

epilepsy treatment, need for psychotherapy in conjunction with chemical & surgical therapy, 11523

etiological theories held by public using community attitude survey & content analysis of popular middle-class magazines, relationship to advocated treatment or control, alcoholism, 7542

experimental regression design, nonrandom treatment allocation feasibility, 9784

feelings of hope & discomfort, motivation & capacity to follow recommendations for treatment, potential psychiatric patients, 11714

Gilles de la Tourette's syndrome, clinical characteristics & management, 4916

historical survey, research & management of mental retardation, U.S.A., 11587

incidence & treatment, venereal disease, armed forces personnel from 1778 to present, 9612

interdisciplinary approach to & insurance of adequate treatment, mentally ill, book, 11696

intermittent reinforcement schedule, enuresis conditioning treatment, 6 14 yr. olds, 9506

mistakes in treating patients with physical & psychosomatic ailments, 11568

Platonic models of mind & madness & treatment of madness, 8189 rehabilitation & preventive care vs. biomedical research as government spending priorities, treatment of mentally retarded, 7351

school phobia, diagnosis & emotional genesis & management, 9696 social psychological variables & treatment methods, drug rehabilitation success, drug addicts, 2949

- structured treatment approach, hospitalized socially deprived adolescents, 5203
- symptoms & early diagnosis & coordinated team approach for treatment, minimal cerebral dysfunction, children, 2570
- therapeutic nursing intervention, disturbed language & thought processes, 19 yr. old hospitalized Negro male schizophrenic,
- therapist & parental roles, successful treatment, learning-disabled children, 10116
- treatment approach, aphasia, 2823
- treatment techniques, obesity, literature review, 7380
- verbal control & physical restraint & medication offer, restraint of violent patients, 5100
- verbal-tonal system, hearing deficiency rehabilitation, 1111
- 2-way closed-circuit television, medical treatment & psychiatric education, 7065

### Tremor

- amantadine & L-dopa, rigidity & tremor, parkinsonian syndrome patients, 7372
- anhedonia, electrical stimulation threshold & pulse & blood pressure & tremor at rest vs. during stress, male psychiatric hospital patients, 4893
- apparatus for recording & measuring head twitches, analyzing druginduced responses, freely moving mice, 10780
- Trial And Error Learning developmental history & social parameters of ladder invention & use, feral-born chimpanzees in captivity, 527
- sex & postresponse knowledge of results vs. observation of performer's responses & social vs. isolate conditions, multiplechoice learning, college students, 3716

### Tribes

- aboriginal settlements, survey of institutional communities in eastern Australia, book, 4317
- acculturation, field dependence, college students & urban & rural Xhosa groups & white college students, 2298
- African Bantu traditional & modern medicine, 943
- attitudes & social conditions, European-Aboriginal relations, Australia, book, 4356
- developmental differences, point locating in 2-dimensional space, 11
- 20 yr. old Zulu youth with 0 7 yr. education, 2162 distance & contact greetings, ethology of human greeting behavior,
- Waika Indians, 2235 etiological concepts & treatment methods & traditional attitudes & practices in medicine, East African tribes, 1077
- pictorial depth perception, Zulu 14 16 yr. olds, comment on W. Hudson's test, 6739
- population density, effective relationships, Logoli & Gusii & Kipsigis societies, East Africa, 4326
- structure & growth, Australian aboriginal population, book, 10978
- traditional & modern educational & culture-transmission processes, Sisala of northern Ghana, book, 689
- treatment of possessed, physical & social reintegration, Cap-Vert & Diander Lebous, Senegal, 8963

## Trifluoperazine

- chlorpromazine vs. stelazine vs. diazepam vs. chlordiazepoxide, EEG & dendritic & transcallosal responses, tracheotomized & scalped & craniotomized & artificial breathing rabbits & cats,
- pimozide vs. trifluoperazine vs. placebo, psychiatric symptoms & behavior & scales & extrapyramidal symptoms rating scale, chronic schizophrenics, 1207
- tricyclic antidepressants & enactyzine & levomepromazine & chlorprothixene, blocking aggressive-defensive reactions, cats,
- trifluoperazine administration at 5-10 vs. 11-16 vs. 17-22 vs. 23-28 days old, avoidance conditioning at 75 days old, infant rats, 1872

## Triflupromazine

- Trigeminal Nerve
- Trigeminal Neuralgia Tribexyphenidyl
- trihexyphenidyl, schedule-induced alcohol drinking, reactive vs. nonreactive rat strains, 6282

## Triiodothyronine

triiodothyronine subacute administration, acute toxicity of lithium, rats, 1942

societal structural imbalance & male vs. female goals, sexual relationships, Anamatian peasants of East Trinidad, 2240

# Triota (Computer Screening Battery)

- **Triplets** Trisomy (See also Trisomy 18, Trisomy 21)
- chromosomal aberrations affecting autosomes, intelligence level, 9412

# Trisomy 18

Trisomy 21
Trochlear Nerve (See Cranial Nerves)

- causes, running away from residential center, adolescent girls, 7536
- family environment & teacher attitudes, truants, 5569 number of foster home placements & experiential hardships & time of year, male vs. female & runaways vs. nonrunaways in
- residential treatment center, 7481 self concept, school attendance, truant vs. nontruant students, 10011
- Trust (Social Behavior) acceptance & reciprocation of self-disclosure, development of trust,
- college student & trained confederate dyads, 2340
- attractiveness, judging criminal behavior in terms of favorability of impression & similarity & identification & trust, college students, examination of D. Landy & E. Aronson study, 2373
- communication presence vs. absence, cooperation & competition in Prisoner's Dilemma game, high vs. medium vs. low trust Ss in dyads, 2337
- conformity & information & confidence, willingness to take risk following group discussion, college students, 11119
- cooperative vs. exploitative perception of opponent & constituent trust vs. distrust & contingent vs. noncontingent fee, bargaining behavior, negotiators, 758
- Eric Erikson's theory, basic trust development, 3 yr. olds, 10921
- female sex-role stereotypy, trust measured by cooperation & competition, female college students, 4392
- hostility vs. trust & honesty attitude toward family, suggestions for 1st yr. psychiatric resident approach reform, 2524
- internal-external control & authoritarianism, interpersonal trust & self-esteem & social desirability, concern about overpopulation & intention to limit family size, nursing & college students, 6676
- locus of control & interpersonal trust, academic achievement, college students, 7894
- locus of control & trust in experimenter, gratification delay, high school students, 4504
- modified Prisoner's Dilemma game, situational vs. personality variables of interpersonal trust, 9113
- observation of sensitivity training groups via videotape with individual disclosure vs. neutral vs. concealment attitudes &/or trust exercises, willingness to self-disclose, college students, 2354
- parental interference & development of trust & acceptance, romantic love, 4399
- perceived motivation & role variations & stimulus person's perceived trustworthiness, attribution of personal characteristics, college students, 6836
- physical proximity & self-disclosure & immediacy & maternal vs. paternal influences, rational vs. emotional trust, male undergraduates, 9059
- political activity scope & intensity & press for political behavior & trust importance level & direction, police agencies, 8061
- presentation of potential disclosure target as high vs. equal in status & intrusive vs. reflective in interpersonal style, interpersonal trust & self-disclosure, high vs. low self-esteem Ss, 6803
- racial differences, perceived interviewer trustworthiness, black vs. white penitentiary inmates, 7279
- research instrument reliability & validity & utility, trust & openness,
- sensitivity training & varying group composition according to interpersonal trust, positive interpersonal behavior roleplaying ability & awareness of others' perceptions & willingness to discuss intimate material, Naval hospital corpsmen, 9075
- sex & internal vs. external motivation & motivation intensity & positive vs. negative outcome, attribution of responsibility, college students, 9089
- T-group sessions, attitude change & dogmatism & trust, college students, 5475
- trust & motives & degree of willingness, psychology experiment participants vs. nonparticipants, 8956
- trust development in program evaluation, guidelines for administra-tors & psychologists, 4455
- type of influence technique & prior probability of success & success vs. failure of getting preferred outcomes, political trust orientation, 6837

# Tryptamine

tryptamine, cross-tolerance, chronic spinal LSD-tolerant dogs, 10652

Tryptophan

incubation with plasma from schizophrenics vs. controls, uptake of tryptophan by neural tissue, rat brain slices, 8689

intravenous infusion of L-tryptophan dopamine & 5 hydroxyindoles metabolism in brain & cerebrospinal fluid, male beagle dogs, 426 intravenous infusion of L-tryptophan, tryptophan & tyrosine

distribution in plasma ultrafiltrate & whole plasma & erythrocytes & cerebrospinal fluid & brain regions, dogs, 425

L-dopa vs. D,L-5-hydroxy tryptophan, behavioral & cardiovascular effects during consciousness, dogs, 3879

1-tryptophan & MAO inhibitor & psychotropic drug with antiserotonin & adrenalytic effects, aphrodisiac effect, female schizophrenics, 9578

LSD, neutralization with lysergic acid rabbit gamma globulin vs. tryptophan rabbit gamma globulin, mice, 6329 p-nitromethylamphetamine, brain noradrenaline & dopamine & 4,a-

dimethyl-m-tyramine & 5 hydroxytryptamine & tyrosine & g-

amino-n-butyric acid & tryptophan, rats, 412
parachlorophenylalanine & 5-hydroxytryptophan & L-tryptophan & a-methyl-5-hydroxytryptophan & MAO inhibitors & a-methylparatyrosine & a-methyl-phenylalanine & L-dopa, REM sleep & soporific effect in insomniacs & slow wave sleep, medical &

psychiatric patients & normals, 5282 serum from schizophrenic patients, cellular lactate stimulation & tryptophan uptake, chickens, 8660

tryptophan metabolites, head twitches & body temperature & salivation & diarrhea, mice & rats, 3925

**Tubal Ligation** 

Tuberculosis (See also Pulmonary Tuberculosis)

Tubocurarine

d-tubocurarine & interactions with g-aminobutyric acid & bicuculline & picrotoxin, cerebral cortex & shock-produced inhibition, cats , 8629

Tumors (See Neoplasms)

**Tunnel Vision** 

Turkey

psychiatric liaisons with psychiatric treatment centers & professionsl meetings, Czechoslovakia & Bulgaria & Turkey & Greece & Yugoslavia, 1970, 4571

stereotyped attitudes during war toward Indians & Indonesians & Iranians & Pakistanis & Saudi Arabians & Turks, Pakistani university students, 4300

**Turners Syndrome** 

EEG recordings, Turner's syndrome patients, 2715

Turner's syndrome with epilepsy & mental deficiency & behavioral disorders, 13-yr-old boy, case report, 939

Turnover (See Employee Turnover)

Turtles

cerebellum lesions, delayed reaction & classical conditioning, turtles, 8674

open field behavior & straight alley running speed & feeding & social-sexual behaviors, ornate box turtles & wood turtles, 6382 turtle behavior & ecology & physiology, bibliography, 6145 Tutoring (See also Peer Tutoring)

crisis intervention & remedial skills tutoring & motivational groups, dropout rate reduction, nursing students, 9241

group counseling & coaching, academic achievement & attitude, adult evening students, 5447

parental tutoring, reading disabilities, 2nd graders, 5511 required tutoring, attitude toward black children, white education students, 5498

urinalysis, role in heroin treatment programs, 9573

urinary excretion of cyclic adenosine monophosphate, bipolar manic-depressive & manic & schizophrenic episode patients, 933 urine analysis, detection of metabolic oligophrenias, retarded children, 935

Urinary Analysis (See Urinalysis)

Urinary Function Disorders (See also Urinary Incontinence)

anorexia nervosa, urinary excretion disorder, male adolescents, case report, 11337

psychopathology & training procedure & urological pathology, nocturnal enuresis, enuretic children, 4615

self-hypnosis, symptomatic hypnotherapy of recalcitrant bladder, case report, 7672

Urinary Incontinence

chlorimipramine vs. dolibrax, primary enuresis, children, 7652 conditioning procedures, functional enuresis, children, 4 yr. followup study, 4984

conditioning treatment, enuresis, critique of Turner & Young & Rochman method, 7545

definition & control & treatment, enuresis, literature review, 9765 instrumental diagnosis using polygraphic & cystometric recordings during nocturnal spontaneous sleep & pharmacologically induced sleep, Ss with nocturnal enuresis, 9328

intermittent reinforcement schedule, enuresis conditioning treat-

ment, 6 14 yr. olds, 9506

neuromuscular mechanism delayed maturation vs. anxiety & stress, primary nocturnal enuresis, young children, 4772 operant conditioning, control of nocturnal enuresis, 7 yr. old girl, 3010

psychological characteristics & parent-child relationship, enuresis,

parents & patients, 4757

psychopathology & training procedure & urological pathology, nocturnal enuresis, enuretic children, 4615

Urinary Tract (See also Bladder, Kidneys, Ureter, Urethra)

Urination

daily urinary elimination of phenethylamine, normals vs. Ss with endogenous depression vs. mania vs. schizophrenics, 9338 data collection during sleep & wakefulness, excessive frequency of

micturition, 24 yr. old male, 4910

EEG & EKG during attack, vasodepressor reaction in upright position & heart rate & peripheral vascular resistance, 37 yr. old pilot with micturition syncope, 2610

exposure to odor of stressed conspecific communicator urinating or defecating, alarm pheromone phenomenon, mice, 8758

high cockpit temperatures, heart rate & deep body & skin temperature & urine output & sweat loss & performance in instrument flight task simulator, instrument rated pilots, 3403

odors from stressed vs. nonstressed conspecifics vs. clean runways, open-field responses, rats, 2049

Urine

amphetamine in large doses, monoamine metabolites in urine & cerebrospinal fluid & behavior, physically healthy nonschizophrenic male amphetamine abusers, 2566

biotransformation of oxazepam, open-ring metabolites & aromatic hydroxylation in urine, man & miniature swine & rats, 461

L-dopa, urinary excretion of L-dopa & dopamine & homovanillic acid & vanilmandelic acid & cerebrospinal fluid & basal ganglia concentrations, Parkinson's disease patients, 2903

lithium carbonate, sodium & potassium & calcium & magnesium ion concentrations in urine & serum, male rats, 351

sleep deprivation, urine volume & creatinine levels, young adult males, 1824

total sleep deprivation & urine volume, circadian rhythm of 17hydroxycorticosteroid & vanillymandelic acid excretion, healthy males, 1821

urophile with fetishistic & masochistic traits, 28 yr. old male, 4834

Urogenital Disorders (See also Amenorrhea, Dysmenorrhea, Endocrine Sexual Disorders, Genital Disorders, Gynecological Disorders, Hermaphroditism, Hypogonadism, Infertility, Klinefelters Syndrome, Male Genital Disorders, Menstrual Disorders, Premenstrual Tension, Pseudocyesis, Stein Leventhal Syndrome, Sterility, Testicular Feminization Syndrome, Turners Syndrome, Urinary Function Disorders, Urinary Incontinence)

Urogenital System (See also Bladder, Cervix, Clitoris, Female Genitalia, Gonads, Kidneys, Male Genitalia, Ovaries, Penis, Prostate, Testes, Ureter, Urethra, Urinary Tract, Uterus, Vagina)

Uterus (See also Cervix)

dyspareunia caused by endometriosis, changes in sexual behavior, women, 4733

Vacation Benefits (See Employee Leave Benefits)

Vacationing

vacation holiday atmosphere, psychiatric illness, vacationing foreigners, 9430

visits & vacations, therapeutic value, institutionalized retarded children, 11535

Vaccination (See Immunization)

Vagina ..

succession of vaginal & behavioral changes in continuous cycling, sexual behavior, rats, 2002

faulty psychosexual development & hypno-desensitization treatment, vaginismus, 9632

impotence & premature ejaculation & lack of female response, symptoms & etiology & diagnosis & treatment, 5049

real & imagined causes, psychogenic vaginismus, 4667

Vagotomy

circadian rhythm & food access delay & bilateral subdiaphragmatic vagotomy & bilateral adrenal medullectomy, deoxy-D-glucose & methyl-D-glucose induced feeding response, rats, 1841

Vagus Nerve

Validity (Statistical) (See Statistical Validity)

Validity (Test) (See Test Validity)

Vallum (See Diazepam)

Values (See also Ethnic Values, Personal Values, Social Values) activization of student participation, moral instruction process, 3304 adherence to Protestant Ethic, attitudes toward poverty & social

services, rural community adults, 2310

aesthetic & social & theoretical values, 1st yr. vs. graduating business school vs. graduating technical school business students vs. lower & middle level managers, 8115

affective feeling for film character, evaluation of antisocial act by

character, adolescents, 6818

aging & sex & personal background & characteristics, self-image & involvement & self-evaluation & freedom & values, 45 70 yr. olds,

attitudes & values future, college students of present vs. 20 yr. ago,

bodily awareness & social life & valuing as relevant experiential continuities, self-concept assessment, 2517

child rearing, developing moral structure, book, 8821

free time & required verbalization & attention during stimulus presentation, imitative learning, 3rd graders, 10854 gradual vs. sudden reinforcement delay imposition, vocal response

persistence, retarded children, 9304

group therapy, talking & body complaints, psychiatric patients, 7494 high & low subvocalization effort ratings for CVCs, serial learning of CVCs composed of high & low meaningfulness values, college students, 6004

home training program with monitoring & reinforcement, automating articulatory responses, children, 10500

hostile vs. helpful verbalization & verbal reinforcement, motor aggression, college students, 793

humanistic vs. custodial orientation, verbal behavior, secondary school teachers, 3293

imitation & verbal command teaching methods, verbal behavior modification, 3 yr. old hearing impaired girl, 4940

immediate vs. nonimmediate alternatives presented independently & together & in direct contrast in linguistic communication, affect attributed to communicator, college students & graduate students & trainee psychiatric social workers, 2421

incongruent verbal vs. nonverbal emotional cue response, stress detection, 8480

instructions vs. modeling, descriptive & affective verbal behavior &

speech duration, male undergraduates, 3687 intelligence labels, linguistic behavior in adult-child interactions, special vs. regular class teachers, 11931

interspeaker influence, vocal intensity, interpersonal verbal communication, 11201

interview conditions & intelligence & personality variables, consistent aspects of speech behavior, legally blind adults at trainee screening session, 3445

judgments of mentally retarded children's oral communications, mothers vs. teachers vs. speech therapists, 7084

language as facilitating factor, ability to achieve conservation of number, 1st graders, 8845

language characteristics while engaged in problem tasks, disadvantaged vs. nondisadvantaged children, 8811

language usage intricacy judgments, socialized vs. egocentric speech in classroom, 4 yr. old boys, 4228

latency of verbal response, group discussion participation, male high school students, 816

leaderless group using modeling videotape, increased self-referent verbal behavior, graduate counseling students, 3299

left vs. right hemisphere cerebral lesions damage, naming process & reading, normals & right- & left-hemisphere-damaged patients,

linguistic structure, RT to tone discrimination during speech vs. listening, adults, 3627

linguistics vs. verbal behavior, limitations of term language," general discussion, 6897

manual methods vs. spoken English in describing referents & game rules, quality & accuracy of peer-to-peer communication skills, deaf vs. hearing 8 & 11 yr. olds, 4727

methylphenidate HCl vs. ethyl alcohol, complex judgment & mood & verbal production, college students, 3906

modeling & model-O similarity on social activism measure, imitation & generalization of aggressive verbal behavior, 9031

music therapy, functional speech, severely mentally retarded males,

observation & questionnaire, time spent talking & reading & writing on job, professional & technical & administrative & clerical personnel in communications laboratory, 3411

operant conditioning procedures, language training & behavior, autistic children, 3037

overt nonsocial speech & task complexity & strategy, problemsolving ability, 4 yr. olds, 4263

oxygen under high pressure, communication function, poststroke aphasic patients, 11752

parental verbal communication abnormalities & IQ, schizophrenic vs. neurotic patients, 2641

participation in leisure activities, intraspousal verbal communica-

tion channels, married couples, 721 pervasive vs. differential social factors, language development & acquisition, 6473

photographing perceptions & discussing them, self concept modification, kindergartners & 4th graders, 7839

picture & spoken message with white noise vs. spoken message only with white noise vs. telephone connected to tape recorder with white noise, sentence completion in informal talk, 3 6 yr. olds, 6558

pictures, subject-verb vs. noun phrase vs. subject-verb-object utterance initiation delay, 8421

positive verbal reinforcement in normal conversation, opinion & information statement frequency, psychiatric patients, 7596 printer's justification & punctuation, written & oral sentence

segmentation perception, 1st graders, 11156 process & content, verbal communication during problem solving,

6-8 yr. olds, 2077 proficiency in English language & auditory vs. visual presentation of

E, behavior ratings, Japanese vs. American Os, 6873 pronounced vs. unpronounced words, recognition memory, 1707

psycholinguistic antecedent events, spontaneous verbal imitation, 22 24 vs. 28 30 vs. 34 36 mo. olds, 6532

qualitative analysis of verbal communication concerning feelings of loneliness & personality test data analysis, operational definition of loneliness, 4498

ratio scale measurement, subjective intensities corresponding to verbal expressions, 6896

read vs. verbalized self-directed commands, maze performance, hyperactive boys, 5153

receptive & expressive functions, assessing language development, children, application to remedial programing, 6516

recitation & facilitation vs. debilitation personality types, retention,

reliability, syntactic complexity ratings of single utterances, undergraduates, 4470

roles & context & person vs. object meaning, language development & verbal communication, 6464

self-directed verbal commands, arithmetic performance & activity level, urban elementary school age hyperactive children, 5331

self-report inventory vs. situational test, prediction of individual verbal behavior in counseling group interaction, college students, 11067

semantic vs. syntactic & absolute vs. probabilistic & proximate vs. distant dimensions, linguistic constraints vs. inattention to constraints, schizophrenics, 9289

sentence production, 10-19 yr. old normals vs. Parkinsonians vs. patients with left vs. right hemisphere brain lesions vs. patients with dementia, 7171

sentence structure variations of transformational-generative grammar, comprehension of visual speech & implications for curriculum planning in hearing rehabilitation, college students,

sex & race & socioeconomic status, conversation participation & verbal interaction & encoding style in problem solving communication, adult vs. children dyads, 6809

social backgrounds, verbal skills & language development, 6490 social factors, language development and verbal behavior, primary shoool children & their mothers, 6580

speaker sex & utterance type, speaker sex identification, 3rd graders, 6554

speech & musical recordings of uniform SPL with superimposed artificial reverberations varying in period & SPL, subjective scales of rumble, audio technicians, 5636

speech cues vs. silence & mother vs. inanimate object, peekaboo

game response & smiling, 4 mo. old boy, 6507 speech reeducation, IQ, children with marked discrepancy between verbal & performance IQs, 7710

superficial- vs. self-disclosure demand, pathological verbalization & delusional & autistic responses, paranoid vs. nonparanoid schizophrenics vs. nonpsychotic psychiatric patients, 4861

supralaryngeal pharayngeal region structure, speech encoding & phonetic ability, newborn Homo sapiens & chimpanzees vs. Neanderthal man vs. adult Homo sapiens, 310

syntactic simplification, language & verbal behavior, young children, 6463

synthetic model of language production analysis with 5 speech production phases & 4 speech production aspects, 836

systematic observation training, verbal behavior, high school students, 3203

talents for auditory processing & imitation & planning & producing finely controlled motor sequences & phonological system & grammatical rule abstraction & symbolization & discourse, language acquisition, children, 2173

target- vs. victim-oriented appeals for help & legitimacy of appeal, compliance, 4425

teacher expectations, academic achievement in subject matter skills & class adjustment & written & verbal self-expression, 6 12 yr. old educable retardates, 1364

teacher verbal behavior, teacher & student thinking sophistication, 2nd grade teachers & students, 12004

teachers' personality, verbal behavior & teaching technique & instructional content, art teachers, 12108

televised verbal &/or behavioral conforming vs. deviant vs. no peer model, resistance to deviation, 1st & 2nd graders, 11139 token reinforcement & feedback, delusional verbal behavior,

chronic paranoid hospitalized schizophrenics, 5272

token reinforcement & loss of reinforcement, bizarre verbalizations, chronic schizophrenics, 11737

traditional emphasis on rhetoric vs. extensive use of mass media to promote images, new directions in campaign communication research, 8988

training task of timed correct sound production of words while reading at increased rates of speech, conversational speech in home & school & simulated home environments, 8-11 yr. olds, 11536

transposition behavior along size continuum & verbalization, 4 & 5 yr. olds, 4125

verb vs. conjunction verbalization & side by side vs. interactive line drawings vs. interactive photographs, paired-associate recall & recognition, kindergartners & 3rd graders, 2126

verbal & motor behavior, characteristics of leader behavior in leaderless group discussion, 4380

verbal attitude & voice tone, behavior toward blacks, white northern liberal male college students, 4456

verbal behavior, use in assessment of cognitive abilities, children,

verbal code properties, verbal communication, 6899

verbal communication with student canvassers vs. written communication, attitude change & petition signing, 8955

- verbal intervention, locus of control ideology & cognitive dissonance & militant attitudes, black studies vs. social studies high school classes, 5359
- verbal output quantity & sophistication, production of gross bodily activity & fine manipulative movements, 4 & 5 yr. old children,
- verbal processes, short-term memory, mentally retarded, 7097
- verbal vs. nonverbal components relative contribution to empathic communication in counseling, experienced counselor judges, 2532 verbal vs. nonverbal processing, visual stimuli, 10356
- verbal vs. sign language, story communication & verbal thinking,
- deaf-mute vs. normal hearing 3rd 8th graders, 4735 verbal vs. visual dimension highlighting, discrimination & transfer learning, preschoolers vs. 2nd graders, 4260
- verbal vs. vocal vs. visual communication with videotapes & audiotapes & transcripts, amount & kind of information conveyed & difficulty with different sources & information processing from multiple modes, graduate student Os, 6890
- verbalization & reinforcement, concept-solution efficiency, introverted vs. extroverted 11 & 12 yr. olds, 8424
- verbalization of model's behavior, vicarious learning of abstract vs. conceptual rule & generalization & retention, 5th graders, 4262
- verbalizing hypotheses &/vs. making category responses, concept acquisition, college students, 3757
- visual similarity & verbal describability & presentation, forcedchoice picture recognition, undergraduates, 1663
- vocabulary usage & unique language" development, psychotherapy group, 5621
- vocal labels, short-term memory for pictures, younger vs. older hearing vs. deaf children, 7107
- vocalization activity, acoustic similarity & semantic effects at short & long retention interval, 1773
- Verbal Conditioning (See Verbal Learning) Verbal Fluency

- audience size, nonfluency, college male stutterers vs. pseudo-stutterers vs. nonstutterers, 2749
- disfluency rates & patterns, high- vs. low-disfluent kindergarten to 6th grade stutterers vs. nonstutterers, 7335
- individual differences, disfluent behavior during massed oral reading, 18 & 20 yr. old stutterers, 7289
- knowledge of contingency & response-contingent neutral stimuli,
- normal speech disfluency, college students, 11766 Lowenfeld Mosaic & Incomplete Man & Copy Forms & Unusual Uses Tests, constructional ability & body parts understanding & ability to copy geometric forms & verbal ideational fluency, Chinese vs. Italian vs. Negro vs. Puerto Rican disadvantaged 4 yr.
- old Head Start students, 2263 measuring intelligence test potential vs. potential intelligence, experimental & standard WAIS scores vs. GPAs & verbal
- productivity, college students, 2479 mothers' speech & disfluency rate & vocabulary diversity, language development, language-learning vs. older children, 8794
- positive vs. negative internal vs. nonverbal external feedback, speech disfluency, tense vs. nontense male college student public speakers, 826
- random vs. response-contingent verbal aversive stimulus, verbal disfluency frequency in reading passage, normal-speaking adults, 8380
- school membership & sex & father characteristics & language, abstraction ability & level & preferred level, 6th graders of non-Western culture, 8800
- sex & race & age differences, verbal fluency & flexibility & creativity, sighted vs. blind residential vs. day school 6 12 yr. olds,
- teacher ignoring & praise, teacher-directed vs. child-directed talk & child-directed social behavior & use of girls' toys & appropriate
- vs. disruptive class behavior, 7 yr. old retarded boy, 1356 verbal flexibility & originality & fluency, rural vs. middle- vs. lower-
- income urban vs. lower-income vs. impoverished Indians, 11268 verbal fluency & personality variables, interpretation of utility on continuum of objectivity-subjectivity, college students, 9127
- verbal output quantity & sophistication, production of gross bodily activity & fine manipulative movements, 4 & 5 yr. old children,
- verbal productivity, transcendence on TAT, male undergraduates, 6984
- Verbal Learning (See also Nonsense Syllable Learning, Paired Associate Learning, Serial Anticipation (Learning), Serial

- acoustic & grammatical features, speech, 2418
- articulated & acoustic stimuli similarity, short-term recall of verbal items, 6018
- attitude set, generalization of verbally conditioned self-acceptance responses, 2453
- auditory vs. visual word presentation & serial position, immediate & delayed recall, 10461
- background color, percentage of correct or incorrect responses in verbal discrimination learning performance, college students,
- comprehension of task to be accomplished & confrontation with simple unambiguous verbal model of subject & unhampered progress, passive sentence acquisition, French-speaking 4 5 yr. olds, 10886
- computer model, learning semantics of language in which syntax is known, 7980
- conceptual & acoustic similarity & age, free verbal recall, elementary school students, 8829
- constrained & cued recall training, verbal memory performance, 2nd & 4th & 6th graders, 2181
- correct vs. incorrect vs. correct & incorrect item presentation, verbal discrimination learning, college students, 8441
- deleted vs. identified orienting cues, learning of prose passage, undergraduates, 3706
- demand-characteristics phenomena, verbal operant conditioning,
- developmental differences & word frequency, selection strategies in verbal discrimination learning, 4th grade to college level students,
- discrimination learning of pictures vs. words, 4th graders & college students, 4207
- dyadic groups composed of dissimilar vs. similar A-B pairs, similarity & complementarity in verbal conditioning, college students, 1750
- E's baseline behavior, operant conditioning of opinion statements, undergraduates, 10433
- ego functioning & family subculture, learning word meanings, stuttering & nonstuttering primary school boys, 11511
- exceptions in bigrams free-recall, verbal reconstructive memory, Army enlisted men & student nurses & clerical workers, 10507
- favor & dependency of reinforcing agent, verbal operant conditioning, college students, 8405
- goal-setting behavior, verbal learning, average & low intelligence pupils, 11875
- group discussion, generalization of verbal operant conditioning, 752 Hidden Figures Test & GPA, creativity affected by checklist procedure & verbal pretraining, undergraduates, 234
- high vs. low comparison-level feedback, classroom-related verbal learning, college students, 1766
- individual differences, verbal learning paradigms, theoretical model for experimental procedures & hypotheses, 10479
- information vs. cooperation vs. information-cooperation preexperimental instructions, awareness in verbal conditioning, college students, 3755
- instructions & list length & reversal transfer task, verbal discrimination vs. 2-category classification task, 8466
- instructions & verbal models & verbal conditioning, modification of verbal behavior, 6021
- instructions & word imagery & situational frequency, verbal discrimination learning, undergraduates, 3736
- instructions regarding future testing date, verbal & motor memory, college students, 10381
- intervening items between study & test presentations of intralist pairs, verbal discrimination learning under imagery vs. repetition instructions, undergraduates, 1758
- intrapair similarity & incorrect alternatives number & feedback, single & double functioning verbal discrimination acquisition & retention, 5925
- meaningfulness, verbal learning, children, 1730

Benson's study, 10397

- method of encoding verbal information on films, verbal comprehension, hearing impaired high school students, 12046
- model-reinforcement counseling, choice of college major & vocational decision making, male college students, 3340
- multiple-choice measurement method, retroactive inhibition in A-B,A-D paradigm, reply to C. T. Merryman, 1751 ordinal position vs. specific nature of word, serial verbal learning, college students, replication of R. Young & J. Patterson & W.

phonetic pretraining with sound in initial vs. final position vs. no pretraining, pronunciation of foreign sound & positive positional transference, college students, 5987

pictorial & verbal stimuli, verbal discrimination learning & transfer,

preinformation vs. no preinformation about reinforcement contingencies & high- vs. low-esteemed Es in verbal conditioning situation, critical responses to E & application of Tedeschi's social influence theory, 768

presentation modes & recall & interitem interval, connected

discourse learning rate, college students, 6000

prose vs. oral connected discourse, retention, literature review, 8369 reaction time, information-processing in verbal learning, college students, 8408

recall & learning context similarity & differential rehearsal & intertrial interval & activity during trial, short-term memory, college students, 3679

recall of transfer paradigm in verbal discrimination, retroactive inhibition, college students, 8483

reflection & race of S & E, verbal conditioning of affective self-disclosure, black vs. white male high school students, 9058

related & unrelated words in varied arrangements, recall & clustering mechanisms, 3743 repairing & number of alternatives & meaningfulness, verbal

discrimination learning, college students, 6075 retroactive inhibition, forgetting of meaningfully-learned sentences,

rote verbal learning, variation in serial position curve as index of relative difficulty, kindergartners & 1st & 3rd & 5th graders, 2067 schooling amount, paired-associate & verbal-discrimination learning & retention & associative & acoustic memory encoding & word associations, average 10.4 yr. old Colombian children, 2120

sentence contexts, facilitation of noun pair learning, 5th graders,

serial verbal learning, book, 8471

state-space automata theory, application to verbal memory, 6002 stimulus enrichment, verbal abstraction & verbal learning, cultural-familial & organic mentally retarded 13 34 yr. olds, 5037

syntax & vocabulary rules, statement repetition, 6.11 vs. 7.11 vs. 8.10 vs. 9.11 yr. olds, 10889

syntax recognition approaches, 2403

tachistoscopic presentation of nonverbal & verbal stimuli, copying & oral reading performance, disabled vs. normal readers, 11502 Tagalog vs. English recognition thresholds, perceptual defense,

bilingual 10-12 yr. old Filipino 5th graders, 11193

task relationships instructions, free recall to verbal discrimination learning transfer, undergraduates, 3663

Thorndike-Lorge vs. Kucera-Francis count, frequency shifts of Kent-Rosanoff words, 1502

verbal & material reward & punishment, verbal conditioning,

primary & secondary psychopaths, 11418
verbal & motor reeducation & psychotherapy, child guidance center
program, childhood neurosis & prepsychotic syndrome patients,
7556

verbal conditionability, delinquents vs. nondelinquents, 11349

verbal intelligence & teacher's ratings of school achievement, internalizing & generalizing syntactic rules, 5-6 yr. olds in Dublin vs. Boston, 10481

verbal learning & verbal conditioning, acute vs. chronic & simple vs. paranoid schizophrenics vs. psychotics vs. normals, 995

verbal learning experiences, verbal & numerical & perceptual & spatial abilities, 7th & 9th & 11th graders, 9961

verbal mediation, learning, 16 18 yr. old mental retardates, 7734 verbal pretraining, multidimensional generalization behavior, kindergartners, 2189

verbal reinforcement combinations & feedback, responses to blank trials in 2-choice verbal discrimination & choice-repetition, children, 2207

verbal vs. pictorial stimuli, encoding & recall, college students, 1784 vicarious reinforcement & model's behavior, imitation & verbal learning, college students, 8411

violating phrase-structure rules & selectional restrictions, transitional error probability patterns in sentence learning tasks, undergraduates, 1782

word list organization & use of retrieval rule, immediate & delayed recall of graphemic bases, kindergartners, 7816

word meaning, role in verbal learning & recall, 3700

Verbal Meaning

conception of images vs. verbal descriptions of objects, 10 12 yr. olds, review of L. Vygodsky's & J. Piaget's theories, 8796

content & intonation, perceptions of meaning of verbal evaluation statements, kindergartners & 2nd & 4th & 6th & 8th & 10th & 12th graders & college sophomores, 4233

syntactical transformations, conservation of meaning task, urban black & white high school students with dialectal differences,

Verbal Reinforcement (See also Praise)

content & intonation, perceptions of meaning of verbal evaluation statements, kindergartners & 2nd & 4th & 6th & 8th & 10th & 12th graders & college sophomores, 4233

continuous vs. intermittent & verbal vs. tangible reinforcement, acquisition of motor performance, young trainable mental

retardates, 11769

E & S race & sex, verbal nonreinforcement & reinforcement responsiveness, 60 72 mo. olds, 5939

hostile vs. helpful verbalization & verbal reinforcement, motor aggression, college students, 793

hypnosis & relaxation & verbal reinforcement, hypnotic compliance, 11561

low vs. high availability of social stimulus in verbal conditioning paradigm with black reinforcing agent, efficacy of stimulus as social reinforcer, black vs. white college students, 4270

maternal verbal reinforcement play behavior modification, 3 yr. old,

noncontingent monetary rewards vs. contingent verbal reinforcement, intrinsic work motivation, 8056

observed verbal reward & model's response patterns, observational learning, preschoolers & kindergartners & 1st graders, 6499

phonics vs. sight recognition method & verbal reinforcers, initial reading acquisition, kindergartners, 7910

positive verbal reinforcement in normal conversation, opinion & information statement frequency, psychiatric patients, 7596 positive vs. aversive vs. no verbal reinforcement, operant

conditioning of reported auditory & visual hallucinations, female college students, 245

preinformation vs. no preinformation about reinforcement contingencies & high- vs. low-esteemed Es in verbal conditioning situation, critical responses to E & application of Tedeschi's social influence theory, 768

quantity vs. quality response reinforcement & verbal vs. monetary reinforcers & reinforcement before vs. after contingency shift, changes in job performance, college students, 10119

reinforced aggression, reaction to aggression related stimuli, male college students, 11218

reinforcement style of counseling, information-seeking behavior, adolescents, 7735

repetition in modified right-wrong paradigm, recall, 5989 reproof & negative feedback & task complexity, motor performance, 5 yr. olds, 5871

soliloquy & task difficulty & age, problem solving, 5 10 yr. olds, 6462

therapeutic instruction & praise, systematic desensitization of snake avoidance behavior, college students, 11661

verbal feedback & monetary incentives, dependency-independency & extroversion-introversion scores, educable mentally retarded adolescents, 7609

verbal feedback of test results, learning, college students, 12119 verbal motivation, level of aspiration, disadvantaged 9 12 yr. old

Negro boys, 5549 verbal operant conditioning awareness, learning, college students,

verbal reinforcement combinations & feedback, responses to blank

trials in 2-choice verbal discrimination & choice-repetition, children, 2207

verbal reinforcement during induction & test-suggestion phases, responsiveness to hypnotic suggestions & subjective ratings of experience vividness, college students, 10400

verbal reinforcement, balanciometer performance, college students, 3596

verbal reinforcement, physical education attitude, junior high school boys, 5520

verbal reward level, multitrial vs. delayed free recall, 2nd & 5th graders, 8425

verbal vs. verbal & physical positive reinforcement, mathematics achievement & attitude toward mathematics, 3rd grade inner-city students, 12060

verbal- vs. no-approval test administration modes, WISC performance, lower- vs. middle-class 3rd graders, 7811

attention & awareness in continuous verbal test, heart rate, therapists & college students, 8565

sex & age & intelligence, logical sequence memory span test performance & relationship to reading readiness test performance, kindergarten 2nd kindergarten to 2nd students, 11884

verbal & performance IQ differences, Wechsler Bellevue & WAIS, 8479

verbal vs. spatial task, lateral specialization EEG recordings, righthanded adults, 8523

Verbalization (See Verbal Communication)

Verbs

interaction of verb transitivity & trigram position & trials, recall, 1667

middle vs. lower class, comprehension of passive voice & deep vs. surface sentence structure, 5-6 yr. olds, 588

operant conditioning procedure, verb emission as measure of learning grammatical form class, 2nd graders, 1733

plural atmospheres, verbs used to complete sentences, college students, 6901

sentence mnemonics & connecting verb grammatical restrictiveness, paired-associate learning, high school students, 5964

Verification (Of Theories) (See Theory verification)

Vertebrates (See also Amphibia, Baboons, Bass (Fish), Bats, Beavers, Birds, Blackbirds, Budgerigars, Canaries, Carp, Cats, Cattle, Chickens, Chimpanzees, Chinchillas, Cichlids, Crocodilians, Deer, Dogs, Dolphins, Doves, Ducks, Electric Fishes, Elephants, Fishes, Foxes, Frogs, Geese, Gerbils, Goats, Goldfish, Gorillas, Guinea Pigs, Hamsters, Horses, Kangaroos, Lemurs, Lizards, Mammals, Marsupials, Mice, Minks, Monkeys, Norway Rats, Opossums, Penguins, Pigeons, Pigs, Porpoises, Primates (Nonhuman), Quails, Rabbits, Rats, Reptiles, Robins, Rodents, Salamanders, Salmon, Sea Gulls, Seals (Animal), Sheep, Snakes, Squirrels, Sticklebacks, Toads, Turtles, Wolves)

aggressiveness & feelings of giddiness & anxiety & muscular tension, 30 yr. old woman in analysis, 7608

model dizziness clinic, diagnosis of illness, patients with complaint of dizziness, 959

Vessels (Blood) (See Blood Vessels)

Vessels (Lymph) (See Lymph Vessels)

Vestibular Apparatus
asymmetrically & symmetrically presented continuous & intermittent 1000 Hz tones, equilibrium, 5844

increased angular acceleration, vestibular adaptation, 21-31 yr. old males, 8312

vestibular stimulation, REM sleep, 15 28 yr. olds, 8569

visual vs. vestibular vs. proprioceptive impulses, upright position measured by posturometry, human adults, 89 Veterans (Military) (See Military Veterans)

Veterinary Medicine animal cliches, students in veterinary medicine/animal sciences or husbandry, 6666

Vibration

intense sinusoidal vibration & time, vibratory sensation threshold determination, 8264

low-frequency whole-body vibration, body weight & open-field activity & body damage, rats, 6445

muscular microvibrations as indicators of psychic processes, review of testing methods & measuring apparatus, preliminary tests with school-age identical & maternal twins, 3828

vertical sinusoidal vibration, arithmetic problem solving performance with immediate memory tasks, jet pilots, 8085 vertical sinusoidal vibration, body orientation toward prescribed

target, 1603

vibration vs. touch vs. noise emitted by vibrator vs. food as reinforcement & operant button-pressing, 8-12 yr. old trainable institutionalized retardates, 4826

vibratory & light-flash stimulation, habituation & dishabituation of evoked responses, garter snakes, 6088 Vibrators (Apparatus) Vibrotactile Thresholds

detection thresholds for sudden atmospheric pressure changes, 5913 intense sinusoidal vibration & time, vibratory sensation threshold

determination, 8264 mathematical vibration analyzer model construction, vibration sensitivity of human skin, 10571

oral vibrotactile sensitivity thresholds, 18-36 yr. olds, 5904

Videotape Instruction

aptitude & videotape vs. programmed instruction methods interaction, training methods for large groups, teacher trainees,

behavior therapy & videotape feedback, teaching nonverbal components of assertive training, case report, 10498

discussion & videotapes of models & role playing, supervisor training to overcome defense mechanisms & conflicting attitudes, 1458

exposure to audiotape or videotape production demonstrating expression specificity, expression concreteness, 1st yr. education student counselees, 8020

method of encoding verbal information on films, verbal comprehension, hearing impaired high school students, 12046

observation vs. no observation of videotaped adept model & own performance, swimming skill acquisition, mildly emotionally disturbed 3-6 yr. olds, 12024

programed text vs. video presentation as counselor training methods, depressive cues discrimination, undergraduates, 7027

programed textbooks vs. videotape instruction, learning & information retention, adults, 12047

videotape playback process, language skills & intelligence & self concept & classroom behavior, educable mentally retarded children, 12110

videotape, education, deaf-blind children, 9916

Videotape Recorders

research instrument, total automation of standardized videotape interview & data collation, 1121

Videotapes

adding visual information to previously recorded video-tapes, workable system, 3466

assertive training using videotape-mediated models & directed

practice, psychotherapy patients, 9735 closed vs. open environment & videotaped feedback, form & accuracy & latency of classical fencing lunge, right-handed female college students, 5825

counselor training program in Gestalt self-awareness exercises, counseling effectiveness, college students, 11316 delay following videotape self-confrontation & supportive compan-

ion's presence during self-confrontation & sex, self concept, college students, 11260

human & videotape observation, working efficiency on paper & pencil task, 10 12 yr. old normal vs. special education students, 3197

immediate video feedback & facial message, facilitating psychotherapy, 17 55 yr. olds, 11738

interview with vs. without brief videotape self-confrontation, affect & self-description & self-evaluation of performance, high vs. low self-satisfaction college students, 6959

leaderless group using modeling videotape, increased self-referent verbal behavior, graduate counseling students, 3299

mother-child interaction session videotape replay with supervisor vs. with no supervisor vs. supervision after modeling performance vs. supervision alone, modification of maternal responsiveness to psychotic child, 7653

nose-poke apparatus & videotaping & free-operant testing methods, determination of competition & dominance hierarchies, rats, 542

observation of sensitivity training groups via videotape with individual disclosure vs. neutral vs. concealment attitudes &/or trust exercises, willingness to self-disclose, college students, 2354 physiological feedback in videotaped-feedback simulation film,

education & treatment & research in human interaction, 1095 post-intake interview videotape designed to raise client expectancies,

client expectations, counseling service clients, 11647 role playing with videotape, social imitation therapy, emotional neurosis, 9571

self-confrontation via videotape, self-concept & classroom behavior assessment, student teachers, report of data from previous study, 11836

self-help learning methods & videotapes, learning verbal selfdisclosing behavior, 11846

simulated social skill training with videotapings & group discussion, group problem solving, elementary school students & counselors, 11852

standard videotape induction technique, hypnosis, 10516

verbal vs. vocal vs. visual communication with videotapes & audiotapes & transcripts, amount & kind of information conveyed & difficulty with different sources & information processing from multiple modes, graduate student Os, 6890

video- vs. audio-recording of counseling interviews vs. nonrecording, counselor vs. client ratings on excitation & inhibition & client evaluation of counseling vs. counselor ratings of self-exploration, college students, extension of C. J. Gelso's previous findings, 1240 video-taped TV sequences of black & white children in leadership

roles, concept attainment & social preference, kindergartners in integrated black-&-white & all-white classrooms, 1277

videotape documentation project, educational & informational & training programs on infant development, 8846

videotape equipment & physiological measures, counselor training & supervision, college students, 3283

videotape feedback, setting criterion rates of teacher praise, elementary school teachers in behavior analysis follow through classrooms, 12067

videotape focused feedback, facilitative genuineness in cross-racial counseling, black & white male & female school counselors, 10106 videotape recording of interviews, brief joint marital therapy, case report, 3028

videotape self-confrontration, ego & thought processes & Rorschach Prognostic Rating Scale scores, male schizophrenics, 2793

videotaped family interaction in unstructured stressful situation & child disturbance type, families with disturbed vs. normal child,

videotaped microcounseling experiences, counselor training, coun-seling & guidance students, 9243

videotaped scenes, systematic desensitization therapy, test anxiety, 11540

videotaped stimuli of racial & sex pairings in hostile vs. neutral vs. affectionate situations, galvanic skin responses, counselors, 10551 videotapes of same- vs. different-race stimulus persons involved in

problem-solving task, attribution of motivation, Caucasian vs. Negro male college students, 2316

videotaping of S & immediate playback, rehabilitation, stroke patients with perceptual difficulties, case study, 4963

viewing viedotaped interview of themselves with psychiatric patient, self-rated changes in self-concept, student psychotherapists, 7042 Vigilance

arousal value in auditory vigilance task, EEG, college students, 8521 cross-modality comparisons of averaged evoked potentials to visual & auditory & electrical stimulation, vigilance changes & stimulus intensity, cats, 8644

cumulative expectancy, alertness & skin resistance, college students, 8520

EEG & eye movements & tonus & respiration & EKG & electrodermogram, afternoon sleep in normal vs. sensory deprivation environments, 20 26 yr. olds, 8560

EEG alpha & beta activity, automatization & vigilance & arithmetic performance, university students, 6096

extroversion & field dependence & task complexity, vigilance & nystagmus habituation, 6962

extroversion & neuroticism & sex & time of day & tonic & phasic electrodermal activity & tonic occipital EEG, auditory vigilance task performance, college & graduate students, 5835 fatigue, vigilance & RT with vs. without circadian rhythm

alterations, railway workers, 1398

GSR & EEG & EKG & EMG, vigilance & learning & sleeping & wakefulness & introversion & extroversion, literature review, 6095

Hoe 264 & heptobarbital, sleep & polygraphic measures of vigilance & attention & EEG & arm muscle contraction & RT & pneumogram & EKG & galvanic skin resistance & blood pressure, young adults, 3881

noise & response complexity, visual vigilance performance, college students, 10300

problem of sustained attention, vigilance, book, 5900

quiet vs. noise conditions during auditory vigilance, autonomic reactivity, extroverts vs. introverts, 8287

self-checking in correct signal detection, vigilance, 19-25 yr. old male undergraduates, 5860

signal presentation methods, signal detection during vigilance, literature review, 3550

silence vs. broadband noise vs. continuous vs. random music background stimulation & sex, visual vigilance, undergraduates, 5824

simple RT & vigilance tasks, association cortex potentials & auditory stimuli, 8555

vigilance & emotionality, posture variations, 5 & 7 & 9 & 11 yr. old normal & amblyoptic girls, 969

vigilance, anxiety aroused by noxious event uncertainty, 849

24-hour sleep deprivation, decrement rate in auditory reaction time, college students, 8306

Vineland Social Maturity Scale

sex & urban vs. rural social level, reliability of Polish adaptation of Vineland Social Maturity Scale, 2 30 mo. olds, 8824

affective parent-child interrelationships involving love vs. hate, social psychopathology & primary causes of violence, 1052

American economic system & priorities, propensity toward violence,

attitudes & justification of violence, American men, book, 8894

attitudes toward violence for social control & social change, social indicators, American males, 6699

change in family & childrearing attitudes, intrafamily violence & mental illness, 4716

evaluation of violence & dangerous behavior in mental illness, 7158 highway accidents as expression of wider social violence, book, 5694 Kennedy assassination & Speck & Whitman mass murders, violent vs. nonviolent crime incidence according to FBI data for cities,

mass media violence, nonimitative aggression, 6819 model for predicting attitudes, violence for social change, 16 64 yr. old Negro & Caucasian males, implications for law enforcement officials, 9010

observation of violent vs. family-life television program content, aggressive behavior, boys of lower vs. middle socioeconomic status, 2431

previous anger vs. nonanger conditions & film displays of unsuccessful retaliation, inhibition of aggression, undergraduates,

repeated exposure to televised violence, attitudes toward violence, youthful offenders, 9408

riots, mathematical simulation, 10964

roots of violence in society, interview with W. Menninger, 6654 social change & mental disorder & violence increase, proliferation of regressive therapies & marathon groups, 5229

television violence preference during formative yrs., aggressive behavior, adolescents, 10 yr. followup study, 9034 verbal control & physical restraint & medication offer, restraint of

violent patients, 5100
verbally violent vs. exciting nonviolent films, aggression via electric

shock against person previously producing anger, male college students, 223

violent toys, aggression, 5.5 6.4 yr. olds, 8841

Viral Disorders (See also Common Colds, Encephalitis, Herpes Simplex, Influenza, Measles, Poliomyelitis, Rubella, Viral Meningitis)

Phlebotomus fever self-limiting viral infection, behavioral effects assessed by synthetic work technique, 942

Viral Meningitis Virgin Islands

Elizabeth I of England, biographical sketch & virginity, 8166

Vision (See also Autokinetic Illusion, Binocular Vision, Brightness Perception, Color Perception, Critical Flicker Fusion Threshold, Dark Adaptation, Monocular Vision, Stereoscopic Vision, Visual Discrimination, Visual Field, Visual Perception, Visual Thresholds)

automatic interval-amplitude-analysis with eyes open vs. closed & homogeneous vs. structured central field of vision & rest vs. graphomotor activity, EEG evaluation, 20-47 yr. olds, 3797

chronic focal brain missile wounds, visual localization impairment patterns, males, 11468

computer technology for elucidation of algorithms, treatment of information in human visual system, 12168

constancy of threshold quantity & energy of continuous signal, principles for optimal reception of information in human visual ystem, 10325

EEG, optic neuritis, 5 12 yr. olds, 8507

eyedness, relationship to handedness & visual acuity, 10314

individual differences, patterns of eye fixation during size-estima-tion task, normal adults, 10298

inefficiency in total brain activity, visual agnosias, case records, 11333

marihuana, peripheral light detection as function of information processing demands in vision, 10657

marihuana, visual autokinetic phenomenon, 22 38 yr. olds, 10681 optic afferent system development, chick embryos, 8562

pupilometry using advanced-design oculometer, 8289

sensory alterations, shock-induced fighting & mouse killing, blinded vs. devibrissaed vs. bulbectomized rats, 1846

sidedness & eye dominance, handwriting & emotional stability, children, 2198

spatial frequency & visual acuity, spatial contrast sensitivity, patients with cerebral lesions, 9293

visual sensation & perception, 10301

visual skill development & visual disorders of accommodation & convergence & stereopsis, academic achievement, children, 10935 Vision Disturbances (Hysterical) (See Hysterical Vision Disturbances)

Visions (Mysticism) (See Mysticism)

Visitation (Hospital) (See Institution Visitation) Visitation (Institution) (See Institution Visitation)

Visitation (Psychiatric Hospital) (See Institution Visitation)

Visiting Homemakers

Vista Volunteers (See Volunteers In Service To America)

Visual Cortex

absolute vs. relative motion, visual receptive fields sensitivity during tracking, monkeys, 8505

binocularly activated neurons in visual cortex, binocular responses of simple & complex neurons with disparity changes, cats, 3822 corticotectal pathway removal, electrophysiological study & effects

on single units in superior colliculus, cats, 10661 enriched vs. isolated vs. social rearing environment, dendritic branching in visual cortex, rat, 8571

epileptic foci in visual cortex due to penicillin applications, passive avoidance learning, rats, 3850

ethyl alcohol ip injections, visual evoked potentials from visual cortex & reticular formation, male rats, 353

neural associations between visual & auditory & somatosensory areas & frontal cortex, monkeys, 8546

photic stimulus vs. electrical stimulation of optic chiasma, evoked potentials from lateral geniculate nucleus & visual cortex & their modification during orienting behavior, rabbits, 6330

repeated light stimulation, optic nerve & lateral geniculate evoked potentials, immature monkeys, 293

striate cortex & temporal cortex lesions, discrimination learning on basis of orientation of stripes with random hue differences shift to task with hue as relevant dimension, tree shrews, 3917

striate vs. prestriate lesions with foveal prestriate cortex, simple visual task performance, monkeys, 1889

unilateral posterior cortical lesions, nonvisual deficits as reflection

of spatial progression impairment, rats, 3943 unilateral visual decortications & anterior cortex vs. striate cortex lesions, performance of diametrically opposed discriminations, rats, 10643

wakefulness & synchronized sleep & steady photic stimulation, tonic response of central visual path neurons, midpontine- pretrigeminal cats, 368

Visual Discrimination

ambient illumination level, form & brightness discrimination, squirrel monkeys, 8766

angle orientation of lines in pattern pairs, similarity judgments, 10285

auditory & visual sequential & visual spatial pattern matching, reading ability, good & poor readers, 3114

auditory-visual discrimination music-lab program vs. regular band curriculum, auditory-visual discrimination skills & instrument

playing & full band performance, high school students, 9901 auditory-visual integration ability & developmental level & economic background, reading ability, 1st 4th graders, 12054

automated discrimination apparatus, learning, monkeys & rats, 6398 availability of verbal mediators, visual discrimination learning, 5-8 yr. old deaf vs. hearing children, 4899

avoidance of unreinforced hues, honeybees, 506

background color, percentage of correct or incorrect responses in verbal discrimination learning performance, college students,

bilateral anterior & posterior hippocampal lesions, spatial & visual discrimination & stimulus acquisition & reversal shifts & transfer, rats, 1941

brief sample durations, delayed matching-to-sample task, capuchin monkeys, 4000

brightness vs. spatial discrimination reversal problem training in Ross maze, overtraining reversal effect, rats, 2035

change of form & orientation of visual stimuli, duration of eye fixation & perceptual discrimination, 3 & 6 & 9 & 12 mo. olds,

choice RT & discrimination under time pressure, speed-accuracy tradeoffs in visual discrimination using payoff, 169 color contrast combinations discriminability, partially seeing 8 12

yr. olds, 9414

concentration & excitability, reaction time & visual discrimination of lit bulbs, 8269

consistency of spatial configuration & temporal resolution modification, perceptual modification of visual sensitivity, 178 correction vs. noncorrection training procedure & task difficulty,

brightness vs. position discrimination, rats, 3984 critical distinctive letter form features & problems in attending to dimensions of difference, alphabet letter discrimination, literature

review & application to teaching reading, 5415 delayed vs. immediate reinforcement, color learning, honey bees,

delta-9-tetrahydrocannabinol, temporal & auditory discrimination, monkeys, 1862

differential early visual experience, visual preferences, neonates,

differential specialization of cerebral hemispheres, sameness &

difference perception, right handed male college students, 1583 distance & movement speed, nonvisual aiming accuracy, college students, 10290

early protein deficiency, visual discrimination learning, pigeons, 3771

electrical stimulation of cortical-caudate pairs, delayed successive visual discrimination, monkeys, 8602

electrical stimulation of inferotemporal cortex, disruption of short-

term visual memory, monkeys, 3921
emphasizing visual vs. auditory vs. kinesthetic aspects, teaching
word recognition, bicultural & bilingual adults, 11965

extracellular recording of optic tectum units, visual receptive fields of single cells, pigeons, 10550 frontopolar lesions, utilization of response-produced visual cues.

rats, 8640

group pressure & race of group members, visual discrimination task, black vs. white 9th grade males, 2388 hand preferences, hemispheric learning, monkeys, 1899

hollowed 3-dimensional objects concealing food vs. 1-dimensional representations, visual discrimination, monkeys, 4002

identical vs. different light pairs discrimination, signal detection, pigeons, 6427 imprinting to 0 vs. 1 vs. 2 discriminanda, discrimination learning

rapidity, chicks, 6361 increased processing load & task difficulty, discrimination RT &

parallel processing of visual displays, undergraduates, 1576 irrelevant information & processing mode, speeded visual discrimination, college students, 8399

lateral striate vs. inferotemporal vs. dorsolateral frontal lesions, masked visual pattern detection & discrimination, rhesus monkeys, 5333

lesions of fornix, familiarity discrimination, rats, 8615

letters vs. difficult vs. easy random dot patterns, coding & short-term retention of visual information, high school students, 8442 light produced interference, delayed matching-to-sample task,

capuchin monkeys, 4006

luminance & intervening stimulus pattern contours & interstimulus interval, form identification & visual integration & differentiation processes, authors & undergraduates & graduate psychology students, 1613

luminance level, wavelength generalization & discrimination, pigeons, 6350

male senior citizen intervention, visual perception & discrimination & motor coordination & vocabulary knowledge as school readiness measures, kindergarten boys vs. girls, 9841

mask delay, discriminability of differences in line slope & line arrangement, 71

midbrain electrical stimulation, reticular formation activation & visual discrimination, monkeys, 10618

monocular blinding, discriminating depth accuracy between

snapping & orienting distances, frogs, 6275 nonmetric multidimensional scaling techniques, visual pattern discrimination latencies, 5 & 6 yr. olds, 10317

nonrewarded vs. rewarded pretraining & positive vs. negative cues color-form discrimination learning, retarded & nonretarded children with MA of 2 4.5 yr., 1013

obscured target in horizontal & vertical dimensions, 2-dimensional continuous tracking task, 136

optic tectum vs. posterior vs. anterior telencephalon bilateral aspiration, visual discrimination learning, sharks, 1875

orbital & lateral frontal vs. inferotemporal ablations, visual discrimination learning & retention, monkeys, 437

pairs of small & medium & large circles associated with related vs. unrelated words, visibility fluctuations in luminous target, high school & college students, 92

physostigmine & scopolamine, operant brightness discrimination,

polygon patterns, free-form discriminatory verbal responses, 5870 precise time duration of allowable responses, response latencies in go & no-go discrimination performance, monkeys, 8749

rectangular vs. nonrectangular parallelopipeds, imposed geometric constraints in visual discrimination, college students, 8319 regular vs. random intermittent reinforcement, successive brightness

discrimination, rats, 6372

relevant vs. irrelevant pretraining, crossmodal transfer between vision & touch on foreign letter learning task, 9 vs. 11 yr. old Negro vs. Caucasian males vs. females, 3752

response key illumination, airflow velocity discrimination acquisition & stimulus control, pigeons, 4075

selective attention vs. stimulus generalization interpretation, reversal learning on brightness discrimination & easy-to-hard effect, rats,

selective cue & cue location attention, visual discrimination, rats, 6435

septal & amygdaloid lesions, visual discrimination under nonreinforcement & reinforcement conditions & eating & drinking & body weight, rats, 6326

sequentially-presented shapes under cross-modal vs. intramodal conditions & age differences, recognition, 6 & 8 & 10 yr. olds,

single vs. redundant stimuli & stimulus width vs. length & size, horizontal-vertical visual discrimination, 4 goldfish, modification of D. Yager's technique, 4076

split brain, functional asymmetry in visual discrimination learning & paw preference, cats, 472

stimuli aligned in horizontal or vertical vs. oblique orientations, perception & discrimination, man & animals, 1556

stimulus generalization gradients of excitation & inhibition, predicted vs. actual postdiscrimination gradients, pigeons, 6401

striate cortex & temporal cortex lesions, discrimination learning on basis of orientation of stripes with random hue differences shift to task with hue as relevant dimension, tree shrews, 3917 striate cortex ablation, visual discrimination, tree shrews, commen-

tary on J. P. Ward & R. B. Masterson's paper, 6331

superior colliculus lesions, visual stimuli localization & discrimination, squirrel monkeys, 8684

surgical restriction to single cerebral hemisphere, acquisition of opposite-eye mediated visual pattern discriminations, hooded

training between 2 successive unilateral posterior neocortical ablations, retention of black-white discrimination habits, rats,

trigram letter position reversals, matching discriminations, 1st grade beginning readers, 4244

unilateral visual decortications & anterior cortex vs. striate cortex lesions, performance of diametrically opposed discriminations, rats, 10643

unilateral vs. bilateral aspiration lesions & contralateral irritative lesions of hippocampus vs. overlying neocortex, brightness

discrimination & avoidance learning, rats, 1966

variation in complex shape vertices positions, discrimination learning & generalization, pigeons, 10733 verbal vs. visual dimension highlighting, discrimination & transfer learning, preschoolers vs. 2nd graders, 4260 vertical vs. horizontal arrangement & row vs. column & proximity in

numeric displays, 3-digit number comparison task performance,

visual & auditory sequencing tasks, expressive vs. semantic aphasics,

visual inspection of spectrograms, voice identification, trained Es,

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

visual vs. aural presentation, similarity-dissimilarity ratings of phonemes, 1562

visual-time-compression, discrimination of target echoes from noise & clutter on radar displays, technical aerospace personnel, 5671 whole brain homogenates from trained Ss injected intraperitoneally,

light-dark discrimination rat 6325

within-day serial reversal & role of inhibitory processes, position discrimination, pigeons, 522

within-stimulus vs. extra-stimulus prompting procedures, teaching auditory & visual discrimination, autistic children, 12070

word form configuration training program, visual perceptual behavior and reading achievement, strong vs. weak visile vs. audile learning disabled 1st & 2nd graders, 7959

3-dimensional convex objects, visual learning & recognition by computer, 10233

Visual Displays

chunked" vertical typography format, reading speed & comprehen-sion, 2nd & 3rd graders, 7764

aural vs. aural-visual displays of tracking error, human operator dynamics for compensatory tracking, 5692

coherent vs. jumbled slides of real-world scenes, speed in searching for objects, college students, 10394

confidence in displays, obedience to rotation-indicating visual displays, application to pilot training & instrument design, college students, 5638

contrast & motion in television display, target detection field, practiced staff members, 1632

display size & number of targets, visual target search time, college students, 8300

display size & redundant & alternative signal numbers, correct visual detections frequency & correct & error latencies, young adults, 3567

flat vs. curved markers, traffic marker signaling capacity, 8118 human factors evaluation of visual displays, adequacy in decision

making tasks, 5647 information load & location & observational mode, detecting & identifying brief targets, Army enlisted night vision device operators, 10295

light rear displays & following distance or headway variations, visual distance discrimination in driving following another vehicle, 10157

memory load-display load ratio in search tasks, scanning strategy, 19-45 yr. old prisoners, 236

rated preference & complexity for natural vs. urban environment visual material, college students, 5854

recycling game-like machine & self-motivation & feedback & free-play token accessibility, observation behavior & amount of learning, solicited vs. unsolicited museum visitors, 200

small television-type raster displays in airborne applications, alphanumeric character legibility, 1417

spatial proximity of noise elements to targets & noise element presentation following target letter onset, voicing of target letter in visual display, 1584

steady vs. blinking visual displays, check-reading task performance,

symmetry of hue range & brightness & color pleasantness, color recognition & discrimination of stamps, normally visioned adults,

target size differences, searching time, 74

temporal differences with analogue & digital time displays, mental subtraction speed & accuracy, 1779

verbal labels, picture meaning & meaning recall, 8470

vertical vs. horizontal arrangement & row vs. column & proximity in numeric displays, 3-digit number comparison task performance,

visual display onset vs. offset & reaction latency, visual persistence, adults with normal vision, 3547

visual displays of task errors & supplementary auditory displays, dual-axis tracking task performance, 3423 visual speech displays, "ba" & "pa" production, 7-12 yr. old deaf

children, 3038

visual vs. auditory vs. electrocutaneous continuous error information feedback, unidimensional compensatory tracking, college students, 114

visual-time-compression, discrimination of target echoes from noise & clutter on radar displays, technical aerospace personnel, 5671
2-dimensional flat surface traffic signs, perceptual space & accurate

reference, college students, 10158

Visual Evoked Potentials amygdaloid lesions & photic stimuli, visual evoked potentials & locomotor & appetitive behavior, rats, 6312

appetitive barpressing, hippocampal EEG & visual evoked responses, rats, 6182

auditory & tactile & electric & visual stimulation & modality

pairing, evoked slow vertex potentials, 8511 color-specific amplitude variations, visual evoked responses, 6179 dibenamine & phentolamine mesylate & phenoxybenzamine, evoked visual cortical potentials, rabbits, 1937

ethyl alcohol ip injections, visual evoked potentials from visual cortex & reticular formation, male rats, 353

evoked cerebral responses to visual stimuli, children with visual learning disabilities vs. normals, 9459

fractionated X-irradiation, averaged evoked potentials to photic stimulation, rabbits, 8654

gallamine triethiodide vs. pentobarbital, visual electrocortical response maturation, kittens,, 448

geometric patterns combined with intermittent photic stimulation, occipital spikes & photoconvulsive response provocation, photosensitive epileptics, 988

hypnotic susceptibility & vertex late component, visual & auditory evoked responses under selective visual & auditory attention conditions, 288

individual differences & age, visual evoked response parameters, normal 7-74 yr. olds & ill 19-72 yr. olds, 10524

induced muscle tension, visual evoked potential & motor potential, graduate students, replication of J. Andreassi & E. Mayzner & D. Beyda & S. Davidovic's study, 3781

low birthweight, maturation of visual evoked responses, lowbirthweight vs. preterm infants, 8875

nicotine, tranquilizing & electrophysiological effects, rabbits & mice, 451

pentylenetetrazol injection & pharmacologically induced behavioral &/or EEG activation, photically evoked after-discharge patterns, rats, 1870

periodic & random stimulation, ensemble characteristics of human visual evoked response, 6108

photic stimulus vs. electrical stimulation of optic chiasma, evoked potentials from lateral geniculate nucleus & visual cortex & their modification during orienting behavior, rabbits, 6330

photopic vs. scotopic stimuli, visual evoked response component responsiveness, 10546

septal lesions, behavioral reactivity & averaged visual evoked responses to discrete series of photic stimuli, rats, 10678

sodium pentobarbital, visual evoked response in optic tectum,

stimulus uncertainty & modality shift & wrong pretrial guess, average visual & auditory evoked potentials & RT, schizophrenics vs. psychotic depressives vs. normals, 1009

sudden motion-reversal, visual evoked potentials, humans, 272 unilateral alpha training, visual evoked response, dyslexic 14 yr. old,

vibratory & light-flash stimulation, habituation & dishabituation of evoked responses, garter snakes, 6088

visual evoked potential, signal detection task accuracy & confidence, 8325

visual evoked response at birth & articulation of initial & final consonants & verbal comprehension at 3 yr. & Stanford-Binet IQs at 4 yr., children, 4112

Visual Feedback

audio-visual vs. audio-visual-kinesthetic feedback training procedures, auditory discrimination of pitch, hearing impaired children, 9454

contingent & noncontingent visual feedback, digital performance, deaf cerebral palsied 11 yr. old, 11745 differential visual feedback & transfer to RT task, acceleration &

deceleration of heart rate, 292

experimental systems analysis, adaptation to reversal of retinal feedback of eye movements, 10303 head masks to limit visual feedback, interaction & outcome in

extended T-groups, 6824 instant visual feedback of congruence, group counseling outcome,

college students, 1105

place restrainment & exposure to moving stripe patterns & elicitation of positive-feedback optokinetic responses, control of locomotory movements, lobster & crayfish & locust & cockroach & blowfly & sphinx moth, 1983

television augmented feedback, stabilometer balancing task

performance, men vs. women, 1581
videotaping of S & immediate playback, rehabilitation, stroke
patients with perceptual difficulties, case study, 4963

visual &/or auditory continuous proportional feedback, heart rate self-control, college students, 6100

visual feedback from paw movements, visually guided behavior, kittens, 8733

visual vs. auditory stimulus presentation mode & visual vs. auditory feedback, time-interval reproduction responses, 8263

visual vs. auditory vs. electrocutaneous continuous error information feedback, unidimensional compensatory tracking, college students, 114

writing performance with eyes closed, normal Ss, comparison to letter duplications & omissions of right hemispheric lesioned patients, 4762 Visual Field

age & pulmonary function & biochemistry variables, retinal field shrinkage, Normative Aging Study veterans, 4087

age differences & varied visual fields & stimuli exposure time & complexity & association value & training level, random shape recognition, middle-aged & young adults, 6612

automatic interval-amplitude-analysis with eyes open vs. closed & homogeneous vs. structured central field of vision & rest vs. graphomotor activity, EEG evaluation, 20 47 yr. olds, 3797

background lightness, contrast & assimilation, college students, support for H. Helson's hypotheses of differential stimulation & area-luminance, 5862

cells in superior colliculus discharging before saccades of specific distance & direction, rhesus monkeys, 6211

chronic focal brain missile wounds, visual localization impairment patterns, males, 11468

contrast & motion in television display, target detection field, practiced staff members, 1632

extracellular recording of optic tectum units, visual receptive fields of single cells, pigeons, 10550

instructions to imagine symmetrical dot pattern as vertical vs. horizontal grating, detection of vertical grating in same visual field as dot pattern, college students, 10350

laterally presented pictures, visual & verbal coding, college students,

learning, free recall of letters tachistoscopically presented to left vs. right vs. identically & simultaneously to both visual fields, female college student, 3746

letter presentation to left vs. right of fixation, evidence for left to right scan with left presentation & left to right & outside toward fixation scan with right presentation, 1645

magnification & diminishment & restriction of visual field, mood & affect & cognition & perception, undergraduates, 3468

masking interference, right vs. left visual field sequential letter recognition, left-vs. right-handed college students, 316

Matching Familiar Figures Test, visual scanning strategies, reflective vs. impulsive vs. fast accurate vs. slow-inaccurate children, 10386

movement vs. nonmovement sensitive cells of thalamic visual nuclei, directionality & receptive field, pigeons, 274

peripheral stimulus eccentricity & illumination level & light adaptation, visual angle & apparent size & distance perception, male undergraduates, 3607

peripheral visual field, color vision, 8285

processing visually presented verbal vs. spatial stimuli, hemispheric specialization, 5841

recognition of tachistoscopically presented verbal & nonverbal stimuli in lateral visual fields, patients with right- vs. left-

hemispheric brain damage, 4856 retinal location & delay before scanning, recognition of tachistoscopically presented alphabetical arrays in right & left visual field, 10315

retinal separation between test & inducing fields & inducing luminance & inducing area, threshold of test field, college & graduate students, 8337

right & random visual field exposure & knowledge of exposure locus, vocal RTs of Hebrew letter identification, right-handed Israeli-born undergraduates, 3552

right vs. left visual field stimulation, letter matching & auditory memory scanning & phoneme comparison RTs, right-handed adults, 6030

right vs. left visual field stimulus presentation, lateral asymmetry in physical & name matching response times, 3572

spatial & temporal transient response sensitivity of lateral geniculate neurons in visual receptive fields, cats, 8542

- stationary vs. rhythmical rotation of head about vertical axis & white vs. textured background, absolute distance estimation, Navy enlisted men, 8280
- surround vs. no-surround condition of test stimuli, onset & offset RT, college students, 5882
- target size & tachistoscopic Ganzfeld, Kollner effect & transient
- binasal hemianopia, undergraduates, 3557 variation in angle between 2 converging but nonintersecting line segments & orientation of display, estimating vertex of converging lines, college students, 184
- verbal vs. nonverbal stimuli in right vs. left visual half-field, stimuli perception & identification, 18 25 yr. olds, 5883
- visual & proprioceptive determinants, space perception & movement accuracy, 8334
- visual informaton, cross & within field integration, right-handed graduate & undergraduate students, 8276
- Visual Hallucinations
- hallucinating presence of recently deceased family member, mourning process, Hopi Indian women, 10997
- positive vs. aversive vs. no verbal reinforcement, operant conditioning of reported auditory & visual hallucinations, female college students, 245
- verbal conditioning & assertive training, suppression of hallucinatory & delusional behavior, 20 yr. old male paranoid schizophrenic, 11703
- Visual Masking
- aftereffect vs. illusion vs. masking, tuning characteristics of feature analyzers in central vs. peripheral vision, college students, 5880
- age, backward dichoptic masking & signal processing time, young vs. middle-aged vs. old Ss, 6540
- brightness matching technique, apparent contrast of backward- & forward-masked spatial sinusoids, 8272
- dichoptic interference, iconic & short-term memory & consolidation, undergraduates, 3698
- electrical optic nerve stimulation & retroactive visual masking, retinal neural activity in contour discrimination, monkeys, 6334
- form specific mechanism, metacontrast assessment, 8273 forward & backward masking by random noise, visual recognition of Japanese Kata-Kana letters, Japanese undergraduates, 3600
- foward vs. backward masking in tachistoscopic presentations, recall, college students, 6024
- instructions & luminance & interstimulus interval & u-shaped metacontrast functions, detection, college students, 8274
- instructions to imagine symmetrical dot pattern as vertical vs. horizontal grating, detection of vertical grating in same visual field as dot pattern, college students, 10350
- interstimulus interval & simultaneous mask & target presentation, nonmonotonic backward & forward masking in recognition task, verification of N. Weisstein's Rashevsky-Landahl neural net model, graduate students & faculty members with experience in visual perception experiments, 1761
- lateral striate vs. inferotemporal vs. dorsolateral frontal lesions, masked visual pattern detection & discrimination, rhesus monkeys, 5333
- mask delay, discriminability of differences in line slope & line arrangement, 71
- masking interference, right vs. left visual field sequential letter
- recognition, left- vs. right-handed college students, 316 masking stimulus duration & dark interval, detection thresholds for
- disk of light, college & high school students, 8292 monocular & binocular & dichoptical viewing of linear arrays, letter recognition serial position curves, left- & right-eye dominant Ss, 1652
- monotonic vs. nonmonotonic functions & locus of processing & interaction with stimuli & task parameters, metacontrast, literature review, 1615
- mutual visual masking production by gratings & bars, visual frequency response to aperiodic stimuli, possible neural populations selective for size & orientation, 185
- pattern masking of unfamiliar & nameless shapes, short-term visual memory, college students, alternative to G. Sperling's model,
- positive set size & set for speed vs. accuracy & backward mask presence vs. absence, choice RT to visually presented digits in information-reduction task, 84
- serial position, visual processing of digits presented in rapid succession, college students, 5980

- simultaneous voicing of number & visual presentation & voicing of different number than one presented & no voicing, visual recognition of 2-digit numbers, undergraduates, 1557
- sinusoidal gratings of various spatial frequencies as masking stimuli, detection & vernier acuity tasks, evidence for attentional mechanism, 1570
- visual backward masking, latency in voicing target stimulus, 95
- visual backward masking, visual target detection, 152
- visual noise masking on parallel mechanism & post exposure cuing on serial mechanism, tachistoscopic recognition, college students,
- Visual Perception (See also Autokinetic Illusion, Binocular Vision, Brightness Perception, Color Perception, Critical Flicker Fusion Threshold, Dark Adaptation, Monocular Vision, Stereoscopic Vision, Visual Discrimination, Visual Field, Visual Thresholds)
- accommodation & convergence alteration, visual & proprioceptive adaptation, college students, 181
- adaptation to nonstabilized grating patterns in various orientations & fading rates of stabilized line stimuli interactions among populations of orientation-specific mechanisms in visual system, 156
- aftereffect vs. illusion vs. masking, tuning characteristics of feature analyzers in central vs. peripheral vision, college students, 5880
- afterimage technique, virtual contours in visual perception, 8335 age & sex & stimulus ambiguity, social conformity on perceptual
- judgment tasks, 16 21 & 60 80 yr. olds, 4159
- age & within- vs. cross-modality matching tasks, auditory & visual matching ability, 5 8 yr. old boys, 4164
  age differences, visual RT procedure with regular & irregular
- preparatory interval conditions, 6 13 yr. old normal & brain-damaged children, support for C. Czudner & P. Rourke's theory, 2600
- aging & education, visual trace & short-term memory deficit, 19-27 vs. 46-52 vs. 60-77 vs. 23-29 yr. old men, 2064
- alcohol & coffee, external attitude & motor skills & visual perception, 29 36 yr. olds, 10691
- analysis of Marcel Marceau's techniques, creation of perceptual objects, 11191
- aniseikonic lenses, phenomenological approach to behavior & perceptual experience, college students, 10306
- aperture size & stripe size & luminance & motion direction, visually
- perceived velocity, psychology students & staff, 5881 apparent properties of inspection objects, visual figural aftereffect, 3590
- attention measures in visual & auditory modalities, right vs. left hemiplegics recovering from cerebral vascular accidents, 4663
- auditory vs. visual proficiency, 7 13 yr. old normal 3rd 6th graders vs. 11 16 yr. old behaviorally disordered 5th 7th grade boys, 8294 auditory-auditory & visual-visual & auditory-visual tasks, audiovisual integration development, normal & deficient reading 8 13 yr. olds, 10926
- auditory-perceptual & vocal & visual-perceptual & motor & oralmotor functions, language comprehension, 72 91 mo. old dysphasic boys & normals, 11508
- axon length, dissipation of visual & kinesthetic aftereffects, college students & 14 15 yr. olds, 5897
- breathing air vs. nitrous oxide, visual function & fine & gross motor performance & long-term memory, underwater divers, 1392
- brightness matching technique, apparent contrast of backward- & forward-masked spatial sinusoids, 8272 caffeine, protracted visual monitoring task analogous to aspect of
- night driving, undergraduates, 6221
- changing projection surface, immature vs. mature visual afterimag-es, psychiatric patients vs. normal adults, 10364 coherent vs. jumbled slides of real-world scenes, speed in searching
- for objects, college students, 10394
- comparisons of successively presented visual patterns in perception & short-term memory, classification RTs, college students, 6064 components in auditory-visual integration, reading performance,
- 2nd graders, 7759 computer-simulated visual distortion, correlations between motor
- learning & visual & arm adaptation, 5843 conflict, sensory & cognitive & personality processes, perceptual
- adaptations, 80 dark vs. light & vertical vs. oblique vs. horizontal & many vs. few spines on sea urchin model, visual orientation, shrimp, 1997
- deflection of lines forming angle sides, line orientation judgments of Poggendorff illusion, college students, 5848

- depth & perspective graphic representation instruction, visual-spatial organizational ability, 8 10 yr. olds screened for deficits, 3224
- development of motor-free test of visual perception, 5-7 yr. olds, 5350
- developmental age differences, visual & kinesthetic judgments of distance, 4 & 6 & 8 yr. olds, 2153
- differential early visual experience, visual preferences, neonates,
- direction of stimulus visual counting reaction time, 10305
- display size & number of targets, visual target search time, college students, 8300
- display size & redundant & alternative signal numbers, correct visual detections frequency & correct & error latencies, young adults, 3567
- distance & lateral distortion of facemask, underwater hand-eye coordination & adaptation, Navy Submarine trainees, 3619
- distance between parallels, apparent angle of transversal judgments in Poggendorff illusion, college & graduate students, 5849
- dot sequences on oscilloscope under computer control & current vs. prior visual input, stationary perception vs. trackings, 155
- early visual deprivation, sensory preconditioning, rats, 4070 EEG, optic neuritis, 5 12 yr. olds, 8507
- English vs. Arabic script, letter array memory, American & bilingual Arab undergraduates, 3693 error of standard, systematic perceptual overestimation of stimuli,
- criticism of Piaget's perceptual theory, 72 exposure duration & luminance & frame tilt & frame-rod interval,
- verticality judgments, field dependent vs. independent college students, 10304
- extraretinal feedback effects & testing before & during & after saccades, visual localization, college & graduate students, 5875 extraretinal signals, visual perception of direction, 160
- eye movements during detection of particle events in photographs, implications for computerized bubble chamber photograph reader, experienced vs. inexperienced readers, 5592
- eye movements, recall of information with iconic vs. spatial
- organization vs. motion imagery, 210 figural aftereffects following shift in perceived line slant, form constancy & illusions in visual perception, literature review, 10360 forward head inclination, visual orientation during lateral body tilt,
- foward vs. backward masking in tachistoscopic presentations, recall, college students, 6024
- functional vs. nominal perceptual cues, attentive behavior in solving visual motor perceptual tasks, educable retardates, 3291
- gap size of incomplete circles, perceptual closure, undergraduates, 3583
- guidelines, visual literacy research, 7828 hand-mouth coordination & looking, full-term 2 3 day olds, 4161 head inversion & stimulus ambiguity, uprightness constancy, adults
- vs. 3 5 yr. old children, 2112 hear point acuity test card design, near point acuity level measurement, preschool children, 98
- hemispheric assymmetry on tachistoscopic task, cognitive abilities, males vs. females, 5968
- hemispheric deconnexion, perception of bilateral chimeric figures, commissurotomy patients, 11433
- hypnotic & posthypnotic suggestion, visual acuity & transfer to normal waking state, hypnotically susceptible myopes, 11612 identification in variously oriented broken circles, number & character of errors, 10361
- identity & spatial position information, visual & verbal codes, college students, 10318
- identity vs. equivalence conservation & visual vs. kinesthetic perceptual modality, level of understanding of conservation of weight concept & rate of concept development, 5 12 yr. olds, 646
- immature vs. mature visual afterimages, distortions of changing
- projection surface, 5898 individual differences, preferences for planometric & stereometric visual patterns, premature & full-term neonates, 10322
- induced diplopia of single test line, Ponzo illusion, 10365 information load & location & observational mode, detecting & identifying brief targets, Army enlisted night vision device operators, 10295
- instructions & luminance & interstimulus interval & u-shaped metacontrast functions, detection, college students, 8274
- instructions to visualize stimuli during unfilled delay, visual recognition of nonsense shapes, preschoolers, 4182

- intercorrelational validity study, auditory & visual functioning tests, use as basis for reading instruction determination, 5373
- interpolated tasks, intramodal & cross-modal shape recognition latency & accuracy, 3-4 & 5-6 & 7-9 yr. olds, 6563
- interpolation of anchor triangle between 2 objectively equal-sized triangles, contrast effects in comparative judgment & RT analysis,
- interval between stimuli required to identify accurately 1st stimulus, visual information processing speed, inner-city vs. suburban 1st &
- 3rd & 6th graders, 10297
- intra- & intermodal processing, short-term memory for shape information, 46 & 89 yr. olds, 6456 intra- vs. cross-modal testing & clause position & intonation contours & lexical material, word recognition latencies, male undergraduates, 1679
- knowledge of relevant information & complexity & codability of stimulus information, visual selective attention, 2nd vs. 6th graders, 4198
- laser optometer incorporating Badal principle, determination of eye refractive state during visual task, 3580
- letter sequence bounding, integration of visually presenting words in
- temporal & geometric arrangements, 123 light unilateral visual deprivation due to lid-suturing, retina, rats,
- linear perspective & monocular movement parallax cues, Ames window perceived oscillation, 5817
- luminance & duration of interstimulus interval, human reaction time, 10352
- luminance & intervening stimulus pattern contours & interstimulus interval, form identification & visual integration & differentiation processes, authors & undergraduates & graduate psychology students, 1613
- male senior citizen intervention, visual perception & discrimination & motor coordination & vocabulary knowledge as school readiness measures, kindergarten boys vs. girls, 9841
- manifest anxiety level, visual exploration time, undergraduates, 6983 marihuana, peripheral light detection as function of information processing demands in vision, 10657
- masking interference, right vs. left visual field sequential letter recognition, left- vs. right-handed college students, 316 matching visual stimuli, selection preference for color & orientation & form & size dimensions, 6-9 yr. old deaf & normal-hearing children, 2769
- mathematical modeling, perceptual constancy of object size, 10292
- Maxwell spot centroid, measuring fixational eccentricity, applica-tion with adults & 4 9 yr. olds, 8298 meaning & graphic familiarity, visual word recognition, 3576
- meaningfully vs. arbitrarily shaped coded or noncoded knobs, speed & accuracy of identification & operation during visual loading, test pilots & engineers & draftsmen, 5679
- memory & graticule & target grouping & placeholders & symbols vs. letters, visual search, 5822
- menstrual cycle, visual sensitivity & sexual arousal, 17 19 yr. old females using vs. not using oral contraceptives, 624
- methodological problems, visual literacy research, 7827 model of human as information processor by mathematically simulating choice RT & memory storage retrieval & perceptual information processing research, 3-dimensional visual identifica-
- tion task, model vs. human males, 158 monochrome vs. lithographic photograph positives vs. negatives, recognition of familiar faces, college students, 8320
- monocular & binocular & dichoptical viewing of linear arrays, letter recognition serial position curves, left & right eye dominant Ss,
- monotonic vs. nonmonotonic functions & locus of processing & interaction with stimuli & task parameters, metacontrast, literature review, 1615
- movement & pressure & pain & light & sound responsiveness & mother communication of emotions & fetal hunger & conditioning, prenatal development, 8832
- moving speed, perceived size of moving figures, college students, 5903
- multivariate model with 2 cognitive spaces for auditory & visual modes differing in modal axis, chromesthesia, 8417 noise & response complexity, visual vigilance performance, college
- students, 10300 noise-intensity & display-difficulty levels & target location, visual target-detection performance, college students, 182

normal cueness & visual cueness & visual deprivation, balance skill learning rate, normal vs. congenital deaf vs. acquired deaf 12 15 yr. olds, 11388

number vs. letter targets, visual serial search time, female undergraduates, 3601

object distance, visual fixation, 6 12 & 13 20 wk. old infants, 8839 observation of TV screens showing little movement, visual monitoring & alarm pressing RT, office workers & prison officers,

5686 optical distortion from wearing face mask & head rotation about vertical axis in air & water, loss of visual position constancy

underwater, Navy enlisted men, 1585 pattern masking of unfamiliar & nameless shapes, short-term visual memory, college students, alternative to G. Sperling's model, 10342

perception recognition speed, 5 9 vs. 10 13 vs. 14 17 vs. 18 24 yr. olds, 8853

perceptual constancy vs. perceptual compromise, visual perception,

perceptual speed & billboard layout, advertisement recognition & recall, college students, 10142

peripheral cue relevance of location-specific stimuli under aroused states, perceptual field narrowing, college students, 10354 physical objects appearance vs. reality vs. identity judgments, 4 5 yr.

olds, 6545

physiological & behavioral & clinical & applied aspects, visual science, 1968 International Symposium proceedings, book, 150

pictorial information processing, review of biological & computer visual systems & psychology of perception & its computer simulation, 6343

pictorial meaningfulness & picture detail & presentation mode, pictorial recognition learning, college students, 8385

pilot class utilizing multisensory training & educational team approach, visual-perceptual-motor skills & WISC Verbal IQ & Stanford Achievement Test, elementary students with reading problems, 3129

pontocerebellar pathways, visual control of movement, cats, 8619 positive set size & set for speed vs. accuracy & backward mask presence vs. absence, choice RT to visually presented digits in information-reduction task, 84

positive vision-touch transfer of form in paired associate paradigm, adults, 3661

practice with controlled stimulus pairs, same-different judgment RTs, college students, implications for human information processing theory, 5914

preparatory set measured by visual perceptual tests & manifest anxiety, high school students, 10345

previous experience, consecutive figure effects, book, 5909

projected brain illusion, discussion of F. du Mas & M. du Mas's article, 5831

projected brain illusion, similarity to H. Helmholtz's account of entoptical viewing of retinal vessels & comparison of H. Helmholtz's & F. M. Du Mas & M. E. Du Mas's methods & effects, 165

prolonged practice, set size effect in item recognition with complete response consistency & nested positive sets, college students, 6005 pronounceability of letter arrays, verbal report & visual matching

latency, graduate & undergraduate students, 5846 pulse number under nonoptic & dichoptic inphase & dichoptic

antiphase, fusion Hertz, graduate students, 97

reading achievement & age, auditory vs. visual processing of single words, 1st vs. 3rd vs. 5th graders vs. college freshmen vs. sophomores, 644

recognition of tachistoscopically presented verbal & nonverbal stimuli in lateral visual fields, patients with right- vs. lefthemispheric brain damage, 4856 recognition vs. recall task expectation & visual &/or semantic

categorization, visual memory retrieval, 8387

redundancy & complexity, coding processes in visual information transmission, 6057

retinal location & delay before scanning, recognition of tachistoscopically presented alphabetical arrays in right & left visual field,

right-eye vs. left-eye dominance, perceptual accuracy, college students, 10344

RT procedures, visual & tactile dominance developmental patterns, 7 30 yr. old mental subnormals, 11492

RTs & error rates, judging nominal identity of successively presented letter strings, college students, 5926

saccadic eye movements vs. steady fixation, decrement in Oppel-Kundt illusion, 1577

sequential & spatial orientations of text & direction of reading & intrasentence language variation, reading & scanning directionality, 124

serial position, visual processing of digits presented in rapid succession, college students, 5980

silence vs. broadband noise vs. continuous vs. random music background stimulation & sex, visual vigilance, undergraduates, 5824

simulation of alteration in visual system vs. change in O's criterion, perceptual learning, 1657

simultaneous & sequential presentation of sensory information effects on intrasensory & audiovisual cross-sensory integration skills, prediction of initial reading skills, 1st grade boys, 8022

simultaneous voicing of number & visual presentation & voicing of different number than one presented & no voicing, visual recognition of 2-digit numbers, undergraduates, 1557

size judgments presented through visual-haptic vs. visual touch commonality, visual-manual commonality, college students, 161

social interest & normal maturation & mental health, whole face vs. communication organ perception in human aspect figure, 1st grade to college aged Ss from mental institution vs. normal adult population, 2647

socioeconomic class & cross-modal transfer, auditory-visual integration, 7 & 9 yr. olds, 6465

solid objects vs. photographs vs. drawings of objects as visual stimuli & grade level & sex, visual observation & comparison tasks focusing on color & size & form & form-detail, elementary school students, application to teaching materials & methods selection,

spatial frequency & visual acuity, spatial contrast sensitivity, patients with cerebral lesions, 9293

spatial orientation & proximity & bar size & dichoptic viewing, afterimage visibility in presence of 2nd afterimage, 17 35 yr. olds,

spatial orientation & proximity & bar size & dichoptic viewing, afterimage visibility in presence of 2nd afterimage, 17 35 yr. olds,

spatial proximity of noise elements to targets & noise element presentation following target letter onset, voicing of target letter in visual display, 1584

status consistency, sighting unidentified flying objects, evaluation of status inconsistency theory, 6714 steady vs. blinking visual displays, check-reading task performance,

- Sensation Seeking Scale score, predicting need for visual stimulation during short-term sensory isolation & skin resistance, college students, 4510
- serial vs. simultaneous visual presentation vs. serial aural presentation of nonsense syllables, recall, college students, 3656 signal detectability & luminance, temporal discrimination of 2-pulse

- simple visual stimuli, simple RT, literature review, 5908
- simulation of alteration in visual system vs. change in O's criterion, perceptual learning, 1657
- simultaneous & sequential presentation of sensory information effects on intrasensory & audiovisual cross-sensory integration skills, prediction of initial reading skills, 1st grade boys, 8022
- simultaneous bitemporal object presentation, eyeball movement measurement in homonymous hemianopsia, 2595
- simultaneous visual message presentation, preferred recall order & order of recall accuracy, replication of H. B. Savin's auditory task,
- simultaneous voicing of number & visual presentation & voicing of different number than one presented & no voicing, visual recognition of 2-digit numbers, undergraduates, 1557
- size & retinal locus & orientation, unitary & fragmentary visibility of single afterimage, 17 30 yr. olds, 1553
- size vs. brightness vs. size-brightness redundant vs. size-brightness nonredundant stimuli, information gain rate & RT, undergraduate & highly trained graduate students, W. E. Hick's paradigm extended to M. E. Doherty's absolute judgment task, 1718
- sleep deprivation, auditory & visual simple RT & complex RT, college students, 3559
- solid objects vs. photographs vs. drawings of objects as visual stimuli & grade level & sex, visual observation & comparison tasks focusing on color & size & form & form-detail, elementary school students, application to teaching materials & methods selection,
- somatic & visual & auditory stimulation during wakefulness & sleep, primary cortical areas control, cats with chronically implanted electrodes, 8623
- spatial proximity of noise elements to targets & noise element presentation following target letter onset, voicing of target letter in visual display, 1584
- speech cues vs. silence & mother vs. inanimate object, peekaboo game response & smiling, 4 mo. old boy, 6507 stimulus content, attentive looking behavior, paranoid vs. nonpara-
- noid schizophrenics, 4784
- stimulus input rates & response time limits, missing scan paradigm performance, undergraduates, 1713 stimulus redundancy in visual vs. tactile modality, naming of
- objects, aphasic patients, 4807 stimulus size & spatial position & identity, visual hierarchical
- feature processing, college students, 3562 superior colliculus lesions, visual stimuli localization & discrimina-
- tion, squirrel monkeys, 8684
- target distance & direction & perspective & size & accommodation & convergence cues, visually directed pointing, adults, 3570 television picture impairment by random noise & delayed echo, O
- adaptation during television quality-grading test, 10120 temporal repetition of tachistoscopically-presented visual stimuli,
- perceptual performance, 91 threatening vs. nonthreatening thematic content & angular vs. curved stimulus structure under subliminal & part-cue & identification exposure conditions, eye movements as visual input
- indicators, 3588 unilateral brain damage, perception of temporal order of audiovisual stimuli, patients with left vs. right hemispheric lesions,
- verbal vs. nonverbal processing, visual stimuli, 10356 verbal vs. nonverbal stimuli in right vs. left visual half-field, stimuli perception & identification, 18–25 yr. olds, 5883 verbal vs. pictorial stimuli, encoding & recall, college students, 1784
- visual & tactual contact, motoric mediation in paired-associate
- learning, kindergartners, 4258
  visual CS & nonlight stimuli, high response levels under massed practice & avoidance levels, C3H & DBA mice, contribution to J. Wilcock & D. Thiessen's review, 6103
- visual form familiarity & presentation rates, serial order recall & verbal coding, undergraduates, 3666 visual noise level & RT accuracy level, speed/accuracy tradeoff locus, 3548
- visual pattern complexity, concurrent variable-interval reinforce-ment values, psychology students, 3644 visual pattern difficulty during rearing, subsequent discrimination learning, rats, 4049
- visual stimulation, concurrent wakefulness & subsequent REM sleep, newborn infants, 10808
- visual stimulation, heart rate, healthy & awake newborn infants, 10580

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

visual stimuli meaningfulness & familiarity & age differences, perceptual recognition, 18 83 yr. old Ss, 4139

visual stimuli symmetry, pattern reproduction, school age children, Zambia, 5828

visual vs. auditory interference, short term retention, college students, 8427

visual vs. auditory stimulus presentation mode & visual vs. auditory feedback, time-interval reproduction responses, 8263

visual vs. auditory stimulus presented singly vs. simultaneously in reverberation vs. anechoic rooms, visual vs. auditory autokinesis, graduate students, 10373

visual vs. tactual input & age, reversal vs. nonreversal learning, 47 yr. olds, 638

visual wavelength continuum & time after reinforcement & tone frequency & line tilt, stimulus recognition, pigeons, 10708

visual- & tactile-tactile stimulus pairings, paired associate learning, visual—& tactile-tactule stimulus pairings, paired associate learning, normal vs. poor readers, 5554

2-dimensional probabilistic images, eye movements as indicators of perception & cognitive analysis in problem solving, 5937

Visual Thresholds (See also Critical Flicker Fusion Threshold, Dark

Adaptation)

achromatic zone for red light in fovea & green light in periphery, threshold mechanisms for scotopic & photopic retinal system, 3546

chromatic contrast, monochromatic stimuli detection & identification thresholds, 10328

constancy of threshold quantity & energy of continuous signal, principles for optimal reception of information in human visual system, 10325

correction vs. no correction for peripheral refractive error, fovea & peripheral retina motion thresholds, graduate students, 5865

developmental differences, brain responsiveness to flicker stimulation, 1 14 yr. olds, 6627

diabetes onset & duration, light touch & 2-point discrimination & visual flicker fusion & auditory fusion & electric taste thresholds, patients with juvenile diabetes & their close relatives, 938

good-bad word effects, tachistoscopic recognition thresholds & recall of words, 4th vs. 7th graders, 4115

lessons from developing countries, family in hospital, 2791 masking stimulus duration & dark interval, detection thresholds for

disk of light, college & high school students, 8292 oscillation frequency & retinal location, threshold sensitivity for

sinusoidal movement in fovea & periphery, 1656 photopic vs. scotopic stimuli, visual evoked response component responsiveness, 10546

reinforced subliminal vs. liminal vs. supraliminal visual stimuli, dream content, 3573

response simultaneity, detection & recognition of colored light flashes, male Ss, 3618

retinal separation between test & inducing fields & inducing luminance & inducing area, threshold of test field, college & graduate students, 8337

sensitivity determinants, visual discrimination thresholds for 1- & 2dimensional Markov spatial constraints, undergraduates over 2 yr. span, 1634

sinusoidal gratings of various spatial frequencies as masking stimuli, detection & vernier acuity tasks, evidence for attentional mechanism, 1570

state of distribution of surrounding psychological potential field, identification of modified alphabetical characters, 5917

stimulus expectancy & stimulus change, tachistoscopic threshold & GSR, college students, 3594 target length & separation, vernier acuity, college students & E, 8336

temporal location within pulse, light pulse gap detectability, undergraduates, 1654

threatening vs. nonthreatening thematic content & angular vs. curved stimulus structure under subliminal & part-cue & identification exposure conditions, eye movements as visual input indicators, 3588

threshold estimation using method of limits, perceptual or immediate memory, 14-20 yr. old institutionalized retardates vs. normals, 2674

visual stimuli intensity, signal detection & visual threshold & discrimination, pigeons, 10746

Visual Tracking absolute vs. relative motion, visual receptive fields sensitivity during tracking, monkeys, 8505

dot sequences on oscilloscope under computer control & current vs. prior visual input, stationary perception vs. trackings, 155

ethnicity & task administrator's & S's sex, visual tracking performance, black adolescents, 1588

eye position during visual tracking task transfer of information from

manual to oculomotor control system, 24 54 yr. olds, 5811
figure & ground & control-display relationships & airplane vs.
horizon as moving element of display & pursuit vs. compensatory tracking due to steering command presentation, pilot performance, 1431

obscured target in horizontal & vertical dimensions, 2-dimensional continuous tracking task, 136

operant conditioning, visual monitoring performance, female mental retardates, 9719

visual backward masking, visual target detection, 152

visual scanning training, impulsive behavior modification, 2nd vs. 4th grade impulsive boys, 3311

visual tracking program, reading deficit remediation, adult aphasics,

Visually Handicapped (See also Blind, Partially Sighted) Adolescent Emotional Factors Inventory, clinical interpretation vs. factorial analysis of personality inventories, visually handicapped adolescents, 10240

auditory discrimination & memory span & sound blending ability,

auditory discrimination & memory span & sound blending ability, reading achievement, 2nd graders with visual problems, 5435 bioptic & telescopic spectacles, self concept & achievement, low vision students in itinerant programs, 3218 evaluative instrument subtests, blind & partially blind preschoolers,

eye & vision abnormalities, abnormal brain electrical activity &

pathological behavior patterns, 5 18 yr. olds, 4614

geographical concept attainment, improving ability to interpret embossed maps, visually handicapped, 11905 intelligence & personality traits & demographic variables, orienta-

tion & mobility & personal-social & vocational skills, 16 66 yr. old legally blind Ss, 4843

need for advanced graduate level programs, development of well-qualified professionals to work with visually handicapped, 9829 personality characteristics, visually deficient & mentally deficient children, 7221

psychological techniques to determine intelligence & psychological maturity & perceptual motor integration, determining ability to respond adequately in opthalmological examination, 3 6 yr. olds,

tactile displays, provisional bibliography, book, 11840 visual perceptual handicaps, need achievement motivation & risk taking, kindergartners & lst & 2nd graders, 5368

Vitamin C (See Ascorbic Acid) Vitamin Deficiency Disorders (See also Pellagra, Wernickes Syndrome)

ins (See also Ascorbic Acid, Choline, Nicotinamide, Nicotinic Acid, Tocopherols)

orotic acids, memory of brightness discrimination task, rats, 8649 Vocabulary (See also Anagrams, Antonyms, Homographs, Homo-

nyms, Neologisms, Sight Vocabulary, Slang, Synonyms) ambiguous vs. nonambiguous stimuli, training in prepositional usage, 3 & 5 & 7 yr. old autistic children, 2733

emphasizing visual vs. auditory vs. kinesthetic aspects, teaching word recognition, bicultural & bilingual adults, 11965 frequency of word usage, immediate recall, undergraduates,

replication of J. F. Hall's study, 192
Full-Range Picture Vocabulary Test adaptation, group Englishlanguage vocabulary knowledge test construction, large school
system students, 5529

male senior citizen intervention, visual perception & discrimination & motor coordination & vocabulary knowledge as school readiness measures, kindergarten boys vs. girls, 9841 mnemonic vs. repetitive method, recall & recognition of vocabulary

word learning, college students, 12002 mothers' speech & disfluency rate & vocabulary diversity, language

development, language-learning vs. older children, 8794 narrative symbolism as learning method, vocabulary skills

acquisition, college students, 9940

notes for differentiation, terminology in I Ching, 9141
Piagetian tasks & egocentrism index & Stanford-Binet Vocabulary subtest & Raven Progressive Matrices & Test of Behavioral Rigidity, performance levels & interrelationships among tasks, 55 79 yr. olds, 6613 syntax & vocabulary rules, statement repetition, 6.11 vs. 7.11 vs. 8.10 vs. 9.11 yr. olds, 10889

vocabulary & sentence length & syntactic structure, spontaneous oral vs. reading materials language, low socioeconomic status

urban Negro 1st graders, 5478 vocabulary usage & "unique language" development, psychotherapy

group, 5621 **Vocal Cords** 

supralaryngeal pharayngeal region structure, speech encoding & phonetic ability, newborn Homo sapiens & chimpanzees vs. Neanderthal man vs. adult Homo sapiens, 310

vocal tract anatomy development & embedding in language, human

language evolution, 300

Vocalization (Infant) (See Infant Vocalization) Vocalizations (Animal) (See Animal Vocalizations) Vocational Adjustment (See Occupational Adjustment) Vocational Aspirations (See Occupational Aspirations)

Vocational Choice (See Occupational Choice) Vocational Counseling (See Occupational Guidance)

Vocational Counselors

Job Satisfaction Inventory, validation using employment turnover as criterion, counselors in state rehabilitation agencies, 7062

Minnesota Vocational Interest Inventory, psychometric instruments vs. counselor education in counseling, 10132

Vocational Education

academic vs. academic & practical arts vs. practical arts vs. control curricula, pre- & postinstruction academic & home repair achievement, postschool institutionalized retarded adults, 2887 construction of college curriculum according to vocational effectiveness of course, satirical plea, 3285

cooperative vocational education program, self concept & academic achievement, male high school students, 5494

experimental training program using lectures & group discussions & private counseling, self-actualization & need for achievement, cosmetology students, 1329

family income supplementation & occupational prestige & work elements & personal motives & attitude towards vocational

education for girls, employment for women, 1412

IQ & reading ability & vocational education classroom setting, ability to learn clerical skills, 17 26 yr. old mildly retarded girls,

marital status & age & sex & extent of training & religion & residential & work environment & type of work, work & leisure orientation, 15 65 yr. old workers, 8148

Parklands Payback Pilot Project, proposed use of private funds to develop occupational & social training facilities in state parks, mental retardates, 11962

prevocational education program, blind students, 11857

public education, necessity for vocational & technical training, 7846 school & personal & work related factors & courses available,

vocational & nonvocational course selection, 9th graders, 9847 training school practical examination scores & psychological problems absence & family stability & apprenticeship length & age, vocational adaptation prediction, working retardates, 12152

Vocational Guidance (See Occupational Guidance) Vocational Interests (See Occupational Interests) Vocational Mobility (See Occupational Mobility) Vocational Neurosis (See Occupational Neurosis)

Vocational Preference (See Occupational Preference)

Vocational Rehabilitation

aftercare project for occupational rehabilitation, ex-prisoners, 11618 biographical variables used in multivariate predictive model, identification of potential nonrehabilitants, deaf clients in vocational rehabilitation, 11805

client motivation, rehabilitation counseling outcome, physical & learning disabled & emotionally & mentally disturbed clients,

clinical & occupational & social measures, assessment & preparation for resettlement in optimum employment & accommodation, disabled mental patients in Netherne Resettlement Unit, 9583

combined medical & educational institute, social & vocational training, moderate mentally retarded 6 14 yr. olds, 9582

counseling contracts, vocational rehabilitation, 5147

definition & distinction from other counseling forms, rehabilitation counseling, 5129

demographic characteristics & psychological problems of unemployed & vocational rehabilitation, book, 1242

discrete discriminant analysis technique, vocational rehabilitation outcome prediction & comparison, alcoholic clients, 9688

economic feasibility of rehabilitation, older workers, 1167

expanded vocational rehabilitation program, intraagency processes & procedures, culturally disadvantaged & medically disabled,

gas station as means of providing on-job work experience & training, vocational habilitation, educable retarded 16 21 yr. old boys, 9849

high- & low-expectation community programs, vocational & social rehabilitation, discharged long term mental patients, 9662

hiring handicapped people, test of employability & survey of employer attitudes, 5267

instructions for use & predictive validity data & interrater reliability, rating work performance, psychiatric patients, contributions to A.

Cheadle & D. Cushing & C. Drew & R. Morgan's previous version, 1109 intelligence & personality & achievement & interest & aptitude test scores & demographic variables, prediction of vocational rehabilitation success, potential rehabilitants, 5018

job placement, emotionally disturbed, book, 11551

Job Satisfaction Inventory, validation using employment turnover as criterion, counselors in state rehabilitation agencies, 7062

needs for achievement, job proficiency & employability & training satisfaction, vocational rehabilitation clients, 7670

nonparticipation in follow-up study of retardates previously institutionalized, validity of conclusions drawn & community adjustment, vocational rehabilitation program graduates, 1125 operant techniques, vocational behavior modification, moderately

to severely retarded adolescents, 7669

opinions toward vocational training program, parents of educable retarded adolescents, 9830

outpatient group therapy & rehabilitation following myocardial infarction, 9623

personal & social adjustment factors, vocational rehabilitation, young epileptics, book, 2629

questionnaire measurement of interest in rehabilitation counseling, Veterans Administration hospital patients, 5176

rehabilitation counseling services, identification of goals & techniques, 7358

Rehabilitation Counselor Judgement Scale, risk-taking in rehabilitation counselor decision-making, Ss in general area of counseling,

1193 self-evaluation of personal attributes & work behaviors, vs.

perceived reality vs. objective reality, employability, vocational rehabilitation clients, 1462

semantic differential ratings of work & education & dependency concepts, predicting vocational rehabilitation outcomes, physically disabled Ss, 7664

sex & race & age at referral & education & emotional stability, prediction of vocational rehabilitation success, state mental hospital patients, 7349 simplified prediction method based on personal characteristics,

predicting post rehabilitation occupational adjustment, state rehabilitation service clients, 7527

special schools incorporating early identification & intervention & family support & vocational preparation & community education, mentally retarded children, 7352

structured behavioral assessment instrument, predicting industrial work performance, vocational rehabilitation clients, 12163

treatment aims in rehabilitation, occupational therapy, braindamaged patients, 4921

University of Wisconsin Regional Rehabilitation Institute scale for measuring degree & direction of change in client, vocational rehabilitation success, 1210

usefulness of current concepts & procedures & need for humanitation" approach, habilitation & rehabilitation, 5256

vocational rehabilitation center pilot project, job placement & psychological improvement, ex-mental patients, 2843

vocational rehabilitation client sustention, culturally vs. medically handicapped, longitudinal study, 9600

vocational rehabilitation vs. psychotherapy, adjustment problems, black poverty clients, 3032

vocational rehabilitation, gains in earnings & work status & perception of physical & emotional health & social & personal activities, development of Rehabilitation Gain Scale, 5171 work programs, handicapped, annotated bibliography, book, 11712

work status & occupation & wage & length of counseling, vocational rehabilitation outcomes, retarded vs. nonretarded rehabilitation clients, 9584

Vocational School Students

birth order & family size, higher education, Maori vs. European New Zealand college students & Maori trade school trainees, 6691

Community Adaptation Schedule vs. MMPI, Community Adaptation Schedule validity, Federal prison for youthful offenders prisoners & vocational-technical school male nonprisoners, 2573

experimental training program using lectures & group discussions & private counseling, self-actualization & need for achievement, cosmetology students, 1329

problem formats vs. process characteristics, transfer effects in verbal & nonverbal problem solving tasks, vocational high school juniors, 5480

Vocational Schools (See Technical Schools)

Vocations (See Occupations/)

Voice (See also Crying, Infant Vocalization) analysis of vocal pitch variations, assessing occupational stress, 12147

content-masked voice samples in German & English, self-ratings and peer ratings of personality traits, Americans vs. Germans,

fundamental frequency & vowel & nasal consonant spectra features & glottal source spectrum slope estimation & word duration & voice onset time as useful acoustic parameters, speaker recognition, 186

head balance & neck muscle tension, voice production spectrograms

& breath control in singing, 5853 interspeaker influence, vocal intensity, interpersonal verbal communication, 11201

rater's judgment of own voice characteristics, judgment of others' voices, college students, 11146

spectrographic voice identification, scientific & legal status as admissible evidence, 11152

voice quality of black vs. white speaker, perceptual characteristics attributed to speaker, 13 yr. old students at all-black vs. all-white vs. integrated junior high schools, 3196

**Volt Meters** 

Volume (Blood) (See Blood Volume)

Volunteer Civilian Personnel

methodology, 5641

biographical & personality & attitude & program variables, initial participation & service duration in campus mental health volunteer hotline program, college students, 3059 citizen participation & control, community mental health programs,

Volunteer Military Personnel (See also National Guardsmen, ROTC Students)

education level, achievement test & attitude scale performance, 1st term enlistees, 10154

Volunteer Personnel (See also National Guardsmen, ROTC Students, Volunteer Civilian Personnel, Volunteer Military Personnel)

changing role of volunteer, community mental health programs,

citizen advocacy program in psychiatric hospital, exposure to nonprofessional community member as friend & social worker & legal counselor, educable retardates being considered for discharge, 5219

CPI predictors, clinical effectiveness in suicide & crisis intervention service, volunteer workers, 11275

formal & informal relationship establishment with mentally handicapped & keeping social service agencies relevant & change-oriented, citizen volunteers, 5278

intervention by volunteers, functional level improvements, institu-tionalized male retardates, 1150

members' role performance, benefits from voluntary organizations, members of voluntary farm organizations, 11015

motivation & positive mental health, work & leisure activity satisfaction, volunteer scout leaders, 5653

pay vs. extra credit vs. love of science recruitment methods, characteristics of volunteers, 4513

socioeconomic & linguistic characteristics of Peace Corps host countries, volunteer's behaviors & credibility, 6698

staffing & volunteer use & financial support problems, suicide prevention & crisis intervention services, 9591 volunteer health planning organization effectiveness, evaluation volunteer organization affiliation & member-organization relations,

Volunteers (Experiment) (See Experiment Volunteers)

Volunteers In Service To America Vomit Inducing Drugs (See Emetic Drugs)

attention & social contact withdrawal, hysterical vomiting, 17 yr. old female, 11527

biofeedback & control of visceral & neural processes, application to treatment of essential hypertension & premature ventricular contractions & tension headaches & vomiting & migraine & Raynaud's disease & production of muscle relaxation in systematic desensitization therapy, 7639

counterconditioning by sips of ginger ale, vomiting habit, 60 yr. old female, 2959

thioridazine & haloperidol & pimozide, antagonism of apomor-phine-induced stereotypy & emesis, dogs, 6308 withdrawal of parental attention, vomiting, retarded child, 7520

**Voting Behavior** 

participation & motivation indicators & elective process perception & voters's sociopsychological characteristics, Yugoslavia, 2290

Survey of Interpersonal Values completed as political figure would, images of political figures & political preferences, 4295 voter participation, former educable mental retardates, literature

review, 9383

Vowels electronic gating, perception of partial vs. complete deletions of consonant-vowel syllables, 11165

identical vowel component & feature-sharing, identification of dichotically presented synthetic stop-vowel syllables, 3623

nature of transconsonantal vowel, terminal formant frequency transition values, college students, exploration of S. Ohman's findings on perceptual correlates, 11167

programed instruction in auditory vowel discrimination, learning rate & transfer to word recognition, severely hearing impaired 5 11 vr. olds, 11886

very short sound duration, vowel sound discrimination, 168

voiced vs. whispered vowel environments, bilabial closure duration for /p/ & /b/ & /m/, normal-speaking young adult males, 835 vowel item speech discrimination, patients with Meniere's disease vs. presbycusis vs. noise-induced hearing loss vs. normal hearing, 11453

Voyeurism

Wages (See Salaries)
WAIS (Test) (See Wechsler Adult Intelligence Scale)

Wakefield Self Assessment Depres

Wakefulness

age & sleep vs. awake states, heart-rate component of orienting &

defensive responses, infants at 6 &/or 12 wk. of age, 10898
awakening during different sleep stages & phases & cycles,
subjective judgments of preceding night sleep duration periods, 492

behavioral activity & posture & eye movement & cortical EEG & EMG observations during wakefulness vs. light vs. deep slow wave vs. REM sleep, tree shrews, 6097

binaurally delivered stimulus intensity change in stage 1-REM vs. stage 2 vs. stage 3 vs. stage 4 sleep vs. wakefulness, auditory evoked brain response, 1834

data collection during sleep & wakefulness, excessive frequency of micturition, 24 yr. old male, 4910

EEG & electroculogram & neck EMG & head movements, undisturbed sleep & wakefulness, pigeons, 341 EEG asymmetry during sleep & arousal, 4yr. old female pilot whale,

EEG, wakefulness, 63 yr. old woman, 8534

electrical rhythmic activity in primary sensory cortex, immobility, unrestrained awake cats, 8556

evoked responses, postulated neural circuit associated with sleep-waking process in lower brainstem, decerebellate intact cats &

transected & transected split preparations, 361
GSR & EEG & EKG & EMG, vigilance & learning & sleeping &
wakefulness & introversion & extroversion, literature review, 6095 kinesthetic & auditory stimulation, duration & amount of sleep & wakefulness, premature infants, 6461

low & high voltage high & slow frequency EEG & EMG sleep & wakefulness, owls, 261

papaverine, wakefulness & sleep, male rats, 3857 prednisone, REM & stage II sleep & eye movement & waking time, 18 22 yr. old college students, 6261

- self-induced altered conscious vs. sensory-bombardment induced altered vs. waking states, clairvoyant perception of art prints in sealed envelopes, 5722
- sleep & wakefulness, synaptic transmission in ventrolateral thalamic nucleus, cats, 8517
- sleep & waking, simple spike firing patterns of cerebellar Purkinje cells, cats, 6168
- sleep & waking, spontaneous discharge rates of cerebellar Purkinje cells, cats, 8530
- sleep stages, signaled vs. unsignaled arousals from sleep, undergraduates, 3592
- somatic & visual & auditory stimulation during wakefulness & sleep, primary cortical areas control, cats with chronically implanted electrodes, 8623
- visual stimulation, concurrent wakefulness & subsequent REM sleep, newborn infants, 10808
- visual stimulation, heart rate, healthy & awake newborn infants,
- wakefulness & NREM & REM sleep, spontaneous discharge transformations of single neurons of parietopreoccipital association cortex, monkeys, 1797

## Wales

suicide rates in Scotland vs. England & Wales, 9389

## Walk In Clinics

conceptualization of patient as customer with legitimate requests & expectations, implication for providing services, walk-in psychiatric clinic patients, 7531

## Walking

restraint of crawling & priming of walking procedure, locomotion, profoundly retarded children, 1199 Walsh Test

### War

- adaptive function of REM sleep, war neuroses, Vietnam war veterans, implications for psychoanalytic theories of dreaming,
- aggression in large groups, necessity for psychoanalytic-sociologic cooperation in formulating explanation, 2274
- approaches to conflict & warfare, sociological literature review from 1883 to present, 2252
- authoritarianism & dogmatism, orientations toward Vietnam War, college students, 6686
- confinement during war under refugee conditions, preoccupation with raising parakeets, Cypriot Turks, 2764
- conflict & aggression & war & international relations, course plan & bibliography, 4293
- ethical & professional responsibility of American psychiatry, policy on Vietnam War, 4556
- exposure to President Nixon's Vietnam speech, pre- & postspeech war attitudes, undergraduates, 6703
- group culture & identity & group-oriented self-esteem, root causes of war, 714
- immediacy of military experience & cognitive style, attitude toward use of military force as national policy instrument, male undergraduates, 2211
- internal-external control, orientations toward Vietnam War, undergraduates, 4297
- limited vs. total war, Vietnam lesson, 11034
- making abstract nature of nuclear war concrete by viewing movie of Hiroshima, sensitization & anxiety & provocation threshold & tolerable casualty threshold, 6687
- picture labeling & ROTC training & humanitarian values, habituation to Vietnam massacre scenes, ROTC vs. nonROTC
- political science research, understanding war & conflict, book, 8972 postcombat adaptation, psychiatric disorders, Vietnam Marine veterans, 4682
- psychological stress & group support, 17-hydroxycorticosteroid concentration in urine, helicopter medics vs. Special Forces members in Vietnam combat situation & officers vs. enlisted men,
- psychosocial & cultural factors, Arab-Israeli conflict, literature
- review, 8888 selective exposure hypothesis, Ss classified as Vietnam hawks vs. doves, 6710
- social & personal power, acquiescence to socially desirable peace proposals, cross-national study of European Ss, 6713
- stereotyped attitudes during war toward Indians & Indonesians & Iranians & Pakistanis & Saudi Arabians & Turks, Pakistani university students, 4300

- strategy & war psychology & war control, book, 10993
- Sykewar propaganda campaign against Nazi Germany & develop-ments since World War II, psychological warfare, book, 2415
- trial of Lt. W. Calley, public opinion, approving vs. disapproving American males, 6702
- wartime social considerations, homicide & suicide rates, 1044
- world population & urbanization & marriage & racism & minorities & education & authoritarian political control & war in Southeast Asia, changing value systems, 8964
- Warning Signal (See Signal Detection (Perception))
  Water Deprivation
- bilateral septal lesions, saccharin preference & water deprivation effects on DRL 20-sec schedule of barpressing, hamsters, 3903
- carbachol vs. eserine vs. norepinephrine applied to diencephalic or limbic regions, deprivation-induced drinking, rats, 1950
- conditioned reinforcement, 1-trial exploration learning, waterdeprived rats, 6339
- food & water deprivation, blood serum osmolality & behavior, rats, 423
- hypertonic NaCl injections & osmotic food inhibition & water deprivation, inhibition of ad libitum feeding, rats, 464
- lateral hypothalamic lesions, facilitation of survival by presurgical food & water deprivation, rats, 3888
- methamphetamine vs. saline, water consumption, 6 vs. 23 hr. water deprived rats, 10639
- postweaning & maze training & exploration & handling, learning & performance, water-deprived rats, 10696
- preference for barpressing with food reinforcement vs. free food & free water, hungry & thirsty rats, 8764
- preweaning handling vs. no handling & rearing in standard cage vs. small mouse cage, post weaning behavior & resistance to food & water deprivation, rats, 2041
- rewarding activity vs. response to increased drive following food &/or water deprivation, wheel running, rats, 521
- sodium barbital, deprivation-induced water consumption, rats, 8641 stomach distention & fluid concentration changes, thirst, water-
- deprived rats, 1865 unexpected aversive stimulus, freezing" & time to return to drinking, water-deprived rats from high avoidance & low avoidance &
- control avoidance strains vs. their parents, 566 water deprivation & CS preexposure duration, taste-aversion
- learning, rats, 6365 water deprivation, acquisition & performance of conditioned taste aversion, rats, 4015

## Water Intake

- atropine vs. amphetamine, induced adipsia, 10628
- bilateral lesions of lateral hypothalamus, weight regulation with high-fat diet & water & sucrose & saccharin solutions, rats, 428
- caloric-equivalent glucose solution & distilled water & food deprivation, self-selection of alcohol solution, rats, 453
- carbachol vs. eserine vs. norepinephrine applied to diencephalic or limbic regions, deprivation-induced drinking, rats, 1950
- conditioned stimulus associated with formalin administration, water & sodium intake, rats, 473
- diode matrix circuit, electronic drinkometer operation during footshock, 1982
- discriminative stimulus, elicitation of water-reinforced responding & drinking, water-satiated rats, 4078
- electric shock vs. no shock, water consumption, random-bred mice, 2014
- genetic regulation, selection for increased or decreased water intake, rats, 8759
- intracerebral implantation of carbachol, water intake & body temperature, rats, 3905
- methamphetamine vs. saline, water consumption, 6 vs. 23 hr. water deprived rats, 10639
- morphine dependency, regulation of drug & water intake, rats, 1955 psychogenic water intoxication, 41 yr. old schizophrenic woman, 7125
- rapid hypobaric hypoxia transition, water & food consumption & body weight & feeding activity, rats, 10783
- schedule-induced polydipsia, inconstancy of drinking bursts, rats,
- septal area vs. cortical lesions & body fluid manipulation, food & water intake, rats, 1948
- septal dysfunction, response alteration on basis of proprioceptive cues & negative response magnitude to unpalatable solutions & water intake & overresponse to positively-motivating stimuli, 2623

shifts from light-dark cycle to constant illumination, water-intake rate in daytime, mice, 529

sodium barbital, deprivation-induced water consumption, rats, 8641 tasting without ingesting by curarizing or infusing flavored solution into oral cavity, taste-aversion learning, rats, 37

water metabolism study, inexpensive cages & drinking tubes, gerbils & rats, 3842

# Water Safety

## Water Transportation

# Weaning

ingestion of food samples at nest site, feeding preferences during weaning wild rat pups, 3997

## Wechsler Adult Intelligence Scale

age & health & sex & profession & education, WAIS verbal & perceptual-motor sections, 60 69 & 70 79 yr. olds, 6586

age, WAIS performance, mentally ill affective & schizophrenic & organic & normal elderly survivors & nonsurvivors, 4 yr. longitudinal study, 4712

automated vs. face-to-face WAIS testing, test-retest reliability, 8210 brain damage vs. no brain damage & right vs. left brain damage,

WAIS factor analysis, hospitalized patients, 2729 correlation with German Wechsler-Bellevue Scale, Wechsler Intelligence Test for Psychiatric Patients applicability, braindamaged patients, 9364

face-to-face vs. automated testing, validity of WAIS, adult psychiatric outpatients & normals, 2615

face-to-face vs. automated WAIS administration, validity study, 16-63 yr. old borderline retardates, 4669

geriatric degeneration & factorial analyses of WAIS, cognitive aptitude structure, 8852

intellectual functioning on WAIS short form & retest 2-3 yr. later,

measuring intelligence test potential vs. potential intelligence, experimental & standard WAIS scores vs. GPAs & verbal productivity, college students, 2479

personality structure & volunteering behavior, affiliation need & influence on WAIS scores, volunteer vs. nonvolunteer secondary school students, 6800

propranolol vs. sotalol vs. placebo, subjective mood self-ratings & EEG & finger tremor & pulse rate & skin conductance & RT & key tapping & card sorting & WAIS Digital Symbol Substitution Test, 19 29 yr. olds, 1895

Raven's Progressive Matrices & German version of WAIS,

behaviorally disturbed 14 19 yr. olds, 4823
social reinforcement, IQ & WAIS Block Design pretest performance accuracy & speed, 20 51 yr. old organic vs. nonorganic retardates, 7286

test interval length & sex, WISC vs. WAIS performance, mentally retarded adolescents, 10100

verbal & performance IQ differences, Wechsler Bellevue & WAIS, 8479

verbal & performance WAIS subtest scores, predicting delinquency, young male adult prison inmates, 7078

WAIS & Holtzman Inkblot Technique scores & patterns, 45-84 yr.
old Veterans Administration Domiciliary non-psychiatric vs. chronic brain syndrome residents, 2160

WAIS & maximum rate of information acceptance, patients with alcoholic dementia, 7201

WAIS performance, moderate to severe idiopathic parkinsonian Ss, 4768

# Wechsler Believue Intelligence Scale

massa intermediata presence vs. absence X-ray area, Wechsler-Bellevue Intelligence Scale scores, 31 40 yr. old neurological patients, 4761

Rorschach records & Rorschach scoring categories vs. Wechsler-Bellevue Test Form I, Klopfer scoring categories factorial unity & intellective factors, normal Ss, 2465

sex, intellectual changes on Wechsler-Bellevue Intelligence Scale & vocabulary & tapping tests, male & female senescent twins, 20 yr. longitudinal study, 577

Stanford Binet Intelligence Scale & Tapping Test & Stroop Color Word Test & Memory For Designs Test & Wechsler Bellevue Intelligence Scale, 77 88 yr. old twins surviving from Ss studied 20 yr. earlier, 304

thalamotomy, Wechsler-Bellevue & Raven's Progressive Matrices & Rorschach Test performance, 32 66 yr. old Parkinson's disease patients, 7688

verbal & performance IQ differences, Wechsler Bellevue & WAIS,

# Wechsler Intelligence Scale Children

assessment for program evaluation purposes, Wechsler Preschool & Primary Scale of Intelligence & WISC, culturally deprived 6 yr. olds, 5576

Bender Visual Motor Gestalt Test & WISC scores, 6 13 yr. olds with Duchenne muscular dystrophy, 7234

ethnic background & white urban culture contact & training in WISC Similarities & Block Design strategies, verbal regulation of behavior & IQ, 6 15 yr. old Indian vs. white Canadians, 4221 induced anxiety, WISC Performance & Full Scale IQ, high school students, 7918

item-order & composition of word-list, Netherlands version of Hamburg Wechsler Intelligence Test for Children, 8-13 yr. old Dutch children, 5804

parental occupation, criterion for standardization of WISC, black vs. white elementary school children, 9933

personality assessment system of J. Gittinger with personality trait inference from WISC, differential diagnosis, children in 9 diagnostic groups, 2772

Piagetian tests & WISC & Early School Personality Questionnaire & Rorschach Test performance, kindergarten through 3rd grade longitudinal study, 6486

pilot class utilizing multisensory training & educational team approach, visual-perceptual-motor skills & WISC Verbal IQ & Stanford Achievement Test, elementary students with reading problems, 3129

Primary Mental Abilities vs. English vs. Spanish WISC vs. Picture Motivation Scale vs. Kohs Block Designs vs. Raven Coloured Progressive Matrices, predictive validity, Mexican American educable mentally retarded children, 11932

reliability & validity & predictive validity, French version of WISC adapted to Congolese, 7-15 yr. olds, 5745
Slosson Intelligence Test vs. WISC validity, 8 14 yr. old students

referred to reading clinic, 7852

subtest estimates by socioeconomic & sex & ethnic factors, WISC Full Scale IQs, 6 11 yr. olds, 3255

Terman Attitude-Interest Analysis Test Form A vs. WISC verbal scale scores, written vs. oral efficiency in similar tasks, 10 16 yr. olds, 10046

test anxiety & test conditions, intratest scatter & internal consistency on WISC Comprehension subtest, 5th graders, 8033

test interval length & sex, WISC vs. WAIS performance, mentally retarded adolescents, 10100

testing in English vs. in Spanish through interpreter, WISC performance, 1st grade Mexican-Americans, 12095
validity & application to ethnic populations & use in special
education, WISC, literature review, 1960 1970, 5589

verbal- vs. no-approval test administration modes, WISC perform-

ance, lower- vs. middle-class 3rd graders, 7811 Wide Range Achievement Test Reading scores & teacher ratings & WISC scores, reading deficit & emotional overlay & reading

success prediction, disabled readers, 11949 WISC & Wide Range Achievement Test & Illinois Test of Psycholinguistic Abilities, intellectual & achievement & psycho-

linguistic ability patterns, learning disabled vs. emotionally disturbed 6-9 yr. olds, 3164 WISC classification value, studying learning-disabled & culturally disadvantaged pupils, 5476

WISC IQ & sex & parental occupation & social class & teacher behavior, classroom task attention & avoidance & administrative time, young children & student teachers in infant classrooms,

WISC performance scale, quantitative retardations & qualitative perturbations in cognitive processes, dyslexic 7-10 yr. olds, 4751

WISC profile, diagnosing reading problems, poor readers, 5448 WISC scores & number of offenses & race & age & urban vs. nonurban residence, male juvenile delinquents, 2685

WISC subtest administration on different test occasions, intellectual differentiation, 6-11 yr. olds, longitudinal investigation, 2158

WISC Verbal Section item appropriateness, IQ testing, Mexican-American children, 3121

WISC, differentiation of organic vs. familial vs. pseudo mental defectives, 5233

# Weight (Body) (See Body Weight)

# Weight Perception

adaptation level theory & anchor theory & peak shift phenomenon, weight discrimination, college students, 8313

anchor effects, relative judgment of weight, evluation of H. Helson's adaptation-level theory as predictive device vs. V. Sarris's competitive model, 180

anchor value, adaptation level in weight judgments, 4.8 5.8 vs. 6 7 & vs. 7.8 8.7 vs. 12 12.11 yr. olds, 4254

anchor weights, response biases in lifted weight judgments, discussion of I. John's study & John's response to criticism, 137

difference thresholds for helmets, perception of symmetrically distributed weight on head, 18-38 yr. old Army enlisted men,

field-dependency, weight comparisons, college students, 3544

magnitudes estimation vs. rating scales, internal & external consistency of weight measurements, college students, 8260

neuroticism & extroversion-introversion & induced motivation, efficiency acquisition in weight estimation, 4520

oral form recognition & interdental thickness & interdental weight discrimination, normally speaking Ss, 3633

size cues vs. no cues, weight perception, congenitally vs. adventitiously blind Ss, 7191

subjective standards vs. kinesthetic images vs. adaptation level, category judgments of lifted weights, college students, 120

Welfare (See Welfare Services (Government))

Welfare Services (Government)

adherence to Protestant Ethic, attitudes toward poverty & social services, rural community adults, 2310

age & labor force participation & income & occupation, opinions of government program of medical aid for needy, 6755

community mental health approach, welfare mothers, 2799 outpatient clinic for social welfare patients, admission & readmission statistics, 2824

psychiatric outpatient treatment in private hospital for social welfare patients, follow-up, 2821

psychotherapy in social welfare out-patient service, 47 yr. old female

sociological correlates, self concept, Negro welfare mothers, 8891 youthful life style behavior & self image & age, perception of poverty & old age, aged welfare recipients, 2196

Welsh Figure Preference Test

Wepman Test Of Auditory Discrim

culture-freeness & validity, Wepman Test of Auditory Discrimina-tion & Harrison-Stroud Reading Readiness Profiles & Illinois Test of Psycholinguistic Ability, discussion of literature, 5395

repeated testing & contrasts using Wepman Auditory Discrimination Test, phonological discrimination assessment, kindergartners & 1st graders, 4151

Wernickes Syndrome West German Federal Republic

age & grade level & country & school system & sex, creative discontinuity, 8 12 yr. olds, England & Scotland & Germany, 6569

attitudes toward mental illness, college students & physicians & police & nurses in Great Britain & Czechoslovakia & West Germany, 7217

current trend toward Adlerian theory, psychoanalytic ego psychology, Germany, 2907

early history & programs at Freiburg Institute, parapsychology, Germany, 5702

history & significance of old Berlin Psychoanalytic Institute, survey of 1920 1933, 7360

mental disorder incidence rate, elderly, Mannheim, West Germany,

methodology in German psychology, review of article content in journals from 1905 1967, 10189

personality variables, ethnic prejudice toward West Germans, Czechoslovakian Ss. 6753

psychoanalysis & psychotherapy in Germany, 1933 1949, 4992 psychoanalysis in Berlin, 1950 1970, 5108

sexual attitudes & behavior, college students in U.S.A. vs. Canada vs. England vs. Norway vs. Germany, 8945

societal influences, perception of social vs. political intervention for organizational success, college students from United States & Britain & Netherlands & France & West Germany & Sweden, 1390

West Indies

West Pakistan

changing role & status of professional women, survey of working women in Pakistan, 4371

social class & income & education & occupation, mental disorder

type, Pakistani psychotics & neurotics, 4600 stereotyped attitudes during war toward Indians & Indonesians & Iranians & Pakistanis & Saudi Arabians & Turks, Pakistani university students, 4300

White Betz A B Scale

Whitehorn-Betz vs. Schiffman, Carson & Talkenberg scale vs. Campbell, Stephens, Uhlenhuth & Johansson scale, selection of A & B therapist types, 7061

White Blood Cells (See Leucocytes)

White Collar Workers (See also Accountants, Clerical Personnel, Management Personnel, Middle Level Managers, Sales Personnel, Secretarial Personnel, Top Level Managers)

directionality of transitory dominance in jokes & cartoons depicting superior-subordinate relationships, humor appreciation, college students & professionals & businessmen, 4460

social isolation & competence, organizational identification, whitecollar electronics laboratory workers, 8133

White Noise

continuous high intensity white noise vs. quiet, sleep cycle, college students, 10584

language habits & background noise, understanding letter sound sequences, bilingual & unilingual Ss, 3574

tone alone vs. tone plus monaural noise vs. tone plus dichotic noise, auditory autokinesis, normally hearing Ss, 10310

white noise in speech discrimination tests, diagnosis of hearing impairments, normal & hearing impaired, 9644 white-noise burst intensities interstimulus intervals, eyeblink vs.

vertex potential plasticity, 16-29 yr. olds, 1796

White Rats (See Rats) Whites (See Caucasians)

Wide Range Achievement Test

reading & arithmetic subtests of Wide Range Achievement Test, school achievement, 6-11 yr. olds, 3309

Wide Range Achievement Test & WISC, Peabody Individual Achievement Test validity, normal & reading disabled & retarded 7 16 yr. olds, 7985

Widowers

depression vs. nondepression, reaction on 1st anniversary of spouse's death, widows & widowers, 2582

loneliness & isolation & demographic characteristics, hot line" for widowed callers, 7344

social & demographic factors, widowed people living alone, 6664

depression vs. nondepression, reaction on 1st anniversary of spouse's death, widows & widowers, 2582

loneliness & isolation & demographic characteristics, hot line" for widowed callers, 7344

social & demographic factors, widowed people living alone, 6664 urbanization & industrialization & increasing societal complexity, social relations & life styles, widows over 65 yr. old, review, 10992

Wilcoxon Sign Rank Test Williams Intell Sc Child Def Vision

Wilson Patterson Conservatism Scale Wilson-Patterson Conservatism Scale, social attitudes, Salvation Army Officer cadets & members of Young Humanist Association, 6778

Windigo Psychosis Windward Islands

WISC (Test) (See Wechsler Intelligence Scale Children) Wishes (See Motivation)

Witchcraft

Withdrawal (Coltus Interruptus) (See Coitus Interruptus)
Withdrawal (Defense Mechanism)

withdrawal (Detense Mechanism)
hospitalization length & withdrawal & affective flattening & grid
scores & age, psychological construing, schizophrenics, use of D.
Bannister & F. Fransella's grid scores, 11513
Withdrawal (Drug) (See Drug Withdrawal)
Withdrawal Effects (Drug) (See Drug Withdrawal Effects)
Wittgo Psychosis (See Windigo Psychosis)

Wives (See also Housewives)

attitudes toward abortion, married women, Toronto, Canada, 4269 disparagement by wife, male impotency, 7222

general & death anxiety, home vs. hospitalized dialysis patients & wives, 2679

infertility, neuroticism, infertile vs. fertile women & their husbands,

social stigma associated with psychiatric hospitalization of fathers, social identity & personal identity & ego identity, patients' wives & children, 9555

wives' work aspirations & children's needs & community activities & relatives & friends & voluntary association linkages & physical & social environment & working conditions, job movement, 1460 work intentions & nonfinancial vs. financial reasons for working &

changes in stages of life cycle & having children & career aspiration, work commitment, married women, 1418

agonistic behavior control & dominance relationship ontogeny & nonaggressive playful interaction development & cohabitation, social interaction development, 21 50 day old coyotes & beagles & wolves & coyote-beagle & wolf-malamute hybrids in dyads, 1972

reactivity & exploratory behavior & prey-killing ability & pack integration & activities coordinated by socialization & social facilitation & leader-follower relationships, individual differences responses to animate & inanimate moving & nonmoving stimuli, wolf cubs, 1996

Womens Liberation Movement

acceptance vs. rejection of traditional feminine role as reflective of personal identity, women participating in women's liberation groups vs. nonparticipators, 6648

course description & evaluation of Woman in Crisis" curriculum, current status of women's studies courses & programs, male & female college students, 12103

demographic variables & cooperation & competition & personality, high vs. low sympathy towards Women's Liberation Movement, female college students, 2279

feminist movement origins & issues & accompolishments, book, 695 feminist movement, contemporary problems relating to stereotypes & roles & achievement motivation, females, 8949

personality differences, feminists vs. female undergraduates vs. noninstitutionalized vs. institutionalized elderly women, 6941 psychoanalytic reflections, women's liberation, 4325

sex roles & Women's Liberation Movement, 10971

Women's Liberation movement participation, personal growth & actualization, American women, 10954

women's liberation, family stability & gender identity & emotional welfare, adults & youth, 709

Word Associations

acupuncture, Bourdon's test & numerical square & word association test performance & spontaneous & task tapping, students, 10624 association level & category membership & cues, free recall & clustering, college students, 10459

associations to key words from dream symbols, visual & graphic displays of language patterns & psychodynamic associations, oral-dependent 40 yr. old hospitalized male, 7317

associative & cognitive processes, clustering in free recall, elementary school students, 8830

associative strength & word frequency, paired associate learning stages, 3691

associative vs. rhyming cues vs. both, word clustering & free recall, undergraduates, 3671

associatively related vs. unrelated words & free vs. cued recall, independent vs. dependent storage, college students, 6079

categorical & grammatical scoring systems, word association, college students, 11174

category size, semantic-memory retrieval, 6007

context supporting weak associates, adherence to strong verbal meaning definitions, schizophrenic & neuropsychiatric & braindamaged patients, 9415

distance between related words, semantic relationship identification, undergraduates, 10434

fluency & verbal ability & extroversion & neuroticism, wordassociation commonality, college students, 5992

free associational vs. judgmental selection vs. random selection methods of compiling lists of semantically unrelated words, free recall, college students, 5919

frequency of stimulus, naming category members for nouns & adjectives, college students, support for noun categories organization of semantic memory store, 6016

good bad connotation & differential vs. single cue training, semantic generalization, female high school & college students, 3727

instructions to reproduce earlier associates vs. instructions to give 1st occurring associates, probability of repeating associates, college students, 10443

lists containing related words in middle vs. at end vs. unrelated words, free recall, college students, 5973

meaningfulness & common associates, paralogs & words of CVCVC format, 6881

measures & need for theoretical approaches, category clustering, 5946

phonetic vs. imaginal word features, processing low imagery abstract vs. high imagery words, college students, 10473
picture vs. word manipulations & relevant value relatedness, rule-

learning problems, college students, 5928

recognition responses to single words from short active sentences, semantic constraints on location operations in simple sentences, college students, 5999

reliability for British use of image-evoking value ratings of words, British & Canadian students, contributions to A. Paivio & J. Yuille & S. Madigan's word lists, 1734

remote associational ability & type of verbal stimulus & serial position of response, response frequency on paired association task, high school students, 10442

repression-sensitization & sexual stimulation, associative responses to double entendre words, college students, 4491

retention interval & word association long-term retention of conditioned attitudes, 10470

retrieval & recognition processes, free recall model for computer program, 16 32 yr. olds, 10383

schooling amount, paired-associate & verbal-discrimination learning & retention & associative & acoustic memory encoding & word associations, average 10.4 yr. old Colombian children, 2120

sex & institutionalization, coordinate & functional & subordination word associations, schizophrenics vs. normals, 4662

sex vs. repetition vs. belonging together, recall of nouns from adjective-noun pairs, college students, 6083

speech rate & selection difficulty & association strength & mental aptitude, learning by listening, 18 25 yr. old males, 1769 sports-related vs. nonsports-related words, emotional reaction in

word association test, international target-shooting competitors, 10472

stimulus-primary pairs, synonym responses in free association, college students, 1768

verbal labels, picture meaning & meaning recall, 8470

Word Association Test & GSR before competition, emotional reactivity rate, top athletes, 1735

word associations, constructing cogent assertions & messages, crosscultural analysis, 6768

word associations, Caucasian vs. Negro junior high school students, 11001

word relationships, false recognition, mentally retarded vs. MA vs. CA matched normals, 7218

word-matching & directed word association tasks, syntagmaticparadigmatic shift, 7 yr. olds, 4119

Word Blindness (Aphasia) (See Aphasia) Word Blindness (Dyslexia) (See Dyslexia)

Word Deafness (See Aphasia)

**Word Frequency** 

age & grammatical development, lexical & function word disfluencies, 3 6 yr. olds, 649

age level & word frequency, reading speed, 1st graders to graduate students, 10823

associative strength & word frequency, paired associate learning stages, 3691 context & frequency & grade level, ability to determine denotative

word meanings, average intermediate grades, 11822 continuous sequential presentation of meaningful words, frequency

& familiarity judgments, college students, 3643

developmental differences & word frequency, selection strategies in verbal discrimination learning, 4th grade to college level students,

frequency of occurrence in English language, object-naming latency, 7 10 yr. old stutterers, 11342

function word deletion, text reduction & information loss & reading comprehension, 7th graders, 6072

high vs. low value & need scores, relevant word frequency estimation, college students, 4518

normative frequency & list size, correct word selection from list of

category members, undergraduates, 3672 sequential reinforcement contingencies, number of total words & different & new words in composition writing, male 5th graders,

solution-word difficulty vs. summed digram frequency, anagram solving & relative transition probability, undergraduates, 3747

subjective magnitude estimation vs. objective count method, word frequency, lexicographers & other adults, use of S. Steven's method, 11150

transition probability & word frequency, anagram solving, college students, 10428

Word Meaning

between-S agreement, strength of oppositional relationship between word pairs, 4462

conservation vs. nonconservation, semantic distinction of lexically marked adjectives, 3rd 6th graders, 4129

context & frequency & grade level, ability to determine denotative word meanings, average intermediate grades, 11822

context supporting weak associates, adherence to strong verbal meaning definitions, schizophrenic & neuropsychiatric & braindamaged patients, 9415

control & nurturance in maternal childrearing, non dominant word meaning identification & scanning & word associations, male undergraduates, 2468

ego functioning & family subculture, learning word meanings, stuttering & nonstuttering primary school boys, 11511 emotional responses classically conditioned to words, social

behavior, bibliography, 10508 empirical judgments of adjectives denoting feeling, college students,

food deprivation, salivation to lists containing food & nonfood words, college students, 6067

good-bad connotation & differential vs. single cue training, semantic generalization, female high school & college students,

high-priority events inserted in lists of common words, recognition of adjacent items, college students, 8461

interaction of likeableness adjectives, nonadditivity of impressions, 11044

intra- vs. cross-modal testing & clause position & intonation contours & lexical material, word recognition latencies, male undergraduates, 1679

intralist similarity, word recognition learning & recall, educable retarded children. 3117

meaning & graphic familiarity, visual word recognition, 3576 meaningfulness & common associates, paralogs & words of CVCVC

format, 6881

multidimensional scaling method of W. Torgerson, analysis of words for typical emotions, 6912

negative estimations for emotional word pairs, replication & reanalysis of G. Ekman's multidimensional scaling model for positive similarities, 3712

pictorial representations of concrete & abstract noun pairs drawn by Ss, associative learning of noun pairs, undergraduates, 3762

production of personality concept words with negative prefix, semantic differential scale construction, adults vs. 15 yr. olds vs. 10 yr. olds, 2428

pronounceableness & imagery & concreteness & associative meaningfulness & familiarity & Thorndike-Lorge frequencies of nouns, index of defineability, college students, 2419

psychopathological terms, ratings of connotative & denotative meaning, psychiatrists vs. psychologists, 10197 ratio scale measurement, subjective intensities corresponding to

verbal expressions, 6896

repression-sensitization & sexual stimulation, associative responses to double entendre words, college students, 4491

right vs. left brain damage, forced-choice semantic differential

judgments of connotative meaning, aphasia patients, 7127 same word & color vs. word named different color vs. neutral word vs. nonword, response competition vs. encoding interference in color-naming, 8402

semantic & phonetic preference test, separation of word sounds & meanings, 4 9 yr. old Afrikaans-English bilinguals vs. unilinguals, 10858

semantic conception of syntactic relations within transformational grammar framework & lexical meaning structure, semantic structural meaning, 2423

synonyms vs. antonyms generation, synonym vs. antonym vs. original word recognition, college students, 10403

taboo & neutral words, state anxiety & RTs, male bilingual students, 10432

word meaning recall, lexical structure, 5-6 vs. 11-12 vs. 18-20 yr. old males, 8834

word meaning, role in verbal learning & recall, 3700

word relatedness, recall & recognition, undergraduates, 3702

Word Salad

Words (Form Classes) (See Form Classes (Language))

Words (Origin) (See Etymology)

Words (Phonetic Units)

& grammatical development, lexical & function word age disfluencies, 3 6 yr. olds, 6497

category dominance & instance dominance, categorization time for
